Chapter 2801: Sacred Phoenix Race's Surprise (4)

"If one wanted to cross the Soul Connection Ocean with tenth stage realm cultivation and find the path to Sacred Phoenix Continent, that person would meet with a lot of difficulties. Spending a few months is rather normal. This bit of time would be enough to complete one round of initiation!"

Huang Tianhao muttered irresolutely, "We cannot afford to waste this amount of time! So, This Clan Leader has decided to send an experienced Elder to receive this god grade genius. Once you receive that person, bring him back to Ice Moon Summit directly. In this way, we can save a lot of time! I wonder... which Elder is willing to volunteer?"

The entire hall suddenly quietened down upon hearing his words.

Everyone exchanged looks but did not say a single word.

It wasn't because they didn't want to volunteer for this, but rather.... Everyone wanted to go!

Those present were all people who had lived for thousands of years. Everyone knew that it was a wonderful task to receive this god grade genius!

No matter what level the Lower Realm practitioner was, as soon as he came back to God Realm's direct descendant branch, he would definitely join that branch and acknowledge that Elder as his Master.

Moreover, when Lower Realm practitioners came to God Realm, they would be unfamiliar with the place. They were also different from those geniuses who originally come from different branches.

So it could be said that whoever offered a helping hand to that lower realm practitioner would be able to take him under their wing!

The Elder who was sent to pick up the god grade genius could be said to be the first link to the god grade genius. That Elder was also the first to express his kind intentions. By then, the god grade genius would most likely choose to join that Elder's branch!

This was a profitable deal!

God grade geniuses would definitely become Sacred Phoenix Race's greatest reliance. So by then, his Master would definitely rise in power as well. With the god grade genius's support, the Elder might get the opportunity to take up the position of Clan Leader in the future!

Who wouldn't want to fight for such a wonderful task?

As expected, after a short moment of silence, all the Elders started to promote themselves.

"Clan Leader, our branch is the closest to Soul Connection Ocean and I understand the Ocean very well. So I'm the most suitable person to go!"

"Clan Leader, although our branch is slightly further, it's an honor to offer our services for the clan. We're not afraid of the distance!"

"Clan Leader, we..."

Everyone started to talk and none of them were willing to be left behind. They were deeply worried that they might miss out on this once-in-a-lifetime opportunity!

Some slightly bad-tempered Elders couldn't help arguing with those people around them. The scene suddenly went out of control.

Huang Tianhao had a headache from seeing this scene so he quickly coughed and raised his voice. "Alright, will everyone please quieten down! This Clan Leader understands your intentions... so stop arguing!!"

Seeing everyone finally turning silent, he frowned and started to look at all the Elders from left to right.

In the end, he picked an elderly man who was standing on the left front row. "Elder Sanbai, can I... trouble you to make this trip?"

All the Elders originally were looking intently at Huang Tianhao, preparing to raise objections to his choice so that they could fight for the benefit.

But when Huang Tianhao pointed out to that elderly man, everyone turned silent.

Elder Huang Sanbai's rank was much senior to Clan Leader Huang Tianhao by two generations. He was the most experienced Elder in Sacred Phoenix Race's history and was a respected figure within the clan.

In terms of prestige, very few people could compare with him.

Chapter 2802: Advance! Tenth Stage Realm! (1)

The most crucial thing was Huang Sanbai's eldest grandson was the most outstanding heaven grade genius among the younger generation in Sacred Phoenix Race. Unfortunately, just a few months ago, he died while trying to complete a dangerous mission for the clan.

Heaven grade geniuses were very rare and not every Elder had such outstanding grandchildren. Moreover, Huang Sanbai's eldest grandson was one of the famous genius practitioners among the heaven grade geniuses.

Huang Sanbai's only hope for their branch was all focused on him. However, he died accidentally when he was in tenth stage realm cultivation!

This blow, to Huang Sanbai's branch, was extremely serious!

Very few clansmen talked about this, and they were extremely quiet over this.

Now that Huang Tianhao chose Huang Sanbai to make this trip, he probably meant it as a sense of compensation.

Moreover, based on Huang Sanbai's experience, very few people would be able to snatch this opportunity from him.

When Huang Sanbai heard that, he immediately revealed a delighted look. Quickly cupping his fists, he said, "Thank you Clan Leader Sir for trusting me. I will do my best to complete this task. Today, I will set off to the Soul Connection Ocean. As soon as the god grade genius ascends, I will definitely bring him back!"

Huang Tianhao nodded his head and smiled, "This Clan Leader is most assured about Elder Sanbai's ability!"

In this way, the matter of receiving the god grade genius was settled.

A few Elders were still not resigned to this and kept trying to find various ways to fight for this chance, they weren't able to change Huang Tianhao's mind.

Huang Sanbai was also very enthusiastic. He didn't dare to waste time and hurriedly headed towards the Soul Connection Ocean in the night.

...

On the other end, Soaring Heavens Continent.

In the inheritance tower's secret room, Huang Yueli was still seated in front of the <<Mystic Nine Skies Phoenix Painting>>, totally absorbed into comprehending the conceptualization inside the drawing.

She naturally didn't know what kind of commotion she had stirred up among the God Realm's Sacred Phoenix Race branches!

Even if she did know about it, she had no energy to pay any attention.

To Huang Yueli, her comprehension was at an extremely critical juncture.

Inside the drawing, the raging flames soared to the sky. Huang Yueli's petite frame was engulfed within. She was like a little boat in a storm, facing the danger of capsizing at any moment.

Whereas the fiery blaze around her was not just giving off eye-piercing red glows. Sometimes, different colours could be seen sparkling as well.

In actual fact, these colours represent different attributes.

When the other attributed energy and fire attributed energy were mixed, they mutually repelled and mutually fused together. It gradually formed into an even stable and powerful energy flow.

Huang Yueli stood in the surging flames with her eyes tightly shut, as she kept trying to sense the roving energy within.

"Wind, Water, Metal, Earth... a portion of these various energies could merge with fire-attributes. But this fusion is very limited. Only by grasping the different attribute structures ratio would I be able to make it display even stronger energy..."

"A fusion of the various attributes of energies..."

"This is... fire attributed sixth stage conceptualization, return!"

An epiphany suddenly appeared in Huang Yueli's mind, and she waved her right hand!

A shockingly powerful flame appeared from her body, with its usual aura, charging towards the fiery blaze around her!

The flames which were formed by various energies were totally not a match for this flame. It started to shatter, turning into shattered pieces of runes that flowed around. It surged towards Huang Yueli's mind...

Chapter 2803: Advance! Tenth Stage Realm! (2)

Huang Yueli shut her eyes tightly, sensing the various complicated information that was flowing into her brain.

This time, the complexity of the runes was much stronger than in previous times!

Her mind buzzed and she sensed an intense wave of dizziness. Her complexion also started to turn pale.

Sixth stage conceptualization runes were just too complicated. It had surpassed her expectations by a lot and it made her feel unbearable. It almost impacted her soul trace, causing a serious injury.

Huang Yueli didn't dare to slow down and immediately activated the Sky Phoenix Ring, taking in a large portion of the runes!

But even so, her mind was still dizzy. Those runes kept swimming around her eyes, which made her unable to cool down and think.

At this particular moment, Huang Yueli was feeling remorseful!

She had underestimated the sixth stage conceptualization difficulty. She assumed that she had the Sky Phoenix Ring with her so she didn't stop and started to comprehend the runes without any rest or intentions of easing the flow!

If it wasn't for her good luck and also a rather powerful soul trace, she might be injured this time!

"Looks like I have to be more careful next time! I cannot afford to be so rash again! Luckily, the sixth stage conceptualization has already been taken in successfully, so I can slowly comprehend it... the difficulty of the seventh stage conceptualization is too high. After I finish comprehending the sixth stage conceptualization, I should prepare myself to leave this place..."

Huang Yueli silently thought to herself on her next course of action while comprehending the runes.

She didn't know that she had just created a miracle and didn't intentionally risk her life to break some record. In comparison, she was willing to steadily advance within the acceptable range. After all, the most important thing to her at this current stage was to ascend to God Realm and reunite with Li Moying.

As long as she could reach the tenth stage realm, she would be able to think of ways to raise her ability when she went to God Realm.

God Realm's resources... should be much better than Soaring Heavens Continent?

Huang Yueli made up her mind and sat cross-legged on the ground. She was totally focused on the process of comprehension and quickly went into a state of anatta.

...

Outside the drawing, Huang Zixiao and Little Wang Cai were watching Huang Yueli, who was still seated in front of the <<Mystic Nine Skies Phoenix Painting>> intently with their eyes wide open. They didn't even dare to blink at all.

Ever since she comprehended the fifth stage conceptualization and triggered the former clan leader's spiritual imprint, the two of them had not left at all!

Huang Zixiao was truly shocked!

A ninth stage realm on her first try in comprehending conceptualizations had comprehended fifth stage conceptualizations!

This meant that when she ascended to God Realm, she would immediately advance to Dream Profound Realm mid-phase.

So, this was the abnormal existence of god grade geniuses!

After experiencing god grade genius's true ability, Huang Zixiao did not dare to slack off. He was worried that Huang Yueli might fall into a situation when he wasn't paying attention. So he simply stayed by her side, waiting for the moment for her ascension.

Whereas for Little Wang Cai, it was glad that Huang Zixiao had no time to bother about it. So it could be lazy!

However, as Little Phoenix was worried about Huang Yueli, it chose to stay next to her, hoping to give her some encouragement.

"Female Devil, you can do it! Quickly bring me to God Realm to find my brother..."

Perhaps Little Wang Cai's prayers were effective, an obvious Profound Energy fluctuation suddenly started to stir up in Huang Yueli's body!

Huang Zixiao immediately noticed this and ran up to her. He agitatedly stood right next to her!

Chapter 2804: Advance! Tenth Stage Realm! (3)

While she was comprehending the fifth stage conceptualizations, she had already reached the ninth stage realm. Moreover, her Profound Energy was speedily rising. Very soon, she entered ninth stage realm peak.

Now, there were evident signs of upgrade in her Profound Energy, this meant that she was already standing on the doorstep of the tenth stage realm!

Little Phoenix also ran over excitedly. It propped its cheeks with both arms and looked at her side view in anticipation.

Huang Yueli's Profound Energy fluctuations were getting stronger by the minute.

At the same time, the sweat on her forehead was dripping down quickly. Her body temperature also increased gradually.

The secret room's Heaven and Earth Profound Qi's intensity was originally much stronger by ten times the outer world. Right now, the intensity of the Profound Qi was being led along and gathered around her. It formed into a Profound Qi vortex, enveloping her in between!

This kind of thick Heaven and Earth Profound Qi became Huang Yueli's best aid in advancing!

As compared to the time when Li Moying was advancing into the tenth stage realm, she had it much easier!

Huang Zixiao also controlled the arrays within the inheritance tower, trying his best to ensure that the Heaven and Earth Profound Qi in the secret room would keep accumulating, to help Huang Yueli advance!

It only took one hour and a distinct Sacred Phoenix Reflection could be seen behind her back!

This virtual image was much larger and luxurious than the previous two times when she advanced. It totally occupied the inheritance tower's space!

Little Phoenix sensed the familiar energy contained in the Sacred Phoenix Reflection and couldn't help but flap its wings to fly towards the Reflection!

However, Huang Zixiao wasn't having it easy. He looked at Huang Yueli who sat still all this time, and his face revealed an anxious look.

Because until now, Huang Yueli was still maintaining a connection with the <<Mystic Nine Skies Phoenix Painting>> and her soul trace was still trapped within the drawing!

He was well aware of the situation. It was evident that Huang Yueli was still comprehending the conceptualization. He didn't know if she couldn't bear to come out or was it because she had reached a critical point in her comprehension process with no way to break it off easily!

But no matter what the reason was, maintaining the current state was an extremely dangerous matter for her.

She was about to advance so even if she was at an important juncture of comprehension, she should immediately leave the drawing!

Otherwise, even if she could advance successfully, she would have to face the heavenly tribulation immediately!

Heavenly tribulation wasn't a joke. Even if her innate talent was very high, she had to use all her efforts to fight against it. If her soul trace was still within the drawing, it was no different from digging her own grave!

Huang Zixiao's brows grew tighter and tighter. The distance between his hand and Huang Yueli's shoulder was only an inch away. But he just couldn't decide if he should forcefully disengage her from the drawing!

This was his first time encountering such a situation. Perhaps this was his first time encountering a ninth stage realm practitioner who was comprehending the fifth stage conceptualization of the <<Mystic Nine Skies Phoenix Painting>> at her first try.

Because of this, there had never been any other practitioner encountered an advancement while they were in the middle of comprehension!

Following the passing of time, Huang Yueli's body temperature rose, and the entire secret room radiated scorching fire-attributed energy, as though it was about to burn up!

Huang Zixiao was burning with anxiety. On seeing Huang Yueli's impending advancement, he had no other choice but to prepare himself to interrupt her comprehension.

But just as he was about to stretch out his hand, Huang Yueli's body suddenly swayed!

Chapter 2805: Advance! Tenth Stage Realm! (4)

Immediately following that, Huang Yueli opened her eyes.

That usually sparkly eyes unleashed a kind of substantial powerful essence!

Huang Zixiao exchange a glance at her and was instantly shocked. It took him a couple of minutes before he came back to his senses.

He said joyously, "Lass, you... you're finally awake! How do you feel? Do you feel uncomfortable anywhere?"

Huang Yueli didn't say a word but weakly nodded.

Huang Zixiao heaved a sigh of relief. "That's great! There's not much time left! You should have sensed it already, you're almost going to break through to the tenth stage realm! Let's get past this hurdle in front of you then chat!"

Actually, without his reminder, Huang Yueli could also sense the tremendous change in her body!

Previously when she was in the <<Mystic Nine Skies Phoenix Painting>>, even though her soul trace was inside the drawing and she had already left her physical body, but she instinctively took in a lot of Heaven and Earth Profound Qi during her advancement! It was so full that it was enough to burst her meridians!

Following the rapid flow of her Profound Energy in her meridians, a scorching aura rose from her Dantian and charged to her head! It caused her consciousness to be impacted!

Whereas now, it was the crucial moment when she was comprehending the sixth stage conceptualization. Originally, her soul trace was already having a hard time trying to accommodate the sixth stage conceptualization runes. Her brain kept twitching in pain and now, under the flourishing impact of Profound Energy, it caused her a splitting headache!

This time, even if she was in the drawing, Huang Yueli knew that her physical body had met with an extremely dangerous crisis.

Helpless, she could only choose to stop comprehending and forcibly give up.

Luckily, in the world of the <<Mythical Nine Skies Phoenix Painting>>, everyone was structured based on the former clan leader's consciousness. So the rules in the drawing were not affected by the outside world.

Huang Yueli silently chanted "Give up" in her mind and it only took a blink of an eye before her soul trace was rebounded and returned to her body.

By the time her senses resumed back to the original place, Huang Yueli then realized that she had unknowingly reached the step of breakthrough to the tenth stage realm!

Before she could even feel happy, she sensed the uncontrollable Profound Energy within her body. It was just about to lose control as it crazily impacted her Dantian!

In this way, not only would she not be able to breakthrough smoothly, her chest was even feeling a twitching pain which almost caused her to throw up blood!

She tried her best to contain the discomfort and sat cross-legged on the spot, which was a standard cultivation pose. At the same time, she congealed her senses and focused all her attention as she started to work up the ninth turn in the <<Nine Phoenix Transformation>> cultivation method! She managed to control the rampaging Profound Energy and gathered it once again.

Through her hard work, the Profound Energy in her meridians started to flow as per normal. Under her willpower, she congealed it and started to charge towards the tenth stage realm!

Huang Zixiao was relieved to see that. He shuffled back so that he would not disrupt her. He sat quietly waiting to see the birth of the youngest tenth stage realm practitioner in the entire Sacred Phoenix Race's history!

Half of the sky in the inheritance tower was occupied by the huge Sacred Phoenix Reflection. It opened its wings and rummaged. Following the flapping of its wings, the powerful fire attributed energy kept unleashing and slowly gushed towards Huang Yueli, merging into her meridians...

Finally, her surrounding aura reached a critical point!

Chapter 2806: Whose Phoenix is this? (1)

Sacred Phoenix Reflection raised its head and gave off a shrill cry!

The intense Profound Energy fluctuation caused the entire inheritance tower to shake slightly!

Huang Zixiao looked at Huang Yueli whose forehead was full of sweat, and she looked slightly disheveled. His lips curled into a satisfied smile.

This lass... she had finally advanced!

Huang Yueli sat upright for a moment to allow the scuttering Profound Energy to go back to its place. Her aura gradually settled down and went back to normal.

She opened her eyes and smiled at Huang Zixiao who was standing by the side. "Senior Huang! I didn't expect that sitting in front of the <<Mystic Nine Skies Phoenix Painting>> for such a short while would enable me to advance into the tenth stage realm! This is indeed a god clan top rated refinement! I benefited so much from it!"

Huang Zixiao gave a dry laugh and said, "That's right, you have indeed benefited a lot from it! Young lady, you will have a great future ahead of you!"

What did it mean by benefiting a lot? She had simply gained all the advantages from it, alright?

Did this young lass even know how much she had benefited from this closed door cultivation?

Huang Zixiao was still hesitating if he should give this talented young lass with no common sense a lecture when he suddenly heard her asking a question.

“That’s right, Senior Huang, why do I look so dirty and even my hair is also knotted and stinky. And... oh my, it’s grown so much! What on earth is going on? I... how long have I stayed in the <<Mystic Nine Skies Phoenix Painting>>?”

Once one’s soul trace entered the drawing, there was no difference between day and night within. Moreover, Huang Yueli totally devoted herself to comprehending so she didn’t notice how much time had passed.

Hence, when she just came out, she had this perception that she had just entered the drawing not too long ago, as though it had only been a few days.

When she saw how disheveled she looked, it was then when she realized that the truth was not so.

Huang Zixiao swept her a glance and said, “Not too long, almost a year or so! No, to be accurate, it should be eleven months and nineteen days.”

Huang Yueli was so shocked that she almost jumped up. “What? It’s... it’s already been a year! I actually stayed in the drawing for such a long time!!”

After her shock, she appeared rather vexed!

Originally she had intended to break through to the tenth stage realm within a year after Li Moying ascended to God Realm. In the end, if she were to calculate the duration, she had spent half a month to reach Sky Emperor City after Li Moying left. Later on, she spent another two months dealing with Blue Profound Sect’s affairs, and now, almost twelve months had passed. It had long surpassed her pre-calculated time frame.

Huang Yueli’s vexed expression was simply too obvious and too eye-piercing.

Huang Zixiao’s original perturbed feelings were spiked under this situation and he could no longer control himself.

“Lass, what kind of expression is this? It’s not even twelve months and you call that long? It’s simply too short, okay?? Just this bit of time, ordinary practitioners might not even break through to second stage conceptualization. But you? You’ve already broken through to the fifth stage conceptualization! Your speed is almost like flying, so what are you dissatisfied with?”

“Moreover, when you were comprehending, you were merely in the ninth stage realm! Do you know what that means?”

Huang Zixiao had enough of this senseless young lass!

Moreover, it was possible because she was too genius, so not only did she not have any common sense, she also often unknowingly agitated others!

Chapter 2807: Whose Phoenix is this? (2)

After all, to Huang Yueli, an “ordinary” matter that was easily done was as difficult as mounting the stairs to heaven to those ordinary or even heaven grade geniuses!

Unfortunately, she totally did not realize this at all, so the words she said often make people exasperated.

Huang Zixiao felt rather out of sorts and he glared at Huang Yueli with a “try talking rubbish again and see what happens” look on his face.

Huang Yueli finally came around it and after she thought over what he said, she finally realized that her comprehending speed was already very fast.

But she still felt vexed over being separated from Li Moying for such a long time.

Speaking of this, ever since they reunited from their past lives, this was the first time they had been apart for such a long time!

Moreover, what made her even more melancholic was that her advancement came so suddenly. She was originally about to comprehend the sixth stage conceptualization but in the end, she could only give it up...

“Sigh, it was just a little bit more and I would be able to comprehend the sixth stage conceptualization... why did I have to advance at this moment! It’s like a big joke on me! Since there’s no way to ascend within one year, wouldn’t it be better to let me comprehend a little more!”

No matter how senseless she was, she knew that the chance to enter into a comprehension state was extremely rare.

It was such a waste that she was in such a good frame of mind so comprehending to the very end would be the most efficient way. Once it was interrupted, it would be a difficult thing to try and look for that feeling again.

Earlier, she had lost an extremely good chance to upgrade herself.

Huang Zixiao heard what she said and couldn’t keep it in. If it wasn’t because he was a spiritual body and there was no blood in him, he might have spat out a mouthful of blood!

So, this lass was almost about to comprehend sixth stage conceptualization and was interrupted because of the impact of advancement!

Sixth stage conceptualization, what concept was that?

As Dream Profound Realm mid-phase was the last conceptualization in that section, the comprehension difficulty was much higher than fifth stage conceptualization!

Comprehending fifth stage conceptualization was enough to strike the entire God Realm’s god grade genius in awe. If she could comprehend sixth stage conceptualization...

Huang Zixiao's lips twitched, feeling that this world was so mythical!

But Huang Yueli didn't notice the interesting expression on his face. She was still lamenting over the lost opportunity.

But just as she was feeling gloomy, she suddenly sensed an abundant feel in her soul trace, and her head was slightly bloating with pain.

Following that, she looked at the shining runes in her mind. These runes seemed very familiar to her.

She was suddenly enlightened and remembered about it. Weren't these those shattered runes which she was comprehending halfway in the <> earlier?

Huang Yueli assumed that once she left the drawing, these runes would automatically disappear!

She didn't expect the Sky Phoenix Ring to have preserved it!

Huang Yueli's heart started to surge with joy!

The Sky Phoenix Ring was indeed an incredible God Relic! It could even bring out the conceptualization drawing from another person's conceptualization and that was really unimaginable!

Although she was interrupted in the midst of her comprehension earlier, it didn't affect her from continuing to comprehend...

Thinking of this, Huang Yueli turned back into her happy self again..

Huang Zixiao saw her initial bitter face and thought that she was still upset over being interrupted in the middle of her comprehension. He couldn't help but start to persuade her.

"I say, young lady, you shouldn't try to bite off more than you can chew! Did you think that sixth stage conceptualization is so easy to comprehend? Not to mention you, even if it was heaven grade geniuses who were already in tenth stage realm, they had to spend a minimum of eight to ten years before they could comprehend it!"

"Of course, your comprehension skills are simply too extraordinary. But if you are overly self-confident and insist on proceeding with it, it would be a huge loss if you end up injuring your soul trace!"

Huang Zixiao nagged on, hoping to make this young lass gain some common sense.

However, Huang Yueli seemed as though she wasn't paying any attention to his words. She suddenly curled her lips and smiled.

Huang Zixiao's face instantly turned black. "Hey, young lass, are you listening to me or not? What I said earlier is very important, do you know?"

Huang Yueli was still thinking about her own stuff and just nodded her head casually. "I know, I know, I already know!"

Huang Zixiao was dissatisfied with her perfunctory attitude but he could do nothing about it. Seeing that Huang Yueli was going to become the more precious baby in their Sacred Phoenix Race, he couldn't do anything to her even if she didn't listen to him.

So thinking about it, he unwillingly emphasized, "In the future when you go to God Realm, you will definitely have more chances to comprehend the other conceptualization drawings. So you need not be so anxious right now. You've just advanced to the tenth stage realm. After your ascension, you have to stabilize your cultivation before considering upgrading."

No matter what, Huang Zixiao was still one of the top exponents in God Realm. His cultivation and experience were much higher than Huang Yueli's.

Listening to his stern tone, she nodded her head seriously, "Senior, don't worry. I understand."

Just at this moment, Huang Yueli felt a tug on her clothes. It seemed like something was hooked onto her clothes, and she was being pulled back.

She went into a short blank and looked down to find a beautiful little phoenix that was flapping its wings. Its little beak tugged her dress, as though it was trying to attract her attention.

Huang Yueli's eyes widened and stared at this sizable and well-contoured little phoenix. A look of praise appeared in her eyes!

Little Wang Cai noticed Female Devil's gaze and worked even harder to spread its wings. He lifted its neck and made itself look more luxurious and muscular.

In this short period, it had suffered under Huang Zixiao's torment. Every single day, it had to follow the contents in the <> book to train hard.

It could not eat any chicken drumsticks and had to exercise every day in the entire process, so Little Phoenix was full of grievances. But he had no choice but to admit that after this special training, Little Wang Cai had indeed turned beautiful by several times!

The current outlook was no longer a plump little chicken but struck a glamorous pose from an ancient spiritual beast's infant.

Toward this, Little Wang Cai was rather proud and decided to display itself well in front of her!

Seeing her blown away by him, Little Wang Cai was even prouder.

Just at this moment, Huang Yueli suddenly opened her mouth. "Wow! Senior Huang, did you rear this infant phoenix? It's really... really too beautiful! So, the inheritance tower also rears a phoenix here? Is this my reward for passing the third stage refinement? If it isn't, I'll use Little Wang Cai to trade with you!"

Little Phoenix was instantly stunned..

Chapter 2809: Whose Phoenix is this? (4)

After a while, Little Phoenix came back to its senses and its fragile heart shattered into pieces.

“What! You fickle-minded cheater! You actually saw another prettier phoenix and wanted to abandon the phoenix which you reared since young! You’re simply... simply too much! I don’t want to live any longer! I want to kill myself. Don’t anyone pull me back, I’m going to commit suicide!”

Little Wang Cai turned back into a little brat and wailed like a ghost.

As he had successfully slimmed down, its human form wasn’t as plump as before. It had a balanced body shape and other than his adorable little face still having a bit of baby fat, his tummy had shrunk and his arms were no longer flabby. His attractiveness index had gone up by several notches!

Huang Yueli looked at its human form and was evidently surprised. Her eyes widened and she said, “Wow, even its human form is so cute! Much stronger than my Wang Cai by so much!”

“I knew it, I knew it! You’ve already gotten sick and tired of me, so you’ve long wanted to get rid of me! Poor me, I’ve been staying home working hard and now I’ve become a haggard little phoenix, whereas you just keep looking for new love! You only care about the new phoenix’s smiles and forget about the old phoenix’s cries! I want to bang my head against the pillar, don’t stop me!”

Little Phoenix was crying “don’t stop me” while it flew towards a white jar sculptured pillar head-on!

But its speed was simply too slow. If it wanted to use this speed to bang against the pillar, not to mention die, there was a probability that it wouldn’t even drop a feather!

Little Wang Cai was flying and noticed that no one came to stop it. It was broken-hearted and it started to wail even louder.

“Sob sob, you heartless people—”

Seeing it getting addicted to creating a ruckus, Huang Yueli didn’t know if she should laugh or cry.

She always felt that this phoenix of hers was a little narcissistic but from the looks of it now, Little Wang Cai wasn’t just narcissistic, he was also dramatic and was very good at acting...

Huang Zixiao couldn’t stand it any longer. He had been spending the past year battling Little Wang Cai in wits and courage and had long lost his patience against this brat.

He coughed heavily and said, “Enough! Stop fooling around! You’re a phoenix, why are you acting like a ruffian! Who taught you these? If you dare to cry again, you can forget about ascending to the God Realm with your Master, just stay in the inheritance tower instead!”

Little Phoenix instantly turned stiff and was so scared that it forgot to cry!

If he continued to stay in the inheritance tower, wouldn’t that mean that he would become Huang Zixiao’s slave? Didn’t that mean that it would no longer be able to eat its favorite chicken drumstick?

If that was so, it might as well really die!

But if it wanted to leave the inheritance tower...

Little Phoenix looked at Huang Yueli with a begrudging look — its Female Devil didn’t recognize him!

Looking at Little Wang Cai's aggrieved look, Huang Yueli couldn't help but burst out laughing. She shook her head and said, "Alright, alright, let's stop fooling around. I'm just teasing you! You're my contracted spiritual beast, how would I possibly not recognize you?"

Actually, she didn't recognize Little Phoenix from his appearance in the beginning!

After Huang Zixiao's spartan training, Little Phoenix had indeed changed and its looks were totally different from the original state!

But she and Little Wang Cai had a spiritual link, so it only took a breath's time for her to realize who it was.

Little Phoenix heard her explanation but still refused to forgive her.

He felt that he had a huge psychological effect and kept harping on this for a very long time..

Chapter 2810: Whose Phoenix is this? (5)

Translator: Misty Cloud Translations **Editor:** Misty Cloud Translations

Huang Yueli said the wrong thing and couldn't blame it, so she could only try to persuade Little Phoenix.

Little Wang Cai had enough of throwing his tantrum and lifted its little chin, looking at her delightfully. "Now, do you know the importance of This Lord? If you want This Lord to go to God Realm with you, then you'd have to agree to my requests! I want to eat three, no, five drumsticks every day! And I also want to wake up on my own! And, and..."

Huang Yueli was getting more and more sullen and in the end, she simply couldn't bother to continue listening.

"Enough, your requests are too much and I can't satisfy you. For your health, I think it's better for you to stay in Soaring Heavens Continent..."

"What??" Little Phoenix was dumbstruck.

He assumed that once he raised his own value, Huang Yueli would be crying to ask him to go with her and agree to all his requests!

However, she actually asked him to stay behind?

Huang Yueli said with a sad look, "Although I really can't bear to part with you, I really can't delay you any further! Since I can't give you happiness, then I choose to let go..."

Saying that she flicked her sleeves and stopped looking at Little Phoenix.

Little Wang Cai started to burn with anxiety and jumped up as he screamed. "Wa...Wait! Don't give up so fast! We... there's still room for negotiation... Why not this, I can eat two chicken drumsticks a day... otherwise, one will do! And..."

Huang Zixiao saw the two creating this farce and his lips couldn't help but twitch continuously.

He somehow understood how an ancient spiritual beast had been led astray by Huang Yueli...

No way, he had finally corrected Wang Cai's bad habits so he absolutely would not allow Huang Yueli to let it run loose again...

Thinking of this, Huang Zixiao coughed again. "Alright, both of you be quiet! It's not time for you to squabble right now!" His eyes suddenly turned to Huang Yueli and said, "You should have sensed it already! You broke through and reached the tenth stage realm and the heavenly tribulation will be coming very soon. Now, the tribulation clouds are already starting to gather above the inheritance tower's skies!"

Hearing that, Huang Yueli kept away her smile and nodded solemnly. "That's right, I'm already starting to sense a little bit of pressure..."

As she had once witnessed Li Moying's ascension process, so Huang Yueli had a rough understanding of the heavenly tribulation.

When a practitioner broke through to the tenth stage realm, the tribulation cloud would start to gather above the place where that person was. The quantity of the heavenly tribulation would vary among individuals. The gathering time and size of the tribulation cloud were also different.

Huang Zixiao said, "If you are going through the nine stage heavenly tribulation, then with the inheritance tower's protection, you will be able to pass through it safely. But now, your innate talent is too heaven-defying. So I can almost confirm that you will be facing the ten stage heavenly tribulation! Ten stage heavenly tribulation's power is something that even early historical remains like the inheritance tower could not handle. Hence when you advance, there would be a certain risk. You must not treat it lightly."

Huang Yueli solemnly nodded her head. "I understand!"

After she experienced Li Moying's heavenly tribulation process, she knew clearly how powerful the tenth stage heavenly tribulation was!

But she didn't feel that she wouldn't be able to pass through it.

Back then, Li Moying didn't have any Profound Armament on him, not any arrays or mechanisms for protection. He relied entirely on himself and managed to ascend.

Now, she was in the inheritance tower, and she had several life-saving items. So there would be no problem at all..
