Chapter 2821: Who Are You Calling Your Senior? (1)

“This is the difference between a real peerless top exponent and us... I originally thought that I am a ninth stage realm top expert and that’s really awesome. But as compared to the one who is going through the heavenly tribulation, I’m really... really...”

The person who said that was a Celestial Light Sect Elder. He was already over three hundred years old and his face was filled with wrinkles and his beard was all white.

“Isn’t that so? I wonder which top exponent is going through the heavenly tribulation. He must be some unsurpassed top expert on the Sky Chart right?”

“That might not be so. The Sky Chart’s top exponents are mostly the younger generation. Some old fogies have stayed hidden for a long time and they are not in the Sky Chart! Those practitioners with the ability to ascend to God Realm should be those esteemed top exponents who had cultivated for hundreds of years!”

“That’s right, those youngsters are not quite there yet...”

Everyone kept discussing this and started to work up their cultivation methods to fight against the scorching fire attributed energy around them. Then they moved forward!

They had already come to this place so everyone wanted to find out who was that person who was going through the heavenly tribulation!

But just at this moment, a fire dragon suddenly descended from a tribulation cloud and it came crashing down at an astonishing speed!

Under the tribulation cloud, a huge fire domain instantly appeared and charged towards the fire dragon!

This scene was simply too shocking and too imposing. It seemed as though the entire Heaven and Earth’s energy was gathered right in front of everyone’s eyes. Two rays of dazzling flames were so powerful and beautiful that these people felt suffocated!

The practitioners present were shocked by this and all of them stared straight blankly.

Before they had even come to their senses, an abnormality happened.

Two bursts of energy exchanged blows in mid-air and gave off a vigorous explosive sound. At the same time, bursts of powerful fluctuations with dissipated fire-attributed energy charged right at the crowd!

“Oh no! Quick, quickly evade it!”

“Damn it, this energy is too strong! We... We will die if we face it directly!”

Luckily, they were still a distance away and there was still ample time to escape. So everyone frantically took out various defensive Profound Armaments and barely blocked off the first wave of impact.

But many of the practitioners present were affected by the scorching heat and their faces were blackened by the heat. Where had their demeanor a top expert gone to?

They had finally got through this wave and everyone's expression turned solemn.

Celestial Light Sect's current Great Elder was the most experienced and esteemed person among these people. He immediately said, "Everyone, be careful! Looks like we can't get too close! The remnant fluctuations from this heavenly tribulation are simply too powerful and if we're not careful, we might..."

Before he could complete his sentence, a ray of eye-piercing light flashed past his eyes and he couldn't see a thing at all!

Immediately following that, a roar came from mid-air again!

Bursts after bursts of heatwaves came charging in his direction!

Even though the Great Elder was in ninth stage realm fourth level and had extraordinary skills, he was still thrown back by the impact without any chance to resist or defend himself.

He flew for several meters before crashing heavily onto the ground, creating a human-sized pit.

"Cough cough, cough cough..."

Great Elder tried his best to climb up, feeling that his entire body was extremely sore. Luckily the grass was very soft and he didn't incur any serious injuries.

But when he tried to speak, he discovered that his mouth was full of boiling fumes that almost burnt his throat..

Chapter 2822: Who Are You Calling Your Senior? (2)

"This is... really... too horrifying!"

The other practitioners' situation wasn't any better than his. All of them had stumbled all over the ground.

Everyone finally managed to help each other stand up. When they recalled the scene where they were sent flying by the impact, everyone was triggered by this event.

"Heavens, that's too terrifying! I totally haven't even reacted and was already sent flying! If I had been a little closer, I believe I'd be dead by now!"

"Isn't that so? It's simply too dangerous. We... should we go a little closer or not? Even if it's the remnant fluctuations from the heavenly tribulation, we also can't take it!"

"What if the next stage of heavenly tribulation grows stronger? Wouldn't all of us be finished?"

Everyone was worried and they stood in the same spot for a very long time. Some of them even set up a simple defensive array as they were worried that the next heavenly tribulation might just start again.

But they waited for a long time and there was no explosion at all. Even though that huge fire cloud was still suspended in the sky, but it was slowly accumulating power.

Everyone looked at one another in dismay and couldn't decide. So in the end, they all turned to look at Celestial Light Sect's Great Elder.

"Great Elder, your cultivation is the highest among all of us. What do you think our next step should be?"

Grand Elder paused for a moment and said, "If we just want to feel the Heaven and Earth Code that the heavenly tribulation brings, then we can just sit here and cultivate. There's no need to continue getting closer. But I want to find out which Senior is about to ascend. So I'm preparing to move forward, to at least take a clear look at who this Senior is!"

If they couldn't even take a clear look at who was ascending, how would they be able to say that the person who ascended was South Sky Region's practitioner in the future?"

Everyone understood this logic as well so their curiosity got the better of them. But the explosion earlier really made most of them feel frightened.

"But Great Elder, this is simply too dangerous! If the heavenly tribulation descends again, we will not be able to retreat in time and the consequences might be dire!"

Great Elder fiddled with his beard and said, "I did an observation earlier. From the first stage heavenly tribulation until now, six stages had already passed! It is recorded in Celestial Light Sect's ancient records that the majority of the practitioners who ascend would go through at least four to five stage heavenly tribulation. If one went through six stage heavenly tribulation, they are already considered as a top-rated exponent! Seven stage and above heavenly tribulations... only those geniuses who are nurtured in God Realm will achieve it. We are just a small Soaring Heavens Continent so how is it even possible for us to go through so many stages?"

Hearing him say that, everyone was assured. "What Great Elder said is logical!"

Great Elder said, "Now, this Senior has already gone through six stages of heavenly tribulation so he will most probably ascend very soon. Let's hurry over now, otherwise, we might not be able to get a chance to meet him!"

"Right, right, right, let's head over now! I want to witness the grand scene when this Senior ascends with my own eyes!"

Everyone felt that it was safe and they ran towards the direction of the tribulation cloud.

They were all ninth stage realm top exponents and their speed was pretty swift. It didn't take long for them to reach a distance of around two to three miles away from Huang Yueli.

Everyone stopped and looked at the figure in front with respect and awe.

As Huang Yueli had been through the Inheritance Tower's refinement, advancement, breaking through the tribulations, her face was smeared with ashes and she looked really dirty..

Chapter 2823: Who Are You Calling Your Senior? (3)

From the outside, one simply couldn't tell that she was the peerless beauty who had once caused a commotion in the entire Soaring Heavens Continent, Blue Profound Sect's Sovereign Li's fiancée!

Most of them couldn't even tell her age and merely gauged that she was a woman from her tattered dress.

"I didn't expect the person to ascend this time to be a female Senior."

Everyone looked at that figure with the utmost admiration. At the same time, they tried to recall how many powerful female top exponents were there in Soaring Heavens Continent. Those who needed to ascend would at least be three hundred years old, wasn't it?

But after thinking over so long, they still weren't able to verify it so they could only look at the Great Elder from Celestial Light Sect.

Great Elder assumed that he was the leader of the pack so he could only brace himself to walk forward. He bowed down respectfully almost his forehead was almost touching the ground.

After that, he raised his voice and said in a bright and loud voice, "This... Senior, we juniors are practitioners from South Sky Region. All of us sensed that Old Madam is going through the heavenly tribulation in South Sky Region so we've come to offer some of our treasures. Please accept these!"

Huang Yueli had just passed through the six stage heavenly tribulation. She was adjusting her inner flow of energy while the tribulation cloud was re-accumulating its energy.

The previous six stage heavenly tribulation power was much weaker than what she thought. At least, she could still handle it.

Thinking of the time when Li Moying passed through the six stage heavenly tribulation, he suffered a light injury. But for Huang Yueli, she only felt a huge amount of pressure and did not sustain any injuries at all.

Taking the time to adjust her breath, she thought over it carefully and understood the reason for it.

When Li Moying was going through the tribulation, he had increased his Profound Energy through his own effort to advance into the tenth stage realm. He also didn't have any Profound Armaments to aid him hence his pressure was naturally larger, which caused him to be injured easily.

But Huang Yueli advanced because she had comprehended the <> and even grasped the fifth stage conceptualization!

After comprehending the conceptualizations, she was able to tell the small little flaws in the heavenly fire. Hence she used the most minimal effort to crush it!

In comparison, Li Moying relied on his powerful Profound Energy to fight against the heavenly tribulation, hence the amount of energy he spent was naturally more than hers.

Having thought through this, Huang Yueli was much more relaxed. From the looks of this, the difficulty of the remaining four stages of heavenly tribulations should dramatically decrease.

While Huang Yueli was resting with her eyes shut, she was aware that people were approaching her. But she didn't bother too much about it.

Now, she was in the middle of her heavenly tribulation and the power of it grew with each passing stage.

It did not matter to her what their motive was. Whether if it was just a pure coincidence that they happened to pass by, or if the curiosity in them was piqued, or even if they were attempting to scheme on her. In front of the heavenly tribulation's might, they were only looking for trouble!

So Huang Yueli didn't even bother to open her eyes because she was fully concentrating on recuperating her strength and adjusting her breathing.

Rather than letting these absurd people divert her attention, she might as well take the time to quickly rest. The heavenly tribulation in front of her was the greatest crisis right now!

But these bystanders did not run away from shock after they saw the tribulation cloud above her head. They even approached her quickly and took the initiative to talk to her.

Huang Yueli, who was like a statue, finally swayed a little and frowned.

"Senior? Old Madam?" Did she really look that old??

Chapter 2824: Who Are You Calling Your Senior? (4)

She was obviously still very young like a flower bud and she had just got married!

She was actually greeted "Old Madam" by a wrinkly old man!

How could she even take this lying down?

Huang Yueli was originally intending to ignore him. But when she heard what he said, she couldn't take it and opened her eyes and she shot an angry gaze at him.

She suddenly realized that she had met this old man several times previously.

In the past when she was in Celestial Light Sect, this Great Elder would always flaunt his seniority. He would treat Li Moying with disrespect, what more for her.

When she saw him, she couldn't help but frown. "Celestial Light Sect's Great Elder? Why is it you? What are you doing here?"

Great Elder didn't expect this Senior top exponent, who was about to ascend, to recognize him!

It made him feel overwhelmingly flattered!

Even those practitioners who were standing next to him also showed envious expressions on their faces!

What honor it was to be recognized by such an incredible Senior! Celestial Light Sect was indeed South Sky Region's Number One Sect!

Great Elder felt delighted from being recognized and his joy could be seen on his face. Of course, he found that it was slightly strange. Somehow, he seemed to find this Senior's voice slightly familiar?

But he didn't think too much about this and hurriedly bowed. "Senior, all of us happened to see the abnormality in the sky today. The tribulation clouds have gathered and we know that some top expert must be going through the heavenly tribulation and ascending to God Realm. So we especially came to partake in Senior's glamorous moment. Will Old Madam please..."

Huang Yueli's lips twitched and twitched again. She simply could not bear to continue hearing what he said!

"Enough, I understand what you mean! But I don't need your help. You also don't need to give me any gifts. If you want to comprehend the Heaven and Earth laws, you can do some comprehension on your own further away. Just make sure you don't disturb me! Don't blame me for not reminding you. The next few stages of heavenly tribulation will get stronger and stronger. Based on your cultivation levels, you might die a horrible death if you're not careful enough!"

Huang Yueli was an intelligent lady so of course, she knew what Great Elder and the others' intentions were.

Thinking that they didn't have any malicious intentions, she couldn't be bothered to pay any attention to them. She only wanted to get rid of them quickly.

So this time, she said a little more and those practitioners seemed to realize that something wasn't quite right.

This voice... it sounded a little too young!

Rather than saying that she was a three hundred-year-old Senior, it sounded like... a young lady's voice!

Everyone felt that something was amiss but under this powerful top exponent's might, all of them didn't dare to lift their heads and they were almost stifled to death.

Great Elder, whose status was called out by this Senior, felt that she should have some links to Celestial Light Sect. So he felt rather confident about it. So on hearing Huang Yueli trying to chase them away, he didn't immediately leave. Instead, he took a few steps forward and said, "Senior, Old Madam you..."

Before he could finish his sentence, Huang Yueli hissed at him in anger.

"WHO-ARE-YOU-CALLING-OLD-MADAM? If I ever hear you calling me that again, don't blame me for ignoring our past ties and beating all of you up! Leave right now, as far as you can!"

Hearing the young lady's exasperated voice, no matter how retarded one was, they would feel that it was not normal.

Great Elder plucked up his courage and lifted his head to take a look with reverence and awe.. His eyes instantly widened and a look of disbelief spread all over his face!

Chapter 2825: Who Are You Calling Your Senior? (5)

“You... you... aren’t you...” Great Elder was tongue-tied. He was so shocked that he almost fainted!

He should be having a dream? Was this a dream? Or...a dream?

Why did he suddenly feel that this Senior in front of him seemed like someone he had met previously...

A talented young lady who had once stayed in Celestial Light Sect for a while, and that person was Young Sect Master Li’s fiancée! Later on, she followed Li Moying to Sky Emperor City!

That year when Bai Ruoli was still in Celestial Light Sect, she was indeed one of the Sect’s top rated talented geniuses. But... but...

If he didn’t remember wrongly, this young lass was still very young. She’s probably not even twenty years old yet!

“No... Impossible. I must have seen wrongly... Yes, I must have seen wrongly... Could it be because it’s too hot here, that’s why my senses are not clear?”

Great Elder was so shocked that he started to mutter irresolutely to himself. Huang Yueli had already lifted her head impatiently.

She said with a cold expression, “Great Elder, we haven’t met for a long time! Back then when we were in Celestial Light Sect, Moying and I have always been in your care.”

Hearing that, Great Elder jumped up!

This... Senior actually mentioned Li Moying!!

Could it be that she really was Bai Ruoli that young lass?

“You... you are... Bai Ruoli?” Great Elder thought through it and asked in a trembling voice.

Huang Yueli nodded her head composedly, “That’s right, it’s me!”

“B...Bu...But... But how... how is this possible?? You... when you left Sky Cloud City, weren’t you only in fifth stage realm??” Great Elder couldn’t suppress the shock in him and practically screeched.

This way, all the surrounding practitioners heard what he said and they were all stunned!

“What? This Senior is actually... she’s Bai Ruoli who used to be in Celestial Light Sect??”

“What joke is this? When Bai Ruoli left Celestial Light Sect, she seemed to be only fifteen years old? Then now, isn’t she just eighteen?”

“How could there be such a ridiculous matter?? There must be a mistake somewhere! It must be some old witch trying to impersonate her!”

“But.. but take a careful look. She looks exactly like Bai Ruoli!”

Everyone’s eyeballs almost fell onto the ground. All of them couldn’t help but start to talk about this!

In the past when Huang Yueli was in Sky Cloud City, her reputation was rather well-known as well. Not only was she one of the top geniuses in the South Sky Region, but she also had a peerless fiancé like Li Moying!

She had always been in the limelight in the past few banquets and experience learning sessions that Celestial Light Sect had organized.

Because of this, all the practitioners in the ninth stage realm had seen her a couple of times.

She was exceptionally beautiful so most people couldn't forget about her looks after they saw her.

Everyone stared at her for a long time and couldn't help but admit that although she looked a little disheveled right now, the lady in front of them seemed really to be Bai Ruoli!!

This discovery made everyone stunned and surprised!

At the same time, it was a huge blow on them!

These ninth stage realm practitioners were considered as top rated exponents in South Sky Region. They had always been imposing and felt good about themselves, thinking that their innate talents were very powerful.

Even though their cultivation levels couldn't be compared to the peerless top experts from Sky Emperor City, but all of them would comfort themselves by saying that South Sky Region's resources were limited. Hence that had delayed their development.

But now?

She also came from South Sky Region and was only eighteen. But... she's about to ascend??

Chapter 2826: Huang Yueli Ascends (1)

Li Moying was at least the reincarnation of the previous Number One Top Expert Mu Chengying so everyone could at least accept that fact.

But Huang Yueli's identity had never been exposed. So in everyone's eyes, she was just a young lass who had only cultivated for a couple of years!

Yet now, she was actually about to ascend??

As compared with a genius like her, they seemed to have wasted their lives to become old men and women...

Perhaps it was because they had a huge blow, no one said a single word at all. Everyone just stood stiffly on their original spots.

Huang Yueli lifted her head and saw the tribulation cloud almost completing the gathering of energy. Then she looked at the dazed crowd and suddenly thought of something.

"Originally I was just thinking that I should just directly ascend, but since I've met someone I know..." She paused for a moment and turned towards Celestial Light Sect's Great Elder. "That's something that I need to trouble you to help me settle."

Celestial Light Sect's Great Elder had a pampered expression on his face and respectfully bowed. "Will Senior... oops no, will Young Miss Bai please instruct!"

He almost called the wrong convention again. On thinking that Huang Yueli didn't seem as though she liked to hear the word Senior, he hurriedly swallowed back his words.

Huang Yueli swept a glance at him and said, "After I've passed through the tribulation cloud, I will directly ascend and there's no time for me to inform my relatives and friends. After I ascend, can I trouble you to go to Sky Emperor City and inform Blue Profound Sect's current Sovereign, Cang Po Jun as well as my parents? Just tell them that I've successfully ascended and I will be waiting for them in God Realm! Tell them not to worry about me, do you understand?"

"Yes... I understand it loud and clear!" Celestial Light Sect's Great Elder hurriedly agreed to it and even proudly stuck out his chest!

He had already recovered from his shock at this very moment.

A peerless top exponent who broke through to the tenth stage realm was really from Celestial Light Sect!

Moreover, she even passed him such an important task to complete!

This was the entire Celestial Light Sect's honor!

Although he couldn't understand why Huang Yueli could ascend at only eighteen years old, he felt the envious look from those practitioners around him and felt as if he was floating on air!

Huang Yueli waved her hand after she was done instructing him. "Alright, quickly retreat right now! Leave right now, at least thirty miles away! The seven stage heavenly tribulation is about to descend. If you want to live, then listen to me and move further away!"

The tribulation cloud was almost done gathering and it wouldn't take much longer to strike.

After Huang Yueli finished talking, she didn't bother about the rest and started to congeal her senses and breathing again, prepared to take on the next round.

As for the surrounding practitioners, when they heard her last sentence, all of their eyes widened.

They had finally awoken from their shock but she gave them another piece of shocking news immediately which thoroughly stunned them!

Seventh stage heavenly tribulation!!

There was a seventh stage heavenly tribulation??

Didn't Celestial Light Sect's Great Elder mentioned earlier that only those peerless geniuses from God Realm's large clans would be able to attract heavenly tribulations of seventh stage and above?

Everyone looked at one another in dismay, feeling that they were in a dream.

But just at this moment, the surrounding temperature started to spike once again. Not too long after, the boiling heatwave started to spread and it made all of them feel that they were inside a furnace. Their chests were being pressured by the Heaven and Earth Profound Qi, as their blood qi was surging to the point of almost throwing up blood!

Great Elder's expression abruptly changed. "Everyone, quickly run! Heavenly tribulation is about to descend!"

Even without his reminder, everyone had already realized that a crisis was right in front of them!

Chapter 2827: Huang Yueli Ascends (2)

All of them couldn't care about the others and quickly turned around to escape for their lives!

Right behind them was a huge fireball that dropped down from the sky. The air seemed to have congealed!

That suffocating feeling made everyone's hair stand on end. The Profound Energy in their bodies were tugged and their meridians seemed as though it was about to burst immediately!

All the practitioners had already used up all their energy and risked their lives running forward!

But it was already too late by the time they reacted!

"RUMBLE—"

A deafening explosion was heard right behind them!

Other than Celestial Light Sect's Great Elder and a few others who swiftly escaped, the others were impacted by the remnant fluctuations of the explosion. They were sent flying one after another!

Among those who were in the very back, they fainted from the explosion and were unconscious!

Great Elder and the others turned green.

"It's too scary, really too scary! So, this.. this is the seventh stage heavenly tribulation!!"

"I thought I heard wrongly earlier! I really didn't expect there to be a seventh stage heavenly tribulation! Bai Ruoli's innate talent is really... really out of one's expectations!"

"Luckily, I'm most apt in body movements Profound Skills so I run faster than other people. Otherwise, I would probably end up in a miserable state..."

"We are so far away yet all of us end up in such a terrible state. Young Miss Bai is standing right below the tribulation cloud... how much pressure is that! She looks so frail and soft, can she.... really take this?"

Hearing that, all of those escaping people secretly turned around to take a few more looks.

Under the rampant tribulation cloud, the young lady's petite figure stood against the wind like a proud little plum blossom that wasn't afraid of the frost or snow.

Although her clothes were stained with dust, she didn't look too bad and was still so elegant and graceful!

Earlier that heavenly tribulation which made all of them end up in a miserable state didn't seem to cause any injury on her!

If it was said that everyone was still puzzled by Huang Yueli's ability, then the truth was right in front of their eyes right now. So no one had any more doubts about her!

They were completely crushed by a young lass in her teenage years!

Whereas for Huang Yueli, she could no longer bother about those practitioners. All her attention was placed on the remaining three stage heavenly tribulations!

After she got through the seven stage heavenly tribulation, she looked alright on the outside. But in fact, she had sustained a bit of internal energy and her chest was starting to feel uncomfortable.

She realized that she had just entered a difficult phase.

Now was the real crucial moment to test her ability! She could not afford to be distracted!

There wasn't any pause in the eighth and ninth stage heavenly tribulations at all.

Huang Yueli adjusted all her Profound Energy to unleash her fire domain to the maximum limit!

At the same time, the Sacred Phoenix Reflection behind her back could be seen clearly!

After she broke through to the tenth stage realm, Huang Yueli's Sacred Phoenix Reflection became more and more powerful than the previous. It also became clearer and gave off an astonishing powerful suppression!

Those practitioners hiding far away secretly observing her going through the heavenly tribulation were stunned by this.

Based on their cultivation and eyesight, they totally couldn't tell if the Sacred Phoenix Reflection was an illusion or the real deal. All of them stared with their mouths agape at the ancient phoenix which was flying in the sky while unleashing various deviant flames.

"Heavens, what did I just see? What did I just see! This time, I am definitely sure... that I am dreaming!"

Chapter 2828: Huang Yueli Ascends (3)

"This is the legendary ancient spiritual Phoenix beast right?? Wasn't it said that phoenixes were exceptionally rare spiritual beasts in God Realm and it might possibly be extinct already? How could it possibly appear in Soaring Heavens Continent??"

"Young Miss Bai even has a phoenix! S...Sh... She... is she even human?"

Amid the various shocking cries, Huang Yueli had already unleashed all the Profound Energy in her to go up against the nine stage heavenly tribulation!

"Rumble— Rumble—"

The explosive sound this time sounded like thunder continuously which lasted for a relatively long period of time.

Huang Yueli couldn't help but spat out a mouthful of blood under the impact of the heavenly fire. Her ninth tiered Profound Weapon was also shattered into pieces.

But a smile could be seen on her face.

Although the ninth stage heavenly tribulation was indeed powerful, she had successfully passed through it after all.

As for now, Great Elder and the others were already overwhelmed by what they saw!

"Seventh stage, eighth stage, ninth stage!!! If I didn't count wrongly, Bai Ruoli had already gone through nine stages of heavenly tribulations! Nine stages!!"

"Didn't Great Elder say that even God Realm's geniuses only go through seven stages of heavenly tribulation?? A young lady from our Soaring Heavens Continent actually went through nine stage tribulation!!"

"Am I really not dreaming? Why do I feel that everything I saw today doesn't feel normal at all..."

Huang Yueli's innate talent had already surpassed everyone's imagination. Even the word "heaven-defying" could not describe it.

Everyone would rather believe that this was just a dream. At least they would find it more acceptable...

Celestial Light Sect's Great Elder was the one who was most surprised by this. He was well aware of Huang Yueli's background among all those people here.

This young lass wasn't even from any large Sects in Sky Cloud City. She came from a small country along the border and merely passed through the selection process in Celestial Light Academy before gaining the chance to enter Celestial Light Sect.

When she just arrived in Sky Cloud City, her cultivation wasn't very outstanding among Celestial Light Academy. But later on, she grew at an astonishing speed which made everyone see her in a new light. She suddenly grew and developed at lightning-fast speed...

But it only took her a few years and she'd already become... become a...

"She is simply... simply a pervert!" The elderly man who had always professed himself to be a calm and steady person couldn't help but speak in a boorish manner. "So, lower realm's practitioner can also attract nine stage heavenly tribulation! Why did those ancient records not have any related entries? Could it be that only this young lass is capable of doing it? Isn't this a little too ridiculous?? ... Wait a minute, what's that???"

Great Elder screamed loudly and pointed to the sky.

Everyone was shocked by him and quickly looked in the direction where he was pointing at.

Originally the ninth stage heavenly tribulation had ended so the tribulation clouds also started to dissipate. Hence everyone thought that everything was finally over.

No matter how heaven-defying or how abnormal Huang Yueli was, it was already nine stages of heavenly tribulation! Nine stages!! She was already heaven-defying to the max! Surely there weren't any more shocking matters any longer right!

Whoever knew that this young lady had just passed through the nine stage heavenly tribulation but there were no signs of her ascending even after some time.

Not only so, the original half tribulation cloud that had dissipated suddenly started to gather again.

Moreover, this time, although the tribulation cloud looked much smaller, the Heaven and Earth Profound Qi contained in it was much stronger by several folds than the previous few clouds!

Even though all the practitioners were standing a great distance away from Huang Yueli, they still couldn't take this pressure.. All their faces turned pale and they started to shuffle back disheveled and awe struck...

Chapter 2829: Huang Yueli Ascends (4)

Huang Yueli could sense her Profound Energy in her being triggered by the tribulation cloud's energy. It almost immediately started to surge.

The last trial was about to come!

She didn't dare to slack and hurriedly stuffed several handfuls of Profound Energy replenishment and blood qi medicinal pills into her mouth. At the same time, she used all her energy to unleash the fire domain and Sacred Phoenix Reflection in her!

Moreover, for safety's sake, she could no longer bother about any other things and directly unleashed the Sky Phoenix Ring in her!

A phoenix imprint appeared in between her eyebrows and gradually grew darker. Very soon, it turned into a bolt of golden ray and flew out from her forehead to merge with the huge, magnificent Sacred Phoenix Reflection in the sky!

The Sacred Phoenix gave off a sharp shrill and instantly turned into a dazzling gold color, as though its body was enveloped in golden flames.

Just at this moment, the tribulation cloud in the sky had completed its congealment and the ten stage heavenly tribulation came raining down on the ground!

As though it only took an instance, the entire Heaven and Earth had turned into a world of flames. Everywhere that they could see, everything was enveloped in the sea of fire...

Great Elder and the others didn't even have the time to make a sound and immediately choked and fainted.

Huang Yueli also sensed her soul trace and meridians being impacted vigorously. The powerful fire attributed energy kept coming at her once and again. It seemed as though it would not end and burnt every single inch of her body. It was so painful that she almost cried out loud! Her mind turned dizzy from this!

But she quickly bit the tip of her tongue and forced herself to stay sober. She had to try her best to use up all her determination to control the Sacred Phoenix Reflection in the sky!

An ear-piercing phoenix cry rang again.

The Sacred Phoenix Reflection in gold-colored raging flames flapped its wings and scattered in the sea of flames.

Every single time the phoenix's wings flapped, the sea of flames seemed to have shrunk a little.

Not knowing how long had passed, the boisterous raging fire was finally extinguished by a large portion, leaving only a few sparks left.

The Sacred Phoenix Reflection also seemed to have used up all its energy and started to turn smaller. It also started to turn more transparent. With a flapping sound, it disappeared completely and turned into a bolt of golden light. Like a bolt of lightning, it shot right into the spot in between her eyebrows.

Huang Yueli was totally drenched in sweat right now!

Lucky! It was so dangerous earlier!

She did not expect the tenth stage heavenly tribulation to be so powerful, so much more powerful than her imagination!

It didn't matter that she was a true-blue god grade genius who had comprehended fifth stage conception, or that she was armed with top tiered Spirit Armament's protective vest and ancient God Relic, the Sky Phoenix Ring. It was a fact that she almost died in this place!

Thinking of it now, the last heavenly tribulation that she passed through with Li Moying, she couldn't sense the tenth stage heavenly tribulation's real might because Li Moying had blocked off 90% of the energy. Hence she had a misconception that the heavenly tribulation wasn't that powerful after all...

But luckily, everything was finally over.

The tribulation cloud above her head was completely gone and the sky had turned back into its usual blue color. There were no clouds in the sky at all.

She looked up into the sky and before she could heave a sigh of relief, she felt her body turning lighter and lighter, as though an invisible strength was holding on to her body. She couldn't stay on the ground and kept floating up, higher and higher...

Huang Yueli finally understood that this meant she had passed through the heavenly tribulation successfully and she was about to ascend to God Realm.

Thinking of this, her eyelids drooped and she looked reluctantly at the land below her feet...

Chapter 2830: Seeing Li Moying Will Ruin Your Life (1)

She had lived two lifetimes in this Soaring Heavens Continents' lands. It was a total of several decades and in the future, she probably wouldn't have any chance of returning at all.

At the same time, a joyous feeling swiftly gushed in her heart.

She... had finally ascended successfully!

“Moying... my husband... we will be meeting very soon!”

...

God Realm, Cloudy Qilin Continent.

Cloudy Qilin Clan controlled the best Continent of the Twelve Continents in God Realm. All the direct descendants stayed in the core of Cloudy Qilin Continent, Amethyst Paramount Palace.

Amethyst Paramount Palace occupied a large area and one could not see the top in one glance. But it had always been shrouded in purple lightning and surrounded by eighty-one lightning-attracting towers, where electric currents hovered above the skies.

As long as one stepped into the radius of a few hundred miles of the Amethyst Paramount Palace, one would be able to see how majestic this palace was.

On the deepest end of the Amethyst Paramount Palace was where the refinement ravine with the densest thunder attributed energy could be found. Bolts after bolts of electric currents flashed past and miserable roars from magical beasts could be heard continually.

Even though this refinement ravine was one of the most dangerous zones in the entire Amethyst Paramount Palace, but plenty of young ladies kept walking around the exterior of this place.

The female attendants would walk past this place trip after trip.

Whereas those luxuriously dressed rich young ladies often used the name of cultivation to sit around this place, refusing to leave.

Everyone’s gaze would subconsciously shoot towards the ravine’s entrance, seemingly waiting for something.

Shortly after, footsteps were heard and a cold voice rang from a distance away.

“Ha ha, what’s going on? Why is the refinement ravine so crowded? What are all of you doing here instead of cultivating? The clan spent so many resources nurturing you, just to let you sit here and admire the scenery?”

All the young ladies’ shivered upon hearing this voice and they hurriedly turned their heads around to take a look.

They saw a young lady with exceptional beauty, dressed in a light purple dress, walking gracefully towards them. Her little face was exquisite and perfect but there was an ice-cold expression on her face.

This lady was Cloudy Qilin Clan Leader’s niece, Li Leyun and she was also one of the heaven grade geniuses with the highest innate talent in the clan. She was not even thirty years old and was already at the peak of Dream Profound Realm. She had already comprehended the seventh stage thunder attribute conceptualization.

Even in God Realm, there were only a handful of practitioners who had this cultivation at this age.

Originally, Li Leyun was the most valued genius among the entire Cloudy Qilin Clan's direct descendants. She had obtained the entire clan's utmost nurturing and they placed all their hopes on her.

That was... before Li Moying came to Cloudy Qilin Clan, which caused a tremendous change of events.

But no matter what, Li Leyun's innate talent was there. None of the other young ladies present could compare with her.

Whereas in Cloudy Qilin Clan, they basically used the nurturing method of raising parasites. The strong had innumerable special authority. So even if they were to bully the weak, no one would bother at all!

Who asked you to be so weak? The clan did not need the existence of weaklings around!

Moreover, Li Leyun was the Clan Leader's niece.

So when they saw a genius like Li Leyun, a majority of them were pretty scared. Hence they stood up and curtsied to her.

"Greetings, Young Miss Leyun!"

"It's our fault for slacking off. Thank you Young Miss Leyun for the reminder!"

"We'll leave right now, immediately! Will Young Miss Leyun please don't take offense against us!"

The young ladies were preparing to leave dejectedly just as they were speaking.

Whoever knew that Li Leyun shot a cold glance at them and suddenly said, "Slacking off in cultivation and roaming about everywhere. All of you, go to the Disciplinary Hall to be punished with ten lashings!"
