### Chapter 2841: Elder Visits in Person (3)

Although the practitioners cultivated in fire attributed cultivation methods, the flame that was unleashed from Sacred Phoenix Race and human race practitioners were completely different.

In God Realm, those slightly experienced practitioners were able to differentiate that clearly.

Actually, Steward Lu would see those half-dead practitioners ascending to God Realm every day and he knew that most of them weren't able to live.

But this Sacred Phoenix Race's young lady was very fortunate to have a Sacred Phoenix Race's Elder, Huang Sanbai around. Moreover, he immediately made a move to help so she should be saved...

Steward Lu thought in that way and was just prepared to leave when he saw a huge meteorite fragment crashing towards that young lady!

That meteorite fragment was the most dangerous existence in voice space. Moreover, it contained the power of nothingness. Even a fist-sized piece would corrode a practitioner's meridians.

Moreover, that fragment charging towards that young lady was around two meters tall!

Such a huge piece of meteorite fragment would cause that young lady to explode if it crashed on her!

Based on the young lady's unconscious state, there was no way she could evade that piece of meteorite fragment on her own. However, Huang Sanbai was extremely far from her. Even if he were to dash towards her, it would still be too late!

Steward Lu couldn't bear to see it and hurriedly cover his eyes!

This young lady looked rather young and since she could ascend to God Realm, she must have some astonishing innate talent!

But no one expected her luck to be so bad. She actually met with such a huge piece of meteorite fragment. Before she arrived in God Realm, she already....

Steward Lu closed his eyes and waited for the explosive sound of that fragment to crash against the young lady.

He waited for a long time but the ear-piercing sound did not appear. Instead, Huang Sanbai gave off an astonishing remark as though he was extremely shocked.

Steward Lu was stunned and when he opened his eyes, it instantly widened like a full moon.

A bright golden light appeared in between that young lady's brows. A phoenix's virtual image appeared on the surface of her body.

That phoenix looked extremely luxurious and extremely strong. It merely gently waved its wing and shattered the meteorite fragment!

The shattered pieces turned into multiple smaller fragments and after they landed on the phoenix, they fused into the golden light...

The huge phoenix slowly turned smaller and disappeared after the young lady was out of danger. In the end, the golden-colored imprint on her forehead disappeared into her body as well.

Steward Lu was dumbstruck to see that and he couldn't help but keep rubbing his eyes!

Even though he was born in God Realm, he was merely a Dream Profound Realm mid-phase practitioner. But this astonishing scene was something that he had never seen previously!

This young lass... she really seemed impressive!

It looked like the person whom Huang Sanbai was waiting for... should be her?

Thinking of this, Steward Lu turned around and anticipated to see the happy look on him. But just one look made Steward Lu shiver in fright!

Because the expression on his face... was simply too terrifying!

This usually amiable and kind elderly man seemed to have changed into another man. There was a twisted, malicious expression on his face and his eyes were radiating an icy cold glint.

1

Terrifying, it's simply.. too terrifying!

Steward Lu sensed that he wasn't able to move at all!

This... what was going on?

Chapter 2842: Saved by Someone (1)

However, that expression only lasted on Huang Sanbai's face for a few seconds and instantly disappeared.

Steward Lu rubbed his eyes and when he opened it again, Huang Sanbai had already reverted to his original expression.

Moreover, he anxiously dashed towards that young lady!

Steward Lu was slightly dazed and couldn't help but feel tangled. "I must have seen it wrongly? I definitely saw it wrongly... sigh, I must have been too tired recently so my eyes were playing tricks on me! Elder Sanbai is such a nice guy, how could he possibly show that kind of terrifying look?"

Huang Sanbai had already reached the young lady's side and using his Profound Energy, he enveloped her within and sent her to the teleportation point.

Steward Lu hurriedly headed up. "Elder Sanbai, are you alright? This young lady... is she the person whom you are looking for? Is she injured? Do you need my help?"

Huang Sanbai looked at the young lady and a cold glint flashed past his eyes.

But when he turned to Steward Lu, he appeared to be very amiable and said, "Thank you Steward Lu for your concern. If I'm not wrong, I believe that this young lass should be the person I'm looking for. She must have been injured by those meteorite fragments and her meridians are damaged. But luckily she had a God Relic to protect her so she's fine. I've brought a lot of medicinal pills along. So Steward Lu, please continue with your work. I'll bring her over to the sentry post to have a little rest."

When Steward Lu heard that, he instantly nodded and said, "That's great! If you need anything, please feel free to inform us!"

After Steward Lu left, Huang Sanbai carried the unconscious young lady back to the sentry post.

There were a few top exponents and guards from the clan who had followed Huang Sanbai. When they saw him carrying a person in, all of them "swooshed" and surrounded them.

"Elder Sanbai, you're finally back! Have you received the person yet?"

"This person, whom you brought back, must be the legendary god grade genius?"

"What's the matter with her? Why is she unconscious? Is she injured?"

Sacred Phoenix Race's practitioners crowded around them and started raising their questions. They couldn't wait to stretch out their necks to see what the abnormally talented practitioner looked like!

In the end, all of them were stunned as they stood in a daze.

After some time, someone said weakly, "This... this... cough cough, Elder Sanbai, who is this? Why have you brought a young lady back?"

"Although this young lass is seriously injured and she really looks pitiful, it's more important to pick up the god grade genius, isn't it?"

"Right, it's such an important matter and this is related to our branch's future..."

Everyone started to broach this topic as they were extremely surprised.

Huang Sanbai was one of the most steady Elders and he had always been dependable. Even Clan Leader Huang Tianhao also looked upon him as his right-hand man. He trusted him very much.

Why would he suddenly put aside such an important task to save a young lass?

Everyone didn't think about the possibility that this young lady might be the god grade genius whom they were waiting for.

It was because... she looked really petite and frail. Moreover, her clothes were in tatters.

As compared to those glamorous heaven grade geniuses, the difference was simply too great!

Chapter 2843: Saved by Someone (2)

Huang Sanbai squinted his eyes and after a short moment of thinking, he said, "This young lady should be the person whom we are looking for!"

Everyone was stunned and after some time, they started to cry out in surprise.

“Elder Sanbai, you are saying that... this lady is the god grade genius who ascended from Lower Realm??”

“It’s really her? How could this be possible? She looks so young and really doesn’t look like that person!”

“That’s right, could there be a mistake somewhere? Is it because there was an error in the spiritual imprint? Or... have we recognized the wrong person?”

Elder Sanbai shot a glance at these people and slowly shook his head. “You can stop guessing. Earlier, I have already checked her pulse and I can confirm that her bone age is not even twenty years old! She’s so young but able to ascend from God Realm, she would at least be a top rated heaven grade genius! I just don’t know how is her comprehension of conceptualizations! But no matter what, there couldn’t be such a coincidental thing under this heavens. She is definitely the person whom we are looking for!”

Hearing Huang Sanbai saying that, everyone naturally chose to believe him.

But they were even more stunned!

This young lass was actually not even twenty years old and had already broken through to tenth stage realm! Even among the descendants in Sacred Phoenix Race, there wasn’t a second person who could achieve this...

Indeed a god grade genius. This ability... was really out of one’s imagination!

After a while later, someone finally came to their senses and said, “Elder Sanbai, since.. since this lady is a god grade genius, why is she so seriously injured? Will.. will it be life-threatening?”

Elder Sanbai shook his head and placed the young lass on a chaise lounge.

“She must have met with the meteorite fragments during her ascension and her meridians are damaged. Lass Ling, come and take her pulse for her.”

A young lady walked up and sat next to Huang Yueli. Lifting her arm, she placed her fingers on her pulse and said, “There’s no major problem. She’s unconscious because of the damage to her meridians. But Elder Sanbai should have brought along the Vascular Zen Pill. Try feeding her three pills first. If there are no other issues, she should regain her consciousness during nighttime.”

Huang Ruiling was one of the younger famous medical geniuses in the clan and she was also a famous genius under Huang Sanbai’s wing.

Hearing her words, everyone was at ease. They watched Huang Ruiling feed Huang Yueli the medicinal pill and as they were worried about disturbing the god grade genius from resting, they started to make their way out.

...

In the dark night.

On the Soul Connection Ocean, a great big moon hung above the skies, shining down on the ocean’s surface. The seven teleportation points formed into seven energy vortexes.

These seven energy vortexes gave off a silverish gentle glow.

The hazy light shone into one of the sentry post rooms and the unconscious young lady suddenly frowned as though she was disturbed by the sudden bright light.

“Lass Ling, is she awake already? What time is it already, why isn’t she awake yet? Didn’t you say that she will be alright during the night?” An elderly voice rang from a distance.

Another young lady’s voice responded, “Elder, please don’t be anxious! This young lady had floated in the void space for too long and she is extremely frail. She might need a little more time before she awakes. Please don’t be overly anxious!”

“How can we not be anxious? Everyone knows that she’s an important figure in our clan! All the clansmen are waiting for me to bring her back!”

Chapter 2844: Saved by Someone (3)

“If I were to come out with any mistakes at this juncture, the entire clan would be very disappointed with me.” Huang Sanbai’s brows were tightly wound. “Is she really alright? Do we need to give her any other medication? If the situation is really pressing, we must hurry back to the Sacred Phoenix Continent and find your Master to treat her!”

Huang Ruiling muttered, “I feel that there’s nothing wrong with her pulse. So logically speaking, she should have awoken long ago, but...”

Before she could finish her sentence, they heard a “whoosh” sound coming from the room!

The two of them hurriedly turned their heads to see the entire floor full of shattered porcelain pieces. Water also splashed everywhere.

Originally, the young lady who was quietly lying on the bed had awoken some time ago. She was just sitting up with her hand stretched forward. There was an embarrassed look on her face.

“Ughh, cough cough, I’m sorry, I just wanted to drink some water...”

Huang Yueli discovered that her voice was extremely hoarse when she spoke.

Huang Ruiling and Huang Sanbai were shocked for a moment but immediately after that, Huang Ruiling jumped up like a cat whose tail had been trodden on.

“Y, Y, You.. quickly lie down properly! I’ll get you a glass of water!”

“Ughh, thank you...”

Huang Yueli looked at these two strangers in front of her and felt rather suspicious.

Her memories were still stuck in the period when she ascended.

The vast void space was much more dangerous than what she had imagined. Even though Huang Yueli carried plenty of Profound Armaments on her, she still met with several critical moments.

There was once when she met with a powerful current of meteoroid fragments which surged towards her!

Usually, those shattered meteoroid fragments were the most difficult to handle. In the void space, Heaven and Earth Profound Qi were practically in a dull state. She spent a lot of effort to mobilize a small amount of it. Based on that little amount of energy, it was totally insufficient to deflect all those shattered meteoroids.

Huang Yueli persisted for a long time but there seemed to be no end to it. It just kept gathering towards her and she was unable to handle all of it.

For a split second, she seemed to have an illusion that these shattered fragments seemed to be attracted to her. It gathered to her side, seemingly aiming for her!

But very quickly, she denied this strange idea.

She had already read from an ancient record from Huang Siluo that the void space's meteoroid fragments were distributed randomly and when practitioners ascended, they would more or less meet with some obstructions. It really depended on one's luck.

Thinking through this, the only possibility was that her luck was just too bad!

Huang Yueli was burning with anxiety but she didn't have any better way. During her last lap of struggle, her meridians were finally seriously damaged and she became unconscious.

Just at the moment when she fainted, the only thought in her mind was— she wished that Li Moying had much better luck than her when he ascended, to reach God Realm safely...

At that moment Huang Yueli no longer had any hope. She felt that she would definitely not be able to arrive in God Realm.

Whoever knew that when she opened her eyes, the first thing she saw was two living people!

Moreover, that girl's cultivation was not bad. As for the elderly man with white hair, there was an unfathomable aura on him. It seemed that his cultivation was much higher than hers, an existence which she could not hope to achieve!

In the ordinary Continent, there was absolutely no way for such a top exponent to exist.

Chapter 2845: Saved by Someone (4)

Could it be that she had actually arrived in God Realm, and she had been saved by someone?

An astonishing thought flashed past in Huang Yueli's confused and dazed mind.

Huang Sanbai then spoke in the next moment.

"Young Miss, are you feeling better? You were attacked by those meteoroid fragments in the void space and your meridians were seriously injured. I've already fed you the treatment pills, how do you feel now?"

Huang Sanbai looked kind and healthy in his old age and facing the only god grade genius in the clan, he showed his utmost patience, hoping to give her a good impression.

Huang Yueli instantly understood his kind intentions and the anxious feeling soothed a little.

She thought over for a slight moment and said, "It's Senior who saved me. I am really grateful to you. This junior will repay you for the debt in the future! May I ask Senior, where is this place? Have I arrived in God Realm yet?"

Huang Sanbai smiled and said, "That's right, this is the teleportation point in between God Realm and the voice space, the Soul Connection Ocean."

Huang Yueli immediately showed a smile. "That's great! So I arrived successfully to God Realm!"

Huang Sanbai nodded his head and laughed, "That's right. You met with many dangers in the void space, but you still arrived safely! Speaking of this, I haven't asked for Young Miss' name?"

Huang Yueli leaned against the bedframe and cupped her hands in greeting. "Senior is too modest. This junior is a practitioner from Soaring Heavens Continent and my name is Huang Yueli..."

Before she could finish her sentence, Huang Ruiling's surprised voice was heard from the door.

The young lady took a teacup and dashed towards Huang Yueli's bed. "You... your surname is really Huang! You must be born in the Sacred Phoenix Race, right?"

Huang Yueli was surprised by her agitated look and after a short blank, she nodded her head and said, "Ughh, right. I am indeed from the Sacred Phoenix Race. But there isn't a lot of Sacred Phoenix Race's bloodline left in Soaring Heavens Continent. I wonder if there's a way to contact the family's descendants after I come to God Realm..."

Huang Sanbai looked at Huang Ruiling's discomposed look and couldn't help but give her a stare.

But hearing Huang Yueli's answer, he was exceptionally excited hence he couldn't be bothered to lecture that young lady.

"That's great! You're really from the Sacred Phoenix Race!"

Seeing the happy looks on them as though they were about to faint, Huang Yueli was a little surprised.

These two people, weren't they a little too strange?

Although the ancient god clan's bloodline was extremely scarce in the lower realm, in God Realm, it was an identity of nobleness. But was it worth getting so shocked over it? Wasn't it a little over?

"Ughh, this... I'm sorry to interrupt the two of you. I am from the Sacred Phoenix Race... is there a problem with that?"

Huang Sanbai finally calmed down a little and when he saw her puzzled look, he laughed hastily and said, "Haha, I'm sorry. This Old Man has gotten a little too excited. It's because... it's a joyous occasion in our Sacred Phoenix Race for the past ten thousand years! You're called Huang Yueli right?"

Just as she nodded her head, he immediately continued to say, "It's like this. Young Miss Li, I am Huang Sanbai, who is also from the Sacred Phoenix Race. I am an Elder in the clan..."

Before he could finish his sentence, Huang Yueli cried out in surprise, "Elder!"

Although she had never been to the clan, she knew that no matter what powerhouse it was, an Elder was usually a respectable existence.. Their power and prestige were indispensable.

Chapter 2846: She's Really A God Grade Genius! (1)

Since Huang Sanbai is an Elder in the Sacred Phoenix Race, his status within the clan was imaginable!

She had never thought that the person who saved her to be such an important figure!

Thinking of this, Huang Yueli couldn't sit still any longer.

Huang Sanbai knew what she wanted to do and quickly held on to her shoulder to make her lie back on the bed.

"Young Miss Li, don't be hasty and listen to what I have to say first! In actual fact, I didn't come here to the Soul Connection Ocean by accident. I'm here especially to pick you up and have been waiting for close to two weeks. Today I happen to see you in danger in the void space. Luckily I managed to help you in time, otherwise, if you really got injured seriously, I will not be able to explain to the entire clan!"

Huang Yueli was getting more and more puzzled by the second. "Wait, Elder Sanbai, you mean... what's the meaning of this? Why can't I understand what you're saying..."

Huang Sanbai smiled and said, "Then do you still remember that when you were in the lower realm, you had once comprehended a conceptualization drawing in the Sacred Phoenix Race's inheritance tower? That painting should be called.... <<Mystic Nine Skies Phoenix Painting>>!"

Huang Yueli blinked and a ray of enlightenment flashed past her mind!

She seemed to have understood something suddenly.

"That's right, I've indeed comprehended the <<Mystic Nine Skies Phoenix Painting>>. At that time, the inheritance tower spirit Senior said that this is the first time I comprehended the fifth stage conceptualization so I've broken some record..."

Huang Sanbai heard her muttering the contents to herself and he was happy to hear it. He quickly said, "That's right! A Clan Leader from several thousands of years ago left his spiritual imprint in the <<Mystic Nine Skies Phoenix Painting>>. The first time anyone comprehended the fifth stage conceptualization would trigger the spiritual imprint so that God Realm's descendants would receive the signal. So the clan already knew about a genius like you! Moreover, when you were comprehending in the lower realm, you should still be in the ninth stage realm, right? Based on ninth stage realm cultivation, comprehending the fifth stage conceptualization is definitely a god grade genius for sure!"

Originally, many had doubts in the clan and they were also worried that the <<Mystic Nine Skies Phoenix Painting>> might have been in the lower realm for too long. Hence the inner portion of the spiritual

imprint might not be accurate. The genius that triggered the spiritual imprint might not really have comprehended fifth stage conceptualization.

Now that Huang Yueli told him about her level of comprehension of the conceptualization stage.

As the information matched, it perfectly verified Huang Yueli's status and innate talent.

This was a confirmed piece of good news so why wouldn't it make anyone happy?

She suddenly got the idea. "That means that you received the news that I've comprehended the fifth stage conceptualization and that's why... that's why you specially came to Soul Connection Ocean to send me back to the Sacred Phoenix Race? But isn't that a little too exaggerated? There should be a lot of practitioners with the same innate talent as me in God Realm, right? How can I trouble Elder to come and pick me up personally..."

"A lot?? Young Miss Li, you... why would you have this misconception??" Huang Sanbai's eyes widened as he looked at her in disbelief.

"Ah? Could it be... god grade geniuses are really very rare?" Huang Yueli asked with a puzzled expression.

Although Huang Zixiao had once told her that god grade geniuses were first rated genius in God Realm and they would receive the greatest degree of value and nurture from the clan.

But Huang Yueli somehow preconceived the thinking that God Realm had a lot of geniuses.

Moreover, it was just a mere Soaring Heavens Continent and there were already two god grade geniuses like Moying and her.

Whereas in the vast universe, there were said to be three thousand planes.

Chapter 2847: She's Really A God Grade Genius! (2)

According to the probability calculation, there should be quite a number of god grade geniuses in God Realm!

Huang Sanbai looked at her dazed and surprised look, so he could only explain the real scenario to her.

"Young Miss Li, you're really mistaken! Speaking of this, it has been close to three thousand years since a god grade genius appeared in God Realm! As for Sacred Phoenix Race, we haven't had a god grade genius in the past ten thousand years! Honestly speaking, no one expected the clan's descendants to be unable to nurture a god grade genius, but one ascended from the lower realm instead! Anyway, based on your innate talent, the entire clan has high expectations for you. So in the future, you need not worry about the resources in Sacred Phoenix Race. All you need to do is to work hard and cultivate!"

Huang Yueli then slowly came around this.

So, god grade genius was so scarce to this degree!

Huang Zixiao's words were not exaggerated at all...

Thinking that Sacred Phoenix Race actually sent out those respectable Elders to pick her up, she could imagine just how much the clan valued her!

Even if it was in Soaring Heavens Continent, she had never enjoyed such good treatment.

Huang Yueli felt a little excited.

Soaring Heavens Continent's resources were scarce and the Heaven and Earth Profound Qi's intensity wasn't high as well. It had always been her greatest secret worry, and she was very worried that it might affect her future achievement in the art of cultivation.

Now that she was able to receive the utmost nurture from Sacred Phoenix Race, it was simply like a lifesaver!

Huang Yueli was indulged in her excitement for a short moment and suddenly thought of a question.

She lifted her head and looked at Huang Sanbai. Then she hesitated for a moment before she asked, "Right, Elder Sanbai, earlier... you said that God Realm hasn't had a god grade genius in the past three thousand years? Has... Has there never been any god grade genius until now? Am I the only one?"

She raised this question carefully and her heart started to pound wildly. There was an indescribable uneasiness in her heart.

Logically speaking, she shouldn't be the only god grade genius in God Realm.

Li Moying's innate talent wasn't any weaker than hers. According to God Realm's standard, he should be a god grade genius as well!

But from Huang Sanbai's tone, there hadn't been any god grade genius in the past three thousand years...

Then where had Li Moying gone to??

Surely he... he didn't meet with an accident like her in the void space, and didn't manage to arrive in God Realm in the end, right??

If this was the case, then she...

Just as Huang Yueli was feeling anxious and terrified, Huang Sanbai gave a cold snort and spoke disdainfully, "Actually, that's not so."

"God Realm indeed did not have any new god grade geniuses in the past three thousand years. But at the end of last year, a god grade genius suddenly appeared in Cloudy Qilin Clan. Moreover, they had kept him well-hidden. It was until this year that the other clans started to get news of this..."

Hearing the three words "Cloudy Qilin Clan", Huang Yueli immediately knew that this person was Li Moying!

Not only did her husband arrive safely in God Realm, but he had also returned to his clan. This news to her was simply too delightful.

She was very happy with the news. Her waist was no longer sore, and her feet were no longer in pain. Hence, she directly sat up straight.

Huang Yueli was just about to say something when Huang Sanbai spoke again, "Hmph, those scums in Cloudy Qilin Clan.. You've never seen their scoundrel look! They think that they have a god grade genius in their clans and they're so great. They can suppress our Sacred Phoenix Race by a great deal! What a dream! We Sacred Phoenix Race has a god grade genius like you too!"

Chapter 2848: She's Really A God Grade Genius! (3)

"Moreover, I heard that the god grade genius in Cloudy Qilin Clan didn't even comprehend conceptualizations in the lower realm. As compared with you comprehending the fifth stage conceptualizations while you were in ninth stage realm is simply a world of difference! He can't be compared with you at all!"

"Young Miss Li, you must cultivate hard! In the future, punch that Cloudy Qilin Clan's so-called genius hard! Show them Sacred Phoenix Race's power!"

Huang Sanbai apparently bore a deep grudge against the Cloudy Qilin Clan for a long time. The more he spoke, the more agitated he got, and the more vicious his expression turned.

Huang Yueli was just about to say something but she immediately swallowed it down.

At the same time, she was completely stunned and almost teared up!

T...T...This... what was going on?

Could it be that Sacred Phoenix Race and Cloudy Qilin Clan were really this hostile??

She originally wanted to say hello to the clan then rush off to meet her husband! Now that they were focused on nurturing their peerless geniuses, it should be considered as a match made in heaven. So everyone should be envious of their relationship. Whoever knew...

Whoever knew that Huang Sanbai said this!!

This time round... she and Li Moying were in big trouble!

Back when she was in Soaring Heavens Continent, she had already experienced how bad the relationship was between the two clans when she entered the Cloudy Qilin Clan's refinement grounds. In fact, they were totally at loggerheads.

But she somehow felt that since that refinement historical remains had already been there for several thousands of years, both families might have already reconciled after such a long time. Hence, she didn't place too much emphasis on this.

From the looks of this now, instead of reconciling, their grudge seemed to have deepened!

Huang Yueli really wanted to cry after she found out about this!

But she also knew that mentioning her marriage with Li Moying now wasn't a good choice. She wasn't even sure of the situation in the clan right now...

No matter what, it was best to return to Sacred Phoenix Race with Huang Sanbai and the others first, before deciding on her next course of action.

Thinking of this, Huang Yueli adjusted the expression on her face and showed off an indignant look. "Elder Sanbai, don't worry. This Junior will definitely train hard! As a member of the Sacred Phoenix Race, This Junior will not let down the clan's nurturing!"

When Huang Sanbai heard that, he was very happy and kept fiddling with his beard. He said, "Good, good, that's wonderful! You're such a good child!"

When Huang Ruiling heard that, she couldn't remain seated and hurriedly jumped up to say, "So, Young Miss Li is a god grade genius. That's great, that's so fantastic! I must hurry and inform all the clansmen about this good news!"

As she said that, before Huang Sanbai and Huang Yueli could react, she already flew out like an excited little bird.

When she stepped out of the room, a bright voice rang from the door.

"Everyone, stop sleeping. Wake up right now, we have a piece of good news! Young Miss Li is already awake and we have verified her identity! We, Sacred Phoenix Race... really have a god grade genius!!!"

Her voice just stopped and a commotion burst out in the courtyard.

Immediately following that, all the Sacred Phoenix Race's disciples opened the door and rushed into the room where Huang Yueli was in.

"Really? Young Miss Ling, has the god grade genius already woke up??"

"Has she really comprehended the fifth stage conceptualization when she was in the ninth stage realm?? There's such a shocking presence in this world?"

Chapter 2849: She's Really A God Grade Genius! (4)

"God grade genius, she's really a god grade genius!!!"

"Quickly let me through, I have to see it for myself! If I dabble some luck from her, perhaps it might raise my ability slightly!"

They were originally very excited over saving someone in the afternoon and several of them couldn't sleep at all as they were curious if that unconscious young lady was really a god grade genius.

Now that they've confirmed it and even heard that she's awake, all of them were extremely agitated.

Sacred Phoenix Race practitioners swarmed together and they were about to dash into the room.

Huang Sanbai frowned and coughed loudly. "Cough cough, everyone keep quiet! It's in the middle of the night and you're acting so rowdy. Whatever next?"

Hearing his stern voice, all the practitioners didn't dare to create a ruckus. Even though they were excited, they didn't dare to enter abruptly and stopped right outside the door.

Huang Sanbai said, "Young Miss Huang Yueli is already awake and she's feeling fine. After confirming her identity, she is indeed the god grade genius that we are looking for. I will bring her back to Ice Moon Summit a few days later after she has recuperated. All of you should leave and not disturb Young Miss Li from resting. When she recovers and returns to the clan, you will naturally get your chance to meet her."

Those disciples exchanged looks and were unwilling to leave.

The clan's only god grade genius was there, what kind of status would she have! What kind of privileges and resources would she be able to obtain in the future!

Everyone was thinking of using this opportunity during this mission to get on good terms with the god grade genius so that they would be able to gain some benefits from her in the future. In the end, they were shut outside!

But Huang Sanbai was very prestigious in the clan and no one dared to disobey his commands.

So they could only agree and leave.

...

At this moment, a luxurious and beautiful flying ship flew swiftly in God Realm's skies, passing by one after another Continent.

"Bang bang bang!" Someone knocked on the main cabin's door.

A handsome man with his eyes shut was sitting in the middle of the spirit gathering array. He suddenly opened his eyes and asked in a deep voice, "What's the matter?"

The person outside the door respectfully said, "Reporting to Young Master Moying, we have arrived at Sacred Phoenix Race's skies! They request that we make a roundabout because they don't allow any Cloudy Qilin Clan's practitioners to pass through Sacred Phoenix Continent... do you think we should pass through White Tiger Continent?"

Li Moying's brows immediately creased as a hint of impatience flashed past his eyes.

"No need! Send my instructions down that the flying ship will pass through Sacred Phoenix Race's skies directly! Ignore what Sacred Phoenix Race says, we must reach Soul Connection Ocean as soon as possible!"

God Realm's twelve continents were distributed among the twelve God clans and named after the God Clan's name.

Each continent is extremely large and if ordinary practitioners were not taking the high grade Gem Armament tier aviation God Relic like what Li Moying did, it would take several months to travel by foot or ride on ordinary magical beasts. There was totally no way to pass through a large continent's boundary.

Among them, Sacred Phoenix Continent was the closest continent to the Soul Connection Ocean. If they wanted to arrive at their destination at the fastest speed possible, passing through Sacred Phoenix Continent was the best choice.

If they were to detour to the White Tiger Continent, it would be a roundabout and another three days would be wasted on the reroute.

Li Moying was anxious to meet his Li'er and he was burning with anxiety. He was also worried that it was Huang Yueli's first time to God Realm, so she wasn't familiar with anyone at all. He didn't want her to meet with any danger, hence he naturally wasn't willing to wait for another three days.

The guard outside went into a daze, apparently not expecting Li Moying to give him this answer.

Chapter 2850: She's Really A God Grade Genius! (5)

Sacred Phoenix Race and Cloudy Qilin Clan had always been on loggerheads. Whenever both party's disciples disagreed on something, they would just start a fight!

Although Cloudy Qilin Clan wasn't afraid of Sacred Phoenix Race, Li Moying was still on the Sacred Phoenix Race's turf. There weren't any other top exponents in the clan to protect him as well. So the safest way was to choose to reroute. There was no need to fight with the local tyrant.

Three days to high leveled practitioners with long lives was nothing.

The guard hesitated for a moment and tried to persuade him. "Young Master Moying, Sacred Phoenix Race had already spotted our flying ship and they would definitely keep watching us. If any accident were to happen... you're our clan's most important figure so please do take care of your safety as a priority..."

This guard had stayed by Li Moying's side since he returned to Cloudy Qilin Clan. Until now, it had been slightly more than a year.

He knew his own Master's character. He looked cold on the surface but in actual fact, he's overbearing and powerful. He doesn't care about anyone else at all.

Li Moying would never give in so easily because of Sacred Phoenix Race's threat.

But the guard couldn't try to persuade him. Before they set off, Clan Leader had especially reminded him that no matter what happens, the most important thing was to ensure that Li Moying would return to Amethyst Pole Palace in one piece.

Before he could finish his sentence, Li Moying had already berated him impatiently. "Enough, I know what I'm doing! Activate all defense mechanisms on the flying ship and move forward at full speed. We must go past Sacred Phoenix Race at the fastest speed we can muster up and head to Soul Connection Ocean! If you dare to continue with this gibberish, don't blame This Seat for disregarding the relationship we have!"

The guard jolted and with a shudder, he bowed his head low and did not say a word more. Then he relayed Li Moying's commands to the rest of the crew.

Li Moying's thoughts started to fly far away upon hearing the guard's footsteps.

His Li'er, he had not seen her for more than a year!

He wondered if this little fox had been listening to him and took good care of herself.

But he guessed that she did not. To be able to improve from ninth stage realm first level to tenth stage realm in such a short time, he could just imagine how much effort she put into it.

His little fox must have forgotten to eat or sleep properly, just focusing on cultivation and totally ignoring her body.

She was so disobedient. When he picked her up, he had to teach her a good lesson then try to think of ways to turn her into a fair and plump baby before he 'devoured' her...

Thinking of that lovable wife with a sweet smile on her face, Li Moying's icy cold expression instantly melted as a tender look started to flow out from his eyes.

"Li'er, wait for me..."

...

Unknowingly, Huang Yueli had already stayed in the sentry post in Soul Connection Ocean for the past three days.

Originally, Huang Sanbai was anxious to bring her back to Sacred Phoenix Continent. But after Huang Ruiling did another check on her, she felt that Huang Yueli's pulse seemed rather frail and wasn't suitable to go on a long journey. Hence they stayed a few more days so that she could recuperate.

This short span of three days made Huang Yueli deeply experience how high the status was for a god grade genius.

All those practitioners who followed Huang Sanbai here took the initiative to visit her. They also prepared various gifts and when they talked, their tone revealed how much they admired her.

Even though these clansmen were much older than her, their cultivations were much higher and their bloodlines were much purer, all of them treated her respectfully and addressed her as "Young Miss Li".. No one dared to call her by her name.
