

Weaponsmith 2901

Chapter 2901: Drift Apart (1)

Based on Young Master Moying's protective and overbearing manner, how could he possibly not be angry at all? He even... even asked them not to find trouble with the Sacred Phoenix Race?

Li Moying didn't bother to explain.

If it was anyone else who dared to hoot in front of him, he naturally would not let that person off so easily.

But Huang Sanbai and the others were Huang Yueli's clansmen after all. Moreover, if she wanted to soar to the peak of the cultivation path, she definitely could not leave her clan totally.

Since that was so, he could only show his wife's family mercy.

Li Moying pursed his lips slightly and lifted his right hand.

"Since Huang Yueli isn't here, let's leave!"

He finished talking and walked towards the door.

Since she wasn't here, he wasn't intending to waste any more time at this place.

The most important thing was to quickly search for her elsewhere!

Li'er was in such a dangerous situation so the sooner he found her, perhaps he might be able to save her!

Cloudy Qilin clan practitioners looked at one another in dismay. But none of them dare to defy his commands hence all of them followed after him.

Seeing their departing figures, Sacred Phoenix Race practitioners were all stunned.

They originally assumed that they would not escape being humiliated by the Cloudy Qilin clan! But whoever knew that these people only struck them down and turned to leave?

Moreover, from that Cloudy Qilin clan's god grade genius's intention, he wasn't intending to pick on Sacred Phoenix Race? Why did he do that? Was there something wrong with him?

Huang Sanbai totally didn't hear what Li Moying said before he left.

At this very moment, he was consumed by humiliation and rage. All he wanted was to dig a hole and hide into it, like an ostrich!

He... a Dao Profound Realm mid-phase practitioner, defeated at the hands of a twenty over year old junior! Moreover, it was right in front of so many clansmen!

That junior had subdued a Qilin and caught him unaware. There were a lot of chances but this wasn't the most humiliating part!

Huang Sanbai flushed with anger and his gaze was exceptionally cold. “Cloudy Qilin clan’s brat... how dare you! Since you insulted me in such a manner, don’t blame me for being rude to you! I will definitely crush you, the so-called god grade genius, and ensure that you will never be able to rise in power!”

He didn’t think that he was the one who maligned Li Moying first. That was why he met with the other party’s counterattack. Instead, he pushed all the blame onto Li Moying.

It also became reasonable for him to malign Li Moying for attempting to murder Huang Yueli.

That brat was disrespectful to him first, so he had no choice but to do this!

...

Whereas for Li Moying, he had already left the mayor’s manor. Leading the guards, they left Serene Rain Town.

“Young Master Moying, we... where are we heading to now?” The leader of the guards chased after Li Moying quickly and asked cautiously.

Li Moying’s speed was simply too fast. Even though they were well-trained, they couldn’t catch up to him at all!

Li Moying’s anxious and frustrated emotions were totally unconcealable, which was different from his usual cold, aloof, and emotionless image.

He stopped in his tracks and spat out two words, “Find her!”

“Find her?” The guards were stunned and asked, “Find who? That Sacred Phoenix Race’s god grade genius?”

Li Moying didn’t reply, but his speed became even faster!

The guards started to display their body movement Profound Skills and barely managed to chase up to him.

Chapter 2902: Drift Apart (2)

Serene Rain Town had several exits and there were guards stationed there to interrogate all the crowds who were entering or leaving the town.

But Li Moying and the others were wearing the Cloudy Qilin clan’s totem. When they saw the high and mighty ancient God clan, the guards wouldn’t dare to stop them, even if they were bold enough.

The group of them left the city gates without a hitch and Li Moying finally stopped. He turned around and instructed, “Even the Sacred Phoenix Race people don’t know where Huang Yueli had gone to. The possibility of her meeting with a fatal danger is extremely high...”

Huang Sanbai claimed that she was attacked by the Cloudy Qilin clan hence she went missing. Although Li Moying doubted his words, it didn’t come across his mind that Huang Sanbai was guilty.

He was making a wild guess and wondered which mysterious force in God Realm had intentionally chosen this moment to strike, just so to incite the feud between the two clans.

But Sacred Phoenix Race's practitioners had a deep prejudice against the Cloudy Qilin clan. So even if he wanted to explain, the other party wasn't interested to listen at all.

Hence, they could only depend on themselves to search for her and analyze all the clues that they had got.

He muttered irresolutely to himself for some time, then he spoke up. "Since the Sacred Phoenix Race had been searching in Serene Rain Town, that meant that the location where Huang Yueli had gone missing was not far from Serene Rain Town. Moreover, this town is a necessary path from Soul Connection Ocean to Sacred Phoenix Continent. Even if she wanted to go to the neighboring small towns, it is necessary to pass through this place. Since we can't find her in this small town, the biggest possibility is that Huang Yueli had gone missing in between the Soul Connection Ocean and Serene Rain Town..."

It wasn't difficult to come to this conclusion.

Li Moying had come to God Realm for a year and he understood God Realm's comprehensive topography.

Soul Connection Ocean was a terrain on the verge of God Realm and in between this place to Serene Rain Town, there was an extremely vast barren land. There was only one narrow channel that allowed the practitioners to pass through.

Whereas in this vast barren land, there were very few traces of humans and the topography was extremely complex. There was also a huge quantity of Spirit Beasts prowling around. Even Dao Profound Realm practitioners wouldn't dare to enter that place so easily, not to mention Lower Realm practitioners who had just ascended.

But if one were to leave the channel and enter into the barren land, that practically meant that it was impossible to leave that place alive!

If that mysterious force wanted to deal with Sacred Phoenix Race's god grade genius, luring them into the barren land was the easiest choice to make...

Li Moying thought over this briefly and quickly made the arrangements. "There isn't any time to waste. All of you will split up into two teams and interrogate those small towns by the side. You cannot miss out on any towns which are near Soul Connection Ocean! Tian Yi, Tian Er, you two will follow me to the barren lands to search for her!"

The guards originally stood respectfully beside Li Moying and listened to his instructions.

But upon hearing the fact that he was preparing to enter the barren land, everyone lifted their heads in shock.

Even Tian Yi and Tian Er, who was leading the team, couldn't help but speak out to stop him!

“Young Master Moying, you... you really... must you go into the barren land? But the barren land is simply too dangerous. Even the Elders in the clan don’t dare to enter it easily. Please reconsider your decision!”

“That’s right, Young Master. The Sacred Phoenix Race’s god grade genius is missing but they don’t even dare to go into the barren land to search for her. Why must you go on their behalf? Frankly speaking, their affairs have nothing to do with you! Even if that god grade genius died accidentally, it has nothing to do with the Cloudy Qilin clan. Perhaps, it might even be a great thing...”

“Shut up!”

Tian Er was speaking non-stop when he heard his Young Lord bark sharply!

He shivered and hurriedly shut his mouth.

Chapter 2903: Drift Apart (3)

Lifting his head, he saw a bitter, cold glint in Li Moying’s profound peach-blossomed eyes!

That eerie cold glint was like a dagger that stabbed deep into his body.

Li Tian Er’s knees went weak and he immediately knelt on the ground. “Young... Young Master... This Subordinate...”

He had never seen such a terrifying expression on Li Moying and instantly shivered with fright. But he didn’t understand what he said wrongly at all.

Every single time the Sacred Phoenix Race was to run into bad luck, the clansmen would gloat over their misfortunes and no one felt that there was anything wrong about this.

Li Moying swept a glance at him and his thin lips moved slightly. “The Sacred Phoenix Race’s missing god grade genius... is This Young Lord’s wife in the Lower Realm!”

“Wh... What??”

His sentence was much more terrifying than the heavenly thunder.

All the guards seemed as though they had been struck by lightning. They looked at him in a daze, and couldn’t recollect their senses for a long time.

Li Moying’s expression was still icy cold. “Li’er is Your Lady so don’t let me hear anyone speaking ill of her one more time! If we can’t find her, I will not return to Cloudy Qilin Continent!”

By now, Li Tian Yi had already calmed down a little. He stammered and said, “Young... Young Master, are you... you’re not joking right?”

“Y...Yes, this matter... you can’t make a joke out of it casually!”

“Really... I was almost scared to death! So it’s just a joke? I say...”

Quivering voices started to ring.

However, Li Moying merely said coldly, "Does This Young Master look as if I'm joking with you? This is as real as it can be! But no one is allowed to spread the word at all! Otherwise... This Young Master will make that person's life into a living hell!"

The guards trembled and hurriedly said that they wouldn't dare to!

In reality, they indeed didn't dare to defy Li Moying's orders. They were assigned to be his subordinate and even if someone was initially not convinced, it had been over a year. So everyone had witnessed Li Moying's shocking innate talent, courage, and insight. So all of them were won over by him!

Now, they had truly served their allegiance to Li Moying and not to Cloudy Qilin clan!

No one dared to betray him, nor would they possibly do so!

But, they still felt that this was extremely unrealistic. No matter how they thought about it, it seemed as though they were still dreaming!

What joke was this?

In the past ten thousand years in God Realm, the first two god grade genius that had ascended from the Lower Realm were actually a couple??

Moreover, their Cloudy Qilin clan's pride, Young Master Moying who had swept many women off their feet, was married at such a tender age?? He even married a young lady from their mortal enemy, the Sacred Phoenix Race??

Even those storytellers on the streets wouldn't dare to make up a story like this!

Just as everyone was still in a daze, Li Moying had already repeated his arrangements. Lastly, he added, "We'll do this for the next two months. If we're still unable to find her by then, all of us will gather at Sacred Phoenix Continent two months later. By then, we'll try to find other ways to look for her! Alright, grab hold of time, and let's move out!"

"Yes, This Subordinate understands!"

The guards cried out in unison and split up.

But everyone still felt as though they were in a dream.

Sacred Phoenix Race's god grade genius was their Young Master Moying's wife...

Today's dream was too shocking and too frightening... how they wished that they could wake up from this quickly...

Li Moying utilized his body movements Profound Skill and led Li Tian Yi and Li Tian Er towards the perilous barren land.

Chapter 2904: Drift Apart (4)

Li Moying had never imagined that by doing so, he would be drifting further and further away from Huang Yueli!

For close to a month, Huang Yueli had been in disguise. She passed through all the small and large channels in God Realm and made her way hastily towards Sacred Phoenix Continent. She had passed through dozens of towns.

In the first two weeks, her journey had been extremely smooth sailing. She didn't meet with a single Sacred Phoenix Race practitioner at all.

But after some time, Huang Yueli realized that Sacred Phoenix Race practitioners started to appear in the streets and alleys.

Originally, she thought that it was because she was coming nearer to the Sacred Phoenix Continent.

But once, she passed by a large town and saw her picture posted on the city wall.

This made Huang Yueli instantly realize what was going on!

It seemed that everything was not a coincidence. Huang Sanbai realized that he could not find her in Serene Rain Town, so he had no choice but to report her disappearance to the clan...

"But, this is still a little strange! Isn't Huang Sanbai afraid of being punished by the clan leader if he reported this? Or was it because Huang Sanbai's forces in Sacred Phoenix Race had already reached this extent?" Huang Yueli frowned with puzzlement.

She naturally hadn't imagined that Huang Sanbai had already turned Li Moying into his scapegoat.

But because of this, Huang Yueli had overestimated Huang Sanbai's position in the clan. So all the more she didn't dare to return to Ice Moon Summit.

After a month of her tough journey, Huang Yueli finally arrived at the Sacred Phoenix Continent, one of the twelve Continents where the Sacred Phoenix Race reigned power in!

Standing underneath the city gate, she lifted her head and took a look. Any newly ascended Lower Realm practitioners would be awed by this majestic city!

The Sacred Phoenix Continent was surrounded by mountains and had the most dangerous topography among all the continents. The surrounding walls were extremely solid.

Underneath the city walls were numerous God Realm practitioners holding Spirit Armaments, surrounding and protecting the Sacred Phoenix Continent.

Those practitioners who were entering and leaving the city gate instantly felt how insignificant they were. They didn't even dare to speak loudly and formed into a line. They queued up to pay the entrance fees into the city.

"Ten medium grade crystal jades!"

Huang Yueli obediently retrieved ten medium grade crystal jades from her interspatial ring and was just about to hand it over.

Suddenly, a voice rang from the side. "Wait! This person seems to be an ascender from the Lower Realm! Let me take a look!"

A Sacred Phoenix Race practitioner held a painting in his hand and looked at Huang Yueli.

She stood there emotionlessly and allowed him to check her out.

“He doesn’t look quite like... Lad, what’s your name? Which Continent did you come from?” The Sacred Phoenix Race practitioner asked after he looked at her.

Huang Yueli had already memorized her fake identity and casually replied a few words. Then she passed through the checkpoint with flying colors.

After she ventured into the Sacred Phoenix Continent, the first thing Huang Yueli did was to find a teahouse to have a rest.

Previously when she was in the small towns, the practitioners’ ability wasn’t considered as ridiculously strong. There were even a few commoners who had fourth or fifth stage realm cultivation.

But after she entered into a huge continent like the Sacred Phoenix Continent, the situation was completely different.

Every single person that Huang Yueli laid her eyes on, were practically a practitioner in ninth stage realm and above. There were occasionally a few whose cultivations weren’t very high. But they were mostly young people under thirty years old and were from the ordinary human race.

Huang Yueli was now in Dream Profound realm mid-phase cultivation.. If one didn’t look at her age, she really couldn’t be considered as a top exponent at this place.

Chapter 2905: Sky Gem Glass Chamber (1)

“Sir, this is your tea and snacks. Please enjoy!”

The waiter placed the teapot, teacup, and a few plates on the table. Then he nodded to Huang Yueli and left.

Huang Yueli hurriedly called out to him. “Wait! Young brother, can I ask you something?”

As she spoke, she took out a few medium grade crystal jades from her interspatial ring and passed it to the waiter.

The waiter originally felt that she was a Lower Realm ascender so he wasn’t very willing to talk to her. In the end, when he saw her so shrewd and offered some tips, a broad smile immediately appeared on his face.

“Sir, what do you wish to know? Feel free to ask! Although my cultivation isn’t very high, I’m born in Sacred Phoenix Continent and grew up around here. So I know almost everything in Sacred Phoenix Continent!”

Huang Yueli nodded her head. “That’s great! Let me ask you, how many teleportation arrays does Sacred Phoenix Continent have? Which continents do they lead to? If I want to go to Cloudy Qilin Continent, which way should I take?”

When the waiter heard that, he instantly grew anxious and kept looking around to the left and right. After he verified that there wasn't anyone in the surroundings, he heaved a sigh of relief.

"I say, Sir, you've just ascended from the Lower Realm. No wonder you don't know that you shouldn't be saying this so carelessly here! We Sacred Phoenix Continent are on Sacred Phoenix Race's turf. Sacred Phoenix Race had always been on loggerheads with Cloudy Qilin clan. If anyone were to hear you talking about Cloudy Qilin clan here, you might get into trouble! Moreover, a Lower Realm ascender like you doesn't look like an ancient God clan, isn't it? Why are you going so far away for? Are you intending to join one of the big forces?"

Huang Yueli blinked and looked at the waiter's anxious look. She felt rather speechless about this.

She didn't expect that even mentioning Cloudy Qilin clan's name was not allowed on Sacred Phoenix Race's turf!

Would it be the same over at Cloudy Qilin clan's side?

In that case, when she reached Cloudy Qilin Continent, she had to conceal her identity very well. Otherwise, there would be big trouble...

Her thoughts raced past swiftly, and an enlightened expression appeared on her face. "I see, thank you, Young brother, for your pointer! Actually, I don't have to join Cloudy... that whatever clan. I just happened to hear of them when I was in the Lower Realm so I thought of going over to take a look... Speaking of this, a Lower Realm practitioner like me doesn't have any power or status. My ability is also so ordinary, so it should be very difficult to join a large force, right?"

The waiter took a look at her and rubbed his chin. "Speaking of this, you don't look very old. But since you're able to ascend to God Realm, your innate talent is much stronger than mine! Why don't you find a place in Sacred Phoenix Continent to settle down instead? It probably wouldn't be possible to join the Sacred Phoenix Race but there is plenty of second-rate or third-rate forces in Sacred Phoenix Continent. They also hold a considerable amount of resources. At least, it's something beyond your imagination for people like you from the Lower Realm!"

In order to conceal her identity, Huang Yueli intentionally disguised herself to be slightly older. She even stuck a mustache on her upper lips.

The current her looked like a slim and comely young man around thirty years old.

Adding on to the fact that she intentionally suppressed her cultivation to look as though she had just broken through to the tenth stage realm, most ordinary practitioners would feel that she was a human race practitioner with human grade innate talent.

Among the Lower Realm ascenders, that innate talent was not too eye-catching.

Hearing what the waiter said, Huang Yueli nodded her head.. "I also think so! But I've just arrived in God Realm, so I was thinking of traveling around first to find out about the situation, then decide on which force to join. So, Young brother, can you tell me the situation about the teleportation array in the city..."

Chapter 2906: Sky Gem Glass Chamber (2)

Huang Yueli brought the topic up again.

The waiter frowned and was slightly surprised. "What? You're still thinking about that teleportation array?"

He leaned a little closer and spoke softly, "To tell you the truth, the position of the teleportation array isn't hard to find because every block of teleportation array is extravagantly built. Even from afar, you will be able to see it, and would not mistake it for something else!"

Huang Yueli smiled. "That's great!"

"Great? Great my foot!" The waiter stared at her. "Did you think that that teleportation array belongs to your family? Can you stop dreaming? Do you know how much it costs to activate the teleportation array each time? At least ten thousand high grade crystal jades! Moreover, no matter how much money ordinary people have, don't assume that Sacred Phoenix Race will definitely activate it for them. One has to verify that they are of a certain status first! Otherwise, why would they show you this face to do this service for you? Huh?"

The waiter suddenly got agitated and blurted out endlessly, his saliva splattering everywhere!

However, when he turned back to take a look, he realized that she wasn't looking at him at all. Instead, her head tilted to one side and she was looking downstairs from the second floor of the teahouse.

The waiter coughed in displeasure. "Hey, are you listening to me or not? I'm telling you so much out of good intentions! If you don't listen to my advice, don't blame me for not reminding you when you get thrown out by them!"

But Huang Yueli was still looking downstairs attentively so she didn't say a word.

The waiter found it a little strange and leaned closer. "What are you looking at?"

He walked to the railing, took a look downstairs, and said, "Oh!"

"So you're looking at this... that's true. Sky Gem Glass Chamber's Grandmaster Xiao actually passed by this place. This isn't something that happens every day..."

Downstairs the teahouse on the streets, a luxurious carriage slowly steered by.

The pedestrians on the streets saw the carriage and everyone shot a revered look in the carriage's direction.

Several guests were secretly discussing this. One could tell from their conversation that it was full of envy and admiration.

"Why has Grandmaster Xiao come over to our district today?"

"Who knows? But I'm guessing that it should be a Dao Profound Realm top exponent who could invite Grandmaster Xiao over? Perhaps, it might be a large force from Sacred Phoenix Continent!"

"Sigh, I envy Grandmaster Xiao so much. He is so sought after, no matter where he goes..."

“There’s nothing to envy about! If you want to become a Spiritual Armament Master, you have to be extremely strict on yourself. Moreover, Grandmaster Xiao is Sacred Phoenix Continent’s top rated Sky Gem Grandmaster! As for you, it’s better to stop dreaming...”

Huang Yueli heard the noise and suddenly thought of something. Then she turned around and asked the waiter, “Young brother, the carriage downstairs... is he a Sky Gem Grandmaster?”

The waiter retracted his gaze and turned to look at Huang Yueli. He said disdainfully, “I didn’t expect a Lower Realm ascender to know about the Sky Gem Grandmaster as well?”

Huang Yueli didn’t bother about his tone. In her memories, she recalled the things that Huang Zixiao told her when she was undergoing the refinement in the inheritance tower. She muttered to herself, “An Armament Master who can refine Treasure Armaments are known as Sky Gem Grandmasters in God Realm. Their statuses are extremely revered... then what is the Sky Gem Glass Chamber?”

The waiter snorted and explained gleefully, “I thought you know everything! But in the end, don’t you still have to ask me? This Sky Gem Glass Chamber is an organization formed by God Realm’s Armament Masters. It’s equivalent to... your Lower Realm’s so-called Guild?”

Chapter 2907: Sky Gem Glass Chamber (3)

“But Sky Gem Glass Chamber is a major force that is independent of the Twelve Continents. No matter if it is in terms of inheritance, it’s status in history, it does not pale in comparison to the ancient God clans. Although they can’t compete in terms of power, all the large clans still fight to fawn over the Sky Gem Glass Chamber!”

Hearing the waiter’s explanation, Huang Yueli nodded her head pensively.

In the past, Huang Zixiao also told her that God Realm’s top tier Holy Armament was something that only Life Profound Realm practitioners could refine. One’s inherent fated blood essence was one of the materials, and that Armament Master could only refine one piece in their entire lives.

This thing was something that ordinary practitioners could forget about going. Even if it was Dao Profound Realm’s top exponents, it was impossible to obtain one as well.

So all the large forces scrambled to fawn on Sky Gem Grandmasters.

The waiter coughed again. “What do you think? Now, do you know what kind of status does a Sky Gem Grandmaster holds?”

Huang Yueli nodded to show that she had gained some insight and hurriedly asked, “Then, for a Sky Gem Grandmaster like Grandmaster Xiao, is his status high enough? Does he have the right to use Sacred Phoenix Continent’s teleportation array?”

The waiter scoffed, “Isn’t that obvious? Sky Gem Grandmaster! What kind of status do you think that is? Even the Castellan of our Flame Square City has to bow down to him!”

“I see...” Huang Yueli muttered to herself irresolutely.

She roughly understood God Realm's situation from reading the <<Overview of God Realm>>.

She knew that in each Continent, it would generally be demarcated into more than ten different cities, and those would be managed by various God clans' higher management.

Taking the Flame Square City that she was in right now, the Castellan was an important branch family lord among the Sacred Phoenix Race's descendants. In the clan, his status was on par with ordinary Elders. But if compared with Huang Sanbai, he was on a lower level.

For someone like this, he would be considered as a big shot in God Realm. However, a Sky Gem Grandmaster's status was actually on par with the Castellan...

The waiter added, "Let's stop talking about the Sky Gem Grandmaster. As long as a Spiritual Armament Master can refine a Spirit Armament, that person would be able to join the Sky Gem Glass Chamber as a junior member. He will also be entitled to use the teleportation array! Moreover, a Spiritual Armament Master's income is also an imaginable amount. Ten thousand high grade crystal jades are nothing to them!"

Hearing that, Huang Yueli's lips couldn't help but curl upwards!

Originally she was still worried about how to earn enough money to go to Cloudy Qilin Continent.

Now, the waiter had supplied her with a good train of thought...

If she could join the Sky Gem Glass Chamber and become a Spiritual Armament Master, then the problems that she faced now would all be resolved!

Huang Yueli quickly made a decision and turned around to ask, "Young brother, do you know where is the branch office of the Sky Gem Glass Chamber in Sacred Phoenix Continent? Which way should I go?"

"What? What did you just say?"

The surroundings were rather noisy and the waiter thought that he had heard wrongly!

Huang Yueli could only repeat her question one more time.

The waiter's eyes widened as he looked at her in astonishment. He thought that he was developing hallucinations!

"What? Are you alright? You're asking me how to go to the Sky Gem Glass Chamber? What do you want to do?"

He thought of the things that Huang Yueli said and an astonishing conclusion surfaced in his mind.

"Wait, don't tell me that you're intending to join the Sky Gem Glass Chamber, and later use that identity to request to use the teleportation array?? Haven't you woken up from your dream yet!"

Chapter 2908: Sky Gem Glass Chamber (4)

Huang Yueli frowned slightly, feeling displeased in her heart.

No one in Soaring Heavens Continent dared to talk to her in this way.

But now in God Realm, she had to conceal her identity and had to do everything in a low-key fashion. So she could only endure with this.

Huang Yueli took out another two pieces of medium grade crystal jades and placed them on the table.

“Are you going to tell me the way to Sky Gem Glass Chamber or not? If you don’t wish to do so, I’m going to ask someone else! I believe that there are plenty of people who know the way around here!”

It wasn’t just plenty!

Other than newbies like Huang Yueli, who was here for the first time, who wouldn’t know the way to such an iconic place?

When the waiter saw the crystal jades, he kept staring at it and hurriedly laughed it off. “Sir, why are you so impatient? I didn’t say that I don’t know! Sky Gem Glass Chamber’s branch can be found in the bigger city-states and there’s one here in Flame Square City as well. It’s located in the southeast part of the city. Just walk straight along this street to the end and you will reach that place...”

After Huang Yueli heard that, she tossed the two medium grade crystal jades to the waiter, then turned around and left.

The waiter held the crystal jades in his hand and looked at her departing figure. Then he sneered disdainfully.

“These Lower Realm ascenders are so amusing! Did they think that they had refined a few broken Profound Armaments in the Lower Realm and they can become out God Realm’s Spiritual Armament Masters? How dare he even have the cheek to ask the way to the Sky Gem Glass Chamber? Simply overestimating his abilities! He even dares to throw his temper?”

“Forget it, if he wants to go, just go! The people in the Sky Gem Glass Chamber are not easy-going people. When they see such a dumba*s who is so arrogant, they would absolutely show him some colors! By then, it’d be too late for him to cry! Anyway, it has nothing to do with me!”

The waiter picked up the crystal jades and hummed a tune as he walked into the teahouse.

As for Huang Yueli, she followed the waiter’s direction and walked along the street in front. Shortly after, she saw a special eye-catching building.

It was indeed like what the waiter said. Anyone could recognize it from far away.

There weren’t any guards stationed at the entrance of the Sky Gem Glass Chamber but no one dared to barge in.

Huang Yueli had some knowledge of God Realm’s arrays and knew that it was because there were many special arrays set up at the entrance. For those who couldn’t see through this, all they could see was the walls around the Sky Gem Glass Chamber, even if they went an entire round. They wouldn’t be able to find the main entrance at all.

Huang Yueli observed from the side for a little while and had already understood the way for her to enter.

She started to walk, preparing to head over.

Suddenly, she heard a sharp series of horseshoe sounds and there was even someone shouting in a high-pitch voice, "Move aside, move aside! All of you, get out of the way! A respectable Spiritual Armament Master is going to Sky Gem Glass Chamber. All the outsiders should quickly get out of the way!"

Immediately following that, a horse carriage raced swiftly on the streets!

That person who spoke was very impolite, but the pedestrians on the streets didn't show any dissatisfaction at all. Everyone hurriedly moved to the side.

The person in the carriage was a Spiritual Armament Master!

Even if it was just a junior Spiritual Armament Master, that person was someone that ordinary people could not afford to offend!

The carriage stopped right in front of the Sky Gem Glass Chamber. The curtains were lifted, and a young lady walked down slowly from the carriage.

She wore a hat, and a long muslin cloth dropped down and covered the top half of her face.. The faintly discernible look was very unclear, but just based on her sharp chin, fair complexion, and that curvy side view, one could tell that she was an extremely attractive and beautiful woman.

Chapter 2909: Sky Gem Glass Chamber (5)

A burst of praises was heard among the bystanders.

A respectable and beautiful female Spiritual Armament Master was rarely seen in Flame Square City.

The female Spiritual Armament Master didn't turn back but walked right into the Sky Gem Glass Chamber.

Huang Yueli followed behind closely and walked into the main door.

The Sky Gem Glass Chamber's interior was luxuriously decorated. There were various large and small mechanisms and arrays that were set up everywhere, which made the entire building shine in splendor.

When she walked in, the female Spiritual Armament Master had already taken down the hat which she wore, revealing her face. As expected, she was indeed a gorgeous beauty.

This round, everyone in the main hall was excited and all of them crowded around her to fawn on her.

"Young Miss, are you a Spiritual Armament Master? Such an outstanding person like you came to visit our Flame Square City's Sky Gem Glass Chamber, we are honored by your presence!"

“This Young Miss, are you here at the Sky Gem Glass Chamber to look for armament refining materials, or do you have any incomprehensible queries? Feel free to look for me! I am rather famous among the Spiritual Armament Masters in Flame Square City. No one knows the situation here better than me!”

“Move aside! I’m the one who is the most outstanding Spiritual Armament Master in Flame Square City...”

To fight for the beauty’s attention, all the young Spiritual Armament Masters were about to exchange blows!

She raised her hand and showed a badge in her hands.

When they saw the badge, those originally noisy Spiritual Armament Masters instantly clammed their mouths shut.

Because the badge that this beautiful woman brought out reflected the status of a high ranking Spiritual Armament Master!

Her armament refining standard was even higher than most male Spiritual Armament Masters present! They even claimed that they would help her solve her difficulties...

The beautiful woman didn’t even need to say a word to subdue all the people present.

They went silent for a moment and quickly crowded around her and started to laud her accomplishments.

But these had nothing much to do with Huang Yueli at all.

She swept a glance at the beautiful woman and shifted her eyes away.

Since no one was paying any attention to her, she could take this chance to check out the Sky Gem Glass Chamber’s interior.

The main hall was closest to the main door and it should be a reception area. Although there weren’t many people entering or leaving the building, every single person was luxuriously dressed. Their expressions were haughty and they wore special badges on their clothes. She believed that they were members of the Sky Gem Glass Chamber.

There were several doors behind the back of the main hall. Some doors were tightly shut and she couldn’t see what was behind them.

Two doors were open wide. One room was filled with various kinds of big or small armament furnaces and armament refining materials while the other room was filled with books. It looked like a book depository.

Huang Yueli pondered for a moment and was just about to walk into the Book Depository when someone suddenly called her.

“Wait! That lad over there!”

Huang Yueli was stunned and turned around.

The Spiritual Armament Masters who were crowded around the beauty suddenly noticed Huang Yueli's presence. He immediately walked over and interrogated her loudly.

"Who are you? How did you come in? Do you know what place is the Sky Gem Glass Chamber? How dare you wander about on your own?"

Huang Yueli wasn't nervous as she replied in neither overbearing nor servile manner.. "I walked in front through the main door. Why? Is there a problem with that? The Sky Gem Glass Chamber's door is wide open, and it didn't say that no one is allowed to come in, isn't it?"

Chapter 2910: Quit While You're Ahead (1)

The young Spiritual Armament Master who questioned her was speechless.

Sky Gem Glass Chamber indeed did not stop outsiders from entering the place. However, outsiders usually didn't have the ability to come in at all!

After Huang Yueli said that, he didn't know how to retort at all.

After a while later, he came back to his senses and hurriedly said, "Then... then surely you can't just barge into the other places recklessly in this manner right? After you entered the place, don't you know how to find someone to ask? Where are your manners?"

Huang Yueli merely swept him a glance. "I wanted to find someone to ask but weren't all of you busy? None of you were free to entertain me. So I thought I shouldn't bother you guys!"

"Don't spout rubbish, we..." The Spiritual Armament Master wanted to rebuke but he saw the beautiful Spiritual Armament Master from the corner of his eye and his anger immediately subsided.

He was the admission staff on duty today but because of a beautiful woman, he had neglected his duties. If the Branch President saw this, he would definitely be scolded.

Thinking of this, he gave a hurried cough and said, "Ughh, right, we were a little busy earlier! Why didn't you come over to remind me about this? Alright, come over here to proceed with the registration!"

He quickly went back to his seat and indicated for Huang Yueli to go over.

It so happened that she also had some questions to ask, hence she walked over directly.

"What's your name? You're not someone from our Flame Square City, right?"

Huang Yueli nodded and said, "That's right, I am..." She registered herself using that fake identity once again.

The admission staff instantly revealed a shocked expression. "What? You're a Lower Realm ascender!! Right, from your dressing, you indeed do look like one. But... but since you're just ascended, how could you... how could you possibly enter our Sky Gem Glass Chamber? Has someone taught you the way before this?"

Huang Yueli replied calmly, "The mechanism and array at the entrance aren't very difficult, so why do you think I can't come in?"

"Not... not considered difficult? Are you joking?" The Spiritual Armament Master's eyes widened in shock, as he looked at Huang Yueli in disbelief. "To a genuine Spiritual Armament Master, that array is the basics for starters! But you're not a Spiritual Armament Master, right?"

Huang Yueli replied nonchalantly, "although I am not God Realm's Spiritual Armament Master, we do have Armament Masters in our Golden Ray Continent. In the past when I was in the Lower Realm, I was well versed in this, so the array and mechanisms at the entrance isn't a problem for me!"

"But..." The Spiritual Armament Master frowned, as his mind was full of puzzlement.

There were indeed Armament Masters in the Lower Realm but refining ordinary Profound Armaments and refining Spirit or Treasure Armaments were completely two different matters!

The principle of armament refining was different, not to mention that to become a Spiritual Armament Master, the requirement for the practitioner's innate talent was very high. It wasn't something that ordinary Armament Masters could compare with!

For so many years, there had been so many ascended Armament Masters who wanted to learn the art of refining Spirit Armaments. But in the end, only a handful of them succeeded.

This was the first time he came across someone like Huang Yueli, who came alone to the Sky Gem Glass Chamber, without anyone's help.

If what this lad said was true, wouldn't that mean that his innate talent in armament refining was ridiculously high?

The admission Spiritual Armament Master was stunned, not daring to believe that such a thing would happen.

However, Huang Yueli got a little impatient. When she saw him keeping quiet, she opened her mouth and asked, "I came to the Sky Gem Glass Chamber to find out if there's any way which can allow me to become a Spiritual Armament Master as soon as possible?"
