

Weaponsmith 2911

Chapter 2911: Quit While You're Ahead (2)

The Spiritual Armament Master came back to his senses and said, "I knew you were going to ask about this! Most practitioners who want to become Spiritual Armament Masters would bring their Masters along. Otherwise, they wouldn't even be able to enter the Sky Gem Glass Chamber! You're pretty lucky. As a Lower Realm ascender, you came in on your own without any Master! This is the first time I came across something like this..."

When Huang Yueli heard that, she frowned. "What? If I don't have a Master, that means I can't become a Spiritual Armament Master?"

"That's not necessarily so as well," the admission Spiritual Armament Master thought for a moment and said, "Even if you don't have a Master, you can still take part in the simple assessments in the Sky Gem Glass Chamber first. As long as we have confirmed your Spiritual Armament Master innate talent, you will be able to become a Spiritual Armament apprentice. The apprentice has a total of nine grades and that will allow you to learn all the basic knowledge systemically. After you have become a ninth grade apprentice, you must refine a low grade Spirit Armament before you can officially become a Spiritual Armament Master."

Hearing this, Huang Yueli instantly felt that something was amiss.

"Are there nine grades to an apprentice grade? How much time is required to pass through all the assessments?"

The admission officer said, "This... the time depends on each person's innate talent! Seeing that you can enter Sky Gem Glass Chamber on your own, I believe that your comprehension isn't too bad. You should be able to pass one grade every year. In this case, you'd probably take around ten years to become a ninth grade apprentice!"

Huang Yueli's lips twitched uncontrollably. "Ten... ten years?"

Where would she find so much time to take part in the assessments!

She couldn't wait to immediately become a Spiritual Armament Master and fly over to look for Li Moying!

However, the admission officer wasn't done talking yet.

"That's right. But don't be too happy first. Although passing the apprentice assessments isn't difficult, the crux to becoming a Spiritual Armament Master means you will have to refine a genuine Spirit Armament. Not a standard grade Spirit Armament, but a low grade Spirit Armament! Many people would spend more than ten years just at this step."

Hearing that, Huang Yueli suddenly thought of something as a ray of hope suddenly arose in her heart.

“Then in this case, if I can refine a low grade Spirit Armament immediately, wouldn’t that mean that I can directly become a Spiritual Armament Master? So I wouldn’t need to attend those apprentice assessments?”

The admission officer was still talking non-stop because it was rare that a Lower Realm ascender who didn’t know anything would head over. Hence he could show off his eloquence.

Whoever knew that in the middle of his explanation, Huang Yueli interrupted him in this way so he was completely dazed.

“You... what did you just say??” He thought that he had heard her wrongly!

Huang Yueli repeated what she just said and the admission officer’s gaze seemed as though he was looking at an idiot!

“You can’t even pass the apprentice assessments, so how are you going to refine a Spirit Armament? Did you really think that you are a peerless genius? Looks like you must be a famous Armament Master in your Lower Realm! But if you think that it’s the same in God Realm, you must be daydreaming! You simply don’t know how high the heavens are!”

To think that it was a waste of his time telling her so much, he did not expect her to be a lunatic who overestimated herself!

The admission officer looked at Huang Yueli disdainfully.

She didn’t bother about what he said, but only wanted to find out the answer. “So, can it be done or not?”

The admission officer almost spat out a mouthful of blood!

After such a long time, this fellow wasn’t even listening to what he said!

Chapter 2912: Quit While You’re Ahead (3)

The admission officer sneered. “Yes, of course, you can! If you have the ability to refine a Spirit Armament directly! In our line of work, there are so many principles that haven’t been used. So if someone can refine a Spirit Armament, that means that person has the fundamentals! If you have such capability, who wouldn’t acknowledge it?”

Huang Yueli nodded her head satisfactorily when she heard the answer and heaved a sigh of relief.

Luckily, the Sky Gem Glass Chamber’s rules weren’t a stick in the mud!

If they insisted for one to pass through all ninth grade apprentice assessments before proceeding with the Spiritual Armament Master certification, then she could only give up on this.

After all, the reason why she wanted to become a Spiritual Armament Master was mainly that she wanted to obtain a sufficiently high status to mobilize various Continent’s teleportation arrays.

Otherwise, she didn’t place too much emphasis on this meaningless title.

If she really had to spend eight or ten years, she might save even more time if she traveled by foot to Cloudy Qilin Continent!

She thought about it and asked again, "Then where can I find books related to refining Spirit Armaments? I've visited a few book stores but I couldn't find any at all."

The admission officer stared at her and he was totally at a loss for words!

This fellow didn't even know where to find the Spirit Armament refining books meant that she didn't even know the basics of Spirit Armament refining! Did he thought that he could skip over the apprentice assessments and directly refine a Spirit Armament?

He gave a cold harrumph and said, "It's obvious that Spirit Armament refining books can't be found in ordinary book stores! Since you don't have a Master, then you can only purchase from the Sky Gem Glass Chamber! High grade manuals are exchanged with contribution points. But since you're only looking at entry-level books, you just need to be a Spiritual Armament apprentice to purchase it!"

Huang Yueli's eyes lit up upon hearing that. "That's great! How can I become an apprentice?"

The admission officer shot a glance at her. "As long as your innate talent is high enough, you can be one. Follow me!"

Huang Yueli followed him into a small room and there was an elderly man with silvery-white hair. His head was bent down as he was carefully handling the materials in his hands.

"Senior Bai, there's a newbie here who wants to assess his innate talent."

Hearing the admission officer's voice, he barely lifted his head and said, "Alright, go over there for assessment!"

The Spiritual Armament apprentice innate testing was extremely simple.

The admission officer brought Huang Yueli over to the corner where a crystal machine was and indicated for her to place her hand on it.

Huang Yueli could tell that this was a standard innate talent assessment, which was the same as what she saw in the inheritance tower in the past.

But the one in the inheritance tower was solely testing innate talent whereas the one in front tested fire and metal dual attributes.

Huang Yueli intentionally restrained the Profound Energy in her body and slowly released fire and metal attributed Profound Energies while observing the admin officer's expression.

Fire and metal attributed energies slowly ascended in the crystal columns.

Initially, the admission officer's face had a slight hint of disdain. He was still upset over what Huang Yueli had said earlier.

But as the column raised to a certain standard, his expression slowly turned solemn. In the end, he even revealed a slight hint of astonishment.

When Huang Yueli saw this, she immediately quit while she was ahead and retracted the remaining Profound Energy.

She didn't want to expose her true ability, but yet didn't want him to look down on her.

So the most suitable time to stop was when the Spiritual Armament Masters looked a little surprised, but not at the rate where they would be shocked.

Chapter 2913: Quit While You're Ahead (4)

As expected, the admission officer's surprised look only lasted for a second and he immediately walked up.

"I didn't expect an ordinary-looking lad like you to have such innate talent! Metal and fire dual attributes are both at earth grade genius level. As long as you can find a good Master, you will be able to become a high ranking Spiritual Armament Master. If you're lucky enough, you might be able to become a Sky Gem Grandmaster!"

Hearing that, Huang Yueli's vision swept past the innate talent assessment apparatus.

... Earth grade lower level genius standard!

This kind of innate talent was considered pretty good in God Realm. Other than disciples from large forces, it was difficult for most ordinary practitioners to reach this level.

It was even rarer for both metal and fire dual attributes to reach earth grade. So no wonder the admission Spiritual Armament Master sounded a little sour as if he was jealous.

Huang Yueli courteously asked, "Oh no, I wouldn't dare think so far. So in this case, am I considered as an official Spiritual Armament apprentice now?"

The admission officer said, "There's still the power of comprehension and memory assessments. Come over here!"

The second assessment was to make Huang Yueli read a paragraph of the Armament Refining Encyclopedia, then distribute the materials according to the description she had read.

To Huang Yueli, this was a piece of cake, and she completed it with ease.

When the admission officer saw Huang Yueli's hands swiftly moving and completed the distribution swiftly, his eyeballs almost dropped on the ground!

A Lower Realm ascender might not even have heard of these materials, but she was able to grasp the method of distribution so quickly!

This power of comprehension... she had simply crushed all the young Spiritual Armament Masters in their Flame Square City branch office.

Huang Yueli put down the materials in her hand and turned to the admission officer. "Alright, what do I have to do next?"

He came to his senses and hurriedly said, "Alright, you've done well in these two assessments. After I report this to the Elder, you will become Sky Gem Glass Chamber's junior Spiritual Armament apprentice!"

The admission officer returned to the room where the elderly man was sitting quietly. He bent down and whispered into the Elder's ear.

The elderly man originally wasn't paying any attention but after he heard that, his eyes lit up.

Raising his head, he beckoned to Huang Yueli. "Lad, come over here!"

Huang Yueli's brows rose and she listened and walked over.

The elderly man sized Huang Yueli up and down, then said, "You really are a Lower Realm ascender! I didn't expect you to have such high innate talent, so you are a rough diamond! I appreciate your talent, so you can stay with me from now on!"

The admission officer's eyes revealed a hint of jealousy when he heard what the elderly man said!

Evidently, from what the elderly man meant, he was intending to take Huang Yueli as his disciple!

This Grandmaster Bai looked very normal but he was one of the Sky Gem Grandmasters in Flame Square City! So many people wished that he would take interest in them!

Whoever knew, he took fancy to a country bumpkin who ascended from the Lower Realm!

Thinking of this, the admission officer started to regret bringing her over, and the gaze he cast on her was rather unfriendly.

Grandmaster Bai squinted his eyes and waited for Huang Yueli to kneel in ecstasy to pay her greetings to him.

However, she merely went into a blank and waved her hand decisively, "This... this Grandmaster, thank you for your offer, but I'm just passing by Flame Square City.. I have no intention to stay for long, so I won't be able to learn how to refine Spirit Armaments from you."

Chapter 2914: Replace That Woman (1)

Grandmaster Bai didn't expect himself to be rejected. His eyes widened with disbelief.

After a while, the Spiritual Armament Master standing next to him recollected his senses and jumped up in indignance. "You... you lad, how dare you! Do you know who Grandmaster Bai is? He's a respectable and esteemed Sky Gem Grandmaster! He's willing to take you, a Lower Realm ascender, who knows nothing as a disciple so it's your good fortune! Yet you rejected this chance??"

Huang Yueli frowned slightly as her piercing gaze swept past the admission officer!

This God Realm's Spiritual Armament Master had flaunted all the superiority of God Realm practitioners to the max today, trying to belittle and suppress her with various kinds of remarks.

The Spiritual Armament Master wanted to add on when he abruptly met with Huang Yueli's gaze. His heart pounded wildly! He couldn't continue with the rest of his sentence at all!

Not knowing why, Huang Yueli's gaze made him turn icy cold, as though he was facing a peerless top exponent who was much stronger than him by several times! That kind who could crush him with just one finger!

But wasn't this fellow just a Lower Realm ascender?

How could he possibly... be so strong?

Just as the Spiritual Armament Master went stiff from fright, Huang Yueli had already retracted his gaze. Then she cupped her fists towards Grandmaster Bai. "Grandmaster Bai, I really can't stay in Flame Square City for long, so I can only offer my apologies. May I ask... may I receive the badge for Spiritual Armament apprentice now?"

"Huh? Oh, oh... right, this is your badge."

Grandmaster Bai also sensed that Huang Yueli seemed to have changed into another person, which made a knowledgeable and experienced man like him feel chilly.

But that was just something that flashed past in an instance. It only took a blink of an eye and Huang Yueli resumed back to her normal self. Hence Grandmaster Bai thought he had developed a hallucination.

Hearing Huang Yueli's words, he regained his senses and picked up a badge from the table. Then he passed it to her.

"That's such a pity. Based on your innate talent, if you learn the methods of refining a Spiritual Armament properly, there is a sliver of hope for you to become a Sky Gem Grandmaster! Since you are so sure that this isn't your calling, I will not force you. Here, this is your badge. Keep it properly!"

Huang Yueli took the badge, gave her thanks, and prepared to leave. Just then she heard a knock from the door.

"What's the matter?" Grandmaster Bai asked.

The person who knocked was a mid grade Spiritual Armament Master who was dressed in a white robe. He came in and spoke in a low voice, "Grandmaster Bai, there's a foreign Spiritual Armament Master who'd like to meet with Grandmaster Xiao. We've tried to explain several times that Grandmaster Xiao isn't here but she refuses to leave. What do you think..."

"Oh? Really?"

Grandmaster Bai frowned. He pondered for a moment then stood up and left the room.

Huang Yueli followed behind him and silently walked out.

The beautiful Spiritual Armament Master at the reception hall was still there, and there were many young Spiritual Armament Masters and apprentices around her.

On seeing Grandmaster Bai coming out, the beautiful Spiritual Armament Master turned around and casually cupped her fists at him. "I believe you are Grandmaster Bai. I've heard of your name! I am Leyun and happened to pass by this place during my experience learning. I heard that Grandmaster Xiao is currently in Flame Square City as a guest and I'd like to ask him for some pointers. So will Grandmaster Bai please help to link us up?"

Hearing her speak, Huang Yueli's brows lifted slightly.

All the Spiritual Armament Masters in Flame Square City's Sky Gem Glass Chamber spoke to Grandmaster Bai respectfully.

But that beautiful woman's attitude was very stuck up.. Apparently, she didn't show any respect to Grandmaster Bai at all.

Chapter 2915: Replace That Woman (2)

It seemed that this beautiful Spiritual Armament Master's identity was not ordinary, otherwise, she wouldn't be so disrespectful to an honorable Sky Gem Grandmaster.

But this beautiful woman thought highly of that Grandmaster Xiao.

She wondered what kind of standard was this Grandmaster Xiao at. He should be a very famous Armament Grandmaster in God Realm, right?

Just as she was pondering over this, she heard Grandmaster Bai saying something.

"I didn't expect Grandmaster Xiao's arrival at Flame Square City to spread this fast! Quite a number of Spiritual Armaments Masters have come to visit him. Unfortunately, Grandmaster Xiao had already reminded me that I cannot reveal his whereabouts. Hence... I'm sorry that I can't tell you anything!"

Hearing that, the beautiful woman's brows creased together and her lips pursed slightly. She didn't expect to be rejected!

The guard next to her couldn't help but say, "Grandmaster Bai, do you know what identity my Lady here holds? She is different from those ordinary Spiritual Armament Masters! You'd best help to convey the message to Grandmaster Xiao. As long as my Lady can meet Grandmaster Xiao, we will offer a handsome reward for that! Otherwise..."

He said condescendingly, using both the carrot and stick approach.

But in the ears of a haughty Sky Gem Grandmaster like Grandmaster Bai, it was no different from being insulted!

Grandmaster Bai originally was rather patient but now, he was extremely furious!

He gave a loud harrumph and his mustache was blown away. "I can't afford to take your reward! Our Sky Gem Glass Chamber's rules have always been so. No matter what your Lady's identity is, since she's just a Spiritual Armament Master, she doesn't have the right to order me around! Men, send them off!"

Saying that, Grandmaster Bai flicked his sleeves and returned to his room.

Everyone looked at one another in dismay.

The beautiful lady's face turned pale as she looked at Grandmaster Bai's departing figure. A glint of gloominess flashed past her eyes.

Those Spiritual Armament Masters, who were smitten with her, secretly advised, "Young Miss Le, don't be upset. Grandmaster Bai's temper is like this and we can't do anything about it. There's a chance for you to meet Grandmaster Xiao. One month later from today, Grandmaster Xiao will be giving a lecture at our Sky Gem Glass Chamber. He will also be giving a lecture on the attendees' refined Spiritual Armaments. Just come over by then!"

Actually, this was exactly how Grandmaster Bai would reply to every Spiritual Armament Master who asked to meet Grandmaster Xiao.

Today, it was because he didn't see eye-to-eye with Leyun, hence he didn't tell her. Instead, he directly asked her to leave.

When Leyun heard this news, her expression turned slightly better, and left with her guards.

Even until she left, the main hall was still talking about her.

"That Spiritual Armament Master is so beautiful! Moreover, from her elegant actions, she should have been from some major force?"

"That's right. Moreover, she looks like she's under thirty but is already a mid rank Spiritual Armament Master. I heard that she can refine several kinds of mid grade Spirit Armaments. She's incredible!"

"Perhaps Grandmaster Xiao would notice such an outstanding person like her!"

These people did not know what this elegant beauty with outstanding innate talent did after she walked out of Sky Gem Glass Chamber and returned to her carriage.

Once she got on the carriage, she immediately threw a cup on the floor and said ferociously, I can't stand it. The Sky Gem Glass Chamber in Flame Square City is full of lowly humans! Moreover, those lowly fellows even dared to show me a face! How dare they stop me from meeting Grandmaster Xiao!"

Chapter 2916: Replace That Woman (3)

The female attendant on the carriage hurriedly persuaded, "Young Miss, don't be angry. You're the ancient God clan, Cloudy Qilin clan Clan Leader's niece, and your status is extremely noble. Don't spoil your mood because of a few lowly humans! How dare they offend you, do you... want This Servant to teach them a lesson?"

The beautiful Spiritual Armament Master was Cloudy Qilin clan's heaven grade genius, the Clan Leader's niece, Li Leyun!

In order to hide her identity, she casually registered with a fake name when she was at the Sky Gem Glass Chamber earlier.

Li Leyun shook her head. "Forget it, this is Sacred Phoenix Race's turf and if things blow up, there might be trouble... just let them off!"

Seeing Li Leyun's expression still gloomy, the female attendant carefully said, "Young Miss, since these human races don't know what's good for them, then you shouldn't bother to talk to them any longer. The Cloudy Qilin clan also has plenty of Sky Gem Grandmasters. If you want to learn how to refine Spirit Armaments, there are plenty of masters who want to teach you. Why do you insist on looking for that Grandmaster Xiao?"

Li Leyun swept a glance at her and said angrily, "Did you think that I like to beg others in such a meek manner? Isn't it because that Grandmaster Xiao is a Sky Gem Grandmaster who specializes in refining long swords and the swords that he refines have attack powers which are higher than same tiered Spirit Armaments!"

The female attendant couldn't understand why so she asked again, "Last time Brother Moying mentioned that when he was in the Lower Realm, a girl that he liked had personally refined a long sword for him and he had always carried it by his side. However, it broke during one of his battles! So, I also want to refine a long sword for him!"

When Li Leyun heard that Li Moying had liked someone, she was devastated.

After thinking for a moment, she had a change of mind. Li Moying's past lover was probably still in the Lower Realm. Nobody knew how many years it would take for her to ascend. Perhaps she might have died in the Lower Realm whereas the person Li Moying liked was the Armament Master who could refine Profound Armaments for him. In that case, wouldn't she, the Spiritual Armament Master be able to replace her?

Li Leyun felt that she had a chance and instantly made up her mind. She had to refine an even better long sword for him.

No matter how good the Lower Realm's Profound Weapon was, how could it be compared with God Realm's Spirit Armament?

It was the same for people.

No matter how beautiful the Lower Realm human race girl was, she couldn't be compared to the beautiful ladies in God clans!

As long as the Profound Weapon she refined could replace the Profound Weapon that Li Moying's past lover had refined, then she might be able to replace that woman's status in Li Moying's heart.

This was exactly why Li Leyun put her pride aside and went to look for Grandmaster Xiao, the top rated Sky Gem Grandmaster whose expertise was in refining Profound Weapons.

When the female attendant heard that Le Leyun was doing it for Li Moying, she instantly kept silent.

Practically all of Cloudy Qilin clan's unmarried young ladies were smitten with Li Moying. So she didn't find it strange that Li Leyun was thinking of so many ways to please him.

Li Leyun leaned against the chair and muttered to herself, "One month... the timing is just nice. Brother Moying's guard said that they will be coming to Sacred Phoenix Continent one month later, so I'll just wait here for one month! Perhaps, I might even be able to meet with Brother Moying!"

...

The Spiritual Armament Masters were still talking about her in the Sky Gem Glass Chamber.

Huang Yueli took another look at Li Leyun walking away. Somehow, she felt that Li Leyun gave her an uncomfortable feeling.

But since it was just a chance encounter, she didn't think too much about it.

She pinned the Spiritual Armament apprentice badge on her chest and walked to the Books Depository to purchase some books.

Every manual related to Spirit Armaments was extremely expensive. So when Huang Yueli walked in and saw the prices, she had a huge fright!

Chapter 2917: Overthinking (1)

Luckily she had already made preparations and sold off some treasures in the Sky Phoenix Ring, to accumulate a large sum of crystal jades.

She looked around, picked a few entry-level books on theory, and paid for them.

The admission Spiritual Armament Master had been following beside her. Originally, he wanted to upsell his Armament refining ability and tried to recommend a few books to Huang Yueli.

In the end, after she stepped in, she refused to look at him at all. Instead, her gaze swept past the books on the shelf. Then she took a few books and proceeded to make payment.

"Hey, wait! Don't choose so recklessly! There are so many books here, how do you know which books are suitable for you? It's better to listen to me..."

The admission officer propped his head to take a look as he said.

After he took a clear look at the books which Huang Yueli was carrying, he instantly couldn't say a word more.

Those books that Huang Yueli picked were coincidentally the most suitable for beginners. Moreover, the contents of the theory and practicals were in sequence. It was extremely suitable for one to make steady progress with these!

"You... you..." The admission officer was tongue-tied.

Huang Yueli swept a glance at him and asked, "Why? Is there a problem? I should be able to purchase these books, right?"

"Yes, of course... you can..."

The admission officer couldn't understand why this lad's insight was so precise?

Could it be that he actually had a Master, but intentionally didn't report to the Sky Gem Glass Chamber?

Huang Yueli wasn't free to bother about what he was thinking of. She had been computing how to use the least amount of crystal jades to purchase the most important items.

She had a lot of crystal jades with her after she sold off all the treasures. She wasn't considered as a poor folk as compared with the ordinary God Realm practitioners.

But money flowed just like water in the process of refining!

So a large number of high ranking Armament Masters were nurtured by large forces. If one wanted to become a high ranking Armament Master based on their own abilities, unless that person was a peerless genius, otherwise, their family would have a huge amount of fortune!

Now, she was learning the art of refining Spirit Armaments in God Realm so that was considered as starting from scratch. Hence the amount of money she had to spend was terrifying.

Initially, Huang Yueli saw many books that she was interested in. The manuals here, to a Lower Realm ascender, were all very novel. If it was in the past, she would definitely purchase everything and slowly read through it when she had the time!

But now...

Feeling the almost empty pouch, her heart was tearing up.

She finally understood what poverty meant!

How heart-rendering! How melancholic!

She could only choose the most useful books as she had no other choice. As for the remaining crystal jades, she had to purchase materials for refining!

After Huang Yueli paid the bill, she turned and walked to the room which was selling materials.

The admission officer originally thought that she would leave after purchasing the books. He didn't expect her to purchase the materials immediately. He went into a short blank and hurriedly chased after her.

"Hey, you... what are you going to buy now? You should finish reading those books, prepare yourself first, and take some entry-level apprentice examinations first! It's just a waste to purchase those materials. If you can't even pass the apprentice examinations, you can't possibly refine any Spirit Armaments at all!"

Huang Yueli shrugged and said indifferently, "It's fine. I'll just purchase some to have some fun. It's alright even if I can't refine anything out of them!"

She didn't want to explain so much, and there wasn't any way to explain it anyway.

As long as she could refine Spirit Armaments in the future, action would speak louder than her words.

The admission officer's eyes widened and said, "What the, you're really a tycoon!"

Chapter 2918: Overthinking (2)

Purchasing Spirit Armament materials was a terrifying expense to those genuine Spiritual Armament Masters.

It was because the success rate of refining Spirit Armaments was very low.

To refine a Spirit Armament, they had to purchase several sets of materials.

As for a beginner like Huang Yueli, she might have to spend more than ten sets of materials in order to refine a complete Spirit Armament.

Moreover, she hadn't even passed those Spiritual Armament apprentice examinations yet.

Did she have too much money, so she was squandering it to practice at home?

The look that the admission officer had towards Huang Yueli was totally different now!

A Lower Realm ascender had so much money. Did this person have some strong backing?

However, it only took a quarter of an hour before he realized that he had overthought things!

Huang Yueli indeed walked into the Spirit Armament materials room and indeed purchased some materials. But... the way she picked the items and the way she made the payment was different from a tycoon!

"This buddy, you're here to purchase Spirit Armament materials, right? You seem to be an apprentice, is this your first time refining armaments? Then you have to buy a Spirit Armament furnace! Look at the ones we have here. These are standard models and it's one size fits all! It is manufactured according to the standards given by Sky Gem Glass Chamber. The only difference is the materials which are used are different, and so are the pricing."

"Buddy, you should know that the lower the rank of the Spiritual Armament Master, the lower the success rate of the Spirit Armament. It's even more needless to say for an apprentice like you! If you buy a higher grade Spirit Armament furnace, it will greatly increase the success rate of your armament refining! Take this for example..."

The steward responsible for sales saw the hint in the admission officer's eyes and instantly realized that this apprentice was a tycoon. The moment she walked in, he quickly promoted the items to Huang Yueli excitedly.

Whoever knew that she wasn't even listening to him at all. Her eyes swept past the racks and pointed casually.

"I want that one!"

"Oh, alright. Little buddy, you're so clear-cut! Then I'll help you... eh? Are you certain you want to buy this one?"

The steward's eyes opened wide when he followed the direction of Huang Yueli's finger.

That was the cheapest Spirit Armament furnace on the entire rack! It was practically useless for Spirit Armament refining!

Not to mention a tycoon, even a poor Spirit Master apprentice would clench their teeth to purchase a higher grade Spirit Armament furnace. Otherwise, the probability of relying on one's ability to control the fire and temperature was just too low! There would be no chance to officially convert into a genuine Spiritual Armament Master in this entire lifetime!

Huang Yueli nodded and said, "Yes, I'm certain. Please help me pack this up!"

The steward looked at her in astonishment. Then he turned to the admission officer, as though he was trying to speak with his eyes. "Are you teasing me? Tycoon? Buying this?"

The admission officer couldn't understand her actions at all. Wasn't she very rich, and had too much money to squander? Otherwise, why was she able to purchase materials without even looking at the books?

Actually, when Huang Yueli bought the books earlier, she had already flipped through the contents in the book.

To others, that speed might not even allow them to take a clear look at the pictures. But to Huang Yueli who had a photographic memory, she had already grasped the important contents inside. At least she could remember what the basic low grade Spirit Armaments' materials were required.

She walked to the materials rack and said the names of the materials that she needed. "Dark Bolt Thread, Sky Poison Crystal, Wild Volcanic Rock..."

She said out a long list of materials..

Chapter 2919: Overthinking (3)

The steward and admission officer were dazed to hear that, and suspicions arose in their hearts again.

Why was she purchasing so many materials at one go?

Could it be that it was just a coincidence that she didn't know and chose the lousiest Spirit Armament, but in actual fact, she was still a tycoon?

However, after Huang Yueli asked for the long list of materials, she added on to say, "Alright, I'll just need these. Please give me... two sets of each material! Please wrap everything up!"

When she said the words "two sets", she couldn't help but grit her teeth and cringe!

After buying so many materials, she didn't have much money left on her! It would probably be enough for her to buy some street food. But it would be difficult to fork out any money for her lodging at the inn.

After living for two lifetimes, she finally experienced what was as poor as a church mouse...

Hearing Huang Yueli's last sentence, the steward and admission officer made an expression as though they were going to throw up blood.

The steward quickly stared at Huang Yueli and said, "I say, young buddy, are you fooling around with me? You're only buying two sets of each material? Can't you tell that other people would buy at least five sets? A Spiritual Armament apprentice like you would need to buy at least ten sets at one go. Otherwise, how are you going to refine a finished product??"

Two sets? Was it a lot?

If possible, Huang Yueli wanted to buy an additional set so that she could save a huge sum of money.

Actually, she had done extensive research on God Realm's Spirit Armaments.

Before her ascension, Huang Zixiao had once given her a high grade Spirit Armament to help her pass through the heavenly tribulation.

After the heavenly tribulation, that Profound Armor was greatly damaged. After Huang Yueli ascended, she was still contemplating on how to restore it to its original state.

Hence, while she was traveling on the carriage, she had been researching this high grade Spirit Armament during her free time.

After a long time of research, Huang Yueli had finally found a gateway and came up with a plan.

Today, she bought so many books back with her, mainly because she wanted to verify if her guess was the same as what she thought.

After all, if she really wanted to refine Spirit Armaments, just relying on her deduction wasn't enough. It was necessary to get some basic knowledge and she had to verify her guesses.

After all, just relying on deduction wasn't enough to refine Spirit Armaments. It was essential to have the basic knowledge. So she had to make up for this missing part before she could master the subject.

But she was worried if she could succeed in refining the Spirit Armament.

But this was, after all, her first time. So she purchased another extra set of materials, just in case.

Huang Yueli didn't bother to explain and said lightly, "Why? Does the Sky Gem Glass Chamber have such a rule that we must buy a total of five sets of materials?"

"Erm... no, we don't have such a rule." The steward didn't expect her to ask this, so he gave an honest reply.

Huang Yueli nodded and said, "Since that's the case, then I'll have to trouble you."

Hearing her say that, the steward couldn't ask anything else, even though he was full of queries. If she wanted to buy the items, surely he couldn't say that he didn't want to sell, wasn't it!

But as he packed the items, he kept thinking about it.

Was this country bumpkin Lower Realm ascender rich or poor?

If she didn't have any money, why did she purchase the Spirit Armament materials for? Wasn't it equivalent to throwing money into the water!

If she had, why was she acting so petty? She only purchased two sets of each material, and even showed a distressed expression...

No matter if it was the steward or the admission officer, none of them considered the fact that Huang Yueli was preparing to refine a Spirit Armament out of these materials!

In their hearts, they were thinking that this was something that would absolutely not happen!

After Huang Yueli was done purchasing the materials, she found that she didn't lack anything and just left.

Walking out of the Sky Gem Glass Chamber, the first thing Huang Yueli did was to head towards the largest Inn in Flame Square City to look for a room.

When the innkeeper saw that she was a Lower Realm ascender dressed in simple clothes, he instantly looked at her with disdain.

"Our Double Prosperity Inn is the best in the entire Flame Square City. The prices here are naturally not cheap. Sir, if you're intending to stay here, you'll have to pre-pay one hundred medium grade crystal jades as a deposit!"

One hundred medium grade crystal jades to ordinary God realm folks was not a small sum.

If it was this morning, Huang Yueli would still be able to afford it.

But now, she only had a few miserable low grade crystal jades in her pocket. She was so poor that she almost could not afford to eat, not to mention paying such a huge amount of deposit.

Seeing Huang Yueli hesitating, the arrogant expression on the innkeeper's face grew even more obvious. "Why? Don't tell me that you can't afford the deposit? This is just the deposit for ten days. Didn't you say that you're going to stay for a month? You can't even afford this bit of money, are you messing around with me?"

The innkeeper had just finished talking when Huang Yueli's wrist flipped. She took out a badge from her interspatial ring and placed it right in front of him.

"I'm a Spiritual Armament apprentice, did you think that I will renege on my debt? Innkeeper, if you're really worried, I'll leave my apprentice badge here with you first. In case I can't afford to pay, you can go to the Sky Gem Glass Chamber to ask for payment. What do you think?"

The innkeeper was stunned when he saw the Spiritual Armament apprentice's badge!

There was a huge disparity between an apprentice and a genuine Spiritual Armament Master. But in ordinary folks' minds, an apprentice's status was already very high.

Obtaining an apprentice badge meant that the person in front of him at least had a human grade and above innate talent in both metal and fire dual attributes!

For someone with this kind of innate talent, even if one could not become a Spiritual Armament Master, if it was used in cultivation alone, one would become a Heart Profound Realm practitioner sooner or later. For a place like Flame Square City, that person was basically considered as a top exponent.

Moreover, most Spiritual Armament apprentices were under the tutelage of a Master. Just based on Huang Yueli passing the assessment based on her ability was extremely scarce.

The innkeeper felt that she had a Spiritual Armament Master behind her.

Spiritual Armament Master... that was a very rich tycoon!

How would he possibly allow his disciple to renege on a debt at the inn?

With this thinking in mind, the innkeeper immediately changed his mindset and his attitude became extremely courteous. "Oh my, you're a Spiritual Armament apprentice from the Sky Gem Glass Chamber! No wonder I feel that this young lad here looks so extraordinary. You're even radiating with a stylish temperament! Please, come in! The superior room that you want is on the second floor, all the way inside. It's absolutely the quietest and spacious room!"

Huang Yueli played with the apprentice badge in her right hand and asked slowly, "

Then... the deposit..."

"Let's forget about the deposit! You can stay as long as you want. Just settle the bill before you leave!" The innkeeper immediately said.

Huang Yueli nodded her head satisfactorily, kept her badge, and followed the waiter to the superior room.

When she walked into the room, she silently smiled when no one was around.

"I didn't know that a Spiritual Armament apprentice's status is so useful! Sky Gem Glass Chamber's status has exceeded my expectations..."

She sighed for a moment and perked herself up.

"Although it has helped me do away with the deposit, I'll still have to pay for the room when I leave. So I have to grab hold of time and quickly refine some Spirit Armaments to sell!"
