

Weaponsmith 2941

Chapter 2941: An Extra (1)

Becoming a Spiritual Armament Master at this age meant that his innate talent wasn't too bad.

But to come up with an innovative method of refining armaments? How was that possible?

Grandmaster Xiao totally didn't believe in such a ridiculous thing!

It wasn't just Grandmaster Xiao. Even other people present also thought in the same way. So everyone quickly accepted Huang Yueli's excuse that her Master was a very able person who had gone into seclusion.

Below the stage, the Spiritual Armament Master who had admitted Huang Yueli had a regretful look on his face.

"No wonder! No wonder this Li Yuehuang was so arrogant! So, he was really teasing us. His real ability had long surpassed us ordinary Spiritual Armament Masters! Looks like he must have followed his Master and cultivated at places where there are not many people around. That's why he did not obtain the Spiritual Armament Master's badge! If I had known, I should have tried to get on good terms with him while no one else knew about this. Perhaps I might even be able to obtain some exclusive illustrations or learn some high level methods!"

Thinking of this, he felt extremely melancholic!

Of course, he was slightly puzzled because Huang Yueli looked as though she was a Lower Realm practitioner. He had probed her a few times and she didn't refute it. Why did she suddenly have an incredible Master all of a sudden?

But it only took him a little while to convince himself. "I believe that Li Yuehuang doesn't want to expose his Master, so that's why he intentionally deceived me! He had been staying in the deep mountains and it's normal to look so shabby. He looks no different from a country bumpkin from the Lower Realm! Sigh, one indeed can't be judged based on their looks..."

Grandmaster Bai who had been standing beside Grandmaster Xiao was suddenly enlightened.

"No wonder I wanted to take you in as my disciple and you kept rejecting me!

So, you've already got such an incredible Master!"

Huang Yueli smiled and didn't deny. But neither did she nod her head.

Grandmaster Bai looked at Huang Yueli and sighed. He was still feeling that it was a great pity.

A youngster with such innate talent and comprehension like Huang Yueli was very rare! If he could take her in as his disciple, when she became a top-rate Sky Gem Grandmaster in the future, it would definitely look good on her Master.

But her Master was someone who even Grandmaster Xiao also praised, so there was nothing that Grandmaster Bai could say about it.

Grandmaster Xiao heard the two of them indulge in small talk and he couldn't help but interrupt out of anxiety.

"Ok, enough. Old Bai, just based on your armament refining standard, don't try to fight with Young Master Li's Master for him! You can talk about these in the future. The most important thing now is, Young Master Li, can't you make it an exception and let me meet with your Master? His armament refining skills are very innovative and I have a premonition that God Realm's armament refining standard will be greatly improved because of these new methods!"

Huang Yueli started to feel a little embarrassed by Grandmaster Xiao's repeated questioning.

Where was she going to come out with a Master to show him!

Luckily, her acting skills had always been excellent. She showed a helpless look and shook her head. "Grandmaster Xiao, it's not that This Junior is unwilling to help you. but... Master's temper had always been so. I don't dare to make him angry..."

Huang Yueli had already said it to this extent so if Grandmaster Xiao were to continue asking, he would be too insensitive.

Usually, Grandmaster Xiao would rely on his status and armament refining standard so he had no qualms to show anyone favors. But he was a person whom Huang Yueli wasn't willing to offend..

Chapter 2942: An Extra (2)

Since he couldn't meet with Huang Yueli's Master, then only she would be able to answer his doubts.

Thinking of this, Grandmaster Xiao pulled Huang Yueli's sleeve.

"Alright, since Senior doesn't wish to meet anyone, I can't force it upon him. Then... Young Master Li, since you've brought out these Spirit Armaments to show me, I believe that you must want to explore the armament refining method, am I right? Then let's go to a quiet place and have a good discussion!" Saying that, he tugged Huang Yueli's sleeve and wanted to walk inside.

"Ughh, this..."

To tell the truth, Huang Yueli was slightly overwhelmed by Grandmaster Xiao's overly enthusiastic attitude!

Until now, she still hadn't understood what the problem was with the Spirit Armament that she had refined, for him to act in such an astonishing manner!

She remembered that she had strictly followed the illustration book to refine the Spirit Armament?

Although she had made some modifications on her own, her experience wasn't enough so there weren't a lot of parts that she had modified...

But now, Grandmaster Xiao acted so passionately as though her Spirit Armament was extremely outstanding. This was simply surprising...

Huang Yueli's dazed look was seen by Li Leyun, who was still standing by the door.

She stayed behind, originally to see Huang Yueli becoming a joke. Whoever knew that things would take such an unexpected turn. It was totally different from what she had anticipated!

Not only did the Spirit Armaments that she brought out not being despised by Grandmaster Xiao, he even treated her with such a sincere attitude!

Not only did he praise her Spirit Armaments, he even wanted to explore the Spirit Armament refining method with her!

This was simply placing Huang Yueli on the same level as herself!

But no matter how Li Leyun thought, she felt that thin fellow was just a Spirit

Armament apprentice! What means did he had, to let Grandmaster treat him in such a way?

Moreover, the three Spirit Armaments that he took out didn't look very extraordinary. Weren't those just standardized Spirit Armaments?

Seeing Huang Yueli and Grandmaster Xiao about to leave, Li Leyun couldn't hold it in any longer and stepped forward while calling out loudly, "Wait a minute!"

Her voice was very loud and very unexpected, so everyone couldn't help but turn back to look at her.

President Gao looked up and said in a surprised tone, "Young Miss Le? Why are you still here? Didn't you leave earlier?"

Hearing that, Li Leyun almost threw up blood!

To her, it sounded as though he couldn't wait for her to leave!

When she came, she was a talent that everyone looked up to. But now, it seemed that she had become an extra!

It was all because of this lad from the countryside!

Li Leyun's cold eyes landed on Huang Yueli's ordinary-looking face.

"Grandmaster Xiao, President Gao, I simply can't understand this. That Li... Li something Spiritual Armament apprentice, what Spirit Armament did he bring that was so extraordinary? Earlier the three Spirit Armaments that I brought out were all refined according to the esoteric lore illustrations but yet, Grandmaster Xiao made it out to be worthless! But now? This fella took out three standardized Spirit Armaments but he praised it so much! What logic is this?"

Her voice resounded throughout the entire courtyard.

Hearing what she said, those Spirit Armament Masters, who were originally discussing, all turned quiet.

Many other people had such doubts. But no one dared to create trouble in front of those few Sky Gem Grandmasters, so none of them raised their doubts at all.

Now that Li Leyun had suddenly said this, everyone pricked up their ears..

Chapter 2943: An Extra (3)

However, Grandmaster Xiao swept Li Leyun a glance and scoffed coldly. "On what basis do you want This Grandmaster to explain to you? Those with good foresight naturally can tell what's so extraordinary about these Spirit Armaments. Those who can't tell can only blame themselves for having lousy eyesight! Are you going to blame This Grandmaster for that?"

Huang Yueli's eyes widened when she heard that and she showed even more respect for Grandmaster Xiao.

This old man was really arrogant!

But under the current circumstances where he had the corresponding ability as his support, it made her feel that he was rather adorable instead.

But... Huang Yueli wanted to know how outstanding her Spirit Armament was.

She felt rather melancholic when Grandmaster Xiao didn't say anything more about it.

Li Leyun was so angry that Grandmaster Xiao said that to her in such a manner that her face turned into a maroon shade!

Embarrassing, it was such an embarrassment! As an ancient God clan talented lady, she had never been despised by anyone in this way ever!

Usually, even if she wasn't in the Cloudy Qilin clan, as long as her identity as a member of the ancient God clan was announced, those humans would not dare to treat her with disrespect. Even those with stronger abilities than her would bow down to her.

This time in Sacred Phoenix Continent, she could not expose her identity hence she had a taste of being despised.

But Li Leyun was used to being arrogant so she wouldn't be resigned to be dismissed so easily. She quickly regained her calm and sneered.

"Grandmaster Xiao, how will you be able to convince everyone with this attitude? If you don't explain this clearly today, then you can't blame me for overthinking things! Everyone knows that anyone who gains a word of praise from you, Grandmaster Xiao, would elevate their value by a hundred times. The Spirit Armament's value would also increase dramatically! I suspect you have intentionally colluded with someone to boast an unknown Spiritual Armament apprentice at an occasion like this to elevate his status!"

Li Leyun's words were sharp as she raised this accusation without holding back!

All the Spiritual Armament Masters instantly went into a flurry upon hearing that.

“What? There’s such a thing happening??”

“I don’t believe a man of Grandmaster Xiao’s status would need to do this kind of thing.”

“Although it can be said in that way, this matter is highly suspicious! A Spiritual Armament apprentice casually taking out three Spirit Armaments like this made Grandmaster Xiao give such praises?

“The main thing is these three Spirit Armaments just look so ordinary...”

Under Li Leyun’s incitement, a minority of the Spiritual Armament Masters slowly started to develop suspicions.

In reality, the things that Li Leyun said weren’t considered groundless.

The career of a Spiritual Armament Master was very particular.

Both were mid grade Spirit Armaments but some might be sold at a high price whereas others would be sold cheaply. It all depends on the Spiritual Armament Master’s fame.

In the past, there were several such incidents. Famous Sky Gem Grandmasters would intentionally praise the other party to raise their own disciple or other people’s value.

This was a matter which was extremely damaging to one’s status and the Sky Gem Glass Chamber had also set some restrictions to limit this kind of situation from happening. But unfortunately, it couldn’t be stomped out completely.

Everyone present originally couldn’t understand the reason for him to do this. But Li Leyun’s eloquence caused everyone to think in the wrong way.

In this way, the number of people who suspected Grandmaster Xiao and Huang Yueli increased..

Chapter 2944: An Extra (4)

Hearing the increasing doubting voices from the audience below the stage, Grandmaster Xiao’s expression darkened.

He had made his name several hundred years ago. Although he had a bad temper and was always picky and demanding, he had always upheld his status and would never do such a despicable thing like this for money.

It was exactly because of this which earned Grandmaster Xiao a good name within the Spiritual Armament Master circle. This was something that he was very proud of.

But now, someone actually suspected his innocence which he had maintained for many years!

Grandmaster Xiao’s veins on his forehead popped out and his heart was filled with fury.

Li Leyun wasn’t worried even when she saw him getting angry. She said complacently, Grandmaster Xiao, we believe that you won’t do such a thing! But we Juniors are worried that you might be cheated by someone with a vile character, so that’s why I’m asking you for some pointers...”

She didn't say anything wrong. But in combination with that smug look and provocative tone, it made the listener feel extremely uncomfortable!

Since it had come to this, no matter how much he wasn't dignified to reply to this kind of question, he had no choice but to give a response.

Otherwise, he was sure to become a scapegoat for this!

Helpless, Grandmaster Xiao gave a cold snort. "Alright, you guys want to know how good are the Spirit Armaments that Young Master Li had refined? Since that's so, let This Grandmaster give you some information to raise your knowledge. At the same time, you will also find out how ignorant and how opinionated you are!"

Saying that, he turned towards Huang Yueli and his tone instantly became gentle. "Young Master Li, this is such an embarrassment. I wonder if I can borrow your Spirit Armaments again?"

Huang Yueli had already kept all the Spirit Armaments away earlier.

But since Grandmaster Xiao had requested, she didn't hesitate and immediately retrieved those three Spirit Armaments once again.

Grandmaster Xiao hurriedly said, "Just that long sword would do."

Huang Yueli shook her head and said, "Since you have to explain the situation, then it's better to talk about all three Spirit Armaments. Otherwise, other people might claim that we're playing some tricks later on."

Grandmaster Xiao thought about it and felt that it was true, so he didn't say anything to refute her.

Huang Yueli placed her Spirit Armaments down. Like the others, her eyes were fixed on Grandmaster Xiao, waiting for his analysis.

Grandmaster Xiao put on his gloves prudently once again and swept a glance at all the Spiritual Armament Masters below the stage.

"You little blind brats! Do you guys feel that this long sword is just an ordinary standardized Spirit Armament? Alright, let This Grandmaster show you something to clear your doubts!"

After he said that, he lifted the long sword and turned to a mechanism that was the height of two men tall.

Huang Yueli immediately recognized that mechanism in one glance. It should be a mechanism to assess the Spirit Armament's might.

In the past when she was in Soaring Heavens Continent, every auction house would be equipped with this kind of mechanism. Although the array patterns in God Realm were different, the main structure was still the same.

This mechanism was here to aid him in his lecture. But Grandmaster Xiao was experienced and his foresight was very sharp. Basically, he only needed to use his eyes to accurately judge the grade and might of the Spirit Armament which he had not used previously.

Grandmaster Xiao walked to the assessment mechanism and stopped. Holding the hilt with both hands, he slashed the sword heavily towards the huge stone in front of him!

“Crack

A cracking sound instantly rang.

An evident crack appeared on the huge stone. Apparently, it was caused by the long sword.

“Wow— that’s so amazing!”

Someone in the audience cried out in surprise.

A crack appeared on the assessment mechanism during the assessment!

Chapter 2945: No Way To Duplicate (1)

This assessment mechanism was used to test all Spirit Armament’s might.

As long as any weapon wasn’t a Treasure Armament grade, even a Supreme grade Spirit Armament can be accessed on this mechanism.

Sometimes, during the assessment of some high grade Spirit Armaments or Supreme grade Spirit Armaments, it indeed would cause the mechanism to crack due to the tremendous amount of might in the Spirit Armament. But, now...

Grandmaster Xiao was just assessing a low grade Spirit Armament!

How was it possible for a low grade Spirit Armament to leave a mark on the assessment mechanism? It was even a standardized low grade Spirit Armament!

If Grandmaster Xiao had not picked up the long sword in front of everyone and walked over, some people might think that he had secretly made a switch!

And now, the assessment result was already out.

“70% increase in might!” Grandmaster Xiao read out the indication on the assessment mechanism and revealed a smile. ‘The result is almost the same as what This Grandmaster had predicted! Ordinary standardized low grade Spirit Armaments’ attack power has an amplification rate of 30% or so. Those special illustrations can amplify the foundation by 10%! If This Grandmaster were to refine this, I should be able to increase the might to 60% and above!’”

He paused and his gaze swept onto Huang Yueli. “But, 70% increase! This is something that not even I can achieve! Only this Young Master Li’s exclusive refinement skills can reach this result.”

The Spirit Armament Masters were all stunned to see this result!

No one expected Huang Yueli’s Spirit Armament to be this powerful!

On the surface, it looked like an ordinary long sword. But it actually contained such powerful might, which had surpassed their imagination!

Even Grandmaster Xiao also admitted that he couldn’t do it to such an extent!

Huang Yueli blinked. She finally understood what was going on.

Towards her own Spirit Armament's might, she had a rough gauge in her heart. But she didn't expect that Grandmaster Xiao was not able to refine a low grade Spirit Armament of the same might as hers.

No wonder Grandmaster Xiao admired her so much!

Grandmaster Xiao put down the long sword, put on the other two Spirit Armaments, and proceeded with the assessment. The result made one extremely surprised!

"The Armor's defense power had been amplified to 60%! Spiritual Artifacts are used to raise the regeneration speed of Profound Energy. As compared to standardized Spiritual Artifacts, it is much faster by 50% and above!"

Under everyone's watchful eyes, Grandmaster Xiao's assessment was completed without any pretense.

He announced those shocking results, which were like nails hammered onto the board, and no one could raise any doubts about it.

The Spiritual Armament Masters lowered their heads and didn't say a word. They should not express the shock in their hearts with words!

Why was it also the same standardized low grade Spirit Armaments, but yet someone else could make it contain such powerful might?

No wonder Grandmaster Xiao didn't take any interest in Ji Yuankang and Li Leyun's Spirit Armaments. As compared to Huang Yueli's Spirit Armaments, their works were simply trash which was an eyesore!

"But... I really don't understand how Young Master Li could contain such powerful might in the standardized Spirit Armaments? What's the secret... on the inside?"

Grandmaster Bai, who stood by the side, blurted out his queries. It was also the same query that everyone had in mind.

But he had just said this and immediately realized that he had said the wrong things. "I'm sorry, sorry! I was casually asking. Young Master Li please don't mind me!"

To a Spiritual Armament Master, one's exclusive armament refining skills were their secret. And it wasn't something that anyone could casually ask..

Chapter 2946: No Way To Duplicate (2)

Unless it was someone like Grandmaster Xiao, volunteered to give lectures and share his experience.

If the other party didn't have any intention of sharing, it was an extremely disrespectful way to spy on other people's refining method.

Huang Yueli wasn't upset when she heard that.

Grandmaster Bai was a nice person. When she was an ordinary apprentice, he had been taking care of her so she felt grateful to him

Huang Yueli thought over it for a moment and said, "Actually, I've been learning my Master's exclusive armament refining method. So towards God Realm's authentic standardized Spirit Armament refining method, I'm not familiar with it at all. So I don't know what's so different about my method against others. Today, I have brought my Spirit Armaments here, hoping to get Grandmaster Xiao's pointers. So originally, I wasn't thinking of hiding it from everyone..."

Hearing that, Grandmaster Bai's eyes lit up and he instantly grew happy.

From Huang Yueli's meaning, it seemed that she didn't mind sharing her experience with them!

Grandmaster Xiao understood her meaning and looked at Huang Yueli with a slightly surprised look

Many Spiritual Armament Masters had hidden their comprehended Spirit Armament refining skills well, deeply afraid that others might find out about it. But this attitude, in a Sky Gem Grandmaster like Grandmaster Xiao's eyes, they were simply too petty!

A person's comprehension power was limited, after all, so they could only interact with the same leveled Spiritual Armament Masters. Only by using others' strengths would they be able to make up for one's weak points, and they would be able to make improvements.

Those who indulge in self-satisfaction and worry about others taking advantage of them would never be able to become a true Sky Gem Grandmaster!

Seeing that Huang Yueli had understood this logic at such a young age increased Grandmaster Xiao's evaluation of her by another notch!

To be honest, Grandmaster Xiao didn't know the reason Huang Yueli had agreed so readily. Other than wanting to interact with other Spiritual Armament Masters, she also had something else to back her up!

That was her overpowering innate talent!

Many of her armament refining techniques required extremely powerful fire and metal attributed innate talent before it could be displayed. So for practitioners who were not heaven grade geniuses would not be able to do it at Certain techniques might even require god grade innate talent before it could be completed.

So, even if they could understand what she was saying, there was no way to duplicate her techniques at all!

Grandmaster Xiao naturally didn't know about these. But he had high expectations of Huang Yueli and didn't want to let her be disadvantaged Hence he said, 'Today, This Grandmaster is here to give a lecture, and not Young Master Li. It's better to let me talk about this! From Young Master Li's Spirit Armaments, This Grandmaster had comprehended several things, so I will pick a few important pointers to share with everyone.'

Immediately following that, Grandmaster Xiao started to talk about those unusual traits that he found from Huang Yueli's Spirit Armaments.

This time, even Huang Yueli was also absorbed in his lecture.

After Grandmaster Xiao's explanation, she finally understood where her Spirit Armament had gone wrong!

So, the energy field and materials fusion method was not written down in the books! The method that she came out from her own had a huge difference with

God Realm's method._

No wonder, she felt that the power of those standardized Spirit Armaments was much lower than what she had imagined!

Hearing Grandmaster Xiao's lecture, the other Spiritual Armament Masters were totally ashamed.

So, those standardized Spirit Armaments that everyone saw were actually that particular. There were so many variations to it, and the might that was displayed from it was so great!

They wondered which guru Li Yuehuang's Master was.. He thought of so many novel ideas!

Chapter 2947: No Way To Duplicate (3)

Ordinary Spiritual Armament Masters were satisfied. But Grandmaster Bai and President Gao were mesmerized.

In order to protect Huang Yueli's privacy, Grandmaster Xiao intentionally spoke about the difference between her method and the traditional method, but he didn't mention how the exact difference was executed.

Ordinary Spiritual Armament Masters totally wouldn't put so much thought into it. They also felt that they wouldn't be able to refine it, so they felt that this explanation was already very adequate.

But in the ears of Sky Gem Grandmasters, Grandmaster Xiao's words were no different from not mentioning anything at all !

Moreover, after Grandmaster Xiao's analysis, Grandmaster Bai and President Gao felt that there was some profound theory in these Spirit Armaments. However, they could not pursue to find out more about it!

When Huang Yueli saw this scene, she smiled slightly and said, "Since

Grandmaster Xiao and my suspicions have been cleared, we can call it a day for today's lecture. I think we should find a quiet place and continue to discuss this!"

When Grandmaster Bai heard that there was room for further discussion, he immediately said, "Good, good! Let's change a place! It's getting rather late now, so let me invite you to my home to have a meal!"

Grandmaster Xiao nodded upon hearing that and stood up.

They were about to leave but someone called to stop them.

"No, stop there. You can't leave yet!"

Huang Yueli was stunned and she frowned when she recognized that it was Li Leyun's voice.

The truth was already displayed in front of them and Grandmaster Xiao had already explained so adequately. Why was this woman so unyielding?

President Gao was enraged and he said in an unrestrained tone, "Young Miss Le, you might be an outstanding Spiritual Armament Master, but you shouldn't be so ungrateful and repeatedly damage Grandmaster Xiao and Young Master

Li's reputation! If you don't stop, don't ever step into Flame Square City's Sky Gem Glass Chamber ever again! Men, send her out!"

The evidence was already so obvious but she was still hooting about it right here!

If this went on, how would other people view the Sky Gem Glass Chambers prestige?

Thinking of this, President Gao felt that he couldn't be excessively tolerant and immediately called the guards to chase her away.

As a god grade genius, Li Leyun was a heaven grade genius and her cultivation wasn't weak at all. She was a practitioner whose cultivation was already in the Dream Profound Realm end-phase. However, every Sky Gem Glass Chamber had its own exponents guarding the fort. Li Leyun was, after all, still very young. As compared to those experienced top exponents who had cultivated for hundreds of years, she was still lacking.

Although she was not resigned to it and kept struggling, she was still thrown out of the Sky Gem Glass Chamber!

"Damn it! Damn it! Damn it!!!"

Li Leyun fell on the ground on her butt with an extremely disheveled look!

As Grandmaster Xiao was giving a lecture in the Sky Gem Glass Chamber today, many practitioners had come on account of his reputation, hoping to see Grandmaster Xiao's charm. So many practitioners were standing outside Sky Gem Glass Chamber's entrance today, just waiting for him to appear.

In the end, they didn't manage to see him. Instead, they saw a rather good-looking lady being thrown out of that place!

The practitioners were originally rather bored, but when they saw a commotion, they immediately crowded around.

"Who's this? Why is she being thrown out?"

"From her looks, she seems to be a Spiritual Armament Master!"

"Spiritual Armament Master? A Spiritual Armament Master being thrown out, could it be that she had done something disgraceful?"

Chapter 2948: No Way To Duplicate (4)

The practitioners crowded around Li Leyun as though they were looking at a rare item. They sized her up from head to toe and even made all sorts of ridiculous guesses.

Li Leyun had never suffered such humiliation and her face burned with shame. She couldn't wish for anything more than to find a hole and burrow into it.

She was angry and anxious so she shouted, "Men! Men! Someone, come quickly! Damn, where did my guards disappear to! Come here immediately!"

Several Cloudy Qilin clan's guards came along with Li Leyun. But not knowing why, when she was thrown out, none of the guards appeared at all.

She covered her face with her hands and sat on the ground for a very long time. Then she finally heard a shuffle of hurried footsteps.

"Young Miss Leyun, Young Miss Leyun, you... what's the matter with you?"

A group of guards pushed their way through the crowd. When they saw Li Leyun sitting on the ground, they immediately rushed forward to help her up.

Li Leyun used the back of her hand and slapped the leader of the guards.

"Where have you guys gone to? This Lady had been humiliated but none of you are in sight. Then why do I even need you for? Simply a bunch of trash!"

The leader of the guards was slapped and a handprint instantly appeared on his face. There were even scratches from her sharp fingernails.

But he didn't dare to show any displeasure at all. He hurriedly lowered his head and admitted his mistake. "Young Miss, This Subordinate had come too late. This Subordinate deserves to be punished, Young Miss please mete out the punishment! But should we leave this place first?"

Li Leyun originally wanted to throw her temper but upon hearing that, she recalled where she was right now and her complexion turned pale.

"Why didn't you say it earlier, let's quickly go! I don't want to stay in this goddamn place a second longer!"

The guards escorted Li Leyun and they swiftly left amid the discussions from the bystanders.

After they left a distance away, seeing that no one else was following them, Li Leyun finally heaved a sigh of relief.

She lifted the veil from her face and said angrily, "Didn't This Lady tell you to wait at the entrance? Where did all of you go to?"

The guards were extremely terrified and reported in a low voice. "Young Miss Leyun, it's... Young Master Moying has arrived in Flame Square City! According to regulations, we must proceed to meet him immediately and we cannot afford to delay any time! You mentioned that you will only leave the Sky Gem Glass Chamber this evening, so This Subordinate..."

When Li Leyun heard that, she went into a short blank and instantly widened her eyes in joy.

“What? What did you say? Brother Moying is finally in Flame Square City! I’ve waited for him for more than a month!”

The guard silently heaved a breath of relief.

Li Leyun’s temper was very bad and they didn’t manage to appear in time today. If she wanted to find fault with them, they would be in deep trouble.

Luckily, when Li Leyun heard the mention of Li Moying’s name, she cast every other thing to the back of her mind.

She had also temporarily forgotten about the humiliation that she suffered at the Sky Gem Glass Chamber earlier.

“Why didn’t you tell me earlier! Where is Brother Moying right now?”

“Young Master Moying has gone through Flame Square City and now, he should be back at Cloudy Qilin clan’s secret gathering point!”

“Good, that’s great!” Li Leyun jumped up excitedly. “What are you guys waiting for? Still not going to bring This Lady back? What if Brother Moying is too anxious while waiting for me?”

Li Leyun dashed out excitedly, not even taking the carriage.

When the guards saw her departing figure, they shook their heads.

Anxiously waiting for her? How could that be possible?

Li Moying was extremely moody whenever he saw her!

Chapter 2949: No Way To Duplicate (5)

Inside the Sky Gem Glass Chamber, Huang Yueli was totally oblivious to Li Moying’s appearance.

Li Leyun had just been chased out and Grandmaster Xiao couldn’t wait and hurriedly caught hold of her.

“Alright, the eyesore is finally gone! The rest of you can leave too! Young Master Li, quickly come along with This Grandmaster. Quick, tell me how on earth did you refine these Spirit Armaments!”

Grandmaster Xiao was so hospitable that Huang Yueli felt bad about declining so she could only follow him into the rear courtyard’s resting area for Sky Gem Grandmasters.

The moment they entered the room, Grandmaster Xiao pointed to the center seat and said, “Young Master Li, come, please take a seat!”

This time, he totally forgot about President Gao and Grandmaster Bai, the two other Sky Gem Grandmasters.

‘Xrvo maids were waiting inside the room and when they saw this, they were so shocked that their mouths were agape.

What was up with this? Grandmaster Xiao was treating a Spiritual Armament apprentice so politely, and even inviting him to sit on the host seat?

Grandmaster Xiao was usually a prudish person who wouldn't even take a look at those Sky Gem Grandmasters whose standards were lacking!

However, Grandmaster Xiao couldn't be bothered with what they were thinking and impatiently shook his hand. "Why are you still standing here? Why aren't you going to brew some tea? Young Master Li, you've come so early to attend the lecture, so I guess you haven't eaten anything yet, right? Ask them to serve some snacks!"

The maids came to their senses and hurriedly proceeded to carry out their duties.

Huang Yueli was at a loss to laugh or cry when she saw his hospitable attitude.

Grandmaster Xiao was someone without any motives. All he had on his mind was the art of refining Spirit Armaments!

He treated her with so much courtesy totally because of the exclusive method of refining Spirit Armaments. He felt that her skills were worthy of receiving this kind of treatment!

Moreover, if she was happy, she would reveal the new technique.

Thinking of this, Huang Yueli didn't act pretentiously and sat on a chair by the side.

"Grandmaster Xiao, there's no need to stand on ceremony. I've learned a lot of things from your lecture today, and I should say thank you instead! How about this, if you have any questions about my armament refining skills, feel free to raise them. I also have a lot of areas that I don't understand, and I'm hoping to get some pointers from you!"

"Alright, sure, that's great!"

Grandmaster Xiao got what he wished for so he naturally wouldn't reject this opportunity.

Huang Yueli took out a few Spirit Armaments that she refined from her interspatial ring again and the three Sky Gem Grandmasters crowded around as they couldn't wait to research these armaments in depth.

"Young Master Li, the position of the blade of this long sword, the energy field, and blade's fusion position seems different from the ordinary standardized Spirit Armaments. Have you specially processed this area?" Grandmaster Xiao observed for a moment and quickly raised his query.

Huang Yueli leaned closer to take a look Then she blinked, looking a little lost.

"This... I wonder where is the position of the fusion point of standardized Spirit Armaments?"

She admitted that she didn't do any special treatment for this position. But why would it make Grandmaster Xiao so surprised?

When he heard her ask that question, he was stunned as well.

There was a Spiritual Armament Master didn't know the standard fusion point of standardized Spirit Armaments was! That was simply incomprehensible !

It seemed that Huang Yueli said that she had been following her Master to learn the art of Spirit Armament refining skills in the mountains and had never entered the cities was the truth!

Otherwise, how could it be that she totally had no knowledge of this at all?

Grandmaster Xiao pointed at the thinnest and sharpest blade position with his finger and said, "It's right here!"

Chapter 2950: No Way To Duplicate (6)

Huang Yueli swept a glance and instantly understood it.

She smiled and said, "Oh, I see... All of you chose to set the fusion point on the sharp end of the blade because you thought that the sharp end is the strongest point when a practitioner attacks, and it would cause the greatest amount of damage, right?"

Grandmaster Xiao nodded and said, "That's right. Isn't it like this?"

Huang Yueli shook her head and said, 'The truth isn't so. When a genuine top exponent strikes, they wouldn't attack in a straight line like this. Instead, they would lift the sharp end a little higher, and the force-bearing point is changed to this bottom position!'

Huang Yueli's slender finger pointed to a position that was an inch below the sharp end.

'This is because the end might be sharp, but it was simply too thin and too brittle. It's very hard to take on a practitioner's Profound Energy's strong and continuous infill! If the force-bearing point is on the sharp end, it might raise the attack a little within a short period. But there is a high possibility of it being damaged within a quarter of an hour. So, the practitioners master swordsmanship would subconsciously avoid this kind of situation from happening.'

She paused and then continued, "Because of this, during actual combat, the force-bearing point of the standardized long sword would be conflicted the energy field's fusion point. In this way, there is no way to display its full might!"

Grandmaster Xiao showed an enlightened look and he looked at Huang Yueli with great admiration.

"So, it's like this! This Grandmaster had once wondered if the standardized weapons' insufficient might were related to the position of the fusion point. But I've tested several times, yet am still unable to find the accurate fusion point. I didn't expect you to find it so easily! You're indeed learning from the best!"

Huang Yueli made it sound very easy, but for an expert like Grandmaster Xiao, he naturally knew the difficulty in achieving this.

If the force-bearing point was not at the sharp end, then specific position should it be at?

This was related to a practitioner's habit of striking, the Spirit Armament's material, the energy field's intensity, and many other closely related elements.

As there wasn't a specific illustration for indication, one could only depend on their awareness and play by ear when they were refining Spirit Armaments.

Huang Yueli could find the best fusion position so accurately. That didn't just mean that she had an astounding power of comprehension. Moreover, her metal attribute innate talent was the most outstanding!

Hearing Grandmaster Xiao's praise, Huang Yueli merely smiled and didn't say a word more.

Of course, it wasn't easy to find the precise fusion point. Even for her, she couldn't just waste that mere two sets of materials to complete such a complicated piece of work

The reason she knew this was because she had attempted multiple times when she was in the Lower Realm. Her objective was to refine a genuine God Relic for Li Moying!

Back then, she had a certain guess regarding God Realm's refining method but she couldn't find any suitable materials to execute it.

Now that she had arrived in God Realm, she was systemically learning the Spirit Armament refining skills, and there were ample materials. So with the past years of experience accumulated, she had finally refined a powerful long sword!

Grandmaster Xiao sighed a couple of times and picked up the armor, then continued to research on it.

As he looked, he raised a few questions.

Huang Yueli answered all the questions in succession.

At the same time, she also took the opportunity to ask some questions which she encountered during the refining process.

Grandmaster Xiao reciprocated and also imparted his knowledge to her.

But after some interaction with Huang Yueli, the doubts in his heart grew even.
