

Weaponsmith 2951

Chapter 2951: Sky Devil Blood Ring (1)

Because the questions that Huang Yueli asked were simply too obvious!

It was so obvious that even apprentices who had just joined also knew the

Grandmaster Xiao simply couldn't understand why such a peerless genius like Huang Yueli would ask these kinds of questions.

For an instant, he almost thought that Huang Yueli had taken someone else's Spirit Armaments to deceive him. She actually didn't know anything at all!

But shortly after, Grandmaster Xiao dispelled this thought.

It was because when Huang Yueli replied to his questions, she discoursed knowledgeably. Her answers gave light to new inspiration for him, which opened up a new train of thought.

A Spirit Armament Master who gave such high leveled armament refining skills answers, how could she possibly be someone who is only angling for fame?

But it was very strange that she had no general knowledge at all!

At this moment, Grandmaster Xiao felt as troubled as the Inheritance Tower's Huang Zixiao.

Facing such an abnormally strong genius, ordinary people would find it hard to adapt. _

Grandmaster Xiao had a deep interest and Huang Yueli also learned a lot of things. The both of them hit it off immediately and they chatted through the night, still wanting more.

Seeing that dawn was about to break, President Gao reminded softly, 'Grandmaster Xiao, Young Master Li, it's getting late. Both of you should have a rest!'

Before Huang Yueli could say a word, Grandmaster Xiao waved his hand dismissively, 'This Grandmaster is not tired, don't disturb us from having an in-depth discussion on armament refining skills!'

However, when Huang Yueli heard what President Gao said, she thought of the time and found herself getting slightly tired.

When she was behind closed doors in Double Prosperity Inn, she stayed there continuously for an entire month and practically didn't rest at all. After that, she finished refining the Spirit Armaments and just came out of the closed door cultivation when she heard that it was the day of Grandmaster Xiao's lecture, she hurriedly rushed over to the Sky Gem Glass Chamber.

This kind of continuous consumption of energy, even if she was a god grade genius, or how dense or great the amount of Heaven and Earth Profound Qi in God Realm was, she also couldn't continue in this state.

She said hastily, "Grandmaster Xiao, This Junior had been behind closed door refining armaments in the past few weeks and my concentration is slightly dwindling . there's no need to be in such a rush. If you're still interested in the discussion, I can come over to Sky Gem Glass Chamber tomorrow morning.

Hearing her say that, Grandmaster Xiao could only nod his head no matter how unwilling he was.

President Gao was listening by the side and he hurriedly added, 'Young Master Li, you need not travel back and forth. The Sky Gem Glass Chamber has a few vacant guest rooms , so wouldn't it be more convenient for you to stay here?' Huang Yueli thought about it briefly and nodded her head in agreement.

In this way, she spent a total of three days in the Sky Gem Glass Chamber discussing the art of refining Spirit Armaments.

Grandmaster Xiao had received God Realm's orthodox Spiritual Armament

Masters training and had a rich experience. So he was well versed in various Spirit Armament refining methods like the back of his back There was practically nothing that he didn't know.

Huang Yueli's innate talent was so high that those doubts in her mind were quickly resolved under Grandmaster Xiao's teachings!

After a short duration of three days, she already felt her Spirit Armament refining standard soaring!

The extent of her improvement was much more than when she first went into closed door cultivation one month ago!

Grandmaster Xiao also felt that he had benefited greatly from this.. "Young Master Li, after having an in-depth discussion with you, This Grandmaster feels that my previous armament refining skills were just too outdated! Now that I've been enlightened, I'm going into closed door cultivation once I reach home and practice on this thoroughly! When This Grandmaster has refined powerful Spirit Armaments, I will come and look for you for evaluation!"

Chapter 2952: Sky Devil Blood Ring (2)

"Grandmaster Xiao, that's just too kind of Huang Yueli's lips curled up. "Unfortunately, my Master wants me to go around God Realm and go on more experience learning and I can't always stay in the Glass Gem Chamber. So I'm not sure when will we be able to meet up in the future."

She wanted to keep in contact with Grandmaster Xiao, but she was using a fake persona right now.

When she had resumed her original identity, Grandmaster Xiao would not be able to link her with this Li

Grandmaster Xiao could tell that she was rejecting his idea and he snorted in a dissatisfactory manner. The breath he breathed out was so strong that his mustache flew upwards.

"Why? You're intending to turn your back on us now that you've got what you wanted? This Grandmaster is telling you, no way!"

Saying that, he took out a little ring from his shirt pocket and passed it to Huang Yueli. "Take this!"

Huang Yueli didn't know if she should laugh or cry from hearing Grandmaster Xiao's words. When she looked at the ring in front of her, she was stunned.

The ring that Grandmaster Xiao passed to her looked like a piece of jade, but it was in an extremely attractive blood red color. 'There was a faint hint of dense energy within and on one look, one could tell that it was not an ordinary item.

"Grandmaster Xiao, this is..."

Before Grandmaster Xiao could answer, Grandmaster Bai who was standing by the side cried out in shock, "Sky Devil Blood Ring?? This is the Sky Devil Blood Ring, right? On my god, Grandmaster Xiao, you're giving such a valuable treasure away?"

Grandmaster Bai simply could not believe his eyes.

Grandmaster Xiao had refined a lot of high tiered Treasure Armaments, but it was still very rare to have a treasure like this Sky Devil Blood Ring.

Huang Yueli looked at them puzzledly and asked, "Sky Devil Blood Ring? What's that?"

Grandmaster Xiao stuffed the ring into her palm "Nothing, it's just a small plaything. Just take it!"

He said it in such an easy-going manner so Grandmaster Bai totally couldn't take it and explained on his behalf. "Young Master Li, you don't know about this. This Sky Devil Blood Ring is refined using a Sky Devil's blood essence. Sky Devil's blood essence is extremely hard to come by. You only need a drop of it, and you be able to escape most of the demon tribe's soul trace prying. Unless you meet with a higher leveled demon tribesman than the blood essence's originator, otherwise, no one will be able to see through your disguise."

He paused for a moment and said, This Sky Devil Blood Ring that Grandmaster Xiao had refined was made out of a high leveled demon tribe general's blood essence, who had been killed, one hundred years ago. The blood essence obtained back then could only refine three rings. The other two rings are in the hands of two top Life Profound Realm exponents, and Grandmaster Xiao couldn't bear to sell the last ring. I didn't expect him to give it to you as a gift!"

Hearing that, Huang Yueli immediately understood.

When she was in the Lower Realm, she had once read in various ancient records. She knew that God Realm was not the same as Soaring Heavens Continent, where there was only human race living here.

In God Realm, other than a large number of humans, God races' innate talents were even higher. They were equivalent to the aristocrats governing level, but basically, they were not much different from humans.

Other than that, the demons could take in humans' blood essence to raise their abilities. So there would often be demons capture humans for cultivation. In this way, a deep feud was forged between the humans and demon tribe.

God Realm's demon tribe and the human race had always been in a state of war.

As for the Monster race, they were much slyer. The monster race's innate talent was in training various spirit beasts and magical beasts. Moreover, their battle strength was extremely strong. Some Sky Fiends with very high innate talents could even surpass God race.

But the Monster race's bloodline had a flaw, and they found it especially hard to reproduce. Hence their population had always been low..

Chapter 2953: Sky Devil Blood Ring (3)

The Monster race had always maintained a neutral relationship with the human race and demon tribe.

When the human race had the upper hand, the monster race would have a close relationship with the human race. When the demon tribe's ability was advantageous, they would lean towards the demon tribe.

Until now, the human race and demon tribe were still engaged in war. Many continent's boundaries were battling the demon tribe.

The twelve ancient God clans in God Realm bore their grudges since ancient times. They would only be united when they were fighting against the demons.

As humans were protected by the God clans, they were willing to submit to them.

As for the positions of the twelve god clans, they would be gauged based on their merits on the battlefield against the demon tribe.

Cloudy Qilin clan's territory was closer to the demon tribe so they were frequently engaged in battle. There were many brilliant feats that the clan's strong exponents had achieved, hence their position in God Realm was extremely revered.

This situation was something that everyone knew in God Realm

When Huang Yueli was in the inheritance tower, she had once heard Huang Zixiao mentioning this. When she arrived in God Realm, she had a bit of understanding of it and was clear on the current situation.

But when she was in Soaring Heavens Continent, she had not seen any demons.

Even if she had arrived in God Realm, she had always been in relatively safe zones. Until now, she had yet to meet a genuine demon, nor did she come across any scenes where both tribes were engaged in battle, so it didn't feel real at all.

It was until now that when she heard Grandmaster Bai saying these when Huang Yueli realized that the Sky Devil Blood Ring that Grandmaster Xiao had gifted to her was an extremely incredible piece of treasure!

When practitioners went into battle, they would only use their eyes to check out the enemy's situation. Powerful practitioners could use their soul trace to cover an area of ten miles to find out about the distribution scenario.

Huang Yueli's ability wasn't considered high in God Realm, so if she were to meet with any demon tribe's top exponents, there would be no way for her to hide.

But if she had this Sky Devil Blood Ring with her, the situation would be different!

This ring was a priceless treasure to practitioners who were fighting in the war zone!

No wonder Grandmaster Bai was so shocked when Grandmaster Xiao gave it to her as a gift.

"It's so incredible! Wouldn't that mean that I would become invisible when I stand on the battlefield with the demons?" Huang Yueli gasped in surprise.

Grandmaster Xiao shook his head when he heard that. invisible? How could it be that easy? It's just that they can't use their soul trace to find you. But if the other party is standing at a close distance whereby they can see you with the naked eye, you will still be exposed. But when I was refining the ring, I've encased an invisibility energy field within. As long as you are at a distance of ten meters or more from the demons, you will be invisible. But during that period of invisibility, you can't use any Profound Energy. Once there is any Profound Energy fluctuation, the invisibility effect would be lost."

Huang Yueli was surprisingly happy when she heard that. At the same time, she was astounded by Grandmaster Xiao's powerful armament refining abilities!

It was extremely difficult for someone to remain invisible in front of their opponents whose power surpasses themselves.

Generally speaking, the prerequisite for the invisibility array and Profound

Armament to come into effect was for the person who was using the armament to have the power of the opponent's level!

But this Sky Devil Blood Ring could allow her to remain invisible in front of high leveled demons.

The only sad fact was it had no effect on human practitioners...

Hearing their conversation, Grandmaster Bai asked with a pained expression,

"Grandmaster Xiao, you really.. why must you give the Sky Devil Blood Ring to

Young Master Li? You can just give him any other Treasure Armament!"

Chapter 2954: Sky Devil Blood Ring (4)

"He's not a practitioner and he probably wouldn't be on the battlefield. If the Sky Devil Blood Ring is worn by a Life Profound Realm practitioner, who knows how many demons that practitioner might be able to kill! Giving it to him is such a waste!"

Hearing Grandmaster Bai's grieving, Huang Yueli also hesitated for a moment.

"Grandmaster Xiao, this ring is simply too valuable. If you wish to give me a keepsake, some other Treasure Armament is alright as well."

Grandmaster Bai nodded his head furiously as he took a gratified glance at Huang Yueli, thinking that he had great foresight. 'This young man indeed has a good sense of the overall picture.'

However, Grandmaster Xiao firmly shook his head. "In God Realm, no one dares to say that they would never meet with the demons. So as a safety precaution, you'd better keep this Sky Devil Blood Ring with you. Your life to the human race is very important. Based on your armament refining innate talent, you will definitely become a top rated Sky Gem Grandmaster in the future, and your contributions are no lesser than Life Profound Realm practitioners!"

Although Sky Gem Grandmasters do not fight on the battlefield, the various Spirit Armaments that they manufacture would save numerous practitioners' lives.

They could also manufacture lethal large-sized mechanisms which could sometimes become the crux of deciding which side would win the battle.

Grandmaster Xiao believed that Huang Yueli would do well, hence he was very worried that she might have an early death during the process of experience learning.

After all, Grandmaster Xiao didn't know Huang Yueli's innate talent in terms of cultivation so he assumed that she was the same as many other Sky Gem Grandmasters. The battle power was almost similar to the same leveled practitioners.

With the Sky Devil Blood Ring, at least she would be able to save her own life if she ever met with the demon tribe.

As for the human race, they would generally not find trouble with a Spiritual Armament Master.

In this way, Huang Yueli was basically safe without any worries.

Huang Yueli could tell that Grandmaster Xiao wanted to protect the talents hence she didn't reject it any longer and accepted the Sky Devil Blood Ring.

She wasn't just a Spiritual Armament Master, but also a practitioner who had god grade innate talent. If she had to fight with the demon tribe in the future which probably could not be avoided, perhaps this ring might be extremely useful!

Huang Yueli kept thanking Grandmaster Xiao.

He smiled and said, Treasure Armament is just a physical possession. If you are really thankful to me, you must come and examine my Spirit Armament when I refine even better Treasure Armaments. I am living in Empyrean Fox Continent, Medial Arch City. By then, if you have invented any new armament refining skills, we can share the information again.

Grandmaster Xiao had already put it in this way so Huang Yueli naturally couldn't reject his request.

She repeatedly agreed to it and stood up to bid farewell.

When she walked to the entrance of the Sky Gem Glass Chamber, President Gao suddenly popped out from nowhere and called out to her.

“Wait, wait a minute! Young Master Li, I have a favor to ask.” President Gao hesitated to continue with his sentence.

Huang Yueli blinked and asked puzzledly, “President Gao, you...”

He hesitated for a moment and opened his mouth to speak, ‘Well, it’s like this. Young Master Li, the Spirit Armaments that you refined uses a special method and many of our Spiritual Armament Masters in the Chamber are very interested. But our power of comprehension isn’t as high as Grandmaster Xiao. Just based on those few hours previously, we totally can’t tell the mystery of it at all. If it’s possible, can I ask you if you’re willing to sell your Spirit Armaments to the Sky Gem Glass Chamber..

Huang Yueli’s brows lifted in astonishment.

President Gao had been paying attention to her expression and when he saw that, he thought that she was unhappy. So he quickly added in, “After we have purchased the Spirit Armament, we will keep it within Flame Square City’s Sky Gem Glass Chamber and I’ll absolutely not allow it to be on loan. Nor will we disassemble the Spirit Armament! Please don’t worry about it! Of course, if you’re really unwilling. “

Chapter 2955: Bad News, They’re Fighting! (1)

President Gao’s voice was getting softer as he spoke and when he came to the end of the sentence, it was full of guilt.

He was offering to pay for those Spirit Armaments, naturally not to use it, but to conduct research on it.

But a Spiritual Armament Master’s exclusive method had always been a secret that had not been revealed to outsiders.

Even though many people would secretly buy out other Spiritual Armament Grandmasters’ works to research on them, this matter wasn’t something scarce, nor was it something that could be stopped.

But to directly find that Spiritual Armament Master to purchase their refined armaments with such evident intention would easily enrage the other party.

Thinking of this, President Gao hurriedly added, “Young Master Li, if I’ve been too indiscreet, will you please...”

Before he could finish his sentence, Huang Yueli asked, “I can sell it to you. But how much are you intending to purchase it for?”

President Gao was stunned.

He didn’t expect Huang Yueli to ask him about the pricing the moment she spoke!

A Spiritual Armament Master was a noble profession and they had always been extremely high and mighty. Even if they wanted to talk about the pricing, they wouldn’t say it out so directly!

But he didn’t expect Huang Yueli to not avoid any taboo and just ask directly, then stared at him and waited for his reply.

President Gao came back to his senses and hurriedly replied, "This... one piece of ordinary standardized low leveled Spirit Armament costs about 10 thousand high grade crystal jades. But Young Master Li's Spirit Armaments are invaluable. If you sell it to a practitioner, you can sell at least 100 thousand high grade crystal jades. We'll go according to the Sky Gem Glass Chamber's market rate and purchase it at double the price, one Spirit Armament for 200 thousand high grade crystal jades. I will take all the Spirit Armaments that you have. Do you think.. this is reasonable?"

Huang Yueli blinked and she bemoaned inwardly.

She recalled that just a month ago when she arrived at Flame Square City, the inn's waiter told her that activating the teleportation array required 100 thousand high grade crystal jades. Back then, she only had a few hundred medium grade crystal jades in her pocket so that was an exorbitant price to her.

She didn't expect to be able to sell her Spirit Armaments at this kind of pricing in such a short time.

Refining a Spirit Armament would take a maximum of two to three days but the number of crystal jades that she could sell at was sufficient to activate the teleportation array twice!

Grandmaster Xiao was listening to them and when he saw Huang Yueli not speaking, he assumed that she was still hesitating. Hence he advised, "Young Master Li, these Spirit Armaments might be sold to Sky Gem Glass Chamber, but without your armament refining method, the amount of knowledge ordinary people can learn from just looking is very limited. It's impossible to copy the entire method. Moreover, President Gao's pricing is considered fair. If you're not satisfied with it, you can get him to raise the pricing a little!"

Grandmaster Xiao took a look at President Gao.

He immediately reciprocated and nodded his head as he said, "That's right. I can offer 250 thousand high grade crystal jades a piece. Young Master Li, what do you think?"

He raised the price within such a short amount of time. It seemed that the Sky Gem Glass Chamber was really wealthy!

Huang Yueli's lips curled upwards and she said, "I also intend to sell the Spirit Armaments to get some traveling expenses. Since President Gao has offered such a good price, it will save me the hassle of going to the auction house to do the trading. I'll sell all the Spirit Armaments that I've recently refined to you then!"

As she spoke, she took out all the Spirit Armaments that she had refined within the past month and lined it up on the ground

She also knew that Sky Gem Glass Chamber was extremely wealthy. If she wanted to raise the price, she might be able to sell it at an even higher price.

Chapter 2956: Bad News, They're Fighting! (2)

But on account of Grandmaster Xiao and Grandmaster Bai, she didn't want to take advantage of them

In the future, she would need to interact with the Sky Gem Glass Chamber, so there was no need to earn everything from them at one go.

These were just low tiered Spirit Armaments, so these weren't very expensive.

In the future, when she refined even higher tiered Spirit Armaments or even Treasure Armaments, that would be the time when she would start raking in cash.

President Gao heard how straightforward Huang Yueli was and instantly became joyous. He thought even highly of Huang Yueli now.

"Good, that's great! Treat that I, Old Gao, owes you a favor! In the future, if you need any help, feel free to look for me!" President Gao patted his chest and promised.

He hurriedly lowered his head, thinking to look at what Spirit Armaments that Huang Yueli was going to sell to him.

Immediately following that, he went into a blank. "These... these... you're going to sell all of these to us?"

President Gao's eyes widened in disbelief.

On the ground were ten over pieces of Spirit Armaments which were neatly lined up. Moreover, Huang Yueli was continuing to take them out!

These dozens of Spirit Armaments were not repeated and each of them was different. Moreover, it had surpassed the normal three categories, namely weapons, armors, and Spiritual Artifacts.

The most important thing was these were all standardized Spirit Armaments. Those were all low tiered Spirit Armaments which had practically been refined based on the standardized Spirit Armament Illustration Book.

President Gao originally assumed that it was already very impressive to have three to five kinds of remodeled low tiered Spirit Armaments, and it would be more than enough for them to research on!

Whoever knew that Huang Yueli took out so many at one go!

"Alright, that's all, a total of 20 pieces!" Huang Yueli finally finished taking out all of the Spirit Armaments that she had stood up and said with a smile.

President Gao's lips twitched. "There's actually... 20 pieces! Don't tell me that these Spirit Armaments are all refined using your exclusive armament refining method?"

Remodeling a piece of Spirit Armament was already extremely difficult, not to mention remodeling a whole pile of them!

If every single piece was the same as the three pieces of Spirit Armaments that she took out previously, greatly uplifting the original standardized Spirit Armament's might by so much, it would be a miracle!

Huang Yueli looked at him strangely and said, "That's of course. These Spirit Armaments are refined using my method, so the might of these shouldn't be too far off! President Gao, don't worry, I won't

dupe you. If the Spirit Armaments aren't any good, I won't sell them to you for such a high price! If you're worried, why don't you ask Grandmaster Xiao to examine it first!

She had already put it in that way, so President Gao immediately felt rather embarrassed.

"No, no, no, there's no need to examine! Young Master Li's Spirit Armaments are definitely the best..." He hurriedly declined.

However, Grandmaster Xiao instantly picked up one Spirit Armament and said, "Old Gao, how can you be so casual when you purchase Spirit Armaments? You haven't even ascertained the Spirit Armaments' quality and you're going to pay for it. Surely you can't just squander in this way, no matter how much money you have, right? Let This Grandmaster help you check!"

President Gao looked at Grandmaster Xiao's back and went into a short blank, then he instantly came back to his senses.

This old fellow, he couldn't wait to see the new Spirit Armaments that Huang Yueli had just taken out! Hence he intentionally found an excuse to do so.

But, this had indeed helped him greatly!

Grandmaster Xiao squatted on the floor felt all the Spirit Armaments one after another. He was also mumbling to himself.

'This cutlass looks very powerful, and the armament refining method seems different from the previous long sword! How is this done?'

Chapter 2957: Bad News, They're Fighting! (3)

"And, and this dagger. The killing power is so high! This lad is so young, but he had such great mastery in refining weapons. It won't take a few years for him to surpass me!"

'Tsk tsk, even the armor is refined so well. This set of wrist guards is of the finest quality among the low tiered Spirit Armaments...'

As Grandmaster Xiao looked, he lamented and he couldn't stop feeling regretful.

If he had known that Huang Yueli had so many other Spirit Armaments with her, he would have asked her to sell all of these Spirit Armaments to him instead!

Grandmaster Xiao thought that she only had those three pieces. Since he had already seen them, he gave up the chance to sell these Spirit Armaments to President Gao instead.

Now, he regretted his decision..

"Old Gao, we have been friends for so many years. When we were young, we also attended the auction together Grandmaster Xiao suddenly said without any warning.

President Gao had a shock. "Ughh. _ this

Wasn't Grandmaster Xiao absorbed into looking at the Spirit Armaments? Why did he suddenly reminisce about the past?

"Since we have such close ties, we should share the good stuff, right? Old Gao, why don't you resell these few pieces of Spirit Armaments to me! I'll offer you double the price, one piece at 500 thousand jades, what do you think?" President Gao came back to his senses when he heard that. He turned around and saw Grandmaster Xiao holding tightly to a few pieces of Spirit Armaments, prepared to take it away the minute he nodded.

'You.... No way! These belong to our Flame Square City Slw Gem Glass Chamber! I'm not selling! I insist on not selling!"

President Gao shot up like an arrow, preparing to snatch those Spirit Armaments back.

Grandmaster Xiao held onto the Spirit Armaments and shifted to the left and right while continuing to persuade him. "Old Gao, you can't be so petty! It's just a few pieces of low tiered Spirit Armaments. You can have as many as you want, so must you haggle over it with me? It's not as if I won't pay for it?"

"Just a few pieces of low tiered Spirit Armaments! Then don't fight with me over them!" President Gao cried out in dissatisfaction.

Both Sky Gem Grandmasters were a thousand years old added together, but they were fighting over a few low tiered Spirit Armaments.

Their armament refining standard might be different, but there was practically no difference in their cultivation. They were both in Heart Profound Realm mid -phase, and their actual combat experience was practically zero.

So when they fought, they were equals, and there was no clear winner.

The surrounding Spiritual Armament Masters and female attendants originally were stunned by what they saw. No one thought of stepping up to pull them apart.

Huang Yueli's sweat dripped down from her forehead as she was rather speechless. So she could only step up and separate the two of them.

"Alright, alright, both Seniors. It's just a few pieces of Spirit Armaments, don't lose your harmony over this small thing! Grandmaster Xiao, didn't you tell me earlier if you wanted them? I can stay here for a couple of days more and refine a few for you!"

Grandmaster Xiao's face was originally very furious, and he lost a few strands of hair on his beard during the fight.

Hearing that, his anger turned into joy. "Really? Young Master Li, you're willing to refine some Spirit Armaments for me?"

Huang Yueli nodded and smiled, "I'm in need of money! Since there's a chance to earn money, how can I miss it?"

The main thing was she had totally and thoroughly pondered over the refining method of these Spirit Armaments. So the speed of her refining would be much faster than before.

As they always said, awkward at first but skillful later on. It wasn't something very troublesome, and it wouldn't waste too much time..

Chapter 2958: Find Her, Dead or Alive (1)

For Grandmaster Xiao, Huang Yueli stayed a few more days in the Sky Gem Glass Chamber to refine various types of standardized Spirit Armaments.

Centre of Sacred Phoenix Continent, Ice Moon Summit.

The usually bustling main hall was exceptionally quiet today.

A female attendant holding on to a tea tray walked softly, deeply worried that she might make a noise and agitate the currently furious clan leader in the main hall.

'That bunch of scums from Cloudy Qilin clan is simply too much! How dare they touch our Sacred Phoenix Race's god grade genius! Do they even still bother about the agreement all 12 god clans agreed to fight against the demon tribe? They publicly harm and murder other god clans. Are they intending to become a public enemy of the other god clans? Do they really think that we, Sacred Phoenix Race, have no top exponents? How can we swallow this after being bullied to this extent?'

Sacred Phoenix Race's clan leader, Huang Tianhao slammed his fist on the table, and his powerful Profound Energy broke the table in half. The teapot and other porcelainware fell on the ground and shattered into pieces.

Even so, he still hadn't vent his frustrations and kept walking about in the main hall frustratedly.

It wasn't only Huang Tianhao. Everyone in the main hall had an indignant look on their faces.

Some were even very impulsive. They had already drawn their long swords out. If it wasn't because someone was holding them back, they would have dashed out to exact revenge on those from the Cloudy Qilin clan!

Huang Sanbai lowered his head as he stood in front of Huang Tianhao.

He had a guilty look on his face, and he spoke with a quivering voice, "Clan Leader, it's This Old Man.. This Old Man has let the clansmen down, and I'm really sorry about the Sacred Phoenix Race! If I had been able to detect Cloudy Qilin clan's scheme in time and stood in front of Lass Li Cloudy Qilin clan's people had appeared, she wouldn't have fallen from Azure Luan and wouldn't have gone missing..."

He choked while he spoke. He looked so sad as though his tears were about to fall.

Huang Sanbai originally was Sacred Phoenix Race's oldest Elder, and before he returned to Ice Moon Summit, he had made sufficient preparations. He messed up his hair and clothes, appearing extremely miserable.

His acting skills were simply too convincing, and everyone saw him in such a shabby state, they couldn't help but sympathize with him, pleading with the Huang Tianhao on his behalf.

“Clan Leader, we can’t blame Elder Sanbai for this matter! It’s all Cloudy Qilin clan’s men for being so despicable and shameless! Who would have thought that they attacked our god grade genius!”

“Isn’t that so? It must be intentional! They were aiming for our god grade genius!”

“We might be able to prevent it temporarily, but there’s no way we can protect her for life. Elder Sanbai, don’t blame yourself too much”

“Every injustice has its perpetrator. Let’s go look for those Cloudy Qilin clan’s scums to settle this!”

Everyone was indignant, and their fury took over their rationality.

Ice Moon Summit’s descendants had been waiting for the arrival of this god grade genius.

Two months ago, Huang Sanbai had already sent a report to Ice Moon Summit that he had already received the god grade genius. Her innate talent was indeed outstanding, and it was absolutely at a god grade’s standard.

When the news came, the entire Sacred Phoenix Race was bubbling with excitement, and everyone was very happy.

Originally, they were worried that the signal from the Lower Realm was a mistake, but now that their god grade genius had appeared, that reassured everyone!

Huang Tianhao had already instructed to arrange the residence and cultivation resources for Huang Yueli. He was prepared to nurture their one and only god grade genius properly.

Whoever knew that time passed by day after day. Everyone waited and waited , but they didn’t see the god grade genius appearing.

Even Huang Sanbai, who was sent to pick her up, had also gone missing..

Chapter 2959: Find Her, Dead or Alive (2)

Huang Tianhao sent a few batches of people out, but none of them were able to find them.

Today, Huang Sanbai finally returned to Ice Moon Summit with a few clansmen disheveled appearances.

Seeing Huang Tianhao, Huang Sanbai knelt on the ground and started to cry miserably.

Seeing him in such a state, the clan leaders heart thumped hard. He hurriedly asked about the situation

Huang Sanbai wiped the corner of his eye and said, “Clan Leader, This Old Man is guilty, This Old Man has let our clansmen down! ‘IÀ’VO months ago, I’ve already picked up our god grade genius. Her innate talent is outstanding, and she has good mannerisms. Everyone was very happy. On the third day, I brought her to take Azure Luan, hoping to return to Ice Moon Summit as soon as possible. Whoever knew... Whoever knew...”

Saying to this point, he sniffed a few times as though he was extremely aggrieved and could not continue

Huang Tianhao was extremely anxious, and he couldn't help but stomp his feet. "Whoever knew what? What on earth is going on? Quickly tell us!"

Huang Sanbai dabbed the corner of his eye to wipe off the "tears" which were non-existent and said in a low voice, "Whoever knew that we had just left Soul Connection Ocean and bumped into those people from Cloudy Qilin clan? They recognized me and started to attack me and Lass Li for no rhyme or reason! I didn't expect them to strike us, so by the time I responded, it was already too late..."

'The Azure Luan that we were riding was struck dead, and Lass Li fell from mid-air...

'This Old Man also fell on the ground and fainted. When I regained consciousness, I hurriedly went to look for her, but Lass Li had already gone missing.'

Huang Tianhao's expression was filled with shock, as though he had been struck by lightning!

He shook his head in a dazed expression and muttered to himself, "Impossible! This is impossible! How can this be? That... That Huang Yueli, she... could she really..." Speaking of this point, Huang Tianhao suddenly thought of something and agitatedly ran towards Huang Sanbai. Grabbing his collar, he said, "Huang

Yueli fell from the sky, but it doesn't represent that she had died! Where is she? Didn't you guys go search for her?"

Huang Sanbai gave a bitter smile and said, "Clan Leader, how could This Old Man possibly not search for her? I only came back now because I'd been searching for her near the surroundings at the location where the incident happened! This Old Man had been searching for her tirelessly for the past few days and nights, but I couldn't find her at all..."

"In the end, This Old Man proceeded to meet up with those young clansmen in Soul Connection Ocean and utilized all our power to search around the surrounding towns and cities. But there were no leads at all..."

Huang Tianhao's eyes "How can a living person suddenly go missing? If she's alive, we must find her, but if she's dead, we should be able to find her corpse as well!"

A cold glint flashed past Huang Sanbai's eyes, but that sinister expression only lasted for a second, so no one noticed it at all.

'There are two possibilities for Lass Li's disappearance. One is that she wasn't injured too badly and managed to escape but lost her way. The other is... she had been taken away from the people from Cloudy Qilin clan!'

Huang Sanbai didn't continue with his sentence, but the meaning in his words was very clear.

If Huang Yueli was only lost, under such a massive search in Sacred Phoenix Continent, how could they possibly not find her?

So, although he said there were two possibilities, there was actually only one.

Huang Tianhao trembled. He already had a similar guess in his mind, but he didn't dare to believe it!

Clenching his fists, he tried hard to make himself calm down a little.

“Elder Sanbai, are you certain that you saw who attacked the two of you?”

Chapter 2960: Find Her, Dead or Alive (3)

“This sort of matter... we can’t talk about it so carelessly. There would be big trouble if we accuse the Cloudy Qilin clan wrongly! Although we have always been on loggerheads with them, with the mutual agreement that binds us to fight against the demon tribe, they... would they be so bold?”

If they killed other god clans’ disciples, that would mean that they had violated the agreement. They would also become the public enemy of all god clans.

If it was manslaughter, they could forget about it. But such blatant interception of other god clans people was totally unreasonable!

Moreover, ever since the agreement had been formed, Cloudy Qilin clan and Sacred Phoenix Race had endless frictions of various magnitudes in the past thousands of years. But other than a few accidents, there were no incidents where an intentional murder was committed.

This time... why did this happen?

Huang Sanbai knew that his Clan Leader wasn’t so easy to fool, so he had already thought of an excuse.

His lips curled and revealed a non-visible sneer. Then he immediately spoke grimly, “Actually, I’ve also thought about this. I wonder if the demon tribe had intentionally tried to incite the feud between our two clans so they found someone to pretend to be from the Cloudy Qilin clan and attack us. This Old Man doesn’t want to accuse the wrong person! But the younger clansmen that I brought along to Soul Connection Ocean tried to intercept our god grade genius, and even had a conflict with our clansmen!”

Huang Sanbai immediately pointed out their clansmen as his witness.

These people had all witnessed Li Moying appearing in Soul Connection Ocean and Serene Rain Town. Many of them were injured by him and his guards.

As Huang Sanbai spoke, he secretly felt delighted. He had to thank Cloudy Qilin clan’s god grade genius to appear so coincidentally, which gave evidence for his lies!

This time, Huang Tianhao had no choice but to believe in this!

The clan leader turned pale with fright. “What? There’s such an incident? Cloudy Qilin clan... how dare they do this!”

Huang Sanbai sneered, “Why do they not dare to do? Clan Leader, there’s something else beyond your imagination! The leader of those Cloudy Qilin clan’s practitioners is the god grade genius whom they picked up more than one year ago! This man is true as the rumors say. From his bone age, he looks like he’s not even 25 years old yet, but his cultivation is already at Heart Profound Realm. Moreover, his battle power is astonishing. Even This Old Man almost lost against him. Oh, right, he also contracted an ancient spiritual beast

Qilin!”

Huang Tianhao was shocked by this astounding news. Even after a long time, he still hadn't come back to his senses!

It was until Huang Sanbai urged him softly did he regain his senses. “Cloudy Qilin clan's god grade genius is actually... actually so incredible! No wonder those scums from the Cloudy Qilin clan have nothing to fear! With this genius around, it will just take a few more decades and we, Sacred Phoenix Race will have to live our days by submitting to them!”

Huang Sanbai sighed. “This person's innate talent is indeed not bad. But from what This Old Man thinks, Lass Li's innate talent might not be any weaker than his! If we could nurture her properly, it would be hard to tell who's much more incredible. Alas... sigh! No wonder the Cloudy Qilin clan was so anxious. They rather violate the agreement to fight against the demon tribe and insist on killing Lass Li!”

His words were said to be adding oil to fire.

Huang Tianhao's heart was filled with pain, and his fury was instantly ignited!

At this moment, there was only a last sliver of doubt in his heart, but that had been diminished by that extremely vexed emotion.

He banged the table with his fist loudly, stood up, and roared angrily, “Men!

Quickly go gather all the Elders and core disciples to the main hall now!”
