Chapter 2991 Where Did She Go? (3)

“We unintentionally found out that Master Li was in Flame Square City today, so we thought of coming to catch up with him. Whoever knew that Master Li just happened to leave today, so the two of them just missed each other! So, that’s why my Young Master specially rushed over here, hoping that he could meet with Master Li!”

Seeing the team leader not saying anything, Li Tian Yi added, “Young Master Li saved my Young Master previously, so he’s Young Master’s savior! They haven’t met for many years and if they missed this chance, who knows when the next chance might come by!”

The team leader finally believed Li Tian Yi after hearing him speak so earnestly.

“The Master Li you are talking about, is he a low rank Spiritual Armament Master who is around the age of 30?”.

Li Tian Yi saw Huang Yueli’s countenance previously so he kept nodding his head. “That’s right! That’s him! Young Master Li isn’t very tall, but his looks are rather attractive. He’s also a little tanned.”

Hearing his apt description, the team leader let down his guard.

He shook his head regretfully, “Sigh, the person you are describing is indeed Master Li Yuehuang! Alas, you have just missed him! Master Li had just left Flame Square City a quarter of an hour ago!” “What? That’s impossible!”

Hearing that, Li Moying could no longer suppress his anger.

His expression was originally cold and solemn, but his darkened expression made it look even more callous and imposing.

The team leader’s knees almost gave way when he saw Li Moying’s expression. But he braced himself and said, “Why would I lie to you? Master Li had indeed left.”

“How is that possible?” Li Tian Yi saw his Young Master on the verge of flying into a rage and hurriedly stood out to ask on his behalf. “Activating the teleportation array requires a lot of energy. Just redrawing out the array patterns and preparing the exhaustive materials for the array would take two to three days, isn’t it? How could he leave so quickly?”

As a genius from the Cloudy Qilin clan, Li Tian Yi used the teleportation array frequently and he was extremely clear about the situation for this.

It was exactly because there were so many restrictions using the teleportation array which was why those important figured from genuine large clans rarely used it. Instead, they frequently used flying ships. The team leader immediately explained, “This was because Master Li came at a convenient timing. There were a few ancient god clan practitioners who also wanted to use the teleportation array and we were already preparing for it a few days ago. Since Master Li came, he teleported along with them.”

“What? How. Could it be so coincidental! Are you certain that they’re already teleported? Will it be too late to stop the teleportation now...”

Before Li Tian Yi could finish his sentence, Li Moying’s figure swayed and he had already dashed past the group of people into the teleportation array. “Young Master—!!” Li Tian Yi cried out in shock!

All the soldiers hadn’t realized what had happened until Li Tian Yi cried out, and they recovered their senses.

All of them looked horrified!

Li Moying’s body movements were even more erratic than a ghost!

There were so many soldiers here and they had surrounded Li Moying and the others. But he still managed to break through their encirclement effortlessly!

In fact, all the soldiers did not even see his figure. They only saw a shadow flash past them and he was gone!

“Young Master, you can’t do that! The teleportation is currently in progress, and it’s extremely, extremely dangerous!”

Li Tian Yi paled with fright and hurriedly chased after him.

He really didn’t expect that whenever something was related to Huang Yueli, Li Moying would change into another person!

Chapter 2992 Where Did She Go? (4)

His usual calm and stable demeanor were totally gone.

He didn’t even cherish his own life.

The teleportation array was an array that tore the space apart. Once activated, it was very difficult to stop. For those who tried to barge in while it was already in the middle of being activated, the intruders might be swept into an infinite void space. The worst scenario was that they might be torn into shreds by the space’s storm!

Alas, Li Tian Yi’s speed just couldn’t match up to his Young Master.

He had just run for a few hundred meters and Li Moying’s figure had already appeared in the middle of the teleportation array.

“Damnit! Li’er had indeed just left!” Li Moying’s fist punched heavily on the patterned round stone pillar by the side.

The materials used to construct teleportation arrays were top-quality Spiritual Armament materials in God Realm. There was no need to doubt the quality of the hardness. But Li Moying’s punch caused multiple cracks in the entire pillar.

“Cr-ac-k...”

After several dull sounds, the entire stone pillar shattered into a pile of rubble beside his feet.

“Hey, how can you guys damage...” At this moment, the commander who was in charge of the teleportation array heard the soldiers’ report and hurried over. He just happened to see Li Moying punch the circular stone pillar! The commander immediately shouted to berate him. Just as he was about to give them a stern lecture, it took less than a second for him to see the stone pillar shattering... The commander’s voice suddenly stopped as though something was stuck in his throat, totally unable to say a single word at all! This... what kind of ability was this!

Terrifying! Too terrifying! “Could it be that a Dao Profound Realm strong exponent had come to our Flame Square City?”

“But doesn’t this young man look a little too young? How could his cultivation possibly be in Dao Profound Realm? Or could it be that he had used some secret arts to conceal his real age?”

Li Moying heard a voice and looked at the commander, then he walked towards the latter.

“You... you... who on earth are... are...” The commander stared at Li Moying, but under his strong might, he couldn’t even say a complete sentence. Li Moying asked, “That Master Li... where is the destination that he had teleported to?”

When the commander heard this question, he looked at Li Moying defensively and asked, “You... Why are you asking this? It’s... it’s a military secret about the use of the teleportation array! I will never tell you!”

Li Moying’s brows creased and his Profound Energy was instantly unleashed! “Oof...”

The commander’s meridians and dantian suffered an intense impact and blood gushed up his throat, causing him to almost throw up blood!

His chest was in severe bouts of pain, which made him unable to breathe!

Li Moying asked coldly, “Where did Li Yuehuang go to? Quickly tell me! I’m not very patient today!

He retracted a bit of Profound Energy and the commander finally found himself able to breathe slightly.

But he clenched his teeth and said, “No... no way, I won’t tell you! How dare you openly attack Sacred Phoenix Continent’s guards, to force me to tell you about the military secret! I will absolutely not yield to you!”

The commander looked at Li Moying suspiciously, as though he was the demon tribe’s spy!

Li Tian Yi took a look and he was worried that Li Moying might kill the commander and soldiers in a fit of anger!

He stepped up and persuaded. “Young Master, you...”

Li Moying heard his voice and stretched out a hand, indicating for him to keep quiet.

Chapter 2993 Empyrean Fox Continent, Blessed City (1)

Immediately following that, Li Moying’s fingers flipped, and he retrieved a token from his interspatialring. “Now, can you answer me?”

An icy, cold voice rang, and the commander's mind "buzzed" as though he heard a thunderclap, which caused him to go into a trance.

Li Moying's slender, powerful fingers were entwined with a metal attributed chain. Below the chain was an exquisite identity token.

This was something that ancient god clans used to differentiate their clansmen!

At the same time, it was a sign of a god clan's noble status.

The commander hadn't expected the handsome, young man standing in front of him to be a noble member of the god clan. Moreover, from his cultivation and the number of guards following him, the former was able to judge that Li Moying's status in the clan wasn't low at all!

However, this wasn't the most shocking thing.

What left the commander in disbelief was that Li Moying was from the Cloudy Qilin clan!

Why had Cloudy Qilin clan's men come to Sacred Phoenix Race?

Various large continent's patrolling guards weren't able to stop a genuine top expert from the god clan, but it was impossible to totally differentiate people from the Cloudy Qilin clan.

However, various ancient god clans had their pride.

Sacred Phoenix Race and Cloudy Qilin clan were at loggerheads for such a long time. Even if they didn't restrict the other party's clansmen to enter the Continent on which they were governed, the other party wouldn't enter it casually. Instead, they would choose to ignore each other.

So, why did this man appear at this place? The commander stared blankly at Li Moying's identity token and couldn't say a word for a long time.

Li Tian Yi was worried that his Young Master would fly into a rage again and hurriedly scolded the commander, "Why are you in a daze? Aren't you going to tell us clearly where Li Yuehuang, Master Li, had gone to!"

An ancient god clan's identity was much higher than ordinary clansmen. Moreover, even if it was based on military ranks, once god clans entered the battle, the basic rank they hold was sufficient to control him, a human commander.

The human commander didn't dare to dawdle and hurriedly said, "Master Li's destination is Emphyrean Fox Continent, Blessed City!"

"What? Blessed City??"

Hearing that, Li Moying's guards all had a huge fright!

"Blessed City was the most dangerous warzones in the entire God Realm. Why would Young Master Moying's wife go to that place?" "Logically speaking, shouldn't she be heading to Sacred Phoenix Continent's central, Ice Moon Summit, back to her clan?"

Li Tian Yi frowned and asked, "Are you sure? Why would Master Li go to Blessed City for no reason?"

“This... I’m not too sure. I told Master Li that Blessed City is a troubled spot and is extremely dangerous, but he insisted on going there. I... I can’t stop him at all!”

Li Tian Yi and the others exchanged a glance, feeling very uneasy. “This was such an abnormal situation. Had Huang Yueli met with trouble? If this was the case, won’t our Young Master go crazy?”

The few of them sized Li Moying up cautiously but found that Li Moying’s expression seemed even more relaxed than earlier.

“The teleportation distance is the furthest from Sacred Phoenix Continent to Empyrean Fox Continent, having to pass through two large continents. Moreover, Blessed City has an even longer teleportation array. If he wanted to go to Cloudy Qilin Continent, taking this route will save a lot of time...”

Li Moying muttered to himself for a moment and his tightly creased forehead slowly eased.

“Li’er, you have indeed chosen to look for me!”

Li Moying’s heart seemed as though it was soaked in lukewarm water, which was filled with warmth.

Chapter 2994 Empyrean Fox Continent, Blessed City (2)

After being separated for more than a year, his Li’er was also thinking of him. She couldn’t wait to meet him at all...

Li Moying kept his identity token and abruptly turned to leave.

“Enough, let’s go!” Saying that he led the way to leave.

Since he already knew that Huang Yueli was on her way to look for him, and roughly knew about her route, then he could rest assured.

Although it was not impossible to head to Empyrean Fox Continent through the teleportation array, the amount of time needed to prepare the teleportation array’s materials for activation would take almost one whole day.

Li Moying could not even bear to wait for an hour right now, what more to wait for an entire day!

Luckily, the flying ship that he brought out from the Cloudy Qilin clan was still parked outside Sacred Phoenix Continent in a hidden location. So taking the flying ship would be much faster than the teleportation array. Perhaps, he might even arrive in Blessed City earlier than Huang Yueli.

By then, he would be able to welcome his Li’er.

He started to wonder about the adorable expression that Huang Yueli would show when she saw him appearing suddenly at the instant when she walked out of the teleportation array.

Li Moying’s lips couldn’t help but curl upwards when he imagined the scene.

As for Huang Yueli, she was suddenly in the middle of being teleported. Hence she totally didn’t know that so much had happened in this short amount of time that she had left.

There were a total of five people who were being teleported.

Among them, there were four ancient god clan practitioners. Judging from their aura they seemed to be from the Empyrean Fox Clan. Moreover, from the obvious military ranks on their shoulders, one could tell that they had attained outstanding military achievements on the battlefield.

O

Other than that, there was a luxuriously dressed young man.

His countenance was extremely handsome and even a little feminine. But his temperament was outstanding. An eminent aura was overflowing from him, even though he was just standing there.

When he saw Huang Yueli walking in, his lips curled into a smile with a frivolous hint to it.

Huang Yueli shot him a warning gaze and did not engage in conversation. Instead, she looked for an unremarkable position and sat in a cross-legged position.

This was long-distance teleportation so they would not arrive instantly. They had to teleport across two continents so the minimum amount of time taken to travel within the void space would be around three days or so. She would be able to take this time to adjust herself.

When the Empyrean Fox clan's practitioners saw Huang Yueli walking in, all of them frowned.

"What's going on? Why did a human walk in?" One of them questioned. The team leader who led Huang Yueli bowed and apologized. "Master Divine Lieutenant, I'm really sorry. This Young Master Li happened to be heading to Blessed City as well. Since it's so coincidental, why don't we just let him teleport together! He will not disturb you." Empyrean Fox Clan's practitioners looked displeased and they said, "What's the situation? The cities administered by Sacred Phoenix Race are really lawless! The teleportation arrays were built to fight against the demon tribe, and we're heading to Blessed City to carry out important military affairs. Why are we bringing these two trashy humans along for? Simply a waste of resources! Aren't you going to get them to scram right now!" The team leader smiled apologetically and said, "Masters, please be appeased! We didn't casually let anyone come in. These two gentlemen here, one is a Spiritual Alchemist, and the other is a Spiritual Armament Master. Even on the battlefield frontline, they are useful people. Sirs, please let it go and let them tag along."

Hearing that, the Empyrean Fox Clan practitioners' expressions turned slightly better.

Chapter 2995 Empyrean Fox Continent, Blessed City (3)

In the God Realm, one's birth might be important. But one's strength and ability mattered even more!

Spiritual Alchemists and Spiritual Armament Masters were occupations that God Realm admired very much. These two people with these statuses made the Empyrean Fox Clan practitioners unable to say words of rejection. "Since that is so, let them tag along then! Have the resources for the teleportation been prepared? Quick, don't waste time. We have already been delayed in Flame Square City for so many days!"

"Yes, yes, the teleportation is almost about to start. Masters, will you please sit near the array eye, in case you are injured by the impact when the array activates! During the process of teleportation, everyone, please do not attempt to stand up. The resistance in the void space is very huge and once it has surpassed the array's boundary, you might be thrown out. By then, it's possible to be swept into the

space's storm which is life-threatening! Even if you manage to stay alive, there's no way to arrive at the destination properly. Moreover, no one knows where you might land! So, please be very careful!" The team leader warned repeatedly.

The Empyrean Fox practitioners were rather impatient and snorted coldly, "Do we even need your reminder? It's not the first time we're using the teleportation array! Quick, make haste!"

The team leader nodded his head and bowed as he backed out. Apparently, he didn't dare offend these high and mighty god clan practitioners.

Huang Yueli was listening and felt that she had gained more knowledge.

The things that the team leader said were not written in the books which she had read. These warnings to her were rather useful. After the team leader left, the remaining five people also sat down just like Huang Yueli.

But the Empyrean Fox Clan's practitioners didn't want to mingle with humans, so they especially sat opposite Huang Yueli.

On the contrary, the frivolous-looking handsome man walked directly towards Huang Yueli and sat next to her.

Huang Yueli felt that he was a little too close for comfort and couldn't help but nudge to the side.

But, she didn't think too much about it. She assumed that the other party thought that she was also from the human race, so he wanted to get on closer terms with her.

But not too long later, after the exterior array patterns had been activated, the entire teleportation array started to vibrate violently!

A huge light sphere enveloped the six of them and the bursts of energy waves scattered towards them from the outside. All the surrounding Heaven and Earth Profound Qi gathered towards the direction of the teleportation array!

The light sphere was turning brighter and brighter and even more eye-piercing!

Finally, after a wave of explosive sounds, a light pillar shot into the sky from the teleportation array's position!

This enormous, powerful energy that had gathered through the array instantly exploded and tore the void space apart!

Huang Yueli and the others were also pushed into the void space along with the light pillar.

In this instance, the explosion of the energy caused the ground to shake. The magnitude of it was too huge and even Huang Yueli felt dizzy from it.

She hurriedly sat cross-legged, shut her eyes, and silently worked up the "Nine Phoenix Transformations" cultivation method.

The disorderly Profound Energy within her body was slowly being directed into the correct path, and Huang Yueli's pale complexion turned normal.

She slowly opened her eyes to discover that the six of them were already in a void space.

The surroundings were pitch-black, and the sparkling stars were shining brightly, like diamonds on black velvet, which gave off a vague kind of beauty.

They were enveloped in the light ball, and it portrayed various kinds of array patterns.

Huang Yueli took a look and discovered that the majority of these array patterns were mostly defensive and speed arrays.

Chapter 2996 Empyrean Fox Continent, Blessed City (4)

Other than her, Empyrean Fox Clan's practitioners were also cultivating in a cross-legged position.

Their eyelids didn't even move, totally immersed in their world. Apparently, they were already used to teleportation and didn't find it novel at all.

However, the human man next to Huang Yueli kept sizing her up with his eyes peeled.

This glare was too direct and it made Huang Yueli feel a little offended.

She turned around and looked at him coldly, secretly releasing a bit of Profound Energy pressure, hoping to strike the other party in awe.

Whoever knew, that man seemed as though he didn't feel any pressure at all. Not only did he not show any pained expression, but his lips also curled up with a playful look in his eyes.

"Both of us are humans. Aren't you a little... too much by doing this?"

Huang Yueli's brows twitched in surprise.

This man looked as though he was just in the tenth stage realm. At most, his cultivation would be in Dream Profound Realm mid-phase. She didn't expect him to not bat an eyelid under her suppression.

It seemed that he had either concealed his real cultivation, or he should have met with some kind of extraordinary encounter and wasn't an ordinary person... Huang Yueli didn't bother about this at all.

Because she didn't feel any murderous or evil intentions from him. Rather, he was just curious about her.

Although that was the case, Huang Yueli felt that it was necessary to warn him.

"I'm not on close terms with you, can you please stay a little further away from me! I also want to cultivate!"

Saying that she stood up and walked a rather far distance away from the man before she sat down. Then she shut her eyes and instantly started to cultivate.

The man rubbed his nose dully, but there wasn't any embarrassed look on his face at all.

The only human companion here ignored him. Helpless, he could only sit down and cultivate quietly.

The teleportation light sphere traveled steadily in the void space. It was extremely quiet on the outside.

Time passed tranquility in this manner and three days went by very swiftly.

The leader of the Empyrean Fox Clan's practitioners suddenly opened his eyes. "It'd take another one hour or so and we would be arriving at Blessed City!"

"That's great! The amount of time we spent traveling this time is much longer than expected. Finally, we're heading back to Blessed City."

"Isn't that so? I can't get used to eating the food in Sacred Phoenix Continent. If we still don't come back, I'm not going to be able to take it any longer!"

Amid the joyous discussions, the elder leader coughed heavily.

"Enough, is there a need to be so happy? We came back to Blessed City this time not to come back to visit our relatives or to go have fun! The demon tribe had been showing up frequently around Blessed City and had already attacked the neighboring few towns and cities recently. A large number of humans had been captured, and they died from having their blood essence sucked dry! There are quite a number of our Empyrean Fox Clan's clansmen as well! After we go back, we must immediately enter into Level 1 state of readiness!"

Hearing that, those Empyrean Fox Clan's practitioners revealed worried expressions.

"In the past, the demon tribe would have activity during winter. Why have they started to create chaos so early this year?"

"I think something's strange about this!"

"The clan sent us a message that the demon tribe that attacked Blessed City this time has quite several Sky Devil rank exponents. They have probably come with ill intentions!"

Whilst the few of them were talking, the light sphere that enveloped them suddenly gave off a burst of bright light, and the vigorous vibrations started once again!

Huang Yueli immediately shut her eyes to adjust her breathing.

It seemed that they had already arrived near Blessed City, and they were about to leave the void space!

Chapter 2997 Shameless Plan (1)

The vibration of the light sphere that tore past the sky of the void space boundary lasted for a very long time.

Huang Yueli waited quietly.

She knew that Blessed City's teleportation array had already been activated. After the light sphere appeared from the void space, it would be pulled in and gradually descend on the designated position.

Finally, the vibrations gradually grew weaker.

NV

Huang Yueli squinted and half of the sphere had already appeared on the exterior of the void space...

But just at this moment, “Rumble...”

A loud noise resounded and the light sphere vibrated once again!

Moreover, this time, the situation was very unusual. Strong crashing noises, shattering noises kept ringing. The light sphere no longer swayed simply to the left and the right. Instead, it shook in all directions without any regulated pattern.

The six people in the light sphere were unable to sit tight. All of them fell onto the floor, covered in dirt.

“What’s going on? What exactly happened?”

The Emphyrean Fox Clan’s practitioners detected the abnormality and the colors on their faces changed. The Leader of the pack spoke gravely, “The situation is not wise. We... seem to be attacked by the demon tribe!” “What? How could we be so unlucky!”

“The demon tribe is simply too sinister!”

“We’re done for, we’re done for! The exterior defense is the weakest when the light sphere passes through the boundary of the void space. Based on the intensity of this attack, our light sphere would be broken very quickly!”

“What should we do? The demon tribe came prepared. It seemed that they sent out a lot of people to besiege us!”

Huang Yueli frowned slightly as she looked straight out of the light sphere.

Rays of different attributed energy crashed on the light sphere.

The difference between this energy and ordinary Heaven and Earth Profound Qi was that there was a rampant and irascible presence hidden inside.

Every single impact made the light sphere’s glow darken a little. The array patterns drawn on the light sphere were already blurry and unclear, as though it had completely lost its effect.

“Could this be the demon tribe’s demonic power? It is indeed extremely powerful and the destructive power is shocking...”

“Although the demon tribe can’t construct long-distance teleportation arrays, their destructive power is much stronger than ours!” A voice on Huang Yueli’s right sounded.

She looked up and saw that human Spiritual Alchemist, who had already walked next to her.

Detecting Huang Yueli’s gaze, he blinked and said, “This Young Master, I feel that the both of us are about to run into bad luck!”

“What do you mean?” Huang Yueli went blank.

She instinctively felt what the man said was a little strange. If it was about bad luck, the six of them were apparently in a huge crisis. But this person emphasized “the two of them” were going to run into bad luck...

Putting it in that way, was to convey their contempt towards the god clan, or...? While Huang Yueli was still pondering, she suddenly sensed that something was amiss.

The four Emyrean Fox Clan practitioners had always turned around and looked at Huang Yueli and that young man in an uncomfortable gaze.

“Hey, you two humans!” The elderly leader shouted in an unfriendly manner.

Huang Yueli and the human Spiritual Alchemist shut their mouths tacitly, ignoring the other party. The elderly man’s expression turned ghastly. “That Spiritual Alchemist and that Spiritual Armament Master, I’m calling the both of you! What kind of attitude is this?”

The human man dug his ear and said slowly, “Oh, so you’re calling us...”

Chapter 2998 Shameless Plan (2)

“Yes, the both of you. Stop your pretense!” A young Emyrean Fox clan practitioner lost his patience and was about to rush up to scold them.

The Elder leading them hurriedly pulled him back, made eye contact with him, and indicated for him to stay calm.

The young practitioner regained his senses and shut his mouth.

Huang Yueli was even more bewildered. From their actions, it seemed as though there was some sort of scheme...

She blinked and said indifferently, “This young buddy here is right. We have names, so what do you mean by ‘two humans’? Even if you don’t know our names, you should know that we are a Spiritual Armament Master and a Spiritual Alchemist. Greeting us as Masters should be the basic courtesy, isn’t it!”

“Just you two! Did you think you deserved to be addressed as Masters by our Divine Lieutenant??” The young practitioners almost flew into a rage again.

The Elder coughed slightly and opened his mouth to say, “Both Masters, please accept This Lieutenant’s apology! We’re now under attack by the demon tribe and the light sphere is about to shatter, so there’s no time to waste! This Lieutenant wishes to discuss something with the both of you...”

“Hoho...” The human man sneered and revealed a mocking expression. Huang Yueli asked coldly, “What is it about?”

Emyrean Fox clan’s Elder said, “The demon tribe’s attack is so strong. If we fight against them, we are absolutely not their match. Hence, if we wish to arrive at Blessed City’s human gathering point, the only way is to increase the advancing speed of the light sphere. We have to make sure that we pass through the void space boundary before the light sphere shatters completely and reach Blessed City’s teleportation array’s connection point...”

Speaking to this point, the Elder paused and his gaze swept past Huang Yueli and the other human practitioner. He was anticipating to pique their curiosity, hoping that they would continue to ask.

Whoever knew, the both of them just looked at him coldly without saying a word.

Hence he could only cough and overcome the awkwardness, then continue to talk on his

own.

“You’re not an array master, so you probably don’t know the principle of the teleportation array. This teleportation array speed is related to the number of people inside the light sphere. Although six people isn’t a lot, it would still affect the speed. If there are only four people left, the speed would instantly be raised by 50%! By then, there would be sufficient time to pass through the void space boundary!”

The Empyrean Fox clan’s Elder was so thick-skinned that he voiced out his shameless plan.

At the same time, he looked at Huang Yueli and the others with great expectation and chuckled. “Both of you, do you think... this idea is doable?”

Huang Yueli smiled. “Are you done?”

“Cough cough, I’m done! Both...”

The Empyrean Fox Clan’s elderly words were interrupted by the human man’s sneer.

“Divine Lieutenant, your idea is really ‘great’! I just want to ask, if we take away two people, are these two people going to jump out from the light sphere themselves? The demon tribe is outside right now. If they jump out, will they still be able to survive?” “Ughh... this... about this...”

The Empyrean Fox Clan Elder didn’t think that he would be so direct. So for a moment in time, he had nothing to say to it.

There was no way that he didn’t know that those two people would be attacked by the demon tribe if they were to jump out. Moreover, they could possibly die immediately.

But to him, his clansmen and his own lives were apparently much more valuable than Huang Yueli and the other man.

He totally didn’t care about other people’s life or death at all.

But the human man said it so frankly that it made him feel awkward.

Chapter 2999 Shameless Plan (3)

Just as the Elder kept silent, Huang Yueli’s lips curled and suddenly gave a soft laugh.

“Young buddy, we don’t need to worry if the person who jumps out will be able to survive or not! Since Divine Lieutenant has decided to jump down, he would definitely have a plan to save his skin! I didn’t expect there to be such noble people in this world. He’s willing to sacrifice himself to save other people’s lives!”

Saying that, she showed a touched look at the Empyrean Fox Clan’s Elder.

“Divine Lieutenant, today you’re offered to jump out of the light sphere to save our lives. We will never forget your kindness! When we reach Blessed City, we will definitely spread the word about you and

Empyrean Fox Clan's merits to all of God Realm's practitioners, about your noble sentiments of thinking primarily about others!"

Hearing what Huang Yueli said, the human practitioner next to her couldn't keep it in, and burst out in laughter! "Cough cough, that's right, that's right! All of you are indeed from the ancient god clans. No wonder your moral characters are so noble. We, humans, are indeed humbled. Thank you all of you, we're really very grateful to you!" He also played dumb.

The human man's gaze landed on Huang Yueli, as his interest in her grew deeper.

Originally, his instincts had already told him that this fellow human wasn't as ordinary as he looked. From this incident, he was indeed much more interesting than what he had imagined.

When the Empyrean Fox Clan's Elder heard that, he almost spat out a mouthful of blood!

Empyrean Fox Clan's practitioners had obviously hinted Huang Yueli and the man to sacrifice themselves. However they were too embarrassed to say it outright, hence they didn't manage to tell them immediately. Huang Yueli intentionally twisted the understanding of their meaning, claiming that they were prepared to sacrifice themselves and jump out!

This indebted look was so sincere and her acting skills had simply reached perfection.

She had just passed the buck back to them so it was not impossible for Empyrean Fox Clan's practitioners to hint them to jump down!

Huang Yueli and the man had already made it clear that they were waiting for them to jump!

The scene had turned extremely awkward.

Empyrean Fox Clan's practitioner's face was flushed and he was extremely furious, but he couldn't think of a way to continue with this topic.

He couldn't pull down his face due to his seniority but the younger Empyrean Fox Clan's practitioners didn't have that many misgivings.

The young practitioners beside him wanted to berate these two lowly humans earlier but he was stopped by the Elder.

Now, he could no longer keep his anger in and stepped forward, staring fiercely at Huang Yueli and the human Spiritual Alchemist. "Enough, stop this gibberish! Why are you two human trash putting up an act? You want us to jump down? We are from the noble ancient god clan, why should we jump? If someone is to jump, it should naturally be you two humans!"

Huang Yueli's smile instantly vanished.

Crossing her arms, she said coldly, "We're not idiots, so why would we dig our own graves? Then why don't you jump down yourself? You're having such a beautiful dream, does your mother know about it?"

"You—!!"

She talked back at the Empyrean Fox Clan practitioner and the expression on his face turned ghastly!

“You humans have low abilities and are protected by the god clans, which is why you can survive the demon tribe’s attacks! Now, we’re just asking you to make a little bit of sacrifice, and you’re giving so many excuses! Simply ungrateful!”

The other Empyrean Fox Clan’s practitioner walked up and bragged unblushingly.

Chapter 3000 Shameless Plan (4)

The coldness in Huang Yueli’s eyes grew deeper. “What’s wrong with the human clan? Didn’t the humans fight against the demon tribe, or didn’t they bleed or sacrifice themselves? God clan enjoys countless resources which are the fruits of the humans’ hard work! If it wasn’t for the humans who are feeding you in the lands that you rule, do you think you can concentrate on cultivating? You’re hoping to have countless resources to be supplied so that you can easily advance?”

Huang Yueli’s anger suddenly arose when she heard that shameless speech!

Ever since she arrived at God Realm, she realized that God Realm’s ancient god clans are indeed as powerful as what the legends claimed. But they were also as conceited as they could be!

Although she was also a part of the ancient god clan, she totally could not stand the way they talked or showed contempt towards the humans.

The human man was standing next to her and kept nodding his head, as his eyes were filled with admiration towards Huang Yueli.

But to the Empyrean Fox Clan’s practitioners, it was extremely ear-piercing!

They were used to acting high and mighty, assuming that their lives were much nobler than humans.

Now that they were in danger, they felt that it was these two humans’ glory to sacrifice themselves for them!

Whoever knew that these two punks actually pointed at their noses and were unwilling to coordinate with them!

Thinking of this, the Empyrean Fox Clan’s practitioners tore away their remaining hypocrisy.

The Elder said gloomily, “Don’t bother to haggle with them! The light sphere can’t take it any longer! Humans, today, you have no other choice... but to jump! If you are willing to jump, This Lieutenant can note down your name and give you a title for sacrificing yourselves which would benefit your family. Otherwise, This Lieutenant can only do you a favor and send you off!”

Saying that, he waved his right hand. The remaining three Empyrean Fox Clan’s practitioners swarmed up and unleashed the Profound Energy within them, with a threatening posture.

It was apparent that if Huang Yueli and the man dared to say “no”, they intended to use brute force to coerce the two of them to comply.

Huang Yueli squinted her eyes and stood rooted to the ground. There weren’t any flustered emotions within her at all.

From the moment that Elder opened his mouth, she had already sensed that there would be no way to avoid today's battle!

Under a life-threatening situation, Empyrean Fox Clan's practitioners would absolutely shred all pretenses of cordiality.

But facing these four practitioners, combining herself and the human Spiritual Alchemist beside her, the former's total combat power was much higher than theirs.

The Elder was in the Heart Profound Realm end-phase and the three younger practitioners were in the Dream Profound Realm mid-phase.

Based on cultivation alone, none of them were weaker than Huang Yueli.

Whereas on Huang Yueli's side...

She subconsciously swept a glance at that human Spiritual Alchemist.

This person seemed as though he was only in the tenth stage realm, or at most, he was in the Dream Profound Realm early-phase.

Combining their powers, they were totally not the four Empyrean Fox Clan's practitioners match!

Just at this moment, the light sphere started vibrating once again. Moreover, the tremors grew stronger, simply no different from an earthquake.

The demon tribe had evidently realized that the light sphere was on the brink of collapse, so their attacks became even more rampant.

Bursts of demonic power crashed against the light sphere continuously.

The small light sphere was like a small boat in a rampant thunderstorm, which might face the danger of capsizing at any moment.

There were six people in the light sphere, and they were caught off-guard. All of them lost their balance and rolled onto the ground. Even the Heart Profound Realm elderly man wasn't spared.

Moreover, as the ground kept swaying, they weren't able to climb up after they fell.
