

Weaponsmith 3001

Chapter 3001 Who Will Die at the End (1)

Huang Yueli and the human Spiritual Alchemist stood together. So when they fell, they also rolled in the same direction.

Huang Yueli was barely recovering from the dizziness and trying her best to stand up.

Just then, the human Spiritual Alchemist came tumbling from a distance away and crashed onto her.

“Ouch!”

“Ouch!”

The two of them cried out.

Immediately following that, the Spiritual Alchemist regained his senses and hurriedly apologized, “I’m sorry, I’m sorry! Did I knock into you just now? Are you hurt anywhere?”

Huang Yueli used her hand to cover her nose that had turned red from the crash. She wanted to weep but couldn’t.

This fellow, he was a calamity!

Originally, she was almost about to get up. But after he crashed into her, she fell to the ground again. All the bones in her body felt as though it was broken!

“You... can you stay further away from me!” Huang Yueli rolled her eyes at him.

The human Spiritual Alchemist looked apologetic, and he spoke in a low voice, “I’m really sorry for that! But I can’t stay too far away from you. We’re the only two humans here! If we don’t stand on the same line, then we’re dead for sure!”

Huang Yueli snorted coldly and said, “We’re so unlucky exactly because of a big mouth like you!”

Actually, Huang Yueli knew that the reason for this situation was mainly because of those shameless Emyrean Fox Clan’s practitioners, and it had nothing to do with this human Spiritual Alchemist at all.

But this fellow looked like a frivolous playboy. Furthermore, he kept swaggering in front of her, which made her feel that he was an eyesore!

The human Spiritual Alchemist looked melancholic as well. “I... I don’t want to be a big mouth as well! But unfortunately, I am very accurate in divination! Especially so for such unlucky matters! I... I’m rather helpless over this as well!”

Huang Yueli was stunned momentarily, and once again, she sensed a strange feeling when this man talked.

But she couldn’t put a finger to what exactly was wrong. Moreover, there wasn’t any time for her to think through this carefully. Huang Yueli turned her head and swept a glance at those four Emyrean

Fox Clan's practitioners who were still crashing into each other on the ground and struggling to get up. Suddenly, an idea flashed past her mind!

Her eyeballs rolled and she asked, "Hey, big mouth, are you resigned to being schemed by those four stinky foxes? Or do you want to live?"

"Hey, who are you calling a big mouth!!"

The human Spiritual Alchemist retorted unwillingly.

Huang Yueli said, "That doesn't matter. It's just a namesake. More importantly... do you want to die?"

The human Spiritual Alchemist stared at her. "Isn't that obvious? Who would be willing to die like this if there's a chance of survival? Not to mention being schemed by such sanctimonious things like them! I just haven't thought of a way to escape."

Huang Yueli's lips curled upwards. "If I were to say that I have a plan which could possibly let us escape, and at the same time scheme these four Empyrean Fox Clan fellas. But if the plan fails, there is a 99% chance of us dying! Are you willing to coordinate with me and bet on this chance?"

The human Spiritual Alchemist's eyes widened, and he stared at Huang Yueli in disbelief.

"Please don't joke with me in this kind of situation! You... are you certain you have an idea?"

Chapter 3002 Who Will Die at the End (2)

"Of course! This bunch of shameless things actually wanted to scheme against me! Too bad for them, we don't know who will die at the end!" A cold smirk appeared on Huang Yueli's lips.

The human Spiritual Alchemist was shocked and stunned for a moment before he beamed as well.

"In this case, the two of us are thinking of the same thing!"

Huang Yueli's brows rose. "What are you thinking of?" The human Spiritual Alchemist stole a glance at the four Empyrean Fox Clan practitioners from his peripheral vision. "They are so anxious to leave us behind, isn't it because they to make use of us to lure the demon tribe's attacks? Since they are so intelligent, then we can totally learn from them as well! If the six of us fall, I wonder who will the demon tribe attack first?"

Hearing that, Huang Yueli was rather surprised.

She felt that this Spiritual Alchemist was probably not an ordinary person. But now, seeing him act like this still left her in shock.

The words that he said earlier were exactly what Huang Yueli wanted to say.

If she and the Spiritual Alchemist jumped out of the light sphere, the two of them would definitely become cannon fodder.

But if the six of them fell together, there was a 99% chance that the demon tribe would attack those four "extremely powerful" god clan practitioners!

After all, they had military ranks which were reflected on their shoulders, so they must have been tainted with plenty of demon tribe's blood.

However, it was different for Huang Yueli and the human Spiritual Alchemist.

The two of them looked as though their cultivation was only around the tenth stage realm. In the war with the demon tribe, their existence totally wouldn't attract anyone's interest, and absolutely would not be on the priority list to be killed.

If they were a little more quick-witted and took the opportunity to hide carefully while the Emyrean Fox Clan's practitioners were being attacked, they might be able to get off unscathed!

Huang Yueli also smiled. "Great minds think alike. I like to work with intelligent people! Since that's so, then let's... cooperate well!"

She had just finished her sentence when a burst of Profound Energy flew past her right side.

Huang Yueli slanted her head to dodge and the Profound Energy crashed on the ground, creating an evident pit.

The original tottering light sphere swayed even more violently after the internal portion suffered such an attack.

"Two human brats, since you don't want to take up our kind offer, don't blame us for being rude! For disobeying military orders and not cooperating with us, according to the regulations in God Realm, it is punishable by death! The few of us will execute this!"

"Damn, you're really very shameless!" The human Spiritual Alchemist couldn't help but silently ridicule.

Huang Yueli's lips tugged. "Alright, let's not think so much. Let's... take action first! Take care of yourself and don't let the Emyrean Fox Clan or the demon tribe kill you first!"

"Don't worry, I'm not that weak!" Huang Yueli didn't believe in this but she couldn't even take care of herself right now, what more to mind about other people's life or death.

Amid the continuous tremors in the light sphere, it started to descend slowly in the process, and the result would definitely end up shattering

The four Emyrean Fox Clan's practitioners became even more irritated. Since they had already fallen out, they went all out to attack Huang Yueli and the others. They decided that they had to chase them off the light sphere first!

Huang Yueli couldn't care to be exposed as she worked up her best body movement, the Agility Dance Steps. Like a snake, she shifted to the left and right, evading the attacks from the Emyrean Fox Clan.

During one of the attack's intervals, she shot out and mustered all the Profound Energy she had and struck out with all her might!

Chapter 3003 Who Will Die at the End (3)

However, Huang Yueli's attack wasn't directed at those four Emyrean Fox Clan's practitioners. All her Profound Energy struck heavily on the surface of the light sphere!

Not only her, but the human Spiritual Alchemist's attack target was also the light sphere!

Both of them struck out abruptly, and there was no need to talk about Huang Yueli's ability. However, the Spiritual Alchemist's strong attack was out of her expectations. From the looks of it, it seemed that there was no difference between the two of them!

"Looks like this fellow indeed isn't as simple as he looks..." This thought flashed past Huang Yueli's mind.

While the two of them were attacking, the demon tribe's attacks on the exterior showed no sign of weakening.

Under both internal and external attacks, an evident crack finally appeared on the light sphere...

The Empyrean Fox Clan's practitioners didn't expect these two humans to disregard their own safety and risked everything they had to attack the light sphere while defending against them!

This light sphere was the only barrier they had to protect them!

"Shouldn't we be risking everything we have to protect the light sphere? How could anyone even try to attack it?"

For an instance, the four men from the Empyrean Fox Clan were still in a daze.

"Oh no, these two humans are simply too sinister! They are trying to scheme on us and use us to be their shield!"

Old dogs hunted the best. The elderly leader was the first to react.

The Empyrean Fox Clan's practitioners' expressions changed and they finally understood what was going on.

"Damn it! How could there be such shameless people!"

"Don't they feel shameful?"

"All of us inside the light sphere are comrades. But someone actually tried to use their comrades as a shield! They're simply too despicable!"

The Empyrean Fox Clan's practitioners all started to curse, and at the same time, they attacked Huang Yueli and the other man crazily to stop them.

Alas, it was too late for them to understand it

now!

A crack appeared on the light sphere after Huang Yueli, and the man struck it hard.

Within a blink of an eye, the entire light sphere was filled with big and small cracks, like an egg that was about to fall apart.

Immediately following that, a loud "bang" was heard. The light sphere gave off an extremely eye-piercing glare. Following that, it shattered completely. "Damn it!"

"Heavens!!!"

Amid the screams and shrills, everyone fell from mid-air!

Huang Yueli also fell, but there wasn't any flustered look on her face. On the contrary, her lips curled into a smile when she saw the horrified looks on those Emyrean Fox Clan's practitioners.

"You guys are the shameless ones first, so don't blame me for being vicious! To be frank, I'm just merely responding in kind! I wish you good luck and farewell!"

Things happened exactly in the way that Huang Yueli and the Spiritual Alchemist had expected.

After the six of them fell, the demon tribe immediately attacked the Emyrean Fox Clan's elderly leader.

His cultivation wasn't weak at all. He was in the Heart Profound Realm end-phase and was regarded as a top exponent in God Realm.

Under the demon tribe's siege, he fought and resisted with all his might. He displayed various kinds of Profound Skills and threw out all his Spirit Armaments one after another. So his fight lasted for a relatively long time.

But the demon tribe took advantage in terms of numbers. Moreover, their team was not lacking in several high leveled Earth Devil rank top experts.

Both parties were in a stalemate for a while, and the Emyrean Fox Clan's Elder's Profound Energy started to deplete.

Chapter 3004 Who Will Die at the End (4)

Lastly, he fell right into the demon tribe's battle formation. Giving off a miserable cry, he was completely swallowed by the demonic Qi.

The amount of time that the Emyrean Fox Clan's Elder persisted was must longer than what Huang Yueli and the Spiritual Alchemist had gauged.

It was exactly because of this which helped the other Emyrean Fox Clan's practitioners gain quite a bit of time.

It was only after the demon tribe had killed that Elder before they turned towards their second targets – the remaining three Emyrean Fox Clan's practitioners.

At this moment, the three of them had already used all their means to flee away into three different directions!

The Emyrean Fox Clan's underlying attribute was wind, so changing directions in mid-air wasn't difficult for them at all.

The demon tribe was delayed by some time from the start and adding on that the three of them had split ways, it was already too late to catch up to them.

Huang Yueli saw this. Based on the situation, at least two out of the three should be able to escape.

"They're really lucky..." Huang Yueli mumbled silently.

y

The three men from the Empyrean Fox Clan were able to escape so smoothly, so there was no need to say for Huang Yueli and the human Spiritual Alchemist.

The demon tribe practitioners couldn't be bothered about the two of them at all.

This gave them ample time to escape. Huang Yueli's main attribute wasn't wind attribute, but she had already gained her fire wings when she was in Soaring Heavens Continent. Although she could not fly for a long period, borrowing the fire attributed energy would allow her to temporarily levitate in mid-air and could also achieve the speed and reactive force of landing easily. So she observed the surrounding situation unhurriedly, looking for a suitable place to land.

At this moment, she totally could not be bothered about the situation of that Spiritual Alchemist.

The two of them originally didn't know each other. They were even considered as acquaintances, at most, they were just temporary partners.

Now that their cooperation had come to an end, of course, they would go in different directions!

Huang Yueli observed for a moment longer and originally decided to descend in the northern direction.

Based on her estimate, Blessed City should be on the north of the place where they fell.

Alas, the best laid out plan could also go wrong. Just as she was about to reach the ground, her vision suddenly turned black, and she realized that she could not see clearly at all!

"This... what situation is this?" Huang Yueli was so shocked that she broke out in a sweat!

At this moment, Little Wang Cai's voice sounded in her soul trace. "Female Devil, this feeling, I... I seem to have some impression..."

Huang Yueli was totally lost and quickly asked, "What feeling? What impression do you have?"

Little Wang Cai seemed as though it was recollecting something and said intermittently, "This... I feel that... this aura, I seem to have smelled it somewhere before... hmm... that... this..."

Huang Yueli listened to Little Wang Cai's hemming and hawing and almost spat out blood!

She was enveloped in this black qi. Not only did her vision not come back, but even her body was also slowly turning weak. She wasn't about to mobilize any of her Profound Energy at all...

Next would be her soul trace being affected, and she would become retarded...

"Oh, right! This is one kind of miasma in the God Realm! It would often appear in God Realm's swamps. If one smelled too much of it, it would affect the practitioner's five senses..."

Chapter 3005 Have Never Succeeded Before (1)

"If one continues to take it in large amounts, it might even numb a practitioner's soul trace. Perhaps, one might even die from it..."

Little Wang Cai's flustered voice recollected in Huang Yueli's mind.

At this moment, Huang Yueli only wanted to grab that little fellow out and shake him on the ground a hundred times, to hear the water sound in his head!

“What kind of timing was it now? Why didn’t it tell her this earlier!”

“Now, everything is too late!”

Huang Yueli had completely lost her consciousness. Her body went limp and she fell straight towards the ground...

Empyrean Fox Continent, Blessed City.

Li Moying’s flying ship had already reached the skies above the Blessed City.

“Young Master, Blessed City is a military town and no one is allowed to pass through the sky with an aviation treasure armament. Otherwise, they are assumed to be from the demon tribe, and would be attacked without any disparity...” Li Tian Yi carefully reminded.

Li Moying nodded upon hearing that. “We will descend here and enter the city by foot. Also, remind everyone to keep a low profile after they enter the city. We’re only here to pick her up, so don’t clash with the soldiers who are stationed in Blessed City.”

Li Tian Yi couldn’t help but breathe a sigh of relief upon hearing that. He was slightly worried and burned with anxiety that Li Moying might disregard Blessed City’s regulations and directly rush in!

Ever since Li Moying found out about Huang Yueli’s disappearance, he had been unsettled, and also do things irrationally. From the looks of it, it seemed that Li Tian Yi had been thinking too much. His Young Master was still able to tell the weight of the matter.

In reality, Li Moying had already resumed his usual calm and composed demeanor.

After all, he already knew about his Li’er’s whereabouts. Moreover, he felt that he would be able to pick her up from Blessed City!

As long as his Li’er was safe and sound, nothing could shake up his determination. So he would naturally become the normal Li Moying

His mood even turned especially good when he thought of becoming reunited with his wife, whom he had separated for more than a year.

The flying ship landed in the neighboring village around Blessed City. Bringing a few guards, Li Moying entered Blessed City.

They were from the Cloudy Qilin clan and they had clean records so the process of entering the city was extremely smooth.

But Li Moying didn’t go to Cloudy Qilin clan’s military convergence in Blessed City. Instead, he went to an inn and settled down there in an extremely low-profile manner.

As the speed of the flying ship was very fast, it arrived one day in advance.

So he only needed to wait for another two days and Huang Yueli would arrive in Blessed City.

While waiting for her arrival, Li Moying made several preparations. He ordered a tailor-made flowing dress and even bought Huang Yueli's favorite fruit, preparing to give his wife a surprise!

Two days later, Li Moying led his men over to the teleportation array early in the morning.

This place was military grounds so Li Moying didn't dare to go too near. Hence he could only wait from afar.

Whoever knew that they had been waiting from morning to afternoon and after mid-afternoon. But they didn't see the teleportation array lighting up.

When it was near evening time, a strange light suddenly appeared and immediately following that, bursts of strong light kept flashing. The explosive sounds also kept ringing.

Even the grounds in Blessed City also started to tremble!

"What's going on? What happened?" Li Moying looked at the sky and the explosive ray was extremely eye-piercing. It had completely covered the setting sun's glow!

For some unknown reason, Li Moying suddenly had a bad premonition!

Just at this moment, the soldiers around the teleportation array suddenly ran towards the south!

Chapter 3006 Have Never Succeeded Before (2)

Li Tian Yi and the others realized that something was amiss, so they hurriedly ran over and stopped one of the soldiers to ask.

"May I ask what happened earlier? Why was there an explosion in the skies above Blessed City?"

The soldier was evidently very anxious, and his face was filled with impatience. When he saw the few men dressed luxuriously and moreover as they were all part of the ancient god clans, he merely gave a brief answer. "There's trouble! The teleportation node in Blessed City had been intercepted and attacked by the demon tribe! Those few important people from Empyrean Fox Clans were supposed to arrive today. But they fell from mid-air and are now missing when they were attacked by the demon tribe. We're rushing over there now! Alright, if there's nothing much, you commoners shouldn't be running about. If the demon tribe charges into the city, the streets will be very unsafe!"

He swiftly finished what he had to say and immediately turned and ran off to catch up with his troop.

Li Tian Yi's heart thumped hard as he turned to take a look at his Young Master.

As expected, Li Moying's expression instantly went pale and the bitter glint in his eyes abruptly appeared! That gentle and anticipative gaze which he showed while waiting for Huang Yueli to arrive had completely disappeared.

He ran upward and personally stopped the departing soldier and asked in a gloomy voice, "The teleportation node had been attacked? Where did those missing people teleport from?"

"This is a military secret, why should I tell you? I'm on my way to execute my line of duty, Quickly make..."

The soldier spoke frustratedly in the middle of his sentence and abruptly stopped.

The young man dressed in Cloudy Qilin Clan's clothing gave off an extremely powerful aura!

Even though he was a veteran in war, the man standing in front made him terrified. Even his legs had gone soft.

"I'll ask you one more time. Which city did those missing people teleport from?"

Li Moying's voice was considered stable, but Li Tian Yi and the other guards who were close to him could tell that he was on the verge of losing control.

If this soldier still didn't explain it clearly, he would probably be swallowed by Li Moying's fury! Even though this military ground was Blessed City, and if Li Moying were to kill the active-duty soldiers, it would be a very troublesome matter. But Li Tian Yi and the others didn't dare to step up to stop him at all!

Only they knew how terrifying Li Moying would become when things were related to Huang Yueli!

They didn't want to die for some absurd reason and could only pray silently that the human soldier would understand the situation and not dig his own grave...

Luckily, the human soldier wasn't slow-witted, and he felt a great wave of crisis. So it led him to make a wise decision.

He lowered his head and reported softly, "This... I'm not too sure. There are a few batches of practitioners who had been attacked. I heard from our team leader that there are some practitioners from the Great Whale Island of the Veracious Wyvern Continent, and some from the White Tiger Continent's Clear Moon City. Oh, and there's also someone from Sacred Phoenix Continent's Flame Square City..."

When he mentioned "Flame Square City", Li Tian Yi knew that things were going to be terrible.

As expected, when Li Moying heard that, his originally suppressed rage and anxiety instantly exploded.

His right arm lifted, and a burst of Profound Energy burst out!

A loud "boom" and an eye-piercing electric current crashed on the ground. A deep pit instantly appeared on the streets!

Luckily, there were very few pedestrians who were on the streets. The soldiers had also left, so no one was dead or injured.

Chapter 3007 Have Never Succeeded Before (3)

But that human soldier was scared out of his wits from seeing this.

"This.... who on earth is this person? Why is his power so abnormally strong?"

"He looks at most like he's in his twenties. That ageless handsome face makes him look like a Young Master who relies on his family."

"How would anyone know that he had such astonishing might from such a casual move..."

“If I had stood slightly to the side, I might be dead right now.”

Thinking of this, the human soldier’s back was drenched in cold sweat and a moment of fear in his heart arose.

Luckily, he was smart and made a wise decision to not go against this Cloudy Qilin Clan’s Young Master...

Li Moying vented his frustration recklessly and the guards saw his extremely cold gaze, then they felt fearful and worried.

Li Tian Yi braced himself and walked up. “Young Master, you... you need not be too anxious. We can’t be sure of anything right now. It has not been confirmed that Young Miss Huang is definitely in the batch of practitioners that have teleported from Flame Square City! Moreover, Young Miss Huang’s innate talent is so high. Even if she met with danger, she would probably have a way to escape unscathed...”

ve

He racked his brains to say some comforting words.

But Li Tian Yi knew how nonsensical his words sounded!

It would take several days to activate a teleportation array.

It would be strange if Huang Yueli was not among those practitioners who had teleported from Flame Square City!

In reality, Li Moying totally wasn’t paying attention to what Li Tian Yi was saying. He stared coldly at the human soldier and continued to interrogate him, “Where are you going to save them? Bring me there immediately!”

The human soldier was scared out of his wits and didn’t dare say anything much. He hurriedly nodded in response and ran in the direction where the other soldiers had headed.

Li Moying turned and followed tightly behind

him.

Li Tian Yi and the others exchanged glances and did not dare say anything else. All of them had grave expressions on their faces and silently followed them.

The human soldier ran madly. As he ran, sweat drenched his entire back.

The reason for that was because Li Moying was running beside him in an unhurried manner. He would also occasionally shoot a disdainful gaze at him, as though he was slighting him for running too slowly!

He swore that within his team, he had always been placed in charge of surveillance. His body movement was the fastest among all the team members. But as compared to Li Moying, this speed was no different from a tortoise crawling.

Li Moying was burning with anxiety, and he couldn’t wish for anything more than to install a pair of wings and fly to the destination.

But he also knew that even if he killed this human practitioner, the other party was not able to run any faster.

Hence, he could only force himself to endure.

The human practitioner felt extremely anxious.

He suffered an extremely huge psychological pressure with Li Moying staring so hard at him!

From the anxious look that this Cloudy Qilin clan practitioner was showing, he guessed that his relatives or friends should be among the practitioners who teleported from Flame Square City. That was why this Young Master was so anxious, forcing him to lead them to save those practitioners!

But this wasn't the first time the human practitioner had executed this kind of mission. He knew clearly that even if Li Moying managed to reach the rescue site, he would most likely be disappointed.

The demon tribe had always been vicious and brutal. Since they've attacked the teleportation light sphere, they would surely kill all the practitioners who fell from it, not letting anyone go! In reality, it was just a formality for them to rush over to save them.

Chapter 3008 Have Never Succeeded Before (4)

There had never been a practitioner whom they had successfully rescued before this!

Li Moying and the others followed the practitioner for a long time and finally reached the location where the light sphere had dropped. The location of the teleportation light sphere was generally not confirmed. As for this time, the light sphere in which Huang Yueli and the others were in was found to be at the top of a forest outside the southern walls of Blessed City. At this moment, the entire region was shrouded in demonic qi. The air radiated a dangerous and suppressive aura, making one unable to breathe.

When the human soldier just arrived, he was berated badly by the team leader.

"Where did you run off to? How dare you drop out of the team in the middle of a mission? Can you be more responsible? If I find that you are not abiding by the military order, don't blame me for punishing you according to the martial law!"

The human soldier hurriedly apologized. He wanted to cry but had no tears

Just at this moment, Li Moying had already dashed in. With a grave expression, he asked, "Which place did the practitioners from Flame Square City fall? How is the progress of the search? How many people have you found?"

The team leader was stunned to see an unfamiliar figure appearing.

For an instance, he was struck in awe by Li Moying's high and mighty aura. He thought that an important figure from the military had arrived, and he felt extremely tense.

When he took a look, he discovered that Li Moying and his guards did not wear any shoulder ranks, and they were not people from the military at all.

In this way, the team leader no longer acted courteously. He frowned and questioned back, "Who are you guys? We are soldiers who are executing our military orders. Outsiders have no right to interfere! So what if you're from one of the god clans?".

Li Moying's brows twitched. Before he could say anything, Li Tian Yi had already shot up like an arrow, placing his dagger on the team leader's neck.

"Stop with your gibberish. Is our Young Master's name something that you can ask? Answer the questions if you want to live! How's the rescue situation going on? Where are those people who you have saved? Quickly speak! If the rescue operation is delayed, we have plenty of ways to deal with you!"

Li Tian Yi made his move first because he was worried that Li Moying would really go on a killing spree while he was anxious. If he could get more information out of him, Li Moying wouldn't need to do it personally and he need not worry about the latter losing control.

The team leader didn't expect these few young god clan disciples to be so savage. Moreover, their abilities were so strong. As a team leader, his ability among the human soldiers was already not bad. But he wasn't even able to take one move by a guard! Li Tian Yi saw his hesitation and pushed his dagger forward, making a slight cut on his neck.

The team leader shivered. "You... Who are you guys? What... what on earth do you want? I'm telling you, even if I die, I will not betray the humans!"

Soldiers who had experienced the war had their bottom line. They would rather die than betray the Human Race.

Li Tian Er saw that and hurriedly stopped Li Tian Yi. "Alright, alright, we didn't ask you to betray the human race! A friend of ours is among the practitioners who teleported from Flame Square City. He has been attacked by the demon tribe so our Young Master is especially anxious. That's why he was a little too rash. I'm really sorry... If it's possible, can you please tell me what is the progress of the rescue mission?"

Li Tian Er was rather polite but Li Tian Yi's dagger was still placed on his neck.

Chapter 3009 Have Never Succeeded Before (5)

One was being the good guy while the other was the bad guy. The team leader felt that his life was being threatened. Then he thought that it wasn't a big secret so he chose to tell them.

"You... don't think too much about this! The rescue mission is just a formality. The teleportation had been interrupted by the demon tribe's attack so the outcome would end up in death. There had never been a precedent where anyone could escape alive..."

"What did you say??"

Hearing that, Li Moying's last rationality vanished instantly!

He stared at the team leader and asked coldly, "So to speak, you guys have no idea how to save them?"

"Save? How do we save them? The demon tribe attacked the teleportation light sphere. They only need less than one hour to shatter it. But it takes at least six to eight hours to reach here. By then, all of them

would have died! Even if they weren't dead, they would be captured by the demon tribe to become ingredients and refined as blood pills!"

Hearing such irresponsible words, not to mention Li Moying, even Li Tian Yi and the others couldn't bear to hear it any longer.

Li Tian Yi retorted, "Then why did you guys rush over since you have no intention to save them!"

The team leader looked at him curiously, seemingly not able to understand why he would be so angry.

"This is an unspoken rule in the military. After the demon tribe had attacked the light sphere, there might be some slightly weak devil soldiers who ran too slowly and did not manage to leave in time. If we can kill those devil soldiers and hand in their blood essence, then it would be counted as our military merit!"

"It's usually not easy to earn so many military credits!"

When the guards heard that, all of them were furious!

Their practitioners had met with life-threatening danger but they were thinking of ways to save them. Instead, they were all concerned with their military credits!

Moreover, from the looks of this team leader, it seemed that he was already used to this. He didn't know what he had done wrong.

Seeing his rightful look, the guards wanted to punch him.

They were just thinking, but Li Moying had already struck the team leader!

A burst of strong Profound Energy hit the human team leader directly, causing him to fly out!

"You... oof-!!!"

Before the human team leader had realized what was going on, he had already been thrown into mid-air, spitting out blood in the process. When he landed, he created a deep pit on the ground and fainted.

"Tea... Team Leader!!"

"You guys, how dare... how dare you hit a military officer!"

"You must think you are fearless!"

The human soldiers by the side were completely stunned when they saw this.

However, they might be crying out indignantly for their team leader but none of them dared to dash up to take revenge.

Especially when Li Moying's cold gaze swept past them, all the soldiers felt an icy cold feeling on their backs. They instantly shut their mouths, not daring to say a word more.

Li Moying's thin lips lifted. "All of you... go search the surroundings right now! You must find those survivors before dawn! Whoever dares to slack, remember that your team leader is your role model!"

Someone immediately objected after he said that.

“What? You.. you don’t even have any rank. Why should we listen to you?”

“That’s right, what authority do you have to order us around?”

“Moreover, the sky is already pitch-black now! Isn’t it too dangerous for us to enter the warzone to search for them?”

Chapter 3010 Have Never Succeeded Before (6)

Li Moying’s brows rose. “Why? No one’s willing to go?”

“Of...”

The soldier who objected merely said one word and immediately shivered with he met with Li Moying’s murderous cold gaze!

This Cloudy Qilin Clan’s young practitioner was simply... too terrifying!

He was still so young and had no military rank, but the aura and suppression coming from him were not much different from the allied armies’ Divine General.

“Looks like no one else has any objections... Then hurry on and go search for survivors?!”

Li Moying commanded and no one dared to object. They could only comply with his command and head towards the wilderness in the outskirts. Li Tian Li split up the soldiers into several small groups and delegated a guard to oversee each group. He also allocated different directions for them to search.

After the soldiers went their separate ways, Li Moying could no longer suppress his anxiety. He disappeared with a flash and personally walked into the wilderness to search for her.

The topography around this area was rather complicated, and there were various uneven hills. There was a dense forest in the surroundings and the trees’ leaves covered the skies, which made the bright day look extremely dark and dim in the daytime. During the nighttime, one could not even see their own hands when it was outstretched.

Li Moying summoned several balls of fire encircling himself and started to search the area.

His speed was extremely swift, and he already covered all the zone around the forest.

But he wasn’t able to find any traces of Huang Yueli even when dawn started to break.

The guards led the human soldiers back and all of them drooped with despair, not daring to say a single word.

Li Moying understood what happened when he saw their expressions. “Didn’t manage to find anyone?”

“Ughh, ye... yes, Young Master. We’ve already searched the surroundings but...” Li Tian Yi braced himself and said.

“Are you certain that you have checked carefully? How could there be no clues at all?” Li Moying asked, frowning. Li Tian Yi hesitated and carefully explained, “This Subordinate questioned these soldiers earlier. It was rumored that the teleportation light sphere dropped from a very high position and Young Miss Huang might have fallen a distance away from here. She might also have been pursued by the

demon tribe so there is a 99% chance that she might be forced to run towards the warzone or the area where the demon tribe is administering...”

While Li Tian Yi was searching, he heard the human soldiers’ explanation and more or less understood the reason for them to not go save the survivors.

The possibility of those practitioners surviving, who had been attacked and fell, was already very low. Moreover, they might have escaped to the warzone. No one would make their subordinates take such a big risk to go to the frontlines to search and rescue. This deal was just not viable.

However, to Li Moying, this was not a good enough reason.

His vision instantly shot towards the South.

As a god grade genius who had been fully nurtured by the Cloudy Qilin Clan, he naturally understood how dangerous it was on the battlefield between them and the demon tribe.

It was exactly because of this which instantly made his entire body’s blood freeze when he heard of this news!

His Li’er, she actually fell in such a place!

Although Huang Yueli was also a god grade genius, the number of years that she had cultivated was still very little. If she met with top experts from the demon tribe, she would probably not be their match. What was worse was that her innate talent was so outstanding. If she were to fall into the clutches of the demon tribe, she would definitely be seen as a valuable medicinal ingredient.

By then, her fate would be even more miserable than ordinary practitioners!
