Chapter 3011 Who Do You Think You Are? (1)

Li Moying narrowed his eyes slightly and said, "Tian Yi, Tian Er, bring the men and follow me!"

Saying that, he turned and walked towards the warzone.

The guards hurriedly responded without any hesitation and followed after Li Moying.

The human soldiers were left far behind.

They didn't even dare to breathe loudly. Only after Li Moying and the other's figures had disappeared in front of them did they heave a sigh of relief.

There were a number of them who directly slumped on the ground. Li Moying's extremely powerful Profound Energy suppression earlier had caused a huge impact on their soul traces.

"This pestilence god has finally left! He's... he's too terrifying! He looks like he's only in his early twenties, how could he be so strong!"

"How do you know that he's really that young? Having such ability in his early twenties? Even if he is a part of the ancient god clans, he shouldn't have such ridiculous innate talent! I think he must be an old monster who possesses the secret of looking young."

"That's logical. I wonder what's the relationship between those practitioners who had been attacked by the demon tribe and this old monster? He's so anxious! It's just our bad luck for us to fall into his clutches!"

"Who knows? I only know that this fellow wants to head into the warzone to look for them, and he will definitely run into bad luck! The Divine Lieutenant who is holding the fort at the base is Jing Shaoyuan from the White Tiger Clan! Lieutenant Jing is very strict in military management and has a fiery temper. This fellow wants to barge into Lieutenant Jing's stronghold, he would definitely be punished by martial law. Perhaps, he might even be executed!"

The human soldiers all became happy when they thought of this.

"That's right, it's Lieutenant Jing's stronghold up ahead! That fellow's ability might be strong, but who can match up to Lieutenant Jing? Lieutenant Jing is one of the top genius practitioners among the younger generations in the ancient god clans!"

"This arrogant and conceited fellow should be taught a lesson! Let's just wait to see him fall into bad luck!"

At this moment, Li Moying and the others had already entered the warzone.

A large campsite appeared in front of them, and human and god clan soldiers were patrolling the area.

Li Moying took a look from afar and instructed everyone to go round the campsite.

They were merely entering the warzone to save Huang Yueli.

He believed that the Divine Lieutenant here would not be willing to lend a hand to save her. Since that was so, he need not waste time coming into contact with them. In this way, they would also skip out on causing unnecessary problems.

Li Moying's plan might be good, but the defense line around this place was much longer than what they had imagined.

They went around for a very long time but were still without the boundary where soldiers were patrolling the area. "Forget it, let's secretly sneak in." Seeing that they might go further away from the place where Huang Yueli fell if they were to proceed to go on a roundabout, Li Moying gradually lost his patience.

Li Moying and his guards had relatively good cultivations and if they were careful enough, it wasn't difficult to go round the allied armies' defense line.

The few of them spotted a gap and took the opportunity to run through the campsite while the patrolling soldiers were not paying attention.

Their movements were very swift and light-footed, totally not attracting any soldiers' attention at all.

However, just as they were prepared to proceed with penetrating the warzone, a stern explosive voice suddenly boomed from their backs.

"Stop right there! Who's that! What are you trying to do so sneakily? Are you spies from the demon tribe??"

Following that voice, a burst of explosive metal attributed Profound Energy spiraled towards the group!

Chapter 3012 Who Do You Think You Are? (2)

This person's move was extremely swift, and his explosive power was shockingly strong!

A dark, cold glint flashed past Li Moying's eyes. Immediately following that, his body swayed slightly, and he was already standing in front of the guards to block off the other party's attack personally.

A bolt of electric current descended from the sky, gathered in his palm, and he threw it out, crashing with the metal attributed energy!

Thunder attribute and metal attribute were from the same source. But metal attribute's origin came from the ground whereas thunder attribute came from the sky.

Both were powerful attacks that were explosive and strong

W

The might of the explosion that was triggered was shocking. It seemed as though the entire sky was going to be swallowed by the bright light.

Even a god clan practitioner like Li Tian Yi with decent cultivation was also thrown back by several steps before stabilizing his footing.

After the bright light receded, a red-haired, attractive man appeared in front of them. He had deep features, and he had sunken eyes. Compared to other people, the contour of his face looked more three-dimensional.

His bone age looked like he was under 30 years old. Among the god clan practitioners, this age was considered as a youngster.

Li Moying looked at him and frowned slightly.

This person's ability was so strong and he had such special looks. He vaguely remembered that he had read about a God Realm genius back when he was in Cloudy Qilin Clan.

If it was indeed this fellow, then things would get a little troublesome...

The red-haired man struck out aggressively and he assumed that he would be able to deal heavy injuries to these few spies. Whoever knew that his attack was blocked by someone. Moreover, the other party was not injured at all!

He was even more astounded than Li Moying. He kept sizing him up and said in an unfriendly tone. "Who are you people? This is the military grounds where the Human Race, god clan's allied armies, and the demon tribe engage in battle! Yesterday, this zone had been attacked by the demon tribe and now you guys appeared at this place. What are you intending to do?"

If it was any other ordinary humans, the red-haired man would have ordered the entire army to attack them.

But Li Moying and the others were from the Cloudy Qilin Clan.

Cloudy Qilin Clan was a faction that contributed the most merits and achievements in fighting against the demon tribe, and they were the ones who had deep feuds with them. It was rather unimaginable to think that the clansmen from the Cloudy Qilin Clan would be the demon tribe's spies.

Li Moying knew that he was at fault so he cupped his fists and said, "Your Excellency, might you be Divine Lieutenant Jing Yuanshao from the White Tiger Clan?"

Someone had recognized Jing Shaoyuan but he wasn't surprised at all. He had always been famous in God Realm and was one of the most popular genius practitioners among the younger generations. Multiple god clan juniors treated him as their role model.

He nodded his head and said, "That's right, I'm Jing. You're from the Cloudy Qilin Clan, your name is?"

He just asked the question and suddenly thought of something. He stared at Li Moying and suddenly his gaze turned even more profound.

"From your bone age, you seem to be in your twenties. But your ability is already so extraordinary. Could... the rumors that are spreading in God Realm recently be true? Cloudy Qilin Clan really found a god grade genius who ascended from the Lower Realm?" Li Moying replied indifferently, "My name is Li Moying." "Li Moying..." Jing Yuanshao slowly repeated his name, deliberately saying it very slowly as though he was trying to remember this name, "I guess I should regard you with respect!"

Hearing that, Li Moying's gaze turned icy and the coldness in his gaze abruptly increased! Li Tian Yi couldn't bear it and jumped up. "Lieutenant Jing, our clans had always never crossed paths. Isn't it too disrespectful for you to speak to our Young Master in this manner?!"

Chapter 3013 Who Do You Think You Are? (3)

Although Jing Shaoyuan was older than Li Moying by approximately ten years, based on the ancient god clan's top exponents longevity, their age difference was not worth mentioning at all. So they could only be considered as peers.

But Jing Shaoyuan was so disrespectful to Li Moying, especially when he said "I guess I should treat you with respect". He said that in a kind of condescending tone and treated himself as Li Moying's senior.

This kind of pushy attitude totally reflected his unfriendliness.

Li Moying naturally would not miss out on this. But when he thought about Huang Yueli whose fate was still unknown within the demon tribe's turf...

He lifted his right hand and stopped Li Tian Yi. "Back off!"

"But, Young Master..."

Li Moying repeated himself once again, "Back off!"

Li Tian Yi gritted his teeth and reluctantly retreated behind Li Moying.

Li Moying took a glance at Jing Yuanshao and said with a composed expression, "Lieutenant Jing, it's indeed my fault for not informing you before I abruptly barged into your stronghold. My friend was attacked by the demon tribe during the teleportation from Blessed City and might have fallen into the demon tribe's control area. I was anxious to save him so I didn't think too much about the consequences. Please accept my apologies. But White Tiger Clan and Cloudy Qilin Clan had always been on good terms. Will Lieutenant Jing please let us pass through here?"

White Tiger Clan and Cloudy Qilin Clan were indeed on good terms.

Hence Li Moying was rather surprised by Jing Shaoyuan's terrible attitude initially.

But when he saw the unconcealable provocation and enmity in the latter's eyes, Li Moying quickly understood what was going on.

Before Li Moying's appearance in God Realm, Jing Shaoyuan's innate talent had dominated all the younger generation practitioners in the twelve continents of God Realm.

Moreover, he had gone on experience learning in the demon tribe's warzone since five years ago. He had outstanding military achievements and climbed up the ladder to attain the Divine Lieutenant rank within a short period of five years. It was rumored that he had even killed Sky Devils on the battlefield.

This incident made Jing Shaoyuan's reputation soar to stardom, becoming god clan and the human race's most adored object of worship.

Alas, this dazzling halo was heavily discounted from the moment Li Moying appeared.

Now, the ancient god clans were all talking about how powerful the Cloudy Qilin Clan's god grade genius was! As for Jing Shaoyuan, he naturally couldn't avoid being compared by others...

Even Li Moying himself had heard the Cloudy Qilin Clan's Elders say things such as "We can finally win that brat from the White Tiger Clan".

Having thought through this, Li Moying became even more composed instead.

Jing Shaoyuan said such things with the intent to provoke him. It would be best if Li Moying flew into a rage and got angry with him. Then he would have a chance to teach this Cloudy Qilin brat a lesson!

But whoever knew that Li Moying was so composed.

Jing Shaoyuan's lips twitched and his gaze sized Li Moying up and down impudently.

"You... want to pass through the defense line and enter the warzone?"

Li Moying nodded and said, "That's right."

Jing Shaoyuan sneered and rejected bluntly, "Impossible! This flouts our regulations! The frontline is currently locked down. No one can pass through the defense line without military order, to enter the warzone! Let's not mention that you're from the Cloudy Qilin Clan. Even if it were clansmen from our White Tiger Clan, I won't let them pass as well! Young Master Li, please return to Blessed City!"

Li Moying wasn't surprised at being rejected outright.

Chapter 3014 Who Do You Think You Are? (4)

He thought for a moment and said, "Lieutenant Jing, the friend who has gone missing is extremely important to me, and I must enter the demon tribe's control area! You can just treat it as if you didn't see us at all. After we enter the warzone, our life or death has nothing to do with you."

Jing Shaoyuan sneered upon hearing that, "Nothing to do with me? You're the god grade genius from Cloudy Qilin Clan! If you really die in here, won't Cloudy Qilin Clan seek trouble with me?"

Li Moying frowned. "The clan's Elders aren't aware that I am in Blessed City. Moreover, we Cloudy Qilin Clan aren't unreasonable. Our lives would be hanging on a thread if we entered the war with the demon tribe. Why would we pin the blame on you?"

"Even so, I also can't let you enter." Jing Shaoyuan's lips curled upwards, and his attitude was extremely firm.

"Orders are orders, so when I say you can't enter means you can't enter! Who knows if you are a spy sent by the demon tribe? If I let you go in and an accident happens on the battlefield, I won't be able to take up this responsibility! I only have one thing to say, please go back!"

Jing Shaoyuan's firm attitude made Li Moying unable to remain composed.

He was extremely anxious over Huang Yueli's disappearance. If it wasn't because of the relationship between the two god clans and the regulations in the army, he would have disregarded everything and dashed in!

He didn't expect Jing Shaoyuan to go through a round of interrogation and still refused to let him through!

This was simply treating him like a fool!

Jing Shaoyuan even insinuated that he was the demon tribe's spy? Saying that was an obvious attempt to provoke him.

Li Moying's attitude also became firm. His gaze turned cold and his tone was hard. "It's impossible for me to go back! Lieutenant Jing, what would happen if I insist on entering today?"

"Insist on entering?" Jing Shaoyuan scoffed, "Why? Are you prepared to break out of my defense line? Do you think that this is the Cloudy Qilin Clan? Cloudy Qilin Clan's younger generation practitioners are useless. The two highest heaven grade geniuses with the highest innate talent are those two lasses! That's why this gave you a disillusion that only god grade geniuses can be treated as heroes among the god clans! Haha, that's so funny!"

He stared at Li Moying and said coldly, "Ability... that's not decided by innate talent! One's cultivation method, time, resources, Spirit Armaments... all of these would affect your ability. Of course, the most important thing is still... actual combat experience! You've just stayed in Cloudy Qilin Clan for a year and haven't met many god clan geniuses, not to mention going into a battle in the warzone! Your cultivation which was achieved through closed door cultivation is not worth mentioning in front of genuine top exponents!"

These words were something that Jing Shaoyuan had hidden in his heart for a very long time.

"What god grade genius? His innate talent was only higher than me by a stroke!"

"As for me, I have been cultivating for a long time and also experienced countless life and death crisis. My ability grew tremendously and I'm invincible among the same grade practitioners."

"If we fight today, I'm confident that I will be able to send Li Moying flying with a slap!"

Jing Shaoyuan felt extremely disdainful of Li Moying after he saw his exquisitely handsome features.

"He's got such a pretty face, totally a gigolo type of face! No wonder those ladies who had worshipped me in the past were all infatuated over him!"

"But as a man, there's no use in being good-looking only. In the end, your ability is all that matters!"

Thinking of this, Jing Shaoyuan was even more determined to stop Li Moying from going past the defense line!

He could make the so-called god grade genius understand what a real genius in God Realm was, and also put down his arrogance!

Li Moying's expression was gloomy and his Profound Energy couldn't be controlled as it was on the verge of exploding.

"So, you're bent on not letting me go over today?"

Jing Shaoyuan wrapped his arms around his chest and sneered, "If you have the ability, barge through my defense line then! In the allied armies, we only talk using military credits and ability, and not your so-called innate talent! Originally I didn't intend to bother about you since you don't have any military credits, and directly treat you as a spy then capture you! But since you're the only god grade genius in God Realm... if you can defeat me, I'll let you pass. How about it? This is the care that I can show you!"

Jing Shaoyuan said without any restraining fear, as a provocative look was shown beneath his eyes.

The glow in Li Moying's gaze flickered slightly, as though he was considering.

Jing Shaoyuan's brows rose and he continued to incite him, "Why? You don't dare to? Looks like the legendary god grade genius is just SO-SO..."

Before he could finish his sentence, he suddenly felt a burning sense of crisis which made his heart palpitate!

Jing Shaoyuan was indeed a top rate genius practitioner in God Realm. He instantly reacted and used his body movement Profound Skill to speedily step to the rear left corner!

"Rumble—"A loud boom was heard!

A deep pit which was created by a ray of lightning from the sky appeared at Jing Shaoyuan's original position/ The pit's mud was charred and smoke was billowing from it.

If he hadn't managed to evade in time, he would have become a charred corpse by now.

When the human soldiers saw this, they were so shocked that their faces paled with fright. A cold feeling arose from the pits of their hearts.

This Cloudy Qilin Clan's young practitioner looked like a gigolo. Whoever knew that his movements were so incisive and overbearing!

Those people who were still doubting Li Moying's ability felt that this god grade genius was different from what they had imagined. As for now, everyone realized that they were totally mistaken!

Even for Jing Shaoyuan, his expression also turned grave. He stared tightly at Li Moying and slowly said, "You're very bold! Moreover, you do have some abilities! Too bad, you can forget about winning me with just this bit of ability! Today, I'll show you my real ability!"

Li Moying sneered coldly, "What's up with all the nonsense? Hurry up if you're going to strike. I'm rushing for time!"

"Alright, since you're in a hurry to get beaten, I won't hold back!"

Jing Shaoyuan was amused. He had already deemed Li Moying as an ignorant fool and wanted to teach him an unforgettable lesson!

Li Moying couldn't be bothered to reply. His moves were like lightning as he attacked Jing Shaoyuan once again!

Jing Shaoyuan was rather conceited in his words but when he witnessed Li Moying's ability, he didn't dare to slack and was totally focused on crossing hands with the latter.

Their attributes were both attack attributes so when they fought, they started with strong mutual attacks.

The golden ray and purple electric currents kept crashing against each other in mid-air. The explosive sounds were deafening.

These human soldiers couldn't open their eyes due to the bright light and hurriedly retreated backward. A number of them couldn't take on this intense attack and started to throw up.

Chapter 3016 Who Do You Think You Are? (6)

Even the guards beside Li Moying and Jing Shaoyuan were also dizzy from seeing such dazzling assaults.

In just under a quarter of an hour, the both of them had already attacked each other for more than a hundred rounds.

Following the passing of time, Li Moying's face slowly revealed an impatient expression!

Jing Shaoyuan was indeed the strongest heaven grade genius before Li Moying appeared. His cultivation, experience, and reaction speed were all top-notch. Even his moves were relatively ruthless! No wonder he was able to achieve such outstanding merits at such a young age in the war against the demon tribe!

He was indeed an extremely difficult opponent to deal with.

If it was usual, Li Moying wouldn't mind exchanging blows with him as a form of interaction. After all, it was difficult to find peers whose abilities were not far off from his.

But now, he was worried about Huang Yueli's safety. So this long battle left him extremely frustrated

Li Moying was not in the mood to prolong the battle, and he wanted to gain victory swiftly. So he couldn't care about reserving any power and increased the speed of his attacks!

As for Jing Shaoyuan, he was so shocked that it couldn't be described in mere words!

When he suggested challenging Li Moying earlier, he slighted him with disdain!

"So what if Li Moying's innate talent is so great? He's still so young and he came from the Lower Realm. How powerful can he be?"

In reality, Jing Shaoyuan realized that his thinking wasn't wrong at all. Li Moying's cultivation had just broken through to Heart Profound Realm, and the latter was weaker than himself!

Furthermore, the Profound Skills that Li Moying utilized weren't very profound. It was apparent that he had not fully mastered all the manuscripts in Cloudy Qilin Clan.

So logically speaking, he would definitely win against an opponent who had such a huge disparity from him!

However, when they crossed hands, Jing Shaoyuan realized that he was wrong!

Li Moying's cultivation was indeed not high. But his control towards his Profound Energy had reached perfection. There was not one ounce of energy that was wasted, and it was displaying the greatest firepower!

Moreover, his observation skills were much stronger than a veteran practitioner on the battlefield like Jing Shaoyuan!

The scariest part was Li Moying's speed.

Although thunder attributed practitioners originally had a slightly greater advantage in terms of speed. But wasn't his speed a little too fast! How could there be anyone who could achieve such a standard of speed?

Every time, Jing Shaoyuan felt that Li Moying's speed should have already reached the limit.

But the next time Li Moying made his move, his speed was raised once again, to an even faster pace!

Jing Shaoyuan didn't dare to slight his opponent right now. In fact, he was feeling vexed that he had underestimated the enemy earlier.

He had already worked up his concentration and was fully focused on observing Li Moying's control over the electric currents. But he found that it was getting tougher and tougher, and even harder to deal with him...

Unknowingly, Jing Shaoyuan's intense attack was suppressed by Li Moying. He had also changed from an attack state to defense.

All the practitioners present could tell that Jing Shaoyuan was already on the losing end.

Li Tian Yi and the others were originally worried that their Young Master would be injured during the battle. Now, they could finally heave a sigh of relief.

But Jing Shaoyuan and his soldiers totally couldn't believe that this situation would ever happen. All of them looked at one another in dismay.

"Are you kidding me? Lieutenant Jing, is he... going to lose?"

Chapter 3017 Who Do You Think You Are? (7)

"Are you blind? How could Lieutenant Jing possibly lose! That insolent young punk dared to fight with Lieutenant Jing. I believe that he will be beaten hands down, so badly that he will not be able to pick himself up!"

"But... but now, Lieutenant Jing's attacks seem to be suppressed?"

"So what about that? It's not as if only the attacking side will gain victory! Lieutenant Jing wants to save time, so he intentionally makes himself look like a fool. He will find a chance to defeat the opponent in one move! This is called outsmarting the opponent, understand?"

"I see... That's what I thought too. Lieutenant Jing's ability is so excellent and he had never been defeated among the younger generations. How could he possibly lose to a pretty boy?"

The soldiers made their wild guesses and finally heaved a long sigh of relief.

Although they recognized Li Moying's power, no one would ever believe that Li Moying could defeat the invincible Jing Shaoyuan.

After all, Jing Shaoyuan's fame wasn't falsified. It was accumulated through his military credits which he had slowly attained!

Among the practitioners in Blessed City, Jing Shaoyuan was the representation of a strong practitioner. So how could he possibly be defeated?

Only Li Tian Yi and the others knew how strong their Young Master was.

Hearing the soldiers' whispers, their faces surfaced with meaningful smiles.

The difference between god grade genius and heaven grade geniuses was not something that ordinary people had thought out to be that simple. If it wasn't for the fact that they had spent so much time with Li Moying, they would also find it hard to imagine just how powerful Li Moying could be!

Even a Dao Profound Realm top exponent like Huang Sanbai was forced to back down in Flame Square City previously. What more for Jing Shaoyuan, whose cultivation was not any higher than Li Moying's?

As expected, Li Moying and Jing Shaoyuan fought for a dozen over moves and the latter's defeat was already very obvious.

Now, even Jing Shaoyuan's vassals who were most confident of him did not dare to say a word.

By now, if one still dared to say that Jing Shaoyuan would definitely win, that person must be lying through his teeth.

But no one understood why did things turn out to such a state!

At this moment, Jing Shaoyuan who was in the fight was drenched in sweat!

He practically used all his moves and tried his best but wasn't able to turn from defense to attack. Instead, he was suppressed even badly by Li Moying. Several times, he tried to find Li Moying's flaw, but what left him shocked was that even under such astonishing speed, Li Moying didn't make any minute mistakes at all. Each blow was executed perfectly.

Jing Shaoyuan was being pushed back.

Finally, after an intense crash, Li Moying's electric current broke through Jing Shaoyuan's defense. "Ughhhh..." Jing Shaoyuan gave off a dull moan.

The clashing of their weapons abruptly stopped.

After the blinding light dispersed, everyone realized that Jing Shaoyuan had been struck by a sword at his ribcage, and blood kept spurting out.

He used his hand to clutch the injured part and his fingers were stained with blood. But there wasn't any painful expression on his face. He stared at Li Moying with a complicated gaze.

Li Moying lifted the long sword with a cold expression. There were no emotions on his face, and as compared to the time when he just started to make his move, he seemed calmer now. It felt as though the battle earlier had not affected him at all.

"Lieutenant Jing! You... what's wrong with

you?!”

Jing Shaoyuan’s subordinates widened their eyes in disbelief.

Chapter 3018 Who Do You Think You Are? (8)

The invincible Lieutenant Jing in their hearts had... had been defeated by someone!

Moreover, it was a pretty boy who popped out from god-knows-where!

Jing Shaoyuan stared at Li Moying for a while and hissed through the slits of his teeth, “God grade genius... indeed live up to your reputation!”

Li Moying swept a glance back, “You’re not too bad as well. But if you want to be my senior, you’re still a little lacking!”

The human soldiers all felt exasperated when they heard that, but had no way to rebuke him.

At this moment, no one could claim that they were not convinced after they heard the things that Li Moying said!

He had already used his ability to show his authority.

Jing Shaoyuan gritted his teeth as he looked at Li Moying

He had already been defeated by Li Moying in public, so there was no way that he could renege on his words. But he was not resigned to the result at all.

“You’re indeed powerful, god grade genius’s innate talent indeed can be described as heaven-defying. But today I’ve lost to you mainly because I’ve underestimated you! Moreover, I still have plenty of unique skills that I’ve not used. If you think that you can dominate all the geniuses in God Realm, you are wrong! The next time we fight again, I will definitely win you!”

Li Moying’s gaze turned slightly cold and said indifferently, “I’ve never thought of it in this way. You’re the one who’s saying it.”

Jing Shaoyuan heard his tone and his face turned from green to white.

Li Moying’s words were flat with no emotions, but it was extremely hurtful than any other kind of sneering!

Because he had obviously not thought of any other geniuses in high regard. Neither did he have any intention to fight with them.

He was the one who insisted on picking a fight with Li Moying and was eventually defeated. This was akin to putting his face out to let other people slap him! In other words, this action was no different from acting like an idiot.

Li Moying couldn’t be bothered about what he was thinking. He waved his hand to Li Tian Yi and the others, expressing for them to follow him. Then he turned and headed towards the warzone.

Seeing Li Moying about to leave, those trained human soldiers’ first reaction was to draw out their weapons to block their way. “Let them go!”

Jing Shaoyuan commanded loudly.

The soldiers backed down and gave way to them.

Li Moying didn't say a word and led his men forward.

Jing Shaoyuan's voice was heard coming from his back. "The demon tribe are brutal and savage. The area that they control lurks with danger everywhere. Even if you have outstanding power, you might not be able to come out safely. But there are several allied armies' strongholds in the warzone. If you stronghold to seek for help."

Hearing that, Li Moying's footsteps took a halt and he turned around.

Jing Shaoyuan scoffed, "Don't lose your life on the demon tribe's battlefield. The God Realm Tournament will be held six months later, and I will get my revenge then!"

Li Moying's lips curled upwards. "Lieutenant Jing, please be assured. Since you like to be beaten so much, I will surely grant you this

wish."

"You...!"

Jing Shaoyuan's anger that had been suppressed instantly rose again. He couldn't wait to dash up and have a fight with him.

Alas, Li Moying decisively turned around and left after he finished talking, leading his men away in huge strides.

Jing Shaoyuan's hand gripped tightly on his cutlass.

"Lieu... Lieutenant Jing..." A guard carefully walked over. "What do you want? He's already left, why are you guys still crowded around here for!" Jing Shaoyuan shouted angrily.

Chapter 3019 Join Hands (1)

The guard hesitated for a moment but still asked, "Lieutenant Jing, you let... let that Li Moying enter, just like that? If something happened to him and the management blames me, what should we do? There are quite a few Divine Generals in the army who are from the Cloudy Qilin Clan!"

Jing Shaoyuan's lips curled, and he smiled coldly, "So what about that? Li Moying wanted to dig his own grave, am I able to stop him? Moreover, what advantage will I get if I manage to persuade him? Enough, let this matter rest right here! Everyone, return to your sentry posts, and don't let me catch anyone of you going into a daze!"

"Chirp chirp, chirp chirp chirp!"

The melodious chirping from the birds rang beside her ear. Huang Yueli was shocked and abruptly opened her eyes. A wave of dizziness hit her and her vision was turning dark. It took quite a while before she finally managed to take a clear look at her surroundings.

The black smoke that appeared when she landed had dissipated.

But the surroundings still gave off a terrible stench.

She was lying in the wet mud and there were shrubs and moss nearby. The only thing was the shape of these shrubs was different from the ones that she usually saw. The leaves reflected a near-black dark green color, and it looked extremely strange.

Moreover, on the branches of one of the trees stood two crows, which were crying out to her non-stop.

It seemed that she had been awoken by their chirping.

Huang Yueli raised her head and took a look at the sky. From the direction of the sun, it should be mid-noon. But she didn't know what day it was.

Thinking of this, Huang Yueli tried hard to prop herself up from the ground. Whoever knew that when she just used her strength, she realized that the slippery mud under her suddenly fell downwards.

She hurriedly stopped her action.

"Damn it! This place is a swamp!" Huang Yueli frowned and she felt scared. "I wonder how did I land in such a place! Luckily, I didn't suffocate to death in this swamp!"

Luckily Huang Yueli had accumulated a lot of experience during experience learning trips. So even when she met with this kind of dangerous topography, she wasn't nervous at all.

She knew that in order to stop herself from falling into a deeper place, the most important thing is to maintain a flat position. In this way, the amount of energy impacted on the swampland would be minimized and her safety would be guaranteed.

Huang Yueli carefully tested and climbed out.

As her feet landed on the solid ground, it felt so great that Huang Yueli almost shed tears of gratitude.

"I wonder how this swamp formed. It's so stinky. Moreover, I wonder if it's my misperception. There seems to be a faint blood stench smell from the surroundings..."

Huang Yueli touched her long hair which was filled with dirty mud but couldn't be bothered to clean herself up. She could only bear with this stench.

"This place is really too strange, I should leave this place as soon as possible!"

Although she thought that way, Huang Yueli didn't immediately take action.

The reason being she was unable to verify her current location right now.

The exterior area of Blessed City was the place where humans and the demon tribe were engaged in an intense battle. Moreover, she fell because of the demon tribe's attack. So it was highly possible that she was in the demon tribe's control area right now.

If she ran about recklessly, there would be big trouble if she was discovered by the demon tribe.

Chapter 3020 Join Hands (2)

Huang Yueli pondered over this for a short while, stood up, and was just about to leave when she suddenly heard a shuffle of footsteps from a distance away.

Moreover, someone was talking.

Huang Yueli hurriedly retreated and shrank her body to hide behind a bush.

Not long after, she saw two demon tribe practitioners walking out from a corner.

Seeing that, Huang Yueli silently creased her brows.

“Oh my goodness, this is indeed the demon tribe’s turf! Moreover, there are apparently several paths which could lead to this place. I’m just now familiar with the topography.”

“Luckily I woke up just in time. If I woke up two hours later, I’d probably have bumped into these two demon tribe practitioners!”

Huang Yueli changed to another position which allowed her to see those two demon tribes’ looks clearly.

Their builds were much taller than ordinary humans, and their skin color was darker. Furthermore, their faces had dark red veins. She wondered if those were inborn birthmarks or if those were drawn on their faces after.

The two of them walked to the side of the swamp and exchanged a look.

“Recently, Lord Ruize is going to advance into Sky Devil end-phase rank and he needs even more blood pills than before. But we haven’t had desirable outcomes in the recent attacks in Blessed City. The humans are already prepared and their defenses are extremely tight. Not only did we not manage to capture more humans, we even lost several devil soldiers.”

“I heard of it too. Those god clans sent some people to support them. That White Tiger Clan’s Jing something killed a number of our compatriots in the prison the last time. And now, he’s stationed in Blessed City! How are we going to explain to Lord Ruize now?”

“But our luck isn’t too bad. We managed to attack a number of them in the light sphere during yesterday’s ambush! I heard that we captured a few god clan practitioners!”

“Really?”

“That’s of course. I heard that Lord Ruize was very happy and he gave a handsome reward to the ambush team! Those of us who are responsible for searching also need to work harder. If we can find all the missing humans and god clan practitioners, we might receive merit.”

“That’s right, we also need to work hard! Right, yesterday I saw a human practitioner fall into the swamp. I wonder if that person has fallen into it or not. I can tell that his cultivation isn’t too bad. If we bring him back, we can refine him into a blood pill.”

“Really? Why didn’t I see him? Why are we wasting time here talking? Let’s hurry up and scoop him out!”

The two immediately took action. Two long forks appeared in their hands out of nowhere and they poked it into the swamp and mixed it around.

Shortly after, they dragged out an extremely decomposed corpse and a terrible stench immediately circulated.

Huang Yueli couldn't help pinching her nose, as she felt extremely disgusted.

So, this swamp was so stinky because a lot of corpses were buried in it! Just thinking of it made her feel extremely disgusted. Luckily she had already climbed out of it.

The two demon tribe practitioners dug around for a long time and found another two corpses. But they were extremely disappointed.

"What's going on? These three humans looked as though they have been dead for several days now. Moreover, their power had not even reached the eighth stage realm. They're simply useless!"

"That's strange. The human I saw yesterday was obviously at tenth stage realm cultivation?"

The two looked at each other in dismay.

Huang Yueli knew that they were looking for her. While she was feeling fortunate, she suddenly felt that the situation was not good.

The two of them couldn't find her, so they would definitely guess that she had escaped!

But there was no way for her to escape in the current location where she was hidden right

now.
