

Weaponsmith 3081

Chapter 3081: Doubtful Point About The Demon Tribe (1)

“Everyone was given a sword?”

“There are close to 40 people in the team!”

“Adding everything up, wouldn’t it cost several million or even tens of millions of crystal jades?”

Even if his ability was much more outstanding than what I expected, surely he wouldn’t have that much money, right?”

Zheng Yichuan negated this possibility from the bottom of his heart. But when he looked around at where his teammate was pointing, his eyes grew wider and wider. His jaw almost dropped to the ground!

“H... How is it possible? Everyone’s Spirit Armaments... is actually that incredible!!”

This scene left him in so much shock that it was no less surprising than the scene where he saw Huang Yueli killing the Earth Devil alone.

His teammate walked up and patted his shoulder. “Yes, isn’t it surprising? When we gathered, we were also shocked. Team Leader didn’t say anything, took out so many Spirit Armaments, and distributed it to us! I’ve lived for more than 20 years and had never felt such a good Spirit Armament at all! Moreover, these Spirit Armaments are very sturdy...”

His teammate went on and on about the advantages of these Spirit Armaments.

He was happy for the entire day to gain such a Spirit Armament!

But the happier he was, the more Zheng Yichuan’s expression grew uglier.

Recalling the scene this morning, Zheng Yichuan had deemed Huang Yueli to have done the dumbest thing to not collect any Spirit Armament from the Supplies Station, and she would definitely drag the entire team down.

So he managed to get a batch of standardized Spirit Armaments and brought a few practitioners who were closer to him to leave on their own.

In the end, they missed out on the chance to obtain such a powerful weapon!

Seeing the weakest member in Team 3 holding such a powerful Spirit Armament, whereas he and his brothers holding the most ordinary weapon from the Supplies Station...

Zheng Yichuan was feeling extremely aggrieved!

Unfortunately, there was nowhere he could go to shout out his grievance!

Because the current result was all because of his actions!

If he had stayed in the team obediently, wouldn’t he have a share of this Spirit Armament?

Huang Yueli had already seen Zheng Yichuan’s vexed look.

She laughed silently but didn't show much expression.

This fellow dared to look down on her, their team leader. So he deserved to suffer a blow! After missing out on the chance to gain a freebie, the next time he wanted to get a Spirit Armament that she personally refined, he would have to pay a relatively higher price for it!

Huang Yueli led Team 3's practitioners back to the campsite.

At this moment, the stronghold's main forces had already ended the battle with the demon tribe's main forces.

The campsite's vacant space was in a state of chaos. The humans and devil's corpses were mixed together. Some ancient god clan practitioners were not spared as well.

When Huang Yueli led them back into the campsite, some soldiers immediately came forward to welcome them.

"Team Leader Li, you're finally back. Divine Lieutenant has given an order to ask you to go to his tent."

Huang Yueli nodded her head and asked her subordinates to go back and rest. After that, she followed the soldier who led the way home.

The Divine Lieutenant's tent was in the center of the campsite. At this moment, it was already full of people.

There were a total of eight commanders and every single one of them was present. Other than this, some other team's team leaders were standing underneath the tent. Xia Yunxi was also among them.

Seeing Huang Yueli walking in, Divine Lieutenant Li Yukun's eyes lit up.

"Li Yuehuang, I heard that the team that you are leading managed to ward off the demon tribe who had more numbers than your team and successfully secured the granary. Today, you've contributed big merit!"

Chapter 3082: Doubtful Point About The Demon Tribe (2)

Huang Yueli cupped her hands in greeting and replied humbly, "Divine Lieutenant has overpraised me. It's just a part of This Subordinate's job!"

Seeing her with such capability and yet not claiming credit for herself, Li Yukun was deeply appreciative of her. So he complimented her.

Huang Yueli modestly replied and turned back to a corner in the tent, next to Xia Yunxi.

Surveying the surroundings, everyone's expression in the tent was rather grave.

Apparently, before she rushed over, some of them had already talked about the military information in the tent. The situation... seemed a little unwise.

Huang Yueli leaned closer to Xia Yunxi and asked in a whispered tone, "Yunxi, what's going on? Haven't we already warded off the demon tribe's attack? Why does Divine Lieutenant look so worried?"

Xia Yunxi turned around and saw that no one was paying attention to the both of them, then whispered back, "This is something that you're not aware of. This time, the one responsible for the attack on the campsite is actually a Sky Devil!"

"Sky Devil??" Huang Yueli almost screamed out in surprise. Luckily, she managed to cover her mouth in time. "The news that we eavesdropped previously, didn't they say that Sky Devil called Ruize was cultivating in seclusion? Has he successfully advanced into Sky Devil end-phase already?"

Xia Yunxi shook her head. "The Sky Devil leading the demon tribe today should be different from the one who we heard of! The Sky Devil today is only in the early-phase. It's exactly so which is why Divine Lieutenant could rely on his ingenious commands to lead the army through the danger and ward of the demon army. If the Sky Devil end-phase were to come personally, do you think that we'd still be alive by now?"

Hearing that, Huang Yeuli nodded her head as she delved into her thoughts.

This didn't sound wrong at all. If the Sky Devil end-phase really came, then their entire campsite would be turned topsy turvy!

There wouldn't be many survivors by now.

Huang Yueli thought about it and said, "In this case, our campsite had experienced a tough battle today!"

Xia Yunxi nodded and replied, "Other than our two teams, the other teams had suffered heavy casualties."

Huang Yueli's brows creased slightly. Before she could anything else, she heard Li Yukun, who was seated in the most central position, coughing slightly.

"Everyone, all of you have experienced today's battle so you should be aware of the current situation. Although the demon army had temporarily retreated, it wouldn't take a few days before they attack us again!"

"Today our campsite has suffered serious casualties. If the enemy were to attack us once more, it would be hard for us to ward them off!"

"My officers, do any of you have any suggestions?"

Li Yukun looked at the few officers standing or sitting in front of the tent and asked for their opinions.

Of course, the main targets of his query were those eight commanders who were seated.

But the eight commanders all decided to keep their silence. The main tent's atmosphere came to a standstill.

Huang Yueli might have come to this place for the first time and didn't know the actual situation of this stronghold. But seeing the current scenario, she guessed that their current predicament should be terrible.

Li Yukun took a deep breath upon seeing them like this. "Officers, don't you have any suggestions?"

Commander Hu showed a hesitant look and he wanted to speak up but did not do so on second thought. "Divine Lieutenant, This Subordinate has some ideas, but I wonder if I'm thinking too much..."

"No matter, just speak your mind! Even if you're wrong, it doesn't matter!" Li Yukun hurriedly said.

Chapter 3083: Doubtful Point About The Demon Tribe (3)

Commander Hu thought over it slightly and said, "Today while we were battling the demon tribe, something made This Subordinate feel very strange."

"What is it?"

All the practitioners' curiosity was piqued, and everyone turned to look at him.

Commander Hu said, "As everyone knows, when both armies fight, no matter if it's Spirit Armaments, Spiritual Medicine or any other resources, the consumption amount is very huge. So when we are in the middle of the battle, we must assure a steady supply of resources, in case of need. The demon tribe had been doing well in this all this while, but today, their commanding officer seemed to have forgotten about this..."

"While we were nearing the last stage of the battle, many demon tribe's weapons were damaged and they had no way to replenish it. Hence they could only fight with me empty-handed."

"Also, many devils suffered serious external injuries, but as long as their medics administered first aid to them, they would still be able to continue fighting. But today, none of the demon tribe's medic appeared..."

Hearing Commander Hu's description, everyone was stunned. Immediately after, they fell into deep thoughts.

"Now that I think of it, things really seemed like what Commander Hu said..."

"No wonder when it was nearing the end, I discovered that the demon tribe's battle power dropped by a huge extent. In the end, their army basically fell apart..."

"This is really strange. Aren't these the common knowledge in operational command?"

Hearing their discussions, Li Yukun's expression revealed an enlightened look.

"In this case, could it mean that this Sky Devil early-phase commander might have overbearing power, but in terms of large-scale battles, he lacked the experience and is a newbie?"

Everyone nodded their heads consecutively, apparently agreeing with this conclusion.

However, Commander Hu, who raised this doubt, shook his head and suggested an opposing view.

"This Subordinate feels that things aren't this simple!"

"Oh? Why do you say that?" Li Yukun asked.

Commander Hu said, "This Subordinate feels that the opponent's commanding officer isn't a newbie. In the past, the demon tribe's commander had never thought about attacking our granary. This time, the demon tribe's commander actually considered this point! If it wasn't because Divine Lieutenant had a

well-thought-out plan, and Team Leader Li was alert enough, our granary might have been lost! This isn't something that a newbie could think of!"

Hearing that, Li Yukun couldn't help but frown.

What Commander Hu said was indeed a doubtful point.

"This is rather surprising... on one hand, the demon tribe's commander thought so far ahead, but on the other hand, he was so haphazard. What is his antecedent?"

For a moment, Li Yukun didn't know what step to take.

Confirming the opponent's working style and ability was a crucial element to plan their next battle plan's process.

Now that the enemy's commanding standard was so errant, that made him unable to pick a suitable plan to take...

"What is this fellow trying to do?"

Li Yukun thought for a moment but had no conclusion, so he could only ask his subordinates for their views.

"My officers, what do you think?"

He specially asked Commander Hu, "Old Hu, what do you think? You can find these doubtful points so it proves that you have good foresight. You have the innate talent to become a commander officer!"

Commander Hu hurriedly cupped his hands together, "Divine Lieutenant, you're too kind. This Subordinate isn't worthy of these kind words... moreover, This Subordinate can't understand this as well..."

The few commanders started to discuss softly.

Chapter 3084: Doubtful Point About The Demon Tribe (4)

But there wasn't any reliable conclusion in the end.

They couldn't even grasp the demon tribe commanding officer's antecedent, so there was no way to come out with a follow-up plan.

For a moment, all the officers in the main tent started to become anxious.

Li Yukun stood up and paced around with his hands behind his back, bearing a rather grave expression.

Huang Yueli was originally obediently listening to them in the corner of the tent.

But hearing Commander Hu's doubtful points, she seemed to have thought of something as her eyes suddenly widened.

"Wait, the team that the demon tribe was transporting... aren't those.. ugh..."

"Ah—!!"

Huang Yueli was just thinking in her mind. Initially, she didn't say a single word. But when she thought of the crucial point, in the end, she didn't manage to hold it in and cried out.

She hurriedly covered her mouth with her hands, but it was already too late.

The tent was filled with a grave and moody atmosphere. No one dared to breathe loudly at all. It was so quiet that one could hear a pin drop.

So, Huang Yueli's scream might not be loud, but it was loud enough for everyone in the tent to hear her.

Li Yukun looked in the direction of the voice, and when he saw that Huang Yueli was the one who shouted, he was rather surprised.

"Li Yuehuang? Did you speak out earlier? Why, do you have some idea of the demon tribe's situation? Tell us about it?"

"Ughh, this... about this..." Huang Yueli pondered over how to tell them about this.

Li Yukun thought that she wasn't very confident in her judgment and hurriedly encouraged her, "Don't worry and feel free to speak your mind. Although you've just arrived at our campsite, I can tell that you're an extremely observant person. When we're in the army, we should listen to everyone's views. So even if what you say is wrong, it doesn't matter. Just tell us what you have in mind, and we can think about it later."

Commander Hu also persuaded her, "That's right, just tell us about it!"

"Yes, don't worry. Go ahead and speak your mind!"

The other commanders also joined in to encourage her.

Actually, other than Commander Hu, the other commanders were all from the ancient god clans. They were rather disdainful of the human practitioners.

If it was usual times, these people wouldn't be glad to listen to a small team leader, who had just arrived, speak.

But now, everyone was in a stalemate.

They didn't understand the demon tribe's situation, so there was a risk of making the wrong follow-up plan.

If they suffered a defeat due to this, the person who came out with the idea would be held responsible.

No one was willing to take on this responsibility, hence they didn't dare to share their views.

Now, a silly human came along. So if they let him speak a few words, then it would be more convenient for the rest to tag along and share their ideas.

If they made it, everyone would be a contributor. But what would happen if they were wrong? They would be able to push the responsibility to this lowly human scapegoat!

The commanders present had their thoughts as they secretly calculated their schemes while looking at Huang Yueli, who was walking to the center of the tent.

Huang Yueli was immersed in her thoughts and failed to notice their gazes.

“This... uhhh, Divine Lieutenant, I think I know why the demon tribe was lacking in their resources, and the reason for them not being able to supply it at the later stage...”

“Oh? Why?”

“That’s right, quickly tell us!”

Everyone urged.

Huang Yueli smiled awkwardly and said, “The main reason is that... cough cough. After This Subordinate had defeated the demon tribe’s team that came to attack the granary, we were too bored so... uhhh, we thought of killing a few devils to earn military merits. Our team saw some devil soldiers transporting some resources in the forest and conveniently dealt with them...”

Chapter 3085: So Easy To Earn Military Merits? (1)

Huang Yueli was still organizing her thoughts when she said these words.

Team 3’s original mission was to guard the granary. So logically speaking, they should be keeping guard around the granary’s surroundings. No matter if it was the demon tribe or any other humans who came to attack, they shouldn’t have left that place at all!

In the end, she secretly left to earn military merits. In reality, that was considered an unauthorized departure from her official duty.

She had her judgment towards the battle situation and firmly believed that nothing would go wrong with her arrangement. But it would easily become a hot topic for gossip eventually.

Luckily, after she finished her sentence, no one seemed to notice that she had deserted her post.

Everyone’s main focus was on—

“What? You killed those devils who were transporting the resources??”

Huang Yueli nodded and added, “I didn’t kill them alone. I killed them along with my soldiers in Team 3...”

“You said that the demon tribe was lacking in the supply of resources because you killed some devil soldiers??”

However, before Huang Yueli had the chance to continue with her sentence, a commander crudely interrupted her. “Stop joking, aren’t you just a Dream Profound Realm practitioner? Even though your ability isn’t too bad, and you managed to sneak an attack to kill some devils, so what? The demon tribe’s army who is in charge of transporting those resources consists of at least 200 to 300 members, isn’t it?”

Huang Yueli turned around and realized that the person talking was a practitioner from the White Tiger Clan.

That person was called Jing Zhihai, and he was famous at this campsite. He was slightly over 40 years old and his cultivation had reached Heart Profound Realm mid-phase. He is just another top exponent just beneath Divine Lieutenant Li Yukun.

His reputation within the army was very high, and the things he said would naturally earn the response in agreement from the others.

“That’s right, what Commander Jing said is right! You’re just a Dream Profound Realm practitioner. How many devils can you kill?”

“Hahahaha, this is simply amusing. This is the funniest joke I’ve heard in this entire day! A mere human practitioner, after he killed some devils, he thinks that he can stop the demon tribe from transporting their resources? You’re thinking too highly of yourself!”

“That’s right, I’m going to die of laughter! Do the freshmen nowadays think they’re so great nowadays? Forget about him, even if it’s Commander Jing, he wouldn’t dare to claim that he stopped the demon tribe’s resources team alone! These devils split into smaller teams and scatters around the forest. To dig all of them out, it’s even tougher than trying to ascend to heaven!”

“Oh my, enough. Everyone, please stop laughing! A freshman doesn’t know anything so cracking a joke is as normal as it can be...”

In a second, the campsite broke out into laughter.

A majority of the people didn’t believe in what Huang Yueli said, and couldn’t help but laugh!

It was no wonder that they didn’t believe in her, because it was only one aspect for them to slighted her ability with disdain.

The other important aspect was that everyone knew that the devils’ five senses were much stronger than humans or even god clan practitioners. It was even more so for a place like a forest. So basically, the devils would be the ones who sneak attacks on humans first.

From the others’ perspectives, Huang Yueli managed to kill some devils and not sustain any injury was already very lucky.

Who would believe that she could counter-attack and even find all the devils who were within the transportation route?

In the campsite, the commanders’ and team leaders’ laughter were becoming more and more unbridled.

However, Huang Yueli spoke in an unhurried and composed expression. “Of course, I can’t kill so many devils alone. I’ve said this earlier, I killed them along with my soldiers in Team 3!”

Chapter 3086: So Easy To Earn Military Merits? (2)

Huang Yueli emphasized it once again.

Putting it across in this way showed that she was intentionally trying to claim the credit for her subordinates.

On the other hand, it was the truth.

Even though Team 3 ordinary soldiers' ability was very far off from hers, the number of devils she killed alone was even more than the soldiers.

But these human practitioners rendered a lot of help to her.

After all, after giving them some simple pointers, the soldiers would be able to ward off three Earth Devils attacks through the formation variations! This gave Huang Yueli ample time to eliminate the devils.

Otherwise, if she was out there alone and met with a five Earth Devil team, she wouldn't dare to act recklessly as well.

However, Huang Yueli's emphasis only brought along even more laughter.

"Alright, alright, alright, we know that you led your team along!"

"That's so funny, so what if you bring an entire team alone? I remember that Team 3 is made up of tenth stage realm and below practitioners, isn't it? Even if everyone went, how many devils can they kill?"

"You guys are really lucky to be able to find those devils in the forest!"

"Forget about it, let's stop talking to this lad. After he stays in the campsite for a little longer, he will find out how comical the things he said today are!"

Because of Huang Yueli's words, the entire campsite's atmosphere had eased up by a fair bit.

Especially those few god clan Commanders, they were originally trembling with fear in front of Li Yukun, deeply worried that they would say the wrong things and become a scapegoat.

But now with Huang Yueli's meddling, they felt that whatever they said would be correct! After all, they were going to be compared against this fool!

Seeing that the commotion was almost dying off, Jing Zhihai stood up and coughed loudly.

"Enough, stop laughing! Divine Lieutenant has just said that he is a freshman, so it's normal to say the wrong things. Why must you laugh at him in this manner? Let's continue to discuss the next strategy!"

Huang Yueli originally just let the others laugh at her, and didn't even bat an eyelid at it.

But when she heard what Jing Zhihai said, she couldn't help but took another look at him.

If she hadn't heard it wrongly, the first to laugh was this White Tiger Clan's Commander.

Now, he stood out to speak for her. On the surface, he seemed righteous, but in reality, he was just putting up an act! This fellow seemed to be a scheming person.

Huang Yueli noted down this person in her mind, lifted her head, and raised her voice to speak to Li Yukun. "Divine Lieutenant, I didn't exaggerate whatever I said. My Team 3 had annihilated the majority of those devils who were transporting the resources!"

Hearing that, the main tent's practitioners almost broke out into laughter again.

But Li Yukun's gaze landed on Huang Yueli's calm and stern face. He instantly felt that something was wrong.

Huang Yueli's calm posture didn't seem like she was lying. Neither was she acting like what the others say, talking blindly!

Li Yukun raised his hand and gestured for everyone to keep silent with a cold expression.

"Stop laughing! Laughing in such an unbridled manner at your comrade, how presumptuous!"

He looked at Huang Yueli and asked, "Li Yuehuang, what's going on? Tell us clearly? Since you say that you've annihilated the devil's resources team, then can you tell everyone how many devils have you found exactly?"

Chapter 3087: So Easy To Earn Military Merits? (3)

Hearing that, Huang Yueli blinked as though she was thinking.

The Commanders stared at her tightly. Although they didn't say anything, their expression seemed to be conveying the same message, "I'm waiting to see how many you can claim!"

After a while, Huang Yueli slowly said, "It's just a rough estimate, around 230 devils! I can't remember the exact figures. But I remember the number of Earth Devils clearly, there are 21 of them."

When she said that, the main tent went silent.

Everyone's eyes widened as they stared at Huang Yueli. Their gazes seemed to be saying that she was insane!

Shortly after, someone laughed dryly.

"Hahaha, 2... 230? Why don't you say you've already swept out the entire demon tribe's campsite?"

This high pitch sneer broke the tent's silence, and the other practitioners who were still in a daze started to come back to their senses.

"Isn't that so? I assumed that you were just speaking out because you were ignorant. But from the looks of it, you're simply treating all of us like fools! More than 200 devils. If you were to say they are all devil soldiers, I'd believe you. But you claim that there're 21 Earth Devils??"

"In one day, you killed 21 Earth Devils! If military merits were that easy to earn, I'd have become a Divine Lieutenant long ago!"

Originally, everyone felt that they shouldn't be laughing at Huang Yueli.

But upon hearing her report the actual figures, everyone felt that they shouldn't be that sympathetic.

This figure was a little too exaggerated!

"Doesn't that Li Yuehuang know how to come out with a lie properly?"

Someone immediately suggested to Li Yukun. “Divine Lieutenant, how can a practitioner who makes a false report about his battle achievement hold on to the position as our campsite’s Team Leader? He’s simply spoiling the ethos of the army!”

Jing Zhihai stared hard at Huang Yueli as though she had failed to live up to his expectations.

“Sigh! Li Yuehuang! This Commander had already given you a chance to explain for yourself earlier. Why are you still so unrepentant? Although you’re a freshman, doing things is simply... going overboard!”

Huang Yueli’s brows rose when she heard that.

This fellow was really two-faced.

But he refused to give up on any chance to trample on Huang Yueli, just to establish his magnanimous image!

Seeing those commanders’ furious looks, Li Yukun also started to waver.

“Li Yuehuang, are you certain that you didn’t remember wrongly? You must know that falsely reporting your battle achievements is a first-class felony!”

He was giving Huang Yueli one last chance to repent.

Whoever knew that Huang Yueli totally didn’t realize that she was standing on the verge of the cliff, and even nodded her head confidently.

“I’m certain that I didn’t count wrongly!”

Li Yukun’s gaze turned cold and stern. “Since you say that, you should know that we can’t just take your words for it and just confirm your military merits! You’ve killed so many devils, so you should have their devil stones with you, right? Why don’t you take out those devil cores from those devils that you killed, and we can count it together!”

Li Yukun pointed out the crux.

Whether Huang Yueli was telling the truth or a lie, it was very easy to judge.

If one wanted to earn military merits, then they would definitely dig out the devil stones after they killed the devils! This was the best evidence to prove their actions!

“Right, Team Leader Li. Show us the devil stones that you have obtained!”

Chapter 3088: So Easy To Earn Military Merits? (4)

“That’s right, show us the devil stones!”

“230 pieces of devil stones! Just counting it would take some time, right?”

“It doesn’t matter if we can’t finish counting it. You just need to show us the 21 pieces of Earth Devil’s devil stones and that will do! As long as the Earth Devils’ figures are correct, we’ll just take it that you’ve killed the devil soldiers!”

All the practitioners stared and urged Huang Yueli to take out the devil stones.

In reality, none of them believed that she had that many devil stones!

Such enthusiastic urging was mainly because they wanted to see Huang Yueli become a laughing stock.

Huang Yueli's expression was calm as she ignored their sneers. She nodded at Li Yukun and said, "Divine Lieutenant, what you say is right! Then I'll bring out the devil stones right now. At the same time, you can also help my Team 3 tally the military merits. I'll let them know when I return later. They'd be extremely happy!"

Originally, tallying military merits was supposed to be done with the Bookkeeper on the next day.

And they had to queue up according to military ranking.

By the time it was Team 3's turn, no one knew when that would be!

If they happened to meet with the demon tribe's attack on the next day again, and go into battle, it would be held back once again.

Now, Huang Yueli could tally the military merits for her team on the spot. This was simply no different from cutting the queue!

Her wrist flipped and retrieved a handful of devil stones from her realm ring.

Everyone looked at her, so she only moved a little and everyone could see the things in her hands.

"Wow, devil stones! These are really devil stones!"

"The quantity seems quite a lot. There should be around 30 to 40 pieces!"

"At least 40 pieces! Moreover, there are 2 Earth Devil's devil stones in it!"

Everyone was so surprised that they couldn't help but shout out.

But some of them were still suspicious of Huang Yueli and tried to dampen her enthusiasm. "So what if there are just 40 and more devil stones? Didn't he say that there are more than 200 pieces? That's just 20%! What's this amount.... wh... what...!!"

However, before that person could finish his sentence, his words were stuffed at the back of his throat!

After Huang Yeuli placed those devil stones on the coffee table in front of Li Yukun, her wrist flipped again and another handful of devil stones was taken out from her interspatial ring!

This handful of devil stones had a similar quantity to the previous handful. But there were four Earth Devil stones instead of two!

Before they could come back to their senses, they saw Huang Yueli grabbing the third handful of devil stones!

After that, the fourth, and the fifth...

It was until she took the sixth handful that Huang Yueli finally stopped.

"Here are the devil stones that our Team 3 collected from killing those devils. All of you can go ahead and count to see how many are there!"

After Huang Yueli finished saying that, she walked to the side and vacated the position in front of Li Yukun.

The practitioners present were stunned, as they stared fixedly at the devil stones on the coffee table.

Those devil stones had piled up into a small hill.

Li Yukun swept a glance at the dumbstruck audience, sighed, and said, "Commanders, please come over. All of us will count the quantity of these devil stones. This is in case some people accuse This Divine Lieutenant of being unfair!"

"This Subordinate doesn't dare to!"

"This Subordinate doesn't dare to!"

The Commanders hurriedly responded.

But as they were simply too curious, they couldn't help but crowded around.

Chapter 3089: Genius Commander (1)

Eight Commanders walked up together and crowded around the small table.

The Team Leaders on the exterior totally couldn't see the situation at all. All they could see was the commanders' hands moving. They should be counting the quantity.

The Team Leaders looked at each other in dismay, and couldn't help but whisper among themselves.

"How is it? How is it? Can you see the commanders counting the devil stones?"

"I can't see at all! But that large pile of devil stones should be more than 200 pieces! I didn't expect Li Yuehuang to be so incredible. He did kill so many devils..."

"Didn't you hear him say? He's not the only one who killed all of them. That was the fruit of labour from his Team 3!"

"Team 3 soldier's abilities are just that, they aren't any stronger than your team or mine, isn't it? Can you bring your team and get more than 200 devil stones a day? In the end, isn't it because their Team Leader is much more capable?"

"What you say is logical! But I really didn't expect this! That Li Yuehuang looks very ordinary, and he doesn't seem to have much ability. Why is he so powerful?"

"How would I know? I heard that Divine Lieutenant personally chose him to be a Team Leader..."

Just as the Team Leaders were whispering to one another, the eight Commanders and Li Yukun had already finished tallying the devil stones.

The Commanders dispersed and walked back to their seats.

Li Yukun coughed slightly and personally announced the results.

"Team Leader Li, the total amount of devil stones that you have obtained is 238 pieces."

This figure was very close to the figure that Huang Yueli had initially reported.

Those practitioners all gasped unanimously.

After Li Yukun and so many Commanders tallying the figures together, no one had any further doubts. They could only admit that Huang Yueli was indeed an astonishingly capable genius!

Li Yukun asked again, "But the number of Earth Devil's devil stones that you brought out is slightly wrong."

"Wrong?" Huang Yueli blinked and said in surprise, "That's impossible! I counted the Earth Devil's quantity personally! I couldn't have remembered wrongly!"

Hearing that, the other practitioners immediately pricked their ears, feeling that there should be some inside story.

"Could it be that although he brought out sufficient devil stones, those were just ordinary devil stones and the quantity of the Earth Devils wasn't as many as what he initially said?"

Then again, to be able to bring out more than 200 devil soldiers' devil stones was already an amazing achievement.

However, it wasn't as shocking as bringing out 21 pieces of Earth Devil's devil stones!

One had to know that killing an Earth Devil was extremely difficult. It was equivalent to 20 to 30 times more difficult than killing a devil soldier!

Everyone stretched out their necks, wanting to take a look at the pile of devil stones on the coffee table.

Unfortunately, Li Yukun was standing right in front of it, totally blocking the devil stones behind him. So they couldn't see anything at all.

Li Yukun smiled and said, "Team Leader Li, don't be mistaken. I mean... the devil stones that you took out, there's a total of 22 pieces of Earth Devil stones! There's one extra as compared to what you said earlier! Looks like your memory isn't good enough!"

"What? 22 pieces!!!"

The practitioners in the main tent cried out in surprise!

When Li Yukun said the devil stones' quantity was incorrect, everyone's first reaction was that there was a shortage.

Chapter 3090: Genius Commander (2)

No one expected the devil stones to increase instead!

Huang Yueli had a shocked look on her face. "What? 22 pieces? How is that possible? I really did count... ah!"

She suddenly thought of something and her eyes widened.

“Right, I remember now. Earlier when we were guarding the granary, I killed an Earth Devil and retrieved his devil stone. Earlier, the quantity that I tallied was after we were done protecting the granary, those resource transportation devils that we killed in the forest.”

“I see!” Li Yukun nodded.

The other practitioners were shocked but quickly understood what was going on.

This time, in front of the truth, no one dared to say that Huang Yueli was boasting.

But everyone still had plenty of doubts.

Li Yukun was no exception as well.

He got someone to move a chair over and indicated for Huang Yueli to take a seat. Then he asked, “I didn’t expect your team to kill so many devils under such a messy situation on the battlefield! But I don’t quite understand. Are these devils really found by you guys in the southeastern part of the forest?”

Huang Yueli nodded and explained, “Initially, I didn’t think too much. I just feel that the main battlefield was very messy and there are a lot of human soldiers. Even if we were to join in the battle, we won’t be able to earn many military merits. But it’s different in the forest. Although the resource transportation devil soldiers are scattered, as long as we can find them, they will become out military merits!”

Although this sounded rather unorganized and undisciplined.

But it was extremely sincere.

Li Yukun stared at her for a moment, but he wasn’t angry. “I know. But the forest is dim and your senses aren’t as good as the demon tribe. How could you possibly find so many devils? Moreover, you managed to kill them successfully?”

Huang Yueli didn’t hide the information and described the situation to them.

“Finding these devils isn’t difficult actually. I merely did some reverse thinking. If I’m a devil and need to transport resources in the forest, I also have to evade humans spying on us. So what should I do? Which route should I take? After I’ve thought through this, searching for the devils is much easier!”

Huang Yueli briefly concluded her experience.

“Army provisions will easily spill out, so the transportation route must be relatively flat. Only the place in the forest where the purple leaf camphor grows would have such a spacious path...”

“Also, when transporting Spirit Armaments...”

As she spoke, the commanders and team leaders revealed an astonished expression.

It seemed as though this was their first time hearing such logic.

Moreover, Huang Yueli’s deduction made all of them convinced. Some of them even felt that they were extremely stupid!

Before someone pointed it out, they just couldn't understand certain matters. But once it has been pointed out, they felt that it was so simple that they couldn't believe why they hadn't thought of it in the first place?

All the commanders and team leaders felt the same way at this very moment!

Li Yukun was totally engrossed, and the more he heard, the brighter his eyes were! He stared at Huang Yueli without blinking at all.

His eyes were filled with joy!

Those who could kill Earth Devils meant that Huang Yueli's innate talent in cultivation was not bad. Although it was very good, there was a limit to her contribution towards the allied armies.

But now, Huang Yueli's analysis reflected the fact that she was extremely proficient in analysis and observation.
