

Weaponsmith 3091

Chapter 3091: Genius Commander (3)

This innate talent was much rarer and more valuable than those people with pure innate talent in cultivation!

Those who had great foresight and could distinctly judge both parties' situation were not commonly seen, even in the entire allied armies' system!

As long as they found someone like that, that person would receive the allied armies' focused training.

Li Yukun didn't expect this young human practitioner that he had inadvertently taken in to have such outstanding talent.

The more he listened, the more delighted he was.

When Huang Yueli finished talking, Li Yukun nodded his head and said, "So it's like this. Your analysis is extremely accurate! But I have a few doubts. Have you ever been on the battlefield in the past? If not, how do you know so much?"

The other commanders also had the same doubts and all of them turned to look at Huang Yueli.

Even veterans like them with so much experience didn't have that much knowledge like Huang Yueli!

She blinked and answered truthfully, "This is the first time I took part in the battle against the demon tribe. In reality, I've just ascended from the Lower Realm to God Realm just a couple of months ago..."

"What? You're a Lower Realm ascender??"

"How is that possible??"

Huang Yueli's words were so shocking for everyone that it seemed as though they had been struck by lightning!

"A Lower Realm Ascender!!"

Although it wasn't clearly stated, in God Realm, Lower Realm ascenders had always had the lowest status. No matter if it was in terms of innate talent, experience, or even cultivation methods, a majority of the Lower Realm ascenders just couldn't be compared with the local humans who were born in God Realm.

But there was no doubt about Huang Yueli's innate talent in the art of cultivation. Just based on the shocking amount of devil stones she took out, it was very obvious.

Not to mention that she could accurately judge the movement of those devils on the battlefield...

"In this case, you found so many devil soldiers on the battlefield based on your instinct and analysis?" Li Yukun looked at Huang Yueli with an appreciative gaze.

Huang Yueli nodded and replied, "I guess... you can put it in that way..."

The more Li Yukun looked at Huang Yueli, the more satisfied he was.

At the same time, he thought of another matter. "Based on what I know, the small devil team would have at least one or more Earth Devil assigned as their team leader. Sometimes for even more important missions, they require a few Earth Devils to work on the assignment together. This time, haven't you met with the situation where there were a few Earth Devils in the team?"

Hearing that, the practitioners around started to whisper again.

"That's right, if they met with a few Earth Devils, based on Team 3's ability, they wouldn't be able to fight with the enemy, right?"

"Could Li Yuehuang be able to fight against a few Earth Devils simultaneously? Based on his cultivation, can he really do it?"

"Strange, it's too strange! Could he have some other tricks up his sleeve?"

Especially for the other Team Leaders like Huang Yueli, they were full of doubts.

If they were in her shoes, even if they met with the demon tribe team transporting the resources in the forest, they wouldn't dare to attack. Instead, they would be running for their lives!

Under everyone's attentive gaze, Huang Yueli slowly said, "Earlier I've already mentioned this. The Earth Devils are jointly killed by my entire team! Most ordinary devil teams have three to four Earth Devils. My soldiers were able to hold 3 of them back and I will kill the remaining one alone!"

"Impossible?!"

"Team Leader Li, isn't what you say a little too ridiculous?"

Chapter 3092: Genius Commander (4)

Huang Yueli had just finished talking when she heard the practitioners voicing their doubts.

They already knew that she had the special ability to kill an Earth Devil. So it wasn't surprising at all. What made the others unable to accept was the other contents that she mentioned.

"Team Leader Li, just be frank if you don't wish to share the battle experience with the demon tribe! That's nothing outstanding anyway! Why must you lie?"

"That's right. If you were to say that you killed two Earth Devils on your own, I can still believe that. But you said that your ordinary soldiers managed to hold off three Earth Devils??"

"That's equivalent to an average of a dozen soldiers holding on to an Earth Devil... how is that even possible?"

The main tent officials didn't believe in this. They felt that Huang Yueli was concealing her true ability, and didn't want to let them find out about it.

Huang Yueli was rather helpless upon hearing that.

To be honest, based on her current ability, she indeed was able to kill five Earth Devils on her own. But that would require the coordination of mechanisms and arrays. Moreover, she had to grasp the opportune time and take a major risk.

So, Team 3's coordination with her was indispensable.

What she said was even more genuine than a real pearl!

Alas, no one believed in her.

Even Li Yukun also showed a troubled expression. "This... alright, since you're not willing to tell us, then let's forget about it..."

A true genius would more or less have their secrets. Li Yukun understood this mentality very well.

Huang Yueli didn't know if she should laugh or cry upon hearing this. "This... Divine Lieutenant, it's not because I'm unwilling to share! What I said earlier is true. Even you don't believe in me?"

Li Yukun looked at her with a puzzled look.

"It's not that I don't believe in you, but... based on 40 to 50 tenth stage realm or lower ordinary soldiers, it doesn't seem possible for them to fight against three Earth Devil, right?"

When he said that, Li Yukun suddenly paused for a moment and continued, "Unless..."

His eyes widened and looked at Huang Yueli in disbelief.

"Unless... surely not right? You... don't tell me you know how to use the method of formation transformation?"

Hearing what Li Yukun said, Huang Yueli was stunned.

"Ughh... why are you so shocked? The method of formation transformation... isn't that something that every soldier must grasp? Otherwise, why do they have drills on those formations every day in the campsite?"

After Huang Yueli said that, she turned and looked at her surroundings.

In the end, she received a gaze as though they were looking at a monster.

Huang Yueli blinked, realizing that she seemed to have said the wrong thing.

"This... this... don't tell me that it shouldn't be like this?"

Li Yukun had already started to understand what was going on and shook his head helplessly. He sighed and said, "Of course, it's not! Ordinary formation transformation would make the practitioners display power which far surpasses their cultivation and ability. This is something that everyone knows, but there are not many people who can do this! Otherwise, there wouldn't be so few famous commanders in the allied armies!"

Following that, he gave Huang Yueli a simple explanation.

After Huang Yueli had finally understood what was going on, she realized that she had just accomplished an astonishing feat!

In God Realm, Array Masters was an extremely scarce and noble occupation.

Chapter 3093: Genius Commander (5)

Only those with excessive soul trace than ordinary people were able to become Array Masters.

As for the formations which were commanded by practitioners, it was the most esteemed and most difficult portion of array skills.

Because based on the formation arranged by the array patterns and magical beast cores, the flow of energy within was stable. As long as it had been calculated beforehand, one would be able to control it with precision.

But humans were different.

There was no way to predict the amount of ability displayed by every single practitioner in the formations which were grouped based on humans, and the fluctuations that might be given out with each attack.

As a Commanding Officer, one had to acutely detect the variations within and adjust them accordingly based on the actual situation.

Moreover, during the battle, the opponent's situation was also ever-changing. So there was no way to predict it in advance.

The Commanding Officer had to adapt based on the enemy's attack and make the necessary changes. That person would also need to understand each variation of the formation, as well as the practical and different uses of it.

To the Commanding Officer's innate talent, the intensity of his soul trace or even mental power, the requirement was ridiculously high.

Very few people were able to reach this standard, even among practitioners with outstanding innate talents.

Generally speaking, after the practitioners had accumulated sufficient military merits, those who wanted to be promoted to a Commander rank had to receive the systematic training. The most important content within was to learn the various uses of formations.

This was the crucial difference between an ordinary practitioner and a Commanding Officer.

Many of them were even able to kill the Earth Devil mid-phase or end-phase top expert on their own. But if they were asked to command a team to kill an Earth Devil early-phase, they couldn't do it at all!

Not to mention killing an opponent whom they had to kill via teamwork!

Li Yukun was a proficient formation transformation expert. It was this ability that allowed him to rise steadily to become a Commanding Officer in one of the most important strongholds in the frontlines.

It was also because of this that he could tell how high the difficulty was for Huang Yueli to command ordinary soldiers to kill the demon tribe!

The fact that Huang Yueli had yet to go through the systematic training but had such a standard of commanding meant that she had relied on her ability to work things out.

This meant that she would definitely become an extremely outstanding allied armies' Commanding Officer in the future.

Perhaps, she would attain even greater achievement than Li Yukun!

Li Yukun's burning gaze was fixed on Huang Yueli as he said, "Then tell me how did you proceed with the formation transformations? How are you able to hold off those Earth Devils based on those ordinary soldiers?"

"This isn't very difficult actually..."

Huang Yueli felt that there was nothing much to hide and just repeated those instructions that she had said in the forest.

Moreover, she even carefully added in some explanations because she was worried that the practitioners by the side couldn't understand what she was saying.

When she spoke, all of the main tent's practitioners, no matter if it was a Team Leader or a Commander, pricked their ears and listened to her attentively. They were worried that they might miss out on a single word!

Even for those who originally couldn't understand the importance of the formation transformation, after they saw Li Yukun's reaction, they knew that what Huang Yueli was about to say was going to be extremely important content.

However, after listening for a while, the majority of those practitioners were all in a daze.

Although they tried their best to listen...

"What on earth is he talking about?"

Chapter 3094: Genius Commander (6)

They understand every single word on their own.

But when it was put into a sentence, they couldn't understand it at all!

As compared with those ordinary bewildered practitioners, Li Yukun was indeed an expert.

He nodded while listening to Huang Yueli's narration and the admiration in his eyes was unconcealable!

"Not bad, not bad! I didn't expect you to have such innate talent in formations! Adding on that your judgment of the battle situation is so strong! Lad, you have a limitless future ahead of you!"

Li Yukun rarely praised his subordinates so outright.

So, those practitioners in the tent all showed envy and jealousy upon hearing him praise her.

Unfortunately, none of them could refute this at all!

No one had any doubts over how capable Huang Yueli was right now!

Li Yukun praised Huang Yueli once again before allowing her to return to her original seat.

He coughed slightly and said, "Now, does anyone have any doubts over Li Yuehuang's explanation?"

Everyone shook their heads, not daring to say a word.

Those people who doubted Huang Yueli at first were given a slap on their faces by the truth. So who else would dare to spout nonsense again?

Li Yukun said, "Since that's so, my dear officers, we'd better discuss what strategy to take next! As per what Team Leader Li said, the demon tribe's commander had sent out a lot of devil soldiers who were responsible for transporting the resources. He managed to consider every aspect so clearly, so he's definitely not a newbie! His judgments made on the battlefield were extremely precise, but... he probably didn't expect our army to have a person like Team Leader Li!"

"This Divine Lieutenant's intention is when facing such a powerful enemy, it's best that we focus on defense and not underestimate them. My dear officers, what do you think?"

Li Yukun raised his suggestion, stopped, and looked at the other Commanders for their views.

The main tents' practitioners then came back to their senses.

The original plan to come to Li Yukun's tent was to discuss the next battle strategy!

In the end, Huang Yueli popped out in the middle of their discussion and displayed such astonishing ability!

The main topic was already led astray and everyone's attention was focused on her instead. They almost forgot why they came for!

Knowing that Li Yukun had given his suggestion, everyone then realized what was going on.

The few Commanders thought over it for a few seconds and when they spoke up again, all of them agreed with Li Yukun's idea.

"What Divine Lieutenant said is right! This Subordinate also doesn't agree to take the risk and attack!"

"The demon tribe has two Sky Devil grade top experts, and one of them has such a high level of command. We might not be able to hold the fort even if we just focus on defense alone. Of course, we shouldn't take risks casually!"

"This Subordinate feels that the entire army should take turns in defending. As long as manage to defend our stronghold and persist for some time, the demon tribe would retreat once they can't breakthrough!"

Originally those Commanders didn't dare to speak recklessly and were planning to make Huang Yueli become the scapegoat.

Whoever knew that Huang Yueli was so capable. Not only did they fail to make use of her, she even got into the limelight!

Now, there wasn't anyone to become the scapegoat, and the crowd realized how powerful the demon tribe army was. Furthermore, Li Yukun had raised his view.

The Commanders naturally chose to follow Li Yukun's suggestion.

In this way, if anything were to happen, they wouldn't be held responsible for it.

Chapter 3095: Variables (1)

Moreover, when most of them heard that there were two Sky Devil top exponents in the demon tribe, they were scared witless. They originally didn't want to leave the campsite to take the risk. All they wanted was to use the campsite's surrounding arrays to save themselves.

It wasn't that Li Yukun didn't know about their true intentions.

But he didn't have any better choice, hence he could only make this decision.

"Alright, since no one has any objections, then from tomorrow onwards..."

"Divine Lieutenant, please wait a moment!"

Li Yukun was just prepared to shut the campsite tightly when a voice suddenly rang from the corner of the tent, interrupting him.

Everyone was stunned!

Right when they thought Li Yukun had announced the conclusion and everyone could be dismissed, no one expected an opposing voice to ring out at this crucial moment.

The Commanders looked at one another and discovered that this voice was not from any of them.

"Divine Lieutenant, This Subordinate feels that there's something wrong with sealing the campsite now."

Li Yukun looked at that person and asked in surprise, "You are... Xi Yunxia?"

Everyone looked at Xia Yunxi. To them, Xia Yunxi and Huang Yueli were the new, unfamiliar faces.

But as Xia Yunxi was rather handsome when she dressed up as a man, she was rather captivating. Before today, the number of people who knew her was a lot more than those who knew who Huang Yueli was.

Xia Yunxi cupped her fists in greeting and said, "Yes, This Subordinate is!"

Li Yukun frowned slightly and asked, "Why do you feel that we shouldn't seal off the campsite urgently?"

Xia Yunxi explained, "This Subordinate feels that although there are two Sky Devil top exponents, one of them is on the verge of advancing. So basically, he wouldn't personally appear to fight. Hence, our enemy is only one Sky Devil! Moreover, the demon tribe knows that they have two Sky Devils, so they will definitely assume that we will not dare to strike back. Now is the time when their defense is at its weakest!"

"If we do it the other way around and give them a strong attack, the devil army might be caught off guard!"

Hearing that, Li Yukun went into a daze.

But he pondered over it for a moment and shook his head.

“What you say is reasonable, but have you ever thought that even if their defenses are weak, they still have a Sky Devil top exponent. Even if we sneak an attack, it is practically impossible for us to win! Unless you have some other idea to deal with the Sky Devil!”

Even if it was a Sky Devil early-phase devil, that was still equivalent to a human’s Dao Profound Realm early-phase practitioner.

In this campsite, the person with the highest cultivation, which was Heart Profound Realm end-phase, was Li Yukun.

The difference between Heart Profound Realm end-phase and Dao Profound Realm early-phase might only be a small realm, but the disparity in power was astonishing!

Adding on that Li Yukun wasn’t a Divine Lieutenant based on battle power. His advantage was reflected in commanding. If it was based on battle power, he was relatively weak among the Heart Profound Realm end-phase practitioners.

So everyone felt that it was a whimsical idea for the human army to defeat the devil army.

Xia Yunxi was also stumped.

She frowned and asked, “This.... This Subordinate hasn’t thought of an idea. But if we stay in, the devil army would not retreat on their own. Once the other Sky Devil advances into Sky Devil end-phase, we will not be able to hold the fort here too!”

Chapter 3096: Variables (2)

Hearing that, everyone in the main tent went silent.

Xia Yunxi’s words were extremely reasonable, and some of them had thought of this as well.

Even if they didn’t think of it from the start, they started to understand after her explanation.

Although there might be two Sky Devils eyeing the campsite, one of them was still in the middle of advancement after all. Hence, the campsite still wasn’t in its most critical situation.

The minute another Sky Devil came out of his closed door cultivation and the two Sky Devils joined hands, eliminating this small stronghold was as easy as snapping their fingers. By then, no matter how they defend, it would be useless.

So Xia Yunxi’s point of view was to attack the enemy while the other Sky Devil was still in closed door cultivation!

But facing this suggestion was a real problem. That was— they couldn’t even eliminate one Sky Devil! If they attacked them first, there was a possibility that the result would end up in the entire army being annihilated...

As the saying went, no matter what they did, they were in a tight corner.

It seemed that no matter what choice they made, the result of the campsite would eventually end up in destruction.

But humans would always have the mentality to save their skins. Although they knew that delaying would end up in the same result, most of them would still choose to drag until they couldn't drag on any longer...

"Team Leader Xia, I cannot agree with your viewpoint! The possibility of failure if we attacked automatically is even higher. By then, the campsite will immediately be lost! But if we take the defense strategy, we will be able to hold on to it for some time!"

"That's right. Perhaps the Sky Devil mid-phase would fail during his advancement and go into Qi Deviation? Then the demon tribe will automatically retreat!"

"We can continue to send someone to Blessed City to ask for reinforcement. Perhaps when the armies from the other strongholds see our letters asking for help, they would send reinforcements!"

Hearing the Commanders rebuking her, Xia Yunxi's expression slowly turned cold.

She thought inwardly, "These people are only thinking of how to survive longer, and don't even wish to take such a big risk! They're even hoping that they would get lucky and be saved!"

"But even if that Sky Devil top exponent fails in his advancement, will the devil army retreat?"

"The greater possibility was that the entire demon tribe would be activated to capture even more humans to be refined into blood pills to nourish that Sky Devil, no?"

"As for reinforcements, Li Yukun had already sent out so many men to ask for reinforcements. But until now, none of the reinforcements appeared!"

"It's so obvious that either those people had been killed or the other campsites had also met with a huge wave of attack from the demon tribe. None of them were able to care about them!"

"Under this kind of situation, instead of carrying such an enthusiastic mentality of self-rescue, they're still having unrealistic illusions of being saved..."

"Do these people not want to survive?"

Xia Yunxi didn't bother to argue with these people but looked at Li Yukun enthusiastically.

"Divine Lieutenant, what do you think?"

Li Yukun heard their voices and hesitated for a moment before he finally said, "Even if we want to attack them first, we can't act recklessly. We will need a detailed plan before we take action! In this period, we'd better continue with the strategy to defend our stronghold first. Fully activate all the defense arrays, and notify all teams that they are not allowed to step out of the campsite!"

"Divine Lieutenant is wise!"

"We will adhere to Divine Lieutenant's command!"

Hearing that, all the Commanders heaved a sigh of relief and hurriedly responded.

Xia Yunxi showed a disappointed look and back down.

Chapter 3097: Variables (3)

After the meeting ended, all the officers retreated out of the main tent.

Huang Yueli walked next to the silent Xia Yunxi and gently tugged her sleeve.

“Yunxi!”

Xia Yunxi turned and looked at her, showing a faint smile on her face. “It’s you! Yueli, you’re in the limelight today! I didn’t expect you to kill so many devils! Tsk tsk, those self-acclaimed god clan Commanders were all shocked by you! Ha ha ha ha!”

Huang Yueli’s lips curled up slightly and smiled, “Don’t say these! I know that the rewards you reaped today aren’t any lesser than mine. It’s just that you don’t like to be in the limelight!”

If she could find so many devil soldiers, it was even needless to say for Xia Yunxi, The Chosen One!

Moreover, Xia Yunxi’s prediction could assist her in finding the most suitable targets.

Sometimes, she might misjudge, making a critical error and meet with a team with many Earth Devils. But Xia Yunxi need not worry about this trouble at all.

So the efficiency of Xia Yunxi earning military merits wasn’t any lower than hers.

As expected, Xia Yunxi smiled and did not refute what she said.

“I think it’s time to shave off those god clan Commanders’ drive! They simply look down on us! Earlier when they mocked you, I almost blew up! Thank God you have a good temper and could explain to them properly.”

Huang Yueli shrugged and said, “I’m usually not that good-tempered. But we’re like an ant on the rope in comparison to those Commanders. So we won’t get any advantage if we fall out with them! Everyone’s trapped in this godforsaken place, and we might not even be able to escape. So I don’t want to cause internal strife.”

Hearing that, Xia Yunxi kept away her smile.

“What you said is right. We’re in deep trouble! As compared to a life-threatening situation, there’s no need to argue with those superficial fellows!”

Huang Yueli observed her expression and probed, “Yunxi, I know you don’t like to stand out in the limelight, but you stood out today suddenly... have you sensed something?”

Li Yukun and the others don’t know Xia Yunxi’s background, so they ignored her suggestion.

But Huang Yueli was well aware that Xia Yunxi was The Chosen One. A casual word from her would probably be the will of Heaven, moreover such a serious suggestion?

Xia Yunxi sighed slightly. “You know me best. I didn’t expect Divine Lieutenant Li who holds commanding power to be so timid. He doesn’t even dare to take a little bit of risk!”

Huang Yueli turned around and surveyed their surroundings only to realize that there were a lot of people around.

Huang Yueli hurriedly dragged Xia Yunxi to the corner. When she saw no one else was around, she asked, "In this way, keeping guard at the campsite is very dangerous?"

Xia Yunxi nodded and replied, "You understand the situation of the demon tribe. I have a very clear premonition that the longer we drag, the more disadvantageous the situation for us!"

Huang Yueli naturally didn't doubt her. After listening to what she said, she couldn't help but frown.

She muttered to herself irresolutely, "But what Divine Lieutenant said isn't without reason as well. If we want to deal with that Sky Devil, we definitely need to pay a heavy price for it! It will be very difficult for you to convince Divine Lieutenant..."

Xia Yunxi nodded slightly. "My trigram also shows that my suggestion today will not pass through. I merely can't help myself from giving it a try."

Chapter 3098: In The Dark Night (1)

Xia Yunxi didn't dare be careless with the matters concerning the campsite's practitioners' future and lives. Nor would she speak without thinking.

These few days while she was in Team 4, other than training the soldiers in her team, she purposely found some time to do some divinations.

The trigram showed the current situation in the campsite as rickety. They might be annihilated completely at any moment!

"... but, there are many variations for the future development, and there might be a chance that we will take a turn for the better. That was why I decided to suggest attacking first in the meeting. I hoped that it could change the fate of the campsite."

After Xia Yunxi said that, she couldn't help but sigh again.

Huang Yueli said, "Looks like your plan failed... Divine Lieutenant would persist in defense, so how do you think things will develop from now on?"

Although Li Yukun said they were taking the temporary measure of defense in the meeting.

But Huang Yueli knew clearly that they had just obtained a victory. If those Commanders don't take the opportunity to strike the iron while it's hot, then after the campsite was sealed, it would be even more difficult to work up the courage to battle!

The conclusion would be to drag on endlessly until the devils come knocking on their doors.

Xia Yunxi apparently thought so as well. Her lips pouted and said, "The situation is terrible! It wouldn't take long before another huge crisis will strike the entire campsite! If we can't survive that, everyone will be done for! If we manage to survive this, perhaps, we might get a chance to turn defeat into victory..."

“A huge crisis? Don’t tell me the demon tribe will make a breakthrough into our campsite?” Huang Yueli asked as she frowned deeply.

Xia Yunxi nodded and replied, “That’s possible! So, the two of us have to be very careful!”

Based on their experience and power, even if the campsite turned topsy turvy, they knew that they could escape unscathed.

But anything was possible on the battlefield. The moment they underestimated the enemy, even a Dao Profound Realm top exponent might die!

Huang Yueli nodded her head earnestly.

The two of them went on their ways.

The next few days were very peaceful.

The demon tribe seemed as though they had suffered a serious blow in the previous battle, so they hadn’t appeared in the past few days.

As for the practitioners in the campsite, they were originally very anxious and flustered that the demon tribe would attack them.

But after a moment of peace, they started to relax. Some of them even felt that activating the defense arrays throughout the day was extremely safe. They need not be so focused when they were standing on guard duty.

Huang Yueli and Xia Yunxi saw this but had no stand to say anything much. They could only intensify the drills of their teams.

As the two of them earned a lot of military merits when they led their subordinates on the battlefield previously, the two teams’ members were convinced by their Team Leaders. So when they trained, they were extremely serious and focused.

Xia Yunxi specially looked for Huang Yueli to gain some knowledge on formation transformation. She was very intelligent and after Huang Yueli’s explanation, she quickly grasped the main points.

Time flew past swiftly and in a blink of an eye, a week had passed.

On a pitch-black night, Huang Yueli was already sleeping in her tent.

Suddenly, shrieks of terror reverberated above the skies of the campsite.

“Bad news, bad news! The demon tribe... the demon tribe is attacking our campsite!”

“Help, quickly help us! The demon tribe is here... AH!”

Miserable screams rang throughout.

Chapter 3099: In The Dark Night (2)

Huang Yueli sat up instantly and dashed out of the tent.

When she just stepped out, she tripped over something and almost fell to the ground.

Huang Yueli looked down and discovered that a human soldier's corpse was lying by her feet. Blood was still spurting out from his chest!

Apparently, this soldier had just died!

Huang Yueli frowned but before she could respond, the sound of an airflow was suddenly heard from her back!

She subconsciously turned and a ray of flame flashed past!

"Ah—!!"

Huang Yueli turned to the side and saw a devil soldier covered in flames crying miserably as he fell.

"The demon tribe actually managed to break into the campsite?" Huang Yueli's heart jolted and hurriedly ran out.

The campsite was already in a state of chaos.

Borrowing the ray of the dim moonlight, Huang Yueli could barely see a large number of devil soldiers brandishing their broad swords in front of the campsite's entrance charging in!

The allied armies' soldiers were apparently caught off guard and did not manage to defend in time. So in a second, many of them were either seriously injured or dead.

The human soldiers scurried around the campsite, and a number of them took out their weapons, wanting to fight back.

But in this dark night, the devils with incredibly strong senses gained the upper hand. Ordinary soldiers couldn't even see the devil's figures, not to mention fighting back. The result was very limited.

One by one, they fell.

Huang Yueli ran swiftly in the campsite and saw blood on the ground as well as the fabric on the tents.

The entire scene was no different from Hell.

While Huang Yueli was inspecting the campsite, several devils targeted her and suddenly sprang up from different corners to attack her.

But Huang Yueli's soul trace was exceptionally powerful. Those silly devils ended up as her military merits.

"Yueli! This side!"

Xia Yunxi's voice suddenly rang behind her.

Following that, Huang Yueli was dragged to one side by Xia Yunxi behind a pile of haystacks.

This was a blind spot and was rather well-hidden. So it would be hard to spot them.

Huang Yueli heaved a sigh of relief when she saw Xia Yunxi. "Yunxi, you're here! It's great that you're fine! What's going on now? How did the demon tribe break into our campsite?"

Xia Yunxi said, "I've been having a bad premonition today so even till late at night, I haven't gone to sleep. In the end, there was a commotion on the outside. It was said that those soldiers on guard duty were killed! I knew that things were not going well, so I was about to rush over to take a look. In the end, I saw the fire spreading in the campsite and a large number of devil soldiers charged into the campsite. They were starting to kill the humans!"

Huang Yueli frowned deeply for moments after listening to what she had said.

"Things aren't this simple! The demon tribe might have killed the soldiers on guard duty, but they shouldn't be able to break into the campsite so quickly! I've checked the surrounding defense mechanisms and arrays around the campsite myself. Even if the Sky Devil came personally, he would need to spend some effort before he can break-in."

Xia Yunxi heard that and shook her head. "I heard from the steward from the Supplies Station that as the defense mechanism was activated throughout the entire day, the consumption of materials and magical beast cores were too high! We didn't get any replenishment from Blessed City so we could only save up on the usage. Divine Lieutenant arranged for the sentry guards to patrol the outside and when it was safer, they would turn off the mechanisms for a short while at suitable timings."

Huang Yueli finally understood and said, "Looks like the demon tribe killed our sentry guards and took the opportunity while the defense arrays were deactivated and charged in."

Chapter 3100: In The Dark Night (3)

Xia Yunxi nodded and said, "I'm guessing that's the case!"

Huang Yueli couldn't help but sneer.

"If my memory didn't fail me, it should be that White Tiger Clan, Jing Zhihai's turn to patrol the campsite today, right? Doesn't he think that he is the Number One Top Expert beneath Divine Lieutenant? Doesn't he look down on the other Commanders? In the end, the sentry guards he dispatched had issued and almost got everyone killed! Can he hold the responsibility for this?"

Xia Yunxi also looked indignant. "That's right, if we manage to defeat the enemy this time, we must give him a severe punishment!"

Huang Yueli sighed and said, "Saying these now is of no use. We'd better think of ways to chase these devils out first!"

Xia Yunxi frowned. "This might pose some difficulty... the campsite's defense is mainly due to the arrays and mechanisms. Now that the demon tribe had already destroyed our arrays, the devil army is gushing over right now!"

Huang Yueli thought for a moment and said, "We can fix the damaged arrays! Luckily I went around to study the campsite's arrays a few days ago... How about this, let's go over to the defense arrays and take a look first?"

Xia Yunxi didn't object to it.

The two young ladies looked around and dashed out from the haystacks when the devils were not paying attention.

After going around a few tents, Huang Yueli suddenly stopped in her tracks.

Xia Yunxi was following right behind her and didn't expect her to suddenly stop. She almost bumped into her back.

"... Yueli? What's the matter?"

Huang Yueli said, "I saw someone familiar... Just nice, I was just thinking of gathering some soldiers, this is a good opportunity!"

On a vacant land between three tents, six to seven soldiers held their swords to attack the devils.

The leader of the group was Huang Yueli's Team 3's soldier, Wang Yuxin.

Xia Yunxi propped her head out and took a look, crying out instantly in astonishment. "This lad is your subordinate? I really can't tell from his looks that he's rather capable!"

When they ran over, they mostly saw the devils chasing and killing the humans. Only a small minority were fighting against the demon tribe. There were even lesser cases where the humans were having the advantage.

But now, the teammates that Wang Yuxin brought were fighting the devils!

Moreover, they lined into their formation, surrounded the devils who were greater in numbers, made use of the variations of the formation to form an encirclement, and finally killed the enemy!

Huang Yueli took a few looks at them and a smile broke out on her face. She nodded, "He's indeed capable!"

In this period, she had been training her team members, getting them to be familiarized with various arrays. She also specially picked a few group leaders like Wang Yuxin and Zheng Yichuan.

But she didn't expect Wang Yuxin's power of comprehension to be this high. It was only a few days of training and he could also operate the formation to direct his groupmates to fight!

Seeing Wang Yuxin and the others killed the last devil, Huang Yueli immediately walked over and called out to them.

"Team Leader!!"

Seeing Huang Yueli appearing, the soldiers revealed a joyous look!

Wang Yuxin dashed over and reported, "Team Leader, we've been looking for you! The demon tribe suddenly broke into the campsite and we were separated from our team. Now, we don't know if they're dead or alive... also, Team Leader, has the campsite been broken in? What... should we do now?"

The human soldiers had uneasy and terrified expressions on their faces.

Huang Yueli placated them and said, "Don't be too anxious. I've already got a plan."
