

Weaponsmith 3151

Chapter 3151: Young Lord Came Personally (6)

A worried expression also appeared on Jun Sihan's face.

"What you say is right! These two lasses' abilities are indeed not bad, but they have never gone on the battlefield before today. So they don't know how savage the demon tribe can be! Even if Sky Devil Rui Xuan was seriously injured, the demon tribe has many devious schemes up their sleeves. God knows what might happen!"

"Alright, let's stop wasting time and set off immediately!"

"Alright, let's go right now!"

Li Moying and Jun Sihan turned their heads, nodded at Li Yukun, and immediately walked away!

Li Yukun still hadn't recovered from his shock!

By the time he came to his senses, they were already a distance away. He hurriedly shouted, "Young Lord, Young Master Jun, you... please wait a moment, both of you! You're... you're just bringing these few people to the demon tribe's campsite? That's too dangerous!"

It was beyond Li Yukun's expectations that these two young talented geniuses were even bolder than their wives!

Each person only led a dozen over guards and they were storming towards the demon tribe's campsite?

This was akin to digging their own graves!

Li Moying's footsteps didn't halt, but he casually explained, "We've got enough people. Divine Lieutenant Li, don't worry and recover well. Just wait for us to bring them back!"

Li Yukun wanted to say something else but Li Moying and Jun Sihan had already sped off like a gust of wind, leaving the campsite swiftly.

"Sigh!" Li Yukun let out a long sigh again as he slumped onto the chair!

If it wasn't for his personal guards who were still stunned, he would think that this was a dream on this lonesome dark night!

Li Yukun thought inwardly, "Li Moying and Jun Sihan actually appeared in such a dangerous place like the frontlines? Moreover, they just brought so few people along? How did they even break into this place?"

"Moreover, they come and go as they pleased! They didn't even think twice about their identities!"

"If they got into an accident at the demon tribe's campsite, I will not be able to take on this responsibility! How am I going to explain to Clan Leader?"

However, Li Moying and Jun Sihan couldn't sense his feelings at all.

All they had on their minds were their wives!

Towards their wives' bold actions, they had the same thinking in mind. "When I catch them, I'll give her a good spanking then kiss her until she faints! Let's see if she will dare to do such things in the future again!"

"It seems that I've been too lenient recently. She's climbing all over the house!"

The more Li Moying thought, the angrier he was. He couldn't help but stare hard at Jun Sihan.

"Brother Jun, you... didn't you tell me previously that Sister-in-law is The Chosen One, and she's mature and calm? How can you deceive me!"

Jun Sihan looked very disgruntled as well. "Since when did I say that my wife is mature and calm? Must The Chosen One be mature and calm?"

"Don't you even have a son already? Sister-in-law is already a mother!"

"Must a mother be mature and calm? I'm going to see if your bold little wife will become mature after she gives birth to kids!"

Li Moying gagged upon hearing his words!

His Li'er... he could imagine that even after she gave birth, she wouldn't be any better. In fact, she might even lead the child astray!

Jun Sihan suddenly thought of something. "You have the cheek to blame me? How about you? Didn't you say Sister-in-law is graceful and gentle? Does a gentle lady talk about fighting every day?"

"Since when did I say she was gentle?"

Chapter 3152: Kill Rui Xuan, The Sky Devil (1)

"Didn't you say she loves to wear flowing dresses and is very beautiful?"

"That's when she doesn't talk or move!"

"Damn! You lied to me, you conman!"

"You're the conman!"

The two men couldn't help cursing at each other as they wanted to cry but had no tears.

The two of them assumed that the other party's wife would be a little more reliable hence they were assured with the two ladies leading a vagrant life outside for such a long time. From the looks of it now, they seemed to be extremely wrong!"

Their only wish was that they could reach the demon tribe's campsite in time and capture those two young lasses!

They prayed silently in their minds, "Please... don't let anything happen to them!"

...

Demon tribe's campsite.

Xia Yunxi looked at Sky Devil Rui Xuan who slowly got up, and felt her entire body's blood congeal in an instant.

Earlier, she witnessed so many Torrential Rain Shower Needles piercing accurately onto Rui Xuan!

Moreover, Rui Xuan fell to the ground instantly, so he should be injured. But why did this happen? Why did Sky Devil Rui Xuan not die on the spot? Instead, he even got up?

Just as she was feeling puzzled, Rui Xuan shook his body vigorously.

In an instant, multiple silver needles fell off his body!

It was only then that Xia Yunxi realized that there might be a lot of silver needles on Rui Xuan but none of it poked through his skin. In fact, it didn't even leave a single red mark on him at all!

Xia Yunxi's mind raced swiftly and instantly understood what happened.

A Sky Devil's defense was simply too powerful. Moreover, he should be wearing a Treasure Armament grade armor!

Of course, the spring mechanism that Huang Yueli gave them had very strong attack power. But the shooting distance still made a huge difference.

If the strike team's soldiers' distance between them and Sky Devil Rui Xuan was reduced by half, the attack power would be doubled! In this way, Rui Xuan would not be able to take on such a powerful attack, and would at least leave a wound!

As long as his wound was bleeding, he would definitely die!

This might be the logic, but not even Xia Yunxi herself dared to get even closer to him!

He was a Sky Devil! They were already risking their lives attacking from such a far distance away!

This attack's failure meant that Huang Yueli's entire plan would flop!

The crucial thing now was to retreat immediately, and save whoever could be saved!

By now, Sky Devil Rui Xuan had already got up. Moreover, he also realized that he had just been attacked, so he instantly flew into a rage.

"Damn it, who is that? Which scum dare to attack This Seat? Simply looking to die!! Damn human, how dare you attack me. You're dead!"

Sky Devil Rui Xuan roared and ran out of the tent.

"Retreat..." Xia Yunxi instantly made a decision.

"Wait! There's still a chance!"

However, a figure scuttled over from her back and a familiar voice rang beside her ears!

"Take this! Wait for my hint and when you find the flaw, attack him with full power!!"

Huang Yueli passed a reinforced version of the Torrential Rain Shower Needles spring mechanism and stuffed it into Xia Yunxi's hands. At the same time, her petite body sprang up and scuttered into Rui Xuan's tent!

"Yueli! You... what are you trying to do!! It's too dangerous, come back—!" Xia Yunxi was scared stiff and hurriedly stretched her hand to hold Huang Yueli.

But Huang Yueli's speed was simply too fast, and Xia Yunxi just missed her!

Chapter 3153: Kill Rui Xuan, The Sky Devil (2)

Xia Yunxi couldn't care about escaping for her life and instantly chased after her to run into the main tent's door.

She saw Huang Yueli dashing right in without any hesitation and crashed right into Sky Devil Rui Xuan who raced madly out of the entrance!

Xia Yunxi's breathing was so rapid that it almost stopped!

Huang Yueli's body swayed slightly and made a turn around Rui Xuan's body. As for Rui Xuan, he was so angry that he completely didn't discover that someone was in front of him earlier!

Xia Yunxi went into a blank and her gaze suddenly landed on Huang Yueli's right hand's finger.

She was wearing a blood-red ring on her finger — the Sky Devil Blood Ring!

She had almost forgotten that Huang Yueli had such a valuable treasure on her, which could make her invisible in front of a Sky Devil!

No wonder she was so bold as to dash right into the tent.

However, before Xia Yunxi could heave a sigh of relief, she saw Sky Devil Rui Xuan running towards her!

It was because he didn't see Huang Yueli who was invisible, but saw Xia Yunxi who followed in!

Xia Yunxi hurriedly moved aside and put up a defensive stance. It was too late for her to escape right now, so she could only forcibly take on Rui Xuan's attack!

But based on her ability, even if she had the high tiered Treasure Armament armor that Jun Sihan gave, she might not be able to survive!

Things... were really terrible now!

However, just as Xia Yunxi was feeling desperate, she caught sight of Huang Yueli from her peripheral vision. The latter suddenly jumped high up in the air behind Rui Xuan and she held a dagger with a piercing cold glint in her hand, aiming right at Rui Xuan's head!

Huang Yueli struck like lightning and she was also wearing the Sky Devil Blood Ring.

So Rui Xuan only managed to react when the dagger's blade was just two inches away from his head!

Now, he couldn't be bothered to capture Xia Yunxi. He hastily shifted his head to avoid the attack, and unleashed a burst of demonic qi towards his head!

Huang Yueli was struck by that burst of demonic qi and fell to the side. The dagger in her hand shifted and missed Rui Xuan.

However, her sudden attack had totally enraged Rui Xuan!

He roared madly and turned around, pouncing toward Huang Yueli's direction!

Huang Yueli quickly worked up her body movement Profound Skills and escaped with all her might. She practically used up all the energy that she could muster!

She was well aware that based on her cultivation, no matter how outstanding her body movements were, her speed could not match a Sky Devil! Moreover, now that the two of them were in such a small tent running about, there was no way she could escape at all!

But she had to persist!

As long as she could hold on for some time, there might be a turn for the better!

Because her trusted teammate was at the other end of the main tent!

Xia Yunxi didn't let Huang Yueli down as well. Her reaction was also very swift and her eyesight was extremely precise!

Seeing the Sky Devil Rui Xuan leaving her to chase after Huang Yueli, she instantly changed directions and ran towards Rui Xuan instead!

This time, she totally didn't bother about the demonic qi around Rui Xuan invading her body, and just dashed forward!

Just as they were under three meters apart, Xia Yunxi's right hand lifted and activated the reinforced spring mechanism that Huang Yueli gave!

"Whoosh whoosh whoosh whoosh—!"

The Torrential Rain Shower Needles flew out, giving off a sharp ear-piercing cracking sound in the air!

This sound was even louder than those hundred spring mechanisms activated simultaneously! It meant that the reinforced spring mechanism's speed was simply unimaginable!

Sky Devil Rui Xuan suddenly became aware. He turned around, intending to use his demonic qi to sweep away the silver needles!

Chapter 3154: Kill Rui Xuan, The Sky Devil (3)

However, the speed of the silver needles was simply too fast. Moreover, Xia Yunxi's distance was simply too near!

Before Sky Devil Rui Xuan could strike, the silver needles had already pierced right into his back!

Blood started to flow from the positions where he was stabbed!

"He's injured! He's really injured!" Huang Yueli's eyes lit up and swiftly retreated from the back!

She managed to escape in time, but Xia Yunxi wasn't that lucky.

To display the full power of the Torrential Rain Shower Needles, Xia Yunxi tried her best to go as near to Rui Xuan as possible. After she succeeded, she didn't have time to escape and was struck by the demonic qi that he hurled out!

Xia Yunxi's body fell towards the main tent's entrance!

Rui Xuan's anger spiraled after he was injured and ran in huge strides towards the door, wanting to tear apart Xia Yunxi who injured him!

Huang Yueli hurriedly chased after them to save her...

But before she could make a move, Rui Xuan's body suddenly swaggered and the expression on his face instantly froze.

Immediately after that, he fell onto the ground with a loud plop.

"Yunxi, Yunxi! How are you? Where are you hurt? Can you still move?"

Xia Yunxi opened her eyes and coughed. "Cough cough! I'm alright, but the demonic qi has entered my body and I feel a little stiff. Luckily I brought some pills along..."

She took out a medicinal bottle from her sleeve, poured out a few pills, and stuffed it all into her mouth.

After a short moment later, her complexion turned slightly better.

Xia Yunxi climbed up from the ground. "It's ok, don't worry. I'm fine! We'd better quickly leave this place first! Sky Devil Rui Xuan is the Commanding Officer here, so I believe someone will be here to look for him very soon!"

Huang Yueli nodded and said, "Okay!"

Earlier the strike that Xia Yunxi took on looked really serious. Huang Yueli believed that if she was the one who took it on, she would definitely be seriously injured.

She didn't expect Xia Yunxi to seem perfectly fine...

Their cultivations were almost on par, so Huang Yueli guessed that she must be wearing very high tiered armor on her!

But this was Xia Yunxi's privacy and Huang Yueli didn't probe too much. She was glad that Xia Yunxi was fine.

The two of them looked at Sky Devil Rui Xuan.

The demon tribe's figures were tall and huge. Rui Xuan plopped to the ground like a small hill.

But he was facing down, so it wasn't easy to judge if he was really dead or not.

The two of them stood by the side and observed for a little while, then Huang Yueli said, "We can't afford to think too much now because there's no time to waste. I'll go retrieve the devil stone now and quickly leave after that!"

Xia Yunxi nodded, "Be careful! Although my poison should have taken effect, he's a Sky Devil after all. It's still better to take caution..."

Huang Yueli carefully walked nearer and held Rui Xuan's shoulder to turn him around!

Rui Xuan's eyes were wide open as he stared straight ahead, as though he couldn't rest in peace. Apparently, he couldn't believe that he would die in the hands of two weak Dream Profound Realm practitioners!

Huang Yueli's lips curled upwards. "Rest in peace! Sacrificing just you to let so many of us earn the military merit, you should feel glorious!"

Xia Yunxi heard her illogical theory and couldn't help but burst out laughing.

"Enough, if you continue to talk, beware that Rui Xuan would be so angry that he comes back to life! Quickly dig out his devil stone and let's leave. I sensed some devils running over!"

Chapter 3155: Kill Rui Xuan, The Sky Devil (4)

Hearing that, Huang Yueli shrugged her shoulders and the dagger in her hand slashed down towards the position between Rui Xuan's eyebrows!

A light blue translucent devil stone landed in Huang Yueli's palm.

"This devil stone is actually translucent. It looks just like a crystal!" Huang Yueli couldn't help but gasp in admiration.

The devil stones that she saw in the past were basically dim and rough. If it wasn't because of the faint demonic qi contained inside, it would be no different from the roadside rocks.

Xia Yunxi explained, "So, this is a Sky Devil's stone! Different colors of the demon tribe's devil stones represent different attributes. Light blue means Rui Xuan is a water attributed devil. Moreover, the higher grade the devil, the lighter and clearer the color of the devil stone! I heard that if they reach the rank of a Devil Overlord, their devil stone will practically be transparent!"

"I see! This is my first time seeing a Sky Devil's devil stone! This time, we've also achieved killing a Sky Devil!" Huang Yueli let out a sky smile.

The two ladies smiled at each other, led their strike team members, and secretly made a detour to leave!

Killing Sky Devil Rui Xuan was the most dangerous and difficult part of their plan tonight.

Now that they had successfully killed Rui Xuan, the things that followed would be much easier to handle.

They would leave the demon tribe's campsite first and set off the signal bomb in the nearby forest!

...

Commander Hu, Command Xiao, and Command Yang led more than 2000 soldiers and were waiting nearby when they saw the rays from the signal bomb. They instantly understood that the strike team had succeeded in their plan!

The untouchable Sky Devil had already died in Huang Yueli and the others' hands!

"Heavens, surely it can't be true right? Commander Li and the others... have they really succeeded??"

"I simply can't believe it! There's not even one Heart Profound Realm practitioner in that small team of theirs, yet they can kill the Sky Devil? Even if the Sky Devil was seriously injured, it is also very hard to believe!"

"Moreover, their speed is really fast! We've just finished setting up the ambush and the signal appeared..."

The three Commanders looked at each other in dismay, each of them hearing an extremely stunned expression!

This matter was simply unheard of!

When they set off in the wee hours this morning, even they didn't believe that Huang Yueli's plan would succeed. They were merely strictly following orders, and there was no way to oppose them under her strict command.

But deep in their hearts, the three of them thought that Huang Yueli's plan was simply too crazy and risky!

But from the looks of it now...

"How on earth did he do it? That's... that's too terrifying!"

The scarier thing, as compared to Sky Devil Rui Xuan, was Huang Yueli who could formulate a plan to defeat the stronger party!

Commander Hu shook his head vigorously, casting the distracting thoughts out of his mind.

"Alright, alright, let's discuss these things after we gain victory! Now that Commander Li had already killed the Sky Devil, we must grab on to this golden opportunity!"

"Right, we must fight to earn enough military merits for our subordinates!"

"Let's go!"

The three Commanders exchanged a glance and swiftly ordered their soldiers to charge toward the agreed location!

When Huang Yueli entered the campsite, she had already damaged one of the defensive arrays.

After she set off the signal bomb, she and Xia Yunxi coordinated to damage the remaining few arrays.

One array after another occurred. Even a fool would come to understand that this was the work of the allied armies!

Chapter 3156: Kill Rui Xuan, The Sky Devil (5)

The demon tribe's Commanders who came to their senses immediately rushed to the main tent, hoping to report to Sky Devil Rui Xuan.

But in front of them was Rui Xuan's cold and stiff corpse.

His dead body was facing upwards, and the devil stone inside his forehead had already been dug out.

"Damn it! It's really those lowly, despicable humans! They actually intruded into our campsite!"

"Even Lord Rui Xuan was killed by them! How can this be possible? Their campsite's Divine Lieutenant is also seriously injured, so there shouldn't be anyone who is a threat to Lord Rui Xuan, isn't it?"

"When did they even come in? Why didn't we catch a glimpse of them at all?"

Rui Xuan's death gave all the devils a tremendous shock! Many of them were impacted badly!

They couldn't believe that a powerful and noble Sky Devil had actually died so quietly...

They thought silently, "Since when did such a powerful expert appear in the allied armies??"

"With this top exponent around, how are ordinary devils like us going to find a way to survive?"

Just as the demon tribe's Commanders were feeling terrified, a devil soldier rushed in stumbling while shouting, "Commanders, bad... bad news! The allied armies' soldiers are charging into our campsite!"

"Those lowly humans are indeed here! They're simply looking to die!" One of the devil commanders asked fiercely, "How many people do they have? Which direction did they attack from?"

"Re... Reporting to Commander, they brought too many people. Every... everywhere is full of them! There are at least a few thousand of them! Moreover, the campsite's surrounding arrays have all been damaged and they're attacking from different directions. They're everywhere! I... I really don't know the exact numbers!"

"Damn it!"

Hearing this reply, the devil Commanders' expressions turned extremely ghastly!

"What on earth is going on? That Li Yukun's guts had always been smaller than an ant's! Moreover, he's injured today so logically speaking, he wouldn't dare to come out! When had he ever dared to sneak an attack on our campsite?"

"I think it must be some top exponent from the allied armies? Even Lord Rui Xuan is also killed by him!"

"How can this be possible?"

"Let's stop talking about this first. Let's quickly go out and teach those allied armies' scums who dare to barge into our campsite a lesson. Then we'll turn all of them into blood pills!"

"That's right, the allied army's soldiers' abilities were originally weaker than ours. So what if they have a top exponent? We will win for sure!"

The devil Commanders rushed out, hoping to kill all the allied armies' soldiers at one go!

However, when they reached the campsite, they realized that the allied armies' strategy was different from the past!

In the past, when both armies met, the devil army's attack power was so strong that the allied armies' formation would disperse very quickly.

Leaving out the formation coordination, based on one's battle power, the demon tribe would outshine the humans. So both parties would enter a tussle.

But today, no matter how the devil Commanders ordered their devil soldiers to attack, the allied armies' formation simply was not messed up!

"Commanders, we... we can't do it! We can't stop them! The allied armies' attack is just too powerful!"

"Their formation transformation is too fast! We are being fooled around by them!"

"A lot of Earth Devils mid-phase top experts have been encircled and killed by them..."

The demon tribe originally wasn't prepared and hastily got into battle.

But the allied armies came prepared, and were well-trained!

Chapter 3157: Kill Rui Xuan, The Sky Devil (6)

Under the allied armies' attack, the devil army fell back with heavy casualties!

Finally, the demon tribe could not hold on and began to retreat towards the rear!

Under the allied armies' unrelenting pursuit, the majority of the devils were killed! The remaining devil soldiers followed their Commanders closely and retreated to a corner of the campsite. With the surrounding mechanisms' aid, they fought back with the determination to fight to their deaths.

Seeing the demon tribe feeling in defeat, Commander Hu and the other commanders were in high spirits as they laughed heartily.

"Awesome! This is so awesome! I have never felt this good since I joined the allied armies!"

"Isn't that so? Last night when they sneaked an attack on our campsite, that Sky Devil Rui Xuan was so aggressive and insufferably arrogant! What about now? He's dead, and we've easily taken over his main camp!" Commander Xiao was also beaming with smiles.

Commander Yang also laughed as he said, "This is all thanks to Commander Li! His planning and strategy are so divine! If it wasn't for him, we'd have missed this golden opportunity!"

"That's right!" Commander Hu and Commander Xiao echoed in agreement.

Their gazes turned towards Huang Yueli, who was seated by the side.

At this moment in the minds of all the soldiers in the allied armies, Huang Yueli was already an existence equivalent to God!

After today's battle, not only could they successfully escape from the demon tribe's encirclement, but they were also able to eradicate one of the demon tribe's campsites. This was huge merit!

They even killed the Sky Devil in this battle. Each of them would be able to earn a huge load of military merits!

Furthermore, they would also obtain the allied armies' special reward!

No wonder everyone was so excited!

Huang Yueli wasn't as excited as the rest of them. After the demon tribe had been forced into a corner, she had been sitting on a haystack with Xia Yunxi, discussing their next course of action.

Earlier after they set up the signal bomb, they weren't lazing around. Instead, they were mutually coordinating realistically to damage all the mechanisms and arrays.

Following this, the strike team smoothly merged with major forces. Huang Yueli directed Commander Hu and the others to lead their troops on different routes to attack the demon tribe's campsite.

The demon tribe's practitioners were outstanding in personal battle power. So even if their Sky Devil Commanding Officer was dead, it wouldn't affect them much.

Huang Yueli cautiously planned the attack sequence and with the aid of the formation's power, they finally managed to break through the demon tribe's defense.

It seemed that victory was within grasp right now.

There was only a small portion of the demon tribe left who were stubbornly fighting back. But they wouldn't be able to cause any major waves at all!

"The battle seems as though it's about to end..." Xia Yunxi looked at the situation around them and said thoughtfully. "The battlefield situation is going so smoothly, so all we need is to wait to accumulate our military merits. But... I don't know why, somehow I feel a little uneasy."

"Uneasy? Yunxi, have you got some predictions again? Now that victory is within our grasp, is it possible for any unforeseen circumstances to appear?" Huang Yueli jolted as she looked anxiously at her good friend next to her.

Xia Yunxi said, "Somehow, I sense that some unforeseen circumstances will crop up. Moreover, the prediction I sensed this time is extremely clear. It seems to be coming... from the southeast direction!"

"Southeast direction? There shouldn't be any demon tribe campsite in the southeast, right? How could it possibly..."

Just then, Huang Yueli suddenly thought of something and her eyes instantly widened like full moons.

"Surely not? The southeast direction is..."

Chapter 3158: Foresight (1)

Just as the allied armies were about to celebrate their victory, the devil army delved into the most difficult situation that they had ever been in.

The majority of their devil soldiers were killed and the remaining Commanders who were still alive led the scattered survivors and escaped to a corner. Using the topography and surrounding mechanisms, they proceeded to defend themselves.

Alas, facing the allied armies who were under Huang Yueli's command, their attacks were structured. Hence it was only a matter of time before all of them were captured by the allied armies.

The situation was becoming more and more critical. The devil Commanders gathered and had a short discussion. However, they weren't able to come out with any solution.

In the end, someone mentioned, "Should we... send someone over to ask Lord Rui Ze for help?"

Hearing that, everyone's eyes lit up!

"that's right! The place where Lord Rui Ze went into closed door cultivation is nearby! Although we can't interrupt him from his closed door, once our campsite is defeated, no one will be able to provide him with enough blood pills. It will also cause his advancement to fail! So if we go and seek help, surely he wouldn't ignore us right?"

"Moreover, Lord Rui Xuan is Lord Rui Ze's biological brother. He died in the allied armies' hands, so Lord Rui Ze will definitely seek vengeance for him!"

"You're right. Even if Lord Rui Ze's advancement is interrupted and he will fly into a rage but we still have to give it a try! We can't just stay here and be sitting ducks, right?"

The few devils couldn't think of any other ideas and could only treat Sy Devil Rui Ze as their last straw.

After someone suggested that, the others practically echoed in agreement.

After the plan had been confirmed, the next step was how to materialize the plan.

"We're now surrounded by the allied armies, so it's even more difficult than soaring to heaven if we want to break out of their encirclement! How are we going to pass the news of Lord Rui Xuan's death to Lord Rui Ze?"

"Isn't that so? Even if we personally head over to try and break out, we might not be able to do so..."

Just as the devils were worrying with frowns over their faces, a short devil Commander sneered.

"Everyone is discussing our next course of action. Forget it if you can't think of any idea, what are you sneering at?" Someone questioned him.

That person looked at the other Commanders in disdain.

"You've all been encircled and death is near at hand. But you're only starting to think of a strategy now. What have you guys been doing all this while? By the time you think of an idea and seek help, we'd all be dead!"

"You... what do you mean?"

The demon tribe cared most about their reputation, and if it was usual times, they would attack that person who dared to mock them!

However, they could only tolerate it for now.

The short devil sneered, "When I discovered that Lord Rui Xuan had been killed by the allied armies, I've already sent someone over to the cave in the southeast where Lord Rui Ze is in closed door cultivation!"

If their operation is a success, they should already have reached the cave by now. Lord Rui Ze should be here shortly!”

“What? That’s... that’s great!”

“Buddy, luckily you have great foresight!”

“Everyone persist on! Hold on a little longer! As long as Lord Rui Ze arrives, those damn allied armies’ soldiers will all be turned into blood pills! By then, we can exact our revenge!”

Hearing that, the devils instantly became excited!

Earlier when they assumed that they were doomed, many devils lost their will to fight.

Now that they found out that the reinforcements were about to appear, they instantly perked up and started to fight back with all their might!

Chapter 3159: Foresight (2)

On the allied armies’ end, Commander Hu and the others immediately detected the demon tribe’s resistance suddenly becoming intense. For a moment in time, all of them were puzzled.

“What’s going on? Why did these devils suddenly start to resist again? Haven’t they already given up earlier?”

“Who knows? Probably trying to put up the last fight?” Commander Xiao shrugged.

Commander Yang also didn’t think much of it. “Even if they eat all the pills that can arouse their potential, none of them... will be able to escape today!”

Under the haystack, Huang Yueli looked at Xia Yunxi in shock.

“Southeast direction... isn’t that the cave where Sky Devil Rui Ze is hiding in closed door cultivation?”

Li Yukun had specially sent out scouts to check on the closed door cultivation location where Sky Devil Rui Ze was. Because of this, they lost hundreds of veteran investigation officers.

But after the investigation, the conclusion that they derived made them heave a sigh of relief.

For him to not be affected and quietly advance while he was behind closed door cultivation, the location that Sky Devil Rui Ze chose was rather far from the demon tribe’s campsite. It was close to three hundred miles away!

Moreover, Sky Devil Rui Ze had intentionally added invisibility and soundproof arrays, just afraid of being interrupted by other people.

So he totally couldn’t be bothered to take part in the demon tribe and allied armies’ battlefield situation.

The demon tribe’s Commanding Officer would send the blood pills that they had refined once every one or two months. They did not dare to interrupt Rui Ze, so after delivering the items, they would quietly leave.

It was exactly because of this reason that Sky Devil Rui Ze didn't appear even after the huge commotion caused by the demon tribe's campsite surprise attack.

Hearing what Huang Yueli said, Xia Yunxi nodded solemnly. "I'm worried about Sky Devil Rui Ze! Today before we set off, I specially did a prediction and the trigram showed that we will be facing unforeseen circumstances, and the crisis that we will be facing will come from the southeast direction! Back then, I still couldn't totally comprehend it. But after we set off, I remembered that the location is where Sky Devil Rui Ze went into closed door cultivation!"

Huang Yueli frowned slightly and pondered as she said, "Logically speaking, Rui Ze wouldn't get news of this so soon. He would need to wait for a few months until he doesn't get any supply of blood pills before he sends someone over to check on this."

Xia Yunxi said, "That's only based on logic. Usually, when the demon tribe suffers a defeat, Rui Ze wouldn't come out of his closed door just because of this. After all, suddenly stopping his closed door would result in serious damage to his meridians, or even cause a drop in his cultivation! But today is different. The entire demon tribe campsite is wiped out by us! The more important thing is..."

She paused and said gravely, "The more important thing is we killed Sky Devil Rui Xuan! I heard that he is Rui Ze's biological younger brother. The demon tribe might usually treat kinship very lightly. But for the tribe's honor and since he's Rui Xuan's brother, he would surely exact revenge for him, right?"

Huang Yueli's expression also turned grave upon hearing that.

"Actually before we set off today, I've also been considering this problem. For safety's sake, I sent Jing Zhihai and the others to the external part of the forest to lay an ambush..."

Xia Yunxi was stunned for a moment but immediately revealed an enlightened look.

"No wonder! I was just thinking why did you send Jing Zhihai and their teams to such a far location! Wouldn't it be better to make them guard the campsite instead? So, you came up with a second plan to guard against the demon tribe from running over to Sky Devil Rui Ze to seek reinforcement! You're so far-sighted!"

Huang Yueli hurriedly shook her hands.

Chapter 3160: Foresight (3)

"Well, I'm not that far-sighted. It's because you kept saying that there would be an unforeseen circumstance in today's battle, so I did something extra and made a little preparation in advance..."

Xia Yunxi let out a smile. "Since you're prepared, then I must have been thinking too much! It's not every day that my trigram works every time. If we're prepared in advance, then we should be able to avoid some accidents."

The two of them were talking when they suddenly saw Commander Hu walking toward them.

"Reporting to Commander Li, the demon tribe suddenly started to fight back aggressively and our troop in front was caught off guard. A number of our soldiers have unfortunately sacrificed..."

Huang Yueli and Xia Yunxi exchanged a glance.

Xia Yunxi smiled and said, "A trapped beast suddenly becoming aggressive means that they assumed that they have hopes to be rescued! Looks like our prediction is correct. They indeed are thinking of looking for Rui Ze for reinforcements!"

Huang Yueli's lips curled up as well. "Unfortunately, they have to wait until their next lives to be rescued!"

She instructed Commander Hu. "No issue. These devils are just making a last struggle. Tell the soldiers not to butt heads with them. Just surround them and slowly diminish their strength and that will do."

...

Demon tribe's campsite in the southeast.

On the necessary path leading to Sky Devil Rui Ze's closed door cultivation cave.

Jing Zhihai and his close ties comrades, Commander Hua and Command Jian had been lying in ambush for close to four hours in the forest.

On the dark, windy night, the temperature was extremely frigid. Lying in wait without moving in a concealed place like this made the three Commanders slowly lose their patience.

"That Li Yuehuang is simply too much! Commander Jing is obviously our campsite's strongest exponent, but not only did he not let you take charge of the main forces, he even dismissed us to this desolated place. This is simply too much!" Commander Hua grumbled indignantly.

Jing Zhihai sneered, "Who wants to take charge of the main forces? I'd rather wait here quietly! Li Yuehuang has overestimated himself into thinking that he could challenge a Sky Devil! Even if Sky Devil Rui Xuan is seriously injured, he isn't someone that a Dream Profound Realm person like him could provoke! Just wait and see! Commander Hu and the others are dead meat!"

Commander Jian nodded and a smile spread over his face.

"Old Hua, they might be glamorous to be part of the main forces now. But if they are defeated by the demon tribe, they might even die! By then, our military strength is still intact. So when we return to the campsite, they will have to rely on us!"

Hearing that, Commander Hua finally came around it and expressed an enlightened look.

"What you guys said is right! There wouldn't be many who can survive past today. By then, we will become the campsite's only hope!"

The image of their infinite future appeared in their minds, and the three of them couldn't help but burst out laughing!

Jing Zhihai said, "Do, the two of you better tolerate it for a little while more! It's just a little boring and nothing else! Moreover, I believe it wouldn't take long before we receive news of Li Yuehuang's crushing defeat!"

He had just finished his sentence when he saw a black steed swiftly running towards them.

The rider on the horse panted heavily as though he was about to fall off his mount.

Jing Zihai showed a smug smile. "See! Hasn't the news arrived? It seems like Li Yuehuang and the others can't hold on any longer and have sent his men here to ask for reinforcements!"
