

Weaponsmith 3261

Chapter 3261: You're Li Yuehuang! (2)

The apprentice slapped his thigh, and his face was full of admiration.

"You're Grandmaster Li! I've heard so much about you! Over the past month, the allied armies Headquarters had given all Sky Gem Glass Chamber's branches to search for you! But everyone assumed that you must be in Sacred Phoenix Continent, so no one could ever imagine that you are in Emphyrean Fox Continent!"

Hearing what he said, Huang Yueli was even more confused now.

"This... what's going on? Why can't I understand anything at all? Allied armies Headquarters' orders? Why are the allied armies looking for me? I don't think I've done anything deceitful or illegal?"

Huang Yueli believed that she was a law-abiding citizen. Ever since she arrived in God Realm, she remained low-key and did not do any bad things at all! How could she have attracted the allied armies Headquarters' attention?

The apprentice looked at her in astonishment. "Why? You don't know about it at all?"

"Know about what?" Huang Yueli asked.

The Spiritual Armament apprentice noticed her confused look, so he explained, "Grandmaster Li, didn't you modify a batch of standardized Spirit Armaments? You even sold quite a few to Grandmaster Xiao, didn't you?"

Hearing this question, Huang Yueli finally thought of something.

"Ah... yes, that's right."

The apprentice sang her praises. "I heard that the standardized Spirit Armaments you refined have much higher attributes than the original version, no matter if it was in terms of attack or defense. Is that true?"

Huang Yueli laughed dryly. "Haha, I guess you can say that."

The apprentice grew even more excited upon hearing her confirmation. He hurriedly told her every single thing he knew.

"I heard that after Grandmaster Xiao received that batch of Spirit Armaments, he mentioned that you refined those to one of the Sky Gem Grandmasters from the allied armies during a skill interaction session. The other party was extremely stunned, and he took those Spirit Armaments to the allied armies Headquarters for assessment. The result of the assessment was even more satisfactory than what Grandmaster Xiao had claimed!"

The allied armies Headquarters is very interested in these Spirit Armaments and wanted to find you. But Grandmaster Xiao also didn't know where you went. Hence, the allied armies Headquarters gave orders to all the Sky Gem Glass Chambers to report to them once we found you!"

Speaking to this point, a smile appeared on the Spiritual Armament apprentice's face.

"I didn't expect Grandmaster Li to appear in Blessed City! This is a great piece of news! I have to report to our President immediately!"

Saying that, he jumped up excitedly and ran towards the inner courtyard.

"Huh? Wait, wait a while! Don't run off like this, eh??"

Huang Yueli was still in shock over the news she had just heard. By the time she regained her senses, the Spiritual Armament apprentice in front had already ran away.

She hurriedly stretched out her hand to grab him. But she had been in a daze for too long, and that little fellow was very agile. So he ran a distance away within a couple of seconds.

Huang Yueli's expression was downcast. "This... what is this? I only wanted to purchase some materials, and I don't want to be reported to the allied armies Headquarters! When the branch President comes out, I wonder how long I will have to entertain him..."

She remembered that she had promised Li Moying to return by dinnertime tonight!

They had not met for close to two years and had finally reunited. This man was extremely sticky and was easily jealous.

Chapter 3262: You're Li Yuehuang! (3)

If she didn't keep the promise she made to him, she could imagine just how angry Li Moying would be.

For a moment, Huang Yueli planned to slip away from the Sky Gem Glass Chamber as fast as possible.

But she immediately had a change of thoughts. She didn't do anything wrong, so why did she have to run away in this manner?

Just as she was hesitating, the Spiritual Armament apprentice was already leading a middle-aged man dressed in grey towards her.

"Oh, you must be the legendary Grandmaster Li! You're now a celebrity in all of the Sky Gem Glass Chambers! We haven't seen a talented Spiritual Armament Master like you for the past hundreds of years in the entire God Realm!" The middle-aged man said passionately.

The Spiritual Armament apprentice quickly introduced, "Grandmaster Li, this person here is Blessed City's branch President, President Liu!"

Huang Yueli sighed silently as she thought, "I really shouldn't have thought so much earlier. Now I really can't leave!"

But a smile was still hanging on her face. She cupped her hands to greet President Liu and said, "President Liu, you are too kind. I'm merely just a low rank Spiritual Armament Master, and really can't be considered as a talent."

President Liu led her into a conference room in the inner courtyard and got the servants to offer her some hot tea.

However, he smiled and said, "I think Grandmaster Li is just being humble! The allied armies Headquarters letter stated clearly that the standardized Spirit Armaments that they had been using for tens of thousands of years had drastically increased in might after your modification! This is not something that we can describe with the word talent!"

"Standardized Spirit Armaments are different from customized Spirit Armaments. In order to lower the costs, it is manufactured in batches and uses the basic and cheapest materials that we can get. Now, under the same kind of material, you could actually increase the might of these Spirit Armaments to such a degree. Frankly speaking, this is something that the other Sky Gem Grandmasters like us can't do!"

Being praised by such an experienced Sky Gem Grandmaster in this way made Huang Yueli extremely delighted. But she didn't forget to be humble.

"President Liu has overpraised me. I just suddenly found some inspiration."

President Liu smiled and said, "Don't be so humble! Well, I'm a frank person so I won't continue with the pleasantries with you. I believe you must have heard that the allied armies Headquarters had been searching for you?"

Huang Yueli nodded.

Although she only just found out from that Spiritual Armament apprentice, she could roughly figure out the whole situation.

It was probably because Grandmaster Xiao was overly delighted after he received that batch of Spirit Armaments and went out to show off. Hence she was exposed to him.

President Liu said, "That's great. I'll be frank then! The allied armies Headquarters are very interested in the Spirit Armaments that you've modified. Several Sky Gem Grandmasters tried to replicate the Spirit Armament that you refined..."

At this point, President Liu paused for a moment and looked carefully at Huang Yueli. Then he said apologetically, "It is indeed not morally right to replicate another person's Spirit Armaments. But you also know that the war between us and the demon tribe had been getting more intense. If we could use the same costs to manufacture even more powerful weapons, then our army will be able to gain a huge advantage on the battlefield! The allied armies Headquarters had no choice but to do this..."

Huang Yueli's expression remained unchanged as she nodded her head slightly.

Once a Spirit Armament was sold, if anyone wanted to try replicating it through observation, there was no way to stop that.

Huang Yueli was already mentally prepared for this. When she sold the Spirit Armaments to Grandmaster Xiao and President Gao, the two of them specifically told her that the Spirit Armaments would be used for research.

Chapter 3263: You're Li Yuehuang! (4)

Seeing that she wasn't upset, President Liu continued to speak. "Back then, several Sky Gem Grandmasters saw the Spirit Armaments and made their judgments. However, when they attempted to refine the Spirit Armaments according to your method, they weren't able to achieve the same result that you had refined..."

"Among them, the most successful one at the replication was Grandmaster Xiao. He said he had once discussed with you in detail the approach to refine Spirit Armaments, and that was why he could achieve a breakthrough. But even he, could not totally replicate your Spirit Armament."

President Liu paused and asked courteously, "May I ask what is the reason for this?"

Huang Yueli laughed when she heard that and said, "I indeed have some exclusive techniques. But I have basically discussed my approach with Grandmaster Xiao. Part of the reason for him to not replicate it successfully is that my Profound Energy attribute is slightly special. I can't help you guys with this!"

President Liu was enlightened. "So this is the reason! No wonder!"

He looked at Huang Yueli once again and asked softly, "This... Grandmaster Li. To tell you the truth, the allied armies Headquarters got us to think of ways to contact you. The main reason for this is to purchase those standardized Spirit Armaments illustrations from you!"

Huang Yueli was stunned. "Spirit Armaments illustrations?"

President Liu nodded and said, "That's right! These Spirit Armaments might look like standardized Spirit Armaments and the materials used are the same. But the method of refining is totally different, so it's equivalent to a new type of Spirit Armament. Although the Sky Gem Grandmasters could replicate it to around 80% to 90% based on their own research, it is still not as good as having an illustration from the original creator!"

"This..." Huang Yueli frowned slightly and said hesitantly, "But I've never drawn any Spirit Armament illustrations before this..."

Hearing that, President Liu immediately said "That's not a problem! You just need to see a few more of other people's Spirit Armaments illustration books then you will naturally know how to draw it. The most important thing is the method of refining the Spirit Armament. Drawing the illustration isn't a difficult thing at all!"

Speaking of this, he started to laugh, "Grandmaster Li, are you worried that these illustrations aren't worth the price, but you feel awkward to set a price because of the allied armies Headquarters' position?"

"Ughh, this..." Huang Yueli laughed dryly.

In actual fact, she had forgotten about setting a price. She was purely worried about the time that she had to spend on drawing the Spirit Armament illustrations!

Because after the previous discussion with Grandmaster Xiao, she had a deeper understanding of Spirit Armament refining. So she was able to refine mid grade Spirit Armaments now.

She didn't place much emphasis on those low grade Spirit Armaments' refining methods.

No matter what, those were just low grade Spirit Armaments! In terms of power, it was definitely not comparable to those higher grade Spirit Armaments that she would be refining.

Moreover, after she joined the battlefield and witnessed the devil soldiers killing the human soldiers and Sky Devil Rui Ze refining those three Commanders into blood devil pills alive, she was anxious to chip in and help the allied armies to drive those devils out of the human race's territories!

Hence, even if they were to ask her to supply these low grade Spirit Armaments' refining methods, she would not mind very much.

But since President Liu had already mentioned the pricing, she would not be so silly as to reject the opportunity that came knocking on her door.

Huang Yueli smiled and said, "This... I indeed am a little embarrassed to ask. President Liu. You're so spot-on!"

Chapter 3264: You're Li Yuehuang! (5)

President Liu smiled when he heard that.

"I knew it. Young people like you are easily embarrassed! There's actually no need to be so modest in this kind of thing! The allied armies Headquarters are wealthy, so just quote them a price. Since they want your valuable illustrations, how can they not give you sufficient benefits?"

"Ughh... huh?" Huang Yueli's eyes opened wide, seemingly not believing in what she had just heard!

She assumed that since President Liu helped the army ask for the favor to purchase her illustrations, he would definitely help the army to bargain on the price.

But from what she just heard... it seemed that there was a huge difference from what she had imagined!

President Liu saw her astonished look and couldn't help but burst out laughing. "Grandmaster Li, you're a young man after all. I heard that you have just joined the Sky Gem Glass Chamber not long ago? No wonder you aren't aware! We Spiritual Armament Masters enjoy a super valued position in the allied armies! After all, we aren't like the allied armies soldiers who would fight with their lives to train themselves or to obtain a higher rank! We Spiritual Armament Masters are just out to earn more money, isn't it?"

"If they want us to risk our lives to go to the frontlines, then they would have to give us enough benefits. Don't you agree? The allied armies are also aware of this. Anyway, they have all 12 God Clans behind them, so there's no problem in asking for more money."

"Especially so for your illustrations. If they could refine such powerful Spirit Armaments in batches, to the allied armies, it would be even better than any army! They would definitely offer a high price for it!"

Hearing that, Huang Yueli finally understood what was going on. She also started to laugh.

She did not expect Spiritual Armament Masters' statuses to be so highly valued in God Realm, nor did she know that they would give extra money for them to go to the frontlines.

No wonder previously when she showed her Spiritual Armament Master badge previously to Li Yukun, everyone was so shocked!

Huang Yueli asked, "Then... based on President Liu's estimation, how much should we sell these illustrations for?"

President Liu thought for a moment and said, "The Spirit Armaments that you have modified could raise the might to around 40%. Based on market price, a piece could be sold for around 200 thousand high grade crystal jades."

Hearing that, Huang Yueli silently shook her head. Previously, Grandmaster Xiao offered her 250 thousand a piece. But Grandmaster Xiao had apparently given her a higher price. If the army wanted to refine in batches, the price would certainly be slightly lower.

President Liu continued to say, "Generally speaking, for anyone who wants to buy out an exclusive illustration, they would need to pay at least 10 thousand times the item's unit price, and that would be 200 thousand low grade jade quartz!"

One piece of low grade jade quartz was equivalent to 10 thousand high grade crystal jades.

Huang Yueli was tempted when she heard about the shocking figure.

Based on her experience in God Realm over the past few months, 20 thousand low grade jade quartz was indeed a huge fortune. A Dao Profound Realm early-phase practitioner might not even necessarily be able to save this amount of money in his entire lifetime.

To a Dream Profound Realm practitioner like her, it was a sky-high amount.

But Huang Yueli was well versed in the art of bargaining. There was an impassive look on her face and she pondered for a moment, then finally shook her head.

"No, this pricing is not suitable! The highest quantity of any ordinary Spirit Armaments sold is approximately 100 thousand pieces. Buying out an illustration for 10 thousand is considered fair. But these Spirit Armaments of mine will be supplied to the allied armies. If all of the ordinary soldiers are going to get one piece each, won't it be replicated at least a million times! In this case, won't I be at a huge disadvantage?"

Chapter 3265: You're Li Yuehuang! (6)

President Liu was stunned. He totally did not expect an innocent youngster like Huang Yueli to make such a shrewd bargain with him in the blink of an eye!

Moreover, she immediately pointed out the vital point!

To tell the truth, President Liu originally felt that 200 thousand low grade jade quartz for an illustration was indeed a little too low.

From his point of view, it was almost enough for Huang Yueli to add another 30 to 50 thousand to the pricing.

However, from her tone, it seemed that she was intending... to increase it to 10 times the price?

This time, even President Liu who was best at bargaining became a little stunned. He felt inferior to her!

“This... this...” President Liu wiped the sweat from his forehead. “Grandmaster Li, what you say is logical, but if the asking price is too high, it will be difficult for me to discuss this with the allied armies.”

President Liu originally wanted to be Huang Yueli’s representative.

Although he wasn’t able to profit as a middleman from this transaction, this was considered a major credit. So there would definitely be a reward from the allied armies.

But now that Huang Yueli was asking for so much, he felt that he wasn’t able to hold on any longer...

Huang Yueli saw his anxious look and her lips curled upwards. “President Liu, don’t be so anxious. I don’t need you to help me discuss this transaction. Since you say a lot of the higher management in the allied armies are interested in my Spirit Armament illustrations, then can I trouble you to help me contact them. I’ll personally discuss it with them myself!”

“This...” President Liu hesitated for a moment. “It will take time for the Headquarters to send someone over. Moreover, the price they offer might not necessarily be higher than what I have estimated...”

President Liu had done lots of transactions with the allied armies, so he roughly knew about their way of handling things.

Although the quote was considered fair, if the demand was too ridiculous or if they tried to raise the price, the other party would not give in.

After all, the allied armies were one of the strongest forces in God Realm. If they really wanted to coerce or force Spiritual Armament Masters to work for them, there was nothing they could do.

Huang Yueli smiled and said, “You don’t need to worry about this. As long as the allied armies send someone who can call the shots over, I will naturally discuss the deal with them.”

“But what if the allied armies Headquarters aren’t willing to come?” President Liu couldn’t help but ask.

Huang Yueli smiled nonchalantly, “Then just tell them that the Spirit Armaments that I refined a month ago are not the best proposals. I have an even better idea to use even cheaper materials to refine the Spirit Armaments, but yet not decrease the might. Based on my proposal, these Spirit Armaments’ final cost could be reduced by half!”

“W... What??”

Hearing that, President Liu abruptly stood up from his seat!

His sleeve accidentally brushed past the table, sweeping the teacup on the floor.

“Grandmaster Li, you... is what you said true?? Those Spirit Armaments can still be modified?”

Huang Yueli smiled and nodded. "I won't dare to lie to the allied armies Headquarters. It's not as if I want to die! Anyway, I will be staying in Blessed City for a little longer, and I will draw out the Spirit Armament illustration during this time. I will also give you one piece as a sample. I believe that when the allied armies Headquarters sees my illustration, they will immediately send someone over!"

President Liu's eyes widened as he stared fixedly at Huang Yueli, unable to say a single word at all!

Although he had not seen those Spirit Armaments that Huang Yueli had previously refined, just based on rumors alone, he could tell how fascinating it was!

Chapter 3266: The Real Main Character (1)

If she didn't have the skills, the allied armies Headquarters wouldn't be searching so desperately for her to purchase her illustrations.

But now, Huang Yueli said that she had a way to further modify those Spirit Armaments!

"This... is this even possible?"

If the person who was going to modify the Spirit Armaments was an esteemed Sky Gem Grandmaster like Grandmaster Xiao, President Liu might be able to accept this.

But now, the person who was going to complete the modification was a young low rank Spiritual Armament Master like Huang Yueli!

President Liu simply did not believe her. This was simply too heaven-defying and too hard to imagine!

However, Huang Yueli's confident look made it difficult for anyone to not believe in her.

President Liu warned her again. "Since you are so confident, I will relay it word for word to the allied armies Headquarters. But you must know that if you are just boasting and if the army side exposes you, the consequences are something that you are unable to take."

Huang Yueli's expression remained unchanged and there was still a faint smile hanging on her lips.

"Thank you for the reminder, but... since I can say this, I am naturally certain about it!"

...

When Huang Yueli was conversing with President Liu, the sky gradually started to darken.

Li Moying was originally waiting in the courtyard for Huang Yueli to return home so that he could inform her to go to the Divine General residence to attend the banquet.

However, he waited so long that the sky had already turned dark and the banquet was about to start. But there was still no trace of the young lass.

Li Moying started to become anxious and instructed, "Tianer, go check out what is Young Madam up to? She promised to return home for dinner. Why hasn't she turned up yet?"

Li Tianer obeyed his command, not daring to waste any time at all. He immediately activated his body movement Profound Skills and sped off.

Not long after, he returned and bowed while reporting, “Young Master Moying, This Subordinate has found Brother Tianyi. He is still waiting outside the Sky Gem Glass Chamber! It’s said that Young Madam did not come out after she entered the Sky Gem Glass Chamber since noon. Brother Tianyi is not skilled in mechanisms so he doesn’t know how to go in. Hence he could only wait outside.”

“What? This lass really... she forgot the time because of armaments again. She even forgot what she had promised me!”

Li Moying was extremely melancholic. He couldn’t wait to “lecture” his heartless little fox in the bedroom until she behaved!

But based on his past experience, even if he did “lecture” her, she probably wouldn’t behave much...

Li Moying wasn’t too concerned about Huang Yueli’s safety. It was because there was generally no danger in a place like the Sky Gem Glass Chamber.

But seeing that the banquet was about to start, he started to become a little anxious.

If it was a banquet organized by Meng Shurong, he could choose not to attend. But now, the banquet was organized under Xuan Jiuling’s name.

Before Li Moying had fully grown up, he did not want to offend those top exponents on the Profound Sky Chart like him.

He thought for a moment and instructed, “Tianer, wait right here. I’ll bring Tiansan and Tiansi along to attend the banquet. If Li’er comes back, tell her where I went. If she’s willing to come, then you shall accompany her to the Divine General residence to look for me. If she’s not willing, then forget about it.”

Li Tianer bowed in response.

Li Moying led the other two guards and hurriedly rushed to the Divine General residence.

...

At this moment, plenty of guests had already gathered in the Divine General residence.

Jing Shaoyuan made up his mind to take this opportunity to be in the limelight. Hence he arrived exceptionally early.

He brought Lan Mengqing along and received numerous gazes of envy.

Chapter 3267: The Real Main Character (2)

The two of them linked arms and walked through the crowd. All the guests who came to the banquet couldn’t help but look at them.

“Quick, take a look! That beautiful woman there is really gorgeous. I wonder which family’s young miss does she come from?”

“Yes, she’s... she’s really beautiful!”

“Simply ravishing!”

For tonight’s banquet, Lan Mengqing paid careful attention to her makeup since noon. She ensured every inch on her was flawless before she came over with Jing Shaoyuan to the Divine General residence.

Her efforts did not go to waste. The moment she entered the door, she received numerous praises.

Especially those young allied armies officers and God clan’s disciples, their eyes were glued to her!

Towards everyone’s praises and attentive gazes, Lan Mengqing was long accustomed to it. In fact, she thoroughly enjoyed the attention that everyone was giving her.

Standing next to her, Jing Shaoyuan stretched out his arm.

Lan Mengqing reciprocated and immediately wrapped her hand around his arm. Then they walked hand-in-hand into the banquet hall.

Seeing a man appearing beside this gorgeous beauty, those young men who had fallen head over heels for Lan Mengqing were all crushed. In fact, they were a little unconvinced.

However, after they realized that the man beside Lan Mengqing was Jing Shaoyuan, everyone went into a daze.

“Hmm? The man beside that beauty... seems to be Divine Lieutenant Jing? Why would Divine Lieutenant Jing...”

Hearing that, those practitioners who knew the inside story burst into laughter. “You don’t know about this? This young lady is Divine Lieutenant Jing’s fiancée, Emyrean Fox Clan’s Number One Beauty Lan Mengqing! These two are the top geniuses among the younger generation in ancient God clans. One is a talented man, and the other is a ravishing beauty. There are plenty of people who envies them!”

Someone immediately replied, “No wonder. I heard about this previously. White Tiger Clan’s Young Master Jing is holding the post of Divine Lieutenant in the allied armies, and he is stationed in Blessed City! I also heard that he had once killed a Sky Devil early-phase practitioner? I didn’t expect him to be so young! He’s indeed a young hero!”

“Isn’t that so? Well, we humans just can’t compare with each other! Young Master Jing is so young, but he possesses such powerful strength. He could even marry a gorgeous beauty like Young Miss Mengqing. I really envy him!”

“There’s no point for you to envy him. A talented beauty like Young Miss Lan is a noble young lady. So only Young Master Jing is worthy of her!”

The guests had intentionally suppressed their voices while talking but Jing Shaoyuan and Lan Mengqing’s cultivations weren’t weak. So they heard their conversations loud and clear.

For a moment, the two of them felt extremely delighted.

Every time they went out together, they would hear this kind of praise and discussion.

This made them feel as if they were a natural winner.

No matter if it was ability, status, looks, or even feelings, they were a perfect pair. No one could find any flaw in them, and everyone would always look at them with admiration and envy...

Jing Shaoyuan felt extremely delighted. The shadow caused by Li Moying and Jun Sihan had faded a lot.

Holding Lan Mengqing's hand, they walked to Meng Shurong.

At this moment, Meng Shurong was accompanying Xuan Jiuling and reporting Blessed City's military situation to him.

"Divine General Sir, Divine General Xuan, This Subordinate Jing Shaoyuan had brought my fiancée, Lan Mengqing, to send our greetings!"

Meng Shurong turned around. When he saw this matching couple, a faint smile flashed past his eyes.

Chapter 3268: The Real Main Character (3)

He turned around and introduced them to Xuan Jiuling. "Lord Xuan, you should have heard of him. He is Jing Shaoyuan from the White Tiger Clan, one of the top heaven grade geniuses among those in the White Tiger Clan. He is one of the Divine Lieutenants under my charge and has been with me for the past six months. His military merits are outstanding."

Meng Shurong paused for a moment, then pointed at Lan Mengqing. "This lady here is Empyrean Fox Clan's Number One Beauty, Lan Mengqing! She is Jing Shaoyuan's fiancée! The two of them are one of the most famous pairs among the youngsters in God Realm. Not only are both of them heaven grade geniuses, but they are also talented and good-looking. They're truly a match made in heaven!"

Meng Shurong was unable to conceal the delight and praise in his tone when he introduced them.

One could tell that he was extremely happy for his subordinate to have such an outstanding fiancée.

Xuan Jiuling couldn't help but take another look at them after hearing the introduction.

Such an eye-catching pair of lovers with that kind of innate talent was indeed rare. Even Xuan Jiuling sighed with envy over the destiny that this couple shared.

"Looking at the two of you reminded This Divine General of my younger days! Back then, my wife and I have not gotten married yet. I was stationed on the frontline and my fiancée would also visit me in the city where I was stationed! It's so nice to see the two of you so loving!"

Xuan Jiuling nodded satisfactorily. "Your name is Jing Shaoyuan? Indeed a rare talented practitioner! Cultivate hard and you can look forward to a bright future soon!"

As they were pleasing to his eye, Xuan Jiuling generously gave Jing Shaoyuan a few words of praise.

Jing Shaoyuan felt extremely elated!

Receiving an evaluation of a "bright future" from a top exponent like Xuan Jiuling would surely put him in the limelight. He believed that all the younger generation in the crowd would be extremely jealous of him!

In reality, that was exactly so.

Jing Shaoyuan and Lan Mengqing had originally attracted a lot of attention. Moreover, Xuan Jiuling was the focus of tonight's banquet. Their cordial exchange was something that everyone witnessed.

When they saw Xuan Jiuling speaking so courteously to them, and even praising Jing Shaoyuan that he was a genius with a bright future, many of them almost spat out blood from anger!

Earlier, many braced themselves and went up to greet Xuan Jiuling. But Xuan Jiuling didn't even look the majority of them in the eye. He merely nodded at a few officers who bore the ranks of Divine Lieutenants.

His attitude could be said to be as cold as an iceberg!

Of course, to a top exponent like Xuan Jiuling, showing this kind of attitude to ordinary practitioners was also a great show of his magnitude!

After all, God Realm was a place where the strong were respected!

Xuan Jiuling and ordinary practitioners were a world of difference!

But an aloof top exponent like Xuan Jiuling actually praised Jing Shaoyuan and Lan Mengqing in such a manner!

The banquet hall's young practitioners felt jealous. But they knew that this was something they could never hope for!

After all, the other party was so young and so talented. Moreover, he even had a gorgeous, ravishing beautiful fiancée!

Just as Jing Shaoyuan was holding Lan Mengqing's hand delightfully and walking past the crowd, an attendant's voice suddenly came from the banquet hall's door.

"Lord Xuan, Divine General Sir, Cloudy Qilin Clan's Young Master Li has arrived!"

"What? Young Master Li is here? Quick, quickly invite him in!"

Hearing Li Moying's name, Meng Shurong could no longer sit still. He hurriedly got his men to welcome him in!

Even Xuan Jiuling also looked at the banquet hall's entrance with an anticipative look in his eyes!

Chapter 3269: The Real Main Character (4)

It wasn't only the two of them. All the guests in the banquet hall also turned towards the entrance.

Everyone was waiting in anticipation for today's main character to appear!

After a while, Li Moying's silhouette appeared from the end of the corridor.

To express his respect toward Xuan Jiuling, Li Moying put on a set of formal attire. The navy blue long robe on him accented his cold, noble temperament. The gold lining on his sleeve and collar completely revealed his mysterious side.

Of course, other than his dressing, the most attractive part of him was his ageless, handsome countenance!

Li Moying's looks, even in God Realm, could not be matched. No matter where he went, he would catch multiple young ladies' eyes.

Especially that pair of naturally seductive peach blossom eyes, The sparkle in the depths of his eye was as deep as the sea like a bottomless vortex that mindlessly captured the young ladies' hearts.

Seeing Li Moying's sudden appearance, the entire banquet hall instantly broke out in a clamor.

"Ah, this... this is Cloudy Qilin Clan's Li Moying? He's simply too... too handsome! I've never seen any man who looks more handsome than him!"

"Superficial! How can you just look at a man's face only? I heard that Young Master Li is God Realm's only god grade genius!"

"What? God... god grade genius!! Isn't it said that there haven't been any god grade geniuses in the past ten thousand years?"

"That's right, but Young Master Li is that god grade genius in the past ten thousand years! Moreover, he had just ascended from the Lower Realm in under two years. He hasn't even mastered the clan's secret techniques and already killed the Demon Tribe's Rui Ze who is in Sky Devil mid-phase stage! Blessed City's encirclement is henceforth lifted! This banquet is held for him under Lord Xuan Jiuling's name!" Someone who knew the inside story explained.

The informant's explanation made those young ladies, who were smitten, draw in breaths of cold air!

"Heavens! Young Master Li is actually that incredible!"

"How could there be such a perfect man? No matter if it was in terms of looks, ability, or status, no one can match up to him! If I can marry a man like him, I will laugh in my dreams!"

"Haha, keep dreaming then! There must be many talented young ladies who want to marry Young Master Li. It will never be your turn!"

Multiple voices kept ringing in discussions.

It wasn't only the young ladies, even the men were attracted by Li Moying's noble and overbearing temperament. All the younger generation practitioners automatically took him to be their idol.

Amid the praises, only one person shivered with anger.

That person was Jing Shaoyuan!

Originally, Jing Shaoyuan was immersed in the crowd's envious discussions and he was in a delightful mood. But hearing the name "Li Moying", everyone's attention shifted away from him and Lan Mengqing!

They even forgot about their existence!

Ever since Li Moying made his appearance, who could still recall him, Jing Shaoyuan?

Jing Shaoyuan turned his head around angrily, wanting to grumble to Lan Mengqing.

However, that fiancée, whom he had been proud of, was doing the same thing as the other young ladies in the banquet hall. She lifted her head and stared at Li Moying without blinking.

She even extended her neck forward, seemingly hoping that Li Moying would notice her.

Chapter 3270: The Real Main Character (5)

Looking at this, Jing Shaoyuan almost fainted from anger!

He thought, "That fellow, Li Moying, is just a little more exquisite looking than him. Isn't it just because his eyes are a little more enchanting, and his nose was a little straighter? Oh, and that temperament. Seems like he's good at fooling others!"

"Even so, so what if he's a god grade genius? Why are the women's eyes all glued onto him?"

"What's so good-looking about him?"

"I, Jing Shaoyuan, am also a rare handsome man. In terms of innate talent and ability, I might not be any weaker than Li Moying. But I am being completely ignored by everyone?"

"Even my fiancée seems as though she hasn't seen a man. Why does she keep staring at that fellow!"

Jing Shaoyuan gritted his teeth silently. But luckily, he remembered that this was an official occasion, so he could not casually flare up and create a ruckus.

He suppressed his tone and called out, "Mengqing, Mengqing! Mengqing!!"

Jing Shaoyuan called out to her several times before Lan Mengqing finally snapped back to her senses.

"Ughh, oh... Shaoyuan. You... you're calling me? I'm sorry, I felt a little... a little giddy just now. Maybe it's too stuffy here..." Lan Mengqing knew that it wasn't nice of her to keep staring at another man, so she hurriedly came up with an excuse to explain her discomposure.

Jing Shaoyuan snorted coldly, and his gaze fell on that faint blush on her face.

This look was just like a young lady whose heartstrings were tugged. This was the same look on Lan Mengqing when they just met!

Yet, she claimed that the room was too stuffy?

It was obviously because she was stunned from staring at Li Moying!

Jing Shaoyuan stared at her and said coldly, "This is Divine General's banquet so please pay attention to your actions. Otherwise, you might do something that will embarrass both you and me!"

Hearing that, Lan Mengqing's complexion flushed pale. "You... what do you mean by that?"

As Jing Shaoyuan valued Lan Mengqing as his fiancée, hence he had always shown her gentleness. He had never said such terrible things to her before!

Lan Mengqing instantly became upset.

At the same time, there was a faint hint of guilt.

The reason was when she saw Li Moying and heard everyone discussing his ability, she had indeed forgotten that she was right beside her fiancé. She was absorbed in staring at Li Moying's perfect side face.

But her heart was still pounding hard until now!

Jing Shaoyuan wanted to say something else, but Li Moying had already cut across the center of the hall, heading directly towards Meng Shurong and Xuan Jiuling.

He cupped his hands as he greeted them. "Lord Xuan, Divine General Meng, this junior from Cloudy Qilin Clan, Li Moying is here to send my greetings!"

Meng Shurong instantly broke into a smile as he hurriedly walked up to him. "Young Master Li, you're too courteous! Come, quickly have a seat. You can sit here! Men, quickly serve tea to Young Master Li!"

Li Moying responded with a word of thanks and sat on the seat that Meng Shurong had pointed at.

Jing Shaoyuan's eyes instantly spewed sparks when he saw Li Moying's seat!

Li Moying was seated next to Meng Shurong, which was the second seat next to the host seat! Moreover, he was sitting so close to Xuan Jiuling!

To be able to sit near a top expert in the Profound Sky Chart like Xuan Jiuling was such a huge glory!

How Jing Shaoyuan wished that the person on the seat was him!

Jing Shaoyuan said hatefully, "Li Moying is just a junior. What right does he have to sit next to Lord Xuan and the others?"

But other than him, no one else felt anything wrong about this seat arrangement.
