

## Weaponsmith 3291

### Chapter 3291: Lan Mengqing's Challenge (6)

"Has she gone crazy from anger? She actually agreed to fight! Their battle powers are totally on a different plate. Later, she will definitely lose out badly to Lan Mengqing!"

"Perhaps Young Madam Li doesn't know how powerful Lan Mengqing is? After all, she had just ascended not long ago. But why didn't Young Master Li stop her?"

"It's easy for you to say! Young Miss Lan had already put it in that way. Anyone who still wants their face has no choice but to accept the challenge! Young Madam Li is doing this because she had no other choice..."

"Sigh, that is true as well. If Young Madam Li still refuses to accept the challenge, the one who would be embarrassed is Young Master Li..."

Numerous voices rang in the banquet hall.

Everyone was anxious to express their thinking and just said whatever they wanted.

Originally, the practitioners below the stage were rather mindful of their volumes because Xuan Jiuling and Meng Shurong were around. So they tried their best to suppress their voices to maintain the order in the banquet hall.

But after Huang Yeuli agreed to the challenge, everyone was simply too excited to think of other things.

For an instant, the banquet hall became extremely noisy which was no different from a marketplace.

Meng Shurong's expression darkened when he saw this and coughed loudly a couple of times!

His coughing was emitted through deep Profound Energy, and it seemed to ring beside every guest's ears.

All of them were shocked and hurriedly shut their mouths.

Meng Shurong looked at Huang Yueli and asked in confirmation once again, "Young Madam Li, are you certain that you wish to accept Young Miss Lan's challenge?"

Huang Yueli's expression was calm as she nodded her head.

Everyone's gazes stopped on her face.

Even though she didn't show any special expression, her face was simply too beautiful. So even if it was cold, it involuntarily caused a stir in their feeling with the desire to protect her.

Even Meng Shurong also couldn't help but break out in cold sweat for her.

However, since she had confirmed, Meng Shurong couldn't say anything much.

He suddenly thought of something and turned to look at Li Moying.

Seeing Li Moying's brows slightly knitted this time, he could tell that the former was in a bad mood.

However, Meng Shurong didn't know that Li Moying was moody because his wife had pinched him. He assumed that Li Moying was worried about Huang Yueli!

Meng Shurong thought for a second and asked softly, "Young Master Li, don't worry. The competition in this kind of banquet is just to liven up the mood. Contestants are not allowed to injure the other party seriously. Earlier Young Miss Lan had also promised that. Besides, with myself and Lord Xuan around, you can rest assured that nothing will happen!"

Meng Shurong thought that he should let Li Moying know that this kind of battle wouldn't cause any injuries or death so that he could be a little more assured.

Whoever knew that Li Moying's frown turned deeper with a worried look and asked, "If one is accidentally injured, will the person who injures the other party be responsible?"

"Cough cough, this... this..."

Meng Shurong was rendered speechless by his question.

According to usual regulations, this kind of competition was considered to be friendly. But weapons had no eyes, so there was indeed a possibility of one getting injured.

Moreover, the other party might not intentionally injure their opponent. Most likely, it was a slip of the hand. So even if it was intentionally done, they could not confirm if it was so.

Hence, the question of asking the other party to be responsible or whatsoever was just an empty word.

Meng Shurong was a little worried about Li Moying's anxiety, so he was still racking his brain on how to placate him.

### **Chapter 3292: Crushed In Every Aspect (1)**

But Li Moying seemed to heave a sigh of relief after observing his expression.

"Divine General, you need not worry. I'm just casually asking..."

"What?"

Meng Shurong was stunned, totally unsure of what Li Moying was up to!

He thought, "Li Moying knows that it's hard to pursue the responsibility for the perpetrator, yet he looks as though he is relieved?"

"Could he have too much to drink, so his mind is all messed up?"

Just as Meng Shurong was befuddled, Huang Yueli had already stood up and walked towards the center of the banquet hall.

A cold smile appeared on Lan Mengqing's lips as she followed Huang Yueli and walked down the stage.

After the attendants heard that their battle was going to proceed, they had already urgently set up the event grounds in the center of the banquet hall.

As this kind of competition was a convention in military banquets, the center of the banquet hall was originally left empty so that they could convert it into a competition grounds at any point in time.

The attendants worked deftly and not too long after, the center was cleared up. At the same time, they set up simple decorations around the surroundings with railings and arrays. This was done just in case the two of them were overly excited during the battle, causing their Profound Energy to dissipate out and accidentally injure the surrounding audience.

When the two young ladies appeared in the center, voices of encouragement immediately rang in the surroundings.

“Young Madam Li, good luck!”

“Young Miss Lan, show us your ability and make that useless beauty know how powerful the God Realm talented young ladies are!”

“Young Miss Li, you... you must be careful! We will always support you!”

“Yes, Young Madam Li! Good luck. You might not necessarily lose!”

The practitioners split into two camps, but the majority of those supporting Huang Yueli was a little more.

The guests in this banquet were indeed mostly from the allied armies. So when they cheered, they were exceptionally passionate, which made Huang Yueli feel a little overwhelmed.

But if one were to listen to the contents carefully, Huang Yueli really didn't know if she should laugh or cry.

Those people who supported her actually assumed that she could not win!

Lan Mengqing heard the practitioners' voices and when she saw so many of them cheering for Huang Yueli, she instantly gnashed her teeth secretly!

“This Lower Realm country bumpkin is indeed a vixen who can even seduce Li Moying. So many people are supporting her! Isn't it just because she looks more beautiful? I should kill off the trend of judging someone by their appearances!”

Lan Mengqing only knew how to slander others, but totally forgot that she used to rely on her beauty to gain more resources than other people. In fact, she was very proud of it!

But at this moment, the person who was feeling most agitated and happiest was actually Jing Shaoyuan!

Today, he had consecutively tried to deal Li Moying with several blows but ended up failing in all his attempts. In the end, he was slapped on the face by Li Moying and Huang Yueli instead!

Now, it was finally Li Moying and his wife's turn to fall into his trap!

In Jing Shaoyuan's opinion, Huang Yueli's ability could not even match a finger of Lan Mengqing's. As long as she agreed to compete, she would surely lose!

As for Lan Mengqing, she hated Huang Yueli to the core under Jing Shaoyuan's incitement. So she would definitely make the latter lose terribly and be utterly embarrassed!

"Hahaha, Li Moying, it's finally your turn! If you must blame someone, just blame that you have been a genius for your entire life but insisted on marrying a woman who would drag you down!" Jing Shaoyuan laughed silently, using all he could to stop himself from laughing loudly.

After the two young ladies had taken their place, Meng Shurong's voice was heard from the host seat shortly.

### **Chapter 3293: Crushed In Every Aspect (2)**

"Alright, from the looks of this, both young ladies are already prepared!"

"Even I haven't thought that the first competition of today's banquet would be so heavy-weighted! Both female practitioners are top beauties in God Realm with noble statuses. The challenger is the granddaughter of a Grand Elder from the Empyrean Fox Clan. She is also one of God Realm's Four Great Beauties, Young Miss Lan Mengqing whose cultivation is in Dream Profound Realm peak state! The incumbent is Young Madam Li Yuehuang from Cloudy Qilin Clan. Her cultivation is... ughh..."

Based on usual practice, Meng Shurong wanted to introduce each other's backgrounds before the start of the competition.

However, he stopped short when he was doing the introduction for Huang Yueli.

Huang Yueli said softly, "Dream Profound Realm mid-phase!"

"Um, Young Madam Li's cultivation in Dream Profound Realm mid-phase... What? You're actually in Dream Profound Realm mid-phase!"

Meng Shurong nodded when he heard Huang Yueli's supplementary comment, then calmly continued with the announcement. But when he went through what he just heard carefully, he suddenly cried out loud!

Although Meng Shurong didn't manage to see through Huang Yueli's cultivation, he didn't feel that there was any problem before this.

Meng Shurong didn't know that Huang Yueli managed to conceal her cultivation because of the Sky Phoenix Ring, and assumed that it was because she had mastered an aura concealment cultivation method. This kind of cultivation method was not rare in God Realm. As long as the other party's cultivation was high enough, they just needed to delve into it a little more to see through the effect of this concealment cultivation method.

Of course, Meng Shurong did not intentionally check on Huang Yueli to express his respect.

So he totally didn't realize what was wrong with her.

It was until now that he suddenly realized that Huang Yueli's cultivation was much higher than what he had imagined!

To tell the truth, it wasn't just him. All the practitioners had a rude shock after hearing about Huang Yueli's cultivation!

Because they had heard Li Moying mention previously that Huang Yueli was a Lower Realm practitioner who was ascended not long ago.

So everyone assumed that her cultivation was only in the tenth stage realm, and she had not advanced into Dream Profound Realm yet.

But now, Huang Yueli actually admitted that her cultivation was in Dream Profound Realm mid-phase!

"Young Madam Li is actually in Dream Profound Realm mid-phase! This... is simply too fascinating!

"That's right, hadn't she just ascended a couple of months ago? Could she have already advanced from the tenth stage realm to the Dream Profound Realm mid-phase? Isn't her advancement speed a little too ridiculous? I... I don't quite believe her..."

"You have no choice but to believe! Can't you see that she's about to compete with Young Miss Lan very soon? Surely she wouldn't intentionally say her cultivation was higher than it truly is, right?"

"This is true, but... but it's just abnormal! I think Young Madam Li is probably much younger than Lan Mengqing. She seems to be under 20 years old... if she's really in Dream Profound Realm mid-phase, her innate talent... I don't even dare to think about it!"

Everyone noticed Huang Yueli's age.

Huang Yueli made use of the Sky Phoenix Ring to conceal not only her cultivation but also her true bone age.

Now, even if a top exponent like Xuan Jiuling were to use his soul trace to check on her, he would also feel that her age was almost the same as Li Moying. At most, she just looked a little more petite and tender.

But even if she was also in her twenties like Li Moying, having this kind of cultivation still left everyone stunned!

If Huang Yueli was now a tenth stage realm practitioner, they could only say her innate talent wasn't too bad. She would roughly reach the standard of an Earth grade genius.

### **Chapter 3294: Crushed In Every Aspect (3)**

Among the 12 ancient God clans, this kind of innate talent was considered as an outstanding younger generation in the family. But as compared to top geniuses, the disparity was still very, very huge.

However, she actually said she was in Dream Profound Realm mid-phase!

A 20-year-old Dream Profound Realm mid-phase practitioner was extremely rare, even in ancient God clans. Among the heaven grade geniuses, she would be considered one of the most outstanding ones!

To be precise, this kind of innate talent was on par with Jing Shaoyuan. Even Lan Mengqing could not be compared with her!

Hearing Huang Yueli's real cultivation stage, Lan Mengqing's expression instantly turned ghastly!

She did not expect the useless beauty that she had pointed out and claimed to embarrass Li Moying would suddenly change to become a super genius in Dream Profound Realm mid-phase! Her opponent's innate talent was much higher than herself!

This was simply a resounding slap that had landed on her face!

Jing Shaoyuan's expression also turned exceptionally colorful!

He assumed that his foresight in choosing a partner was much better than Li Moying. So he thought with a fiancée like Lan Mengqing who had beauty and brains, he would be able to make Li Moying jealous and envious!

In the end, after so much time had passed, Li Moying's wife had basically crushed Lan Mengqing in all aspects!

Not to mention Lan Mengqing, even he also felt a deep sense of crisis!

A 20-year-old Dream Profound Realm mid-phase practitioner's innate talent was not any weaker than his! This kind of exceptional genius marrying into the Cloudy Qilin Clan would absolutely strengthen their clan!

At this moment, he was incomparably regretful of his decision to instigate Lan Mengqing to challenge Huang Yueli!

But alas, it was too late for regrets!

The surrounding crowd below the stage didn't pay any attention to Jing Shaoyuan's expression. Instead, they were passionately discussing this.

"I didn't expect Young Madam Li to be such a peerless genius, and she's so beautiful... Young Master Li is simply too lucky! Why does he have all the luck?"

"Hmm, I think the competition today would be very interesting, wouldn't it?"

"Haha, are you overthinking things? I can't deny that Young Madam Li's cultivation is so high that it had exceeded our expectations. She indeed has outstanding innate talent. But no matter what, the difference between Dream Profound Realm mid-phase and Dream Profound Realm peak state is two small realms!"

"Ughh, that's right..."

"Another point is Young Madam Li has just ascended recently. So no matter how outstanding her innate talent is, how much power can she utilize the Lower Realm's cultivation methods and secret skills? As for Young Miss Lan, she had been carefully nurtured by the Empyrean Fox Clan since young, so she

wields plenty of cultivation methods! Perhaps Young Madam Li might be able to surpass Young Miss Lan in a couple more years. But she will surely lose in today's competition!"

"Sigh, what you say is right. A pity, it's such a pity!"

These discussions came one after another.

Practically everyone believed that it was a foregone conclusion that Huang Yueli was going to lose today.

The panic-stricken Jing Shaoyuan and Lan Mengqing also heard these analyses and instantly snapped back to their senses!

They thought, "That's right. No matter how talented Huang Yueli was, it was useless. A Dream Profound Realm mid-phase practitioner hoping to win a Dream Profound Realm peak state practitioner? She wasn't Li Moying!"

"No matter what, she will still be able to win today's challenge."

"Although I can't attain my motive of giving Li Moying a blow, I will more or less retain my face.

"This is considered a blessing within a misfortune!"

Jing Shaoyuan and Lan Mengqing heaved a long sigh of relief at the same time.

#### **Chapter 3295: Crushed In Every Aspect (4)**

Meng Shurong was relieved as well.

Since Huang Yueli's actual cultivation was already in Dream Profound Realm mid-phase, she would at least be able to save herself. Even if she lost, she wouldn't be too seriously injured.

Meng Shurong coughed a few times and indicated for the practitioners in the crowd to remain silent.

Following that, he made an official announcement, "Let the competition begin!"

The moment his words landed, everyone widened their eyes and stared fixedly at the two talented young ladies. They were deeply afraid that they might miss out on any exciting moments.

However, what surprised them was when Huang Yueli and Lan Mengqing heard the command "begin", they didn't immediately fight. Instead, they stood rooted in their original positions.

"What was going on?"

Just as the audience was puzzled, Lan Mengqing lifted her chin arrogantly and declared loudly, "Young Madam Li, your cultivation is lower than mine by two small realms and you've just arrived in God Realm, so the disparity between us is too huge! Hence, I will give in to you three times and let you attack me first! After the three moves are over, I will then retaliate!"

Lan Mengqing pretended to be magnanimous as though she bore the demeanor of a top exponent.

In this way, it caused the surrounding practitioners to exclaim praises for her.

“Young Miss Lan is indeed a talented young lady from the ancient god clan. Her bearing is indeed extraordinary! She knew that Young Madam Li’s cultivation was weaker than her, so she initiated to give in three moves!”

“That’s right. Although she would win even after giving in three moves, it shows her generous bearing to even initiate this on her own!”

“Young Miss Lan is so broad-minded!”

In an instant, some people turned toward Lan Mengqing’s side and started to praise her.

A faintly delighted expression appeared on Lan Mengqing’s face. Even Jing Shaoyuan who was watching on the side couldn’t help but secretly nod his head. He felt that Lan Mengqing was rather intelligent to make this accurate decision!

Since the disparity in ability was so large, everyone had already guessed that Lan Mengqing would definitely win. Just beating Huang Yueli up wouldn’t reap many benefits.

If she were to heavily injure the other party, it would make Lan Mengqing out to be a bully. Even if she won, it wouldn’t look good on her.

But Lan Mengqing doing this now would put her in good light. Letting Huang Yueli make three moves would show how magnanimous and big-hearted she was.

Huang Yueli had met all kinds of people, so she naturally knew what Lan Mengqing was thinking.

She sneered silently in her mind, but her face showed an extremely innocent look. “What? Young Miss Lan, you’re giving me three free moves?”

Lan Mengqing nodded and said, “That’s right. You heard me correctly!”

Huang Yueli’s brows rose slightly and said, “This... this isn’t nice, would it? Young Miss Lan, how can I take advantage of you? Three moves! Three moves are a little too much, isn’t it? If you insist on giving in, one move is more than sufficient!”

Since Lan Mengqing had mentioned “giving her three moves”, she naturally had to keep up with the show. So she said with a faint smile, “Young Madam Li, don’t stand on ceremony! It’s only proper for those with higher cultivation to give up three moves to those with lower cultivations. Don’t mind it so much!”

Huang Yueli blinked, as though she was hesitating.

“But...”

Lan Mengqing hurriedly interrupted, “Let’s set it at that! The competition has already started, and the guests can’t wait to see us fight!”

Hearing that, Huang Yueli seemed as though she was feeling awkward. She said meekly, “Alright then, I won’t continue to be polite! But I’d like to remind Elder Sister Lan that I am a fire-attributed practitioner. My attack power is rather powerful. If you’re going to take on three moves from me, you got to defend yourself well!”

## Chapter 3296: Crushed In Every Aspect (5)

Lan Mengqing felt extremely happy to hear her agreeing to this.

Giving a favor to this unimportant person would ensure her regain her fame after winning this competition easily!

As to what Huang Yueli had just said about her powerful attack and to be careful or things like that, Lan Mengqing couldn't even be bothered about it at all!

In her opinion, a Dream Profound Realm mid-phase Lower Realm ascender wasn't capable of a powerful attack at all. Perhaps, she might not even be able to break through her Profound Energy defenses!

Other than a genuine peerless genius like Li Moying, unless one had some special explosive Profound Skill, it was very difficult to deal with the enemy with a powerful attack!

Lan Mengqing hurriedly nodded. "Many thanks to Young Madam Li for your reminder! But you need to be more careful than me. After three moves are up, I will directly retaliate. Although I will try to control my strength, any accidents might happen after the competition starts. Young Madam Li please do be careful!"

"Ok, I understand." Huang Yueli chuckled dryly.

Lan Mengqing had apparently not considered her words and assumed that her "strong attack" was an ordinary attack force. She didn't expect herself to be facing an abnormally talented peerless genius!

But Huang Yueli believed that she had already reminded the other party. Since Lan Mengqing wasn't willing to reciprocate, then it was none of her business.

"Alright, then I'm going to make my move!"

"Okay!"

Lan Mengqing nodded and casually put up a defensive stance.

Her defensive stance was rather standard. Her Profound Energy around her started to be mobilized as it covered all the vital positions in her body.

From what she thought, this defensive stance was already very prudent. It should be able to ward off 90% and above of the attack!

As for Huang Yueli, upon seeing Lan Mengqing prepared, she immediately stepped forward. At the same time, the fire attributed Profound Energies in the air surged wildly in an instant, speeding straight towards her!

Huang Yueli waved her right hand and a fire dragon flew out from her palm. It charged directly towards Lan Mengqing!

Lan Mengqing had not expected Huang Yueli to not go through the process of accumulating her power. She just abruptly made her move and didn't even utilize any Profound Skill to cause such an explosive Profound Energy!

Under the coercion of the raging flames, the hair on her back stood on end as she instinctively sensed a fatal crisis!

However, the speed of Huang Yueli's fire dragon was just too fast!

When Lan Mengqing just realized what was happening, it directly struck her chest without giving her any chance to respond.

In an instant, Lan Mengqing was sent flying to the back!

Her body crashed heavily on the outer railing of the competition grounds.

Those railings that had been supplemented with reinforcement array patterns broke on the spot. Lan Mengqing could not stop at all and continued to fly out for a distance before landing in the crowd.

For a moment, the entire banquet hall was so silent that they could hear a pin dropping.

Everyone's faces were in a daze as they stared blankly at Huang Yueli, totally unable to regain their senses.

"What... What just happened earlier?"

To tell the truth, the majority of the people could not even see it clearly!

This scene happened too fast, as though it was only in a blink of an eye.

Just a moment ago, Huang Yueli was still engaged in a friendly conversation with Lan Mengqing. But in the next second, Lan Mengqing had already flown out!

### **Chapter 3297: Crushed In Every Aspect (6)**

"This... am I dreaming?"

After some time, someone gradually came round to their senses. Their gazes on Huang Yueli seemed like they had just seen a ghost.

"T...T...This... what's going on? Young Miss Lan can't even ward off a move from Young Madam Li? This... She was sent flying just like that?"

"What was that earlier? Did Young Madam Li really launch that fire dragon? How is this possible? Isn't she in Dream Profound Realm mid-phase? How is her attack power so high?"

"That's so scary, it's simply too terrifying!"

When they recalled the instant when Huang Yueli attacked, that sudden burst of fire attributed energies and that powerful strength filled with impact, many of them turned pale with fright. Many Heart Profound Realm practitioners present also felt a shiver running down their backs.

Even Jing Shaoyuan was so shocked that he spilled his wine glass on the ground.

“This... This is impossible!”

As it was overly stunning, no one remembered to check on Lan Mengqing’s situation.

Luckily when Huang Yueli struck earlier, she had mindfully controlled her strength. Moreover, the competition grounds were surrounded by railings with a certain buffering effect. Hence Lan Mengqing did not suffer very serious injuries although she flew out.

Lan Mengqing slowly climbed up but as the angle of her fall was rather bad, the beautiful face that she had always been proud of had a few evident scratches.

However, Lan Mengqing had no time to care about her looks because she was terror-stricken right now!

She did not expect Huang Yueli’s attack to be so powerful!

As a Dream Profound Realm peak state practitioner, she totally couldn’t ward it off at all!

The truth was when that powerful impact came gushing towards her, she totally went into a daze and had no way of fighting off that crushing stance!

Lan Mengqing took a pill from her realm ring, swallowed it, then clenched her teeth and returned to the competition grounds.

Huang Yueli was rather surprised to see her appearing before her once again.

“Young Miss Lan, I’m so sorry to have injured you. But I have already reminded you earlier that my attack power is very strong and that you must guard against it carefully...”

Huang Yueli slowly said, sounding apologetic.

Hearing that, the surrounding guests were suddenly enlightened.

“She’s right! Before she struck, she indeed did mention that her attack was very powerful. All of us heard it loud and clear.”

However, none of them had imagined that her so-called power was to this extent!

The majority of the Heart Profound Realm early-phase practitioners would find it hard to attain this realm, wasn’t it?

Lan Mengqing’s expression was slightly twisted. The melancholic and aggrieved feelings almost caused her to remain speechless!

From Huang Yueli’s words, it seemed as though she was a complete fool. Huang Yueli had already warned her but she insisted to butt heads with her attack!

But unfortunately, what Huang Yueli said was the truth. Hence she could not rebuke her at all.

Lan Mengqing remained silent for some time, then forcibly gritted her teeth and hissed, “That’s right. Young Madam Li had indeed warned me before. It is indeed carelessness on my part! Following this, I will definitely be more vigilant and carefully guard against...”

Huang Yueli was indeed a little surprised to hear her say that.

“What? You’re going to continue competing with me?”

Lan Mengqing nodded, “Of course. Surely you didn’t think that this is the end of the competition?”

### **Chapter 3298: Crushed In Every Aspect (7)**

“The victor has not been determined yet!”

Hearing Lan Mengqing’s words, Huang Yueli silently rose an eyebrow.

Earlier when she made her move, she had used 50% of her power. She was hoping that after Lan Mengqing witnessed her powerful attack, she would back down!

She could well use a gentler method to pretend to cross a few blows with Lan Mengqing. But as the time dragged on, it would easily expose her identity from the Sacred Phoenix Race. So Huang Yueli wasn’t very keen to do that.

She didn’t expect Lan Mengqing to have suffered such a huge disadvantage before so many people, but she was still unwilling to admit defeat!

“Young Miss Lan, your meaning is...” Huang Yueli muttered.

Lan Mengqing instantly stood up straight and cupped her hands at Huang Yueli. She actually changed from an arrogant stance to a greeting at Huang Yueli, acknowledging her to be of the same generation.

“Earlier, I had underestimated you, so I didn’t expect Young Madam Li to be so strong! So the saying to give you three moves is indeed too arrogant on my part. We had better compete officially to come out with a victor!”

Huang Yueli instantly understood what she had in mind upon hearing that.

Lan Mengqing had been struck flying by one move of hers, and she felt that it was just too embarrassing!

If she really returned dejectedly back to her seat, then all she had done today would become a joke. In the future, everyone would spread the story that Lan Mengqing couldn’t even handle one move of Huang Yueli’s!

However, Lan Mengqing had already ascertained her ability was not that different from Huang Yueli. So in total, she, Lan Mengqing should be even stronger!

Just now, she ended up in such a disheveled state because she had mainly underestimated Huang Yueli. She didn’t even work up her defenses to the maximum, hence the other party had a chance to attack her.

If they started to fight, Huang Yueli wouldn’t be able to win her at all!

Lan Mengqing was very good at weighing the pros and cons, hence she quickly analyses that the best method was to start the fight with Huang Yueli once again. But things like giving three moves to her were something that she would not dare to do again.

It might be embarrassing to go back on her words, but it was much better than having the rumor of her being sent flying in one move!

If she was the one who beat Huang Yueli up badly later, she would still be able to reclaim some face.

Huang Yueli stared at Lan Mengqing for a moment and her lips curled up slightly.

“Earlier I already said that I don’t need you to give in to me! Since this is the case, it’s alright to start competing officially!”

Since someone was eager to bear a few more slaps from her, she wouldn’t mind working hard a little longer.

“Young Miss Lan, Young Madam Li, this... According to regulation, the competition has already ended...”

Meng Shurong frowned as he looked from the side.

Huang Yueli’s attack power was so strong that even he and Xuan Jiuling’s eyes lit up. Their love for cherishing talents instantly kicked in.

Fire attributed practitioners might generally be well versed in attacks, but to be so powerful to this extent was extremely rare! This Young Lady... she had a bright future ahead of her!

Seeing these two talented young ladies not ending the fight and were about to continue, Meng Shurong subconsciously jumped out to stop them.

In his opinion, Huang Yueli might have powerful attacks, but she was much weaker than Lan Mengqing in the combined attributes.

If they seriously started to fight, there was a 99% chance that she would lose. So it was better to stop right now.

But Meng Shurong had just started to speak when he was interrupted by Li Moying.

“Divine General, just let them continue with the competition. It doesn’t matter!”

### **Chapter 3299: The Consequences of Overestimating Oneself (1)**

Meng Shurong was slightly puzzled, so he turned and looked at Li Moying.

“Young Master Li, this...”

Li Moying’s lips curled into a smile. “I have full confidence in my wife’s ability! Just based on Lan Mengqing’s standard, she can’t possibly be her match at all.”

Meng Shurong’s jaw dropped, feeling that LiMoying was a little overconfident.

He thought, "What's wrong with him? A Dream Profound Realm mid-phase practitioner hoping to defeat a Dream Profound Realm peak state practitioner? Moreover, from his tone, it seems that he really feels doing this is something very easy..."

"Does he think every single person is just like him, a god grade genius?"

Since Li Moying had already said this, Meng Shurong felt that it wasn't pleasant for him to keep stopping them.

Meng Shurong coughed and said loudly, "Logically, the victor of the competition should have been determined. But due to some special circumstances in the competition, both young ladies shall be allowed to have another round again! If anyone among the two of you doesn't want to continue with the competition, you can speak up!"

Meng Shurong was giving Huang Yueli leeway so that she could back down in time.

Hearing that, Lan Mengqing instantly stared at Huang Yueli anxiously as she was worried that the latter would change her mind.

But Huang Yueli's expression remained the same from the start to the end. She stood calmly on the ground, not saying a word.

Jing Shaoyuan's ashen looks finally eased up a little...

Earlier when Lan Mengqing was sent flying, he almost sat out blood! He couldn't wait to rush up and punch Huang Yueli!

Originally, he thought they would be embarrassed for sure. But he didn't expect Lan Mengqing gave them a glimmer of hope again.

"Mengqing, you must live up to my expectations! This is your last chance and if you lose again, I don't think I will ever be able to look at Li Moying again!" Jing Shaoyuan silently gnashed his teeth.

Huang Yueli and Lan Mengqing stood in the center of the competition grounds once again. Practitioners' whispers and cheering could be heard from both sides and they were so loud that they almost tore the roof of the banquet hall apart!

Meng Shurong announced loudly, "Alright. Then... Young Miss Lan Mengqing and Young Madam Li Yuehuang shall officially proceed to the second round!"

After the previous lesson of being utterly defeated, Lan Mengqing did not dare to underestimate her opponent again.

As soon as Meng Shurong stopped, she leaped into the air and launched an aggressive attack at Huang Yueli first!

Empyrean Fox Clan's practitioners were best skilled in wind attributes. Regarding speed, practically all wind attribute practitioners were ranked first among all the other attributes!

Moreover, Empyrean Fox Clan had many cabala that would increase their speed.

Lan Mengqing's attack was so shockingly fast!

Her body turned into a flash. In a blink of an eye, she had already launched more than 20 moves at Huang Yueli!

“Wow! She’s so fast! I can’t even see Young Miss Lan’s moves clearly!”

“Heavens, she’s so amazing! She’s indeed a heaven grade genius in the Emyrean Fox Clan! She’s so different when she becomes serious!”

All the practitioners around them burst into an uproar!

This whirlwind-like footwork was Emyrean Fox Clan’s exclusive secret skill called Whirlwind Dance. Generally speaking, practitioners who were a little weaker in cultivation would find it hard to see the direction of her attack and movements!

Lan Mengqing was extremely afraid of Huang Yueli, so that was why she used such a major move when she started to attack.

Huang Yueli was instantly encircled in the middle of the whirlwind.

Moreover, she didn’t instantly make any moves. Instead, she stood expressionlessly at her spot, seemingly not knowing how to react.

### **Chapter 3300: The Consequences of Overestimating Oneself (2)**

Everyone broke out in cold sweat when they saw her in this state.

Lan Mengqing’s attack speed was so swift. If she didn’t quickly block her attacks, she would probably end up with dozens of holes within a blink of an eye!

Yet, she... was still standing blankly right on the same spot!

If this carried on, would she be killed by Lan Mengqing directly?

If something like this did happen, God knows what reaction that Young Master Li, who pampers his wife so dearly, would show?

Meng Shurong and Xuan Jiuling frowned as their body leaned forward slightly. They were prepared to dash out and save Huang Yueli!

A cold smile appeared on Lan Mengqing’s lips when she saw Huang Yueli standing still!

She thought, “Huang Yueli painted such a beautiful scene with her words earlier, making me think she could surpass two small realms to fight with a Dream Profound Realm peak state practitioner! That’s why I used my killer move to deal with her so quickly!”

“From her dumb reaction, I think I must have overthought things earlier! I was deceived by this lass!”

“In reality, only her attack speed is high. If we really go head-to-head, she might not even take one of my attacks at all!”

Lan Mengqing felt that victory was within her grasp. She turned her palm and struck in the direction of Huang Yueli's chest!

She wanted to do the same as what Huang Yueli did to her earlier. She would send her flying out, crashing into the railings and falling into the crowd!

Only by returning the favor could erase the humiliation that she had received earlier!

But just as Lan Mengqing assumed that her move was going to strike Huang Yueli, the latter's body turned into a flash. Following that, Lan Mengqing sensed a huge impact charging at her.

This impact was like a raging storm that carried scorching heat. It fiercely brushed past her wind attribute energy!

It coincidentally crashed against her palm!

Lan Mengqing wasn't her match, and her Profound Energy broke down in a second!

Furthermore, the fire attribute energy did not lessen. It struck her body once again, exactly on her chest!

"Oof... Pfft—!"

Lan Mengqing's complexion abruptly changed colors. But she was thrown into the air once again, without even having any chance to scream!

Besides that, it just happened that she fell out from the previous railing like the previous time. Even the place she landed was exactly the same!

Moreover, Huang Yueli did not hold back this time. So Lan Mengqing's injury was much more serious than before.

While Lan Mengqing was in mid-air, she suddenly spat out a mouth of blood. After she landed on the ground, she fainted.

The banquet hall instantly became silent.

After ten breaths or so, the entire banquet hall went into an uproar.

Someone finally regained their senses. When he realized what had just happened, his eyeballs almost dropped to the ground!

"Heavens!! What did I just see??"

"Who's that person who fell out earlier? Is she... really Lan Mengqing??"

"How can that be? What happened exactly? I had seen it clearly just now that Young Miss Lan managed to snatch the first chance to attack. She gained the upper hand and Young Madam Li was thoroughly stunned. She couldn't even fight back in time!"

"But why is it Young Miss Lan who fell out? Could it be that Young Master Li was afraid that Young Madam Li would be injured, so he silently lent her a helping hand?"

"Surely not right? This is an official competition! Isn't doing that considered a foul?"

Quite a number of doubtful gazes were shot at Li Moying.

One couldn't blame them for overthinking this. The situation earlier simply took a reverse turn too suddenly!
