

## Weaponsmith 3341

### Chapter 3341: This Lad Is So Shrewd (1)

“It’s true. I have no intention to punish Young Master Li at all. Grandmasters, please don’t be mistaken!”

Even if Mu Mingjiang didn’t understand Spirit Armament refining skills, just looking at the Grandmasters’ reactions alone would tell him how incredible Huang Yueli was.

The Sky Gem Grandmasters refused to give in. “If that’s the case, why would Young Master Li say that? You must have threatened him!”

Mu Mingjiang wanted to cry but had no tears. A Spiritual Armament Master was arrogant by nature and these few Grandmasters were old and had great standards. So naturally, they would be much harder to deal with.

He quickly explained, “Grandmasters, you’re really mistaken. I interrupted you just to ask if you can continue researching this later? We must quickly do a thorough assessment of this dagger! Although I believe in Young Master Li’s armament refining standard, the other officers from the allied armies Headquarters do not know about this, isn’t it? I have to show reliable evidence to make the Headquarters approve the appropriate funding. Otherwise, I wouldn’t be able to afford to buy these illustrations.”

The Grandmasters finally accepted Mu Mingjiang’s explanation.

Grandmaster Xiao nodded and said, “This sounds reasonable. Those Divine Generals in the allied armies Headquarters might have very high cultivations, but they are totally clueless in the art of Spirit Armament! They only know how to look at the assessment results!”

Grandmaster Yuan also said, “Alright, then what are we waiting for? Quickly go assess! We can’t afford to delay Young Master Li’s official business! If such a good Spirit Armament can’t sell for a good price, it is a huge insult to all of us Spiritual Armament Masters!”

“You’re right. Let’s quickly assess it!”

The five Grandmasters came to a mutual conclusion and finally agreed to bring the dagger for assessment.

The allied armies were rich and imposing, after all. The assessment mechanism that they prepared wasn’t any different from the one in Sky Gem Glass Chamber. It was extremely accurate and comprehensive.

Grandmaster Xiao held the dagger and skilfully operated the mechanism for assessment.

“Attack power has been increased by 40%! Attack speed increased by 30%! Tsk tsk, this figure is on par with the batch which Young Master Li had refined in Flame Square City, but the number of materials used is so much lesser...”

As he spoke, he placed the dagger into another assessment mechanism.

It was Huang Yuel's first time seeing this mechanism, so she asked curiously, "What does this machine do?"

Grandmaster Xiao laughed as he explained, "Why? You haven't seen this before? This is to test the Spirit Armament's firmness! After the charging is completed, different Profound Energy attributes will attack the dagger and it will circulate to a few thousand attacks within a short time! If the quality of the Spirit Armament is bad, it will not be able to withstand this assessment and will quickly break off!"

"Oh, I see!" Huang Yueli nodded.

As a professional, she quickly understood the gist of it.

She had modified the dagger. Not only was it refined using a new method, but the number of materials used had also been reduced by 30%!

Under this situation, the allied armies' greatest worry and consideration would be if this Spirit Armament would be as solid as ordinary Spirit Armaments.

As expected, after the dagger was placed into the second mechanism, everyone's eyes widened and were more focused than before.

Mu Mingjiang walked nearer until he almost reached the mechanism's backboard and observed it from close-up.

After the energy storage array was activated, multiple bursts of energy formed by Profound Energy in the mechanism started to attack the dagger!

"Bam, bam, bam, bam, bam..."

Crashing sounds kept ringing non-stop.

### **Chapter 3342: This Lad Is So Shrewd (2)**

Huang Yueli looked for a moment and started to relax.

The dagger was only a low grade Spirit Armament, so the Profound Energy's strength mimicked by the assessment mechanism was very low. It was equivalent to a Dream Profound Realm early-phase practitioner's attack.

After all, those soldiers who would be allocated these low grade Spirit Armaments were basically in Dream Profound Realm early-phase cultivation. Their opponents would also be at similar cultivation levels.

So, as long as the Spirit Armament that Huang Yueli manufactured could withstand this level of attacks, it would pass the assessment!

As for this little bit of Profound Energy, Huang Yueli simply thought nothing of it.

The various Spirit Armaments and concealed weapons that she usually refined could even heavily injure Earth Devil end-phase practitioners, which was equivalent to Heart Profound Realm end-phase experts!

As expected, even under various attributed Profound Energies' attacks, it didn't even leave a dent on the dagger. Not to mention even severe damages.

When the Sky Gem Grandmasters saw that, they couldn't help but whisper in low voice, praising Huang Yueli's marvelous design.

Mu Mingjiang seemed rather satisfied as well, nodding his head continuously.

After observing it for close to an hour, he turned around and said, "From the current results, this dagger's quality is really very outstanding! If all the daggers refined based on your illustration could achieve such quality and power, that would greatly raise the allied armies' battle power! But..."

He paused for a moment and looked at Huang Yueli. Then he asked the most important question. "I'm still a little worried. Although this Divine General is a layman, I can tell that the method of Young Master Li's refinement is extremely skillful. I'm afraid that ordinary Spiritual Armament Masters would be able to do the same. In this case, can the others really refine the same type of dagger if they follow according to the refinement instructions in the illustrations?"

When he asked this question, the Sky Gem Grandmasters turned and looked at Huang Yueli.

Mu Mingjiang's question was indeed incisive.

This was the most important question to the allied armies, and also the crucial point to whether Huang Yueli will be able to sell these illustrations at a good price.

If other people did not have the same ability as Huang Yueli and could not manufacture such good quality daggers, that would only mean that Huang Yueli's armament refining standard was extremely high!

But to the allied armies, the price of these illustrations would be greatly discounted.

Huang Yueli already knew that Mu Mingjiang would definitely ask this.

She had been prepared for this and said composedly, "Earlier, I have already exhibited the entire process of hand gestures and operation while refining the Spirit Armament, which is adapted and varied from the standard methods. Ordinary low rank Spiritual Armament Masters should be able to complete every step. Of course, ordinary Spiritual Armament Masters' speed wouldn't be as fast as mine, and their success rates wouldn't be so high as well. Moreover, they need some time to adapt to the process before they can gradually raise the success rates."

Hearing what Huang Yueli said, Mu Mingjiang frowned slightly.

What she had said was extremely normal.

When ordinary Spiritual Armament Masters refined ordinary Spirit Armaments, there would be a 10 to 20 percent of success. Moreover, it would take time to learn from a new illustration. These were something that could not be avoided.

But this would make the allied armies take on an unknown risk...

Seeing Mu Mingjiang hesitating, the few Sky Gem Grandmasters proactively stood out to help Huang Yueli.

“Divine General, we’ve seen Young Master Li refining earlier, and those methods are not difficult at all.”

“That’s right. If one is skillful, it wouldn’t be any more difficult to use the new methods than the old methods.”

### **Chapter 3343: This Lad Is So Shrewd (3)**

“Time is needed to learn a new illustration, but the few of us can help to train a batch of Spiritual Armament Masters!”

To help Huang Yueli gain this deal, Grandmaster Xiao didn’t even mind taking on such an arduous task.

Huang Yueli was extremely touched to hear that.

Grandmaster Xiao really treated her very well. Previously, he gave her a valuable Sky Devil Blood Ring. Now, he was helping her in such a manner. If there was a chance, she would definitely repay him properly...

Hearing those Sky Gem Grandmasters’ words, Mu Mingjiang’s last trace of hesitation vanished.

He nodded and looked at Huang Yueli. “Since this is the case, may I request Young Master Li to refine the remaining two Spirit Armaments according to the agreement. If there’s no problem, we shall have a proper discussion on the final price of this transaction!”

Huang Yueli knew that Mu Mingjiang was prepared to purchase her Spirit Armaments at a high price, and she was delighted.

She was now in extreme need of money!

With the money from the allied armies, she could purchase even more materials and research further into the art of Spirit Armaments, and fight to become the most incredible Sky Gem Grandmaster as soon as possible. In that way, she would be able to refine an unmatched top tier Holy Armament for her husband!

With this in mind, Huang Yueli’s lips curled into a smile.

Without saying anything, she immediately walked back to the armament refining place, lit up the fire, and started to refine the remaining two Spirit Armaments.

It was evening time now. As the Grandmasters were of a certain age, they would usually be tired at this time.

But there wasn’t any fatigue on their faces. All of them were bursting with life as they stared at Huang Yueli with bright eyes, admiring her smooth refining techniques.

Mu Mingjiang merely watched for a while and left shortly after.

There was no doubt over Huang Yueli’s Spirit Armament refining standard now.

To him, the matter of utmost importance was to report the new information to his higher-ups and wait for their instructions on how to handle this matter!

After all, the illustrations that Huang Yueli was going to supply them were much more than what they had previously expected!

Cutting down on 30% of materials meant savings of tens of millions of jade quartz in military expenses every year!

If he wanted to purchase these illustrations, the amount of money that he had on hand was definitely far from enough.

Two hours later, Huang Yueli completed the refinement of the remaining two Spirit Armaments.

This speed had been intentionally slowed down because she wanted to fully exhibit every single step that an ordinary Spiritual Armament Master had to execute during refinement.

The results of the assessments came out quickly.

“The armor’s defensive power had increased approximately 40%! Boots’ speed had also increased by 30%! These Spirit Armaments have basically reached premium quality mid grade Spirit Armaments’ power, yet the requirement for the wearer’s cultivation is lowered by so much...”

The Sky Gem Grandmasters’ sighed and started on another round of scrambling.

Huang Yueli didn’t bother about these few old grandpas and turned to look at Mu Mingjiang.

“Divine General, since my Spirit Armaments have undergone assessment, should we sit down and discuss the pricing?”

Mu Mingjiang nodded and said, “Young Master Li, please follow me!”

He led Huang Yueli into the same conference room where they met.

But this time, Mu Mingjiang was no longer bearing that arrogant look in the afternoon. Instead, he was extremely courteous.

He got the serving maids to serve the best quality tea to Huang Yueli before speaking, “Young Master Li...”

#### **Chapter 3344: This Lad Is So Shrewd (4)**

“This Divine General is very clear of the value of these illustrations now, and the allied armies definitely want to get these drawings. But...”

Mu Mingjiang paused and looked straight into Huang Yueli’s eyes before saying, “Young Master Li, as you know, the allied armies military expenses are very limited each year because there are a lot of expenses incurred at various places. So even if your illustrations are extremely useful, we can only purchase them at a reasonable price. I hope you can understand this.”

Huang Yueli rose an eyebrow. Towards what Mu Mingjiang had said, she wasn't particularly dissatisfied or surprised.

No matter what, it wouldn't be normal if the buyer didn't try to bargain during a purchase. Moreover, this was such a huge transaction!

She replied calmly, "Of course I understand! I always emphasize on fair trade, and I will sell my illustrations at a reasonable price. Please do not worry about this!"

Her reply left Mu Mingjiang slightly surprised.

His gaze towards Huang Yueli became even more solemn. Besides being guarded, there was a slight trace of admiration.

On one hand, it was because even under a Dao Profound Realm top exponent's suppression, Huang Yueli retained neither servile nor overbearing attitude from the start to the end. On the other hand, it was because of the message revealed in Huang Yueli's words.

The "reasonable price" that she referred to would surely be a far cry from the allied armies' "reasonable price".

Apparently, Huang Yueli had already seen through the allied armies' intention to bargain but she did not immediately haggle over it. Instead, she spoke with a calm attitude and tone to express her firm stand.

This also meant that she was experienced in bargaining. She would probably be a tough opponent.

Mu Mingjiang originally assumed that Huang Yueli, at her tender age but with such exceptional skills, would definitely be like most Spiritual Armament Masters who were ignorant about things outside the arts of Spirit Armaments.

But in reality, things were different from what he had imagined.

In this manner, Mu Mingjiang couldn't say whatever he had planned initially!

From Huang Yueli's laughing eyes which seemed to have seen through everything, Mu Mingjiang felt that if he said certain things, not only would it not help in this situation. It might even embarrass him, this Divine General!

He pondered for a while and said, "Since Young Master Li is such an understanding person, then This Divine General will not waste time on superfluous words. Why don't we be more direct? I wonder how much is Young Master Li intending to sell these? If possible, can you give me a figure, and I'll do my utmost best to apply for it with the Headquarters?"

Although he had already reported to the Headquarters about the new situation involving these illustrations, the allied armies' side would probably need to discuss it further when they received the news. That would take time, so it was impossible to find out about the conclusion right now.

Huang Yueli smiled upon hearing that.

“Great, I like such a direct and efficient style! Since that’s the case, I will say out my price. I won’t dupe you as well. The price of one illustration is... 300 thousand low grade jade quartz and 30 thousand military merits! What do you think?”

Hearing that, Mu Mingjiang’s eyes lit up. He almost thought that he had heard her wrongly!

Because the price that Huang Yueli offered was simply too reasonable! It was so reasonable that he didn’t dare to believe that she was so understanding.

Originally, the allotted price he was authorized to deal with was one illustration at 300 thousand low grade jade quartz or 30 thousand military merits. But that was before they found out that Huang Yueli’s illustrations could save thirty percent of the materials!

### **Chapter 3345: This Lad Is So Shrewd (5)**

After he found out about the real value of Huang Yueli’s supply of illustrations, Mu Mingjiang had sufficient reason to believe that the allied armies Headquarters would approve an even greater amount of fees.

Moreover, Huang Yueli’s demand was still acceptable since it wasn’t too much.

Thinking of this, Mu Mingjiang silently heaved a sigh of relief. “There’s no problem with this pricing, and I can agree to it...”

But he had just ended his sentence when he heard Huang Yueli speaking out again. “Other than these jade quartz and military merits, I have another request.”

“Another request? What request?”

Mu Mingjiang was stunned as his instincts told him that this request was not that simple.

Huang Yueli smiled and slowly said, “I hope to retain the right to sell these standardized Spirit Armaments.”

Mu Mingjiang was stunned and cried out, “What? You want to retain the right to sell these Spirit Armaments! No, no way. That’s impossible!”

He subconsciously rejected this request.

Based on the allied armies’ precedent of purchasing illustrations, once they buy out an illustration, that meant that only the allied armies could refine those Spirit Armaments. Moreover, each piece would be branded with the allied armies’ logo. It would also be strictly controlled and not allowed to leak to the outside market.

But Huang Yueli requested to retain the right to sell. That meant that she was still intending to refine these Spirit Armaments and even sell it!

There was no such precedent that had happened in the past!

Mu Mingjiang believed that the allied armies would not agree to such an absurd condition!

Huang Yueli had expected Mu Mingjiang's reaction before this. Expression remaining unchanged, she said calmly, "If the allied armies refuse to agree to my request, then I can only refuse to sell these illustrations!"

Mu Mingjiang's brows creased tightly. "What do you mean? You're not going to sell these illustrations to the allied armies?"

Huang Yueli nodded and replied, "That's right. That's exactly what I mean!"

Mu Mingjiang's face turned downcast for a second. His tone also became cold and gloomy, and he intentionally unleashed his Profound Energy to coerce Huang Yueli.

"Young Master Li, you're going back on your words. That isn't very nice, is it? You've already agreed to sell these Spirit Armament illustrations to the allied armies, and now you say that you won't... Do you think the allied armies is a marketplace? Do you think you can act so recklessly here? Hmm?"

The Profound Energy that Mu Mingjiang unleashed increased, and the entire room was enveloped in that powerful oppression!

Huang Yueli was only in Dream Profound Realm cultivation, and her chest became stuffy.

But she remained calm and spoke in a steady tone. "Divine General, saying that is too reasonable! We did agree to deal with this transaction, but before the transaction is confirmed, it's normal for either party to back out. If my illustration quality isn't good, surely you wouldn't say you will purchase it, right?"

She snorted coldly and said, "Moreover, I've already shown my greatest sincerity. I didn't even ask for any deposit and refined three Spirit Armaments on the spot! In comparison, the allied armies didn't offer anything and could not satisfy my request. Yet, you're not allowing me to not sell it. What logic is this?"

Huang Yueli spoke at a normal speed and in a stable tone. But it felt as though she was taking an aggressive approach!

Because every word she said was spot-on.

Even Mu Mingjiang couldn't rebuke her at all.

If Huang Yueli said she didn't want to sell, it would be the allied armies' side who was in the wrong.

### **Chapter 3346: This Lad Is So Shrewd (6)**

But if one asked him to agree to Huang Yueli's condition, Mu Mingjiang could not bring himself to say such things at all!

After all, there was no such precedence before this. If he agreed to it and if the allied armies did not approve of this, he would be put in a very difficult position!

Moreover, the number of Spirit Armament illustrations that Huang Yueli would be selling was not just one or two pieces!

If it was only one or two pieces, he would still be able to handle it if any accidents were to happen after he agreed. But since it was twenty pieces...

The amount of money involved was simply too large. Even if he, a Divine General, were to sell all his valuables, he would not even be able to pay for ten percent of it!

Just as Mu Mingjiang hesitated and considered what he should do, Huang Yueli had already lost her patience.

She stood up from her seat in a second.

Stunned, Mu Mingjiang hurriedly said, "Young Master Li, what are you trying to do?"

Huang Yueli nodded and said, "Divine General Mu, I understand that you have your difficulty as well. But in a transaction, we can't force things. Since the allied armies have so many restrictions and can't satisfy my request, I can only choose to return empty-handed! Although I didn't take any deposit beforehand and refined three Spirit Armaments, just take it as my contribution to the allied armies. I won't charge you for those!"

Mu Mingjiang was at a loss for words after being rebuked by her in such a way.

Huang Yueli's words were put across skillfully. She purposely mentioned the three Spirit Armaments to make it seem that she was the one losing out. Mu Mingjiang knew that he was in the wrong, so he did not find any further trouble with her.

Actually, Huang Yueli knew that those five Grandmasters who saw her illustrations and refining process today weren't considered part of the army. So they wouldn't draw the illustration and hand it over to the military.

As for Mu Mingjiang, he didn't take any detailed look at the illustrations. Even if he did, it wasn't something that a layman like him could remember.

So, other than wasting her time and the three Spirit Armaments, she hadn't suffered a huge disadvantage.

As Huang Yueli pondered, she stood up from her seat.

"Divine General, since this is the case, I have other matters on. I won't continue haggling right here. Goodbye!"

After that, she cupped her hands in greeting, turned around, and prepared to leave.

When she reached the door, she suddenly heard Mu Mingjiang's voice.

"Young Master Li, wait! You... why are you in such a hurry!"

Huang Yueli's footsteps stopped, but she did not turn back. She only said, "Divine General, to tell you the truth, plenty of other forces want to purchase my illustrations, and many of them have offered me a high higher price than the allied armies. But I was thinking of making some contributions against the demon tribe battlefield, and that's why I have been waiting for the allied armies to offer me a price. But since the deal with the allied armies had fallen through, lots of people are waiting for me to negotiate

with them! I want to quickly sell these illustrations so that I can focus on researching the art of Spirit Armaments. I have no choice but to hurry!”

Mu Mingjiang’s lips twitched when he heard that.

What was called a threat? This was an outright display of threat!

However, he couldn’t say anything to rebuke her at all!

Because he knew clearly how incredible the illustrations that Huang Yueli supplied were. If she were to sell it off, it was true that plenty of other forces would rush over to buy it!

By then, the higher management from the allied armies would see the Spirit Armaments everywhere, except in the allied armies. They would undoubtedly blame him for not handling the transaction properly!

It would be hard to say what kind of punishment awaited him when it came to that!

### **Chapter 3347: This Lad Is So Shrewd (7)**

So even though he knew that Huang Yueli was merely threatening him, Mu Mingjiang was extremely afraid.

He stared fiercely at Huang Yueli’s back, wishing his stare could kill her!

This fellow... he’s only just over 30 years old, which is equivalent to 15 or 16-year-olds from the Lower Realm, but why is he so shrewd? He’s a natural-born merchant!

If I compare Grandmaster Xiao and the other grandmasters to him, the gap in their ages is around 10 times. But in terms of cleverness, they can’t even match up to a little finger of his!

Huang Yueli knew that Mu Mingjiang had been staring at her. But since he didn’t say a word, Huang Yueli simply treated him like air.

Finishing her sentence, Huang Yueli continued to walk towards the main door.

When he saw Huang Yueli about to step out of the allied armies’ branch, Mu Mingjiang could not take it any longer.

He clenched his teeth and suddenly shouted, “Men, stop Grandmaster Li from leaving!”

“Yes!”

Upon hearing that, the guards around the courtyard immediately rushed to stop Huang Yueli.

Huang Yueli frowned slightly and finally turned around to look at Mu Mingjiang with a face of displeasure.

“Divine General, may I ask what are you doing? Are you going to rob my illustrations since I refuse to sell them to you?”

Mu Mingjiang could no longer show his temper as the young Spiritual Armament Master knew his weak point. There was no doubt that once this deal failed, Huang Yueli would immediately find a new buyer once she walked out. She might even refine a new batch of modified standardized Spirit Armaments and sell them.

“Young Master Li, Young Master Li, don’t be so impatient! This Divine General means there had never been any precedence of such deals in the allied armies in the past, so it’s very difficult to get it approved! I didn’t say there’s no hope at all! You didn’t even discuss with me and simply leave like that... this... sigh... why are all you young people so impatient?”

Huang Yueli’s lips curled slightly and said in a contemptuous smile, “If you say that, does that mean that there’s place for further discussion?”

Actually, she heard him very clearly.

Mu Mingjiang said earlier that it was “absolutely not possible”, but now he forcibly changed his words into “very difficult to get it approved”. However, Huang Yueli had no intention to expose him.

She wanted to see what Mu Mingjiang was going to say now?

Mu Mingjiang thought it over for a while, then he said, “Young Master Li, what about this? Since you’ve already refined three Spirit Armaments on the spot, then I shall represent the allied armies Headquarters to purchase those three Spirit Armaments illustrations first. As for the price... it will be according to what you said!”

When he said this, Mu Mingjiang’s heart was already bleeding!

This lad was simply too hard to handle and haggle with!

Clenching his teeth, he continued to say, “You can retain the right to sell for these Spirit Armaments. At the same time, you must also continue to stay in Medial Arch City for some time to help us nurture a batch of Spiritual Armament Masters who can skillfully grasp these refinement methods! When the allied armies side have refined the first batch of Spirit Armaments, we can then discuss the remaining seventeen illustrations. What do you think?”

Hearing that, Huang Yueli rose an eyebrow in surprise.

She did not expect this Divine General to be pretty good at doing business.

It seemed as though he had accepted Huang Yueli’s conditions, but he only purchased three illustrations.

In this way, if the allied armies object to his decision, the damage would not be as great as purchasing twenty illustrations. There was still a way to turn things around.

**Chapter 3348: This Lad Is So Shrewd (8)**

On the other hand, he proposed a hidden clause while purchasing three illustrations. That was to make Huang Yueli promise that before the allied armies made their final decision, she would not seek other buyers to buy the remaining seventeen illustrations.

Huang Yueli pondered for a short while and understood the theory behind this.

She flashed a faint smile and said, "Divine General Mu is also a shrewd person. Since this is the case, both of us shall take a step back. I'll sell you those three illustrations first!"

Although she believed that if she sold these illustrations to other people, she might get a higher price. But only by selling them to the allied armies Headquarters would she be able to obtain military merits.

Military merits were something that could not be exchanged for money in times of need!

If it was possible, Huang Yueli would still prefer to prioritize the allied armies as her number one buyer.

Since Mu Mingjiang had already taken a step back, she naturally agreed to it immediately.

Mu Mingjiang then heaved a sigh of relief. "It would be best if we did this. I shall invite all five Grandmasters over and ask them to be our witness."

Under the watchful eyes of Grandmaster Xiao and the others, they quickly came to an agreement.

Huang Yueli imprinted her hand print on the agreement and left her soul trace mark. At the same time, she also agreed to come to the allied armies Headquarters every other day to coach the Spiritual Armament Masters to refine those Spirit Armaments.

Following that, she bade farewell to them.

Mu Mingjiang tried to ask Huang Yueli and the five Grandmasters to stay for dinner but she decisively rejected him.

"No need. Divine General, I have other matters to handle, so I'll make a move first."

Huang Yueli was thinking about Li Moying, so not only did she reject Mu Mingjiang, she even rejected Grandmaster Xiao and the other grandmasters' invitation to research the arts of Spirit Armaments.

When she returned, Li Moying was seated on the chaise lounge by the window, reading a thick manual.

Hearing her footsteps, the man lifted his head and looked at her. "Li'er?"

A portion of Li Moying's handsome side view was covered by the shadows in the candlelight, revealing a mysterious and profound temperament. It accented the charm in his excessively perfect face.

When the man's mellow voice rang again, Huang Yueli realized that she had gone into a daze from looking at him. Her heart started to pound wildly.

Li Moying looked at her face which was starting to blush and couldn't help but smile.

"What's the matter? Why are you back so late today? Did someone from the allied armies bully you?"

When he said this, a fierce glint flashed across Li Moying's eyes!

A lot of high-ranking military officers in the allied armies were all cold and aloof because of their noble births and the authority which they held.

His Li'er had disguised herself into an ordinary human Spiritual Armament Master and she could be belittled by other people.

Li Moying stood up, held Huang Yueli's hand, and pulled her into his embrace.

"If anyone bullied you, tell me. Your husband, I, will help you vent your anger! Hmm?" He lifted his hand and caressed Huang Yueli's black, silky hair.

After the young lass put on her disguise, her looks changed completely. Only that silky long hair that resembled a waterfall was still the same as when she was dressed as a female.

Huang Yueli subconsciously rubbed her face against his face in his embrace.

When she was out battling wits with other people, she didn't feel anything. But now that she came back and was in this man's arms, she realized that the only time she could relax completely was when she was by Li Moying's side.

### **Chapter 3349: Speed Up The Process (1)**

Huang Yueli hugged his waist and beamed, "Nothing happened. Who can bully me? They should count their lucky stars if I didn't bully them instead!"

Li Moying lowered his head to see her blinking her sparkly eyes adorably. Then he finally could rest his heart.

From the looks of this, there really shouldn't be any accident...

But he pinched Huang Yueli's nose and said, "You have to tell me no matter what trouble you run into! Those from the allied armies aren't that easy to deal with. Is it really true that no one tried to make trouble for you when you deal with them?"

Huang Yueli smiled and said, "You're so smart! You managed to guess correctly! The allied armies Headquarters sent a Divine General stationed in the Emyrean Fox Continent here. But it seemed as though he can't make a decision. He totally couldn't accept the extra condition that I raised."

Hearing that, Li Moying lifted an eyebrow and asked again, "Do you need my help?"

Although Li Moying wasn't holding a high rank in the allied armies, Cloudy Qilin Clan was the largest force in the entire allied armies. They were practically holding on to more than half of the authority.

As Cloudy Qilin Clan's Young Lord, if Li Moying really wanted to exert his influence on the allied armies, it wasn't something difficult to handle.

Of course, he didn't want to use his clan's power to get into position. In reality, he abhorred this the most. To a peerless genius like him, it was all too easy to get the corresponding status that he should get. So he didn't need to use such trickery.

But if his Li'er was implicated, Li Moying felt that doing anything for her was normal. Just using a little bit of the clan's power wasn't such a big deal after all!

Huang Yueli giggled and planted a kiss on the man's taut face when she heard what he said. "It's alright, I've already dealt with it! But the allied armies requested for me to stay on in Medial Arch City for some time to each the batch of Spiritual Armament Masters that they had selected. It would take at least a month..."

She blinked and looked at Li Moying. "Moying, will it cause any disruption to your schedule?"

Li Moying was slightly surprised, but he quickly made his stand clear. "It won't. I will accompany you and stay in Medial Arch City for a while."

"But didn't you mention previously that you want to bring me back to Cloudy Qilin Continent as soon as possible?" Huang Yueli was still a little unassured.

Li Moying shook his head and laughed, "It's nothing urgent I just wanted to bring you back earlier so that I can confirm your status as Cloudy Qilin Clan Young Lord's wife. But there's no rush for this kind of matter. You need not worry about me. Just focus on your own things and that will do."

Huang Yueli nodded and said, "Okay, great. Husband, you're the best!"

The arm which locked on her slender waist abruptly tightened. Li Moying's thin lips pursed slightly and he leaned closer to his wife.

Just as they were about to touch, Huang Yueli suddenly pushed him aside.

Li Moying was stunned by her push. "The surroundings are giving off a romantic feel and my wife was so touched earlier. Isn't the ambiance just nice? Why did she reject my advanced?"

Huang Yueli smiled craftily at him, revealing her sharp little fangs.

"I haven't removed my disguise yet! Don't you hate this face which had been disguised? Can't you tell how understanding I am?"

Li Moying thought, "Understand my a\*s! This young lass is intentionally pulling a trick on me!"

He shook his head and helplessly reminded her from the back, "Quickly wash away your make-up and come out for dinner. It's turning cold!"

"Alright, I got it!" Huang Yueli replied him perfunctorily.

## **Chapter 3350: Speed Up The Process (2)**

After the negotiations, Huang Yueli stayed for a little while more in Medial Arch City with Li Moying.

Medial Arch City was Empyrean Fox Continent's main city. After Huang Yueli arrived in God Realm, it was the most prosperous city she had ever seen. It was even more flourishing than Sky Emperor City in the Lower Realm.

For the first couple of days, Huang Yueli went on a sightseeing tour.

Li Moying naturally accompanied his wife and went to all the places that she wanted to visit.

If it wasn't that Huang Yueli had insisted on her unwillingness, he even intended to personally send her to the allied armies branch to coach on the refinement process.

After the inseparable couple enjoyed themselves for a couple of days, Li Tianyi sneakily went to look for Huang Yueli when Li Moying went out to handle some business.

"Young Madam, This... Subordinate has a favor to ask of you..."

Huang Yueli looked at Li Moying's most abled subordinate in surprise. "Brother Tianyi, there's no need to be so modest. Just speak your mind if you have anything you want to say!"

She didn't interact much with Li Tianyi and the others, and both parties didn't know each other well.

But Huang Yueli trusted her husband's foresight. Those whom he regarded as his important subordinate would definitely be up for the test, no matter if it was in terms of ability or loyalty.

Li Tianyi hesitated for a moment, and finally said, "Young Madam, if it's possible, can you return to Cloudy Qilin Continent as soon as possible right after you've settled the issue with the allied armies here? Otherwise, Young Lord might be put in a difficult position..."

Hearing that, Huang Yueli immediately asked, "What's going on? What trouble will Moying get into, if we don't return to Cloudy Qilin Continent?"

Since he had already let the cat out of the bag, Li Tianyi did not intend to hide it from her. He immediately told her everything.

"Young Madam, there's something you don't know. Ever since Young Lord came to God Realm, he had been cultivating day and night in Amethyst Paramount Palace to prepare for the grand God Realm Tournament. Cloudy Qilin Clan had not won the championship for the past thousands of years. So Clan Leader and the other Elders have put all their hopes into Young Lord."

"Originally, the clan had planned a series of cultivation plans for Young Lord. But he asked to leave in the middle of his cultivation and headed to Soul Connection Ocean to pick you up. After that, he was delayed for a couple of months... Now, the Clan Leader is very anxious and had sent a few letters to urge him..."

Hearing what Li Tianyi said, Huang Yueli immediately understood the situation.

So, Cloudy Qilin Clan had been urging Li Moying to return.

But for her, Li Moying had no choice but to stay back in Medial Arch City. Moreover, he didn't tell her the truth so that she would not worry.

"Sigh, this man is really... Didn't we agree that we can't hide anything from each other after we're married?"

Huang Yueli mumbled silently as she complained, but she felt extremely touched.

When Li Tianyi saw her dazed look, he thought she was unhappy to hear about this. So he hurriedly asked for forgiveness in terror, “Young Madam, This Subordinate did not mean to blame you. I was just worried about Young Lord... This... Subordinate...”

Li Tianyi stammered, not knowing how to explain.

Over the past few months, everyone knew how much their Young Lord pampered his wife!

If Huang Yueli really got angry over this, he would be in deep trouble!

Huang Yueli recollected her senses, and when she saw his terrified look, she burst out laughing, “Brother Tianyi, I’m not unhappy. Instead, I want to thank you for telling me these! Don’t worry, we will return to Cloudy Qilin Continent as soon as possible.”
