

## Weaponsmith 3351

### Chapter 3351: Speed Up The Process (3)

Hearing that, Li Tianyi looked at Huang Yueli with a pleasantly surprised expression.

As Li Moying was always by Huang Yueli's side, guards like them didn't usually have much chance to speak to her.

They assumed that a great beautiful Spiritual Armament Master like Huang Yueli, who had high innate talent, would surely be very proud, especially with her husband, Li Moying, protecting her. They assumed that she would look down on them.

Today, he prepared himself mentally for a very long time before plucking up the courage to speak to Huang Yueli.

He didn't expect reality to be different from what he had imagined.

Not only was Huang Yueli humble and polite, but she also looked extremely sweet when she smiled.

"Thank you. In the future, if Moying hides anything from me or is hurt while acting brave, you must secretly tell me. With me around, I will definitely take good care of him!" Huang Yueli instructed.

Li Tianyi nodded blankly. "Ughh, yes... alright, Young Madam."

After Huang Yueli dismissed Li Tianyi, she didn't expose Li Moying at all.

She didn't want to let down his kind intentions.

So Huang Yueli merely hastened the progress of the training of armament refining in the allied armies branch.

Those Spiritual Armament Masters who had been specially selected by the allied armies were running about frantically from Huang Yueli's assignments. All of them felt miserable beyond words.

Those who were selected by the allied armies to learn these expensive Spirit Armament illustrations which were bought at an astronomical price were undoubtedly the cream of the crop among numerous low rank Spiritual Armament Masters in the Sky Gem Glass Chamber.

So, when they met the person who would be coaching them was actually a low rank Spiritual Armament Master around their age for the first time, and all of them could not accept this at all.

Some of them even raised their objections to the stewards in the allied armies.

Whoever knew the stewards responded with a cold snort. They said rudely, "Whoever doesn't want to stay here and learn the new Spirit Armament illustrations can scam back to wherever you came from! As long as you're here, you will adhere to Master Li's arrangement! Whoever dares to offend Master Li can scam on your own!"

Grandmaster Li...

Hearing this salutation, those low rank Spiritual Armament Masters were stunned!

All of them were low rank Spiritual Armament Masters. Moreover, Huang Yueli was even younger than the majority of them. Why was she was only one who was greeted as Grandmaster whereas the other low rank Spiritual Armament Masters like them were ordered around by these stewards?

“He must have a strong backer!”

With this thinking in mind, the Spiritual Armament Masters were dissatisfied with Huang Yueli.

But that emotion vanished completely after they saw Huang Yueli exhibiting the refining process for their very first time!

Anyone who had seen Huang Yueli’s skills would be conquered by her marvelous techniques immediately.

“T...T...This... is he really a low rank Spiritual Armament Master?”

“These techniques, these hand gestures... it indeed doesn’t look difficult if we were to view it separately. But how could the speed of his moves be so fast! My goodness, there’s simply no pause in between at all!”

“It is my first time seeing this method to lead and transform the Profound Energy into the energy field...”

Amid the gasps of admiration, Huang Yueli refined the Spirit Armament on the illustration very quickly. Then she passed it to the stewards by the side for assessment.

All the Spiritual Armament Masters were speechless after seeing the values indicated on the assessment apparatus.

These... were these still the same standardized Spirit Armaments that they were familiar with?

#### **Chapter 3352: Speed Up The Process (4)**

Earlier when they watched Huang Yueli refining the Spirit Armament, they obviously noticed that the materials used were the same as ordinary standardized Spirit Armaments. But the finished product’s might was lifted by so much!

This time, no one dared to raise any more doubts!

All of them were low rank Spiritual Armament Masters, but the other party’s standard was so much higher than theirs!

If they didn’t witness it with their own eyes, it was simply hard to believe.

Huang Yueli merely exhibited some of her skills to easily convinced those low rank Spiritual Armament Masters.

Originally, Mu Mingjiang was a little worried and would come over to check on them in secret. But when he saw all the Spiritual Armament Masters learning earnestly, it left a deep awareness of Huang Yueli’s means.

Under Huang Yueli's supervision, these low rank Spiritual Armament Masters would refine for close to 16 hours daily.

Other than eating and sleeping, they basically spent all their time completing the tasks that Huang Yueli had assigned.

Before this, these Spiritual Armament Masters were all highly respected as they were talented people. They had never suffered so much in their entire lives.

However, no one complained at all.

Because they merely stayed here for a couple of days and realized that the knowledge they learned in the arts of Spirit Armament from Huang Yueli was much more than what their Masters had imparted to them. Moreover, it was extremely practical for use.

Huang Yueli had always been a practical person. All of her Spirit Armament was refined from a realistic point of view, and she would not overly imitate various contents in the armament refining manuals. Towards Spirit Armament refining, she had her own set of understanding.

Many of her viewpoints were different from the mainstream Spiritual Armament Masters. Moreover, the breakthrough in her Spirit Armament skills verified her guesses.

As they could learn a lot of things, so toward Huang Yueli's strict demands, the Spiritual Armament Masters could only grind their teeth and persist.

Grandmaster Xiao intentionally came to observe them once, and he couldn't stand it.

Before he left, he tried to persuade Huang Yueli secretly. "I say, Young Master Li... can you not have such high demands for these youngsters! How can their innate talents be compared with you? You assigned them so many tasks that they can't finish those at all!"

Huang Yueli knew that she was too anxious, but she had no way to slow down.

It was because she had already decided to complete the matters over in the allied armies within twenty days. After that, she could head to Cloudy Qilin Clan with Li Moying.

Huang Yueli thought for a moment and said, "I didn't give them a lot of tasks. It's just that their foundation is a little too weak. This set of refining methods is no different from ordinary Spirit Armament skills..."

Grandmaster Xiao realized that she still don't understand the problem so he could only put it across clearly.

"You must know that the success rate of ordinary Spiritual Armament Masters is only 10 to twenty percent, which is very far from yours! These Spiritual Armament Masters who had been carefully selected are already not bad. You ought to consider their actual situation."

Huang Yueli was stunned. "Ah... is that so?"

Previously when she looked at these young Spiritual Armament Masters and saw that they only managed to refine one passable Spirit Armament after several tries. So she had been feeling very anxious!

Now, hearing Grandmaster Xiao's words, she realized that something was not quite right.

Grandmaster Xiao laughed as he shook his head. "I knew that a genius like you won't know how an ordinary Spiritual Armament Master refines armaments! Relax, you're already doing very well!"

Although she heard him, Huang Yueli couldn't really relax.

A few days later, the allied armies Headquarters sent someone over again.

### **Chapter 3353: Business Sense (1)**

This time, it was two 6-star Divine Generals. Their positions were above Mu Mingjiang's.

They came to Empyrean Fox Continent with two objectives.

One was to check on the three new kinds of Spirit Armament refining progress. The other was to announce the allied armies' decision on the remaining seventeen illustrations.

Once Huang Yueli received the news, she brought the first batch of modified standardized Spirit Armaments that the low rank Spirit Armaments had refined and went to meet the two Divine Generals.

"These two boxes contain newly refined daggers. There are 50 pieces in each box, and there is a total of 100 pieces. These two boxes contain armors and each box has 20 pieces, making a total of 40 pieces. The last box contains wrist guards and there are only 30 pairs. Divine Generals, please take a look."

Huang Yueli pointed at those five boxes and said calmly and unhurriedly. Then she indicated for those guards behind her to open the boxes.

The three Divine Generals stared blankly at the boxes which were filled to the brim and didn't know how to react for a moment.

"These... are refined by those low rank Spiritual Armament Masters who were assigned to you previously?" After some time, Mu Mingjiang finally found his voice.

Huang Yueli nodded. "Time is a little pressing so the finished products are slightly lesser. Moreover, the majority of the quality isn't very good. I chose for quite some time before picking out these better ones. But don't worry. These Spiritual Armament Masters are still learning and they're not very proficient now. That's why their efficiency is so low. After some time, the speed of refining will be significantly increased."

The two Divine Generals sent by the Headquarters widened their eyes. They were so stunned by Huang Yueli that they couldn't say a single word at all.

From the day that Huang Yueli had sealed the deal with Mu Mingjiang, it had only been 20 days. Those low rank Spiritual Armament Masters, who had been gathered from various places, hurried to Medial Arch City and that took up some time as well.

The fastest group that arrived was merely 15 days ago.

The Divine Generals had heard that the illustrations that Huang Yueli brought were very different from the traditional methods of refining. It was equivalent to learning a new set of refining methods.

It was only a short period of 15 days. No one had been expecting these low rank Spiritual Armament Masters to refine any finished products at all!

Who knew that Huang Yueli actually took out five complete boxes of finished products?

Moreover, from what she had said, it seemed that this wasn't the total. She had merely picked out the better ones!

In reality, the allied armies didn't need the Spiritual Armament Masters to refine superior quality Spirit Armaments for every piece. Even if the quality was a little lacking, they could distribute it to lower-grade ordinary soldiers.

Moreover, based on the model Spirit Armament that had been refined from Huang Yueli's modified illustrations, these weapons were originally much more powerful than ordinary Spirit Armaments. Even if it was of inferior quality, it was already not bad.

After some time, one of the Divine Generals said, "Young Master Li, you have already taught these low rank Spiritual Armament Masters in such a short time? And they even refined so many finished products?"

Huang Yueli nodded. "These Spiritual Armament Masters that you sent might be slightly lacking in innate talent but they are very hardworking and willing to learn. That's why they can show some results."

Hearing that, the three Divine Generals were speechless once again.

The allied armies had gone through careful selection and sent the most outstanding young Spiritual Armament Masters around the neighboring continents!

Almost all of them were armament refining geniuses!

But Huang Yueli actually said they were slightly lacking?

### **Chapter 3354: Business Sense (2)**

If the person who said this was someone else, the three Divine Generals would definitely scoff in that person's face.

But facing Huang Yueli, none of them could say a word of rebuttal!

Because as compared to a peerless genius like Huang Yueli, those so-called "genius Spiritual Armament Masters" were not worth mentioning at all!

Mu Mingjiang was already used to Huang Yueli's occasional shocking feats, so he was the first to come back to his senses.

“Since Young Master Li has finished a large batch of finished products so quickly, I believe when our top management in the allied armies Headquarters hear of this, they will be overjoyed! Following this will be the matter about the remaining illustrations...”

Mu Mingjiang turned to the other Divine Generals and asked, “Divine General An, Divine General Xiao, what do the two of you say?”

Mu Mingjiang roughly knew the decision about the allied armies decision. But it was better for these two Divine Generals from the Headquarters to personally announce it.

Divine General An nodded and said, “Our top management in the Headquarters did a calculation and they wanted me and Divine General Xiao to head over to check out the situation on Young Master Li’s refining before we make a decision. We didn’t expect Young Master Li to give us such a pleasant surprise when we arrived! You managed to refine so many finished products in two weeks!”

They exchanged glances before he continued to say, “Since this is the case, Divine General Xiao and I will represent the allied armies Headquarters to give the green light. The allied armies Headquarters shall purchase the remaining 17 illustrations according to the conditions that Young Master Li had previously raised. Young Master Li can retain the right to sell for these Spirit Armaments, but...”

He paused and stared at Huang Yueli. “But the allied armies also have a request.”

Hearing that, Huang Yueli was slightly surprised. “What kind of request.”

Divine General Xiao said, “For each type of Spirit Armament that Young Master Li privately refines and sells cannot surpass 100 pieces each year!”

“Cannot surpass 100 pieces?” Huang Yueli subconsciously frowned.

Divine General Xiao continued to explain upon seeing her reaction. “These Spirit Armaments are for the allied armies’ usage after all. If we were to allow Young Master Li to refine in large quantities, then there is no point in us purchasing these illustrations. Moreover, it can’t be sold at a high price, isn’t it? I heard from Divine General Mu that Young Master Li has very good business sense. So you should understand my meaning.”

Huang Yueli rose an eyebrow as a meaningful smile surfaced on her lips.

“I didn’t expect... Divine General Xiao to be an expert as well!”

How would Huang Yueli not understand Divine General Xiao’s meaning?

When a Spirit Armament was put up for sale, it didn’t represent that the more one manufactured, the more one would sell, and the more money one would earn!

If Huang Yueli were to sell 10 thousand pieces a year, those Spirit Armaments’ price would surely not be very much. Each piece’s profit would be very limited.

But if the Spirit Armament’s quantity was condensed to only 100 pieces, these modified Spirit Armaments would become a rare product.

Huang Yueli's Spirit Armaments might be low grade Spirit Armaments, but it was exactly because of this that even Dream Profound Realm practitioners and below could utilize these Spirit Armaments to 100% of their power!

There should be a lot of powerful practitioners among the large forces in God Realm who were willing to purchase these Spirit Armaments for their juniors at a high price.

The lesser the quantity, the higher the price would be!

Divine General Xiao laughed and said, "Young Master Li is an understanding person. This is beneficial to both parties, isn't it?"

Huang Yueli naturally wouldn't reject anything that had such great benefits.

She smiled and nodded her head. "Alright, then we shall deal according to both Divine General's point!"

### **Chapter 3355: Business Sense (3)**

Huang Yueli was in a good mood after negotiating the biggest deal she had.

But she didn't return home immediately. Instead, she went over to Grandmaster Xiao's residence and visited him.

Grandmaster Xiao was staying in the northeast corner of Medial Arch City. The surroundings might be flourishing but this noble Sky Gem Grandmaster's house was serene amid the bustle. It appeared to be extremely spacious, quiet, and refreshing.

When the guards heard that it was Young Master Li who had come, they hurriedly sent someone in to report on this.

Shortly after, Grandmaster Xiao came out to welcome her personally.

"Young Master Li, why do you have time to visit me today? Are you done with the allied armies' stuff?" Grandmaster Xiao smiled as he asked.

He had already invited Huang Yueli several times to his residence to research the arts of Spirit Armaments. But Huang Yueli had always rejected him, saying that she was busy with work.

Of course, Huang Yueli was indeed very busy. Other than teaching those Spiritual Armament Masters from the allied armies the way to refine armaments, she also needed to draw some time out to engage in double cultivation with her husband. She was really very busy, extremely busy!

She smiled and said apologetically, "I'm so sorry to suddenly come to disturb you, Grandmaster Xiao..."

Grandmaster Xiao laughed heartily and quickly said, "You're not disturbing me. I've been waiting for you for a very long time. Please, quickly come in!"

Huang Yueli was welcomed in by the passionate Grandmaster Xiao.

She took some time to look at the surroundings and discovered that the Spiritual Armament Master's residence was indeed laid out with various mechanisms. Grandmaster Xiao was no exception.

Moreover, his skills were exceptionally outstanding. The surroundings were filled with various traps that Huang Yueli admitted that she could not refine at all. Grandmaster Xiao was indeed God Realm's top Sky Gem Grandmaster!

Grandmaster Xiao brought Huang Yueli to the reception room.

The two of them chatted casually and Huang Yueli swiftly cut to the chase.

"Grandmaster Xiao, my purpose in coming this time is that I have a few favors to ask..."

Grandmaster Xiao was stunned. "Oh? Young Master Li, what's the matter? Feel free to say it out! As long as I can help, I will definitely help!"

Huang Yueli heard his straightforward reply and felt extremely touched. She immediately said, "The first thing is... I've already discussed with Divine General Mu and the others, to sell the remaining 17 Spirit Armaments illustrations to them at the same price as the three previous illustrations..."

Before she could finish her sentence, Grandmaster Xiao said joyously, "The allied armies Headquarters have already decided? It appears that Young Master Li's modified Spirit Armaments are indeed what the allied armies need the most! Congratulations, this is a joyous matter!"

Huang Yueli nodded and continued to say, "It is indeed a joyous matter but it is also rather troublesome. I have got something urgent to handle recently and I intend to leave Medial Arch City within the next few days. But the allied armies side will surely select another batch of Spiritual Armament Masters to master the 17 illustrations..."

Huang Yueli frowned. "I really don't have the time to continue teaching these low rank Spiritual Armament Masters. So by then, Divine General Mu and the others would probably look for Grandmaster Xiao, Grandmaster Han, and the others... I've created trouble for all of you..."

Hearing that, Grandmaster Xiao was rather surprised at first.

"Young Master Li, you have something on and need to leave urgently again?"

He still remembered the first time he met Huang Yueli in Flame Square City, Huang Yueli also said that she had to leave urgently and go to some other place to experience learning. It was the same this time again.

Moreover, Medial Arch City was different from Flame Square City.

#### **Chapter 3356: Business Sense (4)**

Flame Square City was merely a small city on the edge of the Sacred Phoenix Continent. It was normal for any Spiritual Armament Master with genuine innate talent would want to leave that small place to head to large cities to seek out more opportunities and raise their Spirit Armament refining skills.

But Medial Arch City was Emphyrean Fox Continent's main city, and it was the place where large numbers of outstanding Spiritual Armament Masters gathered. Any Spiritual Armament Master would be able to find the things they desire in this place.

Huang Yueli had already made her name because of the 20 illustrations and was highly valued by Divine General Mu.

No matter how it was, she shouldn't choose to leave this place, wasn't it?

Huang Yueli didn't explain further and firmly expressed that she would definitely leave shortly.

Grandmaster Xiao understood the meaning behind her words and didn't delve further into this issue. He merely smiled and said, "Since that's the case, Young Master Li doesn't need to feel that it's troublesome. Previously when we were over at Divine General Mu's, we have seen you refine the Spirit Armaments and also learned your exclusive method. We have gained invaluable knowledge from it, so it's not a big deal to help you teach a few young brats. Moreover, Divine General Mu would definitely pay us for it, so you need not mind so much."

Hearing Grandmaster Xiao, Huang Yueli immediately became assured.

She thought for a moment and said, "There's another matter... Since the allied armies had already consented for me to refine the Spirit Armaments for sale, I want to start this business as soon as possible. But I've thought over it and I can't spend too much time refining low grade Spirit Armaments. I'm afraid that I have to look for someone else to refine these Spirit Armaments. I might even have to appoint someone to specially take charge of the sale of these Spirit Armaments... I wonder if Grandmaster Xiao has any suitable candidates?"

Ever since she left the allied armies branch, Huang Yueli had been thinking about this question.

20 different kinds of Spirit Armaments and each kind would have 100 pieces. It would be a total of 2 thousand pieces!

Although Huang Yueli's refining speed was extremely fast, it would still take an entire year to refine such a large batch of Spirit Armaments.

But her Spirit Armament refining skills standard had increased quickly. Now she was able to refine mid grade Spirit Armaments. In the future, she would not be refining these low grade Spirit Armaments daily. Even if she could earn from these, she couldn't waste the time in such a manner!

Adding on to the fact that she still had to put some energy into cultivation...

Huang Yueli poured over this and felt that she had to find someone reliable to handle this.

But she had just arrived in God Realm for a very short time and didn't know too many people, not to mention people whom she could trust.

Grandmaster Xiao was one of them, and in this kind of matter, he definitely had the experience to do it.

Hence, Huang Yueli immediately came over to ask him for pointers.

Grandmaster Xiao's eyes surfaced an envious glow when he heard that.

Huang Yueli was indeed capable to make the allied armies agree to her conditions!

This wasn't only because the drawings that Huang Yueli took out were very good. It was also related to her carrot and stick negotiation tactics.

Grandmaster Xiao and the others had sold the Spirit Armament illustrations, but none of them managed to gain such an advantage when they did business with the allied armies!

He pondered for a moment and said, "I have an idea. If Young Master Li indeed doesn't have time to handle this business, why don't you find a partner to handle this business together?"

"Business partner?" Huang Yueli's eyes widened as she thought of something.

Grandmaster Xiao said, "I've also done this kind of thing thousands of times in the past. It is very simple. Young Master Li, all you need to do is to supply the illustrations as dry stock while the other party is responsible for refining these Spirit Armaments. Moreover, that person will try to think of ways to sell it. After the sale, all you need to do is to split the profits accordingly."

### **Chapter 3357: Business Sense (5)**

Huang Yueli's eyes lit up upon hearing Grandmaster Xiao's suggestion.

"This is indeed a good idea..." She immediately asked, "Then, Grandmaster Xiao, are you willing to cooperate with me on this business? I'm not exaggerating. The grade of these Spirit Armaments might be low, but earning 10 thousand jade quartz a year wouldn't be any problem."

Grandmaster Xiao shook his head as he laughed and said, "It's not that I'm unwilling, but... if we're talking about business, I know nothing about it! If your business is left in my hands, you can forget about earning money. Moreover, if you cooperate with me, I don't have ready resources that can be used. We will end up using the resources from the Sky Gem Glass Chamber. Once we cooperate with the Sky Gem Glass Chamber, you can forget about gaining any benefits!"

Huang Yueli had second thoughts and realized that this was indeed logical.

If she wanted to find a business partner, not only would that person need to be able to sell these Spirit Armaments at a high value, but that person would also be responsible for refining so many Spirit Armaments.

A Sky Gem Grandmaster like Grandmaster Xiao usually didn't bother about everyday affairs. Other than a few disciples, he didn't find any other Spiritual Armament Masters to do this stuff. If he were to take on this business, he could only seek help from the Sky Gem Glass Chamber.

The Sky Gem Glass Chamber might be full of Spiritual Armament Masters and had a huge number of resources, but it was also exceptionally overbearing.

Both she and Grandmaster Xiao might be outstanding Spiritual Armament Masters, but in front of a large powerhouse like the Sky Gem Glass Chamber, they would also find it hard to be in the dominating position.

Huang Yueli frowned slightly and asked, "But other than the Sky Gem Glass Chamber and the allied armies, where else am I going to find so many Spiritual Armament Masters to refine the armaments?"

Grandmaster Xiao laughed. "You don't need to worry about this. In reality, all the various forces in God Realm would nurture their own batch of Spiritual Armament Masters. These Spiritual Armament

Masters were sponsored by the forces and they would also sign a contract with these forces, stating that they would refine a certain quantity of Spirit Armaments for those forces. So there are plenty of large forces who can cooperate with you. You can also choose the one that gives the best conditions and officially cooperate with them.”

Hearing Grandmaster Xiao’s analysis, Huang Yueli finally understood the whole picture.

At the same time, she swiftly made her calculations in her heart.

“If you put it in this way, this matter does seem very simple. My illustrations are only low grade standardized Spirit Armaments. I only need low rank Spiritual Armament Masters to refine them. I believe there are plenty of forces who fit into this condition...”

“But I can’t just look at the proportion of the cut in profits. This is my first time selling Spirit Armaments in God Realm that I’ve designed, so I must ensure each finished product has reached a superior quality. Only in this way can I make a name for me. In the future, when I promote other high grade Spirit Armaments, I will be able to sell them at an even higher price. Hence, the business partner’s armament refining standard must be put in first place...”

Huang Yueli silently thought about this for a while and said, “Grandmaster Xiao, many thanks for your pointers. I want to find a suitable business partner quickly, so I’ll have to trouble you to help me spread the word.”

Grandmaster Xiao nodded consecutively. “Don’t worry. I will make use of the Sky Gem Glass Chamber’s internal communication means to spread the word. Many people know about the news of the allied armies Headquarters looking for you to purchase the illustrations. If they find out that you’re looking for a business partner to sell these Spirit Armaments, there would be plenty of interested people! By then, you can slowly take your pick!”

Huang Yueli happened to hold the same view as Grandmaster Xiao’s plan.

She thanked him profusely and decided on the preliminary step for this matter.

### **Chapter 3358: Fiancée? What A Joke (1)**

After Huang Yueli bade farewell to Grandmaster Xiao, she returned to where she stayed.

It was already evening time, and the sun was already setting in the west.

But Huang Yueli realized that Li Moying hadn’t returned after she got home.

When Huang Yueli heard the maid’s report, she couldn’t help but find it strange.

Other than accompanying her, Li Moying had spent the rest of his time cultivating in the room.

Even if he had some business and needed to go out occasionally, he would normally return before sunset. He had never been back later than her.

Huang Yueli waited for a while more. Only when the sky turned black did Li Moying’s travel-worn figure appear at the door.

“Moying, where did you go? Why are you so late tonight?” Huang Yueli noticed the tiredness on his face and couldn’t help but be worried.

She walked up to him and looked at the handsome man worriedly with widened eyes.

Li Moying pulled her into his arms and chuckled softly, “It’s nothing. Two Cloudy Qilin Clan’s Divine Generals from the allied armies happened to pass by Medial Arch City and insisted on meeting me. I originally didn’t plan to go, but they kept sending messengers to invite me. So I could only hurry over. I only managed to get away now.”

Huang Yueli came to a sudden realization but was surprised at the same time. “So, it’s someone from your clan? Since they are important seniors, you don’t have to insist on rushing back to accompany me. Just get someone to send me a message and that will do.”

Seeing Li Moying’s hurried look, Huang Yueli didn’t need to think too much to know that her husband had cast the two Divine Generals aside just to rush back and accompany her for dinner.

She was naturally very touched to see how much he valued her.

But she was also worried that Li Moying would make the seniors in his clan unhappy. She didn’t want to drag Li Moying down and affect his future.

Li Moying saw the adorable act of her wrinkling her nose and knew exactly what she was thinking.

He raised his hand and caressed Huang Yueli’s head, and his lips curled into a smile. “Why are you letting your imagination run wild? Both Divine Generals merely happened to pass by this place while they are on their way to conduct official business. They also have their matters to handle and have no time to ask me to stay for dinner. Otherwise, I was thinking of showing off my little wife to them!”

Hearing his words, Huang Yueli was at ease.

She held Li Moying’s palm and mumbled in a dissatisfied manner, “Don’t touch my head. My hair is messed up by you! Alright, it’s not early anymore and I’m hungry. Let’s quickly eat!”

Huang Yueli held her husband’s hand and walked into the room.

Looking at her slender and graceful back, a dim glow flashed across Li Moying’s eyes as he took a guilty, long breath.

During dinner time, Huang Yueli was still extremely excited.

Today, she had just sold those 17 illustrations and could be said to have gained a huge fortune overnight. Moreover, she also discussed with Grandmaster Xiao and decided on the preliminary proposal for the sale of those modified standardized Spirit Armaments.

These matters made her extremely happy, so the first person she wanted to tell was naturally her husband!

“... so, I just need to find a suitable business partner. The preliminary plan is there would be hundreds of thousands of low grade jade quartz of income every year in the future!”

As Huang Yueli spoke, her eyes suddenly widened and she leaned forward in front of Li Moying.

“... Moying, Moying! Are you listening to me?”

Li Moying was shocked by the delicate little face which had suddenly been magnified. “Ah! Li’er, you... what do you want to do?”

### **Chapter 3359: Fiancée? What A Joke (2)**

Huang Yueli pouted with his reaction.

“Moying, you are actually daydreaming? I said so much earlier but you’re not listening at all!”

When Li Moying saw his little fox biting her lips and putting up an extremely pitiful look, he immediately pulled her into his arms and quickly apologized, “Li’er, it’s my fault. I had gone into a daze while thinking of something. But I heard everything you said earlier. Congratulations on selling all the illustrations. My Li’er is so amazing! This Husband will have to rely on you for a living in the future...”

Huang Yueli snorted heavily when she heard him. She stretched out a finger and poked his chest.

“Since you know that you have to rely on me for a living, how dare you still daydream when you’re talking to me! Explain yourself, what exactly were you thinking about? Did something happen this afternoon when you met the Cloudy Qilin Clan’s Divine Generals?”

As she spoke, she stared fixedly at Li Moying with that pair of big, watery eyes without blinking, not missing out on any change in his expression.

Li Moying was startled and realized that he had lost his composure tonight.

But he was a deep and calm person by nature. He intentionally camouflaged his expression to ensure there wasn’t any flaw in his expression.

“Li’er, you’re really overthinking things.” He showed a helpless smile and said, “I was distracted for a moment because I simply couldn’t believe that Grandmaster Xiao, a Sky Gem Grandmaster who didn’t bother about the secular things in the world, is so thorough when he’s doing business. I was just a little surprised...”

“Oh? Really?” Huang Yueli blinked and looked at her husband suspiciously.

The glow in Li Moying’s eyes darkened slightly and he lowered his head to kiss her cheek. His warm breath sprayed against her earlobe and he laughed in a deep voice, “Li’er, you look so cute when you’re so suspicious, and it makes me feel like kissing you. What should I do?”

Huang Yueli’s face turned red. “Hey, you... what rubbish are you talking about? Have your dinner! We’re still in the middle of our dinner!”

Li Moying’s muscular, long arms had already wrapped around her waist.

“Dinner? Aren’t you already full since long ago? But I’m still hungry, so it should be your turn to feed me...” Li Moying said ambiguously as his soft laughter rang in her ears.

He subconsciously glanced at the plate on the table.

Huang Yueli had already eaten her fill earlier but as they were talking about the events during the day, they became too excited and they were still seated at the dining table.

At this moment, Li Moying swept Huang Yueli off her feet easily and stood up.

Huang Yueli almost fell backward and hurriedly grabbed his collar.

“Y...Y...You... where are you going? Let me down!”

“I’m bringing you to celebrate the happy occasion that happened today!”

Li Moying clasped his hand around her waist tightly and carried her straight towards the bedroom.

Huang Yueli’s lips twitched as she thought, “Celebrate? Celebrate my head!”

Ever since she had gotten married to Li Moying, they didn’t consummate initially so she was indeed rather innocent for some time. After she came to God Realm, Li Moying used various reasons and got her into bed.

Now, she was extremely experienced. How would she possibly not know that her cold and aloof-looking husband, who gave off an abstinence temperament, was actually a big, bad wolf!

She dangled her feet hard, trying to jump out of Li Moying’s arms.

“No need, we don’t need to celebrate over this small thing. I still have to research the proposal for future collaboration!”

### **Chapter 3360: Fiancée? What A Joke (3)**

Li Moying laughed softly and said, “That’s not urgent... Since This Husband had neglected my dear wife today and made you unhappy, I naturally have to help you celebrate this to make up for my mistake...”

“No need to make up for it. There’s really no need... mm mm mmmph!”

“My dear wife, you’re too kind. Let me give you a kiss...”

The two’s squabbling voices vanished behind the bedroom doors.

In the courtyard, Li Tianyi and Li Tianer looked at each other in dismay.

“So, Young Lord says he had a way to settle Young Madam and it turns out to be using... the beauty trap!” Li Tianer was tongue-tied.

Li Tianyi had been responsible for following Huang Yueli around recently so he knew a little more about how this young couple interacted.

He replied expressionlessly, “Otherwise... what did you think it was?”

“I thought... this, this...” Li Tianer couldn’t say a word for a long time.

But Li Tianyi could understand what he meant without him explaining.

Before he saw it with his own eyes, he also assumed that even if that peerless genius Young Lord who appeared only in tens of thousands of years was very respectful to Young Madam, there would be a limit to it. At least if it was something like today's matter, he would definitely get Young Madam to make some sacrifices to coordinate with him.

Whoever knew that after Young Lord returned home, not only did he not say anything. Even though Young Madam could tell that something was wrong and kept asking him about it, he stood firm and refused to talk about it.

Seeing that he couldn't get past her questioning, he actually... used the beauty trap instead??

Could it be that Young Lord relied on his handsome looks in front of Young Madam to get his way!

...

Huang Yueli slept until mid-noon before she got up from bed on the second day.

This was simply because Li Moying was too clingy and kept saying he wanted to have a baby with her!

Thinking of this, Huang Yueli stretched out her little hand from under the blanket, patted her flushed face, and attempted to lower her temperature.

Of course, she also liked to have a baby.

But she heard something long ago that the higher one's innate talent and cultivations were, the harder it was to conceive a baby. It was exactly this reason that all the top exponents in God Realm could live for a few thousand years, but few had descendants. They were very different from ordinary people from the Lower Realm, or perhaps they couldn't even be compared with mere mortals.

Especially for people like her and Li Moying, who had the God clan's bloodline and were god grade geniuses. It was possible for them to have a baby, but they would probably need some luck and a chance. It wasn't like they could have it if they wanted to.

"This man... he really does something the moment it comes to mind..."

Huang Yueli ridiculed him silently and climbed onto the bed.

When she walked out after refreshing up, she heard a piece of surprising news, and that was— Li Moying was out again!

"Moying went out today again? Where did he go?" Huang Yueli asked curiously.

The maid bowed and replied, "Young Lord didn't mention that."

Huang Yueli frowned slightly and asked, "Then what about Li Tianyi?"

"Young Master Tianyi went out with Young Lord as well..."

Huang Yueli rose an eyebrow, instinctively feeling that something was not quite right.

Ever since they came to Medial Arch City, Li Moying had assigned Li Tianyi to her. Almost every single time she went out, Li Tianyi would be responsible for her safety. That was the default setting.

Now, Li Moying suddenly took Li Tianyi along with him...

Could it be that Li Moying had already found out about the time when Li Tianyi had secretly snitched on him?
