

Weaponsmith 3401

Chapter 3401: Throwing Herself At Him (4)

All the Spiritual Armament Masters were dumbstruck to hear Grandmaster Xiao's interpretation.

"An armament refining room for each person to refine alone?"

"What kind of idea is this? I've taken part in so many competitions, but it's my first time encountering this kind of situation!"

"If this is the case, wouldn't it be easy to cheat? Where is the fairness in this?"

The crowd started to talk about this and many expressed their discontent.

Grandmaster Xiao said, "Everyone, don't worry. A special array has been set up at the entrance of each room. Although you can't see what's happening outside or next door, the people outside can see what you're doing inside the room. There will be a judging panel member patrolling and surveying the entire competition process, so all of you need not worry. This move is merely implemented to prevent anyone from deliberately playing dirty tricks to interfere with the other Spiritual Armament Masters from refining armaments."

This explanation sounded rather logical.

The Spiritual Armament Masters taking part in the competition considered the pros and cons internally and realized that this arrangement was to their advantage. So after a short moment of hesitation, they nodded their heads to express their agreement.

Huang Yueli couldn't help but rose an eyebrow, feeling extremely satisfied with Grandmaster Xiao's method and speech.

Experience indeed was an important factor. If she was the one who announced it, she might not be able to handle it as well as Grandmaster Xiao!

After announcing the rules, those stewards who accompanied the Spiritual Armament Masters to the competition were kept outside.

Only the Spiritual Armament Masters followed Grandmaster Xiao into the rear courtyard. They were getting prepared for the start of the competition.

When both groups separated, Li Yuntao held onto Li Leyun and asked with a frown, "Leyun, what are you up to? Grandmaster Xiao was about to chase Young Miss Li away, so wasn't that what you wanted? What are you trying to do by making her stay? Aren't you creating trouble for yourself? Or do you feel that the situation is not as chaotic as it should be yet?"

Li Leyun shot a glance at him and snorted coldly disapprovingly.

"Uncle Hai, you need not bother about this! I had a wager with her some time ago and I thought she didn't dare to accept it. However, I didn't expect her to come of her own accord. This time, I must grab hold of this opportunity!"

“What? What wager?” Li Yunhai also frowned as he instinctively felt that something was wrong.

Li Leyun replied, “Don’t overthink things. Anyway, it’s a good thing! Just wait and see. After today, that little slut will leave Brother Moying on her own! You don’t need to spend any effort at all!”

“What do you mean?”

Both Divine Generals were confounded as they wanted to continue questioning her.

But Grandmaster Xiao had already discovered that Li Leyun was not following them, so he turned back and urged.

Li Leyun took this opportunity to run over, trying to catch up to the group, leaving both Divine Generals behind.

Huang Yueli originally was at the end of the group. From the corner of her eyes, she noticed Li Leyun and both Divine Generals whispering in one another’s ears.

When Li Leyun caught up with the group, the first person she saw was Huang Yueli.

Her lips curled upward and she couldn’t help but laugh. “Tsk tsk, I’ve never seen anyone as dumb as you! What are you doing here today? Don’t tell me you honestly think that you, a low rank Spiritual Armament Master, can win so many mid rank Spiritual Armament Masters here? Oh, right! You haven’t seen the Spirit Armament illustration that we will be using in today’s competition yet, right? Later when you see it in the armament refining room, you will surely have a nice surprise~”

Thinking of this, Li Leyun’s confidence soared.

Huang Yueli suddenly rushed over to register and did not have a copy of the Spirit Armament illustration beforehand. If she were to see it so abruptly, she would definitely be stunned.

Li Leyun thought, “Today’s win at this competition is too easy!”

Chapter 3402: Throwing Herself At Him (5)

Huang Yueli didn’t say a word, nor did she look at Li Leyun. Instead, she followed the group closely.

Li Leyun was intentionally finding trouble with her, but the other party did not fall for it. So she instantly became gloomy.

Luckily, Grandmaster Xiao quickly brought the group to the competition grounds, gave each person a number plate to represent their identity, and asked them to head to the corresponding armament refining rooms.

Huang Yueli entered the room she was allocated, and she leisurely looked around at the situation in the room.

The rooms that the Spiritual Armament Masters were assigned to were roughly the same size. Other than the criterion standardized spirit armament furnace and a box of materials, there weren’t any extra decorative items.

Huang Yueli lifted the box lid and found a Spirit Armament illustration on top of the materials.

This illustration was naturally the topic for today's competition.

Huang Yueli was the person who drew this illustration, so no one was more familiar with the contents than her. She took a casual look and placed the illustration right back in its original spot.

After that, she began to start refining the Spirit Armament.

The competition this time was to get them to refine a set of wrist guards.

Wrist guards were a kind of armor, but it wasn't an ordinary defensive Spirit Armament. The main use of wrist guards was to help the practitioner direct the Heaven and Earth Profound Qi in the air and increase their Profound Energy to raise their attack power.

Hence, the use of wrist guards was more inclined as a weapon.

Huang Yueli skillfully lit the fire, added the materials, guided the structural energy field, and finally shaped it as it cooled down.

The entire refining process only took a quarter of an hour or more.

Shortly after, a standardized pair of wrist guards were born. No matter if it was the exterior, endurance, or increase of the power, it had already reached premium quality.

Of course, based on Huang Yueli's ability, it would merely take a lift of a finger to make this pair of wrist guards into deluxe quality grade.

But Huang Yueli merely wanted to stop Li Leyun from stepping into the limelight, and not create even greater trouble. Hence, she intentionally threw the game and raised the temperature slightly higher when she lit the fire to artificially create a little flaw.

The result would definitely affect the wrist guard's quality.

But this Spirit Armament was just nice for today's competition.

After she completed refining, Huang Yueli instantly had nothing to do and became extremely bored.

To prevent the competing Spiritual Armament Masters from playing dirty tricks on the sly, the armament refining room's décor was so crude that not even a chair was given.

Huang Yueli looked around and finally saw a cushion in the corner. She hurriedly walked over and sat down.

The entire competition would take eight hours, but only one hour had passed.

There was no restriction for the Spiritual Armament Masters to hand in the Spirit Armaments that they had refined successfully during the entire process, but today's test topic was so difficult that there would probably be less than ten Spiritual Armament Masters who could refine a finished product in the last quarter of the competition.

Under this situation, if Huang Yueli were to leave so early, it would surely cause a commotion.

She didn't want that to happen so the only way was to waste the remaining time in the spirit armament refining room.

Wasting time might sound very simple, but it was honestly very rather tough to do.

Because like what Grandmaster Xiao had said earlier, this spiritual armament refining room's entrance was set up with a special array. Outsiders could see the situation in the room from the outside.

Chapter 3403: Throwing Herself At Him (6)

Moreover, throughout the entire competition, there were judges who were high ranked Spiritual Armament Masters invigilating and making their rounds outside.

Originally, this array only allowed those from the outside to look in and the people inside could not see when someone was passing by outside.

However, such an array was not difficult for Huang Yueli.

She made a little change to make it two-ways. From the inside, she could also see the patrolling of the Spiritual Armament Master outside.

However, doing this didn't help her much, because the crux of the problem was that in order to make herself look like a normal contestant, she could not be caught sleeping, right?

Moreover, although there were some books in her space, it was impossible to take one out to read to pass the time, otherwise, wouldn't it be the same as cheating? This could very well possibly get herself into another round of trouble.

After contemplating for a while, she could only take out a stack of plain paper and scribble on it. While pondering on the illustrations of several intermediate-level Spiritual Armament she had recently refined, she secretly prayed that today's competition would end soon!

However, there was still such a long time to go, how could time fly by so quickly?

Moreover, the more one wished for time to pass quickly, the more it would make one feel that the time passed was extremely long...

In the end, Huang Yueli still couldn't hold back and very soon, she drifted off to sleep and ended up leaning her head against the wall.

It wasn't until Grandmaster Xiao's apprentice knocked on the door, telling her that the time for the competition was up and asked her to come out to hand in the Spirit Armament when she jolted awake.

"Oh, it's all because of that darn Moying, hmph, I actually fell asleep while seated!" Huang Yueli rubbed her slightly red eyes, pouted her lips, and scolded him in her heart.

She often feels sleepy during the day now, mainly because... Li Moying pestered her every night, doing some indescribable double cultivation.

She also knew that the two had been separated for nearly two years after they got married, and now that they have finally reunited, Li Moying must be making up for lost time.

But, then there was still no need for him to do it...to...to such an extent!

The god-level double cultivation manual they brought from Soaring Heavens Continent was almost at the last page! The manual clearly stated that it will take at least five years to have a small success...

Only Heavens know what they have done in the past two months...

After scolding her husband in her heart, Huang Yueli jumped up, picked up the pair of wrist guards that she had thrown in the corner, and walked out of the refining room.

In the courtyard by the entrance, a lot of people have gathered and there were many Spiritual Armament Masters walking out from their refining room one after another.

Obviously, almost everyone stayed until the last moment of the competition.

Li Leyun came out a little earlier. The Spirit Armament in her hand had already been handed over to Grandmaster Xiao. She was standing in the middle of the courtyard, with her arms crossed, looking leisurely around at the crowd that started to gather. Looking at the expression on her face, she seemed very relaxed and comfortable, it was as though she had already won.

Seeing Huang Yueli walking out, Li Leyun's eyes immediately fell on her.

"Hey, Young Miss Li, why did it take so long for you to come out? Look at you, did you spend too much spirit consciousness just now? This lady kindly advises you, refining a Spirit Armament isn't like any ordinary competition. If you failed a few times, it just means that you can't do it at all! No matter how long you delay for, it's meaningless!"

Hearing Li Leyun's taunt, the other Spiritual Armament Masters also turned to look at Huang Yueli.

Chapter 3404: Throwing Herself At Him (7)

Li Leyun and Huang Yueli...these two were now the main focus of the competition!

Before the competition started, the two of them were fighting each other. They fought so hard until the moment each of them finally entered the refining room and yet straight after each of them left the refining room, they started arguing again?

Moreover, Huang Yueli's complexion looked really bad!

However, they did not know that it was all because she had dozed off and fell asleep accidentally but was rudely awoken up by someone in the middle of her sweet dreams.

So, her expression was still a little sullen, her gaze had a hint of confusion in there and she couldn't fully open her eyes while her fair cheeks even had a faint pink blush on.

It was true that a stunning beauty, even if she was not in good spirits, still has her own charm.

However, it was undeniable that she does not look like she had successfully refined a Spirit Armament.

The Spiritual Armament Masters present exchanged glances with each other, and felt pity for Huang Yueli.

When Huang Yueli heard Li Leyun's provocative words, she just raised her eyes and glanced at her, and said indifferently, "Thank you Young Miss Li for your advice, but this is all common sense."

"Hmph! It's good that you know!"

Li Leyun was blocked by her and felt unhappy in her heart. However, when she thought that if she waited a moment more, she could witness Huang Yueli's loss and win the bet to let this little tart leave her Brother Moying... with such naive thoughts...she quickly became happy again.

"Where are the wrist guards that you made? Why don't you take it out quickly?" Li Leyun urged.

Huang Yueli walked over to Grandmaster Xiao, and took out a small wooden box from her arms.

This box was a box that Grandmaster Xiao asked his apprentice to distribute to all the contestants before the competition. It was used to hold the finished product. The lid of the wooden box could be locked.

This was for the sake of fairness in the competition. It would ensure that after the contestants' works were sealed, they would not be at risk of being switched out by others.

However, like Li Leyun, several Spiritual Armament Masters who have refined excellent products did not lock the box.

They were eager to show the Spiritual Armament Masters present how perfect the Spirit Armament they refined was!

After all, today's test was so difficult, and being able to refine the finished product was a very remarkable thing itself. Showing off in front of so many peers, even if one failed to get the first place and get the big business, it was sure to make a name of oneself too.

As for cheating or something...

No one would think that under the eyes of the Allied Forces Generals and Grandmaster Xiao, there were still people who would dare to act so blatantly.

Therefore, before Huang Yueli left, only those Spiritual Armament Masters who failed in the final refining and tossed only a half-finished product would close the box tightly so that no one could see the contents inside.

Huang Yueli reached out and took out her wooden box and placed it on a table in front of Grandmaster Xiao.

The lid of the box was closed, and Huang Yueli's number was written on it – Thirty-one.

Originally, there were thirty Spiritual Armament Masters participating in the competition today, and she was the extra one with the highest number.

Grandmaster Xiao nodded, "The Spirit Armament of contestant No. 31 has been received, you can go and rest. Next—"

However, before Huang Yueli could leave, Li Leyun suddenly rushed to the front of the long table.

Chapter 3405: Throwing Herself At Him (8)

“How is the Spirit Armament that you refined? Let everyone have a look!”

Before anyone could react, she reached out to the box and lifted the lid up—

However, despite using all her strength, she failed to lift the lid of the box.

Li Leyun was stunned for a moment, however, Grandmaster Xiao had already recovered his senses.

He held down Huang Yueli’s box, glared at Li Leyun, frowned and said in a curt voice, “Young Miss Li, even if you are a proud daughter of the Cloudy Qilin Clan, you can’t ignore the rules of the competition like this! After the wooden box is closed, unless the Spiritual Armament Master is willing, otherwise no one can open it to see it! Since it’s the first time you’ve made an offense, I’ll let you go this time, but if there is a next time, don’t blame this old man for disqualifying you!”

Being reprimanded by Grandmaster Xiao in front of so many people, Li Leyun felt disgruntled.

However, after hearing what Grandmaster Xiao finally said that she would be disqualified from the competition, no matter how unconvinced she was, she didn’t dare to say another word, and backed away in embarrassment.

Grandmaster Xiao glared angrily at Li Leyun. He was very dissatisfied with this young lady of the Cloudy Qilin Clan, and at the same time, he felt even more fortunate for Li Moying.

If this kind of woman really married a god-level genius, it would be a tragedy for the entire God Realm!

In the future, Li Moying will become one of the best in the God Realm. If there was such a brainless and arrogant woman who uses his prestige to cause trouble outside, how much trouble would it will cause!

But, unfortunately... Li Leyun really had a talent for refining.

Grandmaster Xiao glanced at the few finished products that came up just after opening the box lid.

Among them, the one refined by Li Leyun was obviously much better than the others!

If things continued this way, it should be the best Spirit Armament in today’s competition...

After Li Leyun withdrew, she felt depressed for a while, but she soon regained her aloof expression.

She had absolute confidence in the Spirit Armament that she had refined and was 99% confident in winning!

Just now, she was really wrong. What she originally wanted to do was to open the wooden box of Huang Yueli in front of so many Spiritual Armament Masters, and let everyone see what she made! It’s probably not even half-finished!

Losing in front of so many people, Huang Yueli’s reputation in Sky Gem Glass Chamber will plummet to rock bottom!

When the Spiritual Armament Masters of the major forces spoke about this in the grapevine, Huang Yueli would definitely be unable to lift her head in the future.

Unexpectedly, Huang Yueli locked her wooden box!

Li Leyun made her move unexpectedly but was unable to open the box!

This made Li Leyun feel that it was a pity, and she wondered how bad the things she refined was that had to be so carefully hidden.

And after these boxes were sent to the judges, the judges would no longer judge publicly, and would only give the final result.

Therefore, these contestants would no longer have the opportunity to see what other people's finished products were like.

No matter how she wanted Huang Yueli to lose her reputation, she no longer had the chance..

"Tch... This damn girl is really lucky, hmph! However, it doesn't matter, anyway, she's bound to lose the bet today. After the results of the competition are announced, I can't wait to see how she still has the cheek to rely on Brother Moying and stay by his side!"

Li Leyun glanced at Huang Yueli in admonishment, left the courtyard, walked to the front hall, and waited for the results of the competition.

Chapter 3406: Competition results announced (1)

Huang Yueli's expression was calm, and she turned a blind eye to all the various gazes cast by the people around her.

It was not until Grandmaster Xiao collected all the wooden boxes that she followed the crowd and left.

Huang Yueli deliberately walked at the end of the line, lowered her head and kept silent. When no one was paying attention to her, she found a corner and ran away secretly.

Huang Yueli found an empty room and hurriedly changed her clothes.

Then, after putting on her disguise, she swaggered through the gate into the courtyard and came to the room where Grandmaster Xiao was.

In the room, the five Sky Gem Glass Chamber Grandmasters who were invited to serve as judges this time have all sat together and were in a heated discussion for a while.

These five people happened to be the five Sky Gem Glass Chamber Grandmasters who were invited by Divine General Mu to review her Spirit Armament Illustrations when Huang Yueli first arrived in Medial Arch City City.

Of course, it's not a coincidence to have invited them to this competition.

In Medial Arch City City, these five masters represent the highest level of the Sky Gem Glass Chamber in Empyrean Fox Continent, and having several of them as judges was enough to convince all the major forces participating in the competition.

However, on the faces of these five esteemed judges, there was a trace of worry.

“Grandmaster Xiao, what’s going on? Didn’t you agree that Young Master Li will be there today? Where is he now?” Grandmaster Han couldn’t help asking.

Grandmaster Xiao’s face stiffened, “Young Master Li clearly came here this morning, and even greeted me! However, when the test was about to start, he suddenly said that he had had to relief himself and excused himself and I don’t know where he had run off to after that!”

“What? You don’t know where he went? How is it possible?” Grandmaster Yuan frowned and said, “Since he mentioned that he had to relief himself, he must have gone to the washroom?”

“Do you think this old man does not know such a thing? However, I have sent people to search every room in the mansion, not to mention each and every washroom, even my daughter’s boudoir was not let off! After such a thorough search, no one has seen the shadow of Young Master Li!”

“What do you think happened? Young Master Li will be fine, right?”

The five looked at each other in dismay, and instead of reducing their doubts, they became more uneasy.

After a while, Grandmaster Han said, “What should we do? We don’t know what happened to Young Master Li, how could he just leave midway? Besides, when those Spiritual Armament Masters were refining the Spirit Armament, it’s fine if he wasn’t there! Now the results of the competition are going to be announced, and yet he is still not present!”

Grandmaster Yuan also said: “Grandmaster Xiao, what do you think we should do now? We have been dragging on for nearly an hour, and there are still so many Spiritual Armament Masters and powerful figures from major forces waiting outside. We have to give them an explanation!”

Grandmaster Wang hesitated: “But, after all, this is Young Master Li’s business. If he is not here, yet we announce the results directly, doesn’t it seem very inappropriate?”

Grandmaster Yuan nodded and said, “That’s true, but, in the current situation... Grandmaster Xiao, you have the deepest friendship with Young Master Li, and the one who has the highest status in the Sky Gem Glass Chamber Glazed Glass Pavilion. You have to speak with reason!”

“This... it’s not that the old man deliberately shirking, but...”

This hot potato was shoved directly into Grandmaster Xiao’s hands, but he also felt that he couldn’t take it, and hesitantly wanted to refute.

At this moment, there was a knock on the door.

Grandmaster Xiao frowned and said in displeasure, “Who is it?”

Chapter 3407: Competition results announced (2)

“Has no one taught you the rules? This is the place where this old man discusses affairs. No one is allowed to approach without permission!”

Grandmaster Xiao thought that the person who came was a servant girl in the mansion, so he immediately reprimanded.

But who knows, right after that, a familiar voice came from outside the door, “Grandmaster Xiao, aren’t you looking for me?”

The five people in the room were all shocked.

“Young Master Li!!”

Grandmaster Xiao suddenly stood up, walked to the door and opened the door.

Outside the door, stood Huang Yueli, who had finished her disguise. She nodded towards Grandmaster Xiao and walked into the study.

After being stunned momentarily, the five Grandmasters came back to their senses and gathered around again.

“Young Master Li, you...you’ve finally shown up! We’ve been looking for you for a long time!”

“Yeah, is your body alright? Why did you go to the washroom and didn’t show up for so long?”

Grandmaster Xiao’s face showed a bit of obvious anger, “Young Master Li, where did you go? If you wanted to leave, why didn’t you give me a head’s up? It made me look for you everywhere. If you weren’t going to appear, we have no idea what to do!”

Knowing that she was wrong, Huang Yueli laughed wryly and explained, “This... I suddenly remembered that there is something urgent at home...”

In a hurry, she made up a reason casually.

Seeing Grandmaster Xiao’s expression full of doubts and looked as though he wanted to probe further, she quickly changed the subject, “By the way, how is the competition? I heard your voices at the door just now. It seems you’re in a hurry?”

Sure enough, when it came to serious business, Grandmaster Xiao was distracted.

“The competition is over now, and the finished products of so many Spiritual Armament Masters have been placed here, come and see, which Spirit Armament are you going to choose? It’s getting late, you have to make a decision as soon as possible!”

He pointed to the thirty wooden boxes neatly arranged on the table, and said to Huang Yueli, “Young Master Li, hurry up and pick one!”

This time, Huang Yueli took so much effort to remove her disguise and put it on again, it was precisely for this reason.

The quality of the Spiritual Armament she refined was definitely guaranteed. She had full confidence that under the fair evaluation of Grandmaster Xiao and the rest, they would also choose the Spiritual Armament she refined as the first place.

However, Huang Yueli also had something she was worried about.

Because, before the start of the competition, Grandmaster Xiao once said in front of all the contestants that the Spiritual Armament refined by everyone today will be personally inspected by the owner of the illustration, "Young Master Li". Cough, so... she still had to select one.

Grandmaster Xiao was a righteous man, and it was impossible to go back on his words casually.

If she was with those contestants and hadn't come to Grandmaster Xiao to review these Spirit Armaments, maybe Grandmaster Xiao would have been procrastinating, refusing to announce the results of the competition, so she didn't know how long it would take!

She had no choice but to quickly put on her disguise and run to the courtyard again.

Under Grandmaster Xiao's angry gaze, Huang Yueli daringly walked to the front of the table.

Now, the lids of all wooden boxes have been opened.

The works of each Spiritual Armament Master was presented before everyone, and they could all be seen at a glance.

The situation was not much different from what Huang Yueli had guessed before. There were only less than ten people who were able to refine the finished product. The rest of the wooden boxes were filled with incomplete and defective products.

Chapter 3408: Competition results announced (3)

Out of those that seem to be relatively complete, there were three that stood out most.

The first piece, of course, was the wrist guard that Huang Yueli refined, and the quality was of course at the top .

The remaining two pieces were borderline and if compared with the one she refined, they were still inferior.

Huang Yueli's eyes were very sharp, and after a little glance, she knew the general situation.

However, she did not express her position immediately, but turned to look at the five Sky Gem Glass Chamber Grandmasters.

"Grandmasters, you must have looked at these Spiritual Armament carefully before I came back? I wonder what you think about these works? Although I am a person who draws illustrations, after all, I am still young and have little knowledge. I still have to listen to the opinions of few esteemed Grandmasters."

The Spiritual Armament Masters valued their reputation the most, so when Huang Yueli said these words, it placated their hearts.

Immediately, several Grandmasters felt at ease, forgetting the trouble caused by Huang Yueli's sudden disappearance earlier.

Grandmaster Xiao was the first to open his mouth and offered his opinion very sincerely: "Young Master Li, we have indeed discussed it just now. As you can see, only three of these finished products can be regarded as top quality products that can be used. In such a short span of five days, it is very rare to learn this brand-new refining method just by looking at the illustration, and to be able to successfully complete the refining. It can be said that the level of the three Spiritual Armament Masters is quite high."

When Huang Yueli heard the words, she nodded, "What Grandmaster Xiao said is very true!"

Grandmaster Han also came over and said, "However, if you look closely at these three pairs of wrist guards, you can tell the difference. The wrist guard of contestant No. 31 is obviously better than the other two. In addition, there is not much difference between the works of contestants No. 16 and No. 18. As this is a competition, in order to ascertain the quality, we also specially tested them. "

The two Sky Gem Glass Chamber Grandmasters have roughly explained the situation.

The remaining three Grandmasters talked a lot, and added details.

Huang Yueli nodded in her heart, these five Sky Gem Glass Chamber Grandmasters' reputation were indeed well-deserved, and their views were exactly the same as hers.

She pretended to think for a moment before slowly saying: "Then... According to the opinion of the five seniors, the first place in this competition is the No. 31 contestant? However, I remember that only thirty Spiritual Armament Masters signed up today, how did a No. 31 suddenly appear?"

Hearing this question, the five Grandmasters looked at each other and were silent for a while.

After a while, Grandmaster Xiao sighed and said, "Young Master Li, you were away just now, so you don't know what happened before the test."

Grandmaster Xiao quickly recounted the dispute between Huang Yueli and Li Leyun before he said, "Because of this, another Spiritual Armament Master from the Cloudy Qilin Clan gave up the qualification, and this Lass Li will make up for it. Hence, only this No. 31 was added. However, the final product received was still thirty pieces."

Naturally, Huang Yueli knew the situation at that time better than anyone else, so there was no need for Grandmaster Xiao to say more, anyway it was all just her own farce.

However, after listening to Grandmaster Xiao's words, she still nodded in an exaggerated.

In fact, she almost couldn't hold back her laughter and was trying her hardest to stifle it.

Chapter 3409: Competition results announced (4)

This was because, in the process of telling her the ins and outs of the matter, Grandmaster Xiao obviously stood by her side, completely portraying Li Leyun as a shrew.

Thinking about Li Leyun was pathetic enough.

As a proud daughter of the Cloudy Qilin Clan, she was usually adored and pampered on, so the chances of her being so disrespectful did not account for much.

However, it was extremely rare for her to show her ugly side and not to mention, out of these two times, she was caught by Grandmaster Xiao!

Others may not hate Li Leyun so much just by seeing her performance today, but when Grandmaster Xiao gave a lecture last time, he was almost disturbed by her.

Huang Yueli nodded and said, "There is actually such a thing! Fortunately, Grandmaster Xiao, you handled it properly. If I was the only one present, I don't know what to do."

Grandmaster Xiao was praised by her again and in a good mood, he continued: "Speaking of which, this Lass Li really performed beyond our expectations! I didn't expect that such a delicate little girl, she actually refined such a high level of Spirit Armament! When she said she was going to participate in the competition today, I thought this little girl was just bragging, but I didn't expect that she actually made a finished product, and it was the best of all the entries!"

"Yeah, this is really surprising!" Grandmaster Han also agreed.

Even Grandmaster Yuan said beside him: "Speaking of which, Madame Li's talent is indeed quite good! Seeing that she is a little younger than Li Leyun, I didn't expect that the level of refining is even higher!"

In order to cover up the fact that she was too young, Huang Yueli would dress up a little more maturely when she showed up on weekdays, so most people would think that she was about the same age as Li Moying.

When Huang Yueli heard the crowd praising her, the corners of her mouth were slightly raised, and she smiled without saying a word.

After listening to them, she said: "Those things about the Cloudy Qilin Clan are nothing to worry about, it has nothing to do with today's competition. Judging from the quality of the Spirit Armament, the wrist guards in the No. 31 wooden box is the best. Then... we will announce the results of the competition as agreed before, and then formally negotiate with the forces behind the first place to sign a contract."

Several Sky Gem Glass Chamber Grandmasters nodded together, "Yes, that's how it should be!"

Huang Yueli finished her decision and looked at Grandmaster Xiao again, "Grandmaster Xiao, please announce the result of the competition for me!"

Grandmaster Xiao remembered what happened in the morning again, blowing his beard and staring at him, his face full of displeasure.

Huang Yueli hurriedly said, "Grandmaster Xiao, didn't you tell the contestants just now that I didn't want to show up in front of people? If I show up again at this time, wouldn't I be smacking myself?"

When Grandmaster Xiao thought about it, it seemed that this was the truth. There was no other way but to accept this task.

The remaining four masters did not like to join in the fun, so they chose to stay in the study.

Seeing that Grandmaster Xiao was gone, Huang Yueli quickly pressed her stomach again.

“Oh, oh, no, no, no! I seem to feel uncomfortable again! Several seniors rest well, I... I’ll take one step first!”

After speaking, she hurriedly slipped away before the four Grandmasters could react!

Leaving the four Grandmasters to look at each other in dismay, they were all pondering, this Young Master Li was in such a situation so many times a day, this... he was really sick! And pretty serious as well!

If you’re sick, you have to treat it quickly!

Unfortunately, Huang Yueli ran so fast that they didn’t have time to say anything.

Chapter 3410: Competition results announced (5)

Huang Yueli had to rush once again as she quickly removed her disguise and hurried back to the main hall.

At this point in time, the main hall was full of people, not only all the participating Spiritual Armament Masters, but also all the powers of the major forces.

This was the most important moment of the day, where the results of the competition were about to be announced. Naturally, no one wanted to miss it.

Huang Yueli took a deep breath as she opened the door stealthily and cautiously slipped in.

However, even though she had tried her best to lighten her steps, Li Leyun and the others still turned their heads and looked at her.

“Oh, where have you been? Why did it take you so long to come here? I thought...you didn’t dare to come!” Li Leyun deliberately raised her voice and it attracted everyone’s attention.

Huang Yueli noticed that everyone’s eyes were on her, and she couldn’t help but frown.

However, she still walked to Li Leyun very calmly, and said indifferently: “I was just feeling a little uncomfortable, so I went for a walk. How could I not come at the important moment when the results of the competition is going to be announced?”

Li Leyun glanced at her contemptuously as she gave a mocking smile.

“Well, after refining such a bad Spirit Armament, if I were you, I would not even have the face to come here. Well, it’s rather befitting of someone so shameless, you can even still be in the mood to go for a walk, but then again, you are only human. Now that you are here, why don’t you sit down quickly? No

matter what, you are representing our Cloudy Qilin Clan, being late for such an occasion, it's very rude!"

Huang Yue knew what Li Leyun was thinking, but she just found it funny.

It seems that Li Leyun was very sure of herself and had already presumed that she had won the competition, right?

Thinking of this, Huang Yueli felt that she was pretty lucky.

Thank goodness she came to participate in the competition on the spur of the moment! Otherwise, if this business fell into the hands of Li Leyun, she would be really depressed!

Huang Yue thought about it in a heartbeat, and without talking to Li Leyun, she walked to the corner and sat down.

Li Leyun felt that Huang Yueli had been stepped on by her, and she was so ashamed that she was embarrassed. She couldn't help but widen her smile.

The others present also talked a lot, and even many people forgot what they were here for and even started to blatantly gossip about Huang Yueli and Li Leyun.

At this moment, Grandmaster Xiao walked to the stage and coughed softly.

The audience immediately became quiet, and everyone looked at him expectantly.

Grandmaster Xiao did not speak much and went straight to the point: "Everyone has been waiting for a long time, just now, this old man and several judges today carefully checked each of the Spirit Armament you refined and compared them one by one. The quality of the Spiritual Armament is out of the ranking, and now, the old man will announce the results of the competition."

"The first place in this competition is..."

Li Leyun widened her eyes and squeezed the armrests on both sides of the chair with both hands.

She had absolute confidence that the first place belonged to her!

The other Spiritual Armament Masters also secretly looked at Li Leyun, feeling all kinds of discomfort in their hearts.

Everyone had seen the finished products made by Li Leyun before, and everyone was ashamed. Although they weren't reconciled, they had to admit that Li Leyun's level of refinement was far superior to others!

Although she was a shrew, she was really powerful!

It's a pity that Li Moying's sweet little lady...

"...Number 31!"
