

Weaponsmith 341

Chapter 341: Nightfall (2)

As it got deeper into the night, very soon it was the time where the Magical Beasts were most active.

More and more Magical Beasts were seen roaming in the vicinity of the camp.

Suddenly, Luo Jiyun felt a cold chill run down his spine and he immediately sat up straight, his gaze searching for that ominous feeling eventually locked onto the trees that were not far off on the left side.

In the dark forest, a pair of predatory eyes were looking straight in the direction where the two camps were.

That pair of eyes reflected a green hue and within it, was a distinct glint ferociousness and savageness that was chilling to the bone.

Luo Jiyun had also quite a bit of experience and he had very quickly recognised that those eyes belonged to an extremely powerful Magical Beast that was well known in the Dark Moon Forest – the Iron Claw Silver Wolf!

The Iron Claw Silver Wolf was a fourth tier Magical Beast but it's prowess was equivalent to a cultivator of the fifth realm! What's more, the Iron Claw Silver Wolf was very powerful amongst the fourth tier Magical Beasts.

It has dual attributes of gold and wind, not only was it fast, it had claws that were extremely strong and sharp. Even with a fifth realm cultivator's own profound qi protecting themselves, in front of such claws were akin to a tearing a flimsy piece of paper!

No one knew how many fifth realm cultivators had fallen prey to these claws!

However, these were not the main reason that people feared the Iron Claw Silver Wolf most....

Luo Jiyun saw the beautiful silver fur emerge from behind the trees and a lone wolf strode out, it emitted a menacing aura as it raised its head towards the moon and let out a long howl.

There was a rustling sound from all over as the surroundings stirred.

Another five Iron Claw Silver Wolves emerged and gathered around the camp.

Iron Claw Silver Wolves hunted in packs and usually at least four or five hunted together, in some situations, there could even be thousands of wolves that attacked together!

If they were unfortunate enough to encounter such an insane number of wolves, even a cultivator of the ninth realm would find it hard to scape such a fate!

This pack had only six wolves, which could be considered a small pack.

However, with their combined attacks, this pack was enough to annihilate such a small group of cultivators. Adding on to the fact that it was completely dark now which was favorable to the wolves but for the cultivators, it was very disadvantageous!

Seeing the Iron Claw Silver Wolves slowly closing in, Luo Jiyun's heart was beating furiously.

These...these were fourth tiered Magical Beasts ah! Could sister-in-law's array really work?....Was it reliable enough?

On Huang Yueli's side of the camp, it was nearer to where the wolves were and they had very quickly reached the perimeter and was walking along it.

The leader of the pack suddenly stopped and as if it had discovered something amiss, it started sniffing the ground.

Luo Jiyun's heartbeat accelerated.

This...it looks like there really is something wrong with sister-in-law's array!

The Iron Claw Silver Wolves were known for their extreme senses, especially their sense of sight and smell. They got closer and closer, anytime now, they would be discovered!

Ah! He really didn't know what his Senior Brother was thinking! He didn't even leave anyone to guard during the night, now there's trouble, what's going to happen?

He was extremely anxious and he suddenly tapped his head and decided to wake Murong Ni up and once they encounter any dangers, they would immediately deactivate their array and head over to help Senior Brother!

However, the moment he turned around, the leader of the pack had raised its head to the moon once again and howled.

Following their leader, the five other wolves followed and raised their heads to the moon and howled.

Together, the six of them suddenly started attacking!

Chapter 342: Murong Ni Kneeling and Begging for Help (1)

"BAM!"

A loud bang resounded and the earth shook violently.

Luo Jiyun felt a dizzy for a moment as the tremors knocked him off balance and he fell heavily to the ground.

It wasn't easy for him to stand back up and when he looked out, his heart almost stopped.

The direction the Iron Claw Silver Wolves attacked was not Huang Yueli's camp but the one where he and Murong Ni were!

"BAM!"

"BAM!"

"BAM!"

One after another, the Iron Claw Silver Wolves continued their relentless assault against the barrier of the array!

Although they were currently blocked by barrier of the Beast Diversion Array, however, everytime they attacked, the outer part of the array would shine with a dazzling light, showing the entirety of the array patterns.

Luo Jiyun knew that this was the array's self defense mechanism that was powered by the crystal's energy.

Although it seemed safe now, the impact of six fourth tiered Magical Beasts was not small and the energy in the crystals would very soon be depleted.

At that time.... they would be standing bare before these Iron Claw Silver Wolves!

What's worse, this moment seemed not far away because each time they attacked, the light emitted by the array weakened and at this rate they were going, he could see the lights began to dim remarkably at the speed that was visible to the naked eye!

"What happened? The tremors are so strong! It must be that Magical Beasts are attacking that fox demoness already, right? Hahaha, I've already said so earlier, that broken array has absolutely no use! It's impossible to hide from any Magical Beasts with such a pathetic array! See? Now I've been proven right! Hahaha...hmmm?..."

When Murong Ni heard the loud noise, she had woken up at once and before she could even put on her boots, she had rushed out of the tent in glee.

She couldn't wait to gloat and ridicule Huang Yueli.

However, when she raised her head and saw that it was her own array that had been surrounded by a pack of six Iron Claw Silver Wolves, and to her side was a pale faced Luo Jiyun, she was petrified on the immediately.

"Thi...this...this..."

She was tongue tied.

"Stop spacing out! We're under attack by the Iron Claw Silver Wolves, quickly, dress up and take out your nine segment whip! Get ready for battle!" Luo Jiyun couldn't take it anymore and snapped.

Murong Ni still had yet to recover from her shock.

"Impossible! That fox demoness camp is just opposite, why did the Iron Claw Silver Wolves not attack them but us instead? This shouldn't happen!"

"What's so impossible?!"

Luo Jiyun was already in a bad mood and reproached her: "Obviously sister-in-law's array is the one that's working! That's why those Iron Claw Silver Wolves did not discover their camp and did not attack them. They're attacking us so viciously, which further proves that what sister-in-law said was right! Your array did not divert but lured them instead!"

“No...it’s impossible! I AM the second tiered Armament Master! She is only a country bumpkin! How can her array be better than mine???”

Murong Ni was still screaming and yelling her head off.

Luo Jiyun could no longer wait because he saw that the light on the array pattern had almost completely diminished and was afraid that the Iron Claw Silver Wolves would enter any time!

Looking at the incoherent Murong Ni in front of him, he knew that she was not reliable and he could only try his best to protect the both of them and think of ways to seek help from Senior Brother!

As long as his senior brother was here, saving them would not be any problem!

The problem at hand was...no one over at Senior Brother’s camp was keeping watch so how were they going to get their attention?

Chapter 343: Murong Ni Kneeling and Begging for Help (2)

The Iron Claw Silver Wolves surrounding their camp also recognized that their success was near.

A few wolves exchanged glances and suddenly jumped into the air together and launched an attack in unison!

“Boooooom!”

With a large bang, Murong Ni’s array was officially scrapped and the few Iron Claw Silver Wolves did not stop in their tracks as they ran towards the two prey within as a silver glint shone as they struck out their sharp claws.

Luo Jiyun had already prepared himself earlier and with a loud shout, the longsword in his hand was rushed towards the wolf that was leading the attack.

When the Iron Claw Silver Wolf saw its own blood drip down the blade, the green in its eyes deepened as it’s gaze sharpened. It seemed even more stimulated than before as it howled and turned its body and pounced towards Luo Jiyun as if seeking vengeance.

Luo Jiyun was defending the flurry of attacks from it’s lethal claws from all directions.

He was at the second level of the fifth degree realm. Being from a large sect, in terms of techniques and skills, they were all top notch. Even his battle strength was higher than a normal cultivator of the same rank by quite a few levels.

If this was a one on one fight, he would definitely have it easy defeating one Iron Claw Silver Wolf. Maybe even two would just take a little more effort.

However, now there were six Iron Claw Silver Wolves! Moreover he now had an extra baggage – Murong Ni!

Murong Ni was only at the first level of the fourth degree realm and since her specialization was on arrays, in terms of battle strength, she was really lacking. Her usual battle strength was already a deficit

and being overtaken by fear, even simple dodging was a problem as she stood there dumbly like a sore thumb.

In order to save her, Luo Jiyun was injured in a flash.

He couldn't take it and shouted at her, "Murong Ni! Run quickly! Stop spacing out! Hurry and run over to Senior Brother's camp and seek help!"

Murong Ni finally snapped back to her senses and as if roused from a dream, she looked at the direction Luo Jiyun was pointing at and rushed over!

The moment she moved, one Iron Claw Silver Wolf chased after her.

Luo Jiyun did not seem to care about himself as he dashed after that wolf and blocked it.

However, his shoulder was caught and a long gash across was immediately seen as fresh crimson blood spilled forth as he let out a loud groan.

Murong Ni felt a cold chill as her whole body started trembling. She had finally come to a realization how close to death she was and she quickly picked up her speed not caring that she wasn't wearing any shoes at all. She didn't dare to even turn back and dashed madly in a beeline straight towards Huang Yueli's camp!

"Help! Help! Senior Brother, Help!!!!"

Murong Ni was screaming loudly as she ran. However, there was still no movement on the other side of the camp.

To her horror, she realised that this was a type of array that isolated noise and those in the array could not hear anything that was happening outside.

She gritted her teeth and pushed herself even further, while she congealed all the profound qi she could muster and.... braced herself as her speed increased beyond her own limits as she struck into the array!

This was the most powerful attack that she had learnt!

Murong Ni's response was the right method, since the people in the array can't hear them, then the most efficient way now was to get their attention by attacking their array!

Only when facing an attack would the people in the array know!

However, what happened was entirely different from what she had imagined. She had used her entire reservoir of profound qi in this strike yet there wasn't any shock from the impact at all.

Instead, her palm felt like she had hit soft cotton instead.

All the power seemed to have been absorbed and her palm went deep into the array but then it bounced back out gently.

Murong Ni had used all her strength in this strike and this time round, she was pushed backwards by a few steps before she came to a stop.

Although she did not suffer from any wounds, but she was shocked to the extreme!

Chapter 344: Murong Ni Kneeling and Begging for Help (3)

At this moment, Murong Ni finally understood why there was no need for anyone to stand guard for Huang Yueli's array.

It was because this array could automatically dispel the forces of external force, hence eliminating any fear of attracting the attention of any Magical Beasts that may have accidentally touched the array.

The reason why Murong Ni could feel the barrier was because she had used up all her profound qi in that one attack that was targeted specifically at the array!

If it was just a Magical Beast that was passing by and had inadvertently encountered it, with such a feature, it would be difficult to attract its attention. Moreover the intelligence of Magical Beasts were much lower than humans so they would certainly be unaware and would bypass it unknowingly.

She had understood the profoundness behind the array but Murong Ni was in complete shock.

She just couldn't fathom ... how was this achieved?

Why did her array, which had been laid using third tier crystals and materials, had attracted the attention of the Iron Claw Silver Wolves and was even forcefully broken by them!

Yet Huang Yueli's array which also used third tier materials not only was concealed so well, it even had such an outstanding effect!

This was simply unheard of!

"Junior Sister, be careful!"

Luo Jiyun cried out in exclamation not far from behind.

Murong Ni hurriedly turned around and saw two Iron Claw Silver Wolves headed towards her.

The iron claws glinted under the moonlight and flashed in front of her.

Luo Jiyun was under the combined siege of four other silver wolves and he was already having difficulty protecting himself, let alone save her.

Murong Ni panicked and slammed the barrier of the array but could only feel that her fist and leg had stepped into water, not a single sound could be heard.

"Senior Brother! Help! I beg of you, please save us....Sister-in-law, I was wrong! I know that I'm in the wrong! You are the real Array Master, please save us!"

Murong Ni had plopped to the ground on both knees and was crying as she begged desperately, yelling until her voice was hoarse.

If Huang Yueli was here now and had asked her to kowtow to her, she would definitely not hesitate and do it!

In the tent.

Huang Yueli had actually been awake for some time.

Although there was no arrangement for night vigil, Huang Yueli had already informed Li Moying and his guards in advance to not sleep too deep and they should be awake by the fifth period of the night watch.

Mo Yi was somewhat puzzled, "There's really no need for me to guard at night? Actually the three of us can take turns. It's not too hard and we do not need to trouble Master and Third Miss. After all, this is the Dark Moon Forest, it's better to be more careful..."

"No, you can sleep with ease." Huang Yueli replied immediately, a cold glint flashed by her eyes. "You may have to fight a big battle in the second half of the night so don't waste any unnecessary energy for the first half. Rest well to preserve your strength!"

At that time, Mo Yi, Mo Er and Mo San were still apprehensive but when they had awoken by the second half of the night, they realized that Huang Yueli had already expected that Murong Ni's camp would be assaulted by Magical Beasts!

These had all fallen within her expectations and she had even thought things out so carefully, this had gained the shock and awe of Li Moying's subordinates.

This future Mistress of theirs, although she didn't have a high cultivation, however, her ability to plan was no less than their Master!

In actual fact, this wasn't all that hard for Huang Yueli. Murong Ni's array was as she had mentioned earlier, although it could conceal, however too much profound qi was leaking out from it hence it was easy to attract Magical Beasts that were fourth tier and above.

Chapter 345: Li Moying Strikes (1)

Under the veil of the night in Dark Moon Forest, the first half of the night belonged to the lower tiered Magical Beasts where the first and second tiered Magical Beasts were the most active. Hence, Murong Ni and Luo Jiyun would be safe during this period.

Only after midnight would the third and fourth tier Magical Beasts come out to hunt.

At that time, Murong Ni's self acclaimed 'Beast Diversion Array' would be like a lighthouse in the night, attracting all kinds of fourth tiered Magical Beasts to it.

They would be in danger then!

Although Huang Yueli did not like Murong Ni, however, she was still the Junior Sister of Li Moying and she didn't want her to die.

Although Murong Ni was annoying, Luo Jiyun was a good youth and if he were to die just like this because he was dragged down by Murong Ni, it really was too sad.

Therefore, Huang Yueli had already prepared in advance and had already given Li Moying and the rest a heads up.

They had to be prepared to save them when they were in danger.

When the Iron Claw Silver Wolves appeared, several of them had already woken up but Huang Yueli was still asleep and Li Moying did not want to wake her up. That was why only when the Iron Claw Silver Wolves had started to attack the array did she begin to stir.

When she woke up, she saw that Li Moying was seated beside the entrance of the tent and looking out. With the moonlight illuminating that perfect side profile, it was an extremely dazzling sight to behold.

Huang Yueli pursed her lips, she remembered that just before bedtime, the man had stuck to her shamelessly like glue and insisted on sleeping in the same tent as her.

At that time, she had firmly opposed to that arrangement.

“Men and women are different! We can’t sleep in the same tent! Go and sleep with the other men!”

Li Moying immediately showed a face filled with grievance. “How can I do that? Afterall, I am their Master! If I sleep with them, they wouldn’t dare sleep already and would even run out on their own! This wouldn’t be fair to them, right?”

“...”

“Anyway, there are two tents, one for male and the other for female, that’s very reasonable!”

“How can it be reasonable? One for the engaged couple, the other for the singles, that’s more reasonable!”

“Who is an engaged couple with you?!”

Huang Yueli’s rage exploded but in the end, she still allowed the wolf into the same tent....

Fortunately, the man, although cheeky still behaved appropriately and did not take advantage of her. The two of them sat down and cultivated while facing each other before falling asleep.

After she woke up, she went to his side and observed the situation of the other camp with him.

At this point, the Iron Claw Silver Wolves had already broken the array and was rushing towards Murong Ni and Luo Jiyun.

Huang Yueli had not expected that their luck to be so bad, the mb attracted turned out to be the Iron Claw Silver Wolves!

That was akin to the existence of the king among the fourth tiered Magical Beasts!

And to have encountered six in a pack....

She furrowed her brows and looked back at Li Moying but found that there was not a trace of nervousness on his face at all. His gaze was locked on the Iron Claw Silver Wolves.

Very soon, Luo Jiyun could no longer hold on and Murong Ni was in a panic and had rushed over to seek help.

“Li Moying, I will deactivate the array now and you guys can go over and save them.”

Li Moying shook his head.

“No hurry, wait a bit more.”

“Ah?”

Huang Yueli was slightly taken aback.

If it was someone else, she wouldn't be so nosy and do such a troublesome thing, but since these were the same disciples of the same sect as Li Moying, she had offered to deactivate the array to save them.

Who knew, their own Senior Brother seemed to be more calm than her?

Chapter 346: Li Moying Strikes (2)

Li Moying lowered his head and saw a bright pair of eyes staring right back at him in curiosity. He suddenly felt that she was extremely adorable and he couldn't resist but reached out and pinched her cheeks.

“...Hey! What are you doing?!”

Huang Yueli's expression turned grim immediately and glared fiercely at him.

Li Moying could only retract his hand bitterly.

“The feeling's not bad, I wonder if I took a bite instead, how would it feel?”

This man actually thought of biting her?!!!

Huang Yueli's face had almost turned green and she immediately turned her palm and struck towards his chest!

Li Moying laughed and caught her hand and pulled it towards him, making her sit next to him.

“Stop fooling around! What kind of timing is this? If you continue to do this, your Junior Brotherand that precious Junior Sister of yours would lose their lives!”

Huang Yueli tried to pull her hand back but she couldn't pull it out of his grasp. She could only sit beside him in exasperation and watch the fun.

However, she was still one that possessed a conscience so she did remind Li Moying to save people... just that her tone was tinged with sourness.

Li Moying could also hear that undertone in and and his heart soared.

It looks like allowing Murong Ni to follow was the right choice!

Only a day had passed and this little fox was already eating vinegar, her tone was filled with sourness, it would not be wrong to say that she held no feelings for him! No one would believe that!

He followed her line of sight and looked out, "Don't worry, first let that kid Jiyun hold the fort on his own for a bit and see if he's able to push himself to the next level."

"Hmm?" Huang Yueli blinked, "Couldn't tell that you believe in such iron hearted methods for training!"

Some big sects adhered strictly to these iron hearted principles where their disciples were forced to fight and face dangers constantly. Only those who were victorious could enjoy various resources and privileges provided by the sect. Those that lost would eventually end up as a corpse.

Such a layer of screening seemed very cruel but the selected core disciples were all individuals with exceeding fighting prowess.

However, it had never crossed her mind that Li Moying had belonged to such a sect.

He seems like the type that was cold on the outside but warm on the inside and as a Senior Brother, he looked like he was quite protective of his fellow disciples.

Li Moying let out a low laugh, "It's not exactly like that, it also depends on the person. Jiyun this kid...you have no idea but he's actually an eighth grade talent!"

"Ah? He's an eighth grade talent? You've gotta be kidding?"

A talent that was in the eighth grade was considered to be a super talent and adding to the fact that he's from a big sect that provided all the best resources, with these conditions coupled together, Luo Jiyun seemed to be a fifth degree realm in the late stages but in actual fact, he was only in the second level of the fifth degree realm.

This gap...seemed to be pretty big.

Li Moying shook his head and said, "I'm not kidding, not only is he talented, he is also of the metal attribute. However, his personality... seems to conflict with it so that's why it's been hard for him to breakthrough."

A look of understanding showed on her face.

Cultivators of different attributes also excelled in different aspects.

For example, those with fire attributes excelled in group battles, those wind attributes were known for speed while those with water attributes recovered very fast.

Those with the metal attributes were known for their outstanding offensive powers and decisive lethal blows that blew away anything that stood in their way!

However, Luo Jiyun's personality of a good sunshine youth conflicted with this. She could tell by seeing how he was always suppressed by Murong Ni.

This type of personality coupled with the gold attribute...really was a mismatch.

No wonder his cultivation proceeded so slowly, not all in tandem with his actual talent!

Chapter 347: Li Moying Strikes (3)

Huang Yueli sat by the side and observed the situation for awhile and very soon she could not help but shook her head.

“Ahhh! That strike! The blade could obviously connect and chop off that Iron Claw Silver Wolf’s head! Why did he suddenly shrink back?”

“That’s because he is very kind in nature and the very thought of cruelly cutting off the head of the wolf softened his heart.” Li Moying replied.

She turned and looked at him incredulously with wide eyes.

“No way! There should be a limit to being kind? How could he be kind to this extent? Where do you find someone who’s on the verge of getting their own head bitten off still be so considerate and soft hearted? This is too abnormal!”

Li Moying chortled as he looked at her colourful expression.

“I don’t think that it’s him being abnormal but your own mentality is too strong! Usually girls around your age would scream and cry when they see blood. Who would be so ferocious and clamour to chop off the head of the wolves?”

Huang Yueli pouted and retorted unhappily, “So, you think that I am too violent?”

His little fox was angry!

Li Moying quickly changed his tune and averted the topic, “Look quickly! I was right, only until he is pushed close to the edge of death....would there be results.”

In the beginning, Luo Jiyun only injured the wolves but he did not deal any killing blows.

He knew that he should be decisive in the battle however only the heavens knew that the very thought of chopping their heads and the disgusting scene of the wolf’s brain spilling out, his blade had subconsciously recovered an inch.

However, six Iron Claw Silver Wolves were really too much to handle and the pressure exerted on him was immense.

Although he had tried his best be on the offensive, however, very quickly he was ridden with wounds and one claw even came so close to tearing off his arm!

Seeing that Murong Ni was screaming, jumping, yelling, kicking and punching, yet all was quiet from the other camp, Luo Jiyun thought that his Senior Brother was in deep sleep and wouldn’t be able to save them.

Life and death... were just a fine line apart!

Just at this moment, Luo Jiyun closed his eyes and let out a loud shout, as he swung his sword down and a golden light shot out! It was a dazzling golden ray of light that was imbued with his profound qi!

This blazing trail of golden light flashed by the Iron Claw Silver Wolf and the next moment, the silver wolf was split into two!

Luo Jiyun opened his eyes and saw the grotesque scene of fresh blood flowing and the innards of the wolf spilling onto the ground, he almost retched out on the spot.

However, he had no time to even vomit.

Another wolf lunged towards him and the blade in his hands was already prepared as he converged more profound qi.

Perhaps because this was the first time he had used such a brutal way of killing a Magical Beast, this had in turn broken through the biggest hurdle in his heart. So although he was nervous, but when he made a move, he was much more assertive and decisive.

Very quickly, he had slain yet another Iron Claw Silver Wolves and had severely wounded another!

However, he had almost completely exhausted all his profound qi by now.

Seeing that there were still three Iron Claw Silver Wolves which remained uninjured and two were rushing towards the defenceless Murong Ni, he truly felt despair!

Another silver wolf leapt high in the air towards him as it aimed for his throat.

He made preparations to die along with it.

Just at that moment, the wolf that was still in midair suddenly seemed to have stiffened.

Immediately after, it fell directly and slammed onto the ground with a resounding 'bang'. Its head dived down first and it died on the spot.

There wasn't any obvious wound on the wolf, only a pin sized hole on its chest. If one did not look carefully, it couldn't even be found.

This was an extraordinary sword intent that had been converged to such precision and it was driven straight through the heart!

Chapter 348: Becoming the core of the team (1)

Luo Jiyun's eyes widened and he was lagging in reaction as he stood there frozen in place.

A tall figure slowly walked over from the darkness and he was surrounded by the fluctuations of profound qi as the atmosphere had turned stifling and repressive.

Luo Jiyun finally let out long sigh of relief.

It was Senior Brother!

Li Moying stood in front of him as there was a hint of laughter in his eyes.

“Not bad! Based on your cultivation, under the attack of six Iron Claw Silver Wolves, not only did you manage to hold on for so long, you even managed to slay two and heavily injure one, all while protecting your Junior Sister. Not bad at all!”

Li Moying seldom praised his fellow disciples so when Luo Jiyun heard it, he felt exhilarated.

He scratched his head shyly and laughed out “Heh heh”.

Li Moying asked: “Are you able to stand?”

“Um...This...doesn’t seem...possible...” Luo Jiyun had a long and deep laceration across his leg.

Mo Yi and Mo Er rushed over and supported him as they brought him over to their tent.

Huang Yueli took out a huge stash of pills and stuffed it into his hands. “Eat them all up! We’ve still got a long way to cover tomorrow, don’t delay the business of your Senior Brother!”

Luo Jiyun looked down and his eyes almost popped out.

“Spirit Vitality Pill, Qi Vitality Pill, Unfettered Pill... These were all Second Level Upper Grade pills! Just any one of these pills were worth tens of thousands of gold! This stash here cost at least forty to fifty thousand gold!

Although he belonged to a large sect, however, the resources he received were all limited and they would receive a fixed number of pills every month and they wouldn’t give anyone such a large amount to just eat it so casually!

Moreover, if comparing to their origins, wasn’t sister-in-law from South Yue Kingdom and he heard that she’s never seen the world? How did she manage to take out such a huge stash of precious pills? She was simply a nouveau riche!

Thinking back on her array, it was way more effective than what Murong Ni laid out.

The gaze he looked at her was filled with mixed emotions. Other than shock, there was also a hint of worship.

Huang Yueli simply smiled and did not explain any further.

These pills were all from the Sky Phoenix Ring and there was a huge cabinet full of them. If she were to eat them alone, even if she ate them like jelly beans everyday, she wouldn’t be able to finish them all.

Moreover, the next time the Sky Phoenix Ring undergoes another upgrade, there was sure to be higher ranked pills.

That was why, wasn’t it better to take it out to get some goodwill and she also quite liked this kid as well.

Luo Jiyun was touched as he called out, ‘Thank you so much sister-in-law!’

The wounds he received were all superficial wounds and with these pills, he would have almost fully recovered by tomorrow!

Huang Yueli nodded her head in approval, but when her eyes swept by the surroundings, she suddenly cried out.

“Ah! Wait! Wait! These wolf bones shouldn’t be kept like this! Ahhhh! Such a waste! A huge waste!”

In a matter of moments, she did not continue talking to Luo Jiyun and dashed over.

After so many events happening one after another, time passed very quickly and very soon, it was almost day break.

Mo Yi, Mo Er and Mo San were busy dealing with the remains of the Iron Claw Silver Wolves.

Magical Beasts were extremely sturdy and their entire being was a treasure trove of high quality materials. For example, for the Iron Claw Silver Wolves, other than their inner core, their fur, claws, bones were all precious materials that were extremely sought after by Armament Masters as well as Alchemists.

They were all experienced veterans in dealing with the remains of Magical Beasts however, today, they had finally met a professional in this field.

“Why did you pierce the knife directly from the back? This way, the bones can’t be taken out completely! Ahhh! It could have been used to make the bow of a strong bow. Now that it’s been broken, you can only make smaller accessories. The value is tens of times lower, do you understand?”

Chapter 349: Becoming the core of the team (2)

Mo Yi and the others nodded, showing great enthusiasm and assured her that they would definitely carefully remove the spine of the Iron Claw Silver Wolves in accordance with her requirements.

Huang Yueli nodded in approval but turned her head to look back at the other side and lamented, “I must say, Junior Brother Luo, your skills in the blade are too simply too crude! Look here! Cutting it into half? Tell me, can the fur still be used? Hmm? You’ve gotta learn more from your Senior Brother, just leaving a small hole, this way, we can use the entire fur! The fur of the Silver Wolves are not only warm, it’s luxurious and beautiful!”

Luo Jiyun was very embarrassed and he could only stare at the sky.

“Sister-in-law, your demands are also too high! At that moment I had almost lost my life! How could I care if the fur was left in one piece or not? If you want the fur of the silver wolves, ask Senior Brother to get them for you, you’ll be able to get as much as you want, please spare me!”

“Tch, you simply have no vision!” Huang Yueli expressed her contempt.

Li Moying was standing at the side with a faint smile on, looking at how his little fox was instructing Mo Yi, Mo Er and Mo San on how to deal with the spoils enthusiastically, that pair of bright eyes sparkled, with her two pointed teeth....he knew her little money grubber syndrome had struck again.

She was simply too adorable!

Mo Yi and the rest and successfully retrieved all the materials including the inner core and these were all taken by Huang Yueli without scruples.

At first, Mo Yi was still hesitant and looked at Li Moying with an enquiring gaze.

Li Moying just replied, "Little Li'er loves to collect materials the most, give it all to her! She is after all an outstanding Armament Master!"

Huang Yueli hooked her lips up happily in satisfaction as she kept the materials away.

It could be said that Li Moying was very familiar with her by now and knew that if she was praised on other things, she wouldn't have much feelings but if she was praised for her skills as an Armament Master, his little fox would be extremely happy.

It was the same for gifting her presents, his little fox loved armament materials the most, as long as it was gifted to her, she would usually not reject it.

At this time, only one figure was hiding at one corner watching the entire scene unfold, eyes filled with deep jealousy and resentment.

She had completely lost her face this time round! It was totally trampled to the ground!

She was supposed to be the Second Ranked Array Master, however the Beast Diversion Array she laid out had actually failed. Instead, that country bumpkin from that forsaken backwater kingdom had laid out an exceptional array!

Murong Ni still couldn't figure out, where had it gone wrong?

Was the fox demoness really an Array Master? However, she clearly did not have any accreditation!

Moreover, not only did her own array not work, it backfired and attracted a whole pack of Iron Claw Silver Wolves that had almost forfeited their own lives!

Thinking back on how panicked she was and how desperate she was crying out for help outside the other array in helplessness, she really couldn't wait to find a hole and hide in it!

She had been completely trampled on by Huang Yueli!

Murong Ni had always been spoilt and arrogant, it never even crossed her mind that it all all due to her own complacency that this had occurred. With not enough skills, yet she had wanted to act smart and it almost resulted in a tragedy.

She only blamed the result of this shame was all on Huang Yueli!

She kept thinking that if this fox demoness had not suddenly appeared out of nowhere and seduced her Senior Brother and used what other means to confuse Fifth Brother and the three Mo brothers, how could she end up in such a miserable state?

The more she thought about it, the more she was unreconciled she was. When she saw everyone crowd around Huang Yueli, she was filled with resentment and had nowhere to vent that she had almost suffered an internal injury.

Chapter 350: Fifth Tier Magical Beast Core (1)

Mo Yi, Mo Er and Mo San had always been listening to the commands of Li Moying. Even Murong Ni's sister, Murong Fei, a proud daughter of the heavens was no exception!

But now?

They did not hesitate and listened attentively to Huang Yueli's commands and were even sent to do menial tasks such as cutting the wolf's fur!

How could this be? How did she buy the hearts of these people?

Murong Ni stared hatefully at Huang Yueli.

Although her heart was filled with frustration and jealousy but she knew that this time, she had stirred up quite a bit of trouble and since Huang Yueli had proven her abilities, her position in the heart of the team was elevated.

Therefore if she was to stand fully opposed to Huang Yueli, no one would stand on her side.

Murong Ni had to force herself to swallow this grudge first.

Anyway, they still had to stay in the Dark Moon Forest for a while more, so there were still opportunities waiting for a chance to strike back!

The team of seven packed up and continued deeper into the forest.

On the third day, they had finally entered the inner regions.

Fifth Tier or higher Magical Beasts roamed these lands and generally, cultivators Fifth Degree Realm cultivators did not dare enter.

Even Sixth Degree Realm cultivators do not dare enter alone, they would usually need to form a mercenary team of at least twenty people before they dared to enter the inner zone.

"Wait!"

When the seven of them approached a fork on the road, Li Moying stopped them.

Mo Yi who held onto the map and was leading the front stopped immediately, turned around and asked: "Master, what is your order?"

"Go this way." Li Moying pointed to one of the roads.

Mo Yi was stunned for a moment and immediately replied, "But... Master, the map states that if we take the left path and with just a days walk, we would reach the Spirit Jade Vein. If we were to take the other path, not only is it a long detour, it would also trespass a few gathering areas of the Magical Beasts..."

Li Moying replied, "I am preparing to head to the gathering areas of the Magical Beasts. This time, in addition to looking for the Profound Lunar Jade, there's another purpose, I need to collect some Magical Beast Cores of Fifth Tier and Sixth Tier Magical Beasts with fire attributes.

Huang Yueli was stunned and immediately looked up.

She understood the moment she heard it.

For no rhyme or reason, why would he want the Magical Beast Core of these specific Magical Beasts? These were obviously for her! They were in the list that she had provided a few days back!

Li Moying noticed that she was looking at him and smiled at her.

“Don’t be too touched, I’m planning to go get them myself, this way, I can make more money..... Or else I might go broke by supporting your spending habits!”

“You!” Huang Yueli glared at him.

Although he had put it across in such a joking manner, she knew deep in her heart that Li Moying did not care a single bit about spending money. Money was nothing to him.

He was in such a haste to get them because she had told him before that she needed the Magical Beast Cores urgently. He must have felt that in order to collect all these which were limited and rare, he could only attain them from auctions and this would take time and this in turn might delay her matters.

This man.... He was simply too good to her that she really had nothing to complain about.

To even render her clueless on what she should do to reciprocate his deep feelings....

When Li Moying had mentioned this matter, the others immediately understood that...these Magical Beast Cores were all for Huang Yueli!

Luo Jiyun and the other guards zipped their mouths and did not disagree any further.

Therefore, from the moment they turned and took the right path, everyone knew how much Li Moying had pampered this fiancée of his.
