

## Weaponsmith 3411

### Chapter 3411: Competition results announced (6)

What...What number did Grandmaster Xiao just say?

It took awhile for reality to sink in and upon realising what had just happened, only then did Li Leyun jump up from the chair, looked at Grandmaster Xiao in disbelief, and asked loudly, "Grandmaster Xiao, you... did you report an error just now? What's the name?? Number 31? This...it's impossible!"

Grandmaster Xiao snorted, twisted his gray beard with his hand, and said in a displeased tone, "Young Miss Li, please pay attention to your wording! Although this old man is not too young, he has not yet reached the point of being confused! How could he report an error in the competition? The result? You heard right, what the old man said just now is the result of the evaluation by several judges. The first place is Madame Li, No. 31!"

Grandmaster Xiao repeated it again, this time, it couldn't be more clear.

All who thought they had heard it wrong all came back to their senses, with shocked expressions on their faces.

"What? The first place is actually that Young Miss Li? How is that possible?"

"Did something go wrong? She's just a junior Spiritual Armament Master!"

"Also, when everyone handed in the finished product, her box was kept closed. If she really made such a good Spirit Armament, why would she lock the box?"

"It's hard to say. Who stipulated that if the refining level is high, the box cannot be locked?"

"Having said that, I still think this is too strange. I have also seen the pair of Wrist Guards that Li Leyun refined, and they are indeed quite perfect. How could Young Miss Li be able to refine something better than hers?" What about the finished product?"

Everyone was chatting and talking, and they couldn't quite accept such a result.

Of course, the person who found it most unacceptable was Li Leyun.

She widened her eyes, looked at Huang Yueli, and then at Grandmaster Xiao, she couldn't believe that such a thing would happen.

"Impossible, it's absolutely impossible! This damned girl is just a junior Spiritual Armament Master. How can she make a better Spirit Armament than me? There must be a problem here, there must be a problem!"

Li Leyun believed that she had an outstanding talent for refining armaments, and she had been secretly tutored by people from the Allied Forces to achieve her current level.

And yet now, she was told that Huang Yueli had easily surpassed her?

Li Leyun would feel a little better if the first place was won by another Spiritual Armament Master, but now the first place actually belonged to Huang Yueli!

If that damned girl was really number one, didn't it mean that the bet between the two of them... The winner's Huang Yueli!

Li Leyun was flustered and became agitated.

When Grandmaster Xiao heard her accusation, he was very displeased. He hated Li Leyun at first, but at this time, he was even more ruthless in his words.

"Young Miss Li, what are you talking about? From the looks of it, it seems that you are very dissatisfied with the results of this competition? But isn't Madame Li from your Cloudy Qilin Clan? No matter who the two of you are first, the result will be the same. It's the same. It's alright for other people to question the old man. What do you mean when you jump out and yell?"

Hearing Grandmaster Xiao's words, the expressions on the faces of the two Divine Generals sitting beside Li Leyun couldn't help changing.

Grandmaster Xiao's words were very reasonable.

Although the result surprised both of them, they both felt happy when they thought about it. In any case, this business still belongs to the Cloudy Qilin Clan, which is the biggest gain.

#### **Chapter 3412: Competition results announced (7)**

It really didn't matter whether the first place belonged to Li Leyun or Huang Yueli, in essence, the Cloudy Qilin Clan had absolutely nothing to lose.

Thinking of this, Li Yuntao stopped Li Leyun and persuaded: "Young Miss Leyun, today's judges are all Sky Gem Grandmasters with outstanding strength. They have rich experience and will not make such low-level mistakes. I am afraid the winner truly belongs to Young Miss Li. Most probably, there's something special about the Spirit Armament that she had refined..."

Before he could finish speaking, he was interrupted curtly by Li Leyun.

"Uncle Tao, I know you said this out of family interests, but, as a Spiritual Armament Master, I won't stand down! The fairness of the competition is more important than the result! We, the dignified ancient God Clan, have the right to know how such a thing actually happened. The victory is obviously ours, and if the result of the competition is unfair, even if we get the business, so what of it? I must ask clearly!"

Li Leyun said it aloud unceremoniously with a dignified look on her face.

When Li Yuntao heard this, his expression immediately changed.

He really never thought that she did not care about the family's interests at all, and on top of it, she even dared to refute his words in public in such a rude manner!

According to her words, if he didn't do as she said, his morals will be low.

Even if Li Leyun was the niece of the Patriarch, was this the manner she should speak to a distinguished Elder in such a large clan?

It's not that Li Leyun didn't see Li Yuntao's crumpled expression, but, to her, she absolutely couldn't recognize the result of today's competition! That was related to her and Huang Yueli, who was her way to get her out of Li Moying's side!

Besides, even if such a bet wasn't wagered, she absolutely could not accept the fact that she would actually lose to that damned little vixen!

Li Leyun turned her head to look at Grandmaster Xiao, this time, she didn't care about showing any respect to a Senior, and she spoke even more rudely.

"Grandmaster Xiao, don't gossip, it's not that the juniors don't believe in the fairness and fairness of several masters, but some people are secretly doing things behind their backs, and a few may not be able to find out. It's possible. I'm not the only one who feels dissatisfied with the results of today's competition!"

She glanced around the crowd in the hall.

Actually, quite a few people secretly nodded their heads in agreement.

A junior Spiritual Armament Master who has ascended from the lower realm was better than the genius intermediate Spiritual Armament Master who had been poured with lots of resources to cultivate and stood at the forefront of so many major forces.

This thing alone was outrageous enough!

Li Leyun looked in the direction of Huang Yueli again.

Huang Yueli sat on a mahogany chair at the edge of the hall, with an elegant and upright posture. She had on a relaxed and comfortable expression, holding a cup of hot tea in her hand, drinking it unhurriedly.

Her demeanor in drinking the tea was very elegant, and no one could tell that she had ascended from the lower realm, but instead looked like a real daughter of a great power.

Coupled with her beauty, she looked even more ethereal.

Seeing this, Li Leyun gnashed her teeth!

Only a truly stunning beauty can be like Huang Yueli, every move, every frown and smile, even if it was unintentional, she was so beautiful that people couldn't take their eyes off her.

In terms of looks, she couldn't even compare to a finger of Huang Yueli!

And now, this damned little vixen still won her in Spirit Armament refinement?

"Hmph, pretend, just keep on pretending! I must expose your true face today! No matter what tricks you do in secret, don't try to escape my eyes!"

**Chapter 3413: Competition results announced (8)**

Li Leyun turned to Grandmaster Xiao and continued to urge: “Grandmaster Xiao, look, there are so many colleagues who are not convinced by this result! The best way now is to take out all the finished products that everyone has refined. Let everyone present see why this little vixen can get the first place!”

As she spoke, she cast a provocative look at Huang Yueli.

Huang Yueli didn’t even look at her at all, and said, “Grandmaster Xiao, since so many people have doubts about the results of the comparison competition, why don’t you just follow what Young Miss Li said and bring out the wrist guards I made for everyone. Look at it! If I have worn down the reputations of several masters because of me, I would be really sorry!”

Her voice was sweet, and when she spoke, her tone was calm, not slow or hurried.

It sounds like there is a kind of calm demeanor that only high-ranking people have.

Compared with Li Leyun, who was still yelling just now, she appeared to be several grades higher.

For a while, Li Leyun froze in place.

When Grandmaster Xiao heard Huang Yueli’s words, he immediately felt a lot more comfortable, and nodded to her: “Madame Li, you are really a good and understanding girl, no wonder Master Li likes you so much, he really is very good Eyes! Since that’s the case, then go and take out all the finished products refined by the contestants today! Go!”

Grandmaster Xiao waved his hand, and the maids retreated in response, apparently going to the backyard to get a Spirit Armament.

When Li Leyun heard Grandmaster Xiao’s words, her face turned from blue and white, extremely ugly.

She never thought that Grandmaster Xiao would actually say such a thing in front of so many powerful forces. This was obviously to support Huang Yueli! It also meant as a huge face slap to her!

What is the charm of that damned little vixen, even Grandmaster Xiao was on her side? Didn’t she just look better?

Huang Yueli swept Li Leyun’s expression out of the corner of her eyes, and couldn’t help but secretly hook her lips up.

Speaking of which, Grandmaster Xiao will support her, which was really thanks to Li Leyun!

It was precisely because Li Leyun was so aggressive and repeatedly questioned Grandmaster Xiao’s character and level, that Huang Yueli stood up and said such appropriate words for Grandmaster Xiao’s consideration, which moved Grandmaster Xiao even more.

In contrast, Grandmaster Xiao naturally felt that such a gentle lady was particularly lovely.

While waiting for the attendants to come back, the hall was noisy, and almost everyone was discussing about what happened just now.

After a quarter of an hour or so, the attendants returned with the boxes.

However, it wasn't just the attendants who came, even Grandmaster Han and the others followed.

Grandmaster Xiao said unexpectedly: "Old Han, Old Yuan, why are you here? Don't you mean to be too lazy to attend such an occasion?"

Grandmaster Han snorted angrily, "There are people who question our judgment and even dare to say we old men are too old and confused. How can we not come out? This old man wants to see who is talking nonsense there and slandering us!"

Grandmaster Yuan also said: "Exactly! It's alright to say that this old man has nothing else, that we have no vision, we don't know how to do it? It's ridiculous! Come on, open all the wooden boxes and let everyone see who has no vision!"

When the attendants heard the order, they hurriedly took the wooden boxes out of the box, arranged them neatly one by one according to the size numbered above, and then opened the lids of the boxes.

Everyone stretched their necks and looked at the wooden boxes stacked in the center of the hall.

#### **Chapter 3414: Do you still remember that bet? (1)**

Li Leyun immediately looked at the box numbered sixteen, which contained the wrist guards she made.

The pair of delicate Wrist Guards shone under the light, and they were not ordinary at first glance.

Li Leyun suddenly became complacent, raised her chin, and looked at the surrounding contestants, wanting to see the envy of everyone.

However, when she turned around, she found that no one was looking at her at all.

The Spiritual Armament Masters were almost all gathered around, staring at a wooden box placed at the very edge, and discussing in a low voice.

Li Leyun's face changed, a little doubt arose in her heart, as she strode over haughtily.

"What are you all looking at? How can the Spirit Armament refined by the damned little vixen be so good..." She walked over to the crowd with a sneer, halfway through the sarcastic words in her mouth, and her eyes touched the wooden box No. 31. The pair of wrist guards that were placed inside suddenly became speechless.

Grandmaster Yuan was standing beside Huang Yueli's wooden box, with his hands around his chest, he said angrily, "Where is the person? Who else hasn't seen it? Come and take a closer look! This number 31 is the proclaimed winner today. One's hard work, everyone will come to judge, which other Spirit Armament can be better than this one?"

The Spiritual Armament Masters all came closer and watched carefully.

At the beginning, everyone thought that what Grandmaster Yuan and others said was exaggerated, and some people were deliberately trying to find faults.

However, after seeing it, all the Spiritual Armament Masters fell silent, silently backed away without saying a word.

The major forces were originally standing far away, and they were not in a hurry to join in the fun. However, seeing their own Spiritual Armament Masters come out one by one with a sad look, they couldn't stand anymore, and they all gathered around.

Although these people were not Spiritual Armament Masters, nor were they highly talented cultivators, but as managers in charge of the business of the major forces, their vision were not worse than that of Spiritual Armament Masters.

At a glance, many people were stunned on the spot.

Grandmaster Yuan twirled his beard and said quite contentedly: "How about it? How about this pair of Wrist Guards? Who dares to say that this is not a fine product? After testing, the improvement of the attack power of this bracer far exceeds that of other finished products!"

The facts were placed right before them as everyone exchanged glances and no one made a sound.

When Li Leyun asked Grandmaster Xiao and the others to take out all the pieces submitted for the competition, although they didn't interrupt, they were actually a little unconvinced in their hearts and wanted to see. In their hearts, Huang Yueli was like a vase, all she had was looks. Although she was such a peerless beauty, what ability did she have to surpass everyone and win the competition?

But now, facts have proved that the judgment of the five Grandmasters were not wrong at all.

Compared with other finished products, the Spirit Armament in Box No. 31 was more than a grade higher!

Anyone with a little knowledge of Spirit Armaments knows which work would be ranked first!

For a time, everyone looked at Huang Yueli differently.

"I really didn't expect that Madame Li is a genius in refining armaments! At such a young age, she could actually refine such a Spirit Armament!"

"It's not easy, it's really not easy!"

"Speaking of which, Young Master Li is really fortunate to be married to such a beautiful woman, and she is also a genius Spiritual Armament Master. What a blessing!"

"More than that, Madame Li is gentle, virtuous and knowledgeable, which is even more rare."

### **Chapter 3415: Do you still remember that bet? (2)**

"Exactly, exactly!"

Although the people of the major forces were talking in hushed tones, they did not deliberately lower their voices.

When Li Leyun heard these words, her face suddenly became hot, and she felt unspeakably uncomfortable!

The speaker may be unintentional, but the listener was intentional.

Listening to these words in Li Leyun's ears, every sentence seemed like someone was deliberately mocking her.

Sentences such as "national beauty", "genius Spiritual Armament Master" for describing Huang Yueli were heard all around. Weren't they mocking her for not being good-looking, and her level of Spirit Armament refinement was not as high as others?

Some people even said that Huang Yueli was "gentle, virtuous and knowledgeable", which was more like a slap in the face of Li Leyun.

There were a lot of people who secretly said she was akin to a shrew just now. In the end, it was Huang Yueli's turn. Even though that damned little vixen said a lot of ugly things, others still thought she was gentle and kind!

This damned little vixen was young, yet so insidious and cunning!

Li Leyun was so angry that she suddenly felt a line of sight behind her, looking towards her.

When she turned around suddenly, she saw Huang Yueli standing not far away looking at her, with a faint smile on the corner of her mouth.

Beside Huang Yueli, a large number of Spiritual Armament Masters and various major forces were surrounding her, trying to get close to her, and their mouths were full of praise.

Moreover, there were many people who called Huang Yueli "Young Miss Li" before, but by this time, most of them had changed their name to "Madame Li".

"Madame Li, I really didn't expect you to be able to refine such a perfect Spirit Armament, and you won the first place with ease!"

"As soon as you got married to the Cloudy Qilin Clan, you won such a big business for the family. It's really amazing!"

"I am the head of Void Heart Hall, a second-class force, and I have always wanted to befriend Young Master Li. I wonder if you can help us introduce him?"

Listening to so many people, calling Huang Yueli "Madame Li" one by one, and surrounding her like a star in the middle of the moon, Li Leyun almost spit out a mouthful of old blood!

How familiar was such a scene?

When Li Leyun entered the door just now, she once boasted that she was Li Moying's fiancée. At that time, many people from the second-class forces also surrounded her like this, eager to curry favor with her.

However, now, these people have turned to Huang Yueli's side again!

A group of grass on the wall that sees the wind!

Li Leyun really wanted to tear all these people apart!

Of course, among so many people, the most annoying thing was Huang Yueli's departure. The smile on her face made Li Leyun's heart hurt.

Huang Yueli noticed Li Leyun's sight, raised her hand, and nodded everyone around her.

"Everyone, I'm sorry, I still have something to do. Please excuse me for a while. Please take care of yourself!"

She had on a sweet smile and elegant demeanor, which made people feel like a spring breeze blew by.

Everyone all waved their hands, "Don't dare, don't dare, Madame Li, please..."

They took the initiative to make way for Huang Yueli to pass through the crowd smoothly.

Seeing Huang Yueli walking towards her, Li Leyun was shocked and remembered the most important thing!

Before the competition, Li Leyun specially reminded Huang Yueli about the bet between the two!

Whoever loses today's competition will get out of Li Moying's side and never harass him again!

Previously, Li Leyun thought she was going to win, so she specially reminded Huang Yueli.

### **Chapter 3416: Do you still remember that bet? (3)**

But now, the result of the competition was just the exact opposite of what Li Leyun expected, and the loser became herself!

With this happening, this wager became Li Leyun's restriction.

She never thought that she would lose, and she never thought that she would give up her identity as Li Moying's fiancée!

From Li Leyun's point of view, even if she was embarrassed here today, as the beloved daughter of the esteemed Cloudy Qilin Clan, her identity and talent was apparent after all and had never considered that her position was shakable.

Even if that damned little vixen was in the limelight today and showed off her amazing talent in refining, so what?

Unless Li Moying could fight against the whole clan otherwise, that damned little vixen should not try to climb on her head!

However, the premise of Li Leyun's justification was that there was no such bet...

If other people knew that she had made such a bet with the damned little vixen, how could she still have the face to call herself Li Moying's fiancée?

Li Leyun immediately made up her mind that she would definitely deny it to the end!

So, when Huang Yueli walked in front of her, Li Leyun called out before she could speak.

“Grandmaster Xiao, I want to report this Young Miss Li!”

With this sudden remark, even Huang Yueli was startled.

After hearing Li Leyun’s words clearly, Huang Yueli raised her eyebrows and stopped, she wanted to listen, what else this Li Leyun was up to.

Naturally, other people in the hall heard Li Leyun’s words and turned to look over together.

Grandmaster Xiao frowned, “Young Miss Li, what’s the problem with you? Now, the old man has already taken out all the Spirit Armaments, and everyone can see that the wrist guards you made are indeed inferior to that of Madame Li. So, what else do you have to say?”

Li Leyun gritted her teeth and said, “Judging from the Spirit Armaments presented here, the Wrist Guards in the No. 31 wooden box are indeed much better than the ones I made. I have to admit this, but... Who can guarantee that the Spirit Armament in this box is indeed made by Young Miss Li herself?”

Grandmaster Xiao was stunned for a moment, and then his brows furrowed even deeper.

“Young Miss Li, what do you mean by that? Please clarify!”

Li Leyun said: “I suspect... Young Miss Li’s Spirit Armament in the box was not made by herself at all, but she got it from somewhere and hid it in an interspatial ring!”

“What?? Is there such a thing?”

“Isn’t that impossible? When we entered the arena, Grandmaster Xiao personally inspected our interspatial rings.”

“Besides, while refining the Spirit Armaments, there are so many Spiritual Armament Masters patrolling, who can cheat at such a time?”

Li Leyun’s words aroused everyone’s discussion.

However, most people do not think that Huang Yueli had the possibility of cheating.

Grandmaster Xiao was of course even more unconvinced, he sneered coldly, “Are you questioning the fairness of the competition organized by this old man? When this old man checked your interspatial ring, everyone was watching from the side, even if the old man wanted to open the back door, It can’t be done at all!”

Li Leyun shook her head and said, “I’m not questioning you, but when I left the courtyard just now, I heard something very suspicious!”

“What?” Grandmaster Xiao asked with a frown.

Li Leyun did not speak in a hurry, but glanced at Huang Yueli triumphantly.

This time, even Huang Yueli was a little puzzled.

## Chapter 3417: Do you still remember that bet? (4)

She couldn't figure out what the hell Li Leyun was up to.

Li Leyun spoke in a dramatic manner, raising her voice: "It's like this, when I came out of the courtyard just now, I happened to see two of Grandmaster Xiao's named disciples at the door. They should be in charge of patrolling, so they've been talking about the competition. However, I heard from them that during the competition today, there was a Spiritual Armament Master who had been sleeping and didn't seem to take the competition to heart at all."

Hearing Li Leyun's words, Huang Yueli's eyes widened.

This... this clearly meant her!

Sure enough, Li Leyun said with a mysterious smile: "Aren't you curious, who would fall asleep in the middle of such an important competition? I also found it very strange, so I stopped and listened carefully, and I heard it that this Spiritual Armament Master was in the refining room number 31!"

By now, everyone knows that that was Huang Yueli's number.

As soon as Li Leyun finished speaking, hundreds of eyes focused on Huang Yueli.

Grandmaster Xiao's expression changed, and he said, "Young Miss Li, you can't spout such nonsense!"

Li Leyun said: "How could I? The people who are in charge of patrolling the competition today are all Grandmaster Xiao's disciples and servants, right? If you don't believe me, you can gather these people. I still remember what those two looked like. Well, Grandmaster Xiao just needs to ask them and would know whether what I said was true or false."

Li Leyun's words sounded very confident, and it didn't sound like a lie at all.

For a while, everyone present all looked at each other, their faces full of surprise.

Originally, everyone had already accepted the results of the competition and admitted that Huang Yueli was the worthy of the first place.

Unexpectedly, such a turning point suddenly appeared.

Everyone was a little dazed. Seeing how Li Leyun said so confidently, could it be that there was really such a thing?

If Huang Yueli slept during the entire competition, then she definitely didn't have time to refine a finished product, let alone such an excellent product!

In this case, can't it be inferred that there is something wrong with the Spirit Armament she handed over?

Everyone's gazes went back and forth on the faces of Huang Yueli and Li Leyun, looking over and over, not knowing whose side to stand on.

If it's just from selfishness, everyone thinks Huang Yueli is more like a good person, but Li Leyun said so calmly that there were witnesses... this wasn't something random, right?

Grandmaster Xiao was also confused. He looked at Huang Yueli with obvious doubts in his tone.

"Madame Li, what's going on here? Is what Young Miss Li said true? You really fell asleep in the middle of the competition? Then the Spirit Armament..."

At this time, Huang Yue was also deeply annoyed.

She knew that she shouldn't have fallen asleep just now! It's all Li Moying's fault!

She hadn't forgotten to throw the blame in her heart, so she scolded her husband in her heart.

Of course, on the surface, she was still smiling and calm.

"Grandmaster Xiao, I can't refute what Young Miss Li said. It's true..."

"What?? Is this true??"

"Madame Li actually admitted it??"

Someone couldn't help but exclaimed in surprise.

Grandmaster Xiao's face darkened, "Madame Li, are you admitting that you cheated in the competition?"

#### **Chapter 3418: Do you still remember that bet? (5)**

Huang Yueli smiled and shook her head slightly, "Grandmaster Xiao, when did I say such a thing?"

Grandmaster Xiao was at a loss, "Then... you are..."

Huang Yueli looked at Li Leyun, and said indifferently, "Since Young Miss Li said she has witnesses, let them come over."

Hearing this, everyone present were all stunned.

Everyone speculated that Huang Yueli's reaction, whether she admitted or denied it, was not surprising, but no one expected that she would say such a sentence.

She actually asked Li Leyun to find the witnesses?

What was happening? Or, she didn't believe that Li Leyun could find a witness at all?

Li Leyun snorted coldly, "You don't shed tears without seeing the coffin? Well, please ask Grandmaster Xiao to let out the disciples who are in charge of patrolling Young Miss Li's area today? Whether it's true or not, you'll know when you ask."

Li Leyun's words were also very confident, because she didn't make this story up, she had really heard it!

No matter what the hell Huang Yueli was up to, Li Leyun was sure that the testimony of the witnesses would definitely benefit her!

Seeing this, Grandmaster Xiao frowned, raised his hand and motioned for them to be summoned.

In the hall, everyone was buzzing around in excitement as countless puzzled gazes fell on the two women, all trying to guess the truth of this matter.

It was rare for such an open and fair competition to have such twists and turns when the results had already been announced, yet new doubts kept arising and a conclusion had still not been made. Although the people present were all people with reputation, they couldn't help but gossip.

Only Li Yuntao and Li Yunhai, whose faces were as black as the bottom of a pot, sat in the corner all the time, never making a sound, just staring gloomily at the two standing in the middle of the hall.

Among so many people on the scene, there was nothing more embarrassing than the two of them.

Because, in front of Grandmaster Xiao, for the sake of a first-place ranking, the two Spiritual Armament Masters who were fighting tit-for-tat were both members of the Cloudy Qilin Clan!

Originally, the first and second places were both Spiritual Armament Masters of his own clan. This was a very good thing, which represented the strength of the clan and could shock other ancient God Clans.

Moreover, it could also let Grandmaster Xiao and the others see that the Cloudy Qilin Clan was absolutely capable of doing this business.

But what about now? After the battle between Li Leyun and Huang Yueli, all their reputation would be gone! Even the Cloudy Qilin Clan has become a big joke in the entire Medial Arch City!

Couldn't they see that there were so many forces around that were all holding back their laughter now? Some people couldn't hold back and even laughed out loud!

It was supposed to be a good thing, how did it become so...

The more they thought about it, the more uncomfortable they felt.

In addition, the dissatisfaction with Li Leyun became stronger.

After all, Grandmaster Xiao had already made a conclusion just now. Seeing that this business would also belong to the Cloudy Qilin Clan, Li Leyun suddenly jumped out again, and she was still confused!

In the current situation, no matter who turns out to be false in the end, it will damage the face of the Cloudy Qilin Clan!

After a while, two young Spiritual Armament Masters entered the venue.

As soon as the two entered the door, Li Leyun's eyes lit up and she stood up and said, "That's right, I just saw the two of them!"

The two Spiritual Armament Masters walked up to Grandmaster Xiao and bowed to salute him.

### **Chapter 3419: Do you still remember that bet? (6)**

"Master, may we know why you have asked us to come here? What are your orders?"

Both looked puzzled and were a little scared.

The people that were currently in the hall were all the big figures of the major forces. They had never seen such a big occasion before as they were still young Spiritual Armament Masters.

Grandmaster Xiao nodded and said, "The old man summoned you, as I really want to ask you something... Just now, I heard that Young Miss Li mention that you were discussing something in the backyard today, and that when you were patrolling the area, you saw someone in the refining room that was sleeping inside? Is this true?"

The two Spiritual Armament Masters were startled and looked a little ashamed.

"Master, this disciple didn't expect someone to eavesdrop at the side. It wasn't intentional to talk nonsense everywhere..."

"Master, please forgive me, this disciple will definitely stop talking nonsense in the future."

Both of them were very apprehensive, because when Grandmaster Xiao accepted them as disciples, he had repeatedly emphasized for them to be tight lipped once they had acknowledged him as their Master. After all, the refining techniques of the Spiritual Armament Masters were top secret.

When the two of them finished their rounds, they thought that no one was around hence they were chatting casually, but they were actually heard by outsiders, which was a mistake in itself.

Grandmaster Xiao was also not very happy, but this was not the time to pursue such responsibility.

He waved his hand and said, "Don't talk about it for now. The old man is now asking you, is it true? Was there really someone who have been sleeping in the room without refining weapons properly?"

"This..." Both of them hesitated and looked at each other.

Grandmaster Xiao frowned and said sternly: "What's going on? Why are you talking hesitantly? Just say what you have to say! This matter is very important, you must ensure that every word you say is true, but if there is a lie, old man I'll kick you out!"

After hearing these words, the two Spiritual Armament Masters did not dare to tarry any further, and said quickly: "Master, at that time, the disciples were patrolling the easternmost area. Among them, the Spiritual Armament Master in the Number 31 refining room, did fall asleep during the competition, but..."

The word "but" was only half uttered, and Li Leyun couldn't hold back her excitement and interrupted them.

"Did you hear it? Did everyone hear it? What I said just now is true, right? Young Miss Li really fell asleep during the competition, and she wasn't refining Spirit Armament at all! These two are Grandmaster Xiao's disciples, their testimony will definitely not be false. Therefore, there must be something wrong with Young Miss Li's Spirit Armament!"

In fact, there is no need for Li Leyun to emphasize that, those present have already started a ruckus.

The words of the two young Spiritual Armament Masters perfectly corroborated Li Leyun's accusation just now.

Everyone's gazes that were on Huang Yueli suddenly changed!

In such a competition, she was actually cheating in such an open manner! This was much more shameful than a shrew scolding in the street!

"I thought that Young Master Li married this great beauty, and he has good eyesight, but who knows, she is not as good as that arrogant Young Miss Li!"

"Isn't it? I was almost deceived by her just now! I thought she was really some kind of genius Spiritual Armament Master!"

"Tsk tsk, it's so lively now, I didn't expect it to be like this. I really feel sorry for Young Master Li, why are all the women who are related to him so superb?"

"It's a coincidence to meet one of the best, but if you meet two of the best, you can't say it's bad luck, right? I don't think Li Moying himself is a good person!"

#### **Chapter 3420: Do you still remember that bet? (7)**

Hearing these vague discussions around her, Huang Yueli felt displeased, as a cold glint flashed across her eyes.

It didn't matter if others scolded her, but Li Moying was scolded because of her, which was exactly what she could not tolerate!

However, the expression on her face did not change, she just calmly looked at Li Leyun who was standing in the centre of the hall with the corners of her mouth turned upward into a mocking smile.

When Li Leyun turned her head, she thought she could see Huang Yueli panicking and kneeling down to beg for mercy, but in the end, this damn girl was still so calm and calm!

Li Leyun sneered: "What are you still laughing at? Now that the evidence is solid, don't hurry up and tell the truth, how on earth did you cheat? Where did you hide the Spirit Armament and bring it into the refining room! Brother Moying is actually with you. Having been with such a woman, I really feel unworthy for him!"

Huang Yueli ignored her and turned her attention to Grandmaster Xiao.

"Grandmaster Xiao, do you also believe in such nonsense?"

Grandmaster Xiao's face was ugly, "Madame Li, it's not that the old man doesn't believe you, but the two disciples of the old man are honest people and won't lie. They have already said so, and this old man will definitely choose to believe them! So, how are you going to explain yourself?"

Huang Yueli smiled and said, "What I'm explaining now seems to be useless..."

"Now that you know, why do you still have the face to stay here?" Li Leyun interjected gloatingly.

However, Huang Yueli once again ignored her and continued talking on her own.

“However, I don’t need to explain this matter myself. I just heard what the two young masters said, and it seems that Young Miss Li interrupted them before they finished speaking. Now, I don’t know if Grandmaster Xiao can give them two another opportunity to speak and, let them speak clearly? When the time comes, the truth will naturally come out!”

The noisy hall suddenly became quiet, and everyone looked at Huang Yueli with surprise. They didn’t expect her to say that.

For a moment there, no one could figure out what she meant.

Grandmaster Xiao frowned and looked at his two named disciples, “Have you two finished talking? What do you mean? If you still have something to say, then say it now!”

The two young Spiritual Armament Masters were at a loss, not knowing why they came here.

However, to be able to become Grandmaster Xiaos disciples, both of them were actually very clever.

Hearing the conversation between Li Leyun and Huang Yueli, as well as other people’s comments, they also roughly guessed what the situation was and why Grandmaster Xiao asked them about the situation during the competition.

After they understood the truth, they did not dare to neglect, they quickly stepped forward and said, “Master, it’s like this, just now, Young Miss Li in room 31 really slept for a while, but it wasn’t because she didn’t refine the armament properly and fell asleep. Then...that’s not true!”

“Yes, my senior brother and I have been paying attention to Young Miss Li’s refining room, because her refining technique is really fast, even more proficient than the two of us who have practiced for a month! Moreover, her refining speed is extremely fast. They are quick, accurate and smooth... Anyway, we all stared at her at first and almost forgot we were patrolling!”

“About half an hour later, Young Miss Li put out the fire and took out the Spirit Armament from the inside! We were startled by this speed. Not only did she refine the finished product in one go, even the refined product is amazing!”
