Chapter 3461: The Secret Realm (3)

Huang Yueli pursed her lips, shook her head and said, "No, most of the contents on this map are in the language of the Ancient God Realm, and I can't understand most of them... However, there are a few symbols that look very familiar... ..we seem to have seen them before in Soaring Heavens Continent?"

Li Moying came over, wrapped his arms around her slender waist, and sat beside her.

"Yes, you discovered this as well? At the beginning, I also thought these symbols were very familiar, only then did I notice this scroll, and gradually deciphered it, only to find out that this is actually a map to the secret realm. By the way, this secret realm has a very similar to our origin."

"Oh? Really?" Huang Yueli thought thoughtfully, "Could it be that... this was left by the seniors of the Cloudy Qilin Clan or the Sacred Phoenix Clan?"

Li Moying showed a mysterious smile and shook his head, "That's not the case. This secret realm is actually left behind by an evil cultivator."

Huang Yueli was startled, "Evil cultivator?"

In the God Realm, in addition to ordinary cultivators who cultivate normally, there were also some cultivators who have special abilities or practice special exercises.

For example, Huang Yueli's good friend Xia Yunxi was born with the power of the witch. This ability was different from ordinary profound energy. Only by cultivating the ways of the sky witch can improve one's own ability.

As for the evil cultivator, the cultivation method was very similar to that of the Sky Devil race. They rely on hunting and killing various spirit beasts and absorbing the energy in the spirit core to improve their abilities.

The more powerful the spirit beast, the more energy it can provide. In order to quickly break through, some evil cultivators will directly kill people and absorb the energy in their dantian!

It was even said that if an evil cultivator kills a certain number of people, they will gradually generate demonic energy, and even turn into a Sky Devil.

There are many people who suspect that the Sky Devils in the God Realm should be descendants of the evil cultivators who fell into the devil's way in the ancient times when the God Realm was first created.

Therefore, evil cultivators were a taboo existence for the God Realm.

Huang Yueli frowned slightly, "If it is a place left by an evil cultivator, isn't it too dangerous for us to enter like this?"

Ordinary cultivators in the God Realm know very little about the cultivation methods of evil cultivators. It was difficult to imagine what unexpected dangers they would encounter in this secret realm. Once they encounter something dangerous, they do not know how to deal with it.

Li Moying pointed to a few symbols on the scroll, and said, "If it were other secret realms of evil cultivators, I wouldn't dare to enter it rashly. However, don't you find these places very familiar?"

"Yes, but, I really can't remember where I saw it, let alone what it means..." Huang Yueli frowned.

These symbols looked familiar, but once Huang Yueli thought about it carefully, she felt that her mind was blocked by a layer of haze, and she couldn't see the truth clearly.

When Li Moying saw this, he no longer delayed and said: "This is actually the cave manor left by Saint Iniquitous Shadow!"

"What!?"

Hearing this name, Huang Yueli suddenly exclaimed!

Because, this evil cultivator really had a deep relationship with them.

The secret technique that Li Moying used to split her primordial spirit to protect her last trace of consciousness was the soul-splitting technique left behind by this Saint Iniquitous Shadow!

If there was no Saint Iniquitous Shadow, Huang Yueli would most probably have already died. How could she still continue their fated relationship in this lifetime?

This also explains why Huang Yueli couldn't remember the real meaning of these symbols.

Because, it was Li Moying, not her, who had read the books of the Saint Iniquitous Shadows!

Chapter 3462: The Secret Realm (4)

The reason why Huang Yueli has an impression it's because before she returned her primordial spirit to Li Moying, she had some memories of him, and she had seen that book in a dream, but the impression she got was very shallow after all and she doesn't remember clearly.

After knowing that the owner of the secret realm was the Saint Iniquitous Shadow, Huang Yueli immediately became interested, laid the map down on the table and studied it more carefully.

Li Moying also explained from the side: "These locations should be the places where Saint Iniquitous Shadow keeps his treasures. He has rich experience and even has contact with the Sky Devils. There will definitely be no less of secrets of cultivation and various treasures in the cave manor. What is even more rare is that other cultivators have a lot of taboos against evil cultivators, and it is difficult to decipher the content on the map. Therefore, this map has been kept in the library of the Cloudy Qilin Clan, and it seems that it has not been touched by others."

"That means, it is estimated that not many people have been to this secret realm?" Huang Yueli blinked her big eyes with a look of surprise, "The treasures in the secret realm must be well preserved! I hate that kind of secret realm that many people have been to, even if there are some good things in it, they have already been taken away!"

Li Moying nodded, paused, and then said, "However, this also means that there are many unknown dangers in the secret realm which we can't predict, so we must act carefully!"

Huang Yueli said with a smile: "I know this, you can rest assured! We haven't gone to the secret realm to cultivate together for a long time. I miss the feeling of fighting side by side with you!"

Li Moying slightly hooked the corners of his mouth, he was happy, but also a little worried.

After all, this was the God Realm, not the Soaring Heavens Continent.

He was no longer the peerless master Li Moying who was invincible in the world. In the God Realm, his current cultivation was nothing, there were many who were much stronger than him!

In those real ancient secret realms, there are even powerful existences that can instantly kill the experts in the profound realm.

In comparison, he is too small to protect his Little Li'er...

It seems that he must practice harder and become stronger as fast as possible, so that his Little Li'er can run around carefree, and can also guarantee that no one dares to show his wife a bad face. ...

Huang Yueli didn't think that Li Moying thought so much because of her words.

She looked at the map up and down, left and right, and with her hands on her cheeks, she said thoughtfully, "I have never been to the cave manor of an evil cultivator, and I don't know what treasures will be in the cave manor of the Saint Iniquitous Shadow. We don't know much about him either... It's better to look up some ancient books and make some preparations."

When Li Moying heard the words, the corners of his mouth curved upward, and a flash of determination flashed by his eyes.

"I know that the Saint Iniquitous Shadow has a treasure, and it must be hidden in the cave. This time I go, I must find a way to get it!"

It was rare to hear that Li Moying was so desperate for a treasure, Huang Yueli looked over curiously.

"What treasure are you talking about? Is it a cultivation technique? Or what kind of Spirit Armament?"

The smile on Li Moying's mouth deepened, and he said in a low voice, "Do you remember, I told you before that the Saint Iniquitous Shadow created the soul-splitting technique to save his beloved woman? Moreover, the cultivation talent of the Saint Iniquitous Shadow was not high back then, and he was able to become a peerless powerhouse on the third level of the Life Profound Realm, it was all relying on this woman..."

Chapter 3463: The Secret Realm (5)

Huang Yueli's eyes widened, trying to think back.

"Ah... It seems that there is such a thing! Did he write on his notebook that his wife is a beautiful and powerful genius cultivator... Hey, Moying, why are you so close to me? I can't take a good look at the map... ugh!"

Huang Yueli turned her head sharply, only to realize that at some point, Li Moying had already leaned onto her, his handsome face was resting on her neck, and the hot breath was blowing behind her ears.

Huang Yueli subconsciously moved to the side, trying to avoid it.

However, the chair she was sitting on was originally against the wall, and when she moved like this, she sank herself into a corner even more.

Li Moying took advantage of the situation and leaned over, put one hand on the wall, and wrapped her in his arms.

“Little Li’er, do you want to know what kind of techniques this Saint Iniquitous Shadow has cultivated to make his strength grow by leaps and bounds with only basic earth talent?”

Huang Yueli looked at Li Moying nervously, under the cover of his alluring aura, her heart was pounding, and she couldn’t even think...

Who can tell her why the atmosphere became so ambiguous when the two were discussing on going to the secret realm for an experience?

“This...this...very...very simple! The Saint Iniquitous Shadow has fallen into the evil way, and his strength will be greatly improved! Maybe he is a peerless genius that comes once in ten thousand years in the cultivation of evil ways!”

Huang Yueli finally regained her thoughts, said a few words quickly, and went to push Li Moying, “Alright, let’s talk properly!”

However, Li Moying’s body was as stable as a mountain, and under the push of her little hand, he did not move at all.

Li Moying smiled lowly, pinched her messy little hand, pressed it against the wall, and moved closer and closer to her.

It was only when the distance between the two of them was only an inch, and the heat of their breathing could be clearly felt, Li Moying stopped and spoke in a low voice.

“The Saint Iniquitous Shadow fell into the evil way, that is what happened after his wife died in an accident! Before that, he was already a powerhouse in the Life Profound Realm. And his cultivation is so fast, relying on his wife’s book of double cultivation exercises brought from her maiden’s house!”

“What? Double... double cultivation technique!”

Huang Yueli opened her mouth in surprise, she had almost bitten her own tongue!

She knew that Li Moying’s mind was full of impure nonsense!

They have already practiced a double cultivation technique, and this man still remembers a more advanced one!

Li Moying looked at her sluggish little face, and the smile on his face became wider and wider.

This little girl doesn't know that when she has on her cunning expression, she was absolutely beautiful, but her cute look is even more adorable and she looks very tempting, so he can't control the urge to swallow her!

"The wife of the Saint Iniquitous Shadow is the proud daughter of Heaven who was born in Acacia Valley, a great power in the God Realm. I heard that she is also a top heaven-level genius. This Acacia Valley's double cultivation technique is very famous. Several experts in the Life Profound Realm have been born, and these Fate Profound Realm cultivators are also Dao Companions, both of whom have made breakthroughs! If we can obtain this set of exercises, our cultivation speed will definitely increase by a lot!"

Li Moying put away his frivolous smile and said in a serious tone.

Huang Yueli looked at his sanctimonious appearance and could not wait to bite him!

Chapter 3464: The Secret Realm (6)

He had the nerve to say such words so seriously!

Did he think that she didn't know? If this man's intention was really on speeding up on cultivation, then he really had something up his sleeves!

He most probably thought that the postures recorded in these manuals were very novel!

"I... I think we may not be very suitable! You also said that the talent of the Saint Iniquitous Shadow is not very good, so we use the double cultivation method to help our cultivation. Our talent is so high, it may be more difficult to cultivate ordinary exercises so effectively..."

Huang Yueli tried to reason with him.

Li Moying just shook his head, a smile flashed in his deep eyes.

"I can't say that, no matter how talented we are, we won't think that the cultivation speed is too fast! What's more, I also heard that the Saint Iniquitous Shadow has personally modified this double cultivation method and incorporated a lot of methods to enhance profound strength. The power method, our primordial spirits are all re-forged through the technique of splitting the soul, and it is not an exaggeration to say that we are the successor of the Saint Iniquitous Shadow. For us, the effect of his revised exercises must be better than that of ordinary people!"

"Isn't it a pity not to cultivate such a good cultivation method?"

Li Moying looked at Huang Yue's puffed up face, tried his best to hold back his laughter, and continued to talk nonsense seriously.

Huang Yueli glared at him angrily, blinking her big eyes, desperately thinking in her heart how to refute him.

However, she knew that Li Moying was talking nonsense without any good intentions, but he actually made a lot of sense, and she couldn't refute it!

Moreover, before Huang Yueli could think clearly, Li Moying couldn't help but let out a low laugh.

"You can still laugh..."

Just as Huang Yueli was about to scold him, suddenly, Li Moying came forward again.

The distance between the two was already very close. Huang Yue was leaning against the wall behind her, and there was absolutely nowhere to hide, and her lips were blocked in an instant.

I don't know how long it took before Huang Yueli, who was blushing all over, was let go.

"Little Li'er, this secret realm is really suitable for us. We will definitely gain a lot from this experience."

Listening to Li Moying's words, Huang Yueli pouted.

She doesn't want to go now, but alas, it's too late!

...

Three days later, after Huang Yueli carefully explained the business to Grandmaster Xiao and Xuan Qingling, he boarded the flying ship with Li Moying and left Medial Arch City.

"Looking from the map, after we flew north for three days, we entered the uninhabited wilderness." Huang Yueli stood on the deck and looked at the map.

In the vast God Realm, in addition to the territory occupied by the gods, humans and demons, in fact, more than half of the territory is still undeveloped.

These places were collectively called the Wilderness Land.

For example, near the sea of serenity, there is a large wild land where spirit beasts gather.

At that time, Huang Yueli was secretly plotted against by Huang Sanbai and disappeared. Li Moying thought she had fallen into that stretch, so he even searched inside for nearly a month.

However, even Li Moying would not dare to go too deep, because no one can predict the danger of the Wilderness Land!

In the God Realm, many secret realms and treasures from ancient times were hidden in such places.

Although it was dangerous, in order to obtain more resources and improve their own strength, many cultivators still venture into these wild places one after another to experience.

Li Moying glanced at the map and said, "The secret realm of the Saint Iniquitous Shadow is not too desolate. Although it is in a barren land, there is a small town inhabited by human races nearby. I heard that there used to be a jade quartz mine there. That's why people live there."

Chapter 3465: Great harvest (1)

Huang Yueli laughed, "So you're saying that we might still get lucky and pick up some jade quartz along the way?"

Li Moying shook his head and laughed, “Your Spirit Armament Illustrations are sold for a lot of money, can this little bit of jade quartz still enter your eyes?”

Huang Yueli had an innocent look on her face, “Who would ever complain to have more money? I still have to support my family, so I’m under a lot of pressure!”

When Li Moying heard this, he couldn’t help raising his eyebrows, “My wife is working so hard, so as a good husband, I really have to serve her well! Would you like your husband to give you a massage and help you relax?”

Saying that, he straightened up, turned behind Huang Yueli, and deftly put his hands on her shoulders.

The heat emanating from his fingers, through the thin fabric, imprinted on Huang Yueli’s skin, making her feel a little itchy, and she subconsciously wanted to hide.

“Alright, alright, don’t wait on me! I’m not working hard! ... Li Moying, that’s enough, this is on the flying ship!”

Huang Yueli pushed him away and glared at him, “I’m going to practice! When I get to the secret realm, I don’t know what danger will come, so let’s get ready as soon as possible!”

Hearing this, Li Moying also took a step back.

His face was slightly red, his forehead was slightly soaked with sweat, and he looked more enchanting. Obviously, he had already felt it because of the entanglement just now.

However, he took a deep breath and said, “You’re right, then I’ll go back to my room to cultivate first.”

After speaking, Li Moying turned around and left quickly.

Huang Yueli was a little surprised when she saw his retreating back as he left in a hurry.

Although Li Moying kept saying that he was going to find some kind of double cultivation method that day, in fact, he didn’t bother her with double cultivation over the past few days, but spent more time on cultivation.

Often Huang Yueli left Grandmaster Xiao to work on errands, and it was already dark when she returned, but Li Moying was still cultivating, which was almost the same as retreating.

“Is it because the day of the Grand Meet in the God Realm is nearing, hmm, is he nervous too? Well, I should work hard too!”

Huang Yueli thought about it, put away the map, and ran back to her room to cultivate.

The flying ship continued to move steadily.

...

Not long after Huang Yueli and Li Moying boarded the flying ship.

In a small inn in Medial Arch City, Emphyrean Fox Continent, a figure in black ran into a hidden room in the corner of the inn.

As soon as the figure in black entered the door, he knelt down on one knee and bowed to an old man beside the desk.

“Elder, subordinate has already found out that Li Moying, the Young Master of the Cloudy Qilin Clan, with his lady who has ascended from the lower realms, has already boarded the flying ship and left Medial Arch City!”

“Great, they have finally left!”

When the old man heard the news, he stood up excitedly!

If Huang Yueli saw him, she would definitely be shocked, because this old man was actually Huang Sanbai, the elder of the Sacred Phoenix Clan who had secretly harmed her!

Huang Sanbai couldn't find Huang Yueli, and returned to Sacred Phoenix Continent in desperation. With a clever move, he pushed the entire responsibility of Huang Yueli's disappearance to Li Moying, telling the Patriarch that it was the god-level genius of the Cloudy Qilin Clan who was chasing after Huang Yueli and him.

The Sacred Phoenix Clan and the Cloudy Qilin Clan have always been at odds, and the Patriarch has always relied heavily on Huang Sanbai, so he did not doubt his words at all.

At that time, the entire Sacred Phoenix Clan was very angry about this, and immediately made a decision to send three elders to kill Li Moying.

After Huang Sanbai received the order, he took the other two elders to track Li Moying's whereabouts.

Chapter 3466: Great harvest (2)

At first, they searched aimlessly for nearly a month, but they didn't find any news about Li Moying, and almost gave up.

However, just as they were about to return to Saint Phoenix Continent, the notices of the allied armies were posted all over the streets and alleys of the Twelve Great Continents overnight.

Li Moying and Jun Sihan joined forces to kill the powerhouse of the Sky Devil!

Hearing this shocking news, the three elders were shocked!

Li Moying was only in his twenties, and he had only been in the Cloudy Qilin Clan for slightly more than a year, and yet his strength has grown by leaps and bounds! The talent of a god-level genius was so terrifying!

They all have high regard for Li Moying, but the talent he showed was stronger and more incredible than they had ever imagined!

If given time, he will definitely grow into the top expert of the Cloudy Qilin Clan. This would definitely be bad news for the Sacred Phoenix Clan!

The three elders all realized that if they didn't get rid of Li Moying quickly and if they delayed any longer, they were afraid that even though the three of them were in the Dao Profound Realm, they may not be able to get rid of him even if they take action together.

Fortunately, the announcement of the allied armies not only brought bad news, but also exposed Li Moying's whereabouts.

The three elders of the Sacred Phoenix Clan immediately set off and rushed to Blessed City to intercept Li Moying.

However, they were too far away at the time. By the time they reached Blessed City, Li Moying had already left for Medial Arch City with Huang Yueli.

The three elders flinched, but after asking around, they knew where Li Moying was going. At the same time, they also heard about what happened at the banquet at the Divine General's Mansion.

I heard that Li Moying married a wife in the lower realm, and she is beautiful and talented. The people of the Sacred Phoenix Clan were just gossiping and didn't take it to heart.

Although such a thing was rather surprising, it was not really useful information for the assassination of Li Moying.

However, after Huang Sanbai heard the news, for some reason, there was an uneasy feeling in his heart.

He suppressed this uneasy feeling, and took the people of the Sacred Phoenix Clan to Medial Arch City.

This time, they chased after him.

Li Moying and Huang Yueli stayed in Medial Arch City for a long time, long enough for them to arrive and enough for them to inquire about the Cloudy Qilin Clan.

Since Huang Sanbai had some doubts in his heart, he took the initiative to take on the task of inquiring about the news. In addition to the spies sent out on the bright side, he also sent his confidant subordinates to secretly ambush in the places where Li Moying often haunts.

After a period of hard work, he really found out news that shocked him!

The woman beside Li Moying... looks like Huang Yueli who was seriously injured and disappeared!

Seeing the portrait brought back by his confidant, at first, Huang Sanbai didn't believe that such an outrageous thing would happen!

Their god-level genius from the Sacred Phoenix Clan actually married a god-level genius from the Cloudy Qilin Clan in the lower realm? How could that be? How in the world could such a coincidence happen?

For this reason, Huang Sanbai personally followed Li Moying for several days, and finally saw the true face of the woman beside him when Li Moying went to pick up Huang Yueli to go home.

Although he was afraid of being discovered, he could only glance at her from a distance.

However, Huang Yueli's beauty was unforgettable, just a glance was enough for him to recognize her!

Chapter 3467: Great harvest (3)

The lady next to Li Moying who was extremely close to him... was definitely Huang Yueli herself!

But, how was this possible?

He searched for Huang Yueli for several months but failed to find her. He had decided that she had already died!

But now, she actually appeared, and she looked intact! She even became Li Moying's wife, and she was inseparable from Li Moying!

When did she hook up with Li Moying?

No, people in the allied armies said that Li Moying married his wife in the lower realms, so... she really married the Young Master of the Cloudy Qilin Clan?

Such a situation was absolutely unexpected by Huang Sanbai.

He was so shocked that he almost exposed his whereabouts!

Afterwards, it took him a long time to accept this fact. According to the information he had obtained, Huang Yueli should have strayed into the area controlled by the Sky Devils while avoiding his pursuit. He didn't know how Li Moying managed to grasp her whereabouts, rushed to the Sky Devil clan to rescue her, killed the Sky Devil Ruize along the way, and then brought her all the way to Medial Arch City...

Although the situation was quite different from what Huang Sanbai expected at the beginning, in the final analysis, it did not shake his plan, and even made Huang Sanbai more determined to kill Li Moying!

Huang Yueli and Li Moying have such a good relationship, most likely because she had already told the Young Master of the Cloudy Qilin Clan about his attempted murder.

However, fortunately, the Cloudy Qilin Clan and the Sacred Phoenix Clan have always been hostile. Therefore, Huang Yueli was concerned about Li Moying's position, and never revealed her identity, and even pretended that she was just an ordinary human girl.

In this way, she had actually helped Huang Sanbai.

If everyone knew that the girl next to Li Moying was a god-level genius of the Sacred Phoenix Clan, that clan would definitely send someone to look for Huang Yueli. It would be very difficult for him to hide the fact that he had attempted to murder her!

But now, Huang Sanbai was the only one in the Sacred Phoenix Clan who knows Huang Yueli's true identity!

Of course, this situation was only temporary. God knows when Huang Yueli will reveal her true strength?

Therefore, Huang Sanbai's killing intent was even stronger!

He knew that he must seize this opportunity and kill Huang Yueli and Li Moying together as soon as possible, so that Li Moying's lie of plotting against Huang Yueli could be confirmed and the two families would turn against each other, so he could gain a profit from it!

However, Huang Yueli's appearance was not without impact.

Originally, the biggest difficulty in this matter was just killing Li Moying. Under the joint attack of the three Dao Profound Realm powerhouses, Huang Sanbai was convinced that they had enough strength to kill Li Moying.

However, the question now changed and became how he could prevent the other two elders from discovering Huang Yueli's identity...

If the three of them met Huang Yueli and the others on the spot, and Huang Yueli found out that their lives were in danger, he would definitely reveal his true identity. At that time, the other two elders would definitely turn against him on the spot!

Therefore, this matter still needs to be thought out properly...

Therefore, Huang Sanbai chose to live in Medial Arch City, and had been secretly observing Li Moying and Huang Yueli.

The other two elders didn't feel that there was anything wrong.

Because, it was impossible for them to attack Li Moying in Medial Arch City where there were many experts, so they can only wait for him to leave before making any concrete plans.

Chapter 3468: Great harvest (4)

The three elders never expected that Li Moying's wife would actually have a relationship with Grandmaster Xiao, and even started a business together, and because of this, they stayed in Medial Arch City for a long time.

The three of them waited, waited, almost lost their patience, and finally waited for the news of Li Moying's departure from the city.

Huang Sanbai stared at his subordinate in front of him, and asked in a hurry: "Is Li Moying really out of the city? Did his wife leave with him? Did you see clearly?"

His subordinate nodded and said with affirmation: "Yes, this subordinate personally watched their flying ship fly away. Looking at the direction, it seems to be heading north..."

"North?" Hearing this, Huang Sanbai frowned slightly, "This doesn't seem to be the direction to Cloudy Qilin Continent? This is so strange!"

He was puzzled for a while before he regained his composure.

It was not a bad thing for Li Moying not to return to the Cloudy Qilin Clan immediately.

In case Li Moying really returned and couldn't come out anymore, it would be almost impossible to kill him!

However, if he was still running around now, he still had the opportunity to take advantage of this and start.

Huang Sanbai questioned his subordinate a few more times, then sat back, with furrowed brows, he was deep in thoughts.

“From Medial Arch City to the north, there are not many big towns. If you continue to fly a little further, you will enter the Wilderness Lands! Could it be that they are planning to go to the Wilderness Lands for an experience?”

Turning his head, he saw the hesitant expression of his subordinate, frowned and said, “What do you want to say?”

The subordinate hurriedly said: “This subordinate feels that this Young Master Li may have really gone for an experience! Think about it, he values his wife so much, but the Cloudy Qilin Clan is obviously not satisfied with her, maybe Young Master Li doesn’t want his wife to go back with him and get angry, so he just brought her around to play and gain some experience...”

Huang Sanbai was taken aback, then nodded again, “You boy, what you said makes sense!”

After all, he was old, and for a while he couldn’t understand what a young man like Li Moying was thinking, but after being reminded by his subordinate, he came to his senses.

“If they really went to the Wilderness Lands, they would have given us a chance! But, this matter... I’m afraid we can’t hide it from the other two...” Huang Sanbai pondered for a moment before saying, “Forget it, go and report to Elder Yu and Elder Zhao and prepare to set off immediately. We must not lose Li Moying!”

...

On the flying ship of the Cloudy Qilin Clan, Huang Yueli and Li Moying had been quietly cultivating.

After flying for three days, the flying ship entered the Wilderness Lands.

Originally, according to the records of the God Realm, there would be a large number of flying spirit beasts gathered in the sky above and they would be easily attacked.

However, their luck seemed to be very good. They didn’t encounter any large groups of flying spirit beasts along the way, only a few sporadic ones occasionally. They deliberately avoided fighting against each other.

Since the journey was very smooth, Huang Yueli and Li Moying were given a lot of time to cultivate.

Li Moying even successfully broke through to the middle stage of the Heart Profound Realm on the flying ship.

A twenty-three-year-old in the middle stage of the Heart Profound Realm!

Moreover, after Li Moying broke through the initial stage of the Heart Profound Realm, he broke through again in less than half a year.

Such a cultivation speed, not to mention rare in ten thousand years, probably not even one in hundreds of thousands of years!

If the two Divine Generals of the Cloudy Qilin Clan were here, they might have to take another look at Li Moying, and maybe they wouldn't dare to interfere in Li Moying's marriage anymore.

However, Huang Yueli was not too surprised by this.

Chapter 3469: Great harvest (5)

Ever since the last time when he battled against Sky Devil Ruize, his meridians were under pressure from a large amount of devilish energy, and the profound energy in his body also underwent a process of compression and purification.

This process made the profound energy in Li Moying's body become more and more solid and purer by the moment.

Of course, with just one battle, it would be difficult for an expert in the Heart Profound Realm to easily advance.

What really benefited Li Moying was the double cultivation with Huang Yueli.

Although the two of them were already married in the lower realm, in fact, the two of them had not consummated their marriage because of the split of their primordial spirits. The only time they reunited was when Li Moying's life was in danger...

After the two met again in Blessed City, they became a proper couple.

Both of them are at the age where they were full of passion, coupled with the fact that they were newly married, and more importantly, they were both god-level talents, evenly matched, they could provide each other with a lot of energy, and can also gain a lot from each other. Hence, the effect of double cultivation was amazingly good.

It's just that Li Moying hadn't cultivated for a whole period of time until a few days ago, and he could break through at any time, but it was only now that he really entered the middle stage of the Heart Profound Realm .

And Huang Yueli's cultivation has also improved, but it was not as fast as she had imagined.

Originally, when she ascended from Soaring Heavens Continent, she had already comprehended the fifth conception of the fire attribute, and even the sixth conception had already comprehended most of it.

However, after reaching the God Realm, she encountered danger one after another, and she did not have much progress in her cultivation.

It was not until the battle with the Sky Devil Race in Blessed City that she broke through the sixth level of the Dream Profound Realm.

Later, after cultivating with Li Moying, she broke through the seventh level of the Dream Profound Realm.

Now, she was also a cultivator in the late stage of the Dream Profound Realm. At the age of less than nineteen, she had actually attained such a cultivation level, which was comparable to Li Moying's level.

However, Huang Yueli always felt that her cultivation speed was too slow, especially when she had a very talented husband by her side!

Although Li Moying said every day that his woman should be protected by him, she didn't want to be a burden to Li Moying. From beginning to end, she liked the feeling of fighting side by side with Li Moying!

Because of this, Huang Yueli had been very annoyed for a few days.

Seeing that she was unhappy, Li Moying came to comfort her, "Little Li'er, this is not your problem. If a cultivator in the Profound Realm wants to improve his cultivation, he usually needs to comprehend various conception illustrations. Only by understanding the conception illustrations can you make a breakthrough. However, you can't go back to the Sacred Phoenix Clan now, and you can't see the conception illustration of the fire attribute. You have already attained a very terrifying level of comprehension, even I can't compare to you!"

Li Moying's words were not just to comfort Huang Yueli, but he was speaking the truth.

The Dream Profound Realm has nine levels. It seems very simple now, but since ancient times, it was a very, very difficult threshold for the cultivation of genius cultivators.

Because, no matter how talented the body is, and no matter how many medicinal herbs and jade quartz provided by the family, it is not very helpful for comprehending conception.

If you want to break through the Dream Profound Realm, all you need is comprehension!

Wanting to rely on oneself to comprehend the conception of heaven and earth among thousands of is as difficult as going against the heavens!

How many peerless geniuses who were favored by others, were stuck on this threshold and even trapped for dozens or hundreds of years.

Later, the situation changed when a powerful person in the Fate Profound Realm drew something like a conception illustration.

Chapter 3470: Entering the Secret Realm (1)

This was why, Huang Yueli's ability to completely rely on her own strength to improve two small realms was considered a very perverse talent!

Huang Yueli also understood this truth, but she was still not very satisfied with the progress of her own cultivation.

"I don't know where other than the clan can I see the conception illustration?" Huang Yueli was thoughtful.

Li Moying said: "It's not a difficult task. Fate Profound Realm cultivators usually leave their own conception illustration, so maybe there is one in the cave of the Saint Iniquitous Shadow, but it may not

be suitable for you. If it is not suitable for you. If so, when we come out of the secret realm, we can go to the Allied Armies Headquarters. The Allied Armies Headquarters has collections of conception illustrations of various attributes, and there must be something you can use. It takes a lot of military skills to observe these conception illustrations, but the last time you sold a Spirit Armament illustration, you've gained a lot of military merit, I think there will be no problem."

"That would be great!" Huang Yueli was overjoyed, "Before the God Realm Grand Meet, I must go to the headquarters of the Allied Armies!"

"I'll accompany you when the time comes." Li Moying laughed softly.

The flying ship flew in the direction marked on the map for seven or eight days, and finally stopped at a mountain pass.

Li Moying and Huang Yueli chose the guards who would enter the secret realm together.

In the secret realm, there were many traps everywhere. There was no benefit to having a lot of people, and they may even increase the burden.

Therefore, they only planned to bring the four guards with the highest cultivation level. All of these four were above the cultivation level of the Heart Profound Realm. In addition, they have learned various secret techniques and profound skills of the Cloudy Qilin Clan since they were a child and they were all at the top.

Moreover, these people were all equipped with a full set of standard Spirit Armaments refined by Huang Yueli—or rather a full set of middle grade Spirit Armaments!

These Spirit Armaments can be said to be the best among the Spirit Armaments that Huang Yueli can refine at this stage.

So, when the guards received this equipment, they were all shocked and stunned in place.

"This... this... Madame, is this really for us?" Li Tianyi stared incredulously at the Spirit Armament in his hands, his eyes were about to pop out!

Li Tian'er also said, "Madame, you couldn't have made all of these, right? You... you can already refine middle grade Spirit Armaments?"

Huang Yueli shrugged, "If it's not for you, is it for play? Hurry up and put it on! If you are lucky, even Grandmaster Xiao has never seen these Spirit Armaments!"

In fact, Huang Yueli had been able to refine middle grade Spirit Armament two months ago, but she didn't let outsiders know about this news, not even Grandmaster Xiao.

Because she was afraid that someone would leak the secret, she didn't even get the badge of the middle grade Spiritual Armament Master, for fear that the Allied Armies would come and ask her for the illustrations of the middle grade Spirit Armaments.

Now, if it wasn't for the fact that they were all Li Moying's people, and that they had been protecting both of them during this period of time, it could be said that they were loyal, and she would not have taken out these Spirit Armaments.

The guards all know that Huang Yueli was Li Yuehuang, the legendary genius Spiritual Armament Master, and she is naturally in awe of what she has refined.

Several people hurriedly put on their equipment, and only moved a few times, and they all showed shock!

“This set of Spirit Armaments is actually... a set!”

“Is this really a middle grade Spirit Armament? The increase in attack defense is far from the ordinary.
