Chapter 3471: Entering the Secret Realm (2)

“Oh my goodness, it’s... so powerful! I’ve never used such a good Spirit Armament, it’s still a set!”

The guards were all from a big family like the Cloudy Qilin Clan, and they have extraordinary knowledge. They immediately realized how precious this set was!

Compared with the ones on them, the Spirit Armaments that Huang Yueli sold to the headquarters of the Allied Armies were like scrap metal!

If they could sell the Spirit Armaments on their bodies, it would cost tens of thousands of jade quartz for one set!

For such Spirit Armaments, as guards of the Heart Profound Realm, they probably couldn’t afford it in their entire life.

And Huang Yueli gave it to them so casually?

Huang Yueli looked at their surprised faces, and smiled slightly, “You guys are so loyal to my husband and have worked hard, so what’s the matter of giving you a set of Spirit Armaments? However, I still want to remind you that these Spirit Armaments would be too ostentatious to take it out. Your cultivation at the early stage of the Heart Profound Realm and these are easy to be coveted by others. Fortunately, these Spirit Armaments look the same as ordinary middle grade Spirit Armaments, and ordinary people can’t tell the difference. When it comes to money, you have to be more careful, as the saying goes, money doesn’t come out in vain!”

The guards agreed repeatedly, each with an extremely respectful tone.

“Yes, this subordinate understands!”

“Thank you, Madame, for your guidance!”

What Huang Yueli said was absolutely correct. They only had a cultivation level at the early stage of the Heart Profound Realm, yet they were wearing Spirit Armaments worth 10,000 jade quartz and walking on the street. It was like a moving treasure house, luring others to grab it!

However, this was not the reason why the guards were so respectful to Huang Yueli, and even Huang Yueli’s generosity was not the reason why they changed their attitude.

The carefully selected young cultivators from the younger generation of the Cloudy Qilin Clan are not so shallow-sighted. Although the Spirit Armaments Huang Yueli sent were indeed very valuable, but relying on money alone to buy their loyalty was far from enough.

What really shocked them was that these Spirit Armaments were all made by Huang Yueli herself!

They all knew Huang Yueli’s real age.

A Spiritual Armament Master who is less than twenty years old can actually refine such a Spirit Armament!

Speaking out was even more shocking than her talent in cultivation!

Besides, what moved them even more was what Huang Yueli said when he handed over the Spirit Armament to them.

Huang Yueli gave them something because they were loyal to Li Moying.

As Li Moying's wife, she was thinking about him.

As Li Moying's bodyguards, they were on the same front as Li Moying.

Li Moying loved Huang Yueli very much, and once made these guards secretly worried, fearing that Li Moying would be dazzled by Huang Yueli, if Huang Yueli had any bad thoughts, it would be impossible to guard against.

However, Huang Yueli's every move now was obviously for Li Moying. The relationship between her and Li Moying was not made by Li Moying alone, but a couple who truly support each other...

This made the guards respect her from the bottom of their hearts.

Seeing the change in their eyes, Huang Yueli somewhat guessed their thoughts.

However, she didn't take their thoughts very seriously.

To be honest, she doesn't care whether they like her or not, as long as they were really loyal to Li Moying.

She just did what she wanted to do, and she didn't intend to please anyone.

Chapter 3472: Entering the Secret Realm (3)

Huang Yueli turned her head to look at Li Moying.

She also wanted to equip Li Moying with a set of Spirit Armaments that she made herself, but after carefully observing the equipment on Li Moying, she chose to give it up temporarily.

"These are all treasures on you! The Cloudy Qilin Clan really attaches great importance to you, the Young Master. The Spirit Armaments I refine are not comparable to treasures, so you should wear these on you, wait for me..."

Before Huang Yueli could finish speaking, she saw Li Moying's face darken rapidly.

"What? You didn't prepare a Spirit Armament for your husband?"

When Huang Yueli heard his chilly voice, her back turned cold, and she quickly said, "I mean, I'm not good enough to refine something better than yours..."

Before she could finish her sentence, she saw Li Moying take off the wrist guard he was wearing and threw it on the ground.

Immediately afterwards, the shoulder pads were removed.

Then he tossed the boots next.

At last...

Seeing that Li Moying started to unfasten the robe from the top, Huang Yueli almost jumped up, "Wait...wait, wait! Don't just take off your clothes if you disagree! Put it on, put it back on quickly!"

Li Moying had already unfasted his top, revealing a muscular chest. There were still traces of ambiguity...

Huang Yueli's eyes widened. It was clearly scratched by her last night...

"Ahem, ahem! Don't be like this! These are all treasures on your body! No one else can ask for them! You'd better put them on quickly! How can you throw them on the ground, what if they break? What if you lose them? "

"Hey, are you really taking it off? Look, Big Brother Tianyi and the others are still around..."

Li Tianyi and the others turned around a long time ago, and all of them huddled in the corner without saying a word, wishing they could disappear immediately in place!

The ancients said it well, when misfortunes come, blessings depend on them, and when blessings come, misfortunes subdue them!

I just got a set of priceless Spirit Armaments, and I haven't been happy for long, and this is the beginning of bad luck! Why let them see the scene where their Young Master taught his wife a lesson!

In case something unspeakable happens, where will they hide? ?

Seeing Huang Yueli who was desperately pretending to be pitiful, Li Moying snorted coldly, "So what about Spirit Armaments? It's better to lose them! With these Spirit Armaments, even my wife is not willing to refine Spirit Armaments for me." It's worse than trash!"

Huang Yueli couldn't laugh or cry, "Don't do this! I'm thinking about your safety! It's not difficult for me to refine a set for you, but after wearing the Spirit Armament I refined, your attack and defense will drop. In this secret realm that no one has explored, there are dangers everywhere, and you are too unsafe!"

Li Moying glared at her, "Is this a reason? Even if I don't wear a treasure, I can still protect you! Are you looking down on your man?"

"I...I'm not..." Huang Yueli was tongue-tied.

Seeing that Li Moying was about to throw those priceless treasures out of the flying ship, she rushed over quickly and stopped in front of Li Moying.

"Don't...don't throw it away! This is all money!"

Li Moying's face turned darker, and he glanced at her coldly.

Huang Yueli knows him well. She knows that he is only questioning her. Which was more important for her, husband or money?

But how could she answer this question!

Huang Yueli's heart was twisted like a knife. Although her husband was definitely the number one, money... was also very important!

Suddenly, Huang Yueli had an idea.

Chapter 3473: Entering the Secret Realm (4)

"Wait! I actually prepared something for you!"

Li Moying stopped, turned to look at her, frowned slightly, "Oh, is that right?"

Obviously, he doesn't really believe it.

Huang Yueli blinked her big eyes and looked innocent, "Really! I prepared something for you, just in case you don't like it!"

Saying that, she took out a silver-white robe from her interspatial ring and held it in front of Li Moying.

Li Moying couldn't help but was startled, "This... this is for me? But, this is not... this is not a Spirit Armament, right?"

The robe Huang Yueli took out had a silver-white background and was embroidered with intricate patterns with gold and silver silk threads. It looked low-key and extravagant.

Moreover, Li Moying could see at a glance that this size was completely made according to his figure, and it was much larger than ordinary men's clothes.

But, no matter what, this was just an ordinary robe.

It looks good, but it doesn't change the fact that it doesn't have any defensive power...

Huang Yueli said with a smile: "I made this robe myself, how is it? It's beautiful, right? You already have a treasure-level profound armour, and I can't improve it if I make another profound armour. Your defense power will actually make you overburdened and affect your speed, so after thinking about it, I made you an ordinary robe. Although it has no defense power, it is very light and thin. It also looks so good!"

"Also, look at these patterns, I also incorporated a few arrays on it, which can increase your speed a little bit. These arrays also increase wear resistance, so even though it looks very thin, but it's durable!"

Although the profound armour could also be made into the style of ordinary robes, it just looks light and thin, the weight of the material still exists, and the weight of each piece was quite considerable.

After Huang Yueli finished her introduction, she said excitedly, "How is it? I didn't forget you, did I? Hurry up, wear it and let me see it!"

As soon as these words came out, Li Moying didn't act immediately, but frowned slightly and froze in place.

Huang Yueli had expected this for a long time, and couldn't help but secretly laugh in her heart, but she still had a look of anticipation on her face.

"Don't you blame me for not preparing it for you? Although this is not a Spirit Armament, I made it myself. Don't you want to wear it? Is it because you dislike my poor craftsmanship?"

Saying that, she pouted and lowered her head with a disappointed expression.

In fact, this robe was not made by Huang Yueli over the past few days, but it has been made a long time ago, and it was made in Soaring Heavens Continent.

However, Li Moying has always liked black robes and disliked white, so he refused to wear them.

Huang Yueli also thought of various ways to coax him to wear it, because she felt that her husband was so handsome, wearing white must be more elegant.

But Li Moying didn't buy it at all, and made excuses to slip away every time.

While pretending to be pitiful, Huang Yueli peeked at Li Moying from under her drooping eyelashes, and said to herself, "Let you be arrogant! Now that I'm talking about this, do you want to wear it?"

Li Moying stared at Huang Yueli for a while.

Although she knew that her little fox was very cunning, seeing her so disappointed, she tried her best to emphasize how much thought she had put into this dress...

Li Moying felt a sense of guilt, as if not doing what she said would hurt his little fox's heart!

Chapter 3474: Forest Shade Town (1)

Finally, he snorted coldly and took the white robe from Huang Yueli's hand.

Then, in front of Huang Yueli, he picked up the treasures on the ground and put them back one by one. Finally, he frowned and stared at the silver-white robe for a while before putting it on.

Huang Yueli blinked her big eyes and watched with interest.

Although it is said that it is very eye-catching for a beautiful man to undress, but the process of dressing was also a treat to her eyes.

"Tsk tsk, as expected of my husband, this body, this skin..."

Especially the movement of those slender and powerful fingers sliding over the fabric, there was an indescribable elegance and charm that made her unable to look away.

Suddenly, those fingers stopped and didn't move.

Huang Yueli was a little surprised when she heard a man's joking voice above her head, "Little fox, the drool is dripping all over. This is because you don't want me to put my clothes on? Or... let's not get off the flying ship, I'll take you back to the cabin so you can take a proper look?"

There was nothing more embarrassing than being caught peeking!

Huang Yueli's face turned red all of a sudden, "Cough, who... Who is drooling? Don't slander others! Your figure is just average, so I'm not interested in watching it!"

"Just average?" Li Moying's face darkened, and his voice immediately sank.

Huang Yueli was shocked to realize that she had said the wrong thing in a hurry!

Given how arrogant this man was, maybe in order to prove his "just average" figure, he will take her into the cabin and force her to watch!

Huang Yueli reacted very quickly, and ran in the direction of several guards in a flash.

"You heard wrong, I didn't say anything just now! Alright, it's getting late, let's not delay, I'll get off the flying ship first, get dressed and get off quickly!"

The flying ship hadn't stopped yet, but Huang Yueli was agile and jumped off the flying ship with a swish.

Li Moying's reaction was a little slower, so he let his little fox escape, not knowing whether to laugh or cry for a while.

Huang Yueli jumped off the flying ship, looked left and right, and found that they were on the edge of a small town. The town was surrounded by densely packed towering trees, and it was impossible to see the end.

"This should be the forest town marked on the map, right?" Huang Yueli muttered to himself.

As soon as she finished speaking, she heard a familiar voice behind her say: "Yes, this is Forest Shade Town. We still have to walk 30 miles to the west of the woods, and we should reach the location of the secret realm. However, Forest Shade Town is the closest location to the secret realm where the flying ship can land, so for the next 30 miles, we must walk there."

When Huang Yueli heard the mesmerizing voice, she turned around.

Facing her was a handsome man in a white robe.

Li Moying not only put on the long robe, but also tied his long hair and adorned it with a white jade crown. The perfect facial features and contour lines were even more exquisite under the sunlight.

And, just as Huang Yueli imagined, Li Moying was very suitable for wearing white.

Wearing a white robe made his tall and straight figure even more noble and arrogant, but it also covered up his cold, stern and domineering aura a bit, making him like a noble Young Master, elegant and extraordinary.

"Do I look that good? Otherwise... let's go back to the cabin, shall we?"

The man's laughing voice sounded close just beside her ears, Huang Yueli was startled before she realized that she had been distracted by Li Moying!

As soon as she raised her head, Li Moying had on a proud expression as he looked back at her with a smile!

Chapter 3475: Forest Shade Town (2)

Huang Yueli glared at him, trying to hide her gaffe.

“What... What nonsense! Alright, let’s go to the town quickly!”

A group of six people entered Forest Shade Town directly.

There were a lot of defensive arrays around this town, and all of them are arrays above the heaven level! An array of this scale and level, even Huang Yueli couldn’t set it up, it was definitely something that an Array Grandmaster had done.

In fact, some arrays require a lot of rare materials, and even Array Grandmaster find them difficult to obtain.

“These arrays should have been left by the sect forces that mined the jade quartz veins here.” As the Young Master of the Cloudy Qilin Clan, Li Moying had a very poisonous vision, and he could see the origin of these arrays at a glance.

He looked in all directions of the town again, “However, this place is different from what we expected at the beginning. After the jade quartz veins were mined, the forces withdrew, but the town did not suffer from depression because of this. Instead, it has become a good place to do business!”

Huang Yueli was also looking around cautiously, and when she heard Li Moying’s words, she couldn’t help showing a knowing smile.

“Yes, it looks like this place has become an underground black market...”

The God Realm was vast and has countless towns. However, people go to high places. Therefore, most of the masters will gather in the Twelve Great Continents, and most of them will gather in the central cities.

In a small town like Forest Shade Town, which was located in the barren and desolate Wilderness Lands, it should not even be easy to pick out a Heart Profound Realm cultivator.

However, as soon as the few of them could see it, they could see that there were three Heart Profound Realm cultivators, and even one of them was at the late stage of the Heart Profound Realm!

This was really unusual.

Moreover, the cultivators who come and go here were all very low-key, and they can’t even speak loudly. Many of them were still wearing thick cloaks and walking in scurried steps.

Huang Yueli subconsciously touched her face, secretly rejoicing.

For the sake of safety, she was more careful, and when she got off the flying ship, she changed her face and covered her face.

At that time, Li Moying laughed at her for thinking too much, but now it seems that this was a wise move.

In a place like the underground black market where fish and dragons are mixed, if there was a stunning beauty in the team, it was easy for others to covet.

Of course, with the strength of their team, it was enough to deal with most cultivators, but, after all, they came here to go to the secret realm to experience, not to find trouble, everything should be low-key, which can save a lot of trouble.

Li Moying nodded and glanced at the four guards behind him, "Everyone, be careful, we will leave as soon as we inquire about the array."

The four hurriedly replied with a solemn 'yes'.

Li Moying glanced at Huang Yueli again, "Follow me too, don't leave me for more than a metre!"

Huang Yueli couldn't help but stare in surprise, "One metre? This... is this too exaggerated?"

Being refuted by her, his eyes turned cold, he didn't even say a word but directly took her hand and clasped it firmly in the palm of his hand.

Huang Yueli was about to pull her hand back subconsciously, "Hey, is this bad? Moying, let me go first! I'm a man now! Wouldn't it be too attention grabbing for two men to walk hand in hand on the street? Noticed a little..."

However, Li Moying had already made up his mind to hold her.

Chapter 3476: Forest Shade Town (3)

No matter how hard Huang Yueli tried to struggle free, she couldn't escape his firm grip.

A powerful big palm wrapped around her small fair hand. With such force, it almost started to hurt.

In desperation, Huang Yueli had no choice but to give up resisting, "Alright, alright, you can hold me if you want. But, can you use less strength? My hands are going to be red..."

Hearing this, Li Moying's furrowed brows relaxed a bit, and the strength in his hands also eased.

However, he still held her little hand tightly, refusing to let go.

Huang Yueli also gave up, so she had no choice but to let him lead her forward.

Sure enough, there were constantly prying eyes all around, sweeping towards them.

Normally, when she was dressed as a woman, she would walk hand in hand with Li Moying on the street. Both of them were good looking and were particularly eye-catching. There were many people looking at them each time they went out.

Logically speaking, she should already be used to the feeling of being stared at by passersby.

However, here, the prying eyes of outsiders still made her feel quite uncomfortable.

Because, compared with the envious and jealous eyes of the residents of Medial Arch City, the eyes of the cultivators in Forest Shade Town were obviously guarded mixed with a hint of probing, which made people feel offended.

Li Moying led Huang Yueli away from them, walked into a nearby restaurant, and ordered a few dishes casually.

Taking advantage of the the waiter serving the dishes, Li Tianyi took a look at Li Moying, and after getting his approval, he began to explore the situation nearby.

“Brother, your business here is really good! Although this town is a bit remote, it is quite popular.”

The waiter glanced at them a few times, and soon put on a flattering smile on his face.

“Is this the first time for esteemed guests to come here? I can see that you are all outstanding people, so you have come to the right place, welcome to our Forest Shade Town!”

“Oh? How do you say that?” Li Tianyi humbly asked for advice.

The waiter said: “In Forest Shade Town, there is a black market every year. You can buy whatever you want! Of course, if you want to sell anything, you can sell it at a good price! This is a good place, those auctions and trading houses in the Twelve Great Continents are all controlled by major families, even if there are treasures, it is difficult to sell them at a high price, and they still have to take a cut from them! It is simply a black shop! It is different here, buying and selling are all voluntary, and you can sell them at any price you want!”

Hearing this, the corner of Huang Yueli’s mouth rose into a faint smile.

“Business here is free enough, but if you want to take away the things you buy and keep the jade quartz you earn, you have to rely on your own ability, right?”

The waiter laughed twice and said, “Young Master, look at what you said! Our Forest Shade Town is not far from Empyrean Fox Continent. To tell you the truth, there are some important people from the Empyrean Fox Clan who have relations with us. You can live here with a peace of mind, no one dares to kill people here, you can rest assured!”

Huang Yueli smiled and did not speak, but secretly exchanged a look with Li Moying.

Both of them were people with a lot of experience. After hearing the waiter’s words, they immediately understood the meaning behind.

In Forest Shade Town, no one dares to kill rampantly, so what if you leave this town?

One had to know, Forest Shade Town was surrounded by dense forests, unless one came here by flying ship like them, ordinary people would encounter countless troubles along the way if they wanted to leave here on foot.

If you still had rare treasures or huge sums of money...

Chapter 3477: Forest Shade Town (4)

One could imagine their fate!

However, this also shows from the side that the people who feel that Forest Shade Town comes to make money have a few tricks.

Of course, these people are capable, but only from the perspective of ordinary cultivators. In front of Li Moying and the others, they still needed more work.

While thinking about it, Huang Yueli gave Li Tianyi a wink, signaling him to get straight to the point.

They entered Forest Shade Town this time mainly to understand the surrounding environment and conditions, and to prepare for entering the secret realm. They did not come here to do business!

Although such an underground black market will definitely have some good things, they were short on time and don't want to have any extra trouble.

The reason why she asked a few more questions was purely because Huang Yueli was curious and wanted to know how the underground transactions in the God Realm were different from those in the lower realm.

From the looks of it now, it's pretty much the same...

As soon as Li Tianyi received Huang Yueli's instructions, he immediately understood, and asked, "Brother, I have something else I want to ask you about." He stuffed a piece of top-grade jade quartz into the waiter hand, "Nearby, was there a jade quartz vein thousands of years ago? Moreover, the scale isn't small!"

When the waiter saw the top-grade jade quartz, his eyes lit up immediately!

He looked left and right to see if there was no one there, and quickly grabbed Jingyu and stuffed it into his sleeve. At the same time, the manner in which he looked at Li Moying and the others changed!

Ever since Forest Shade Town had a black market, although rich people often come and go, there were still very few people who are so generous. From this, it can be judged that these people must have extraordinary backgrounds.

To make a living in the black market, the most important thing was to have such knowledge.

People like Li Moying seem to be untouchable by ordinary people, and the waiter's attitude subconsciously became more respectful.

"It turns out that a few of you are here for the jade quartz veins! To be honest, over the past few hundred years, there have been many people who have come to the vicinity of Forest Shade Town to find the jade quartz veins, and a group of them just came last month!"

This was not what Huang Yueli and the others expected.

Because the jade quartz veins were formed when underground energy was absorbed and solidified by special rocks, so they were actually connected underground.

As long as there was a jade quartz vein, there's a high possibility that a second jade quartz vein will appear within hundreds of miles.

It's just that, with a radius of hundreds of miles, it's neither big nor small. It's not easy to explore and verify the exact location. Moreover, the possibility of having a second vein is only very high, and it's not certain.

"So, these people did not gain anything?" Li Tianyi asked again.

The waiter's face changed, and he lowered his voice and said: "It's not just that there is no harvest! Seeing that the Young Masters have given so many rewards, I will say a few more words. Most of the people who came to find the jade quartz veins didn't show up again! I'm afraid they died outside!"

Huang Yueli interrupted and said, "How do you know that they died outside? Maybe they found the jade quartz vein and went straight back to Empyrean Fox Continent."

The waiter said: "You don't know about this! The west of our Forest Shade Town is an evil place. When you are looking for ore veins, don't go near them! Those who look for ore veins mostly die in the On the way to the west, out of Forest Shade Town and all the way west, there are countless corpses on the ground."

Hearing this, Li Moying and others frowned.

The secret realm that they were headed to was just on the west side of Forest Shade Town!

Chapter 3478: Kill Them (1)

The waiter has been working in a place like Forest Shade Town for many years, and he was also a clever person. He had keenly noticed the changes in Li Moying's and the others' expressions.

However, he misunderstood the intentions of several people.

"Dear esteemed guests, don't tell me that you want to go to the west to see it? Many people have the same idea as you. They think that the jade quartz veins have not been discovered for so many years, and the veins must be hidden in the west. This idea is not bad, but, even though jade quartz is good, you have to live to get it! Anyway, I have already warned you that the west side is very dangerous, if you insist on going, it has nothing to do with this little one!"

After finishing speaking, the waiter nodded to a few people and left.

Huang Yueli raised her eyebrows when she saw that there was no one around, and said in a low voice: "It seems that the place we are going to is definitely in the west!"

It's quite normal for a cave manor where an evil cultivator of the Fate Profound Realm lived to have such an evil door. Ordinary cultivators only think that it is where the jade quartz vein is located, and run directly there, wouldn't that be death?

What the shop the waiter said is nothing more than confirming that the map in their hands is accurate.

"Besides, I'm afraid no one has ever entered that place. It's good news for us." Li Moying curled her lips slightly, "In short, we came to the right place."

However, Li Tianyi seemed a little nervous, “Unfortunately, we originally wanted to find out from the residents whether there is any danger in that place and what should be paid attention to. Now we have found nothing, so we can only take things step by step...”

Li Tianyi’s worries were shared by the other three guards.

Their responsibility was to protect the Young Master and Madame, so safety was their first consideration.

From this perspective, the information provided by the waiter was not of much value at all.

Huang Yueli waved her hand, and said nonchalantly: “You guys, you are worrying too much! After all, we have a map in our hands, so it’s different from those guys who went to seek their own death! Besides, how could we get nothing? Didn’t the little brother just say that? There’s a jade quartz vein nearby! Looks like we’re going to get rich!”

Li Moying already knew that his little fox was a little money fanatic. Seeing her sly smile, showing her cute little tiger teeth, he couldn’t help laughing too.

He already knew that Huang Yueli would definitely take a fancy to that jade quartz vein!

This was indeed something they hadn’t thought of before they came here. It can be said to be a windfall.

After hearing this, the four guards were all stunned!

Was there any mistake? The waiter said that so many people died, but their Madame was not worried at all? She still remembers the jade quartz veins!

Although they were extremely shocked, Li Moying had no intention of objecting, and they did not dare to speak casually.

After a quick meal, they left the restaurant quietly, ready to set off.

Originally, they wanted to stay for one more day to take care of themselves. However, this Forest Shade Town was different from what they had expected. There was a mix of fish and dragons, so staying for a long time would not be beneficial.

Not long after the six left, another flying ship landed near Forest Shade Town.

When the flying ship landed, a few people got off and the old man leading was Huang Sanbai!

Beside him, there is also an old lady with white hair, Huang Sanbai’s cousin, Huang Shuangyu, and a middle-aged man, Huang Fuzhao.

Chapter 3479: Kill Them (2)

Like Huang Sanbai, Huang Shuangyu and Huang Fuzhao were both elders of the Sacred Phoenix Clan, and they were both in the middle stage of the Dao Profound Realm.

The cultivation of the two were not inferior to that of Huang Sanbai, and even Huang Fuzhao’s strength was one level higher than that of Huang Sanbai.

However, these two elders were relatively simple people, and they have been devoted to cultivating, and usually seldom intervene in the affairs of the clan, unlike Huang Sanbai who holds real power.

It was precisely because the two of them had little contact with the outside world that Huang Sanbai chose them to help him complete the task of assassinating Li Moying.

After getting off the flying ship, Huang Shuangyu frowned when he saw the dilapidated Forest Shade Town.

“Third brother, are you sure that the god-level genius of the Cloudy Qilin Clan came here? This town is so remote and simple, why did he come here for nothing?”

Huang Sanbai also felt a little surprised, “This... I don’t know. Li Moying’s marriage was opposed by the Cloudy Qilin Clan. He brought the lady from the lower realm and could not return to the family, so he would probably travel around. It’s just that I didn’t expect him to come to such a place...”

“Have we made a mistake?” Huang Fuzhao said coldly.

Huang Sanbai shook his head and said, “That’s unlikely. The flying ship was indeed flying all the way to the north. If they continue to go north, they will go deeper into the Wilderness Lands. The following is a small town called Forest Shade Town. It is already the northernmost human stronghold, and if they continue to the north, their flying ships have nowhere to park...”

Huang Shuangyu has always been impatient. Hearing this, he simply said: “If that’s the case, then don’t talk nonsense. We’ll know when we go in and ask. Anyway, this place is not big, and if any strangers have come, we’ll know as soon as we ask!”

The three elders stepped into Forest Shade Town, and did not forget to pull up their collars to cover their faces.

However, after entering Forest Shade Town, they soon discovered that their previous judgment was wrong.

This Forest Shade Town was not a useless border town as they had imagined. On the contrary, it was full of mystery and weirdness.

Their experience was much deeper than Huang Yueli’s, and they immediately judged that this was an underground black market.

“So, when Li Moying came here, did he think of black market transactions?” Huang Shuangyu frowned.

Huang Sanbai’s eyes lit up because of this!

What he is worried about now is not only to kill Li Moying, but also to kill Li Moying without revealing Huang Yueli’s identity! It’s best to kill Huang Yueli together!

This was very difficult to do.

Although the other two elders don’t care about world affairs, but they can cultivate to the Dao Profound Realm, but no one is a fool!

As long as the two sides fought head-on, Huang Yueli’s identity would be easily revealed.

However, no one expected that Li Moying and the others would actually go to a ghostly place like Forest Shade Town.

The situation here was very complicated, and anyone can appear, especially at night, when the black market opens, everyone will cover up their appearance and hide their true identity when trading, and no one will casually ask about it—this were the rules of the black market!

In this way, it gave Huang Sanbai a good opportunity to secretly attack others without telling the truth...

Huang Sanbai's mind was spinning quickly, and he was about to say something.

Before he could speak, Huang Fuzhao had already reached out and stopped a waiter in the restaurant.

Chapter 3480: Kill Them (3)

"Come here, we have something to ask you."

Hearing this, the waiter rolled his eyes in disdain, "Guest officer, we are running a restaurant here, not a family restaurant. You didn't order something to eat here, but called me over to chat? Forgive me, I can't accompany you!"

Seeing that these three people were dressed like dogs, but they don't understand the rules at all!

If you don't even take care of the restaurant's business, you still have the nerve to ask questions!

Especially with that arrogant tone, he almost snorted and smacked him.

Most of the people who come to Forest Shade Town were low-key and do not know the details, hence few dare to offend the natives in the town.

However, Huang Fuzhao, as the elder of the ancient god clan, was a very noble existence in the entire God Realm and had always been arrogant and domineering.

Hearing the waiter's words, a cold murderous aura flashed in his eyes immediately!

Huang Sanbai reacted and hurriedly took out a handful of jade quartz from the interspatial ring before Huang Fuzhao went mad and stuffed it into the hand of the waiter.

"Young man, we are in a hurry. We don't have time to eat here. We have a few questions to ask you. Please come out with us!"

The waiter was still angry at first, but when he looked down, what Huang Sanbai gave him was actually top-grade jade quartz, and he even gave four or five pieces at once!

This time, he was so happy!

Normally, he would not see a single top-grade jade quartz for a month, but today, he was so lucky that two consecutive groups of guests gave him top-grade jade quartz!

The old man in front of him was extraordinarily generous, and he gave so much in one fell swoop!

This was definitely a local tyrant!

The expression on the waiter's face immediately changed to a flattering one as he nodded and said: "Several nobles, if you have any questions, feel free to ask! This little one know everything and say everything. Exhausted!"

The three elders exchanged glances, led the people out of the restaurant, found an abandoned and empty alley, and carefully checked the surrounding environment to make sure there was no one, and then stopped.

"Let me ask you, have any strangers appeared in your town recently?"

"Strangers?" The waiter was startled, and then said blankly: "Master, what kind of people are you looking for? Then you have to make them clearer! Strangers appear every day in our Forest Shade Town. Especially over the past few days, the black market is about to open, and there are many people coming from all directions."

Huang Sanbai frowned, thought for a while, and then said, "I don't know how many people they are travelling with, but the man and woman leading are very stunning in appearance. The peerless beauty is only about twenty years old."

The waiter couldn't help but let out an "ah"!

Huang Shuangyu suddenly became excited and asked repeatedly: "What? Have you seen these two people? Hurry up and tell me!"

As soon as she became anxious, the pressure of profound energy on her body uncontrollably overflowed a little!

As a powerhouse in the middle stage of the Dao Profound Realm, for an ordinary cultivator like the waiter who is only in the early stage of the Dream Profound Realm, she was really too powerful!

It was just a little force of profound force, and the waiter almost vomited blood!

Huang Sanbai hurriedly stopped her, "Don't worry, let this kid speak slowly!"

The waiter's face was pale, and only then did he realize that he had encountered a terrifying master!
