

Weaponsmith 3491

Chapter 3491: Suspicious Person (2)

Li Moying's sword was extremely fast, and the long sword in his hand was extremely sharp after he had imbued it with his profound strength.

With one blow of the sword, the vine in front of him was cut in two.

And behind the vine, a piece of sleeve fell to the ground.

Obviously, there was someone here!

However, this person's cultivation was obviously not weak. Under Li Moying's sudden burst of sword intent, he even managed to avoid it.

A cold glint flashed by Li Moying's eyes, he flicked his wrist, changed the angle, and continued to attack.

But, the moment he shot...

The nearby ground suddenly shook violently again!

The cracks in the ground that were closed just now also cracked open towards the two sides again!

With another flick of Li Moying's wrist, the angle of the long sword's target deviated a little, but he did not hit the target.

"Damn it!" Li Moying cursed in a low voice!

The ground began to shake more and more violently. Although he could barely stand still and draw his sword, the energy around him became extremely chaotic, and he couldn't use his divine sense to detect the opponent's position at all.

Huang Yueli's expression changed even more, "Moying, hurry up, get out of there! The energy of those spirit beast crystal cores have been exhausted! We must leave here immediately! Otherwise, this forest will sink into the ground and we'll perish as well!"

Li Moying frowned, he looked fixatedly at the vine as he scanned the surroundings, reluctant to leave.

Just a little bit, just a little bit more!

If it wasn't for the sudden exhaustion of the energy of the spirit beast crystal core, which caused the Saint Iniquitous Shadow's array to be on the verge of collapse again, then his sword just now would definitely have stabbed the person hiding in the dark!

Right now, the other party definitely hasn't had a chance to run away, but...

But he couldn't detect the other party's location no matter what!

"Moying—! Come here quickly, the array is about to collapse, it's too late!! You... what are you thinking??" Huang Yueli urged in a flustered voice.

Seeing that Li Moying was not moving, she ran over directly, trying to forcibly drag him away.

Seeing her rushing over, Li Moying gritted his teeth, and immediately appeared beside Huang Yueli.

He stretched out his strong arms and hooked Huang Yueli's waist. With a few taps on his feet, he flew out of the area covered by the array.

Just at the moment the two of them left, the ground in that area completely caved in.

Large cracks formed along the ground and crumbled as everything around caved in alongside, including the trees that were all broken under the violent tremors and fell into the ground.

The rumbling sound was endless.

Huang Yueli and the others couldn't help but cover their ears.

It took a while before the violent tremors gradually subsided.

When everything returned to calm, they all looked back. The place where they stood just now had turned into a pile of ruins.

If Huang Yueli and the others hadn't left in time just now, they must have been buried under countless giant trees. Even if they didn't die, they would be disabled...

Everyone looked at each other, feeling a little scared in their hearts.

Li Moying was even more flustered, clasped the slender waist of the lady in his arms, and growled at her: "Are you crazy? It was so dangerous just now, the array has already started to collapse! You didn't run outside and you evendare to run in the opposite direction?!"

Recalling the moment when Huang Yueli rushed towards him just now, Li Moying felt that his heart was about to stop.

Chapter 3492: Suspicious Person (3)

Being yelled at by her husband, not only did she feel aggrieved, she simply snapped and hollered back at him.

"How dare you talk about me! Who was the person who just stood there foolishly just now, huh?? No matter who was following us, you can't make fun of your own life! Don't you know the consequences once you fall into such a situation? In such an array, physical injury is secondary, and one will definitely be eroded by evil qi after staying for a while, and it would be absolutely impossible to save your life?"

As if to confirm what Huang Yueli said, in the pile of ruins behind them, the fallen and broken tree trunks were all petrifying at a speed visible to the naked eye.

When Li Tianyi and the others saw this scene, their faces turned pale.

The array of evil cultivators were really too evil! There were traps everywhere!

There was no room for mistakes.

Huang Yueli glared at Li Moying angrily, feeling flustered and angry at the same time.

That's how this man was, always relying on his high strength and quick response, he doesn't take his own safety in mind! Had he never thought that such a risky move would make those who care about him so worried!

Moreover, how dare he scold her?!

Li Moying looked at the pair of eyes that were glaring back at him angrily and upon seeing her angry expression, his anger dissipated at once.

At the same time, he also felt a little guilty.

"Uh... this... I'm just..." He met with Huang Yueli's eyes, and hesitantly tried to explain, "Little Li'er, I'm still sure I'll escape at the last moment. I just think, it's just very wasted. It was just a little more and ...I'll be able to drag that person out..."

Huang Yueli interrupted him angrily, "Just a little bit! You didn't almost catch someone out, but you almost died! Besides, what if you caught that person? What? In that case, can you stab that person to death with a sword, or can you run after that person? For someone who is able to hide their whereabouts so well, that person must be a master, you can't deal with it with three or two moves! In the event that you're dragged down by him and miss the opportunity to escape, then...then..."

Huang Yueli's eyes were red with anger, "Do you know what you were doing?!"

Seeing that Huang Yueli became more and more angry, her voice began to tremble, Li Moying felt extremely distressed.

Just now, he was thinking of finding a reason to justify himself, but at this moment, he could no longer care about anything, he could only keep bowing his head to his wife and admit his mistake, just to make her stop being angry.

"Little Li'er, I was wrong, it's all my fault! I didn't think carefully! Don't be mad at me, next time I will definitely listen to you and put my own safety first!"

"There's still a next time?!" Huang Yueli glared at him with her eyes narrowed dangerously.

Li Moying shuddered and said hurriedly, "No, there will be no next time! I promise!"

Huang Yueli's expression became a little better now, but she was still raging within. She glanced at Li Moying from time to time, her eyes were cold, and she was obviously still angry.

On the other hand, Li Moying kept smiling all the time, saying all kinds of sweet words, trying his best to coax her.

As Li Tianyi and the others watched from the side, they were all staring at the scene before them with their mouths agape.

They must have hit their head just now and they were hallucinating! Otherwise, how could they see such a scene?

Where was their wise and majestic Young Master?

Who was this person who was desperately trying to be in the good books of this beautiful woman? They couldn't recognize him.

Chapter 3493: Suspicious Person (4)

Huang Yueli argued with Li Moying for a while, but didn't delay their business.

Her eyes had been scanning back and forth around the position of the array just now, wanting to see if the person following them was still nearby.

However, the trees in the forest were too dense to see what was in the distance.

In addition, the chaotic energy that was running rampant caused by the collapse of the array had not completely dissipated, and it had become impossible to use her divine sense to detect the opponent's position.

She looked at the opposite side thoughtfully, "I wonder if the person who was following is still there?"

When Li Moying heard her change the subject, and saw that she seemed to have calmed down, he secretly heaved a sigh of relief.

He held Huang Yueli's shoulders and gently took her into his arms, then said, "I think that person must have left this area by now. Although we couldn't catch that person, but it is estimated that that person would not dare to follow us in the future."

Huang Yueli nodded, "I think so too. Although I don't know what the other party's background is, since we got rid of him, it's better for us to continue on our way. Staying in place is the most dangerous."

Li Moying nodded in agreement, "Alright, I'll listen to you."

After listening to this analysis, several guards were all at a loss.

Li Tianer asked in confusion: "Young Master, what's this... what is going on here? How can you be sure that you have dumped the person you followed? If he is still nearby, if we continue to go deeper, I am afraid that it's dangerous! Otherwise, it's better for your subordinates to go look!"

Li Tianyi couldn't help but glared at him, "Shut up! Wasn't the lesson learned just now not deep enough? You almost lost your life, yet you are still so impulsive? The judgment of the Young Master and Madame will never be wrong!"

"But..." Li Tianer was scolded and his face was full of grievances.

Huang Yueli didn't care, and waved her hand, "Big Brother Tianyi, there's no need to be so mad at him. In fact, the reason is very simple. Although the person who followed us before was not weak, he obviously did not have the ability to kill all six of us! Otherwise, when Moying attacked him just now, he would have revealed himself and come out to attack us!"

"Uh..." Li Tianer was stunned for a moment, then suddenly showed a look of surprise, "What Madame said is very true!"

However, Huang Yueli's analysis was not over yet, and she continued: "Besides, this person seems to be unfamiliar with the methods of evil cultivators. If he understands the surrounding terrain and arrays, While Brother Tianer was petrified just now, we were all busy saving people, he could take action on us, we were not prepared at that time, if we were suddenly attacked by him, it would definitely be a disaster!"

"Therefore, the only explanation is that he doesn't understand the arrays either, and is afraid of rushing in to attack us. If he takes a wrong step, he will be invaded by evil qi and turn into a stone statue!"

"The opponent's strength is not as good as us, and he has no map in hand, and now he has exposed the fact that he is following us. If he still insists on following behind, then the dangerous person is not us, but himself!"

When Li Tianer heard this, he was already convinced.

"Madame, you are really amazing... No wonder even the Young Master obeys you! Subordinate is really convinced!" He said from the bottom of his heart.

Li Tianyi glared at him, "I told you earlier that it was only Madame who could save you!"

Chapter 3494: Suspicious Person (5)

In fact, Li Tianer still doesn't know how he was rescued before.

He was the only one who lost consciousness due to the evil qi entering his body. He didn't even know what was happening around him.

When Li Tianyi saw his foolish appearance, he quickly dragged him aside to educate him.

Li Moying looked at his little fox and showed a smile, "Alright, if there is no problem, let's set off now! Is the map with you?"

Huang Yueli took out the map from her pocket, opened it and pointed at one spot.

"Did you see? The location where we were almost in danger just now is...here! The dangerous location has been marked on the map, but there are still some people who don't obey commands and rush over by themselves..."

Li Tianer laughed wryly and was too ashamed to speak.

Huang Yueli didn't look at him at all, but muttered thoughtfully while looking at the map, "If we follow the route marked on the map, we'll go straight through this route, avoiding the positions ahead, hmm, we should be able to enter the secret realm smoothly. But now there is a problem..."

Her delicate brows furrowed slightly, "We had no choice but to destroy one of the array eyes, thus changing the flow direction of the heaven and earth profound energy in the forest. Will it be affected, we will not know. I am afraid that something unexpected will happen..."

Li Moying heard the words, pursed his lips, thought for a moment, and asked, "Then, can we change the route? If we go around here, here, and here, I wonder if it can be done?"

His fingers lightly slid across the map, outlining a new route.

Huang Yueli's eyes lit up immediately, "What you said makes sense! If this is the case... Well, there may be fewer variables encountered, but it will take a lot of detours..."

"It doesn't matter if it's farther away. It only takes a day or two longer to go around. It's better than encountering unpredictable dangers on the road. Besides, if we changed our route suddenly, the person who followed us might lose their target."

Thinking of the mysterious follower who escaped his attack earlier, Li Moying still felt a little uncomfortable, "I always feel that this guy is not an ordinary robber, maybe he won't give up easily!"

Although Li Moying was not a chosen one like Xia Yunxi, he usually does not have the ability to predict.

However, he has a sense of crisis that only a top genius can have, and can keenly perceive many potential dangers.

Huang Yueli actually felt the same way.

So, she nodded resolutely, "Alright, then let's take this longer route! Let's go!"

Li Moying turned her head and glanced at the four guards behind her, "You all follow closely, no one is allowed to act without my order! Otherwise, you will bear the consequences!"

All four of them shuddered, "Yes, this subordinate understands!"

Li Moying took Huang Yueli's little hand and walked side by side with her.

...

And on the other side of the array, deep in the dense forest.

Huang Sanbai was hiding behind a huge rock, panting desperately.

It took a while before he felt calmer, and raised his hand to wipe the cold sweat from his forehead.

"Damn it, what kind of hellish place did Li Moying and the others come to, I almost lost my life!"

Chapter 3495: Suspicious Person (6)

After Huang Sanbai interrogated the waiter and killed him, he decisively left Forest Shade Town and came to the dense forest to the west.

He guessed that Li Moying and Huang Yueli had discovered a hidden secret realm, and there was a high possibility that they were on their way to the secret realm!

This kind of speculation made Huang Sanbai's whole body boil with enthusiasm, he couldn't wait to find Huang Yueli and immediately kill them, and take the secret treasure they found for himself!

However, he still managed to retain some reason. After a short period of excitement, he gradually calmed down and knew that this matter could not be rushed.

Neither Huang Yueli nor Li Moying were easy. If he acted rashly, he might lose it all!

However, he could no longer stay in Forest Shade Town and wait for news. If Huang Yueli finds the secret realm early and enters it, it will not be so easy for him to find them.

Therefore, Huang Sanbai left Forest Shade Town while no one was paying attention.

He headed west for a while, and soon saw the corpses lying under the big trees.

Huang Sanbai's experience was very rich, and he naturally knows that there are many dangers around here, and he can't go forward at will. Just when he was wandering, not knowing whether he should go back first, he saw the figure of Huang Yueli and her group and immediately hid behind the tree.

Huang Yueli's guess was not bad at all.

Huang Sanbai originally thought of attacking while Huang Yueli was not paying attention, but seeing Li Tianer instantly turned into a stone statue, Huang Sanbai was frightened!

He huddled in the bushes without daring to move.

It was only when Huang Yueli and the others temporarily controlled the nearly collapsed array and were about to leave the area, Huang Sanbai moved a bit, ready to follow.

Who knows, just like this, Li Moying at the end of the team discovered the abnormality!

The moment Li Moying drew his sword towards his hiding place, Huang Sanbai's heart almost stopped!

He never dreamed that the speed and power of Li Moying's sword had actually increased so much! Compared with the time he met him in Sacred Phoenix Continent a few months ago, there has been a qualitative leap!

Fortunately, Huang Sanbai was a strong practitioner of the Dao Profound Realm after all, so he managed to avoid the attack, however it was a close shave.

At this moment, he had already begun to deeply regret his underestimation and imprudence!

When Li Moying was in the early stage of the Heart Profound Realm, he was able to use the summoning of the Little Qilin to force him back, and he could also join forces with Jun Sihan to kill the powerhouses in the middle stage of the Sky Devil!

Now, Li Moying's cultivation base has clearly entered the middle stage of the Heart Profound Realm!

In addition, Li Moying also has a monstrous Huang Yueli beside him!

Although that little girl was young, she didn't cultivate as long as Li Moying, and she didn't get the family resources of the Sacred Phoenix Clan. However, she was also a god-level genius after all!

Only Heavens know if her current strength has improved?

Facing the enemy, Huang Sanbai wanted to kill both of them at the same time, which was definitely not an easy task.

Wanting to understand this, Huang Sanbai regretted coming here so rashly.

Once his identity is revealed here and Huang Yueli's vigilance is aroused, it will be even more difficult for him to kill them! Therefore, he can only choose to dodge as much as possible without exposing it.

However, the speed at which Li Moying drew his sword was too fast!

Even Huang Sanbai felt that he couldn't keep up with Li Moying's speed and was forced into danger by him!

Chapter 3496: Going to Make A Fortune (1)

In the end, because the array suddenly collapsed for the second time, Li Moying had no choice but to retreat, which allowed Huang Sanbai to find an opportunity to escape from Li Moying's grasp narrowly.

Huang Sanbai made adjustments, waited until the tremors on the ground had completely stopped, and looked back. However, Huang Yueli and Li Moying had long disappeared by then.

"This is troublesome... It's almost dawn, it seems that I can only go back first!"

...

Huang Yueli and Li Moying led the four guards forward along the new route.

This route was very different from the optimal route they planned at the beginning, but it seemed much safer, and there were fewer corpses on the roadside than they had seen before.

However, there were still various crises lurking on the road. Although everyone was careful along the way and strictly obeyed Huang Yueli's command, there would still be cases of ill-considered situations.

Fortunately, these small accidents did not cause too much damage.

After continuing to advance for a day and two nights and killing several high-level spirit beasts, Huang Yueli finally stopped.

"If I'm not mistaken, the entrance to the secret realm should be around here." She held her chin, her gaze was solemn.

The guards were a little surprised and turned their heads to look around.

"Are we really going to get there? But...it doesn't look any different from other places in the dense forest, does it?"

"That's right, besides, there are no corpses in the vicinity for five or six miles, which means that the vicinity is still very safe. Do you think that Saint Iniquitous Shadow has arranged so many traps and arrays so he is easing them as they are nearing the periphery of his abode?"

Everyone was full of doubts.

Only Li Moying didn't ask any questions. He just looked at the girl beside him with those charming peach eyes, and his eyes were filled with tenderness and trust.

From the beginning to the end, he believed in all of Huang Yueli's judgments. No matter how strange and unreasonable it seemed to outsiders, he also believed that his Little Li'er would not make a mistake.

Huang Yueli said confidently: "The location of the entrance marked on the map must be right here! There are no corpses around. This abnormality just shows that there are unusual secrets hidden in this area! From the distribution of arrays around, according to the current situation, what's here should be the source of the evil qi in the outer arrays..."

As she spoke, she raised her eyebrows, and glanced at Li Tianer with a half-smile.

"That is to say, the level of evil qi here is much higher than that of the outer area! It's just that we can't feel it when we are in it. However, if Brother Tianer takes a wrong step here, I'm afraid it won't happen at all." There is a process of petrification, and it will turn into a pile of dust in an instant..."

Hearing this, Li Tianer couldn't help shivering.

Just imagining such a scene makes one's heart tremble.

The guards all shivered. They put up all their energy and put on a defensive posture. They were still a little bit slack and tired just now, but now they're gone!

Li Moying curled his lips amusedly.

He could see that although it was dangerous here, it was not as exaggerated as what Huang Yueli said. She mainly wanted to scare Li Tianyi and the others.

After scaring the guards, Huang Yueli picked up the map and continued to study it.

"This is the source of evil qi, and the way to open the entrance is closely related to the surrounding arrays..."

Chapter 3497: Going to Make A Fortune (2)

"However, after we destroyed an array eye earlier, it also affected the flow of evil qi at this source... It seems that I can't easily open the entrance, and I have to recalculate..."

Huang Yueli muttered to herself with a focused expression.

Although she didn't speak clearly, the guards all understood.

Knowing that it was the array they destroyed just now, it also affected the surrounding environment, causing unpredictable changes.

Several people looked at each other, and couldn't help admiring Huang Yueli even more in their hearts.

If it weren't for their Madame here, they wouldn't have thought so much at all, and would have followed the method marked out on the map to open the entrance without second thoughts.

In this way, no one knows what kind of unexpected situation will happen.

The most likely scenario was that everyone would be immediately invaded by evil qi and turned into stone and may even crumble into dust by now...

Huang Yueli took out the array disk again and kept calculating.

Originally, the guards thought that it would take less than half an hour for Huang Yueli to come out, and the crisis this time could be easily resolved again.

However, this time, Huang Yueli spent a long time calculating as she went back and forth many times.

Everyone didn't dare to move, for fear that they would be turned into ashes, so they stood in place and waited for Huang Yueli to complete the calculation.

As a result, one hour, two hours, three hours passed, and Huang Yueli was still walking back and forth muttering words.

The legs of the guards were all stiff, but when they looked back at Li Moying, they found that their Young Master was standing there calmly, his eyes following Huang Yueli, and there was no trace of impatience on his face.

In this way, no one dared to complain, so they could only wait obediently.

Finally, Huang Yueli stopped and exhaled a long breath.

"I finally understand... Huh... This array is really too complicated..."

Huang Yueli also revealed a trace of tiredness on her face.

For such a long time, repeated calculations with a high degree of concentration will consume a lot of mental power.

The person who had it the hardest was Huang Yueli herself!

Li Moying looked at her tired face in distress and said in a low and magnetic voice: "Is there a way to open the entrance to the secret realm? What do we need to do?"

Huang Yueli said: "Actually, opening the entrance itself is not complicated. There are several traps buried here, and each trap is inlaid with a devil stone of a Sky Devil top exponent. Removing the devil stone will close the surrounding hidden traps and reveal the entrance. However, the order of removing the devil stone is different from the one marked on the map..."

As she said that, she looked at Li Moying again, "By the way, there is one more thing, because these devil stones are left by the Sky Devil top exponents, so they need cultivators above the Dao Profound Realm to remove them successfully. Brother Tianyi and the others don't have the ability, Moying, you..."

Huang Yueli wanted to ask Li Moying if he had any confidence.

However, before she could speak, Li Moying nodded slightly, "I understand, leave this matter to me!"

Huang Yueli immediately swallowed the question back.

As long as Li Moying said that he had no issues, it meant he had the confidence. If he was not sure, he would never talk nonsense.

Huang Yueli said: "Since this is the case, then you follow me, let's go together..."

Before she finished speaking, Huang Yueli suddenly felt her waist tighten, and her feet left the ground.

She was actually hugged by someone!

Chapter 3498: Going to Make A Fortune (3)

"Ah—!" Huang Yueli was taken aback and turned to glared at Li Moying, "You... what are you doing? Let me down!"

Li Moying looked at the faint shadow under her eyes with distress, and whispered: "Don't think I didn't see it, you spent too much mental energy and you can't stand still? You almost fell on a stone just now..."

Huang Yueli didn't expect that her foot was bruised just now, but it was just a small episode, which was also noticed by Li Moying.

Her heart suddenly warmed, but after seeing the guards behind Li Moying who looked up at the sky very awkwardly, her face flushed again.

She pushed Li Moying's chest, "That's just... it's just that I didn't stand firm for a while. I'm all right, you let me down! Without me taking you away, you would easily step on the wrong side. Wherever you go, it's dangerous!"

However, Li Moying held her firmly with both hands and did not move.

Huang Yueli's strength acting on him was like tickling him.

"You just tell me how to go, I will never go wrong."

"But..."

"Look, it's getting dark, don't waste any more time."

Hearing this, Huang Yueli couldn't help but glared at Li Moying angrily again.

This man had the audacity to say that she wasted time!

Who the hell picked her up suddenly? If it wasn't for his whim, they wouldn't have to argue here at all, alright?

Li Moying was stunned by his little fox, but he was very thick-skinned and showed no guilty conscience at all. He still looked directly at his beloved wife in his arms with a firm attitude.

Helpless, Huang Yueli could only cover her face, pretending that Li Tianyi and the others didn't exist, "Then... that's fine. But you must listen to me and don't go wrong! Otherwise, we will all die. It's gone!"

Li Moying glanced at her disdainfully, "You said this because you don't believe in your husband's strength?"

Huang Yueli pursed her lips and snorted, "Your strength is no problem, but if you love to be brave, that's all!"

Li Moying was quite nervous at first, but after hearing this, she immediately shrank her neck in guilt.

The day before yesterday, when they had just entered the Wilderness Lands, he was almost buried by the array because he was eager to catch the person who was following them...

"Alright, alright, I'll listen to you! When did I not listen to you?" Li Moying raised his chin arrogantly.

Looking at the man's pursed lips, Huang Yueli couldn't help but laugh a little.

"Alright then, let's take three steps to the southeast first..."

Huang Yueli lay in Li Moying's arms, commanding slowly.

Li Moying was of the same mind with her, and he could fulfill every instruction of Huang Yueli's perfectly, without the slightest mistake.

Huang Yueli was still a little worried, and stared at Li Moying's feet nervously.

However, after Li Moying took a dozen steps, she was completely relieved.

As soon as her mind relaxed, her body also relaxed.

She adjusted her position in Li Moying's arms, and leaned comfortably against his muscular chest, the corners of her mouth raised slightly.

She was really lucky to have found a husband like this, he could do everything, and also listened and respected her...

"East... Take off the devil stone on the right, don't move the one on the left... Then take three steps to the southwest... Alright, here it is..."

Chapter 3499: Going to Make A Fortune (4)

Under Huang Yueli's command, Li Moying easily removed seven or eight devil stones.

As these devil stones decreased one by one, the evil qi that filled this area gradually became thinner.

Finally, Li Moying hugged Huang Yueli and came to the front of the last devil stone.

He stretched out his hand, about to take off the devil stone...

At this moment, Huang Yueli's whole body trembled suddenly, her body tensed up in Li Moying's arms, she raised her hand to grab his sleeve, and sat up.

"Moying, wait a minute!"

Li Moying's fingers were less than an inch away from the devil stone, but he still stopped in time when he heard Huang Yueli's voice.

He withdrew his hand and looked at the girl in his arms with a puzzled expression, "Little Li'er, what's going on? Is there something wrong?"

Huang Yueli didn't answer his question right away, but turned her head to observe the surrounding environment, her delicate brows were slightly frowned, and she was holding hand formulas in her hands, as if she was calculating something.

Seeing this, Li Moying didn't make another sound, but just waited quietly.

After a while, Huang Yueli leaned back into his arms and said in a low voice: "There are more than a dozen arrays superimposed around this area, and they are all high-level arrays unique to evil cultivators. The situation is very serious. It's complicated. I can't be sure whether all the changes can be deduced. The current situation is different from what I expected at the beginning..."

Li Moying raised her eyebrows, "It's different? What's different?"

Huang Yueli said: "To put it simply, there are a total of 18 devil stones from the Sky Devil clan of the Sky Devil top exponents, which together form the array. You have already taken 17 of them, and only one is left. Logically speaking, the rest of the evil qi should have dissipated, and it is almost impossible to feel it. But now, the evil qi has only become a little thinner, and the power is still very strong..."

Li Moying actually felt the same way, but he never said it out loud.

Hearing what Huang Yueli said, a glint flashed by his eyes, but there was not much panic on his face.

"So, what should we do next? Put back the removed devil stone, or...continue to take the last devil stone?"

No matter how the array works, there are actually not many choices before them, nothing more than these two.

Huang Yueli also understood this.

After thinking for a while, she said decisively, "We'll continue to open the entrance to the secret realm!"

It was obviously unwise for them to get to this point with great difficulty and give up halfway.

Moreover, for such a complex array, once the process of opening the entrance to the secret realm begins, if you want to temporarily stop it, you may be backlashed instead!

Whether it is advancing or retreating, there are still great risks anyway.

Since that's the case, it's better to just move on, maybe the situation is not as bad as they imagined!

Li Moying nodded, "Alright, I think so too."

The two looked at each other, and neither spoke again.

Li Moying immediately took a step forward, stretched out his right hand again, and reached for the last devil stone.

The slender and strong fingers pinched the almost transparent core, and gently lifted it upwards.

Following Li Moying's movements, there was a rumbling sound on the ground, accompanied by weak vibrations.

Dust kept flying up from the ground.

Huang Yueli and Li Moying stood too close to the entrance, and they were the first to bear the brunt of it, being choked by the flying dust and ended up coughing.

Chapter 3500: Going to Make A Fortune (5)

There was now a cloud of dust in front of their eyes.

They waited until it dissipated a little before they narrowed their eyes and looked forward.

Right before their eyes, a ball of silver light appeared.

This ball of light was not too big, with a diameter of only about two meters. It can't accommodate three people standing side by side.

However, from the inside of the light sphere, a strange energy was continuously released. This energy was not ordinary heaven and earth profound energy, but it is not purely evil, which makes people feel very uncomfortable.

"This should be the entrance to the secret realm..." Li Moying said in a low voice.

Huang Yueli raised the corners of her mouth and smiled like a little fox, "Finally... finally found the entrance! Luckily nothing happened!"

As she said that, she turned her head and waved to Li Tianyi and the others, "Let's go in now! This entrance should disappear soon, so everyone hurry up! By the way, you must remember to step on Moying's footprints, don't get it wrong!"

The four guards nodded hurriedly and walked towards them quickly.

Holding the girl in her arms, Li Moying stepped into the ball of light.

However, no one expected that at the moment when the figures of Li Moying and Huang Yueli entered the ball of light, a sudden change occurred!

The entire ball of light suddenly became extremely bright, and the overflowing energy escaped outwards, as if it might explode at any time!

At the same time, Huang Yueli let out an exclamation, "Devil stones...these devil stones!!!"

Since she was holding his own little fox in his arms, all the devil stones that Li Moying took down were handed over to Huang Yueli, who kept holding them in her palm.

The moment they entered the ball of light, these devil stones suddenly flew out of her hand at the same time, flying directly towards the ball of light!

And after the ball of light absorbed these devil stones, it became so bright that people couldn't even open their eyes!

Not only that, a huge coercion radiated from the outside of the light sphere inward, and gradually became stronger and stronger.

Li Moying and Huang Yueli, who were in the center of the light sphere, suddenly felt a pain in their chest, and the pressure doubled!

Li Moying squinted his eyes, and his first move was to protect Huang Yueli into his arms, bearing the powerful pressure in the ball of light for her.

Being embraced tightly by Li Moying, she poked her head out of his arms.

"There is indeed something strange about this entrance..."

Li Moying frowned slightly, "I've never encountered such a situation before, the evil cultivator's abode is indeed evil enough! However, it doesn't seem to be too dangerous..."

He could feel that the coercion in the sphere of light increased rapidly in a short period of time, but after rising to a certain level, it suddenly stopped and remained at a fixed intensity.

This kind of intensity puts enormous pressure on ordinary Heart Profound Realm cultivators.

However, being a god level genius, it was not too difficult to bear.

Huang Yueli also felt this. With the blink of an eye, she found that the devil stones that flew out of her arms just now did not disappear, but were neatly arranged in a ring around the outside of the ball of light, like a belt, ringing the light sphere in the middle, and at the same time, it was still flashing non-stop.

But outside the sphere of light, Li Tianyi and the others' complexions changed abruptly, and they all spat out a mouthful of blood!

"This...the evil qi here..."

In the area near the light sphere, the evil qi had become thinner due to the removal of the devil stone, but now, it has become stronger than before!
