

## Weaponsmith 3511

### Chapter 3511: Isn't This Courting Death? (4)

The No. 1 killer organization in the God Realm claims to be able to kill any kind of expert, so the fee was naturally No. 1 in the God Realm!

Even for experts in the Dao Profound Realm like Huang Shuangyu and the others, this was not a small sum!

Huang Sanbai shook his head, "This mission is very important to the clan, there is nothing wrong with being careful! God knows if Li Moying will have any treasures that's heaven defying! You two should also be careful, once you see Li Moying and the others coming out, immediately send me a message, and I will rush over with the Dark Lord's people!"

Huang Shuangyu didn't really approve of hiring external help but seeing that Huang Sanbai insisted so much, they couldn't say anything more.

"Alright then, Third Brother, let's go there and watch. You just wait for our good news!"

After Huang Shuangyu and Huang Fuzhao left, Huang Sanbai's face suddenly turned gloomy.

"Second Sister, Elder Zhao, I didn't want to hurt you, but it's a pity... Who made you so unlucky to have to take on such a task?"

He glanced coldly outside the door and made sure that there was no one in the corridor, so he immediately put on a black cloak and stepped out!

He went straight to the location of the emblem of the Dark Lord branch.

What he said to Huang Shuangyu and the others just now was not entirely a lie.

From the outside, the branch of Dark Lord looks like a dilapidated and dangerous building. It seems that it will collapse anytime and anywhere. The gate was even covered with spider webs, making people afraid to approach.

Only a master with extensive knowledge can recognize the emblem of "Dark Lord", and recognize that this was one of the top forces in the God Realm!

Huang Sanbai walked straight to the door, the window beside the door suddenly opened, and a cold voice came out: "Who? We don't welcome outsiders, hurry up and leave!"

Huang Sanbai's expression did not change, "This old man is here to discuss a business with you..."

"We only do big business here, and ordinary people can't afford to pay!"

"What this old man wants to buy is the life of the only god-level genius in the God Realm! Is this deal... big enough?" Huang Sanbai said slowly with a cold face.

When the people inside the window heard this, they seemed to be a little stunned, and didn't speak for a long time.

Huang Sanbai did not rush to speak again, but waited quietly.

After a while, the dilapidated door creaked open...

Huang Sanbai sneered and walked in.

...

Inside the secret realm of the Saint Iniquitous Shadow.

Huang Yueli and Li Moying didn't know anything about the impending crisis.

The two walked hand in hand to the hut in the middle of the secret realm, followed by the two cubs of divine beasts bouncing noisily behind them.

They were still some distance away from the door of the hut when they heard the noise coming from inside.

The two hurriedly pushed the door and entered. As soon as they entered, they were blinded by the scene in the room!

From the outside, this room doesn't look very big, but in fact, it has been transformed with an array method, and it was very spacious.

And in such a large space, all kinds of treasures were piled up everywhere.

In the whole row of cabinets on the left, there were all kinds of small bottles densely arranged, with the names of medicines written in red on them, and they all looked like medicinal pills.

In the cabinet on the right, book after book were neatly lined up, Huang Yueli glanced at it quickly, and found that among these books, there was no shortage of various attributes.

What made her heart speed up was that on the last cabinet, there were still things she needed most!

Chapter 3512: Bringing Home Tons of Stuff (1)

Huang Yueli's eyes lit up and she immediately let go of Li Moying's hand, and rushed to the front of the cabinet in the corner at the end of the room.

She opened the cabinet door and reached in excitedly.

"Ouch!" Huang Yueli exclaimed in surprise!

Her hand didn't touch what she wanted to take, but was bounced back by the protective array outside the cabinet. Fortunately, she reacted fast enough and retreated in time, otherwise, she might have suffered serious internal injuries!

"Little Li'er, how are you?"

Hearing Huang Yueli's cry, Li Moying immediately appeared behind her, and took her into his arms.

He squeezed Huang Yueli's little hand and checked it carefully, his brows also wrinkled, "What the hell did you do? Can't you be more careful? There are many dangers in the secret realm, and this is not the first time you have entered the secret realm, don't you even know this? How dare you reach out and go in!"

Li Moying scolded his beloved woman who was in his arms angrily, but the movements of checking her little hands were very gentle.

Knowing that she was wrong, Huang Yueli stuck out her tongue, blinked her big eyes, and tried to use her cuteness to get out of trouble, "I saw that... I was so excited all of a sudden... I'm sorry, I'll pay attention next time!"

"You mean that there's a next time?!" Li Moying glared at her.

Huang Yueli immediately shrank her neck again.

Oh, no, I said the wrong thing again!

She quickly pretended that nothing happened, turned to look at the contents in the cabinet, stretched out her uninjured hand, and pointed to the middle of the cabinet.

"Moying, look at it! This is the conception illustration of the fire attribute! Judging from the aura escaping from the outside, it is not bad at all compared to our Sacred Phoenix Clan's <Mystic Nine Skies Phoenix Painting>! I didn't expect that Saint Iniquitous Shadow actually collects so many conception illustrations! Look at that, the thunder attribute! Wow, there are all the attributes! As expected of a powerhouse in the Life Profound Realm, he is really rich and powerful!"

Huang Yueli stared at the fire attribute conception illustration, the more she looked at it, the more satisfied she became.

She didn't return to the clan, so she couldn't comprehend the conception illustration, which led to the slow progress of the cultivation realm. For Huang Yueli, it was extremely suffocating!

Unfortunately, she hasn't found a chance to solve it.

Unexpectedly, this time coming to the secret realm of the Saint Iniquitous Shadow, she had actually gotten hold of a fire attribute conception illustration!

This was truly a surprise!

To comprehend the conception illustration at the clan or allied armies headquarters, one must also contribute points in exchange for qualifications. There will also be strict regulations on the time for loaning it. It can be said that it was not free at all.

However, it's completely different when you have your own conception illustration!

You can comprehend it wherever you want, whenever you want.

As long as you want to comprehend, you can comprehend as long as you want!

It doesn't get any better than this!

Huang Yueli was excited for a while, and almost forgot that she was in the abode of Saint Iniquitous Shadow, so she stretched out her hand, which caused the accident just now.

Li Moying saw her excited glint in her eyes, and couldn't help but sigh, his little fox wants to be strong, but he likes this about her!

He grabbed Huang Yueli's outstretched little hand, tightened the arm resting on her waist, and whispered in her ear: "I see, isn't it a conception illustration? Since the thing is here, think slowly. The way to break the array is to take it out, why are you so excited?"

"Uh, aren't you excited?" Huang Yueli blinked in surprise.

After she calmed down for a moment, she noticed that not only Li Moying, but even the four guards were not very excited.

Chapter 3513 Bringing Home Tons of Stuff (2)

Huang Yueli thought about it and understood.

Well, she was the only one here in the Profound Realm!

Although there was also a conception illustration of the thunder attribute, it was completely useless for Li Moying and the others, and they can only be used to sell money or exchange the contribution value of the family and the coalition...

Thinking that she was actually the one with the worst cultivation in this group of people, Huang Yueli felt a little depressed.

At the same time, she has also strengthened her determination to get hold of this conception illustration and cultivate well!

She looked up and down the cabinet, her eyes wandered repeatedly on the pattern engraved around the cabinet, looking for a way to crack it.

After a while, she took out the array plate from her space to help her calculate and deduce.

Li Moying watched from the side for a while, and saw that Huang Yueli was fascinated, so he didn't bother her anymore, but turned to the other side to look at other things in the room.

He looked for the four guards, and at this time, they were surrounding a box and discussing.

Li Moying walked over, "What are you talking about here?"

As soon as Li Moying appeared, several guards hurriedly got up, lowered their heads, and replied respectfully.

"Young Master, this box is placed on the top shelf. It looks quite precious from the outside, so subordinate wanted to open it to see what was inside, but none of us can find a way."

Li Moying lowered his head, looked at the large box on the ground and frowned slightly.

This box itself was made of Profound Star Stone, and the material of the box was already very valuable. It made one think that the value of the treasures inside would be even more valuable.

However, the structure of this box was very simple, it was nothing more than a padlock, and there was only a simple pattern around it.

This array pattern was too simple, even an ordinary cultivator in the God Realm could easily recognize it, but it was only the most basic sealing array.

Generally speaking, as long as a cultivator's profound strength was strong enough to reach a certain level, it could be broken with brute force.

To open such a lock, it was easy yet... also difficult!

Because, the upper limit of profound energy required to open the box was determined by the sealer's own strength!

The Saint Iniquitous Shadow was a powerhouse in the Fate Profound Realm, so this box...

Li Moying glanced at a few guards and asked, "Have you tried opening the box just now? How do you feel?"

Li Tianyi replied: "The subordinate came in and tried it. However, when the subordinate entered profound energy, the pattern did not change at all! Later, the four subordinates tried it together again, and the result was still the same, nothing has changed..."

Li Tianyi and the four of them mastered a set of combined strike techniques, and when they used them, they could reach the sum of the profound strengths of the four of them. When added up, they were equivalent to the profound strength of a cultivator at the peak of the Heart Profound Realm!

Even if it was compared with the cultivators in the early stages of the Dao Profound Realm, there was not much difference.

With such a huge amount of profound energy imbued, there was actually no change at all?

Li Tianer also said in a low voice: "Subordinate think that this box probably needs the strength of the Fate Profound Realm to open it! It seems that we can only move the box away first and bring it back to the clan, then ask the elders to help... .."

Li Tiansan and Li Tiansi also nodded in agreement.

Li Moying frowned and did not immediately agree with this opinion.

According to common sense, the Saint Iniquitous Shadow himself was in the Fate Profound Realm, and the box used to hold important treasures can only be opened by those who are strong in the Fate Profound Realm. This was a more reasonable thing.

But for some odd reason, Li Moying always felt that something was wrong.

Chapter 3514: Bringing Home Tons of Stuff (3)

Besides, he didn't intend to go back to the clan and bow down his head to seek the help of the Elders for the sake of a box.

Before the Cloudy Qilin Clan admitted his relationship with Huang Yueli, he didn't plan to go back to the Amethyst Paramount Palace at all.

Li Moying's eyes were cold, he stared at the box while contemplating when he suddenly said, "You guys get out of the way, let me try!"

Li Tianyi and the others were stunned. They obviously didn't expect that they had already explained the situation clearly just now yet Li Moying would want to try again!

However, they didn't dare to stop him and they all stepped back.

Li Moying stepped forward, placed his hand lightly on the top of the lid, and began to imbue profound energy into it.

The four guards stared at the box without blinking, for fear of missing any detail.

Li Moying stood in place while he carefully imbued his profound energy bit by bit, following the inscription on it and as they were channelled along the lines and soon, all the intricate lines were filled with his profound energy.

However, there was no change at all, let alone open.

Li Moying frowned slightly, running the profound energy in his body, increasing his input even more.

Time passed little by little, and Li Moying imbued more and more profound energy, but the box still stood steadily on the ground, steady like a rock.

Not knowing how long it took, when suddenly, the box shook abruptly and made a light sound.

A few guards were all startled and quickly gathered around.

"Young Master, it takes too much profound energy to open this box! You...don't force it!"

"Yes, Young Master, this box is particularly evil, and it will absorb a part of the profound energy imbued into it. If you input too much energy, you may be attacked! That would be too dangerous!"

"Young Master, this box won't run away anyway! We can move it first and then open it..."

The few of them each added some words nervously, trying their best to persuade him.

They were all worried that Li Moying would take risk into his own hands and use up all his profound strength. If there were other traps in the box, it would be troublesome!

If Li Moying was injured because of this, these guards would not be able to shoulder such a responsibility!

Several guards were full of anxiety, all nervous about Li Moying's safety.

However, Li Moying didn't seem to hear their words. He still put his hand on the lid of the box and didn't move at all. Although the furrow between his brows deepened and beads of cold sweat began to appear on his forehead. Obviously, a lot of profound energy has been consumed, and his body could no longer support it!

However, he was still imbuing profound energy!

Several guards were so anxious that they could not wait to go up and pull him away in person!

But at this moment...

A loud bang came!

The inscription engraved on the outside of the box suddenly lit up at the same time!

With the sound, the lid of the box popped up.

Li Moying slowly withdrew his hand, said nothing, and squatted down to look at the contents of the box.

Several guards stared at this scene in amazement, unable to even utter a word!

“This... Young Master, how did you do this?!”

“How is that possible? This is a box that only the experts in the Life Profound Realm can open!”

Although Li Moying’s guards adored him and believed in his strength and talent, the scene in front of him was too incredible!

Chapter 3515: Bringing Home Tons of Stuff (4)

How could it be possible for someone in the mid-stage of the Heart Profound Realm to have as strong a strength as a peerless powerhouse in the Life Profound Realm?

This spanned across two great realms!

How could there be such an outrageous thing in the world? ?

When the few people were looking at each other, suddenly, a crisp voice came from behind them:

“What happened just now? What are you all watching here with your mouths wide open?”

The four of them suddenly turned their heads and saw Huang Yueli’s incomparably charming little face appearing behind them.

She walked over slowly from not far away, blinking her big eyes, her face full of curiosity!

The sound emitted when the box was opened just now interrupted her thoughts and made her notice the situation here.

She was afraid that Li Moying would be in danger, so she hurried over. However, after getting closer, she found that there didn’t seem to be any danger here, but it looked like a scene of opening treasures?

Several guards quickly made way for her.

Li Tianyi explained in a low voice: “Madame, Young Master, he actually...opened the seal and restriction set by an exponent in the Life Profound Realm! This...is simply too terrifying!”

“The seal of an exponent in the Life Profound Realm?” Hearing this, even Huang Yueli was taken aback!

She knows Li Moying’s strength best.

To say that Li Moying was stronger than some weak Dao Profound Realm experts, she will not have any doubts, but to say that he could actually compare with the Life Profound Realm experts...

This...she didn’t believe it was true either.

Huang Yueli quickly glanced at the box on the ground.

She was more familiar with these array inscriptions than Li Moying, and she recognized it at a glance. This was indeed the basic sealing array.

When Li Moying heard the voice of his little fox, he quickly urged her over: “Little Li’er, come and have a look, there are many good things here! Look at this sky crystal spirit jade, didn’t you mention it last time, saying that you can raise the grade of the armament, but is it extremely rare? There is such a big piece in it!”

“What.... What did you say?! Sky crystal spirit jade!!”

When Huang Yueli heard this, she was elated and rushed to Li Moying’s side in excitement.

The two of them squatted together, getting very close, and rummaged through the contents of the box together.

This was indeed a treasure chest specially collected by the Saint Iniquitous Shadow. There were indeed a lot of treasures in it. In addition to rare materials, there were also several unique profound techniques written by the Saint Iniquitous Shadow himself!

The value of this was much higher than the piles of cheat books of various attributes outside!

The unique profound skills of every Life Profound Realm expert cannot be copied, and some cultivators won’t even teach them easily to their disciples.

They haven’t heard of any personal disciples left behind by the Saint Iniquitous Shadow. Maybe these mysterious skills have long been lost in the current God Realm!

The two rummaged through the treasures in the box.

Huang Yueli raised her hand to wipe the sweat off her forehead, then turned her head to look at Li Moying’s deep and handsome side face, her heart moved, and she suddenly remembered what Li Tianyi said just now.

She asked curiously: “Husband, do you really have...ahem, do you have the profound strength of someone at the Life Profound Realm?”

Li Moying paused, glanced at her lightly, and said with a half-smile: “You actually believe the stupid things those brats said?!”

“Uh!” Huang Yueli froze!

What did Li Moying mean by this?

If she also believed the stupid things others say, doesn’t that mean that she was also stupid?

She pouted immediately and threw Li Moying a disgruntled frown.

Chapter 3516: Bringing Home Tons of Stuff (5)

It seems that men don’t appreciate it when they get it!

In the past, this man always praised her for being smart, how could he say she was stupid!

However, listening to Li Moying's words, it should not really be like Li Tianyi and the others guessed, relying on absolute strength to open the ban left by Saint Iniquitous Shadow, but using a clever method...

What would that be?

Li Moying looked at the bulging cheeks of the girl beside him, and secretly laughed in his heart. The angry look of his little fox was actually the cutest, causing him to keep teasing her whenever he found an opportunity.

Huang Yueli's eyes fell on the inscription outside the box again, and after thinking for a moment, a light flashed in her mind.

"Ah! I understand!" After she let out a low voice, she lowered her voice abruptly, "Is it your profound strength... is it similar to that of the Saint Iniquitous Shadow..."

She used her profound strength to transmit sound, and no one else could hear it.

A glint flashed by Li Moying's eyes and there was a hint of approval in them.

His family's Little Li'er has always been so smart, she's always the one who knows him best and understands him!

"Not bad!" Li Moying nodded.

Huang Yueli supported her chin with her hand, and said thoughtfully: "Speaking of which, we really have a fate with this Saint Iniquitous Shadow! If he has left behind any inheritance, with your talent and special profound energy, it is not impossible to obtain this inheritance!"

Li Moying's lips raised into a smile, and said, "You said that my profound strength and special profound energy are special, aren't you the same? If I can get the inheritance, you must be able to do so too!"

Huang Yueli said: "That's right, but, I've walked around the hut just now, and I can't see where there is a possibility of inheritance... With the experience and strength of Saint Iniquitous Shadow, what he left behind, the most precious thing will definitely not be some foreign objects such as spirit crystal cores, but the inheritance of his lifelong cultivation base! Not necessarily, only these mysterious techniques, right?"

Huang Yueli pointed to the few books of unique profound skills in the box.

These were indeed very precious, but what could be recorded in words was only a small part of the most obvious inheritance.

The real inheritance itself could not be described in words at all.

It's like what Huang Yueli got from the Holy Phoenix Inheritance Tower in Soaring Heavens Continent!

As long as you have experienced inheritance, your strength will immediately increase rapidly!

Li Moying also looked very disappointed, "Yes, I believe that there should be more things left here, we must look for it! After the disappearance of the Saint Iniquitous Shadow, the whereabouts of the saint

have remained a mystery, and people in the God Realm don't even know where he died. If he has an inheritance, the biggest possibility is in this abode."

Huang Yueli nodded, "Alright, let's look carefully!"

After they packed up the things in the box, Li Moying instructed the few guards to search outside the hut separately.

Huang Yueli took the two divine beast cubs out and stayed in the hut to open the restrictions on the cabinets by the wall one by one.

These restrictions were not the same as those in the previous box, and they could not be broken open only by brute force.

However, Huang Yueli also learned from Li Moying's experience and knew that her profound strength was compatible with the attributes of Saint Iniquitous Shadow. Using this advantage, she could break these restrictions faster.

After a few hours, Huang Yueli finally broke all the restrictions on the cabinets.

Chapter 3517: Bringing Home Tons of Stuff (6)

She also attained the conception illustration that she had been thinking about for the longest time!

As soon as Huang Yueli put away the conception illustration, the two divine beast cubs who were waiting impatiently jumped up.

One hugged her thigh, the other tugged at her collar, eager to drag her to the backyard, and take out all the spirit beast crystal cores hidden in the haystack for them!

"Female Devil, hurry up, hurry up! I'm getting impatient!"

"Lil' Big Sister, after eating the crystal core of the thunder attribute, I can become a cute girl~"

Under the cute attack of the two little things, Huang Yueli was defeated.

"Alright... well, I didn't say I won't help you guys!"

She also didn't bother to look for Li Moying, and was directly dragged by the two little ones to get the crystal cores for them.

After finally cracking the traps and arrays outside the haystacks, it was already dark when Huang Yueli returned to the hut.

Li Moying and the four guards had already rested in the room.

Seeing Huang Yueli coming in, everyone spread the things they found today on the ground and began to count them.

"This secret realm is not big. Apart from this hut and the backyard, there is a large medicine field in front of it. There are a total of forty kinds of high-level spirit herbs planted on it. We picked most of them, however, we kept the roots and did not dig out all of them. After tens of thousands of years, if descendants find this secret realm again, they should be able to pick new herbs..."

“In front of the medicine field, there is a meadow and a small lake, which should have been specially created by Saint Iniquitous Shadow by filling it with spirit water drawn from the outside. There are a lot of aquatic plants in this lake, and there are a lot of spirit beasts on the grass, but these spirit beasts are very powerful, and some of them can’t even be dealt with by the Young Master. Fortunately, there are restrictions outside the lake, so they don’t seem to be able to get close to the hut, otherwise things wouldn’t be so smooth today...”

“Further to the west...”

Listening to Li Tianyi and Li Tianer’s report, Huang Yueli pursed her lips and thought quickly.

As expected of them, they were from a big family and had a rich experience. They also knew that these high-level spirit herbs were treasures of heaven and earth, and it was not easy to grow them alive in the secret realm, so they didn’t dig out the roots along with it.

Huang Yueli immediately thought of her Sky Phoenix Ring.

By the time tomorrow dawns, she can just dig out one or two roots of each of those herbs and plant them in the medicine field in her space.

As for those spirit beasts...

She also knows that the spirit beasts captured by the strong in the Life Profound Realm must be very powerful! If you can tame a few, it will definitely be a big help in the future!

If she can’t tame the big ones, what if she could get a few cubs to raise...

Li Moying’s thoughts were obviously the same as hers, and he said: “I have been observing the grassland for a long time, although those spirit beasts are fierce, but it is not impossible to tame them, it’s just that it’s late today and it’s not convenient to do it. Wait until tomorrow to try again!”

Several guards were shocked, “Young Master, you have already figured out a way to tame the beast?”

In their eyes, Li Moying is usually amazing enough, but now after entering a secret realm for experience, they realised that Li Moying was much more powerful than they had ever imagined!

Not to mention just casually opening the seal of an exponent in the Life Profound Realm, now, even such a ferocious spirit beast could be tamed? ?

Li Moying smiled slightly, and glanced at Huang Yueli.

Chapter 3518: I’ve Said It Before, You Can’t Do It! (1)

Huang Yueli met his gaze and was slightly taken aback.

Immediately afterwards, she realized that Li Moying was not actually looking at her, but at...the two divine beast cubs at her feet.

The two little guys were lying at Huang Yueli’s feet, one on the left and the other on the right. It was rare that they didn’t quarrel, but one was holding a pile of spirit beast crystal cores, and they were trying hard to gnaw. There was a rattling sound.

Huang Yueli followed his line of sight and understood.

“Moying, do you want these two little guys to help tame the spirit beast?”

Li Moying nodded, “The unique bloodline of ancient beasts can make ordinary spirit beasts submit. Of course, these two are still a little small and real high-level spirit beasts may not be afraid of them, but it should not be a problem to take in a few cubs.”

Huang Yueli hooked the corners of her mouth and was about to speak.

Little Wang Cai, whose mouth was full of crumbs, suddenly raised his head, and said inarticulately, “No, I don’t want to be a coolie! It’s hard work to release coercion, alright?”

Before Huang Yueli said anything, Lilac Jadeite had already slapped Little Wang Cai unceremoniously!

“You are such a waste! As a divine beast, you even feel tired to just release a little coercion! If the Phoenix family knows that there is a phoenix as useless as you, they will probably cry!”

“You... Who are you calling useless!” Little Phoenix rushed in front of little Qilin with a whoosh!

“Anyone who doesn’t listen to Lil’ Big Sister is a waste! You eat so much and yet you’re useless!”

Little Phoenix raised his head angrily, “Who says that I don’t listen to Female Devil? I treat the Female Devil best, alright? And... and I’m also very useful! Hmph!”

“Really?”

Sensing the look of contempt in the Little Qilin’s eyes, Little Phoenix suddenly felt insulted.

He flapped his wings and said angrily: “Alright, then let’s compete tomorrow to see who can tame more spirit beasts!”

“Let’s compare then! Just look at your figure that looks like a stumpy winter melon, I know you can’t do it!”

“You...you actually said I can’t do it!!”

Little Phoenix almost fainted in anger!

Although it was a phoenix beast, it is also a true male! Even in the bottom of his heart, he felt that he was already a man!

In the end, she was actually told that he could not do it by a girl! Still being told none other than by a super pretty girl!

Although Lilac Jadeite usually maintains the appearance of a Qilin beast, when she transforms into human form, she’s a super cute little girl. The human forms of ancient beasts were all handsome and beautiful.

Little Phoenix was extremely angry, but compared with Little Qilin, his strength was indeed much worse, which made him start to feel depressed...

Huang Yueli was shocked at the beginning when she heard the two little guys' quarrel, but after hearing it, she found it more and more funny, and in the end she almost couldn't straighten up from laughing.

Seeing Little Wang Cai's dejected look, it was rare for her to persuade him kindly: "Forget it, if you can't do it, you can't do it. Maybe you can grow up! Now you are still young..."

Still small...still small...still small...

When Little Phoenix heard these two words, he fell to the ground and couldn't get up for a long time. He felt that his heart had been severely hit! Or a blow from his closest master!

Huang Yueli didn't know what was wrong with him. Seeing that he was sleeping on the ground and couldn't get up, she curiously stretched out her finger and poked his belly.

Chapter 3519: I've Said It Before, You Can't Do It! (2)

"Hey, Wang Cai, what are you doing lying down? Have you stopped eating these crystal cores?"

Little Phoenix snorted and turned his head away arrogantly!

Hmph! Phoenix also has dignity, don't try to bribe him with just a few crystal cores! The trauma he suffered just now was very serious!

"Wang Cai?" Huang Yueli poked him again, only to find that her little phoenix was still lying on his back on the ground with her limbs spread out, pretending to be dead...

Huang Yueli immediately became worried, and raised her head to look at her husband, "Moying, what's wrong with Wang Cai? Could he be ill?"

Li Moying's eyes flickered slightly. He was a man, so his reaction to what Huang Yueli said just now was much more direct.

He was very clear about the reason why that little thing played dead.

However, his gaze circled around Little Phoenix coldly, and he didn't speak right away.

Little Phoenix was so stared at by him that his whole body turned cold. He originally pretended to be dead, but now, he felt that he was really going to be scared to death!

Boo hoo, the big devil is so scary. I don't know why the female devil would fall in love with such a scary man? Wouldn't she have nightmares sleeping with him at night?

Li Moying said slowly: "It's nothing, I think it may be underdeveloped, so you can't let him eat so many crystal cores at one go, what if he eats too much and has diarrhoea? Give him a little less in the future, and he will be fine!"

Huang Yueli blinked her big eyes suspiciously.

However, Li Moying's knowledge in raising beasts was obviously better than hers. One could tell from the fact that his Qilin was raised so well!

Therefore, Huang Yueli still chose to believe him, "Well, well, it seems that I did not take care of him properly and I have to control his diet in the future..."

When Little Phoenix heard this, he jumped up in fright, “No...don’t, Female Devil, I...”

However, before he finished speaking, Li Moying gently clasped Huang Yueli’s slender waist and brought her into his arms, “Alright, it’s getting late, we should go to rest, let the two little ones go play by themselves!”

Huang Yueli said worriedly: “But, it’s not good to put the two of them together like this?” She suddenly remembered something, and grabbed the clothes on Li Moying’s chest, “Moying, I only found out this afternoon. It turns out that these two will fight when they are together! I’m worried...”

“It’s alright.” Li Moying interrupted her again, and said in a serious manner: “The cubs of the beasts can only improve their strength in battle, and it’s normal for the cubs to fight each other. It’s a way to express friendship, you don’t want to interfere when others cultivate their feelings...”

“Ah, so that’s how it is...”

Huang Yueli was relieved, and was obediently led away by Li Moying.

Little Phoenix looked at the backs of the two of them wanting to cry.

What a way to express friendship!

Although they were divine beasts expressing their friendship, it was still the usual manner in which others would! Who would scratch someone’s face with their claws!

Who wants to develop a relationship with that vicious stinky girl!

Female Devil, come back quickly! You can’t just fall into the beauty trap!

...

It’s a pity that Little Phoenix’s wail did not attract Huang Yueli’s attention.

In the abode of Saint Iniquitous Shadow, besides the storage room, there were also several rooms for staying in.

Li Moying and Huang Yueli occupied the master bedroom, a few guards lived in the guest room, and the two little beasts were placed in the backyard to “cultivate their relationship”.

Chapter 3520 I’ve Said It Before, You Can’t Do It! (3)

One night passed, and the disheartened Little Phoenix did not see his Master again until late in the morning.

“Female Devil!!”

As soon as Little Phoenix saw his master, he excitedly went up to her and couldn’t wait to file a complaint.

However, Huang Yueli just patted him on the head, then turned to Li Moying, “Alright, let’s go to the grassland you mentioned yesterday, and see how many spirit beasts we can tame?”

When Little Phoenix heard this, he was shocked!

By the way, their mission today was to tame spirit beasts, and he even made a bet with that stinky Qilin!

Thinking of this, he suddenly felt an ominous premonition.

To be honest, his strength was actually inferior to that of the Little Qilin. Today... he won't really lose, right?

Ugh, he'll just face whatever comes at him then! As soon as he thought of this, he heard Lilac Jadeite's voice: "Don't forget the bet we made yesterday! If anyone loses, the loser will respect the winner as the boss in the future! Whether it is to eat crystal core, drink water or eat the chicken legs roasted by Lil' Big Sister, the boss must be given priority!"

Little Phoenix was shocked!

How can this work! If he loses, even the Female Devil's grilled chicken legs will be given to this stinky girl?

"No, you... What are you talking about? We didn't say what the bet was at all yesterday!" Little Phoenix quickly retorted.

The Little Qilin wagged her tail slowly, "I didn't say the bet yesterday, so it's not too late to say it today? What? Could it be that you don't dare to gamble because you know you will lose? If you don't dare, forget it, anyway. I've said it before, you can't~~"

"Who do you say can't do it!!" Little Phoenix ran away again like a cat whose tail had been stepped on! "Just bet! I want to see who can tame more spirit beasts!"

As soon as the words came out, Little Phoenix regretted it!

Heavens! What did he just say?! He will definitely lose...lose...lose

Was this the end? Does he have to say goodbye to the Female Devil's grilled chicken legs from now on? He can't bear it!

There were also braised chicken drumsticks, scallion chicken drumsticks, crispy fried chicken drumsticks...

When the two little ones said these words, they always huddled together and said them furtively.

Huang Yueli and Li Moying walked very fast, and they didn't hear what they were muttering at all. It was not until they reached the edge of the grassland that they realized that the two divine beast cubs were walking very slowly, and they were both far behind them. .

The two had no choice but to stop and wait for them to catch up.

Huang Yueli felt deeply relieved when she saw the two cubs talking together!

"Seeing that you two have such a good relationship, I feel relieved!"

Little Phoenix froze all over, couldn't even move his wings and almost fell to the ground again!

Female Devil, which eye of yours actually sees that our relationship is good?!

Huang Yueli looked at the situation in front of her before she turned to Li Moying and said, "Husband, I'm going to have a look at the medicine fields over there to see if the spirit herbs dug out by Big Brother Tianyi and the others yesterday can be planted in my space. If so, we won't have to worry about the lack of medicinal materials!"

Li Moying nodded, "Alright, let's go."

"Then I'll leave it all to you!"

Huang Yueli smiled sweetly at her husband, stood on tiptoe and kissed his cheek.

Li Moying was startled, and was about to pull her into his arms for a good kiss, but Huang Yueli turned to the side and slipped out of his arms.

"Alright, then I'll go now, help me catch a few more spirit beasts, I like the fluffy ones!"

After Huang Yueli spoke, she completely ignored Little Phoenix's aggrieved eyes as she turned around and walked towards the medicine field not far away.

Yesterday, when they entered the secret realm in the morning, these medicine fields were all green, lush, and covered with various medicinal herbs. Some of them even grew a little too lush because of the age, blocking the roads in the fields.

But now, most of the branches and leaves growing on the ground have been taken away by Li Tianyi and the others, leaving only a layer close to the ground.

Huang Yueli crouched down and began to carefully examine the roots of these herbs.

It turned out that although Li Tianyi and the others had acted as carefully as possible, they were not professional pharmacists after all, and they were also inexperienced. Many medicinal herbs had their roots damaged to varying degrees.

Huang Yueli took a lot of effort to find the most complete one from the remaining branches and leaves and transplanted them into her space.

Huang Yueli's Sky Phoenix Ring, after several upgrades, has an area of four or five miles. However, after she entered the tenth level, the area no longer increased, but the profound energy of heaven and earth inside became more dense.

Huang Yueli planted a medicinal herb carefully, and then took a bucket of spirit water from the saint spring which was not too far away and gently watered it around the medicinal herb.

"Well, that should be fine!"

Huang Yueli looked at the trembling plants on the ground, touched her chin, and tried her best to recall her previous experience of taking care of herbs in the Alchemist Guild, confirming that she should have done nothing wrong.

However, the medicinal herbs in the God Realm were different from those in the Lower Realm and the cultivation methods were not necessarily the same. Moreover, the higher-level medicinal herbs have a

lower survival rate. Whether they can finally take root and sprout in space can only be said to be unknown.

However, just as Huang Yueli was about to leave, she suddenly felt a slight fluctuation of profound energy by her side.

“Eh? What happened?”

Huang Yueli hurriedly looked left and right, and was surprised to find that the small herb that she had just planted had already started to sprout!

At the top of the original withered branch, a cluster of tender green leaves grew at a speed visible to the naked eye!

“Oh my goodness! I... I’m not mistaken, right?? This is a high-level medicinal herb, and Moying told me yesterday that it takes a hundred years to bear fruit when planting this kind of medicinal herb. It takes a year to get a branch! But now it’s... this is too fast??”

Huang Yueli couldn’t believe her eyes!

She stared at the tender sprout in front of her for a while, then suddenly thought of something, and she dodged and left her space.

She returned to the secret realm, and immediately dug a herb on the ground, and returned to the Sky Phoenix Ring again.

Huang Yueli hurriedly planted the herbs, stood up straight, and waited by the side for a while.

This herb didn’t respond, and it still didn’t look very energetic.

Seeing this, Huang Yueli frowned slightly, “What’s going on? Why did the same species of herb sprout so fast just now?”

Suddenly, she patted her head, “By the way, I forgot to water it!”

She hurried to the edge of the saint spring, took the water, ran back to her original position, and started watering the second herb.

The moment she poured the water out, very soon after, the second herb also began to sprout new shoots!

“This spirit spring is actually so useful!” Huang Yueli almost jumped up with excitement.

Knowing that these medicinal herbs could survive in space, Huang Yueli naturally would not waste them, and simply transplanted all the medicinal herb plants that were in good condition from the secret realm.

Although she had the spirit spring water to assist, growing medicinal herbs was still a physical effort.

Huang Yueli was busy until the evening, and only half of the transplanting was completed.

Seeing that the sky was getting dark, she straightened her back and wiped the sweat from her forehead, "Forget it, I'll just transplant some of them and let the remaining half stay in the secret realm."

After she finished her work, she remembered that Li Moying took the two little ones to catch spirit beasts in the morning, and she didn't know what to expect.

Just as she was thinking about this, she heard footsteps in the distance.

She turned her head to look over, and saw Li Moying walking towards her from afar.

With his back facing the setting sun in the west, the shadows and golden light accentuated his figure and made her look longer. He walked slowly and leisurely, and he had the powerful aura of a superior, which made others hold their breath.

Huang Yueli stared at her husband with wide eyes, and forgot to speak for a while.

Li Moying walked closer, seeing her slightly dazed, his lips curled up into a little smile.

"Little Li'er..."

A deep and sexy voice rang in her ears, and Huang Yueli suddenly came back to her senses, only to realize that Li Moying had already walked to her side.

"Husband, you're back. I was just about to go... Mmph!"

Halfway through her words, a man suddenly approached her and took her breath away.

"Hey, you... Let go of me! Don't lead the children astray!" Huang Yueli quickly pushed him.

Li Moying was still intoxicated and said casually: "Leave them alone..."

"No!" Huang Yueli became anxious, pushed him away with all her strength, and then hurriedly turned to look for Wang Cai and the others.

When she turned around, she saw that the two little ones had turned into humans, squatting side by side not far away. Both of them were staring at them with big round eyes.

Huang Yueli was suddenly embarrassed, and a blush appeared on her face.

Although these two were still young, they were ancient divine beasts with extremely high intelligence! She always had a sense of guilt for leading the children astray.

Li Moying wasn't guilty at all, his eyes swept across the two divine beast cubs, and cast a warning gaze on them.

Lilac Jadeite's figure was a seven or eight-year-old little girl, with a chubby little face that looked soft and cute.

She looked at Huang Yueli innocently, "Lil' Big Sister, don't be nervous, we didn't see anything!"

"Cough, cough, cough..." Huang Yueli almost choked!

This was simply trying to cover up! Who did this little girl learn from? Was it on purpose?

To cover it up, she quickly coughed twice and changed the subject forcibly, “By the way, husband, you came back so late, did you tame a lot of spirit beasts today? Wang Cai and Lilac Jadeite had a bet yesterday, right? Who actually won?”

Hearing this, Wang Cai’s face froze and he almost fell to the ground.

This... was really a pot’s lid that could not be opened and lifted!

Finally, the black-bellied and cunning little girl next to it saw the two masters kissing each other, and forgot about it, but Huang Yueli brought it up again!

Li Moying saw that Huang Yueli’s back was sore, so he walked over, put his arms around her slender waist, and said with a low laugh: “It is true that many spirit beasts have been tamed today, but I don’t know who caught more.”
