

Weaponsmith 3611

Chapter 3611 Don't Cry (2)

With the dealer taking the lead, the gamblers also swarmed up and surrounded the betting table excitedly.

"I, I, I... I want to place a bet!"

"Get out of the way, obviously I came first, dealer, take my money first!"

"I'm a big client. This time I want to bet two thousand top-grade crystal jade! Let me go first!"

"Go away, what is two thousand? I want to place three thousand high-grade crystal jade!"

The gamblers had the same idea as the dealer, and they all felt that this was a great opportunity to make money.

Although Lu Dongfeng's odds were not high, if one bet 100 crystal jades, one could only get 120 if won, but this was a sure win!

Normally, if one encounters such a competition without any suspense, even if the betting could go on, the amount of bets would be limited, because the dealer will worry about losing money.

But this time it was different, Huang Yueli directly threw in a hundred pieces of spirit jade, no matter how they bet, it was enough!

In order to make a lot of money, many people directly put their entire net worth on it.

What's more, for fear of missing this opportunity to make a fortune, they simply started borrowing money from their friends, as much as they could!

There were also some people who didn't want to gamble at first, but now they couldn't help but be tempted.

Lu Dongfeng was very angry when he saw it at first, and felt that it was really embarrassing for these cultivators to ignore his command.

However, after thinking about it later, he felt that this was a good opportunity to let that little beauty lose all her money, so that she would be impressed and understand what an outstanding Spirit Medicine Master he was!

Thinking about it this way, Lu Dongfeng didn't continue to stop everyone.

As a result, the tide of betting was extremely high, and the bet that Lu Dongfeng won was rising rapidly.

The dealer's expression was a bit ugly. Fortunately, the winning party would have to pay him an additional 10% of the handling fee, otherwise, he would have lost all his profits.

There were simply too many people betting!

When Liu Buyan heard the movement, he couldn't help but look at Huang Yueli a few more times.

It's inconceivable that people who have never met before would place such a large bet on him.

Where does the other party get her confidence when no one else was optimistic about him at all?

There were quite a few people who have such doubts. The cultivators who watched have gathered together, whispered to each other, and started discussing.

“What’s going on here? Could it be that the white robed Spirit Medicine Master is really powerful, and he came here on purpose today? And that Lady knows what he’s capable of, so she came here to bet to make money?”

“How is this possible? You don’t know the level of Young Master Lu? There are very few Spirit Medicine Master geniuses like him in the entire God Realm! Anyone who can win against him is not famous, how can he be such a person? What’s more, he’s a new face?”

“Then how do you explain this? It can’t be that Lady fell in love with the white robed Spirit Medicine Master, right?”

“Hey, that’s really hard to say! Although that kid is bold, he is really good-looking. It’s not surprising that rich girls will fall in love with him, right?”

“Tch! What’s so great about being so handsome, hmph!”

All kinds of unreliable guesses and slanders, without missing a single word, were heard by Huang Yueli, who had a strong primordial spirit.

The corners of her mouth curled up into a smirk.

Dare to gossip about her, wait a minute, these people will lose even their pants!

When the time comes, don’t cry!

Chapter 3612 Don’t Cry (3)

Amidst all the noise, many people had already forgotten the two protagonists who were still preparing for the competition.

Fortunately, the referee sent by the Heaven Elixir Pagoda, still remembered this. He went to the crowd and loudly announced the start of the competition.

Only then did the crowd calm down, and surrounded Lu Dongfeng and Liu Buyan again, preparing to watch them refine.

Although in their view, this was one competition without any suspense, but there were not many opportunities to see Spirit Medicine Master refining on the spot, and many people were interested in gaining such a first hand experience.

After Huang Yueli arrived in the God Realm, it was the first time she saw someone refining pills, she was very interested, and immediately squeezed to the front.

The two Spirit Spirit Medicine Masters shot at the same time, and a ball of flame flew out from their fingertips and entered the fire inlet at the bottom of the alchemy furnace.

It was just such a simple action, and the crowd booed immediately.

“What... what’s going on here? The flame released by the Spirit Medicine Master in white is a little too ordinary!”

“Look at Young Master Lu’s primordial spirit and flame, and then look at his... Sigh, the difference in strength is too obvious! I thought that the white robed Spirit Medicine Master was some kind of master disciple of a hidden Divine Doctor, but now it seems that it was really me, thinking too much!”

“It’s a pity for that little beauty, a hundred pieces of spirit jade... Tsk tsk, no matter how rich you are, you can’t afford to spend so much! I’m afraid I’m going to regret it?”

Intentionally or not, everyone cast their eyes on Huang Yueli.

Huang Yueli stood in the crowd, but her expression was calm all the time, as if she had never heard of it.

A hundred pieces of spirit jade, for these human cultivators, was really a huge amount of wealth that was difficult to earn in a hundred lifetimes, but for her, it is really worthless, and she may not be interested in picking it up even if it was thrown on the ground .

For her, what was really important...was Liu Buyan’s refining technique!

Others don’t know what’s going on, but Huang Yueli knew Liu Buyan’s details, and understands that he actually has a better deviant flame, but he didn’t use it. Instead, he used a fairly common kind of flame.

In this case, he would definitely not lose on purpose.

Therefore, in the end, she felt that he had won for sure, so he wanted to slap this Young Master Lu in the face!

Thinking of this, Huang Yueli felt even more relieved, and simply put aside all the rumors that were flying around and concentrated on observing Liu Buyan’s refining.

On the surface, there was not much difference between the spirit medicine technique in the God Realm and the alchemy technique in Soaring Heavens Continent.

They all heat up the alchemy furnace first, then add various medicinal materials, and after mixing the medicinal power, they finally condense the pill.

However, Huang Yueli has experience in refining Spirit Armaments, so she knows that this was just a superficial phenomenon. In fact, the principle of the pills from the God Realm was mostly related to the the force field brought about by channelling the profound energy.

One of the most obvious evidence is that the outer layers of all the pills from the God Realm have pill patterns.

No matter what the quality was, there would be pill patterns, the difference is only the colour, depth and complexity.

And the pill pattern, if understood from another angle, was a special array pattern.

Using these lines to build a force field, guide the medicinal materials and profound energy to work in the cultivator’s body. This was the true source of the power of the pill to revive human flesh and bones.

The type of flame that Liu Buyan used was very common. As a result, the strength was far less powerful than that of Lu Dongfeng.

Lu Dongfeng has already heated up the alchemy furnace and added several medicinal materials, but Liu Buyan was still heating the furnace over here.

Chapter 3613 Don't Cry (4)

Although the cultivators who were spectating were not Spirit Spirit Medicine Masters, such an obvious gap could still be seen.

For a while, everyone shook their heads and sighed.

It was not unusual for this white robed Spirit Medicine Master to lose to Lu Dongfeng, but it was really surprising that he lost so ugly.

They thought that a Spirit Medicine Master who had the guts to challenge Lu Dongfeng would at least have some ability!

Yet, the results of it? Even a furnace had to be heated for a long time!

It wasn't until Lu Dongfeng added all the medicinal materials into the furnace and started to try to build the force field of the medicinal pill that Liu Buyan's furnace heated up to the acceptable temperature.

He slowly lifted the furnace cover, and stretched out his hand to the bamboo basket with medicinal materials on the side.

Everyone couldn't bear to watch it anymore!

"It's a good thing he can still calm down and continue refining. If it were up to me, seeing the gap is so big, I would be ashamed to make a fool of myself, and I can only admit defeat!"

"The most important thing for a Spirit Medicine Master is to calm down and have a good concentration. In this aspect, this kid is pretty good."

"Wait, who said he can hold his breath? Look, he... what is he doing??"

The last speaker yelled in shock, and pointed to Liu Buyan's pill furnace.

The others looked in the direction of his finger, and were immediately taken aback.

Because, they all saw Liu Buyan stretch out his hand to the top of the bamboo basket, but he didn't take out any medicinal materials. Instead, he directly lifted the entire bamboo basket, and with a flick of his wrist, he threw all the medicinal materials into the alchemy furnace!

The eyeballs of the onlookers almost fell to the ground!

Although they were not Spirit Spirit Medicine Masters, they still had basic knowledge! Even if one were to think about it with their toes, one would also know that when refining, one can't do such nonsense, right?

"This... this... this..."

The cultivators were all tongue-tied, not knowing what to say?

This kid...wouldn't it be that he was so anxious that he was about to lose? He even completely forgot how to refine!

And after Lu Dongfeng noticed what was happening around him, he raised his eyebrows proudly, and almost couldn't laugh out loud on the spot!

If he had known how stupid this guy was, he wouldn't have had to work so hard to refine such a difficult pill just now.

Lu Dongfeng subconsciously glanced at Huang Yueli again.

As a result, seeing this made him tremble with anger, and almost knocked over the alchemy furnace!

Because, Huang Yueli's gaze stayed on Liu Buyan all the time, from the beginning to now, she didn't shift her gaze in the slightest, and she didn't even give him the slightest glance.

Lu Dongfeng's face flushed with anger, and he really wanted to rush to Huang Yueli and ask, what's so good about that pretty face? The level of refining skills was so poor, it was simply a waste of materials!

He became impatient and wished he could refine a batch of pills right now, and trample Liu Buyan under his feet, so that Huang Yueli could look at him with admiration.

With this kind of mentality, Lu Dongfeng's hand movements became eager, and even when he was doing his hand gestures, he couldn't concentrate and think seriously. .

After several twists and turns, his pill was finally about to take shape.

"It's only the last step! As long as the condensing is successful, I can..."

Lu Dongfeng stared at his alchemy furnace with all his attention, pouring all his profound energy into it.

But at this moment...

"What? How is it possible? Look, that white robed Spirit Medicine Master has already...has already refined a pill!"

Chapter 3614 Really Cried (1)

The screams of the onlookers suddenly reached their ears.

Lu Dongfeng's hand shook immediately, and the profound energy condensed in his palm scattered at once. The medicinal pill that had been almost formed also showed signs of collapsing.

Lu Dongfeng noticed this, and he shuddered all over, and hastily typed out several hand gestures one after another, trying to remedy it.

In the end, his basic skills were solid, and he barely managed to keep the half-finished medicinal pill without letting it get completely destroyed.

Only then did Lu Dongfeng heave a sigh of relief.

As long as the medicinal pill doesn't shatter immediately, it can still be saved. It doesn't count as a refining failure, as long as it waits a while and re-condenses the medicinal pill, it will be a slight loss in quality at most.

However, it is more than enough to fight against a little kid.

Thinking of this, Lu Dongfeng couldn't help but glared in the direction of the screaming just now, wanting to see who the eyeless person was making such a fuss about, almost disturbing his alchemy!

He wants to write down this guy's appearance, and find an opportunity to take revenge on him in the future!

But who knows, when Lu Dongfeng glanced at the crowd, he found that no one was looking at him, and everyone's eyes were on Liu Buyan who was beside him. Moreover, the expressions on everyone's faces were like it was like swallowing a fly alive, indescribably shocked and amazed!

Seeing such a scene, Lu Dongfeng was startled, and an ominous premonition arose in his heart.

He subconsciously turned his head and looked to the right.

Liu Buyan, who was wearing a white Spirit Spirit Medicine Master's robe, was making hand gestures towards the alchemy furnace. His movements were as smooth as flowing clouds, but neither slow nor fast. It seemed that his speed was not fast.

However, under the control of his profound energy, the lid of the alchemy furnace was slowly raised in mid-air.

Lu Dongfeng opened his mouth wide, his eyes stared straight.

In the process of refining the elixir, in order to ensure that the elixir is properly heated and heated evenly, the furnace lid must not be opened casually.

Generally speaking, the only situation where the lid will be opened is... the refining is over!

Either the medicinal pill has been formed, or it has failed!

And this little kid... Could it be that his medicinal pill had already been refined?

No, it's impossible!

It took him so long just to heat up the alchemy furnace just now, even if he could refine it successfully in the end, the speed could not be so fast, so he must have already smelted all the medicinal materials into slag, this is to admit defeat !

Lu Dongfeng kept chanting silently in his heart to convince himself, but the uneasy feeling in his heart could not be reduced at all.

In just an instant, the lid of Liu Buyan's alchemy furnace had already been lifted to one side.

Liu Buyan clapped his hands and said, "My Special Jade Pill has been refined, please take a look at it."

Lu Dongfeng thought he was under too much pressure and had hallucinations!

The refining was complete? This kid has refined the Special Jade Pill?

What a joke!

However, the Spirit Spirit Medicine Masters sent by the Heaven Elixir Pagoda to be judges had already walked over and surrounded Liu Buyan's pill furnace.

The leader of the group looked into the furnace and coughed lightly, "This..."

He showed hesitation, and instead of taking out the medicinal pill immediately, he turned his head and glanced at Lu Dongfeng.

The eyes of the two happened to meet.

There was a sudden bang in Lu Dongfeng's head, like a thunderbolt exploding in his head!

This referee is also from the Heaven Elixir Pagoda, so he was naturally on his side.

Chapter 3615 Really Cried (2)

If Liu Buyan hadn't refined the Special Jade Pill, the referee would have shouted out a long time ago, announcing Liu Buyan's failure, but now, he was hesitant...

Obviously, Liu Buyan not only refined the medicinal pill, but the quality was quite good as well!

Liu Buyan saw that the referees were just watching and didn't speak, so he couldn't help raising his eyebrows, and a trace of coldness flashed in his eyes, "Seniors, shouldn't you take out my medicinal pill and let all the cultivators who came to watch the Pill Competition take a look and make a judgment as well?"

"That's right! Take it out and let us have a look!"

"Did that kid in white really refine the Special Jade Pill?"

"How could he be faster than Young Master Lu? I don't believe it! Unless seeing is believing!"

The onlookers urged the referee one after another. They had long wanted to see the medicinal pill that Liu Buyan had refined. Although they were not professional Spirit Medicine Masters, they could identify the real high-quality medicinal pill just by looking at it. Experienced cultivators will have their own judgments.

However, the referees remained silent.

The three lower-level Spirit Medicine Masters all looked at the leader in unison.

Seeing that he couldn't evade, the leading heaven-level Spirit Medicine Master coughed and said dryly: "This...don't be so impatient! The quality and quantity of alchemy is what is compared in such competitions, not the speed of alchemy, so, it would be fairer to wait for Young Master Lu to finish the refinement, and then bring it out for everyone to judge."

As soon as the words fell, Liu Buyan let out a mocking sneer.

"Fair?Hmph, this is really fair!"

A layman may not understand it, but it is impossible for a professional Spirit Medicine Master not to know that after the pill is formed, it cannot be kept in the pill furnace forever.

Because the remaining temperature in the pill furnace will also have a certain impact on the formed pills, and the pressure and humidity in the furnace are not suitable for storing pills.

In order to maintain the best quality of the medicinal pill, it is usually taken out immediately after refining, and stored in a special jade box, so as to minimize the loss of medicinal effect.

And if it was kept in the pill furnace in such a manner, the quality of the pill would drop in a short time.

By saying this and doing so, the referee was obviously helping Lu Dongfeng.

They wanted to use this method to delay time.

On the one hand, Liu Buyan's advantage of completing the refinement earlier was wiped out, and on the other hand, the quality of his medicinal pill was also reduced. This way, the possibility of Lu Dongfeng winning is much greater!

Knowing this, Liu Buyan coldly glanced at the referees.

Seeing his cold and stern eyes, the referees felt chills all over. They were a little confused why a fledgling young Spirit Medicine Master would have such sharp eyes, making him feel like a martial arts master with extraordinary strength!

Before he had time to say anything more, the onlookers felt dissatisfied first.

Although they were not Spirit Spirit Medicine Masters, and they didn't know that the quality of the pill would drop because of this, they were not fools!

Although it is true that when they had such alchemy competitions, the number and quality of the refined pill was compared, the speed of refining was also very important, and it was not as insignificant as the referee said.

The speed of refining was the embodiment of power!

Ordinary cultivators have such a simple cognition.

All of a sudden, everyone protested.

"What's the situation? We just want to see the medicinal pill!"

"That is, many of us have placed bets just now, and have the right to know the result of the competition!"

Chapter 3616 Really Cried (3)

The referees had no choice, but it was impossible to give in, so they could only keep a cold face, without even defending themselves, and said directly: "Shut up! Who is the referee? If you dare to make trouble here in Heaven Elixir Pagoda, you will be banned from here in the future."

It has to be said that the deterrent effect of these words were strong enough.

Immediately, the whole place became quiet again.

Liu Buyan just watched silently from the sidelines. At the end, he sneered, "Don't think I don't understand your thoughts. Well, I'll just wait and see what your renowned Lu can refine!"

Lu Dongfeng was already shocked by this scene, and forgot that he was still in the midst of refining.

After the leading referee gave him countless glances, he suddenly remembered where he was, and hurriedly looked at the pill furnace in front of him again.

Due to his negligence just now, the flames of the pill furnace were erratic and even almost snuffed out.

The medicinal materials that had been melted in the alchemy furnace were almost burnt.

Lu Dongfeng frantically tried to remedy the situation, displaying all his unique skills of pressing the bottom of the furnace.

The referees have helped him so much, he must now refine this batch of pills, and he must do so as soon as possible! If he fails, his face will never be regained!

However, people are like this. The more anxious one wants to get things done, the more things will backfire.

The strength of the flame started to fluctuate, which had always been a big taboo in alchemy. Lu Dongfeng was in a hurry, and he started to make several mistakes. Several factors superimposed, and a tragedy happened.

"Boom—!"

A loud noise came from where Lu Dongfeng was standing.

The alchemy furnace in front of him exploded!

The thick black smoke, mixed with the scalding liquid in the alchemy furnace and the flames, shot out in all directions!

When Liu Buyan heard the sound, relying on the reaction he had cultivated for many years, he rushed out to the side immediately, and at the same time, he did not forget to take away his already cooled alchemy furnace.

But the four medicinal pill referees did not react as quickly as he did. By the time they realized that the danger was approaching, the black smoke had already rushed into their faces.

"Not good! Quick! Get out of the way!"

"Damn it!"

Amidst the exclamation, the four referees were sprayed with black smoke all over their heads and faces, and they turned black in an instant.

Lu Dongfeng was the closest to the alchemy furnace, even if he had Liu Buyan's reaction, he couldn't escape. Therefore, he was also the most seriously injured.

The thick black smoke enveloped his whole body and his clothes were immediately ignited, but in an instant, it turned into a ball of flames.

“Not good!”

Before the four referees had time to wipe off the dust on their faces, they heard Lu Dongfeng’s screams and hurried over to rescue him.

Fortunately, there is a beautiful man-made pond next to the Heaven Elixir Pagoda, the medicinal pill. The four of them splashed water, undressed and slapped them, and put out the fire quickly in a hurry.

However, Lu Dongfeng had already been burned, and his body was curled up into a ball, rolling and howling on the ground.

“I... my eyes! My eyes can’t see! Ahhhhh!”

That heart-piercing scream was really worse than killing a pig.

The cultivators present were all shocked by such a sudden change, and they all froze in place, unable to recover for a long time.

Originally, everyone thought that Lu Dongfeng would win this match.

Chapter 3617 Really Cried (4)

But who would have thought that at the end of the competition, there would be such a turning point!

Not to mention Liu Buyan made the medicinal pill first, and the referee helped Lu Dongfeng cheat, but in the end, Lu Dongfeng actually blew up the medicinal pill furnace by himself! He even burned himself to such a sorry state!

Although for cultivators, burns of this degree could still be cured, but one can imagine how painful it is to be burned so miserably by the flames.

For a moment, everyone looked at each other, not knowing whether to sympathize with him or despise him.

The four referees wanted to help Lu Dongfeng up, but Lu Dongfeng was so pampered that he couldn’t bear the pain when the four of them touched him, he refused to get up.

In desperation, the Spirit Medicine Masters had no choice but to ask the guards to find a stretcher and carry Lu Dongfeng inside.

The stretcher was delivered quickly.

However, just when they were about to leave, a white figure stepped out from the side, blocking their way.

“Wait, a few referees, and this... Young Master Lu! The result of our competition hasn’t been announced yet, so I’m afraid it’s not good for you to leave like this?”

After hearing this, the referees remembered what the occasion was now.

They have completely forgotten about the Pill Competition!

The leader immediately lowered his face, and said angrily, "Young Master, what do you mean? I didn't see that Young Master Lu had already suffered such a serious injury. Why are you still concerned about the result of the Pill Competition? My God How can there be such a heartless person like you down there? Hurry up and get out of the way, haven't you seen Young Master Lu so painful that he can't stand it?"

He spoke harshly, thinking that what he said was very reasonable. Anyone who heard this would definitely retreat with guilt.

However, Liu Buyan was not such an easy person to fool.

He didn't move at all, and glanced at Lu Dongfeng lightly, "Such a serious injury? With all due respect, this kind of flesh burn can only be regarded as a minor injury to a cultivator, and his actions will not be affected at all. I have to say that this is the first time I've seen someone who can't withstand such an injury that they even have to lie on a stretcher."

"You... What do you mean?" The leader's face turned even darker.

Liu Buyan didn't take his anger seriously at all, "I'm not talking nonsense, just ask the cultivators present, who else is like this?"

In fact, Lu Dongfeng and the four referees were not the only ones who were hit by the flames of the explosion just now. Some onlookers who stood too close were also hit.

However, as cultivators, they still have some perseverance. Although they were burned, most of them didn't fall at all, they just took medicine in a hurry.

The four referees also knew that Liu Buyan was right, but Lu Dongfeng was not pretending. How did he cultivate?

The leading referee could only hold back, "Stop talking nonsense, I will warn you one last time, get out of the way!"

Liu Buyan remained motionless, a sneer twitched at the corner of his mouth, and he said slowly, "Why are you leaving in such a hurry? If you have time to say so many threats to me, why don't you just declare that I have won? Senior, however, would rather talk nonsense than announce the result, could it be... is he trying to take advantage of this opportunity to muddle through this and get away with it?"

Chapter 3618 Really Cried (5)

Hearing this, the expressions on the faces of several referees were stunned.

In fact, they did have this plan and planned to take advantage of the chaos to deny the announcement of the result.

Even if Liu Buyan pursued it in the future, they could still explain that Lu Dongfeng was injured at the time, he made a mistake because he had been so busy and forgot about it for a while, so they would just mention the matter in passing.

But who knew that Liu Buyan would expose them directly in front of so many onlookers.

Now, the gazes of the onlookers are all focused on them, their eyes full of doubts. Under such circumstances, it was not easy for them to open their eyes and talk nonsense, so they could only say vaguely: "This...how could it be? You think too much! It's just that Young Master Lu's injury..."

"Oh, Young Master Lu's injury..."

Liu Buyan looked at Lu Dongfeng's dark face, nodded with a comprehending expression, "This is indeed a problem. Although Young Master Lu's injury is not serious, if he does not treat it in time, he will suffer a lot."

When the referees heard it, they heaved a sigh of relief.

Several people suddenly showed joy and nodded repeatedly, "It's good that you understand, it's good that you understand..."

Liu Buyan nodded, and continued: "However, this small injury can be healed if you treat it casually. Why bother to carry him to the Heaven Elixir Pagoda?"

"What? You... what did you say?"

The referees didn't expect that Liu Buyan turned another corner while talking, thinking that they had heard it wrong.

"Treat... casually? This... this... are you kidding? This injury is not serious, but burns are the most difficult to treat among all traumatic injuries. We need to apply ointment all over his body and wrap him and he has to lie down for at least three to five days before he can be cured without leaving any scars..."

The leading referee frowned, looked at Liu Buyan with dissatisfaction, and at the same time introduced the treatment method to the curious onlookers.

What he said was not a lie, it was just... a little exaggerated.

However, most of the cultivators present were not experts, and they couldn't tell anything wrong even after thinking about it.

After finishing speaking, the referee glared at Liu Buyan again, "Alright, get out of the way!"

Liu Buyan still didn't move, he snorted softly, and said: "It seems that the Spirit Medicine Master in the Heaven Elixir Pagoda of Arcane City, is really not very good. It's just such a simple burn, and they still have to keep the patient in bed. Three to five days, tsk tsk... If they are all treated like you, I am really worried that the cultivators in Arcane City will be killed by you if they are injured in the future."

"What did you say??" The referees were so angry that they almost jumped up!

"Who are you? You're just an earth-level Spirit Medicine Master. What qualifications do you have to say that our medical skills are not good?"

"That's right, with your ability, you still have to be a good man, and you actually slander seniors like this!"

Facing the accusations of the four people, Liu Buyan was not flustered at all, but even laughed, "We Spirit Spirit Medicine Masters are not Seniors because of their age, but depends on the level of medical skills! You can't even treat such a small injury properly, aren't you ashamed to call yourself a senior?"

"We can't cure it, so can you cure it?" The leader said angrily.

Liu Buyan said calmly, "It's just a matter of raising my hands!"

"You..." The referee didn't believe it at all, and snorted coldly, "You have a serious tone, and if you have the ability, you come here and cure Young Master Lu!"
