

Weaponsmith 701

Chapter 701: Li Moying's seven days and seven nights

"What happened? Don't tell me... you still haven't found her?"

A icy cold voice rang in one of the superior rooms of a guesthouse.

A line of Shadow Guards bent their heads and bowed in front of Li Moying, wishing that they could directly bury their heads into the ground!

"Seven days, it's been an entire seven days! You can't even find one person! She's just a second stage realm lass who is heavily injured, so she can't possibly walk too far away. But even though it's like this, you're still unable to find anyone. What do I still need you bunch of trash for??"

Li Moying clenched his teeth as every single word hissed out from the gaps between his teeth!

His eyes were bloodshot with obvious dark eye rings. His usually peerlessly handsome face became haggard. A sparse beard stubble formed on the corners of his upper lips and his dishevelled hair hung on the sides of his face, adding some tones of despondency.

The Shadow Guards kept quiet out of fear as no one dared to make even a squeak sound.

Amongst them, the only one who was able to converse in front of Li Moying would be Mo Yi.

But as Mo Yi was the one who had committed the wrongdoing. His head was already hanging by his waist so no one else dared to advise Li Moying.

"All of you, go out and continue searching! If you're not able to find her, don't even bother coming back! Scram!!"

As though they were given amnesty, the Shadow Guards ran off one after another.

Li Moying sat disappointedly on the chair as his thick brows arched together tightly, his heart was in a state of chaos!

Seven days ago, he didn't bother about Murong De's obstruction and immediately left the Sect with an anxious heart. He used the fastest flying ship he could find and the entire journey only took less than two days before he reached his destination.

He searched along the way and very quickly, he found Cai Wei and the rest who were recuperating in the medical clinic of a small town.

From Cai Wei's description, Li Moying found out the truth about Huang Yueli being ambushed.

Even though he already had a bad premonition in his heart, but when he heard with his own ears on the truth that Cai Wei told, it was enough to make Li Moying's head split as tremors of pain gushed up, making him unable to hold up!

So it had really been carefully planned by someone to lure Mo Yi away and taking action against his beloved woman!

Cai Wei was not eloquent but even so, the happenings had been described to be such a hair-raising experience, so it was imaginable on how thrilling and dangerous the actual situation had been!

For just one moment, Li Moying felt that his heart was almost pieced through by a thousand arrows.

However, Cai Wei's words gave him yet another sliver of hope.

"Although that killer was very powerful, but our Young Miss reacted swiftly and made use of the surroundings to obstruct him! Subsequently, Young Miss escaped into the forest and the killer also took chase. I saw the forest burst into flames as though they had engaged into a battle but after that.... the both of them did not leave the forest.... I feel that Young Miss is so smart, and so powerful, so maybe she's not dead yet...."

Upon hearing this, Li Moying's dull eyes seemed to have lit up a little.

That's right, his Li'er was so smart and so powerful, how would she just give her life away so easily?

Even though the opponent she was up against was several realms ahead of her, but she would surely have a way and she would surely be waiting for him to save her!

From that day onwards, Li Moying gathered all of his Shadow Guards and organised all the men who he could move and made them search around the surroundings of the crime scene.

For exactly seven days and seven nights, he had not shut his eyes, not taken any food and purely swallowing some Abstinence Pills to get through the days, worried that he might miss any news regarding Huang Yueli.

Yet, Huang Yueli seemed to have vanished in thin air as her existence had completely disappeared.

Chapter 702: She's dead

"Senior Brother, don't be too anxious. Based on the current situation, if there's no news about Sister-in-law, it actually is the best news. If she were to meet with a mishap, we would definitely have found out but now that we're not able to find her, she had probably hidden herself away to hide from the enemy to some secret place."

Luo Jiyun gave a piece of his advice.

As Li Moying had not returned, Murong De sent him to urge Li Moying to return to the Sect about four days ago.

However when he reached here, seeing how distraught and despondent Li Moying was, he forcefully held back the words that he was asked to convey, not even mentioning a single word.

For the past few days, Luo Jiyun had also been helping to keep a lookout offering ideas.

Li Moying showed a disappointed face, "Your saying is so simple! If she was really fine and knew we were searching for her everywhere, won't she just appear by herself? Her refusal to appear in front of us means there must be some accident or perhaps when she left this place, she was already seriously injured or maybe the killer who pursued her had already brought her away!"

“This...”

Luo Jiyun’s expression turned pale.

Of course he knew that what Li Moying mentioned was possible but he didn’t want to bring this out now.

“Senior Brother, Sister-in-law is so quick-witted, it’s impossible that she would be brought away by anyone that easily.....”

Just at this moment, a shuffling footsteps sound was heard from the door and following that, Mo Yi’s anxious voice rang.

“Master, Master! The people sent out two days ago brought back an important news. They had met a highly suspicious expert in the town up ahead and he was possibly the one who captured Third Miss!”

“WHAT?? Quickly come in and speak clearly!” Li Moying agitatedly stood up.

The room door opened and Mo Yi lent an arm to support a black robed Shadow Guard.

The Shadow Guard was obviously hurt and was not able to stand properly but still insisted on bowing to Li Moying.

“Please accept my respects Master.....”

“How come it’s only you alone? Didn’t we send out five people to check on this? And you mentioned that you have the suspect... where is he?” Li Moying hastily questioned.

“Master, I’m incompetent.... I let that suspect ran away!”

“What?” Li Moying’s brows knitted tightly together, “The few of you had already advanced to fifth stage realm and your powers are not weak. Even with the five of you, you’re not able to capture the other party?”

Shadow Guards lowered their heads and ashamedly replied, “Yes, that person’s power is indeed very strong and not some ordinary fifth stage realm expert. His cultivation methods and Profound Skills are much higher than the few of us by several times! We didn’t expect the opponent to strike first so we were caught unaware as two of us were heavily injured. Mo Liu and Mo Qi went after him but were injured by him so only I made it back to report this!”

“Just who was that? How do you know that he is connected to Li’er’s disappearance?”

Shadow Guard secretly raised his head and took a glance at Li Moying but he pursed his lips, not daring to speak.

“What on earth happened? Tell me clearly!”

Li Moying felt an uncontrollable surge of shock as a bad premonition arose within his heart.

Could it be that..... something had happened to his Li’er?

Shadow Guard spoke as he trembled with fear, "After that person had injured us, he left a sentence, "Go back and tell Li Moying that his woman is already dead... that lass had died more than ten days ago. Isn't he very capable? But he was not even able to protect the woman he liked!"

After having said that, the room went into a dead silence.

Li Moying stared deadly at the Shadow Guard in front of him as he clenched his teeth, his face deadly pale.

Chapter 703: Want to know how she died?

Mo Yi and Luo Jiyun were standing by the side, not even daring to breathe loudly.

They all knew clearly the tremendous shock that Li Moying was under right now!

The most important woman in his life, that lass whom he had held dearly in his in his embrace had vanished silently to an unknown place just after he had left a few days ago.

Moreover.... The other party had taunted him in such a way!

Aren't you very capable? Too bad... you're not even able to protect the woman that you like!

Even if these words were told to an ordinary person, as a man but yet unable to protect his own woman was an extremely disgraceful matter, not to mention that this was told to a peerless genius like Li Moying!

His potential was limitless and had always been proud and arrogant. He had absolute confidence in himself and had always thought that if Huang Yueli were to follow him.... She would become the most fortunate woman in this entire world!

But the result? Reality gave him a tight slap in the face, completely shattering his self-confidence entirely!

That's right. Not only was he unable to protect.... his Li'er, the reason why she met with this uninvited misfortune was also due to.... him!

If it hadn't been for him, Huang Yueli would never have met with such a powerful opponent and she would definitely not met with a mishap!

Li Moying felt his heart wrenched together into a lump, so painful that his entire body started convulsing.

The Shadow Guards restlessly lowered their heads as sweat beads started to form on their foreheads, slowly dripping down their faces.

Actually when the other party escaped, he said a lot more things and he had specially filtered the gentlest sentence! Those extremely vile words had already been swallowed by him, not daring to reveal the slightest bit!

The other party's original words were, "Li Moying, aren't you very capable? Too bad, your woman is already dead and she's already been dead for more than ten days! Want to know how she died? When she died, it was so terrible. She had been surrounded by a bunch of magical beasts and her flesh was stripped off her body while she remained alive and even her bones were eaten until not a single bit remained... ha ha ha, no wonder you all are not able to find her corpse!"

The Shadow Guards do not dare to reveal these words at all, fearing that it might agitate Li Moying.

However, even though that was so, their Master had still suffered a huge setback, as though he was unable to bear it.

Li Moying's pain made his face turn pale and his entire body was trembling slightly.

Luo Jiyun realised that something was wrong and he anxiously walked over to support him.

"Senior Brother, don't be like this... Sister-in-law she... she might not be dead. Perhaps that man was just telling lies? Moreover, since we have yet to find her body, just basing on a few words from that person, we cannot assume that something had really happened to Sister-in-law! Pull yourself together! Perhaps Sister-in-law is still waiting for you to save her!"

To tell the truth, Luo Jiyun felt that Huang Yueli had probably lost her life.

But he was afraid that Li Moying would collapse because of this and could only say such things to stabilise him, at least giving Li Moying a sense of hope to persevere on!

When Li Moying heard his words, his eyes finally showed a slight glimmer of hope.

But at this very moment, Mo San hurriedly ran in and before he had entered the door, he cried out loudly, "Bad news Master, Brother Mo Yi! Earlier the Shadow Guard who went to investigate the location which the killer had escaped had passed the message that he had found a large amount of blood stains and it looked like.... Looked like traces of wild beasts gnawing..."

"Shut Up!"

Mo Yi's expression changed as he sternly shouted out to stop him!

However, it was too late.

When Li Moying heard that, he spat out a mouthful of blood on the spot!

Chapter 704: Why was he..... always unable to?

Bright red blood spilled out from the corners of his pale white lips, and flowed down from his perfectly sculpted jawline, gloomily cold yet strange.

Li Moying's body shivered and was about to collapse.

"Master!"

"Senior Brother!"

Luo Jiyun and Mo Yi rushed over to support him.

However, Li Moying's eyes flashed a cold glint as he pushed them aside, "Go away!"

A powerful Qi gushed out and the decoration in the entire room turned into powder within an instance! And the two people, Mo Yi and Luo Jiyun, who rushed to the front were sent flying by the Profound Energy as they flew past layers of walls and fell out of the guesthouse.

Li Moying swept his hand and the entire building was on the verge of collapse.

The guesthouse had turned into a mess instantly and various screams and crying could be heard as everyone's first reaction was to escape outwards!

Luo Jiyun threw up blood from the attack as several ribs on his chest were broken.

With great difficulty, he struggled to get up and before he was unable to stand properly, he heard a loud "Boom"!

The three storey guesthouse had completely been demolished.

And in that pile of ruins stood a figure dressed in a dark black robe, slowly approaching them.

Luo Jiyun raised his head and on one look, his entire body turned cold as he called out.

"Senior..... Brother....."

Li Moying had walked right out of the ruins with a layer of frost in his eyes. His eyes had turned bright red, as though blood was going to spill out!

Fluctuations of an extremely powerful Profound Energy was emitted from him and even though there was some distance away, they could clearly felt that this overbearing strength was enough to destroy the world. A powerful pressure, like a tall mountain pressed down on each and every one's head.

The fluctuations from his Profound Energy.... Had impressively been raised and reached the peak of ninth stage realm!

Mo Yi raised his head and was completely shocked by what he saw. Li Moying's eyes revealed a bloodthirsty and emotionless chilly glare, as though.....

"Surely Master's illness.... couldn't have flared up now?"

At this moment in time, Li Moying couldn't feel anyone's vision and even though Luo Jiyun and Mo Yi were not far away from him, he had not noticed them totally.

In his heart, there was only one thought and that was.... he was not able to protect his beloved woman!

Again!

He couldn't understand why was it again and was feeling frustration rushed in madly, bloating his brain up as though it was about to explode!

In the bright red vision, he saw many flashbacks.

In the ice fields which were enveloped in that never ending icy coldness was a petite figure surrounded by several top exponents.

He anxiously chased after them, chasing and chasing but no matter how he tried, he was not able to chase up to them. He only saw a blinding flame shoot up into the sky and under the flames, that young lady's figure melted away and disintegrated

In the haze, he seemed to noticed the lady's face and it was layered over his Li'er's looks....

Why? Why was he.... always unable to protect his own woman?

Even though he had such outstanding talent and held such power, but.... in the end, he was never able to protect the thing that he wanted to protect the most!

Li Moying's senses slowly blurred and all his consciousness were enveloped by that hate and regret.

He unconsciously took a step forward, and yet another step.

The Amethyst Light Sword in his hand had been drawn, as though he wanted to kill those people surrounding his Li'er, sword by sword, as though he wanted to split their lives apart!

Chapter 705: Living Hell

Following Li Moying's unconscious movements, an extremely powerful Profound Energy swirled in the sky wilfully.

The minute he lost his consciousness, his cultivation had instantly raised to the peak of ninth stage realm, so every single strike he threw out held incomparable explosive grandeur, like a hot knife through butter, pressing forward!

Every single place his strike hit, all the obstructions were swept to a naught!

The surrounding homes were completely demolished by him as the bricks formed a rubble on the ground.

The townspeople were shocked as they cried while escaping in different directions.

The usually serene town had instantly turned into a living hell!

However, Li Moying didn't seem to have any intention of stopped, as the murderous glint in his eyes flourished and with a sinister expression on his face, he continued moving forward!

Luo Jiyun stared at him shockingly with his eyes wide as he broke out in sweat, unbelievably uttering, "Th... this can't be true right? Senior Brother he... his illness acted up?"

"Judging from the surrounding grandeur from Master's surroundings, he had already reached the peak of ninth stage realm! Moreover, he has completely lost conscious and unable to recognise us, so his.... illness probably acted up!" Mo Yi was also shocked beyond his imagination but he was still able to remain composed.

Luo Jiyun was still unable to believe it, "But... but today is not the night of a full moon! Senior Brother he... had never had his illness act up on other days!"

Mo Yi's face turned grave as his brows knitted closely, "It didn't happen in the past doesn't mean it won't happen in future! Young Master Luo, do you remember what Divine Doctor Liu said when he came over the previous time to treat Master?"

Luo Jiyun's eyebrows lifted as he tried to recalled and his expression suddenly changed!

"You mean to say...."

Mo Yi nodded gravely as the both of them saw a deep worry in each other's eyes!

At this moment, a shrilling cry was heard from afar, pulling their senses back.

"That's it, we're finished, what should we do now! Senior Brother's illness actually acted up now! We aren't prepared at all! What should we do?" Luo Jiyun was as anxious as an ant on a hotpot, except that he didn't turn around in circles.

Mo Yi said, "We're not able to control the current situation! Everytime Master's illness acts up, he must take the medication first. Otherwise we will require several of the Sect's Elders who are in ninth stage realm to take action together before we can surround him in an isolated boundary to stop him from going on a killing spree. But now, there's only two of us here... and we're obviously unable to stop Master!"

Luo Jiyun hurriedly added, "What shall we do! The last time Senior Brother's illness acted up, luckily we were in the Dark Moon Forest. Killing a few magical beasts were nothing at all. But now this town was filled with ordinary people who were not able to cultivate! If Senior Brother were to kill them by mistake, when he regains his conscious, he would blame himself to death!"

To kill the innocent and even to massacre the entire town, those with morals would definitely not be able to do such a thing!

And Li Moying was not such a person!

Mo Yi was calmer and after thinking for a while, he clenched his teeth.

"We have no choice! Let's do it this way, we'll try to think of ways to attract Master's attention and lure him away! At least we have to make him leave the town's boundary to the empty land outside! This way is much better than letting him stay here to kill someone!"

Luo Jiyun nodded instantly. "Great, let's do it this way then! We'll stand on both sides and when the other is almost caught, the other will be in charge of distracting him!"

Chapter 706: Sister-in-law, how did you come back to life?

The both of them had discussed for a short amount of time and based on the current situation, there was no time to let them hesitate.

The both of them instantly took action.

However, they quickly realised a problem and that was, Li Moying was totally not affected by their distraction. The fact that their potential as a fifth stage realm practitioner, in front of Li Moying's absolute power, was simply not enough!

Mo Yi took action first and struck an attack towards Li Moying. However before his flexible sword could even reach ten meters around Li Moying's surroundings, he was completely thrown out!

And Li Moying's line of vision had not changed a single bit!

Luo Jiyun flew forward as he caught Mo Yi, "Brother Mo Yi, what happened to you?"

Mo Yi coughed out a mouthful of blood as his face turned pale like a sheet of paper, "I... I'm alright but Master he... he's simply too strong! We are unable to go near him at all. Th... what should we do?"

"This..."

Luo Jiyun had no more ideas and as both of them's face showed a despaired look as they could only watch Li Moying's silhouette going further and further away.

Just at this moment, from not too far away suddenly came a familiar voice.

"Why is it so messy here? And why are there so many people running about... Eh? Brother Mo Yi, Junior Brother Luo, what are you guys doing here?"

A crisp, melodious voice with deep puzzlement from a young lady was heard.

When they heard this voice, Mo Yi and Luo Jiyun seemed to be struck by lightning as their faces revealed a lifeless expression, their bodies seemed to be glued to the ground, not moving at all.

"Brother Mo Yi? Junior Brother Luo?" The young lady curiously stared at them as she walked over with quick steps and faced them.

"Hey, what are you guys doing? And why is it so messy here, as though a typhoon had ran over! Don't tell me Magical Beasts had invaded this place? Hey, why are you guys ignoring me? We've not met for just over a month and you don't recognise me anymore?"

Huang Yueli's face was filled with puzzlement, only feeling that the two of them looked like they had just seem a ghost and their hearts filled with astonishment.

She subconsciously touched her own face.

Weird, why were they looking at her like that, as though they didn't know her? Could it be that her face was disfigured?

But surely not right? That day when she was pursued by Zuo Fangping, her face was indeed filled with some injuries but after applying Liu Buyan's medication, the wounds had completely healed, not even leaving any scars!

Just at this moment, Luo Jiyun finally regained his senses.

Using his finger to point at Huang Yueli's nose, his mouth opened wide and called in a tongue tied manner, "Y... You.... are Sis.... Sister-in-law....."

A “Pa” sound was heard as Huang Yueli slapped his finger away, saying in a dissatisfied tone, “No manners! Haven’t your Master ever taught you this? Pointing at someone in this way is a serious lack of upbringing!”

Even though Luo Jiyun was lectured by her, he was not angry at all. Instead, he screamed an “Ah” sound as he used his hand to pinch his own thigh.

“Heavens, I’m really not dreaming! Ouch, so painful! No wonder I’m not dreaming, so this is real? Sister-in law, Sister-in law, you’ve really returned to life! You’re not dead?”

Mo Yi was also in a state of shock and joy, almost crying out.

“Third Miss, you... you’re really not dead.... Really, Young Master Luo, I also saw....”

Luo Jiyun screamed, “No, no! Although Sister-in law is back, but it doesn’t mean she’s not dead, she could be a spirit! Tell us, are you human or ghost? I must check properly!”

Chapter 707: Human or ghost?

Saying that, Luo Jiyun reached out his hand towards Huang Yueli’s face to pinch her.

Huang Yueli hurriedly moved aside as she said in a dissatisfied tone, “What ghost or not ghost? Who’s dead? Don’t you dare curse me, I’m warning you!”

Saying that, she suddenly realised what they meant and after a moment of daze, her eyes widened as she spoke, “Wait a minute, you guys thought I was dead? What’s the situation now, how did you guys find out that... I was almost killed? That’s right, aren’t you all accompanying Li Moying in the Sect in closed door cultivation? Why are you guys here now?”

Mo Yi replied, “This... Third Miss, this matter..... cannot be explained so easily! It’s good that you’re alright. As for the intricate details, I’ll explain to you after a while. Now.... there’s something pressing that you need to do, please follow me now!”

Luo Jiyun was still unable to overlook this as he continued questioning, “Sister-in-law, are you human or ghost? Could it be that you cannot bear to leave Senior Brother alone and purposely returned as a spirit form to see him?”

Huang Yueli was left speechless as she pointed to her feet and said, “Do you see my shadow below my feet?” Pointing to the top of her head, “Do you see the scorching sun above? Have you ever met any ghost who has a shadow and which ghost dared to come out onto the streets under such a scorching bright afternoon?”

Luo Jiyun dumbly replied, “In this case, you’re a living human?”

“Do you even need to ask!”

Mo Yi was already losing his patience listening by the side and he tugged Huang Yueli’s sleeve, pulling her along while running.

“Alright, Young Master Luo, please do us some good and stop acting like this! What time is it now? Can you stop stirring up trouble? Third Miss, please hurry and follow me this way!”

A fifth stage realm practitioner’s speed was naturally much faster.

Huang Yueli was tugged along until she stumbled and almost fell.

“Brother Mo Yi, what’s the hurry? And where are you bringing me to? Did you come over with Li Moying this round? Is he nearb...”

Mo Yi led her to a turn and his footsteps slowed down as Huang Yueli also came to a halt.

Raising her head, she was shocked by the image she saw. Even the words that she had said halfway were swallowed back!

Moments later, she shockingly said, “Th... This is Li Moying! He.. looking at him, don’t tell me his illness acted up again?”

Mo Yi replied, Yes, Master has already lost his conscious and had been destroyed the surrounding structures, we’re totally unable to stop him!”

Huang Yueli muttered, “How did it become like this? Hadn’t he always been in the Sect? How did he appear here? Moreover, today is not full moon’s night, and it’s bright daylight now! How did his illness suddenly act up?”

Luo Jiyun couldn’t keep it in as he shouted loudly, “Sister-in-law, you don’t know. Brother Mo Yi was not recalled by his Master, but had been tricked by bad people! Eldest Senior Brother met Brother Mo Yi and knew you were in danger. So without caring about Master’s obstruction, he insisted on leaving the Sect before the tournament to come here and save you!”

“In the end, he searched for seven days and nights but was unable to trace your existence at all! This morning we found the killer who tried to assassinate you but he said you were already dead and your corpse was devoured by Magical Beasts! Eldest Senior Brother was enraged and... and he became like this!”

“What??” Huang Yueli’s eyes turned wide, totally unable to speak as a scorching warm sensation gushed up her head, “He... he left the Sect at such a critical juncture, just to come and.... save me?”

Chapter 708: Only you can save him!

“That’s right, Senior Brother he.....”

Luo Jiyun wanted to continued talking but was interrupted by Mo Yi.

“Enough, we can talk about these later on. The most important thing now is to hurry and stop Master from killing! Master hasn’t had a shut-eye for seven days and nights and if he forcefully raises his cultivation to go on a massacre, I’m afraid... his cultivation might regress!”

Luo Jiyun shut his mouth immediately and nodding furiously, he turned towards Huang Yueli and said, "Sister-in-law, we were still in a dilemma on what to do but luckily you came along! Now, only you can save Senior Brother!"

Huang Yueli felt extremely shocked at this moment!

She really didn't expect Li Moying to suddenly appear here and he had been here since seven days ago. Just to search for her, he hadn't rest at all and because he thought that she had passed away, he was agitated until his illness acted up on the spot!

So actually, it turned out that in the past few days when she thought she could only struggle and rely on herself for survival, but this man..... had never forgotten about her for a single moment!

Hearing Luo Jiyun's plea, she nodded immediately, "Ok, I'll go try. You guys wait here!"

Saying that, with big strides, she marched towards where Li Moying was.

Mo Yi shouted to remind her, "Third Miss, you must take caution on your safety. If you can't manage to stop him, you must retreat immediately!"

However, Huang Yueli was not able to hear any sounds from the outside world now.

Her line of vision had completely been attracted by the man in front of her and all her concentration had been deprived by him completely!

A dark robed Li Moying, emitting unexcelled power around him, used his cold, bloodthirsty glare and stood up high up on the ground looking at everyone as though they were ants beneath his feet!

Using a disdainful look from the corner of his eye and turning his nose up at everyone!

His appearance was so icy cold, so ruthless, but when that blood red eyes swept past her face, it made Huang Yueli shudder!

The flawless facial lines had perfectly sculpted facial features, diagonally slanted brows, cold and aloof thin lips.... everything about him carried an air of might which could not be overlooked, making everyone unable to control themselves to acknowledge allegiance to him.

Huang Yueli walked slowly towards him, as though she was enchanted.

And when Li Moying realised that Huang Yueli was nearing him, he put down the sword in his hand.

He turned around, quietly paying attention to that young lady in front of his eyes, watching her take one step at a time getting closer and closer to him. That icy cold deep eyes displayed no feelings and his face had no expression at all.

Even though he had already put away his stance, but the Profound Energy that was emitting naturally from Li Moying's body was still very strong.

The nearer one was to him, the stronger the pressure.

Even if it was an eight stage realm practitioner, he would not be able to take it much longer at this point of time.

But Huang Yueli was still getting closer!

It's not that she had not felt that tremendous pressure and not that she didn't notice the impact and injuries on her body!

But it was a kind of strength which completely controlled her conscious, attracting her uncontrollably towards him. She could only continue to get nearer and near to him!

When the distance between the two of them were only two meters, Huang Yueli suddenly felt her brain "buzz"!

Her entire soul was on fire and was in immense pain!

Her vision turned back and her legs went soft, almost falling onto the ground.

But at the very next moment, she felt her waist tightened and a gust of power was felt pushing her to fall forward as her body weight crashed against the robust chest of a man!

Immediately following that, her breathe was completely plundered from her!

Chapter 709: Do you know how frightened I was?

The minute their lips met, Huang Yueli's conscious turned even blurry.

This kiss... was exceptionally scorching. It carried an overbearing sense of determination to win and had a kind of reckless and impatient heat, as though it was going to swallow her completely.

She knew this was not right because she had someone in her heart and Li Moying was just a visitor in her life.

However, she had no strength and had no way to go against this man's advancement!

All of her soul from each corner were clamouring to her to go nearer to him, give in to him and accept him!

In this man's embrace, she turned into a puddle of water. Without his support, she didn't even have the strength to stand properly, as though she was about to blend into this man's body.

This kiss... lasted for very, very long.

From the overbearing advancement initially to the gentle lingering towards the end, who knew how long it lasted for.

When Huang Yueli's lips were finally released, she almost fainted in Li Moying's embrace as she raised her head and opened her eyes slightly to look at the man in front of her.

Li Moying's blood red pupils had regained normalcy and his icy cold facial lines had turned softer.

"Li'er, Li'er.... You're really not dead, you're still alive....."

He muttered softly and his arms tightened to bring her into his embrace, with quite an amount of strength.

His strong, robust arms were hooked around Huang Yueli's waist, as though iron bars, totally unshakable.

Huang Yueli was bound till she felt pain and her expression had turned slightly green, "Damn it, Li..... Li Moying, let me go, let me go! Can you be gentler I can't breathe!"

The arms around her waist loosened slightly but didn't let her go.

Li Moying buried his head on her neck and rubbing against it as his hot breathing blew against her sensitive neck repeatedly, making her feel uncomfortable, subconsciously withdrawing her shoulder.

"Li'er, you're really alive, you are really.... alive.... did you know how frightened I was? I'm afraid I am not able to protect you, and have to see you die in front of my own eyes again! Even your bones are not left!"

Again?

Huang Yueli felt this word seemed a little weird but before she could think deeper, her attention was diverted.

Because Li Moying's voice sounded like it was trembling and it held obvious signs of choking.... Surely he wasn't about to cry right?

"You... Li Moying, are you alright?" She hurriedly asked.

"I'm alright." Li Moying was still lying against her neck, refusing to raise up his head, "As long as you're alive, I'll be alright."

"You haven't slept in seven days and seven nights, and you call that alright! I know you're strong but you cannot neglect your own body like that! Look at me, aren't I in one piece? Can't you trust me to take care of myself?"

"I believe!" Li Moying cried out softly, "But you're still not grown up yet. Moreover, I'm your man, so protecting you.... is my responsibility!"

Huang Yueli was stunned momentarily, wanted to say that you're not my man.

But after what happened earlier, when she recalled all the things that this man had done for her, the words of rebuttal were stuck in her throat, unable to speak it out.

The two of them hugged each other for a while more and not long after, Li Moying's body suddenly started to shudder before he suddenly KO-ed and leaned entirely towards Huang Yueli's body.

Chapter 710: Today is not full moon's night (1)

Huang Yueli hurriedly caught hold of him and saw that Li Moying's eyes were shut tightly. Apparently he had lost consciousness.

Luo Jiyun and Mo Yi hurried over too and took over Li Moying from her.

“Master’s knocked out cold. These few days he didn’t rest at all and his illness acted up today. If it hadn’t been for the Profound Lunar Spirit Mirror that Third Miss you refined, he might not have been able to hold on for that long.”

Huang Yueli nodded as she was slightly embarrassed to look at Mo Yi and the rest.

After all, she and Li Moying had just displayed a passionate scene in front of them.... And now if she were to just purse her lips slightly, she would be able to feel the pain that her lips were in, so apparently, it was swollen.

The previous guesthouse naturally was not fit for staying anymore.

Mo Yi and the other Shadow Guards made a stretched and with great effort, they finally found a not too bad guesthouse in the town and carried him inside.

The townspeople were long frightened out of their wits and no one dared to go near them. All the townspeople looked at them from a great distance, standing in awe of them that group of people were doing.

Huang Yueli was extremely anxious as well so she followed them in.

For an entire night, Li Moying drowsed while he was unconscious and had not woken up at all. As for Huang Yueli, she stayed by his bedside, worries filled her anxious face as she looked at his pale white handsome face.

That long lashes hung down, casting a shadow beneath his eyes. The corners of his lips had a light purple colour and that still and weak look was totally different from his usually overbearing ways. Accompanied with that extreme handsome looks, he looked especially pitiful.

Huang Yueli touched his forehead and felt that he was cold as ice, ringing alarms in her heart.

In normal circumstances, when one’s body is injured, fever and body heatiness was considered normal. Even if the fever was really high, it would eventually go away.

But if a body was constantly cold, that would be dire. There was a possibility of serious internal injury or some other dangers.

Huang Yueli stood up to put the blanket on for Li Moying before turning towards the door.

When she opened the door, several Shadow Guards stood in two lines and bowed in respect to her.

“Third Miss!”

The attitude of the Shadow Guards were especially respectful.

She nodded and asked, “Where is Mo Yi? I need to ask him something so please take good care of your Master.”

Shadow Guards displayed their loyalty in haste, “Third Miss please be assured that we will take good care of Master! Protector Mo Yi is in the next room, let me show you the way....”

Without hesitation, the Shadow Guards executed Huang Yueli’s order.

All of them had heard from Mo Yi on Huang Yueli's status and knew that this seemingly petite and weak young lady was their future Mistress, the person whom their Master wanted to protect with his life!

In the next room, Mo Yi and Luo Jiyun were sitting opposite one another with a deep hinge of worry casting over their faces.

"I went over to Senior Brother's room to take a look and his facial colour is still not very well. Looks like this round's acting up is detrimental to his body! We don't know when he will be able to regain his conscious."

Mo Yi replied, "I really didn't expect that Third Miss's disappearance would agitate Master so much that it actually caused his illness to act up immediately. Today's not even full moon's night!"

Luo Jiyun frowned when he heard that, "That's right. There's something weird going on. Why did Eldest Senior Brother's illness act up when it's not even a full moon's night? This had never happened in the past!"

Mo Yi's expression turned grave, "Young Master Luo, have you forgotten what Divine Doctor Liu said when he came over to give treatment to Master that time?"
