

Weaponsmith 731

Chapter 731: Priority to be selected (2)

Li Xue'er immediately responded, "It was all due to Master's delicate teachings which led to Xue'er having such results!"

Although having said that, her face started to reveal some complacency.

She was now the apprentice of a high level armament master and at her age, her innate talent was not bad. So usually in Celestial Light Academy, she was quite popular among the other students!

As everyone all had Profound Armaments and sometimes they might meet with some damaged or defects which require repairing.

As everyone were poor students, it was apparent that they were not able to find reputable Armament Masters as they simply could not afford such exorbitant prices so they could look for armament apprentices to fix it.

After all, as a student of the Armament branch, whenever they repaired fellow students Profound Armaments, they would be able to get student points. So their fees were generally much lower and sometimes in order to gain the student points, they would also do it for free.

High level armament apprentices were all highly pursued by the other students in the academy. If they really became a true blue Armament Master, then they would be viewed as a core figure!

Even Celestial Light's Armament Branch students who become a first tier Armament Master were only a total of twenty over people.

As long as she could pass the Armament Master qualification examinations, then she would be accepted as a core student directly, and even hope.... To enter Celestial Light Sect to become an outer disciple!

Tang Jinhua was obviously very satisfied with Li Xue'er's performance as he added several words of encouragement.

Li Xue'er took the opportunity and said, "Master, this time back to South Yue Kingdom, I'd brought along my best friend who is also intending to enrol for Celestial Light Academy! Master, do you think.... you can help her to enrol a little faster?"

Although she said to help in the enrolment process, but Tang Jinhua naturally understood that Li Xue'er hoped he would be able to help her best friend enter Celestial Light Academy.

However, as Li Xue'er, his disciple had made him satisfied, if Bai Ruo Qi's potential wasn't too bad, he didn't mind helping.

Tang Jinhua inquired, "Really? This is your friend?" He turned around and his gaze fell upon Bai Ruo Qi who had been standing by the side carefully, "What's your name? Which tier talent are you? What's your cultivation?"

Bai Ruo Qi replied respectfully, "Master Tang, my name is Bai Ruo Qi and I'm fifteen this year. I'm a fourth tier lower grade talent and my cultivation had just advanced to second stage realm."

When Tang Jinhua heard her reply, his brows creased immediately, appearing to be slightly perplexed.

"Fourth tier lower grade talent.... That's just a little too low! There were already several fourth tier upper grade talent practitioners who had registered for this year's enrolment and the total number of students who will be accepted will only be one hundred people. Her cultivation's still alright but she's just in second stage realm first level! There are a lot others whose cultivation are much higher than hers so if she want to be selected, there is a eight percent chance of it not happening."

Bai Ruo Qi's face turned slightly ugly as she lowered her head.

In South Yue Kingdom, she was regarded as a top talent but she had never expected that on the first day of entering Sky Cloud City, she had been despised so thoroughly, completely not putting her into regard at all!

To a proud talented young lady like her, this was a fatal strike!

Her pride was unable to take it.

But Bai Quo Qi also understood that a fourth tier Armament Master like Tang Jinhua naturally had very high sights and not taking her into consideration was very normal. Her usual bossy temperament naturally could not be shown now.

Li Xue'er hastily stood forward and hugging Tang Jinhua's arm shaking it.

"Master, please try to help! Although my best friend's innate talent is not very high but her uncle was a core student of the Celestial Light Academy, so can't you give her some privilege?"

Chapter 732: Priority to be selected (3)

Tang Jinhua was put in a difficult position but when he heard those words, his eyes congealed as though he thought of something.

"Wait.... South Yue Kingdom, and your surname is Bai... you mean..... could it be Bai Liu Feng?"

Bai Ruo Qi's face immediately filled with joy, "Master Tang, you are acquainted to my uncle?"

Tang Jinhua's smile on his face turned brighter. This time when he sized up Bai Ruo Qi, he seemed more amiable, "So.... Bai Liu Feng is your uncle? That year, Bai Liu Feng was my classmate! He's a powerful figure. Thinking back about that year.... In the first year of entering the academy, he had already become the core student, and he also became top student among the core students.... Till now his name is still on Celestial Light's Honour List! Since you're Bai Liu Feng's niece, naturally... you're different from the other examinees."

Bai Ruo Qi's heart was finally assured.

She knew how to observe one's words and gestures so she immediately continued from his words.

"Oh Master Tang is actually uncle's classmate! Uncle had indeed mentioned that while he was in Celestial Light Academy, he had many good friends but unfortunately he had no chance to say goodbye!"

In actual fact, Bai Quo Qi had not met Bai Liu Feng many times but for her to say such things now made others feel that she was pampered by her uncle from young.

Tang Jinhua became even happier when he heard that, "It's so rare that even though he had such high cultivation and yet he still remembers us. Too bad he's been missing for so many years, otherwise.... we should really gather together! Alright, I've noted down your matter so you can skip the basic exams and try for the second round of exams. But ultimately it would depend on your performance on whether you're selected or not! But don't be too worried. As long as your results are still passable, we will definitely give you priority to be selected!"

Bai Ruo Qi hurriedly accepted as she was overjoyed beyond words!

She had never expected Bai Liu Feng's name to be so useful. Just using this uncle's reputation whom she had no feelings for, she could easily be treated differently at Celestial Light Academy.....

This was simply a biscuit that dropped from heaven!

However, before she got even happier, Tang Jinhua's next sentence made her depressed.

"That's right, speaking of this, I remember that Bai Liu Feng has a daughter! In terms of age, she should be similar to you, is she alright? Why didn't she join in the examinations this year?"

No one had expected Tang Jinhua to suddenly remember Bai Ruoli as their hearts instantly become uneasy.

But very quickly, Li Xue'er reacted.

"Master, you mean... Bai Ruoli! She is indeed Bai Liu Feng's biological child but unfortunately she is a trash who is not able to cultivate so she didn't join in the examinations this round!"

"What? Bai Liu Feng's biological daughter is not able to cultivate?" Tang Jinhua's eyes widened as he said in disbelief.

Li Xue'er replied, "Isn't that right? Such a waste! Otherwise, why wouldn't she come for the examinations?"

Tang Jinhua sighed several times more, "That's too bad, just too bad, such a waste! If Bai Liu Feng's daughter had just a bit of cultivation talent, even if she was a third tier talent, our academy would enrol her immediately! I really didn't expect this....."

Bai Ruo Qi was overjoyed earlier but when she heard this, her face turned black.

With her fourth grade talent, Tang Jinhua only said to give her a chance at the examinations before being given priority selection.

But if that wretched lass came, no matter what grade talent she was, she would be selected immediately!

Chapter 733: Priority to be selected (4)

The differential treatment was just too obvious!

Comparing the two, the rear door that Tang Jinhua had opened for her was comparable to dismissing a beggar!

Moreover, Huang Yueli's true potential was that powerful and with Bai Liu Feng's bright stature around, in that case if she were really to come to Celestial Light Academy, wouldn't she do extremely well here?

Bai Ruo Qi was so upset that she clenched her teeth and cried out secretly: Luckily that wretched lass is dead! Luckily she didn't have the life to come to Sky Cloud City! No matter how many opportunities she had in Celestial Light Academy, it's all come to a naught!

Thinking of that, she started to feel a lot better.

When they finally bade farewell, Li Xue'er's mood turned considerably well.

"Ruo Qi, see my Master's quite good to you eh? The priority enrolment name list only have a total of five students every year and it's normally give to major powerhouses descendants, and this time he's left one place for you!"

Bai Ruo Qi immediately thanked her, "Xue'er, you really have your ways! If it wasn't for you, I would probably not even have the chance to take the examinations! And you already have the potential to become a first tier Armament Master, you're just too incredible, I must really congratulate you!"

Li Xue'er was extremely proud with herself but she was deceptively acted modest.

"You flatter me! Today you are able to get yourself on the name list, you also need to give credit to Marquis Bai Liu Feng's face! I hadn't expect Marquis Bai to be so powerful in Celestial Light Academy that year! Number one core student.... And with the title as Bai Liu Feng's niece, you'd have a smooth pathway in Celestial Light Academy!"

Hearing that, Bai Ruo Qi's face turned dull.

Li Xue'er realised something was wrong and asked curiously, "Ruo Qi, what's the matter?"

Bai Ruo Qi appeared fidgety as she asked in a whisper, "Xue'er, Imperial Tutor, do you think.... Bai Ruoli that slut.... has she died yet?"

Li Xue'er responded, "Whether she's dead or not, aren't you the clearest among us? That day we saw with our own eyes that she was pursued by that fifth stage realm expert without any way to strike back! No matter how powerful she was, she's just a second stage realm practitioner so is there any way for her to escape death?"

Bai Ruo Qi hesitated and asked, "But she's abnormal! In the past we had always thought she was some trash but in the end, not only was she suddenly able to cultivate, her cultivation also improved by leaps and bounds. Perhaps this round, there would be some sort of accident again?"

Imperial Tutor said dully, "I remember that when you were dragged into the woods by that fifth stage realm practitioner, didn't you say he used your blood and did a spiritual ritual to search for Bai Ruoli? Didn't you see if she had died then?"

Bai Ruo Qi replied, "Of course I didn't see it! At that time, I only saw that expert strangling Bai Ruoli's neck and had dragged her to one side and after that I couldn't hold on any longer and fainted! By the time I awoke, the both of them had disappeared.... Do you think that slut didn't die? If she were to suddenly appear, then I wouldn't be able to use uncle's name to continue staying in Celestial Light Academy?"

Li Xue'er thought for a while and replied, "I still feel that you're thinking too much! Didn't you say it yourself that Bai Ruoli's neck was strangled by that expert. Perhaps the next second, she was already strangled to death, so what could she come out with? You only didn't see her corpse. I heard that there's a kind of Cadaver Disintegration Powder which can turn the corpse into a puddle of water. Perhaps not only did Bai Ruoli die completely, even none of her bones and dregs remained!"

Saying that, Li Xue'er's eyes flashed past a glint of chilly laughter.

Chapter 734: You're too late (1)

Based on her judgement from the scenario from then, she was ninety percent sure that Huang Yueli was dead.

This was really something exhilarating!

The biggest insult that she, Li Xue'er had ever suffered was because of Huang Yueli!

Now she had died in such a terrible way, even her bones did not remain! Only for her to die this way would she slightly lift her feelings of hatred!

Hearing Li Xue'er say this, Bai Ruo Qi finally was rest assured.

Wasn't this wretched lass arrogant? Didn't she dare to insult her elder cousin at the peach blossom banquet, Crown Prince and Imperial Tutor, and even dared to plot against Li Xue'er?

No matter how complacent, how overbearing she was at that time, but what was the use?

Now that she had offended a real expert outside, didn't she die from just one palm strike?

Now, the person who had the last laugh was her Bai Ruo Qi!

...

Three days of enrolment period came to an end quickly.

Until the evening of the third day on the last quarter of the enrolment time, Huang Yueli still had not appeared.

Bai Ruo Qi was initially still rather restless, worried that Huang Yueli didn't die and suddenly come to life.

The results had proven that she was really thinking too much. That wretched lass had indeed been murdered by that killer and absolutely was not able to come back to life suddenly!

When she got to know about this, Bai Ruo Qi was especially overjoyed!

During her few days stay here, under Li Xue'er's guidance, she got acquainted to several Celestial Light Academy's teachers and Senior Brothers and Sisters.

After conversing with them, Bai Ruo Qi realised that her missing uncle Bai Liu Feng was that powerful, simply considered as a famous person!

Bai Liu Feng had broken many different academic records during the time he spent in Celestial Light Academy and was the only one whom Celestial Light Sect made an exception to interview to draw him into the Sect. It was also rumoured that the Sect Master had wanted to take him in personally as his disciple.

However, not knowing what Bai Liu Feng had in mind, he actually rejected the offer!

Bai Ruo Qi felt that Bai Liu Feng was extremely silly to have squandered such a good opportunity.

However his reputation was still outstanding. Many people had heard of him and it was because of Bai Liu Feng that she had differential treatment from others which made Bai Ruo Qi felt great!

She was also very sure that if Bai Liu Feng's biological daughter were to appear, then her identity as a niece would have to stand by one side.

Now that this wretched lass had died completely, she had no more qualms about using Bai Liu Feng's name to enjoy different privileges in Celestial Light Academy!

On the second day after the enrolment period had ended, Celestial Light Academy organised the preliminary examinations.

Preliminary examinations was just a simple check on the bone age, cultivation and grade of innate talent. But just that one round was enough to filter out at least ninety percent of the people who had enrolled.

Those whose innate talents were the lowest, who were fourth tier lower grade talents, among the rest were to take the second round of examinations. But these peoples' cultivations were mostly in second stage realm third stage, which was much higher than Bai Ruo Qi.

When Bai Ruo Li found out about this, she rejoiced in her heart.

If it hadn't been for her uncle, Bai Liu Feng, she probably would had been eliminated in the first round! Without even getting a chance to take part in the second round of examinations, she would have to return to South Yue Kingdom!

If that really was the case, then.... it would be too embarrassing!

Now she had nothing to worry about.

On the third day was the second round of examinations.

Bai Ruo Qi took a number plate as she queued up to enter Celestial Light Academy's public square to take the examinations.

Before she left, Li Xue'er encouraged her, "Do your best, you must perform properly! After today, we will be classmates in Celestial Light Academy!"

Chapter 735: You're too late (2)

Bai Ruo Qi smiled and said, "Don't worry, just wait and see, I'll be alright!"

The reason for her self-confidence was not without any reason.

Using Bai Liu Feng's reputation, she got acquainted to many people and she had inside news from a certain someone on the contents of the second round of examinations. A supervisor who had once received a favour from Bai Liu Feng specially brought her into the examination location secretly so that she could spend some time practicing there.

Celestial Light Academy's assessments were mainly based on impromptu ability to react but since Bai Ruo Qi already knew about the assessment content and had practiced it, she held a big advantage over the others.

Although her potential was not as good as the others, but as she already knew the technique to clear that stage, Bai Ruo Qi was certain that she was able to pass the assessment, and probably.... get a pretty good rank!

The examinees who were taking part in the second round of examinations had gathered at the public square.

A white-haired elderly man appeared in the middle of the tall stage.

"Everyone, I am Celestial Light Academy's vice principal. A warm welcome to you for enrolling to Celestial Light Academy and since you're able to pass the preliminary examination and to take part in the second round of examinations, then all of you must be the fittest among your age group practitioners. But it's not easy to enter Celestial Light Academy because at least half of all of you here would be eliminated today!"

No one below the stage talked as everyone stood upright with an anxious yet excited expression.

Celestial Light Academy's elimination rate was the highest among all other academies and everyone were very clear of this. So since they were here, they were prepared to compete against the other geniuses!

The elderly man swept his gaze below the stage and expressed a satisfied reaction towards the crowd as he nodded his head.

“But competition also represents an opportunity! In Celestial Light Academy, as long as you have enough power, you will be able to succeed in various competitions and obtain a large amount of resources. This entrance examinations is the same!”

“This time, all of your examination results will be recorded down and ranked. First place practitioner in the entrance examinations will be obtaining a fourth tier lower grade Profound armament, two hundred thousand mid grade spirit stones. Second place will obtain a third tier upper grade Profound Armament, one hundred thousand mid grade spirit stones. Third place will obtain a third tier mid grade Profound Armament, fifty thousand mid grade spirit stones.”

“Wowww.....”

When the prizes were announced, the examinees who were below the stage couldn't help but exclaim in admiration.

The prize for the first person who came in first in the entrance examinations would get.... A fourth tier Profound Armament!

To the first and second stage realm practitioners, a fourth tier Profound Armament was equivalent to an unimaginable huge amount of fortune! Even if it was a third tier Profound Armament, they were not able to afford it.

Even if they were geniuses from some big powerhouse, they were not able to get such a high class Profound Armament from their families!

Celestial Light Academy was really the number one Academy in South Sky Region. Just an entrance examination and they were giving out such expensive rewards!

The elderly man continued, “Besides that, the top ten practitioners would also be able to get a third tier lower grade Profound Armament, three thousand mid grade spirit stones. Top fifty would get a second tier upper grade Profound Armament, ten thousand lower grade spirit stones. So work hard everyone!”

After the elderly man had finished his words, he stepped aside and passed the official examinations matters to the school's teacher to explain.

However, at this point of time, no one noticed this at all.

All the examinees were so agitated that their eyes shone, with everyone rolling up their sleeves for battle, preparing to show their full potential to obtain a pretty ranking.

Even Bai Ruo Qi had secretly pondered as she knew she wouldn't be in the top ten category. But as she already knew about the contents of the examinations, perhaps, she might be able to get into the top fifty.

As long as she was able to get into top fifty, she would be able to obtain a second tier upper grade Profound Armament!

Chapter 736: You're too late (3)

The presiding examiner clapped his hands and the crowd quietened down.

“Since everyone is clear on the examination ranking rewards, then I shall explain the assessment contents in detail. The assessment is split into three portions, namely to assess everyone’s power, skills and determination.....”

The examiner explained in detail on the assessment content and style.

As Bai Ruo Qi already knew the information, her mind started to wander.

Truth be it, those who listened carefully to these details were practitioners from the surrounding smaller countries as these people were the most likely to be eliminated.

Those who were able to get a top ranking were mostly geniuses who were born in various powerhouses in South Sky Region. They already understood Celestial Light Academy’s assessment criteria while they were in their homes and some powerhouses even let their own geniuses practice in advance so as to guarantee their ranks and rewards.

Besides the elderly Vice Principal Ling, there were also several other people who were seated on the tall stage right in front of the public square, looking at these examinees.

Bai Ruo Qi looked afar and recognised one of them as Li Xue’er’s Master Tang Jinhua. Although she didn’t recognise the others, but she knew they must be some important figures in Celestial Light Academy.

It looked like the entrance examinations were rather important since it attracted several important people like Vice Principal Ling to personally come and take a look.

She must put up a good performance this time.

Just as Bai Ruo Qi was looking around, a disturbance could be heard from the direction of Celestial Light Academy’s main entrance.

As though someone was arguing with the academy’s guards, as the sounds of dispute could be heard distinctly from the public square.

The examiner noticed the situation and frowned as he ordered the person next to him, “Go take a look at the situation? Today is a big day for the school’s entrance examinations and it’s extremely important. Go see if some other academy’s students have come to create havoc?”

That person walked one round around the entrance and relayed the message, “Seemed like someone was late and wasn’t able to enrol on time but still insisted on taking the assessment. The guards at the entrance refused to let her in so both of them had some arguments.”

Examiner unhappily replied, “Quickly ask that guard to make that person leave! Every year there would be some who were late and not able to make it for the examinations and every year it would be handled properly but why is there such a huge commotion this year?”

This year, Vice Principal Ling had specially drew some time out to take a look at the entrance examinations, so that he could pick out diamonds in the rough!

If the entrance examinations were handled properly, the examiner would be able to shine in front of Vice Principal Ling.

He couldn't allow anyone to create trouble at this juncture.

"Yes, yes, I'll go relay your message immediately for the guards to quickly...."

The examinees below the stage had heard what happened and all of them looked curiously towards the entrance.

Some of them even started to discuss this matter.

"Wa kao, who dares to create trouble at Celestial Light Academy, don't she want to live anymore?"

"Didn't you hear what the examiner said? That person didn't manage to enrol in time and wanted to gate crash to take the examinations! Ha, wishful thinking, where does she think this place is?"

"That's right, my background is from the top ten families in South Yue Region and I must also obediently enrol on time? Who does that fellow at the gate think she is? If she angered Celestial Light Sect, in future, no other academy would dare to take her in!"

Just at this moment, the disturbance from the entrance became even clearer.

Following that, the figure of a slender young lady slipped past from the door and rushed right into the public square.

Chapter 737: You're too late (4)

And right behind her was a large group of academy guards, all of them ashen faced and bearing swollen faces as they pursuing her endless but yet unable to keep up with her.

"Stand there, stand there right now!"

"What place do you think Celestial Light Academy was, a place for you to crudely rush into?? Don't you want to live anymore!"

The young lady's footsteps stopped momentarily as she stopped in front of the public square, turning her sights onto the lines of crowd on the examination hall as her eyes gave out a gleeful smile.

"Yi? The assessment hasn't started yet? I managed to get here in time! Examiner, I want to enrol for Celestial Light Academy's entrance examinations!"

Hearing this clear and melodious voice, Bai Ruo Qi turned around abruptly and upon one glance, her mouth opened wide with a face of disbelief!

Because the young lady in front of her eyes was actually Huang Yueli!

It was actually that wretched lass! S...She actually appeared at this place!

What was going on? How could this be possible?

This little slut.... hasn't she died already? Hasn't her body been turned into water by the Cadaver Disintegration Powder??

But for her to appear here now, was she human or ghost??

Seeing that the guards were not able to deal with someone who gate crashed into the venue, the examiner's face turned black immediately as he berated dissatisfiedly, "What are you all doing? This is the most important time of the academy's assessment! Why can't you even guard the door properly? What are you waiting for, still not going to remove this person!"

Hearing the examiner's words, Bai Ruo Qi's pale like sheet face slowly started to gain some colour.

Right, although this wretched lass suddenly appeared, but she actually dared to act blur in such a way!

It was already way passed the enrolment period and she still dared to barge in. Did she think this was South Yue Kingdom, using Prince Yu Wang's might to do as she wished?

Now that she was under Celestial Light Academy's powerful grasp, this slut.... probably would not even get a chance to express that she was Bai Liu Feng's daughter and would be bound up and thrown out of the academy!

The guards had finally reached the public square.

After a lecture from the examiner, all of them were embarrassed and hurriedly rushed up to catch her.

But who would have expected Huang Yueli to slip aside and as the guards were about to catch her, she managed to escape their grasp and all of them caught hold of nothing.

Huang Yueli hid aside and shouting loudly, "Hey, the few of you don't keep your words! Didn't we agree earlier that as long as I can enter Celestial Light Academy, you will let me take the examinations! How can you go back on your words now? Is Celestial Light Academy's credit so worthless?"

.....

"Yi? Did you see what happened earlier?"

Vice Principal Ling suddenly gave a sound of astonishment on the stage.

The grey robed elderly man beside him nodded, "You mean that young lass who barged in? Her footwork is really something!"

Vice Principal Ling continued, "Yes, the Profound Energy vibrations coming from her body seem to be only second stage realm cultivation but those guards who tried to capture her earlier are all third stage realm practitioners, and by right their reaction should be faster than hers by a lot. But her footwork is so ingenious and could actually trick them go into circles....."

"This lass is really not simple....."

.....

The public square had already turned into a mess.

The expressions on the guards who were trying to capture Huang Yueli had turned ugly and as they turned around to catch her, all of them shouted at her heavily.

“Wretched lass, you... you actually cheated us!”

Chapter 738: You're too late (5)

“That's right, if you hadn't snuck an attack on us, how could you possibly get into the academy!”

“And you still dare to sprout nonsense in front of the examiner! Don't even think of being able to attend the entrance examinations today, get out here quickly!”

Huang Yueli blinked her big eyes as she pouted in dissatisfaction, “You all really intend to go back on your words? Alright then, I won't stand on ceremony!”

Saying that, she waved her hand and before the guards could even see her movements, they felt their legs giving way as they lost their balance.

A few “Patter”, “Patter” sounds were heard and under everyone's witness, these third stage realm guards actually fell onto the ground, and all of their faces kissed the ground!

Huang Yueli's face was all smiles as she crossed her arms and on her delicate face was an innocent expression.

“Ai ya, you're too courteous. No matter what, you're also Celestial Light Academy's guards and at third stage realm! Even if you feel that you've done me wrong, you also don't need to pay such a huge respect! You're prostrating in front of me, I really can't accept this!”

The guards had fallen onto the ground seeing stars as their heads had gotten dizzy.

After their dizziness had gone off, they finally realised what happened and the few of them were so ashamed and resentful that they wished for death, only hoping to hide into the ground!

How could they... how was it possible... that they were tripped over by a second stage realm lass? And to fall in such an unsightly position! Moreover, it was on the entrance examinations grounds, in front of so many examinees!

This was embarrassing to the max!

The few guards continued to lean on the ground, not daring to climb up or lift their heads to see anyone.

They didn't expect Huang Yueli to say that.

The few of them almost vomited out a mouthful of blood!

When the examiners on the stage saw this scene, their expressions started to change!

As Celestial Light Academy's teacher, his cultivation had reached fifth stage realm and his power was much higher than those guards. So he had seen clearly Huang Yueli's trajectory.

When this lass struck out her hand, she had also thrown out some kind of secret weapon. That method of throwing out the item was extremely tricky and as those third stage realm practitioners didn't manage to react in time, they fell into her trap.

Not only was her strike fast, swift and accurate, her mouth was shockingly vicious.

After being tricked by her today, it was imaginable that few guards didn't have the face to continue staying in Celestial Light Academy.....

The examiner was initially utterly discomfited and wanted to chase her away but at the present moment, his expression changed.

The lass in front of him looked pretty young but her cultivation had already reach second stage realm and she was at least a fifth grade talent, so she was considerably strong.

Besides that, the way she utilised her Profound Skill was not simple at all. It wasn't something which ordinary people were able to learn.

This young lady might come from some huge powerhouse.

Towards the genius young lady who had both talent and powerful connections, the examiner naturally wasn't willing to offend her. So his attitude immediately changed.

"This... this young lady, what's your name? From which family did you come from? Did you know that our academy's enrolment period has ended and you're already late so you're not able to take part in the examinations?"

When the examiner said these, his tone was stable and calm. Based on his position, he was considered rather modest.

Huang Yueli then let the guards off as she turned towards him and replied in a light tone, "My name is Bai Ruoli and I come from South Yue Kingdom."

Chapter 739: You're too late (6)

"When I came over today, I heard that the enrolment period had past but I travelled a long distance from South Yue Kingdom and you can't expect me to go back like this! I hope Mister Examiner would give me a chance, please."

When the examiner heard what she said, he went into a blank.

The young lass in front was asking for an exception to join the examinations which wasn't surprising at all.

But when he asked where she came from, it was with the intention to sound her out to see if her family had some relationship with Celestial Light Academy, so that he could use it to her advantage and find a reason to give her a chance.

The result, who knew.....

She actually said she came from South Yue Kingdom?

Where on earth is that ghost town, he had never been there before!

His impression of that place was one of the ten small countries around Dark Moon Forest, so small that it couldn't be any smaller....

In this case, should he give this lass a chance?

...

Just as the examiner was hesitating.

On the stage, Tang Jinhua suddenly yelled out in surprise, "South Yue Kingdom, and her surname is Bai! This... this young lass couldn't b.... couldn't be...."

Vice Principal Ling asked curiously, "Master Tang, why are you so excited? Don't tell me you know this lass?"

To be able to sit on the stage to observe the examination grounds were all upper management of Celestial Light Academy. And among those present, only Tang Jinhua was a fifth stage realm practitioner.

But Tang Jinhua was an Armament Master with rather good potential so his status was naturally much higher than similar levelled practitioners.

Tang Jinhua said, "Vice Principal Ling, didn't I mention this yesterday? The reason why I want to observe the assessment is because a friend's niece is one of the examinees. To tell you the truth, she is the famous Bai Liu Feng's niece!"

"What? Bai Liu Feng's niece?"

Those present started to cry out in alarm as their eyes revealed several glints of shock.

When Bai Liu Feng was in the academy that year, his reputation was so resounding that only those who had experienced it personally knew about it.

To be honest, his potential at that time had long surpassed many Celestial Light Sect's direct disciples and many records which were still preserved at Celestial Light Academy were created by Bai Liu Feng.

After he had rejected Celestial Light Sect Master's offer to be his disciple, he left Celestial Light Academy and his power advanced by leaps and bounds, which made everyone unable to believe that he came from a small country around the border.

Vice Principal Ling hurriedly asked, "How is the potential for Bai Liu Feng's niece?"

Tang Jinhua shook his head as he replied, "I must disappoint Vice Principal Ling, Bai Liu Feng's niece's talent is rather common and even if she is able to enter Celestial Light Academy, she would probably be at the bottom of the rung. When she came to enrol, I had asked about Bai Liu Feng's daughter and she said her cousin is fourteen this year...."

Hearing that, everyone's gaze turned towards Huang Yueli.

“In that case, this lass below also came from South Yue Kingdom, and her surname is also Bai. How many practitioners bore the surname Bai in that small place, and with such great innate talent to be able to defeat third stage realm practitioners, I guess she must be Bai Liu Feng’s daughter!”

“That’s right, no wonder her mastery of footwork and usage of secret weapon is so exquisite, I’m guessing it must be passed down from Bai Liu Feng!”

“Correct. Seeing how natural and unrestrained from the way she speaks, that quick wittedness doesn’t lose out to Bai Liu Feng at all, so she must be her!”

“Bai Liu Feng is considered as quick witted? That fellow was a mischievous chimp! Sinister and crafty, not a good person!”

“Ha ha ha, Master Cheng, I know that Bai Liu Feng had burnt your beard that year so you still nurse hatred towards him till today. How long ago was that already!”

Chapter 740: On what grounds are you asking me ? (1)

“Humpf, I’m not someone who bears grudges!” Master Cheng’s face blushed when he was exposed by his friend as he hurriedly denied the allegation.

Vice Principal Ling then said, “Since she’s Bai Liu Feng’s daughter, then her ability should be almost the same! Based on the contributions during his year in Celestial Light Academy, it’s entirely justified if we enrol her directly, so just pass down the message.....”

“Wait a minute, Vice Principal Ling!”

When Tang Jinhua heard that, he frowned as he hastily cut into the conversation.

“What’s the matter? Master Tang, do you feel that we shouldn’t make an exception? You were in the same cohort as Bai Liu Feng and towards the things that he had done, you should have more or less heard about it. That year, he was, after all...”

Tang Jinhua shook his head and replied, “I don’t mean it in that way. If she’s really Bai Liu Feng’s daughter, then we should directly enrol her. But she probably isn’t.....”

The few of them went into a blank.

“Not her? How could that be possible?”

“Yes, please explain why you think so?”

Tang Jinhua continued, “When Bai Liu Feng’s niece came to enrol, I asked about Bai Liu Feng’s biological daughter. Although she is fourteen years old this year, but she didn’t have any innate talent, and was a cultivation waste. Because of this reason, she didn’t come for the entrance examinations this year along with her cousin. The young lass’s potential is not too bad and although she could not be compared to Bai Liu Feng that year, but surely we cannot considered her to be a waste right?”

When the crowd heard, they gazed at one another as their intense debate had extinguished by a large bit, as though doused by cold water.

“In this case..... after so much time, she isn't Bai Liu Feng's daughter?”

“We rejoiced too soon.....”

“But since she came from South Yue Kingdom and also bear the surname Bai, surely she should have some kinship with Bai Liu Feng right?”

“This is hard to say. Even if so, it's still different from her biological daughter, so if we were to directly enrol her, it would be very difficult to explain.....”

Vice Principal Ling heard everyone's discussion and after thinking for a moment, he passed a message to someone.

“Since we can't directly enrol her, but this lass's innate talent is not bad, so we can still give her a chance. Go pass down my command to give this lass an assessment quota!”

.....

On the public square.

Huang Yueli and the examiner were in a deadlock for quite some time.

She noticed the other party's hesitation and said, “I know it's difficult for me to convince everyone if I were to join in at this juncture. Why not we do it this way, you can test me a different set of assessment. Even if the difficulty is much higher than the others, it's fine as well. In this way it will be fair.”

Examiner looked at her surprisingly.

Most people who took the entrance examinations at Celestial Light Academy were afraid they would not be able to pass but this lass actually asked to raise the bar?

What was wrong with her? Wasn't she afraid that her standard would be too far apart and embarrassed herself?

“Since that's the case.....”

The examiner had just agreed to her terms when she saw someone coming down from the stage to pass a message.

The other party whispered a few words by his ear and the examiner gave an astonished expression which followed immediately by his announcement, “Alright, since your attitude is so genuine, then we shall make an exception, so do show us good results in the examinations! The enrolment criteria remains the same as the others!”

“Fwah~~~~~”

The crowd went into an uproar the minute the examiner announced the result.

“How could they do this? They actually permitted her to join in the examinations?”

“Moreover the assessment criteria is the same as the rest! Earlier she suggested to raise the standard but the examiner actually didn't agree to it?”
