

Weaponsmith 781

Chapter 781: Star currency is so easy to earn! (1)

The minute the closed door cultivation room door was opened, Huang Yueli was both overjoyed and surprised.

Celestial Light Academy was really worthy of the number one academy in the South Sky Region. The cultivation terms was indeed not ordinary.

From the foot of the mountain to the top, she felt that the abundant Profound Energy along this Spiritual Artery was at least a fourth grade Spiritual Artery.

As for the mountain top's closed door cultivation room, it gathered a large amount of Profound Energy from heaven and earth and there was an array which could regulate the Profound Energy's attributes and intensity.

Twenty star currencies.... were really well spent!

Huang Yueli wasn't too worries about not having enough star currency to earn. After all, a skilful Armament Master didn't have to worry about that at all.

She activated the array, sat down cross legged and started her cultivation.

Due to the forced advancement, the spiritual body gathered in her body wasn't very stable and her meridians were slightly damaged.

This sort of internal injury would normally require at least a month to completely recover.

But with this closed door cultivation room, she would be able to repair all the hidden illness in her body within three days.

The only thing to regret was that she had attempted several times to continue advancing but every single time she was on the verge of third stage fourth level, she would meet a bottleneck and stop.

It seemed that if she didn't gather all the medicinal herbs recorded on <<Nine Phoenix Transformation>> then she can forget about advancing easily.

Three days passed by in a flash.

Huang Yueli stretched her body as she stood up, and at the same thing continued to ponder.

These three days of closed door cultivation effect wasn't too bad at all and in future, she could come frequently to cultivate. She also heard that she could rent high class refinery using star currency so it would definitely be of use in future.

Just from this, the places which used star currency was quite a lot!

But how do they earn star currency?

She thought about this on the way while walking and as she was leaving the room, someone called out to her.

“Junior Sister Bai, you have a few visitors and they had been here since three days ago. Do you want to meet them?”

“Visitors?”

Before the Senior Sister could reply, someone called out from the back.

“Bai Ruoli! It’s really you!”

Huang Yueli turned back and saw a young lady dressed in light purple skirt pouncing towards her.

“Younger Sister Li, I’m Su Qingyue! We haven’t met for several years already! I heard the others say the new student who got first place is Bai Ruoli from South Yue Kingdom and I thought I was dreaming! How did you.... weren’t you not able to cultivate in the past? How did you become so incredible so suddenly!”

Huang Yueli went into a blank and quickly sought out this person from her memories.

This Su Qingyue was a daughter a reputable family from the neighbouring South Ming Kingdom and when she was young, she had followed her father to Valiant Martial Manor as a guest and played often with the original Bai Ruoli.

Her innate talent was of fifth grade lower but she was very easy going. Even after Bai Liu Feng had disappeared, she would still drop by frequently to play with Bai Ruoli.

But ever since she had enrolled into Celestial Light Academy two years ago, she had lost contact with Bai Ruoli.

Huang Yueli revealed a smile, “Elder Sister Su, it’s actually you! I miss you too! As for my cultivation matters, that’s a long story.....”

She had a fond liking towards Su Qingyue. After all, with such an innate talent but still retaining such nice personality wasn’t commonly seen.

Huang Yueli and Su Qingyue started reminiscing about old times.

When the both of them were talking halfway, the Senior Sister manager suddenly ran in.

“Junior Sister Bai, your number one place is really a hot potato! You’ve just came out from closed door cultivation and someone had already sent you a battle invitation to fight!”

“Battle invitation?” Huang Yueli blinked her eyes as she felt slightly lost.

Su Qingyue’s expression, on the other hand, changed.

Chapter 782: Star currency is so easy to earn! (2)

“What battle invitation?” Huang Yueli asked.

Before the Senior Sister could reply, Su Qingyue had butted into the conversation and hastily said, "Younger Sister Li, don't casually agree to these fights! Those people who sent you these battle invitations all harbour ill intentions!"

"Oh? What do you mean?"

Su Qingyue explained, "You just arrived at Celestial Light Academy so you don't know. This sort of battle invitations are official fights and will be openly held at the academy's Martial Arts Stage. Moreover each individual battle uses star currency for betting purpose. Each bet requires at least ten star currency! You also know that star currency is hard to get right? Battles are one of the fastest way to earn star currencies."

"Most new students in the top few places would get star currencies as a reward in the entrance examinations when they just entered the school. So some shameless senior students would take advantage that the new students don't know what's going on and will send you a battle invitation when you just entered the school!"

"The top few new students would normally feel that they are the most outstanding among all the new students, so to go against the senior students would not be a problem. Once they get heated up, they will agree to the battle. In actual fact, those students who had stayed in the academy for two years or not, even if their innate talent isn't very high, but their power are much higher than the new students by several times! So new students had never won before!"

Hearing Su Qingyue's explanation, Huang Yueli finally understood.

This meant they were trying to take advantage of the new students?

Honestly speaking, she had seen quite a number of such scums in her previous life and there were quite a number of such disciples in Mythical Flame Palace.

Actually, it looked like these people had gained advantage but since they only dared to challenge those who were weaker than them, this was a very serious psychological damage and it would affect one's initiative so it would be difficult to have much achievements in future.

Huang Yueli replied, "Now this is interesting. So Celestial Light Academy has such a tradition! Sister Qingyue, quickly tell me what are the regulations during the battle?"

There's a lot! All the Celestial Light Academy's students would have a uniformed ranking at the Martial Arts Stage. If one's ranks was lower than those higher ranked people, the opponent cannot reject the battle. But if those higher ranked ones wishes to challenge those lower ranked ones, then the latter can reject the battle! Moreover, the bet is ten times of the original amount!"

Huang Yueli's eyes shone and cried out in surprise, "Eh? There's such a good thing! In that case, if I were to bet ten star currency, then the person who sends me the battle invitation would have to bet one hundred star currency! Then if I were to win, one hundred star currency would belong to me! Wow, this star currency is so easy to earn?"

Su Qingyue had thought her earlier words had frightened Huang Yueli but who knew she would be excited to such a state!

Su Qingyue was dumbfounded and after a moment, she responded, "I saw, Younger Sister Li, did you hear what I said earlier? The potential between new and old students.... is not comparable!"

Huang Yueli laughed, "That may not be necessary. Whether it's comparable or not, we still will have to see one's potential! Quickly tell me, is it possible that when they invite me for each battle, I will be able to bet at least one hundred star currency?"

"Right, that's correct but...."

Huang Yueli cried out a "Wow" and continued, "That's great. Senior Sister Manager, I'll accept this battle invitation! Can you help me to check when will the battle held?"

"Younger Sister Li, y..y...you're so muddle headed!" Su Qingyue almost jumped up, "I already told you that no new student had ever won the old ones! Y... You actually accepted the battle so easily!"

Chapter 783: Star currency is so easy to earn! (3)

Even the Senior Sister was shocked as she speechlessly shook her head.

"Junior Sister Bai, don't be so rash! Junior Sister Su is right, those older students have mastered their cultivation methods and Profound Skills after so long at Celestial Light Academy and it's not at a level that you new students could imagine! Although you are ranked first among the new students and is already at third stage realm but Celestial Light Academy had plentiful of third stage realm practitioners. The top ten core students are mostly fourth stage realm practitioners! You're not comparable to them in any way...."

Huang Yueli smiled, "Senior Sister, I appreciate your kind heartedness. But those top ten core students all want their face so why would they come challenge a new student like me? Don't know, I know my baseline."

In actual fact, even if it was the top ten core students, she wasn't afraid at all.

When she was in second stage realm, she had easily defeated the fourth stage realm Imperial Tutor.

Now that she had successfully advanced to third stage realm, those practitioner below fourth stage realm nine level were definitely not her opponent.

But in order not to scare the Manager Senior Sister, she had to be conservative.

Despite Manager Senior Sister and Su Qingyue's repetitive persuasions, they were not able to change her mind so they helplessly watched her accept the battle invitation.

"This... you don't even want to take a look and just accepted it?"

"What's the point...."

Seeing Su Qingyue's disapproving expression, Huang Yueli opened the battle invitation.

"Ye Mingshuang, third stage realm second level, core student, Martial Arts Stage ranking: Sixty Nine.... There's not much content on this battle invitation...."

Huang Yueli didn't think much of it as she read on, seeing that Su Qingyue's face had already turned petrified.

"Elder Sister Su, what happened to you?"

Su Qingyue was already showing an expression which looked like she was about to cry.

"Even Ye Mingshuang came to challenge you and y...y...you.....actually accepted the battle invitation! Do you know the concept of what rank sixty nine in the Martial Arts Stage was? For an ordinary third stage second level practitioner to rank top hundred was already a difficult feat, moreover she's ranked in top seventy!"

"She's just in the top seventies, Elder Sister Su, you're too anxious. No need to worry. It's seven days to the battle and by then, just come to the Martial Arts Stage and watch me, that will do."

Huang Yueli smiled indifferently.

"You~~~~~! Ai!" Su Qingyue wasn't able to convince her so she became even more anxious!

But newbies who had just enrolled into Celestial Light Academy were always that blindly confident and right after they've eaten a major disadvantage then would the fact sink in.

After she had been utterly defeated during the battle, she believed that Huang Yueli would then quieten down.

The news that Huang Yueli had accepted Ye Mingshuang's battle was soon widely spreaded in Celestial Light Academy.

It was a closely watched yearly affair whenever battle invitations were sent out to the new students.

No one would ever doubt that the older students would not win.

But some new students were more prudent and were not willing to accept the battle invitation so they were not able to gain any advantages.

Now that Huang Yueli had proactively accepted Ye Mingshuang's battle invitation, it meant that this year's number one student.... Indeed had some potential but was simple minded and rash.... In other words, there were advantages to be gained!

For a moment, the news made many students' hearts stir.

On the same afternoon, Huang Yueli received her second battle invitation.

"Hu Jingyao, third stage realm third level, core student. Martial Arts Stage ranking: Sixty four! Yi, your cultivation is much higher than that Ye something and your ranking seems to be slightly higher."

Huang Yueli held the battle invitation in her hands as she commented lazily.

Chapter 784: Star currency is so easy to earn! (4)

Hu Jingyao was a tanned youth, around twenty years old.

He narrowed his eyes and said, "That's right, my potential is much higher than Ye Mingshuang but the overall performance isn't too different. Do you... dare to accept my battle invitation?"

Huang Yueli was beaming as she replied, "Mn, I accept! Remember to prepare your star currency!"

"Ke ke, don't you worry about it. I think... you're the one who should prepare your star currency!"

Hu Jingyao stared at the delicate fair face and her faint smile and was captivated momentarily by her looks as he pondered silently.

Could this top student be an idiot?

He and Ye Mingshuang were not ordinary people. Among the core students, they were rather famous.

Truth be told, for the first time in several decades, Huang Yueli had been the first one to enrol into the school as a core student so ordinary students really didn't dare to challenge her. Those who did were naturally not common people!

Heavens knew how she was able to accept these battle invitations so indifferently.

Who did she think she was?

No matter what, she's just a new student who had just entered the third stage realm! To breakthrough on a last minute basis, her base was not stabilised and yet she was already thinking of exchanging blows with those core students who had entered third stage realm long ago?

Hu Jingyao silently shook his head but said nothing at all.

In actual fact, based on his cultivation and potential, he felt that it was beyond his dignity to take part in matters such as taking advantage of new students. If it wasn't for someone who had promised him some other benefits, he wouldn't even be standing here.....

But since he was already here, he wouldn't show any mercy.

He would treat this as a lesson for the new student! To let her know how deep the water ran in the Celestial Light Academy!

Hu Jingyao left behind his battle invitation, passed it to her and left.

Who knew, right after he took one step, he was called out by Huang Yueli.

"Oh right, that.... Senior Brother Hu, wait a moment!"

Hu Jingyao suddenly turned around, "Why? You regret it already? Since you've accepted this battle invitation, then the Martial Arts Stage have already taken in this case so there's no chance for regrets!"

Huang Yueli smiled as she showed a set of tidy white teeth.

"That's not it, Senior Brother Hu, you're mistaken! I just want to ask you if you happen to know if there's anyone else who wants to challenge me? Please pass the message around and tell them to go ahead. No matter how many of you come, I will accept all the battle invitations!"

Hu Jingyao stood in blank momentarily and following that his pupils dilated as though he had just seen a ghost.

Where on heavens would you find such a ridiculous matter?

This lass actually... actually proactively asked other people to come challenge her?

What was wrong with her?

Had water seeped into her brain? If she were to accept so many people's challenges, and to fight continuously, no matter how strong she was, she would not be able to take part in a cartwheel battle right?

Moreover, as a new student, if she wasn't able to win even one single round, if she accepted so many battles, was she prepared to lose all her fortune?

She really don't know the immensity of heaven and earth!

Hu Jingyao snorted, "Since Junior Sister you're so confident, I'd naturally inform the others!"

"En en, then I'll depend on your Senior Brother. Have a good trip!" Huang Yueli waved.

Hu Jingyao almost spat out a mouthful of blood as he clutched his chest and walked away looking melancholy.

After Hu Jingyao left, he spread what Huang Yueli had said and indeed, the entire Celestial Light Academy swarmed up a huge wave!

Everyone was now saying that the top new student didn't have any self-knowledge and was simply looking for death!

Those who were looking to gain some advantages were overjoyed and very quickly, Huang Yueli received yet another two battle invitations.

Chapter 785: How many more? I'll accept it all (1)

Ye Mingshuang, Hu Jingyao and two more new battle invitations. There was a total of four.

Huang Yueli was waiting to receive even more battle invitations but surprisingly after she received these four invites, she no longer received any new battle invitations.

She was feeling strange when Su Qingyue came looking for her again.

Su Qingyue had an angry expression and as she entered the door, she furiously screamed, "Younger Sister Li, why can't you take in advices and you actually accepted so many battle invitations! Don't you know that you've been tricked by others!"

"Tricked? What do you mean?" Huang Yueli displayed a lost look.

Su Qingyue was utterly discomfited as she continued, "It's all because of that what Li Xue'er! To think she she's also from South Yue Kingdom like you! How can she trick you like that! I tell you, those top

experts like Ye Mingshuang and Hu Jingyao are all reputable people in the academy so why would they suddenly challenge new students out of the blue? It's all because of Li Xue'er's instigation!"

Huang Yueli stared blankly momentarily but she started smiling at the next moment, "I really can't tell that Li Xue'er in Celestial Light Academy... still had some sort of influence!"

Su Qingyue retorted, "Smile, smile smile, you can still smile! I heard that you and Li Xue'er had some feud in South Yue Kingdom! You ah.... Don't you know she's the beloved student of the great Armament Master, Master Tang and it's rumoured that she already at the level of a first rank Armament Master! Do you know how many core students are rushing to get into her good books? Now that you've offended her, do you think you will have any good days to spend in the academy?"

Huang Yueli smiled as she shook her head and replied, "Only a first rank Armament Master. Why are all the current practitioners all so short sighted....."

"You... Sigh, what do you know? For practitioners like us who come from small countries, we are already not looked upon by those students whose backgrounds are from the major families in Sky Cloud City. Now that you have obtained first place, the number of you who want to see you fall, and with Li Xue'er pushing the waves and adding to the billows, do you think you can easily pass this round?"

"By the day of the battle, losing star currency is a small matter. If you're seriously injured, it will affect your future cultivation and you'd be in deep trouble! Such a pity you're so rash and had already accepted the battle invitations, so even if you want to change your mind, it's too late already!"

So Qingyue was really anxious as her eyes had turned red.

There were many practitioners who came from small countries in Celestial Light Academy and they had always been bullied. So they had silently formed their own group and Huang Yueli to them was one of their people.

Their small country team finally had a top new student with endless future and she really didn't want to see that Huang Yueli had just joined the school and already beaten until she wasn't able to raise her head up!

Huang Yueli didn't know how to comfort her and could only show her the truth when that day was over.

She thought about it and said, "Alright Elder Sister Su, no matter what you say, I've already accepted the battle invitations. So even if you're worried, there's no point anymore! Right, I want to ask you something! Do you know why is it that after I've accepted four battle invitations, no one else continued to give me any invitations? Is there a regulation in school that each person could only accept four battle invitations?"

Su Qingyue rolled her eyes and said, "How could that be possible! There is no limit to how many battle invitations one can accept! But you only have a total of forty star currency and you have to bet ten star currency for each round. Now that you're penniless, naturally no one would be able to send you any battle invitations!"

Saying that, she showed a relieved expression, "Luckily you had already spent sixty star currency on your first day. Otherwise if it were all spend here, you'd have made a huge loss!"

Chapter 786: How many more? I'll accept it all (2)

Huang Yueli just understood the whole situation was because she was too poor....

In such a short time, her star currency had been deducted to zero. Shortage of funding was a big problem. No wonder everyone said star currency was very important.

Just merely four rounds of battle for the opponent to bet ten times of the amount would only earn her four hundred star currency. It was a little too little!

Huang Yueli pouted her lips and thought for a moment before her eyes shone.

"Right, Elder Sister Su, do you have any star currency? Lend me some! After seven days, I'll return you double the amount!"

Su Qingyue looked at her alertly, "You wish to borrow star currency?"

Huang Yueli nodded and replied, "That's right. If you're worried that I won't return it, I can write an IOU and we can leave a record with the academy's teachers so I won't be able to deny it after."

Su Qingyue replied, "I'm not worried about you not returning but.... at this moment, why do you need to borrow star currency for?"

Huang Yueli replied, "About this... I was thinking if I had more star currency on hand, doesn't it mean that I can accept more battles?"

Su Qingyue had originally made a wild guess secretly but when she heard Huang Yueli say it out, it still felt like a lightning bolt striking her from the top, burning her to a crisp.

She had never seen anyone who looked for death so earnestly! Borrowing money to battle! Did she feel that she hadn't lost badly enough yet? Felt that losing her entire fortune wasn't enough and was prepared to live with a life filled with debts?

"No way, impossible! I will never ever lend you this money!"

Su Qingyue hissed out the words and stomped away in rage.

Huang Yueli was stunned, not expecting that she had so little confidence in her!

But it was understandable. In Su Qingyue's eyes, she was that trash Bai Ruoli several years ago. For trash to be able to cultivate and become first place among the new students was already a marvel.

How was it possible that she would be the first one in several decades to win the battle against the older students?

This was not a marvel but a miracle!

"Sigh, I originally intended to help you and share the riches but I didn't expect you to not reciprocate...."

Huang Yueli shook her head as she heaved a sigh of relief.

But she knew where the problem laid so there was a way to solve it.

Huang Yueli quickly set up a booth in the academy and openly asked for a loan from the entire academy's teachers and students!

Her loan rules were very simple, borrow one hundred star currency to be returned seven days later. By then, it would be calculated according to a fifty percent interest which was to say, the owner would get one hundred and fifty star currency!

The interest rate was much higher than loan sharks!

The entire academy was rocked by this news instantly.

Top new student openly borrowing money in the academy! Moreover, to using such a method to loan money and such a high interest rate!

Who would use such a method to loan money and to give such a high interest rate, could it be a scam?

However, there were some gutsy people who went ahead and tried. They found that Huang Yueli was very clear cut when she dealt with the matter and when she was loaning the money, she had gave our several IOUs which had been recorded by the academy. With the academy's teachers as a guarantor, it would ensure nothing was lost!

Even if she wasn't able to return, the academy would pay for her first.

With this, the amount of people who heard about this increased and very quickly, Huang Yueli had consolidated one thousand star currency!

In actual fact, she really wanted to borrow a bit more but the academy's side was rather restrictive and was only willing to guarantee her for a maximum of one thousand star currency.

This matter was even approved because of Principal Jiang's accord. Otherwise if a new student wanted to earn a thousand star currency, one would need at least two years and the academy was worried that she was not able to pay back.

Chapter 787: How many more? I'll accept it all (3)

Huang Yueli's borrowing without restraint caused the crowd to raise suspicions.

As a new student, why did she need so much star currency for?

Li Xue'er had intentionally walked one round at her booth and took out one hundred star currency.

"Don't you want to borrow money? I'll loan it to you! But I advise you not to do any last minute struggles. As a new student and you're loaning one thousand star currency, even if you exchanged for a huge amount of cultivation methods or Profound Armaments, so what? Don't tell me you are able to learn it all within seven days? Since you're going to lose, why bother to borrow so much money? So pitiful, your future in Celestial Light Academy would only result in taking up dangerous jobs such as medicine testing to repay your loan....."

Li Xue'er displayed a bemoaning the state of universe and pitying the fate of mankind expression as she spoke earnestly.

She attracted surrounding people who exclaimed that Li Xue'er was so kind.

Huang Yueli didn't accept her star currency as her lips curled upwards and said, "I'm so sorry, you're too late. My one thousand star currency had been filled and now I'm not able to give out anymore IOUs! Moreover, you seem to have mistaken something. I'm loaning star currency not because I'm intending to exchange cultivation methods."

"Not exchanging for cultivation methods? Then what do you intend to do? Don't tell me you're intending to go to the mountain top's closed door cultivation rooms to cultivate? That wouldn't require one thousand star currency as well!"

Huang Yueli didn't reply her question. She stood up and turned towards the surrounding crowd.

"Everyone, I know many of them will like to challenge me. But previously as my star currency had been used up, so a lot of you were not able to send me battle invitations. Now that I have star currency, so....."

She paused momentarily as an invisible smile hung upon her lips.

"So now everyone take the chance to send me your invites. No matter how many there are.... I'll accept it all!"

Her tone was sweet and when they heard it, it seemed a little soft but at the moment the words were out, it felt like lightning had struck the ground, causing many of them to lose their senses.

"Yo... You are borrowing money just because you want to continue accepting battle invitations??" Li Xue'er's eyes turned wide.

"Insane, Bai Ruoli is definitely insane!"

"Heavens, she really don't want to live any longer. Is she thinking that she hasn't paid enough??"

Among the bustling discussions, Huang Yueli indifferently added, "But for those who are sending your battle invitations now, I will only bet at least one hundred star currency. That is to say, those who intend to challenge me will at least need to bet one thousand star currency."

Li Xue'er sneered when she heard what was said, "So that was what you were planning! You thought that once the bets had been raised to one thousand star currency, no one would dare to send their battle invitations? He he, those core students who have been in the academy for more than two years all have one thousand star currency! Just you wait!"

Huang Yueli innocently shrugged, "Don't be mistaken. I only feel that it's too tiring to go battle after battle. Think about it, ten coins one round, one thousand coins means I need to accept one hundred battles. It's very tiring ok? I merely wanted to save some time."

"Just you continue to pretend. Seven days later, I'm gonna watch how you cry!" Li Xue'er sneered as she walked away.

Due to the restriction of one thousand star currency, the amount of people who sent Huang Yueli battle invitations had decreased by quite a lot.

But those who had been coveting the fortune in her hands were still many and eventually she managed to receive all ten battle invitations.

What's more, among the owners of the ten invitations, they were all reputable experts in Celestial Light Academy, and were ranked top thirty in the Martial Arts Stage.

.....

Seven days later.

On the day of the battle before dawn, the Martial Arts Stage was filled with people. Almost all of the students had received news and flocked over!

Although a new student accepting an old students challenge was seen yearly, but for it to make such a huge commotion was totally unheard of!

Chapter 788: How many more? I'll accept it all (4)

Everyone wanted to witness the few battles with their own eyes.

Since Huang Yueli talked big and used so much star currency to bet, did she really have that overbearing power, or could it be that.... her brain wasn't working well, thinking that she had merely gotten a first place in among the new students and thought she was really unequalled?

Regarding this question, it was something that everyone wanted to find out.

Besides that, someone had specially took in bets to see how many battles Huang Yueli could win.

But the majority betted that Huang Yueli would not be able to win even one single round. It was rumoured that the statistics which betted her total loss had reached one hundred to one.

Before the battle, Su Qingyue knew that there was no going back and specially came to encourage her.

"A few students and myself who are from the small countries had all bet a hundred lower grade spirit stones that you could at least win one round. Y.. You have to buck up! All of us believe in you!"

When Huang Yueli heard this "encouragement", she almost spat out blood.

Just win one round... was considered as believing in her. Do they need to look down on her that much?

She took out the twenty thousand medium grade spirit stones that she had won dueling the entrance examinations and passed it to Su Qingyue.

"Elder Sister Su, I need your help to go and help me bet that I will win all rounds! If you have any spare cash, go ahead and buy my total win, the rate is one hundred to one! Just betting one hundred will win you one thousand. Nothing is as easy to earn as this. Too bad this self-organized betting booth by the students cannot bet star currency and only spirit stones, otherwise.... I will have struck it rich!"

Huang Yueli's eyes shone with brilliance.

She had never thought that just one battle could earn her that much and placing a bet would earn her another huge fortune. Twenty thousand medium grade spirit stones would turn into two hundred thousand after today!

Su Qingyue almost fainted, “Y... You are really not afraid of losing all your fortune! Owing so much money, even if we sell you, it’s not enough!”

Huang Yueli was speechless as she shook her head, “Elder Sister Su, don’t worry. Do I look like an idiot to you? If it wasn’t that I am one hundred percent certain, I wouldn’t have agreed to so many battles or even borrow star currency! Can you have some confidence in me?”

Su Qingyue stared at her for half a day before she nodded.

“Alright Younger Sister Li, I know you have your own ideas! Since you can become a third stage realm practitioner from trash, perhaps you have some killer stint which I don’t know about! We will go ahead and bet on your total win! If you can really win all the bets, in future, we will follow you around!”

Huang Yueli’s eyes shone.

She had long despised the servants whose innate talents were simply not enough in South Yue Kingdom as she couldn’t use them in much areas.

If she was able to take in Su Qingyue’s team of students, that would be an unexpected surprise.

After all, they were at least fourth grade upper talents and above and to be able to enter Celestial Light Academy, they weren’t any common in any way! It was only because they were in unison, crowded out by those large families disciples so they were merely not able to obtain more resources.

But under proper guidance, their potential would surely take a huge leap.

Thinking of this, her lips curled upwards as she smiled mysteriously.

“Alright, just wait and see!”

On the day of the battle, Huang Yueli had been the same as always, waking up on time, finishing her breakfast before preparing to leave the room.

“Knock knock knock!”

A knocking sound was heard as Su Qingyue pushed opened the door. Upon seeing her, her eyeballs grew wide.

“Younger Sister Li, w... why are you still here! What time is it already!”

Huang Yueli replied, “Isn’t it still very early? It’s just a quarter to seven. My first battle is at seven o’clock. If I were to leave now, I should still be able to arrive on time.”

Chapter 789: Young Sect Master arrives (1)

Su Qingyue stared at her expressing a look which like she was almost about to faint.

“You..... seven o’clock is your competition and if you’re still here. Do you know that many people said you’re regretting accepting so many battles and you know that you’re definitely going to lose, so.... until now you don’t dare to go to the Martial Arts Stage! I was worried something would happen to you so I came over to look for you.”

“These people are really senseless..... why bother about them? Anyway as long as I arrive on time when the battle starts, it should be fine.”

“Arrive on time will do.... haven’t you took part in any official battles before? Everyone would normally arrive at the place beforehand! Don’t tell me you don’t need to do any preparation before the battle?”

“What preparation?” Huang Yueli asked curiously.

“There’s just too many! For example, to adjust your mentality and mood, meditate and restore your condition and to get used to the battle grounds.....”

“To defeat a few clowns and to earn easy money, do I need to do so many unnecessary stuff?” Huang Yueli mumbled.

“What??”

Su Qingye thought that she must have heard wrongly! Those who challenged Huang Yueli were core students whose ranking were in the top hundred, so which one of them were clowns?

But before she could say anything, Huang Yueli had already stood up.

“Let’s go, it’s indeed not early anymore and I don’t want to be late.”

After passing the main street, Huang Yueli realised that there wasn’t a single soul on the street. Even the usually bustling public squared were all empty.

Where was everyone? Where had they all gone to?

It was until they reached the Martial Arts Stage’s empty land outside the entrance before Huang Yueli realised what was going on.

From the situation, the academy had been so empty because everyone was here to see her!

These bunch of people... were they that bored?

“Please move aside, move aside quickly!”

Huang Yueli and Su Qingyue tried their best to squeeze inside but they were not able to do so.

There was simply too many people and because everyone was afraid they would be too far away and not be able to see the situation inside so they practically ignored the callings to move aside.

Seeing that the official battle time was nearing, Huang Yueli realised that she was unable to get into the battlegrounds.

“What the heck, what situation is this? Elder Sister Su, I realised that you’re right. We really cannot be late for the battle, otherwise... we can’t even get into the battlegrounds! I really regret not listening to you.....”

Su Qingyue, “....”

She didn't meant it in this way but from why did Huang Yueli's words make so much sense!!

.....

At this point in time, Celestial Light Academy's main entrance was another scenario.

Celestial Light Academy's Principal Jiang Tuxin, Vice Principal Ling Wenbin and several high management and sixth stage realm experts all appeared at the school's main door.

Moreover they had split into two lines, all of them bearing an anxious and terrified expression, peering towards the entrance.

For so many important people to appear together at Celestial Light Academy was a rare scene and even during the yearly school starting ceremony, many of the elders were not willing to grace the occasion. But now all of them were standing here waiting.

If it hadn't been for everyone else who was at the Martial Arts Stage watching Huang Yueli's battle, this scene might have already caused a huge commotion and crowd.

As time went past slowly, the school main door was still empty.

Ling Wenbin appeared anxious as he nudged himself towards Jiang Tuxin and whispered, “Principal Jiang, why have Young Sect Master not arrived yet? Didn't the messenger say he will arrive at 7 o'clock?”

Jiang Tuxin replied, “You ask me, I ask who? What status does the Young Sect Master hold, whatever timing he wants to arrive, it's not something that we can questions isn't it?”

Chapter 790: Young Sect Master arrives (2)

When Ling Wenbin heard that, he felt that he had acted impudently and lowered his head.

But after a while, the person whom they had been waiting for had not appeared so he became flustered again.

“Principal Jiang, do you know.... why Young Set Master would come to Celestial Light Academy at this timing? Our Sect had just ended the tournament with those few Sects from West Sky Region and he's headed to our side now? Is it because we have done something wrong?”

It was no wonder that Vice Principal Ling would think in this way.

Celestial Light Sect's people were all of high standing and even when Jiang Tuxin was in the Sect, he was merely an elder, and one of the weaker powers. Whereas in Celestial Light Academy, he was something whom no one dared to oppose.

A person like Young Sect Master would normally not come to Celestial Light Academy.

Unless.... Something major had happened.....

Jiang Tuxin frowned, "When I met Sect Master last month, he commented me saying that Celestial Light Academy was well managed. The disciples that we had picked recently had shown good performance so it shouldn't be...."

Regarding this, Jiang Tuxin was totally baffled.

"But Young Sect Master he...."

Just as the both of them were conversing, a stroke of lightning flashed past the sky and immediately following that, a powerful Profound Energy came sweeping from the direction of the school's main entrance. The few sixth stage realm practitioners who were nearer to the entrance were not able to maintain their standing and almost fell due to this gush of Profound Energy.

But Jiang Tuxin's eyes shone.

"Young Sect Master is here!"

A flying ship slowly descended from the sky and a few figures were seen.

The man leading was a young man with an extremely handsome face. His features were delicate resembling a perfect sculpture with dark black eyes like ink, sharp but indifferent and the imposing manner which he gave out was strong but cold. No one dared to look at him in the eye.

If Huang Yueli were here, she would have a shock of her life.

Because this man.... was indeed Li Moying!

Jiang Tuxin hastily walked out to welcome him, "Young Sect Master, you're finally here! I have been waiting for you for ages!"

The higher management behind Jiang Yuxin followed closely.

"Our respect to Young Sect Master!"

Li Moying glanced at them icily and after some time, he nodded his head and said, "Dispense with formalities!"

Jiang Tuxin and Ling Wenbin crowded over and said affectionally, "Young Sect Master graces Celestial Light Academy with your presence, your presence brings light to our humble dwelling! Young Sect Master, do you want to go to our teahouse to take a short rest and after that I'll bring you around to tour the academy...."

"There's no need. I still have some things to do...." Li Moying replied unconcernedly.

"Yes, yes. If Young Sect Master needs us to do anything, just let us know!"

Jiang Tuxin and Ling Wenbin looked at his unfathomable handsome face as they held a terrified expression.

Before Li Moying's arrival, they had only heard of this Young Sect Master's reputation and knew that he was the number one talent in Celestial Light Sect's history, perhaps he was even able to challenge Mu

Chengying's number one place. So the entire Sect held him in high respects not daring to make him unhappy one bit.

But Li Moying had always been in closed door cultivation or out learning through experience and the two Principals seldom returned to the Sect so they had never seen him before.

From the two principals' imagination, this legendary Young Sect Master had enjoyed success since young and most of his time was spent on cultivating. Moreover he was so young so his personally was likely arrogant and inexperienced, not knowing the ways of the way so he was still tender in some ways.

But upon meeting him today, they discovered that... their guesses were wrong to the extreme!
