

Weaponsmith 851

Chapter 851: This is called having a clandestine love affair (3)

After Li Moying left, Huang Yueli pounded hard on the blanket as her heart was vexed to the max.

How on earth did she get threatened by this stinking man and agreed to his demands?

She had clearly decided to clear the line with this man but to accept this sort of demand now.... every time she wanted to advance, she needed to look for him? Then wouldn't that represent that they would never be able to draw the line forever?

The more depressing thing was when she advanced yesterday, she was totally unprepared and had been seen completely by Li Moying! Moreover, both of them had spent an entire night together, naked!

Even though they had not overstepped the boundary of what was improper, but.... but... she obviously liked Mu Chengying!

After such a thing had happened, she felt that she had betrayed the person that she liked! The feeling was extremely awful!

Huang Yueli mulled over it, thinking that this cannot continue. She was living right next to a lecher and she totally did not feel safe at all, so she'd better be on the run!

But she wasn't able to leave Celestial Light Academy now but this place was Li Moying's stronghold so whatever he wanted to do could be easily done...

This was really troublesome this time round so she could only take one step at a time!

Huang Yueli intertwined at this for a while but quickly put it aside as she showered and changed, preparing to go out.

But just as she casually picked up the skirt on her clothes rack when she suddenly jolted.

The gathers of her skirt clearly imprinted several streaks of oily traces.

Her face turned black immediately. It couldn't be any more obvious on who did this!

Huang Yueli clenched her teeth as she hissed, "Wang Cai, look what you had done! You'd better come out now! I know you're just outside."

The little pretty boy had been peeking on the side for a very long time. He was a spirit body and couldn't leave this master of his too far away so when dawn came, it flew back. But as Li Moying had always been staying in the room, it didn't dare to reveal itself.

Now, upon hearing Huang Yueli's infuriated voice, he could only walk out carefully, stammering and stuttering, "Female De.... No, sister, my beautiful sister, that piece of clothing... really was an accident, accident! I accidentally rubbed gently against it, it absolutely wasn't intentional!"

Huang Yueli bore a frosty expression on her face, feeling deeply that this annoying child really needed to be educated!

“The skirt had been rubbed until it’s so wrinkled, just like salted vegetable! This is called rubbed gently! It’s obvious that it’s intentional! I’d never expected that not only did you damage the things in the house, you even dare to lie! Looks like this sister hasn’t spanked your backside for a long time!”

Little pretty boy’s big round eyes swirled several rounds as his thoughts flew quickly.

Finally an idea came to him as he found himself a brand new excuse!

“Yo... You... you’ve wronged me! I really don’t mean it. I... I saw your man yesterday and got too anxious so I was scared by him so.... it was by accident. You cannot blame me. Who asked him to suddenly appear like this!”

As expected, Huang Yueli’s attention got diverted.

“What my man?? Li Moying is not my man!”

“Who said he isn’t? The both of you are so intimate that you’re even sleeping together without any clothes on! You think this lord doesn’t know so you can bully me? Only married men and women can sleep together without clothes. This is called....having a clandestine affair! Hmph, if you were discovered, you’d be thrown into the swine’s cage!”

Three black lines slid down the side of Huang Yueli’s forehead when she heard what it said.

“You little fart kid! Who did you learn all these from? And where on earth did you learn such terms? You’re simply waiting for a beating!”

Chapter 852: This is called having a clandestine love affair (4)

Huang Yueli shot up like an arrow to give him a beating.

Little pretty boy immediately reacted and shot off!

Huang Yueli chased him from behind, furiously berating, “You’re not allowed to run! At such a tender age, you know what is called clandestine affair, what is called sleeping together without any clothes. It seems that your thoughts are not healthy at all!”

While little pretty boy was running, he grumbled, “You dare to sleep together but don’t dare to let others talk about it! Do all grown-ups tell lies with their eyes wide open?”

The volume of his ‘grumbles’ were pretty loud, as he intentionally let Huang Yueli hear what he was saying.

Huang Yueli was even more infuriated as she crooned, “You still dare to say! When I am in the middle of advancing, I totally could not feel the changes in the outside world! I had clearly instructed you to keep watch by my side and if any accident happened, you would be able to help me deal with it! In the end? You actually didn’t help at all? A grown man like Li Moying entered the room and you had no reaction at all! Tell me, were you asleep last night? Or did you slip out to play somewhere?”

Little phoenix’s footsteps halted. When he recalled the moment Li Moying entered the room, the heavy sensation that congealed the air made the entire bird immovable.

“This... this cannot blame me... You don’t know how terrifying your man was! His lineage is exceptional and its existence is even stronger than our Phoenix clan. So when I see him, my legs gave way..... wu wu, it was so scary, I’m just a small baby.....”

Huang Yueli went into a blank and suddenly recalled that the first time when she met Li Moying in South Yue Kingdom, Little Phoenix seemed to have said the same thing, saying Li Moying’s lineage is extremely strong, natural born blood vessels were able to suppress Ancient Spiritual Beasts.

At that time, it didn’t hit her but recalling back now, for Li Moying to have a peak innate talent physique, it should be related to his lineage.....

Only thing was that she didn’t know what lineage he was from?

Just as she was in deep thoughts, Little Phoenix had grabbed the opportunity and step by step, it quietly and slowly nudged towards the door. By the time his heel touched the doorstep, he immediately turned around and simultaneously turned into a little bird-ling and flew outwards.

OMG, Female Devil was going to beat his backside!

If he didn’t run away at this moment, then what was he waiting for!

Huang Yueli saw a red light flash and realised that that little fart kid actually slipped away!

She hurriedly chased out, “Get back here now! You’ve done something wrong and you still dare to run! Be careful that I confine you in the Sky Phoenix Ring for an entire month!”

She chased towards the front courtyard when she suddenly heard a voice calling her from behind.

“Junior Sister Bai! Junior Sister Bai! What are you doing? What are you chasing after?”

The person was Su Qingyue. After she exchanged greetings with Huang Yueli, she looked around curiously, trying to see what Huang Yueli was chasing after earlier.

However, Huang Yueli naturally didn’t want to reveal that so she turned towards her, “Oh, nothing, I wasn’t chasing after anything. I just recalled that I had some urgent matters so I ran out here! Sister Su, what are you doing here?”

Little Phoenix took the opportunity to quickly dive into the bushes, masking its whereabouts.

Little Phoenix was originally a little bundle and unable to be seen clearly.

Su Qingyue looked around but didn’t see anything and thought she had seen wrongly so she didn’t bother asking further.

When she heard what Huang Yueli asked she instantly felt embarrassed as she whispered, “Ugh.... Things are like this. I had specially came to look for you over yesterday... the things that had happened yesterday, I’m terribly sorry for it! I had never imagined that they would scheme against you in this way.... I’m very, very sorry...”

Chapter 853: Ability determines status (1)

Huang Yueli felt slightly surprised when she heard her say that but after carefully observing the expression on her face, she discovered that her guilt was genuine so she felt a little better.

“Sister Su, I know that you treat me real well. In the past in South Yue Kingdom when I couldn’t cultivate, when everyone bullied me, only you treated me well and had always visited me. All these... I still keep it in my heart! I also know that after you entered Celestial Light Academy, you’d always been bullied and hadn’t had a chance to properly cultivate. After suffering so many setbacks, your mentality had changed slightly so you mixed around with those people without a choice and not your real intention.”

Saying to this point, she changed the topic under discussion, “I can understand that you team up as a group and you think for their well-being. But just based on those improper intentions to scheme on others will not possible make you a real strong practitioner? The way of cultivation is to go against heaven and fight against your destiny! If you had lost your justice from the start and not be an upright person, then how will you breakthrough and win your own self?”

Su Qingyue became even more ashamed of herself when she heard Huang Yueli’s criticisms.

“Younger Sister Li, you’re absolutely right! I was muddle headed! Thinking of being together with them so that when I’m bullied, at least someone would stand out for me. But I’d never expected their thoughts to be so crooked and only thinking of taking the shortcut instead of using cultivation to upgrade themselves! If it hadn’t been for you to give me this reminder, I’d have continued on taking this wrong path!”

Huang Yueli smiled, “You’re still in time to realize the truth!”

Su Qingyue hurriedly asked, “Then.... Sister Li, have you forgiven me?”

Huang Yueli shook her head and Su Qingyue’s heart thumped hard as she turned anxious immediately.

Putting aside Huang Yueli’s current prestige and status, just based on their friendship during their youth, Su Qingyue didn’t hope to become her enemy in the future.

Huang Yueli made her anxious for some time before replying, “I don’t blame you but if you feel guilty, then you must properly train yourself using that cultivation method which I had given you that time! If you are able to perfect the skill with seven days and based on your own ability, defeat that lackey who bullied you guys, then I will give you a chance to get what you wish for.”

Su Qingyue went into a blank, get what she wanted? What did that mean?

What she wanted most was of course to learn high levelled cultivation methods and Profound Skills, to continue advancing through the various realms and to become someone whom her relatives can be proud of, a top grade expert whom her enemies could only look up towards!

Could Younger Sister Li really help her accomplish this wish?

This was simply impossible? Even a huge place like Celestial Light Academy did not dare to vouch that ordinary students like them could become strong.....

Moreover, for her to refine an Earth grade cultivation method within seven days was nonsensical!

Not to mention to defeat that hooligan who takes their protection fee. Although that fellow's character was worse than dregs but his stage realm was not low and was a genuine core student! She ranked backwards among the ordinary students so to defeat him? How was that possible?

But as she felt guilty, although Su Qingyue didn't believe in Huang Yueli's words, but she didn't rebuke her and only replied, "Ok Younger Sister Li, I've remembered what you told me."

Huang Yueli had already seen through what she was thinking about but she didn't say anything more.

Everyone had their own fate and luck and their own goals and path.

If Su Qingyue herself didn't want to become stronger, and lacked the self confidence and determination, then even she would have no way to help her!

Chapter 854: Ability determines status (2)

Su Qingyue suddenly went into a trance and seeing that Huang Yueli was going to turn and leave, she hurriedly chased.

"Younger Sister Li, earlier I heard you had some urgent matters so what was it that you needed to do? Is there anything that I can help with? Although I'm not as powerful as you, but after all I've stayed at the academy for two to three years so in certain matters, I'm more familiar than you."

Huang Yueli thought that was probably so as well and replied, "Then I'll have to trouble Sister Su. I want to go to the core student enrolment centre to exchange my identity token before going over to the Profound Weapon Chambers and Scripture Depository."

Su Qingyue's eyes immediately lit up a hint of envy, "Junior Sister Li, you're incredible! Not only have you entered the academy to become a core student, you also received the Principal's special approval to exchange for cultivation method and Profound Armaments! You really make one envious! I know where these few places are so let me bring you there!"

Huang Yueli nodded her head and went along with her.

With someone who was familiar with the school's situation to lead the way, the efficiency for her to settle matters had indeed increased. The farce that happened yesterday in the herb garden didn't happen today.

When they reached the core student enrolment centre, she smoothly exchanged her identity token.

The managing teacher was warm to her, inquiring about her welfare and said that if she met with any problems in the school, she could look for him to help!

This scenario made Su Qingyue extremely envious, "Younger Sister's face is big enough! This Teacher Qian is usually very proud in school and towards ordinary students, he don't even want to bother with us but I'd never expected him to butter you up!"

Huang Yueli smiled, "This is what means by ability determines status! Work hard and you'll also get the same chance!"

Su Qingyue shook her head and showed a helpless expression.

After exchanging her identity token, the both of them headed towards the Profound Weapons Chambers.

Celestial Light Academy's Profound Weapon Chambers was extremely large and there were a total of five floors. Each floor presented the corresponding tier of Profound Weapon and the highest was fifth tier.

Besides that, by the side of the Profound Weapon Chambers was where Celestial Light Academy's Armament Masters refined their weapons. Ten over Armament Refining Rooms stood out in one line and occupied the area which had the most abundant fire attributed Profound Qi so just looked at it was rather magnificent.

From another angle, it could clearly tell Celestial Light Academy's ability.

When Huang Yueli walked into the Profound Weapon Chambers, the first thing she saw was Li Xue'er who was arranging refining ingredients in one corner of the Profound Weapon Chambers.

As a disciple of the Armament Master Tang Jinhua, she had the same treatment as the other armament apprentices and had to rotate on duty roster every day to be a helper to the official Armament Masters and help arranging ingredients or the various Profound Armaments in the Profound Weapon Chambers.

Li Xue'er raised her head and saw Huang Yueli all smiles as she stepped into the Profound Weapon Chambers as her expression changed.

"Bai Ruoli! Why are you here! Only highly valued Armament Masters could come to a place like this Profound Weapon Chambers and not some vulgar and low levelled person like you could enter as you wish!"

Her forehead was still bandaged so apparently the injuries that she suffered at the Martial Arts Stage had not fully recovered yet.

Huang Yueli slowly walked in and stood in front of Li Xue'er.

"Oh I'm so sorry but I remember that you're not some highly valued Armament Master and just an Armament apprentice! If only Armament Masters could enter this place, then won't you have to get out from here immediately?"

"You!"

Li Xue'er didn't expected herself to say the wrong thing on and immediately was stuffed back the same things which she said earlier so she was extremely furious.

In the eyes of the other students, an armament apprentice held a high position but Huang Yueli had used a tone of contempt to talk to her, totally not attaching any importance to her at all.

Chapter 855: Ability determines status (3)

“I’m a disciple of fourth tier Armament Master Tang Jinhua! I have the right to request an unwelcome person like you to get lost from the Profound Weapon Chambers! I advise you to hurriedly leave by yourself, otherwise if I will call the Academy’s security to come and chase you away! Don’t be full of yourself just because you’re ranked top ten in the Martial Arts Stage. No matter how majestic a core student is, on an Armament Master’s territory you still have to behave yourself and tuck your tail between your legs!”

Li Xue’er clenched her teeth as she glared at Huang Yueli furiously, arrogantly raising her chin.

Huang Yueli was about to reply when she suddenly heard a man’s voice calling out, “Xue’er, don’t be rude!”

Immediately following that, footsteps were heard and a middle aged man with refined looks walked in hurriedly from an armament refining room.

Li Xue’er turned her head around and immediately ran towards the man to complain about Huang Yueli, “Master, you see.... She intentionally came to wreck havoc at the Profound Weapon Chambers and affected me from arranging the ingredients! Make her leave this place quickly so that she will not affect the other Masters too!”

Upon hearing her greeting of “Master”, Huang Yueli inclined her head sideways to take a look at the middle aged man before realising that this was the best Armament Master, Tang Jinhua, that Celestial Light Academy had at this moment!

Tang Jinhua stared hard at Li Xue’er and said, “Enough, stop fooling around! Did you think I didn’t hear you? You’re the one who initiated the quarrel!”

Towards Xue’er crafty and unruly character, Tang Jinhua was already extremely headache over it but as she had the best innate talent among all his disciples and merely at seventeen, she was soon going to become a first tier Armament Master officially. Plus the fact that she had a sweet mouth, so Tang Jinhua had always treated her rather well and not bear to excoriate her.

Li Xue’er fiercely stared at Huang Yueli, feeling heavy-hearted. But upon hearing her Master already said so, she didn’t dare to rebuke him and could only turn around, walking to one corner.

Tang Jinhua was all smiles when he saw Huang Yueli.

“You are that Bai Ruoli? Haha, not bad, not bad indeed, you have your father’s imposing manner from that year!”

Huang Yueli was slightly surprised as she asked, “Master Tang, you are...”

“Liu Feng and I were classmates in Celestial Light Academy that year and he had helped me a lot! After we graduated, we have never been able to meet up and later on I heard that he settled down in South Yue Kingdom to get married and even gave birth to a daughter. I had wanted to pay him a visit and take a look at you but I was held up by some matters and by the time I wanted to drop by, he had unexpectedly gone missing.” Tang Jinhua explained.

Huang Yueli just realised that and smiled, “So in that case, I should greet you as Martial Uncle!”

Tang Jinhua replied, "Calling Martial Uncle is so formal, just call me Uncle Tang! The relationship I have with your father is not merely an outsider!"

Li Xue'er had been listening by the side and as she heard them talking, she was so furious that she almost smashed the armament ingredients in her hands!

What did that mean? Her biggest backing in Celestial Light Academy was Tang Jinhua but his Master was actually treating this wretched lass so well and acting so close, even better than her, his direct disciple!

What was the matter? Wasn't it just because Bai Liu Feng and him were classmates?

Then before that, when she brought Bai Ruo Qi to meet Tang Jinhua, Tang Jinhua had not even been that passionate! Bai Ruo Qi was Bai Liu Feng's niece!

How would she know that what Tang Jinhua saw was not merely the blood relations between Huang Yueli and Bai Liu Feng, but rather the kind of domineering ways she had which was alike Bai Liu Feng!

It was Huang Yueli's outstanding performance at the entrance examinations and Martial Arts Stage battles that made Tang Jinhua saw her in another light.

Chapter 856: Ability determines status (4)

In comparison with Bai Quo Qi who was driven out of the academy for cheating in the examinations, just like a joke, so how was she comparable to her?

Huang Yueli saw Li Xue'er's expressions and laughed inside her heart.

Tang Jinhua passionately ushered her into the Profound Weapon Chambers.

"Li'er, are you going to choose your Profound Armament during your visit to the Profound Weapon Chambers? That day I heard Principal Jiang said that he allowed you to choose any two Profound Armaments from the Profound Weapon Chambers. Moreover you can freely choose in the first four floors! Do you need Uncle Tang to bring you around?"

Huang Yueli inquired curiously, "Doesn't the Profound Weapon Chambers have five floors? Why is it that I can only choose in the first four floors?"

Tang Jinhua laughed, "You don't know about this but among the current Armament Masters in Celestial Light Academy, the highest rank is fourth ranked, so we can only refine fourth tier Profound Armaments. Fifth tier Profound Armaments are all left behind by previous Armament Masters and some are rewards from our main Sect so the quantity is very little. Just based on star currency to exchange is not enough, you will also need to obtain Honour Points!"

"Honour Points?"

"Ha ha, that reward is only given when someone has done an incredible contribution to the academy and under normal circumstances, it is very difficult to get."

Huang Yueli was slightly disappointed. Speaking of fifth tier Profound Armaments, she had a slight interest. After all if she needed to refine it personally, she would need a bit of effort but fourth tier

Profound Armaments were rather easy for her. Besides that, with the current workmanship that Celestial Light Academy's Armament Masters had on hand, no one would be able to do it better than her!

Tang Jinhua immediately brought her upstairs and went onto the fourth floor.

"Li'er, this is the fourth floor of the Profound Weapon Chambers. Feel free to talk around and take a look. If you see something that you like, just tell me directly!"

Huang Yueli nodded her head as she started to wander around in the warehouse.

Su Qingyue was just following behind her as her eyes turned wide, not being able to say a single word!

This was her first time entering the Profound Weapon Chambers fourth floor!

As an ordinary student, the amount of star currency she worked very hard to get was only enough to exchange for a second tier Profound Armament. Third tier lower grade Profound Armaments were luxury goods which she could not afford.

Among the group of small nations practitioners, only Yu Xinyang alone had a third tier middle grade Profound Weapon and this... already made everyone envious!

One of Su Qingyue's greatest wish was to earn enough star currency to exchange for a suit of second tier Profound Armour. If she had the money, she would exchange for a third tier Profound Weapon and that was enough to make her so happy that she could not sleep!

But now? Huang Yueli had just come and had already obtained the qualification to enter the Profound Weapon Chamber's fourth floor! Moreover, she could choose freely as she liked!

Su Qingyue was both shocked yet envious.

She raised her head and looked around like a country bumpkin entering a city!

It simply was because fourth tier Profound Armaments' workmanship were simply too exquisite! Moreover, every single item gave out a simple and unadorned yet strong presence, totally different from the second tier Profound Armaments that she usually used!

As compared to Su Qingyue, Huang Yueli appeared more casual. She slowly wandered one round in front of some shelves and stopped, not continuing to walk forward.

Su Qingyue saw that she stopped and urged her, "Younger Sister Li! Don't you want to take a further look? There are several more shelves over here and every single piece are outstanding pieces of equipment. Fourth ranked Armament Masters are so rare and every single piece of fourth tier Profound Armament costs heavenly prices! If you are able to pick one which is suitable to your attribute and cultivation method, it will make your ability increase in its effect so you cannot just choose randomly!"

Tang Jinhua was standing by one side and when he heard what Su Qingyue said, he couldn't help but smile delightfully.

Chapter 857: The real expert (1)

“You’re rather good at understanding matters, young lass. That’s right, the Profound Armaments we have here are all extraordinary! Celestial Light Academy’s Profound Weapon Chambers is well known throughout the entire Sky Cloud City!”

Saying that, Tang Jinhua instructed again, “Li’er, you have to choose carefully. Although the higher tier of the Profound Armament is, but it must be in line with your own condition before its effect can be brought out to the maximum!”

Huang Yueli nodded saying, “I’ve already chosen!”

Tang Jinhua went into a blank, “What? You’ve already chosen? Isn’t that a little too quick? You sure you’ve chosen already? There are still plenty of Profound armaments here, and you haven’t even seen it yet! Didn’t you hear what I said earlier? Take your time to choose. Anyway I’m not in a hurry to chase you out!”

Huang Yueli smiled and replied, “I’ve really taken my pick so why should I hang around here any longer? Isn’t this just wasting Uncle Tang’s time?”

Tang Jinhua’s eyes widened as he said, “You are sure?”

“Sure!”

“Alright, then which two pieces have you chosen?”

Tang Jinhua obviously didn’t believe, only thinking that this little lass had been too elated by her recent victories which made her careless but on Bai Liu Feng’s accord, he must stop her from making this kind of mistake! No matter what, he must make her appreciate the chance and pick out the most suitable Profound Armament!

Huang Yueli pointed, “I want this dagger and that chest-protecting mirror!”

Tang Jinhua turned around to take a look and his mind went into a blank again.

He had originally intended that no matter what Profound Armament Huang Yueli chose, he would look down on it fiercely to pick out its flaws and made her choose again!

The result was when he really took a look, the words in his throat were swallowed back!

The item which Huang Yueli took fancy upon were... the two best Profound Armaments which the Profound Weapon Chambers fourth floor had!

“This... you sure you want to select these two pieces?? What made you choose them?” Tang Jinhua was tongue tied as he finally voiced out after regaining his senses.

Huang Yueli’s brows rose, “Ah? Uncle Tang, aren’t you asking the obvious? The reason why I’m choosing these two pieces is because they’re the best Profound Armaments in this floor! Don’t tell me you can’t bear to give them to me? You said earlier that the Profound Armament in this floor is for me to choose and now you cannot go back on your words!”

“Of course I will not regret, but... but what made you choose them? Let’s talk about this dagger that you chose, at least it’s a fourth tier upper grade Profound Weapon! But this piece of chest-protecting mirror,

it is merely fourth tier medium grade and the most worthless among the Profound Armament's Profound Armour... how did you see through that it is the best??"

Tang Jinhua was indeed couldn't bear to part with it. These two Profound Armaments in this fourth floor were absolutely the treasures of this place!

Even though the fifth floor had many Profound Armaments, but judging from the real power, these two pieces outshone them.

As the grade was much lower, so it was stored on the fourth floor.

Tang Jinhua intentionally stuffed them into one corner and made it covered in dust, just because he couldn't bear for those who didn't know what's what to choose it away.

Whoever knew that this little lass today had such good eyesight and picked out these two pieces in no time!

But at this moment, Tang Jinhua's physical pain was secondary, he was pleasantly surprised in his heart! Or rather shocked!

To be able to pick out one piece could probably be her luck but to be able to pick out both pieces, this meant she was a real expert!

Chapter 858: The real expert (2)

Huang Yueli smiled, "To tell you the truth, I've gained some knowledge related to refining of armaments previously so I have some understanding of Profound Armaments quality and power."

Tang Jinhua replied, "Really? Then tell me your reasons for choosing them?"

Huang Yueli smiled as she spoke frankly with assurance.

"This dagger's colour distribution is filled with glossiness and it's due to the equal distribution during the convergence process. As a Water attributed Profound Weapon, the degree of convergence is extremely important. The amplification of ability for Water attributed practitioners is much stronger than other Water attributed Profound Armaments!"

"You even know about all these!" Tang Jinhua praised, "This were all taught to you by your father? He's really something!"

During the refining process, the point of emphasis for different attributed Profound Armaments are not the same and only by bringing out the implicit qualities of that particular area to the max would be most suitable for the practitioner with that attribute.

Unfortunately, this kind of knowledge was only known to Armament Masters. In order to be able to sell the Profound Armament that they refined at a high price, they would never pass on this key to others.

So for Huang Yueli to know about all these, Tang Jinhua thought she was rather impressive.

He continued to ask, "Then how about this chest-protecting mirror? What thoughts do you have? This is an Earth attributed Profound Armament and the fineness is rather ordinary so why did you choose it?"

Huang Yueli replied, "Because this chest-protecting mirror, amongst all the fourth tier Profound Armaments, is the only one which has supplementary Profound Skill added on!"

When this kind of Profound Armament was worn, it was able to activate the supplementary Profound Skill to attack the enemies. This was equivalent to obtaining a Profound Skill without the need to cultivate!

This kind of Profound Armament was worth a lot of money so there was no need to say anything else!

Tang Jinhua was tongue tied, "This.... You can even see through this??"

Huang Yueli's lips curled upwards, "I'm merely guessing! Looks like I've made the correct guess?"

Tang Jinhua looked at her deeply before shaking his head and sighed with emotion, "This really... the student surpasses the master! That year, your father's foresight had always been good but you've already surpassed him by leaps and bounds! Looks like your understanding of Profound Armaments is just like a little bit, like what you said!"

Speaking of this, he suddenly seemed to remember something.

"I've heard others say that you're a Fire attributed practitioner! That should be following your mother? I remember your father belonged to Metal attribute! Do you also have Metal attribute innate talent?"

Huang Yueli replied, "I do have some Metal attribute innate talent but my main cultivation method is Fire attribute."

Tang Jinhua's eyes lit up, "You lass, you're actually a dual Metal and Fire attribute practitioner! This is great! I believe you also know that dual Metal and Fire attributes are the fundamental requirements for Armament Refining training! I'd never expected you to have such innate talent, plus the fact that your foresight and understanding is so great... have you ever considered to become an Armament Master?"

"Ug....." Huang Yueli was stumped by his question.

Armament Master? Of course she had thought about it, and probably no one could compete with her over this!

But how was she supposed to reply to this kind of questions?

Tang Jinhua added on, "Li'er, Uncle Tang thinks you're a good successor for learning refining of Armaments and if you're interested, you can learn from me! I believe based on your understanding, to become a proper Armament Master is imminent! How about it?"

Huang Yueli never expected him to come out with this idea and didn't know whether to laugh or cry at this moment.

She hurriedly rejected him, "This... I'd never thought of this kind of matter!"

Chapter 859: The real expert (3)

“Uncle Tang, you know that my energy is spent mainly on the way of cultivation and I really don’t have any extra time for learning how to refine armaments! I can only thank you for your well intentions!”

How on earth would she possibly become an apprentice to Tang Jinhua? To be honest, even the scenario was reversed and Tang Jinhua were to be her student, she thought that his innate talent and comprehension was slightly lacking.....

But Tang Jinhua didn’t knew what she was thinking about and right after he was rejected, he still refused to give up.

“Li’er, think carefully before you give me an answer! Don’t be so hurried to give me an answer. Do you know what it means to become an Armament Master? And how many people dreamt of becoming an Armament Master? Although your cultivation talent is very outstanding and in future, you will definitely become a famous top expert in the South Sky Region, but the status of an Armament Master... that is completely different!”

Huang Yueli replied, “Uncle Tang, I understand your meaning.....”

“I think you still don’t get it! Let Uncle Tang give you an example! Did you see my female disciple Li Xue’er? Don’t think that you’re a core student and ranked eighth in the Martial Arts Stage whereas she’s just high levelled armament apprentice. But your status versus hers in the academy is the same! Moreover the minute she becomes a first ranked Armament Master, she will be able to join the faculty of her alma mater upon graduation. Besides that, there will be many practitioners who will be fighting to get into her good books! Even Martial Arts Stage number one ranking’s Yuan Zeyu also treat her politely. For what reason? On the basis that she will become an Armament Master in future!”

Tang Jinhua persuaded her sincerely and earnestly.

Huang Yueli replied him with smiles but didn’t say a word. No one else understood it better than her on how high the status of an Armament Master was.

In her previous life, when she was in Sky Emperor City when her ability wasn’t at her strongest, all the major powerhouses tried their best to butter up to her and so many traditional big Sect’s Sect Masters treated her with politeness. Wasn’t it all because she was the only ninth ranked Armament Master in the entire Soaring Heavens Continent?

Tang Jinhua realised that she didn’t express anything and thought she wasn’t confident in her own innate talent as he hurriedly added on, “Actually, although innate talent is important in the art of refining armaments, but the power of understanding and having a keen eye are equally critical. Even if your metal attribute innate talent isn’t strong, but just based on your keen eyesight, Uncle Tang dare to guarantee that if you are willing to learn from me, you will definitely be more outstanding than Li Xue’er! I gauge that within one year, you will be able to formally become a first ranked Armament Master!”

Armament Masters are extremely rare because practitioners with both metal and fire attributes were very little. But unfortunately, just based on the attributes, it didn’t meant that one could become an Armament Master.

Refining Armaments was an abstruse ancient skill and not everyone was able to understand the complex process.

A good young successor was really hard to find. So when Tang Jinhua saw Huang Yueli, he immediately realised that this was one talent that he had found and if he didn't catch hold of this talent, then it would really be a waste!

That cannot be so, so he must persuade her successfully!

But no matter how nicely he put it, it was impossible for Huang Yueli to accept becoming an apprentice to him but yet she didn't want to disappoint Tang Jinhua.

She thought for a while before replying, "Uncle Tang, I understand your intentions. But at this current stage, I still want to focus on the way of cultivation! But I will also seriously consider if I should learn the skills of Armament refining at the same time. Why not we do it this way, let me consider for a few days then we'll discuss again, alright?"

"... Alright then."

Tang Jinhua's face had disappointment written all over it but he also knew that surely he could not use a knife and forced her to become his apprentice right?

Chapter 860: The real expert (4)

He could only agree to her suggestion and come out with an opportunity to let this young lass realised the special authority and status that an Armament Master had so that she would change her mind in the end!

Su Qingyue was standing by the side and completely became dumbstruck as she felt that she was definitely experiencing hallucinations!

The sublime Armament Master Tang Jinhua from Celestial Light Academy had taken the initiative to accept Huang Yueli as his disciple?

In the entire Celestial Light Academy, who didn't know how high the standards of Master Tang was and how many severe conditions he had for accepting disciples??

Even the acclaimed number one armament refining talent, which had not been seen for the past ten years, Li Xue'er had pleaded with Master Tang for a very long time and it was only after she had been thought several difficult examinations before Master Tang finally loosened up and accepted her as his disciple.

Moreover, after Li Xue'er become Master Tang's apprentice, her status immediately shot up and became one of the most sparkling existences in Celestial Light Academy.

But now, Master Tang actually initiated to take in a disciple?

Su Qingyue felt that Huang Yueli was simply too awesome!

Just based on those few words made Tang Jinhua praised her to the skies! Where on heavens would you find such an outrageous existence? Not only was her cultivate innate talent good, she also had armament refining talent which made Master Tang see her in a new light!

However, immediately following that, Su Qingyue heard Huang Yueli's reply.

That reply made her jaw almost dropped out!

Huang Yueli actually rejected him! She actually rejected him!

Master Tang had taken the initiative to take in a disciple and his attitude was so sincere, giving her a chance once and again, repeatedly advising her the advantages of becoming an Armament Master. In the end, he even guaranteed that he would be able to guide her to become a first ranked Armament Master within one year!

Just how great was Huang Yueli's innate talent! Even Master Tang refused to let her go!

But even so, she still rejected him! Moreover, she rejected him time and again! No matter what Master Tang said, her heart didn't wavered one bit!

If it wasn't for the fact that Master was standing by the side, Su Qingyue couldn't hold back and rush forward to shake her to see if water had entered her head!

This was such a good opportunity! An opportunity that would not come even if others begged for it!

And yet she rejected??

What on earth was she thinking about? Didn't she know that once she missed this opportunity, she would regret it for life?

Su Qingyue tried her best to hint Huang Yueli with her eyes, in a bid to make her understand how hard this opportunity was and to quickly greet her Master!

Unfortunately, her eyes were almost on the verge of cramping but Huang Yueli still seemed like she didn't notice anything.

Tang Jinhua sighed and replied, "If you had any interest, you can still look for me after a couple of days. Now I'll pass you these two Profound Armaments! They are really lucky to be taken in by a Mistress who appreciates their value!"

Huang Yueli genuinely replied, "Thank you, Uncle Tang!"

She knew this more than anyone else, on how an Armament Master felt towards his own works. They had finally refined a Profound Armament and if it was taken by someone who didn't know what's what, then it was equivalent to the feeling of their own child being killed, that heartache!

Huang Yueli received the Profound Armaments and thanked Tang Jinhua. Under his sympathetic gaze, she coolly left the Profound Weapon Chambers with Su Qingyue.

The two of them had just stepped out of the Profound Weapon Chambers when Su Qingyue pulled her to one side and painstakingly said, "Aiya, Sister Li, what on earth are you thinking about! Master Tang

had taken the initiative to take you in as his disciple. Such a good opportunity and you actually rejected him!”

“What? You surnamed Su, what day dream are you dreaming about? My Master would take this wretched lass as his disciple?”

Before Huang Yueli could reply, they already heard Li Xue'er's voice coming from behind.
