

## Weaponsmith 861

### Chapter 861: Who are you talking to? (1)

The two of them turned back when they heard the voice and saw Li Xue'er's face of ridicule, walking out from the direction of the Profound Weapon Chambers.

"This is really the funniest joke that I've heard of this year! Who doesn't know how high my Master's foresight is? The disciples he accepted are all geniuses with unsurpassed innate talents! Moreover, since when had my Master accepted any disciple without repeatedly testing them for at least one year and above! Who do you think you are? He will take you in as a disciple voluntarily? Stop dreaming!"

She raised her chin, her face filled with provocation.

Li Xue'er was infuriated by Huang Yueli early this morning and moreover, her Master who had always pampered her didn't stand on her side this time, but was acting so close to Huang Yueli instead!

Li Xue'er couldn't flare up on the spot and had been bearing with this anger inside her until it was about to cause an internal injury.

In the end, after Huang Yueli left, Tang Jinhua suddenly recalled that he had missed out informing her how to maintain the Profound Armaments and specially asked Li Xue'er to go and remind her personally.

This made Li Xue'er almost throw blood out.

What was this? Her status as a high levelled Armament apprentice and moreover she was about to become a first ranked Armament Master! There are so many practitioners in the academy and even some were ranked higher than Huang Yueli in the Martial Arts Stage, which one of them hadn't taken the initiative to fawn on her?

Now she was being treated as a serving girl who passes messages and to take the initiative to look for Huang Yueli and teach her how to maintain the Profound Armaments?

Li Xue'er didn't dare to defy her Master and could only dilly dallied as she walked outwards but whoever knew that when she just walked to the entrance, she heard what Su Qingyue said.

Her Master voluntarily accepted Huang Yueli as a disciple??

Huang Yueli gave her a glance and replied with an indifferent look, "Really? I think Uncle Tang's standard of accepting disciple versus what you said is totally different?"

Li Xue'er sneered, "What do you know?"

"Although I don't know but I have eyes to see! If Uncle Tang only accepted geniuses with unsurpassed innate talents, then why would he accept you as his disciple?"

Li Xue'er went into a blank before she understood her words of ridicule and immediately gritted her teeth, "Bai Ruoli, you're saying my innate talent cannot make it? Your cultivation innate talent is indeed not bad but you don't understand how hard it is to become an Armament Master! My metal and fire

attribute are all at fifth grade talent! Celestial Light Academy had not seen a student with such innate talent like me for more than ten years!”

“Fifth grade talent.... is very outstanding?”

Huang Yueli’s question came from her heart.

But when it fell onto Li Xue’er’s ears, it apparently didn’t seem so.

“You... You’re so ignorant! Dual Metal and Fire attribute are both at fifth grade and with enough power of understanding, these are the capital which I have to become Master Tang’s apprentice! Forget it, an idiot like you with no Armament refining talent will never understand so you can continue to be ignorant! Just that when you go out and boast, you must take caution and not boast to the skies! Saying what Master Tang voluntarily to take you in as a disciple..... ha ha ha ha, it will make anyone die of laughter if this spreads! Aiyo, it’s making me laugh until I have stitches!”

Su Qingyue was just standing by the side and simply could not continue listening.

“Li Xue’er! Sister Li is also from South Yue Kingdom, the same as you so how could you say such things about her? Moreover this is not boasting. Earlier Master Tang had said it personally that he wanted Sister Li to become his apprentice. Moreover after Sister Li rejected him, he continued to persuade her for a long time just to make her agree!”

Li Xue’er just noticed Su Qingyue’s presence and glanced sideways at her with a face of contempt.

## **Chapter 862: Who are you talking to? (2)**

“Su Qingyue, you don’t even have the ability to earn any star currency and you’re just a trash who is already incapable of surviving in the academy and you’re still hanging around here instead of returning back to your country? And you dare to talk to me in this manner? Have you forgotten how you and your gang of trash from the South side begged me to take care of you?”

Li Xue’er shot Huang Yueli another look of ridicule, “Right, you’ve found a new target and thought that after this wretched lass Bai Ruoli became ranked eighth in the Martial Arts Stage, she will be able to protect you guys? Too bad, no matter how powerful she is, she is just a practitioner and will never be able to be on the same standing as a valued Armament Master!”

“You—!” Su Qingyue’s face flushed red from embarrassment and anger, “Li Xue’er, before you became Master Tang’s apprentice, hadn’t you also hung around with us? Have you forgotten how much help we rendered to you when you needed to complete Master Tang’s test? And now you’re saying such things! Where on heavens would you find someone as shameless and as ungrateful as you!”

Li Xue’er went into an obvious blank when the beans were spilled and apparently seemed slightly guilty but immediately her face turned even more sinister.

“Su Qingyue, what guts you have! You dare to talk to a high levelled Armament apprentice to me like that? Do you know what price you have to pay for infuriating me? Do you even want to hang around in Celestial Light Academy??”

“You....” Su Qingyue’s eyes turned red from anger but she bit on her lips, not daring to continue speaking.

The status of an Armament apprentice like Li Xue’er with such innate talent in Celestial Light Academy was not lower than the top five core students in the Martial Arts Stage.

Moreover, there were many more abled and powerful core students with high ranks who automatically came and curry favour with her.

So although Li Xue’er couldn’t deal with Huang Yueli this kind of strongwoman, but to handle an ordinary student like Su Qingyue was just like moving one little finger. The kind of threat.... Was absolutely not just talking big!

Li Xue’er saw that she was afraid and laughed delightfully, “One trash like you also dare to.....”

“I think..... you’re the trash?”

Li Xue’er was cut off by someone and looked fiercely at Huang Yueli.

“Humph humph, Bai Ruoli, don’t be too complacent! Although you’re ranked eighth in the Martial Arts Stage, but before you are seven even more outstanding practitioners! Oh right, ever since that new Senior Brother came, your ranking had dropped by one space and you’re now only ranked number nine!”

Huang Yueli looked at Li Xue’er in surprise, “You know who this new Senior Brother is?”

“He he, who cares who he is! Anyway, a cheap thing like you will never be comparable to a peerless talent!”

Li Xue’er stopped talking as her face subconsciously flushed a tinge of red. Although she had never seen this Senior Brother personally but she heard a lot of people saying that not only was this Senior Brother’s ability super high beyond one’s imagination, he also had an extremely good looking face.

Ever since Li Xue’er had cut off all ties with Lei Zichu, she had always wanted to look for an even stronger backing and her previous target was Mister Yuan but now that Mister Yuan had been defeated, she realised that only this new Senior Brother was worthy of her, an Armament refining genius!

Huang Yueli didn’t missed her ever changing expression and thought for a moment before understanding what Li Xue’er was thinking about and almost burst out in laughter

If Li Xue’er came to know that this “new Senior Brother” was her second brother Li Moying, whom she hated the most, she wondered if she would throw up blood on the spot?

### **Chapter 863: Who are you talking to? (3)**

Li Xue’er tried hard to conceal her ever changing expressions as she burst out, “Bai Ruoli, just you wait and see! Next time I hear you creating rumours, lies such as my Master wanting to take you in as his disciple, then don’t blame me for finding an even more powerful expert to teach you a lesson!”

After she said her piece, she turned around angrily and prepared to leave.

“Wait a minute!”

An arm outstretched and blocked her way.

Li Xue'er raised her head in shock, “What are you trying to do?”

Huang Yueli slowly responded, “Did I say that you can leave?”

Such arrogant words made Li Xue'er infuriate instantly as she stared daggers at her.

“Bai Ruoli! Get your facts right! I still have work which my Master instructed to complete so I'm letting you off and not haggling with you but you dare to block my way? Do you know who you're talking to? Did you really think that you're ranked top ten in the Martial Arts Stage and you can act impolitely to a future Armament Master?”

Huang Yueli gave a sarcastic smile as she took a step forward and blocked Li Xue'er way as she instantly unleashed the grandeur from within!

“You're just an Armament apprentice! Not even a first ranked Armament Master! You really think you're some big shot! And do you know who you're talking to?”

“Why would I not know? Aren't you just ranking number nine in the Martial Arts Stage?” Li Xue'er was suppressed by the grandeur from her and felt that her heart was swirling and her legs were soft but she didn't want to express her weakness in front of Huang Yueli as she summoned up courage and continued speaking.

Huang Yueli replied chillingly, “Merely ranked nine but I'm a practitioner whose ability is way higher than you! You think Armament Masters are very amazing? Armament Master's value comes from the bestowment from the strong! If the strong values you, then you are a valued Armament Master. If they don't, then you're just a piece of trash with low cultivation! A real Armament Master with brains absolutely would not dare to speak to a practitioner whose ability is stronger than himself in such a way!”

What she said was merely the truth. In the entire Soaring Heavens Continent, ultimately one's power in cultivation was the hard truth.

Although skilled people like Armament Masters and Pill Masters were valuable, but this value and respect was given by other people and was not inevitable and right! If one really made the strong infuriated and to kill a low levelled and skilled Armament Master was something which was irresistible!

In her previous life, she also relied on Mu Chengying who was standing behind her, so she went on a rampage without any hesitation.

“You...”

Huang Yueli stepped towards her, forcing Li Xue'er to step backwards until eventually she couldn't stand properly and fell onto the ground.

“Apparently you're brainless. But on account that we both are from South Yue Kingdom, I don't mind waste a bit of effort to teach you this lesson!”

As Huang Yueli was speaking, the fire attributed Profound Energy came spurting out from within as her right hand waved slightly and a fire arrow shot towards Li Xue'er chest.

Li Xue'er gave an ear-shrieking cry of pain and flew towards the outside.

“Ah——!!!”

Li Xue'er flew rather far out and when she fell onto the ground, there was a loud bang which sounded exceptionally scary.

Su Qingyue was scared stiff from this scenario and as she looked back towards Huang Yueli, her expression was filled with reverence for her!

She... she actually dared to beat up Master Tang's beloved disciple, the Armament apprentice Li Xue'er who had the most outstanding future!

Li Xue'er fell too far away and the two of them were not able to see where she fell from their positions and only saw Li Xue'er seeming coughing out blood in the sky where she was still falling.

No matter how Su Qingyue thought, she felt even more frightened.

“This.... Li.... Sister Li, you really.... really beat Li Xue'er..... this.... what should we do, we have gotten into trouble!!”

#### **Chapter 864: Who are you talking to? (4)**

“Get into trouble?” Huang Yueli's face was filled with disapproval, “Why would this be called getting into trouble? Celestial Light Academy had never prohibited students from fighting, as long as we don't kill that person or depose them! When I made the move, I had paid extra attention and just making her crash like that would not kill her!”

Su Qingyue's face turned pale not knowing how to continue!

This Sister Li of hers indeed was extremely powerful and her character was not bad but just a little.... a little too wild and too arrogant!

Every single time, she would make those standing around her terrified!

Did she really know what she was doing?

“But... Sister Li, this is not an ordinary student who you just beaten. This is... she is Li Xue'er! To beat up an Armament apprentice, you will face a lot of trouble later on! Moreover Li Xue'er is Master Tang's beloved student so what will Master Tang think? Besides that, among many core students, there are just too many who had feelings for Li Xue'er and if she were to find someone to exact revenge on you... what should we do?”

Huang Yueli laughed, “Sister Su, don't worry and relax. Master Tang wanted to take me in as his disciple so that means my innate talent is much better than Li Xue'er's so would he bother to create trouble for me just for her? As for those people who wants to help Li Xue'er to give me trouble.... He he, if they dare

to come, I will let them understand what is meant by behind the mountains, there are people of greater existence!”

Su Qingyue was so anxious that she kept stomping her feet, “Ugh, I know you’re powerful but I heard that even the Martial Arts Stage ranked first, Young Master Yuan had been wooing Li Xue’er! You don’t know how powerful he is! A new student like you is absolutely incomparable to him!”

She felt that she was so anxious for Li Xue’er until her heart was almost broken but unfortunately the Emperor wasn’t worried but the eunuch was worried dead.

Huang Yueli gave a calm smile, “We haven’t crossed hands so how do you know that I cannot win him? Moreover, he is no longer Martial Arts ranked number one. Hadn’t Li Xue’er said so herself that the new Senior Brother is much more powerful than him!”

She didn’t believe that she was not able to defeat a so called genius in an academy in the South Sky Region. If this was the case then she would have wasted the decades that she had lived in her previous life!

Even if that Young Master Yuan was heaven-defying, living right next to her was a demon levelled Li Moying. As Celestial Light Sect’s Young Sect Master, there was nothing in Celestial Light Academy which he couldn’t handle! She didn’t have any qualms about doing anything at all!

In that instant, Huang Yueli suddenly became distracted.

This feeling seemed to make her return to her previous life, where she had Mu Chengying as her backing and allowed her to go on a rampage in the entire Soaring Heavens Continent.

“Ai, why don’t you listen to persuasion!” Su Qingyue persuaded patiently.

Huang Yueli couldn’t take her nagging and quickly changed topics.

“Alright, I’ve already selected my Profound Armaments at the Profound Weapon Chambers and following that I’m only left with selection of cultivation methods and Profound skills at the Scripture Depository! The day is not young anymore and I want to go to the Academy’s cafeteria to have my lunch! Let’s quickly make haste and make our way there!”

Su Qingyue turned around and led the way.

The both of them walked for almost one hour before they reached their destination.

Celestial Light Academy’s Scripture Depository was situated in the middle of a ravine and was surrounded by mountains. It’s natural defence same from the territory. Making use of the natural terrain, a sixth tier defence array was set up in its surroundings! It was the highest tier array which Huang Yueli had seen in Celestial Light Academy.

From this, it could be seen on how important the Scripture Depository was towards an Academy.

## **Chapter 865: Bai Liu Feng’s clue (1)**

There were quite a number of people in the Scripture Depository but it was extremely quiet. Whenever anyone passed by, they were light handed and light footed, trying hard not to make any noise.

When Huang Yueli stepped inside, she acutely felt some Profound Energy vibrations from the various corners of this building and even a sense of being spied on.

This meant that Celestial Light Academy had arranged a number of high levelled experts to oversee the Scripture Depository and in this place, there were seven high levelled experts presences here!

As she sensed this, Huang Yueli also restrained herself and controlled her own Profound Energy in case she attracted any unnecessary trouble.

She walked to the registration counter for core students and drew out her identity token, passing it to the managing teacher in charge.

“Good afternoon Teacher. I am this year’s new student Bai Ruoli and I’m here to exchange for the entrance examinations reward.”

The managing teacher received and checked her identity token and couldn’t help but took a few more glances at her, “So you’re the new top student! The one who defeated Lei Zichu in the Martial Arts Stage!”

Huang Yueli smiled, “That’s me!”

The managing teacher gave a smile, “You’re really something! A newly enrolled student and you’re already ranked eighth at the Martial Arts Stage. This is something that had not happened before and I heard you’re Bai Liu Feng’s daughter! Your talent is even stronger than your father’s. As expected, like father, like daughter!”

“It’s just luck!” Huang Yueli humbly said.

Su Qingyue looked on with envy as Huang Yueli exchanged conventional greetings with the managing teacher.

The manager of the Scripture Depository was different from the other managers in the academy.

As the Scripture Depository was of great importance, to prevent the possibility of cultivation methods being leaked or accidental matters like this, any managers’ cultivation level in the Scripture Depository were all at least five stage realm and above!

This managing teacher that they were facing was a sixth stage realm practitioner. All the teachers in Celestial Light Academy were all very powerful and their usual attitude towards core students were not cold nor hot.

But now he was very courteous towards Huang Yueli.....

It was just different when you have the ability!

“He he, I won’t waste any more of your time. The reward that you have gotten is any cultivation method or Profound Skills in the first three levels of the Scripture Depository. There are a total of two books so you must choose carefully.”

Saying that, the managing teacher pointed towards the inner zone of the Scripture Depository.

“I’ll give you a simple introduction. The Scripture Depository has a total of four levels. First floor rooms start with You (Tenth), Xu (Eleventh), Hai (Twelveth) and behind every number are a total of twelve rooms. In it are all Yellow grade cultivation method and Profound Skills. Second floor rooms start with Wu (Seventh), Wei (Eighth), Shen (Nineth) and in each of the nine rooms are Black grade medium level and lower level cultivation methods and Profound Skills. Third floor rooms start with Mao (Fourth), Chen (Fifth), Si (Sixth) and in each of the sixth rooms are Black grade upper level cultivation methods and Profound Skills. As for the fourth floor, which is the highest floor, starts with Zi (First), Chou (Second) and Yin (Third) has only three rooms and in it, there are Earth grade lower level cultivation methods and Profound Skills!”

“For now, you can only enter the first three floors. To a third stage realm practitioner, to be able to master two Black grade upper level manuals will absolutely be an improvement to your ability! As you are still young, the allowance for you to upgrade your space is still very large so my advice is to choose cultivation methods or types like that to aid you in your future cultivation.”

To an academy, to be able to keep stock of such a high volume of cultivations methods was something which is worth to flaunt about, not to mention they had a total of nine rooms worth of Earth grade cultivation methods and Profound Skills!

If it was outside the academy, any one of the Earth grade cultivations could be sold at a shocking sky-high price.

No wonder the Scripture Depository was heavily guarded.

“I understand now.” Huang Yueli thanked the managing teacher and walked towards the inner zone of the Scripture Depository.

### **Chapter 866: Bai Liu Feng’s clue (2)**

Su Qingyue also wanted to follow but was stopped.

“Only the one who had obtained the qualification to exchange is allowed to enter so this student, please wait outside!”

Su Qingyue’s face turned stiff as she backed down and laughed in embarrassment, “Then... Sister Li, I’ll wait here for you!”

Huang Yueli nodded, “Alright I won’t waste too much time and will be out soon.”

When the managing teacher heard what she said, he frowned unhappily as he butted in, “Miss Bai, I must remind you that even among the core students, to be able to enter the first three floors to exchange for cultivation methods or Profound Skills, this chance does not come by often! You must choose carefully the cultivation method that you want and not waste this chance! Spend more time looking around!”

Su Qingyue also added, “That’s right Sister Li, don’t ever rush! Take your time to choose, I’m in no rush.”

From what she saw, choosing cultivation methods and Profound Armaments were completely different matters.

When choosing Profound Armaments, Huang Yueli could still choose based on her good foresight and chose those Profound Armaments with purity, lustrousness and the rest to judge their merits and drawbacks.

But cultivation methods advantage or disadvantage could not be seen just from the surface and even if it was categorised based on grade, but to determine which book was suitable was oneself, one would still have to open and read each book to decide! Even just by reading the first page of every book, that would already require a lot of time.

So this matter could not be rushed.

Huang Yueli shrugged her shoulders and without any further explanation, she turned around and entered the inner zone.

The inner zone of the Scripture Depository was exactly as what the managing teacher introduced. When she just entered the first floor, it started room number one all the way to room number twelve. Along the way it was completely packed to the brim as it spread out, with various types of cultivation methods and Profound Skills.

In the first few rooms, Huang Yueli didn't linger on but continued walking and walked all the way onto the third floor.

The number of students on the third floor instantly decreased, only about ten over students inside.

Seeing an apparently young girl walking inwards, a male student stood up and said, "This Junior Sister, this is the third floor and only core students can enter, you...."

However, Huang Yueli didn't reply to him but only flashed her identity token and the array eye at the entrance flashed for a moment before the door opened and she walked in directly.

Everyone in the room went into a blank as the gazes in their eyes towards her changed.

This kind of age, she was obviously a new student and yet to be able to enter the third level of the Scripture Depository, her status was instantly revealed!

"This... This should be the legendary new top student Bai Ruoli!!"

"That's right, it must be her! I heard that new top student's first prize reward is to get two manuals of cultivation methods in the first three floors of the Scripture Depository."

"I'd never expected her to look so beautiful. Those campus belles in our academy cannot be compared to her!"

"What's strange about being good looking? Her ability is not just based on her looks, she's also ranked eighth in the Martial Arts Stage! Heavens, I cannot imagine... I absolutely can never reach that level in this entire lifetime of mine...."

Everyone discussed in whispers as they looked curiously at Huang Yueli's direction.

“I wonder what cultivation methods and Profound Skills will a genius like her choose?”

“I also want to know! Rumours are her power of comprehension is extremely high and she would probably choose those hard to master but extremely powerful cultivation method?”

“That might not necessarily be.....”

Everyone’s gazes were fixed on her back, trying to find out the legendary new student who had the best power of comprehension in the past hundred years would choose which kind of secret manuals to refine?

### **Chapter 867: Bai Liu Feng’s clue (3)**

Huang Yueli knew everyone was looking at her but she didn’t treat it as anything much.

Her gaze swept past rows of secret manuals as thoughts kept fleeting past.

Her knowledge and experience was very broad and unlike ordinary students who need to flip through every page, she only needed to look at the title of the book and roughly grasp an idea of it so she saved a large amount of time.

Very soon, she had already looked through the first shelf and as she didn’t find anything satisfactory, she walked to the next row.

Unfortunately, there was simply too little cultivation methods or Profound Skills which Huang Yueli was interested in and after a short while, she had already browsed through ten over rows of shelves and yet still not one book made her eyes glimmer.

As for those core students who were staring at her with their eyes wide from behind, they looked at each other in dismay.

“What’s the situation? Why did that new top student walk so fast? She didn’t even stop to take a good look! What on earth is she searching for?”

“Yes, that’s so strange! Will she be able to find some secret manual which she needs by herself with this manner? Choosing a cultivation method or Profound Skill is a delicate matter and cannot be rushed! She’s making a superficial understanding from a cursory observation so what can she even derive from this?”

“Ai, I heard she’s from a small country by the boundary so I’m afraid she didn’t have any experience in such a huge Scripture Depository before? Did she think that she would be able to find something useful for herself just by looking around like that? Looks like she can only choose any two books casually so this is a wasted trip!”

At that moment, everyone had assumed that Huang Yueli didn’t know what she was doing so they were rather disappointed with her.

They had initially thought of observing to see what kind of cultivation method the hundred-year genius would choose so as to use it as a referential purpose for themselves!

But from the looks of it now, it seemed that they really thought too much....

Huang Yueli however, didn't bother what the others were thinking of and continued to walk around. She had already toured the entire first room under Liu and didn't find anything suitable.

She was just about to go to the next room when suddenly from the corner of her eye, she seemed to have seen something as her eyes lit up.

In the corner of the room laid some books.

The only thing was those secret manuals on the book shelves were laid in order. Although there was a mixture of new and old, but at least it was clean and tidy. Some especially old manuals were carefully bounded with a protective book cover on the outside.

However that pile of books which laid in the corner was totally different. All of it were wrinkled and broken, some even shedding yellow marks. If it wasn't kept in the Scripture Depository, other people might have mistaken it as a pile of old brown paper!

Huang Yueli shot up towards that pile and picked one book out from there.

This secret manual was extremely old and the first few pages had a large tear mark. Apparently the first half of the portion had at least ten over pages being torn off so even the cover was no longer there.

What was worse was in the remaining last few pages, it was not any ordinary words but various tadpole sort of symbols which was illiterate.

But such a mutilated set of cultivation method made Huang Yueli reveal a smile.

"Looks like Celestial Light Academy still has some good stuff. They actually.... have this <<Heavenly Immortal Dance Score>>!"

<<Heavenly Immortal Dance Score>> was a zither score from the God Realm which had circulated to an ancient mystic region which she found in her previous life while training there.

To normal zither masters, this zither score could only be used to play music but for someone with such great concentration and practitioners who use the zither as a weapon, the ancient zither score.... was equivalent to a set of deep Profound Skill!

#### **Chapter 868: Bai Liu Feng's clue (4)**

But on today's Soaring Heavens Continent, there were very few practitioners who inherited the zither skills and the only one who made any achievement was only Huang Yueli, so..... an ancient zither itself wasn't worth much at all.

When Huang Yueli got hold of the << Heavenly Immortal Dance Score >> in her previous life, she realised that the zither score's power was huge and was a Heaven grade Profound Skill. But unfortunately, the second half of the score was missing.

She thought of many ways, even using a ninth grade Profound Armament as a reward to source for this zither score in the entire Soaring Heavens Continent but ultimately, she still couldn't find it.

She had never expected to find the whereabouts of the second half of the score in Celestial Light Academy's Scripture Depository.

Huang Yueli delightfully flipped through the second half of the << Heavenly Immortal Dance Score >> once and kept it away.

Seeing that there wasn't anything else interesting, she turned around and prepared to leave.

As she passed by the entrance, she met the male student who tried to pick up a conversation with her earlier with a shocked expression. He wanted to speak but did not do so on second thoughts but eventually he still went up ahead.

"That... Junior Sister Bai, I'd like to remind you on this. Although this secret manual is not complete and is found in the pile of books which were going to be deposed, but if you really wanted to bring it away from the Scripture Depository, it will still take up one slot of the cultivation method which you can exchange!"

Huang Yueli nodded her head, "Mmn, I know. Thank you Senior Brother!"

The male student saw her still holding on to that secret manual, frowned and continued to persuade her, "This.... you really intend to exchange for this secret manual?"

Huang Yueli replied, "That's right."

The male student responded, "Actually that pile of books had been there for years. When I first entered Celestial Light Academy, I had already seen it! Although the grade of these secret manuals are very high, they are all Earth grade and above cultivation methods and Profound Skills! But because it is not complete, they are all left on the third floor! In the past, several core students who are ranked in the top few geniuses had also coveted these Earth grade cultivation methods, thinking that they might be able to take an advantage so they exchanged for these incomplete cultivation methods but in the end, none of them had managed to learn it at all! Instead they had wasted a precious chance for exchange!"

"Moreover, when they exchanged, it was merely short of one or two pages but yours is short by an entire half book! What's more, there are no words on this secret manual at all, only some scribble like drawings, you... you really want to choose this book?"

Huang Yueli wanted to laugh. These practitioners who had been treated like geniuses to nurture since young had not much experience in dabbling with things such as music and they didn't even know what a zither score was.....

But although this male student was nosy, but his intention was good so Huang Yueli didn't want to offend him.

"Thank you Senior Brother for your reminder. I can tell that this secret manual's grade is the highest among the rest and it seemed to be heaven grade lower level! Although there is only half a book left, but I had never seen a heaven grade Profound Skill in my entire life before! I must go back and pay homage to this book so as to increase my knowledge! Anyway there will be plenty of chances for exchange in future! If there's nothing else, I'll take my leave first!"

After Huang Yueli finished her sentence, she nodded at him and turned around to leave.

The male student displayed a look that seemed to have been struck by lightning as he stood there blankly, looking at her departing figure.

The others also started to discuss in whispers.

“What on earth is that new top student thinking of?”

“Who knows? Perhaps she thought that she was able to charge into Martial Arts Stage top ten when she just entered the school so she self-inflated terribly! Half of the cultivation method is no longer available and still intend to practice?”

“Let’s see how she will regret it after she wasted this chance for exchange!”

### **Chapter 869: Bai Liu Feng’s clue (5)**

Huang Yueli left Liu room number one and followed the serene and narrow corridor as she continued walking ahead.

Liu room number two, Liu room number three, Liu room number four.....

As she looked at the door plates hanging on the two sides of the corridor, something seemed to flash past her mind but she was unable to catch hold of it.

It was only after she walked one round at Liu room number two and derived nothing when she stood once again at the corridor when a thought suddenly struck her!

Right, her father Bai Liu Feng had left a few words on the back of his Celestial Light Academy core student’s identity token, which was – Yin number three, left eleven, up twenty nine!

At that time when she was still in South Yue Kingdom, she was totally unable to comprehend the riddle of these figures but now looking at these number plates, she suddenly understood!

Yin room number three!

This apparently was the room number which had many cultivation methods and Profound skills in the Scripture Depository!

As for left eleven, up twenty nine, similar to what she had seen in the other rooms, it should be the numbering of the book shelves and cultivation methods!

Which meant that... the remnant that Bai Liu Feng left behind for her should be kept in the Scripture Depositor of Celestial Light Academy!

Could it be that he left behind some sort of heaven grade cultivation method?

It had better not be so..... she had no interest in heaven grade cultivation methods at all! He might as well have left her some high levelled materials.....

Huang Yueli was not able to hide her happiness. After being muddled for so long, she finally understood what the clue meant!

Looked like coming to Celestial Light Academy was an absolutely correct choice!

At this point of time, she couldn't be bothered to pick out any cultivation methods as she hurriedly turned around and ran towards the opposite direction. Very quickly, she reached the entrance of the Yin numbered rooms.

But when she reached the entrance, Huang Yueli's footsteps came to a halt.

Looking at the defensive array at the entrance, she suddenly recalled something.

That's right, Yin room number three was on the fourth floor of the Scripture Depository! Right now, she had no authority to enter!

Based on the level of her array skills, she would probably be able to break open this defensive array but the Scripture Depository was after all guarded by seven stage realm practitioners and if she alerted them, it would be difficult for her to get out of this.

Huang Yueli stood at the entrance and thought for a while before turning around and walked back to the entrance of the Scripture Depository.

When the managing teacher saw her, he instantly displayed a shocked expression.

"Miss Bai, you've already chosen in such a short while? Isn't your speed a little too fast! Didn't I remind you earlier? You must be careful and serious when selecting a cultivation method! Have you really looked through carefully?"

Huang Yueli shook her head, "Teacher, I haven't selected finish. I just want to ask under what circumstances will I be able to enter the fourth floor of the Scripture Depository?"

The managing teacher went into a blank, "Scripture Depository fourth floor? You want to go to the fourth floor?" He apparently disapproved, "Although your innate talent is very good but you have just joined the academy and had not learnt much cultivation methods. Those Earth grade lower level secret manuals on the third floor is enough for you to learn! To put it bluntly, the way of cultivation is a step by step process and you shouldn't bite off more that you can chew!"

Huang Yueli pursed her lips trying to control her extremely anxious feelings.

"Teacher, I can understand the things you are trying to tell me. I only wanted to know how will I be able to enter the fourth floor of the Scripture Depository? I am already in the top ten of the Martial Arts Stage and since I cannot enter now, does it mean that I have to become rank number one among the core students before I can enter?"

### **Chapter 870: Bai Liu Feng's clue (6)**

Recalling the past, Bai Liu Feng was ranked first among the core students and since he was able to hide the clue in Yin room number three naturally meant that he had the qualifications to enter!

However, Huang Yueli didn't expect the managing teacher to shake his head when he heard her question.

“It’s not as simple as you think! Even if you’re ranked first among the core students, you cannot enter the fourth floor of the Scripture Depository as you liked! Honour Points are required if you want to enter the fourth floor to select cultivation methods and Profound Skills!”

“Honour Points? What are those?” Huang Yueli frowned as she asked.

“Honour Points is the reward for special contributions to the academy! This type of special contribution can indeed bring about a major advantage for the academy and not something as ordinary as getting first in the examinations!”

The creases on Huang Yueli’s brows grew tighter.

What special contribution, it sounded much more difficult than getting first! She wondered what was the criterion that Celestial Light Academy had set?

“Then what are considered as special contributions? Those that can obtain Honour Points?”

Managing teacher rarely had such patience as these matters are usually self-explanatory in the information booklet that were distributed to new students when they first enrolled into the academy.

But as Huang Yueli was a new student and had just entered the academy, moreover she was such a rare outstanding genius, managing teacher made an exception and started explaining to her.

“There are many kinds of special contributions. For example when the other academies in South Sky Region challenges Celestial Light Academy, if you’re chosen to represent the academy and managed to defeat the opponent, then you will be able to obtain Honour Points. Another example is every five years, South Sky Region will organise a youth tournament and if you obtain a good ranking, that would also give you Honour Points. Other examples.....”

Managing teacher delightfully explained a huge load of examples and the more Huang Yueli heard, the more chilly her heart became.

“Then.... teacher, are there any academies who are challenging Celestial Light Academy recently? When will the next Youth Tournament be held?”

“Regarding this, Celestial Light Academy is well-deserved of being the number one military institution and there hasn’t been any challenges from other schools for several decades!” As he was saying that, he puffed out his chest with an honoured look, “The youth tournament was just held last year and there are still four more years before the next tournament.....”

Huang Yueli was rendered speechless, unable to accept that her luck was that bad!

From what the managing teacher said, didn’t that meant that she had no way to enter the fourth floor of the Scripture Depository at all?

Seeing Huang Yueli’s face turn unsightly, the managing teacher added some meaningful and heartfelt words, “Young girl, don’t be so hasty! The academy will sometimes have some special situations and will distribute out some tasks which can obtain Honour Points. If you stay at the academy for two to three years, you will definitely have a chance so what’s the rush? You should just master the cultivation methods on the third floor first!”

Huang Yueli's mouth twitched not intending to explain further to the managing teacher.

Since she knew that she was definitely not able to enter the fourth floor today, she eventually calmed down.

There are always ways and she can only come out with it later on.

She turned around and re-entered the Scripture Depository and went one round at the entrance of the fourth floor, roughly remember the surrounding topography.

After that she casually entered a room on the third floor and saw a Profound Skill of Earth grade lower level manual and brought it out.

Nearing the Scripture Depository entrance, she passed this manual along with the extant fragment of the << Heavenly Immortal Dance Score >> to the managing teacher.
