Chapter 951: Shamelessness is hereditary? (1)

Huang Yueli's glare turned chilly, "The person I'm insulting are not Armament Masters but you, a worthless piece of trash! Moreover, have you forgotten the warning which I told you previously?"

"W... What?"

Li Xue'er was stunned because she had indeed forgotten but instinct made her feel danger.

Just as she was still in a daze, Huang Yueli's right hand waved as a strong Profound Energy was unleashed striking Li Xue'er on the chest.

In the shocking cries from the bystanders, Li Xue'er flew heavily away as a trace of blood flowed down from the corners of her lips.

"Bai Ruoli, you... you actually dare to attack me!"

Huang Yueli's strike this time wasn't heavy at all so Li Xue'er could still get up as she clutched her chest to complain.

Huang Yueli sneered icily, "Haven't I already taught you this last time? As an Armament Master, in front of a practitioner whose ability is much, much higher than yours, you should tuck your tail away and act properly like a person! Don't treat other people's respect towards you as a shameless investment! Looks like you didn't remember my words properly so as your Second Sister-in-law, I must teach you properly!"

"You.... You..."

Li Xue'er was both anxious and angry and this worsened her internal injury. Her chest hurt like mad and both her eyes saw black as she almost fainted.

The bystander students were all tongue tied when they saw this as they didn't expected Huang Yueli to strike suddenly.

It was until now that they recalled that Huang Yueli was a super genius who was ranked third in the Martial Arts Stage! If she really wanted to hurt anyone, no one else would be able to stop her!

Li Xue'er grew even more frustrated when she saw their attitudes.

Just a quarter of an hour ago, these people were still fawning on her, praising her to the skies as though there was no other talented student in the entire Celestial Light Academy!

But now that Huang Yueli stood up, these people's attitudes changed immediately??

No, if they confirmed that her relationship with her Second Brother was not good, then in the future, she would have no way of getting along in Celestial Light Academy!

Li Xue'er clenched her teeth as she spoke up, "Bai Ruoli, I've remembered the insult you treated me today! Now that Second Brother isn't here, you dare to be so arrogant towards me. Later when Second Brother knows how you treat me, he will definitely get even for me! Let's wait and see!"

Huang Yueli smiled slightly as she was very clear on what Li Xue'er was planning.

She wanted to mislead these students into thinking that she had a standing in Li Moying's heart so that these people were still willing to fawn on her!

Huang Yueli took a meaningful glance at her and was just about to speak.

But someone spoke out first.

"Now that I know this already, who am I going to get even with? Hmm? Li Xue'er, you have a lot of guts to speak to Li'er in this way? Looks like I was too courteous to you when I was in South Yue Kingdom and this had made you dare to treat my woman in such an outrageous way?"

A deep and bleak man's voice was heard, bearing a visibly sinister and cold intention.

Li Xue'er's entire body shook as she raised her head unbelievably.

Huang Yueli also raised her brows in surprise and as she looked back, she saw Li Moying's tall and straight body structure, almost totally sticking to the back of her, shielding the sunlight from the top.

She pursed her lips, feeling somewhat uneasy.

In front of this man, she always seemed so petite, with such a vivid contrast against his tall and lean body. Adding on to the comparison between their abilities, it always made her fall into a weaker position.

Furthermore, Li Moying's capability was just a little too strong right?

When did he appear behind her? She actually didn't notice at all?

Chapter 952: Shamelessness is hereditary? (2)

Upon seeing Li Moying's side view of his handsome but cold face, Li Xue'er only felt her entire body turning cold as she started to tremble uncontrollably.

Why would Li Moying suddenly appear here? When did he arrive?

Why did it have to be at that precise moment when she was just exaggerating about their sibling relationship that he had to show up?

This... how was she going to cover up this lie now?

"Senior Brother Li actually showed up! Too good looking, this is the first time I'm looking at Senior Brother Li from such a close distance. He already looks very handsome from afar and now from close up, he's even more... I'm going to faint....."

“You’re the most love-struck idiot! Why don’t you even think that Senior Brother Li’s fiancée is just standing by the side!”

“I’m just looking at him only.... But now that Senior Brother Li’s fiancée and his biological sister are fighting, how is he going to handle this?”

“He would definitely stand on his sister’s side, after all blood is thicker than water!”

“That might not necessarily be true. Senior Brother Li and Bai Ruoli’s relationship is said to be very good so maybe he might listen to Junior Sister Bai?”

The bystanders’ whispered discussions had echoed into Li Xue’er’s ears and this made her even more embarrassed, her forehead drenched in sweat.

What’s that about blood thicker than water or standing on the sister’s side. Only Li Xue’er herself knew that this was absolutely not possible!

Earlier she had even provoked Huang Yueli so much. Based on how much Li Moying pampered this wretched lass, if he didn’t tore her into pieces, it would probably be because of their sibling relationship.....

Li Moying stared at her icily, “Why are you not talking? Are you dumb? Earlier..... weren’t you happily exaggerating?”

Li Xue’er kept absolutely silent, so silent that even the surrounding students couldn’t bear it any further.

Most of them were still standing on Li Xue’er’s side. After all they had spent several days trying to win Li Xue’er over and within their inner hearts, they didn’t hope that their efforts were wasted, fawning on the wrong party.

“Junior Sister Li, now that Senior Brother Li is here, quickly tell him what happened earlier?”

“That’s right. Bai Ruoli actually started beating you up the minute things didn’t fall through, isn’t she such a bully! She even dared to sow discord between your sibling relationship!”

“That’s right. She dared to create the rumor that your Second Brother didn’t like you! And even gave you a beating, that’s just too much!”

As Li Moying heard their comments, the cold glint beneath his eyes grew stronger as his gaze swept past all those chatterboxes, making them all shiver and shutting their mouths up effectively.

Li Xue’er braced herself as she greeted, “Se.... Second Brother.....”

Li Moying humped, “What Second Brother? I’m not worthy of your greeting Second Brother! Your mother is my enemy who murdered my mother and your brother even nearly killed me by dumping me into the icy cold snow! If it wasn’t because of the instruction which my mother told me before she died, I would have sought your lives long ago! And now you’re not tucking your tail behind your back, do you think I’ve treated you way too well?”

“N.... No, Second Brother!”

When Li Moying blurted these out, those who heard it all bore a shocked expression.

No one could have imagined that Li Moying and Li Xue'er were not born from the same mother and from the sound of it, it seemed that their enmity were rather deep!

Those present were mostly descendants from Sky Cloud City's large families and they were often exposed to these sort of aristocratic family feuds so in their brains, many scenarios were fed into it and they instantly understood what had happened.

But following that, they wouldn't help but wished that they could banged their heads onto the walls to kill themselves!

They were really too silly. Facing Li Moying's enemy and fawning on her for so many days, thinking that she was some leg which they could hope to hug upon!

Now that things have come to this, this was considered as..... fawning onto the horses' hooves??

At that moment, everyone felt that they were swindled and the gazes they threw towards Li Xue'er were extremely unfriendly.

Chapter 953: Shamelessness is hereditary? (3)

Li Xue'er turned anxious as she felt their gazes turned onto her.

She hastily called out, "Second Brother, this... this has nothing to do with me! When Mother and Eldest Brother did that, I... I was only four years old and I knew nothing at all, nothing at all! How can you put the sins that they had committed sins onto me? I will draw a clear line with them in future and will not keep in contact with Mother and Eldest Brother! Second Brother, I've always been standing on your side!"

When she said this kind of shameless thing, before Li Moying could say a word, Huang Yueli couldn't take it and wanted to throw up.

"Li Xue'er, I'm almost going to vomit! I've never seen such a shameless person like you before! Have you forgotten the time when you, your Mother and Eldest Brother tried to harm me and Moying? You've tried several times to kill me, so don't tell me I'm sleepwalking! You've always been on your Second Brother's side.... Hur hur, obviously it's because you realised that your Second Brother is powerful enough and your Eldest Brother has no more use to you, so you casted Mojun aside, not admitting him now? Do you really think we're all idiots?"

Li Xue'er stared at her furiously as she retorted, "It's all your fault. You've always been sowing discord in front of Second Brother! In actual fact, I've always been helping Second Brother! I've long despised the way Mother and Eldest Brother does things but after all they are my biological relatives so I cannot bear to hurt them!"

Huang Yueli had hit her right on the spot and she was having a guilty conscience so she could only use her voice to explain loudly, attempting to confuse the thinking of the bystanders.

To tell the truth, Huang Yueli really didn't say anything wrong. She indeed felt that Li Mojun could not render her any help anymore.

When Li Mojun wasn't injured then, he was already one of the lowest ranked students among the core disciples so it was a hopeless case if he wanted to join Celestial Light Sect. But Li Xue'er was alone in Sky Cloud City and without anyone's assistance, she could only follow Li Mojun as an ally.

Now that Li Moying had suddenly appeared, Li Xue'er realised that the Crown Prince as compared to her Second Brother was not even worth mentioning as a dreg!

Thinking that she could be as glamorous as she could get, it was all because of her capable brother who was ranked number one!

This kind of glory, she only needed to taste it once and would never want to lose it.

So Li Xue'er had already planned right from the start that as long as she had a chance, she would grab tightly onto Li Moying and as for that worthless Li Mojun, he would become her stepping stone. As long as she was able to get Li Moying to acknowledge her as his seventh sister, she would not hesitate discrediting Li Mojun at all!

The ridicule on Huang Yueli's mouth grew even more obvious.

"Looks like shamelessness is indeed hereditary! I thought your Mother and Li Mojun were shameless enough but I had not expected you to surpass them! As compared to you, they really are a role model for morality!"

"You... Second Sister-in-law, you've really misunderstood me. Why won't you listen to my explanation? Second Brother, you will listen to my explanation, right?"

Li Xue'er turned teary-eyes as she tried to act pitiful to gain Li Moying's sympathy.

Huang Yueli's eyebrows rose as she use her elbow to jab the man standing behind her, "Hey, Second Brother, your little sister is asking you a question! Do you believe her?"

Li Moying didn't even cast a glance onto Li Xue'er as he stretched out his hand and held onto Huang Yueli's waist bringing her into his embrace. The other hand pinched little cheek, "What question are you asking, I'm no idiot alright? Besides that, I don't have any little sister, I only have.... a little fiancée."

Chapter 954: Shamelessness is hereditary? (4)

Li Xue'er's face turned ghostly white when she heard that.

Looks of sympathy, ridicule and despise shot from all around which made her so embarrassed that she had no place to hide.

She had not expected Li Moying to not have any sentimental feelings and threw her reputation and face entirely onto the ground to step upon!

She had originally thought that no matter what, she was Li Moying's biological sister and as she had not directly harmed Li Moying, he would take into account their sibling relation but she had not expected....

Li Moying lowered his head as he blew a breathe onto Huang Yueli's ear.

Huang Yueli's ear was extremely sensitive and it instantly flushed red.

She indignantly rolled her eyes at him and shoved him, "Stop fooling around, there're so many people watching! Quickly settle your 'excellent' sister!"

Li Moying was extremely unhappy about being shoved aside by his little fox as his face sunk and his icy cold gaze turned towards Li Xue'er.

"Li Xue'er, this is the last time I'm warning you! Although my Mother had made me vow not to hurt anyone in the Li family that year, but Li'er is my bottom line~ If I see you saw or do any disrespectful things to Li'er, I will absolutely throw that vow aside anytime! By then, don't blame me for not reminding you on this!"

Li Xue'er trembled from shock. In front of an overbearing seventh stage realm practitioner's oppression, both her legs turned to jelly as she could not even breathe!

She knew that Li Moying was different from Huang Yueli.

Li Moying's blood was cold and he was even more overbearing, even more emotionless and aloof! Furthermore..... he absolutely did what he said!

So his words were not only empty threats.

"Yi? What smell is that? It's so stinky!"

"It's.... from Li Xue'er? The smell came from her!"

Everyone held their noses as they threw a look of despise towards her.

Li Xue'er lowered her head blankly and suddenly realised a warm sensation in between her legs.... Under Li Moying's overbearing oppression, she had unknowingly wet her pants!

She shrieked out as she quickly used both hands to cover her face!

To wet her pants in public and being found out by everyone, this wasn't just any ordinary way of losing face! She was still a lady!

Li Xue'er wished she could dig a hole and hide herself into it, never coming out to see anyone.

She suddenly sprung right up, turned around and fled! As she fled, she didn't forget to cover her face up, worried that someone would recognise her in the middle of her escape.

Huang Yueli didn't expect her to really wet her pants as she too went into a blank.

It was until Li Xue'er had fled before she regained her senses and shook her head as she laughed, "Gasp! This is really called..... to piss in one's pants in terror!"

The chilly frost in Li Moying's charming cherry blossom eyes slowly melted away and in replacement was filled with gentleness.

"Happy now? Li'er?"

Huang Yueli pouted her lips pamperedly, "Still alright..."

The main character had been scared off and those remaining bystander students didn't dare to stay around. Hadn't they seen for themselves how viciously he had treated his own sister! If they were to pull his whiskers, wouldn't they die even more horribly!

Everyone's thinking were in sync as they slowly nudged away, not wanting to alarm Li Moying and Huang Yueli and quietly slipped away.

Huang Yueli saw this from the corner of her eyes and suddenly called out aloud, "Wait a minute, don't run away! I'm talking about you, the one in blue on the left!"

The young lady dressed in blue had already ran quite a distance away, thinking of leaving this unsafe place.

In the end, she was pointed out by Huang Yueli.

Chapter 955: Armament Master certification (1)

The young lady in blue trembled with fear as she stopped in her tracks.

"Junior.... Sister Bai, what instructions do you have for me?"

Huang Yueli laughed, "You don't need to be so anxious. I only wanted to ask this, earlier.... I heard what all of you were talking about and you mentioned that three days later would be the Armament Guild's certification assessment. Is there such a matter?"

Blue dress lady heaved a sigh of relief as she replied, "This is indeed true. Junior Sister Bai, you've just joined Celestial Light Academy so you probably aren't sure. In Celestial Light Academy, there are quite a number of students who learn Armament refining and every year, the Armament Guild will conduct a standalone certification assessment for Celestial Light Academy which only those students or teachers in the academy will be allowed to attend. If they pass the assessment and officially become an Armament Master, then their treatment will directly be upgraded the same as Martial Arts Stage top ten ranking and besides that they would be able to gain Honorary Points as a form of reward!"

She had assumed that Huang Yueli wanted to settle the old debt with her but in the end, it was just to ask her some matters.

Blue dress lady actively explained everything that she knew to her.

"So it's like this..." Huang Yueli muttered irresolutely, "No wonder Li Xue'er is acting so complacently today!"

"Isn't that so! Senior Sister Li holds the most hope to become an Armament Master in this round of certification assessment! Other students could only take part in the Armament apprentice assessment only. Senior Sister Li is not yet eighteen but her innate talent in armament refining is rather good... oops!"

Blue dress lady was happily talking as she said out everything she had in her heart when she suddenly recalled that Huang Yueli and Li Xue'er were enemies so she hurriedly shut her mouth up.

She took a quick glance at Huang Yueli nervously, worried that she would be lashed out at.

However Huang Yueli only waved her hand as she said, "I understand now. Thank you Senior Sister, go ahead and be busy with your own stuff!"

As though being given amnesty, the blue dress lady turned around and ran away in lightning fast speed.

This scenario made Huang Yueli slightly confused, "What's the situation? Am I that scary?"

"This is because they have a guilty conscience....." Li Moying laughed in a low voice as she heard his voice from the side of her ear.

Huang Yueli then recalled that this man was still standing beside her.

She raised her head up to meet with that pair of extremely seductive cherry blossom eyes as she went into a daze losing her senses, attracted by the pampered gaze deep within his eyes.

"Li'er, you're drooling!"

"Ah??"

Huang Yueli recalled her senses and raised her hand to wipe the corner of her lips when she heard what he said but....

"You liar!" There wasn't anything at all, so where did the drool come from?

Li Moying laughed heartily, "I'm just reminding you in advance. Otherwise when your drool really drips out, it'd be too late by then!"

Huang Yueli rolled her eyes at him, "Who wants to listen to the rubbish you're sprouting!"

Thinking back to how she was oddly attracted by Li Moying, she pursed her lips as she suddenly felt annoyed.

She must really had been bewitched! She was just thinking that she could not continue being ambiguous with this man but in the end, the minute she met with that pair of eyes, she immediately forgot all her determination. It's all Li Moying's fault for having a pair of eyes which looked exactly like Mu Chengying's!

Too demonic, and too seductive!

She..... must hold on to herself tightly and not be bewitched easily again!

Huang Yueli vowed to herself but she really didn't have much confidence.....

Li Moying saw her suddenly acting melancholic and suddenly becoming angry, her expressions were every changing as he curiously asked, "Li'er, what are you thinking of?"

"I....." Huang Yueli paused, "Right, I was just thinking that I can join in the Armament Guild's certification assessment that would be held three days later!"

Chapter 956: Armament Master certification (2)

“You want to take part in it as well?” Li Moying’s brows rose, “Based on your armament refining standard, you still need to be certified by the Armament Guild? Those teachers in Celestial Light Academy don’t even have ten percent of your ability! You don’t need the Armament Guild certification to raise your social value.”

Huang Yueli answered, “You can’t put things in this way! The Armament Guild certification has its own advantages. Didn’t you see it for yourself? Li Xue’er is merely a high levelled Armament apprentice and she’s already so popular! The Armament Master medal is a symbol of status in Soaring Heavens Continent. Furthermore, the Armament Guild has many high levelled materials and only those Armament Masters whom they have certified are able to exchange for it, and those are very useful to me.”

Li Moying put his hand on the top of her head as he patted her affectionately.

“Alright then, since you’ve already decided then go ahead and enrol for it. No matter what you want to do, I’ll always be by your side.”

Huang Yueli nodded and under the man’s gentle gaze, she felt relaxed and peaceful.

Armament Guild is one of the strongest powerhouses in Soaring Heavens Continent and almost all Armament Masters had registered themselves with the guild to attain certification.

Just one Armament Master who stood out alone, were already much sought after and well respected, causing many practitioners compete with one another to get into their good books.

It was imaginable how strong the influence would be when so many Armament Masters united together.

Not only did the Armament Guild held various high levelled materials’ places of production, in Soaring Heavens Continent’s auctions, one would be able to sell their own refined Profound Armament at a higher price in Soaring Heavens Continent’s auctions, Profound Armament traders or Materials shops as long as they were certified Armament Masters in the Armament Guild.

Huang Yueli would never go against money and in order to earn even more, obtaining a medal that represented a certified Armament Master was absolutely necessary.

When they were in South Yue Kingdom, she didn’t attended any Armament Master certification assessment because her cultivation level was still very low and without any backing, if her identity as an Armament Master was exposed, it would easily drew various people’s greed and being plotted against.

But now it was different. Her own ability was rather strong and furthermore, she had the huge backing of Celestial Light Sect.

.....

After Huang Yueli made up her mind so she proceeded to the Profound Weapon Chambers three days later and enrolled herself for the certification assessment.

On the day of the assessment, Huang Yueli was delayed as she was held up making preparation work.

Li Moying had left his residence earlier and without any hesitation, he headed straight to the Profound Weapon Chambers.

The entrance of the Profound Weapon Chambers was already filled with people.

The Armament Master certification assessment which was held once a year was a very important event in Celestial Light Academy!

On this day, Sky Cloud City's Armament Guild Vice President would personally make a visit to Celestial Light Academy and they were all truly sixth tier Armament Masters, their social status extremely invaluable!

Because of this, Celestial Light Academy's Principals came out to welcome them personally.

With so many VIPs around, the whole place was bustling with excitement.

Furthermore, the refining process of Armament Masters was an absolute secret and there weren't many chances to see it normally. It was only during the certification assessment day when those Armament Masters would publicly refine the Profound Armament under the watchful eyes of everyone there so this was the only chance for ordinary practitioners to be able to see the entire refining process.

Students who had a bit of curiosity in them had all woken up early and rushed over to the Profound Weapon Chambers, hoping to get a chance to view the academy's major event.

Chapter 957: Armament Master certification (3)

Early this morning, Tang Jinhua along with Jiang Tuxin and Ling Wenbin stood at the entrance of the Profound Weapon Chambers as they waited to welcome the VIPs from the Armament Guild.

Besides that, what was different from last year was beside Tang Jinhua was Li Xue'er who was dressed in the Armament apprentice's robe.

Li Xue'er raised her chin up high with a dignified and solemn expression. If one were to take a careful look at her, one would be able to see the unconcealable delightfulness and arrogance deep within her eyes.

This was not an ordinary occasion. At such an important event, for her to be selected as the students' representative, following beside the Principals in the academy to welcome the Armament Guild's VIPs, this was a huge glory! This was also an enormous recognition towards her armament refining standard!

Thinking that after today, she would become a true blue Armament Master and by then she would attain the academy's true special privilege level, Li Xue'er couldn't help but revealed a smile.

In reality, it was exactly so.

Those students passing by were firstly shocked, followed by envy and jealousy when they saw Li Xue'er standing right next to the Principal as they started to discuss about her.

"Look, isn't that Li Xue'er? How is it possible that she's standing right next to the Principal?"

“That’s right! Just two days ago, I heard that Li Xue’er and Senior Brother Li’s relationship isn’t good at all and had even been slapped by Junior Sister Bai! Why is she still enjoying such privileges in the academy?”

As the saying went, good news don’t leave the house but bad news travelled thousand miles.

Many others were not accustomed to Li Xue’er’s usual arrogant and despotic ways and after being taught a lesson by Huang Yueli and Li Moying that day exposing her swindling tricks, news of it was spread throughout the entire academy and very quickly, everyone found out about it.

It was rumoured that she had not left her room for three days because she felt ashamed and resentful.

In the end, the minute she left her room, she became so glamorous so how would it not make others feel jealousy and hatred?

“Shh, lower your voice!” Someone who knew what was going on cut off their discussions, “Have you all forgotten that Li Xue’er is a high levelled armament apprentice! I heard that among the students taking part in the Armament Master certification today, she is the youngest and moreover, there is ninety percent and above chance that she would be able to pass it! Do you know what this means?”

“What? How can that be possible? Li Xue’er is not yet eighteen right?”

“An entry level Armament Master is the toughest among all the different occupations. For her to become an official Armament Master at such a tender age, her future is boundless!”

“Ai, no wonder she’s so complacent today. As long as she becomes an Armament Master, she will no longer be on the same level as us.....”

“Isn’t that so! So that’s why I’m asking you all to lower your volume! If she hears you and uses her status as an Armament Master to exact revenge on you in the future, then what should you do? Really envy Li Xue’er. Even though Senior Brother Li refused to be her backing, but she’s still so powerful.....”

This time, no one else dared to say a single word.

Li Xue’er stood at an eye-grabbing position at the entrance and although she could not hear what the spectators were saying, but she had roughly guessed the contents which they were discussing about.

She puffed out her chest and tidied her robe, trying her utmost best to make her department stand out even more perfectly.

This was a day which she was destined to become famous and everyone could only throw those envious gazes onto her! So what if Bai Ruoli was complacent? After today, she would be even more glamorous than that wretched lass! Perhaps even Li Moying would regret his actions and come begging her to admit their sibling relationship!

Just then, an uproar was heard from the main entrance.

The Vice President of the Armament Guild had arrived.

Jiang Tuxin and the rest hurriedly went up to welcome them.

Chapter 958: Armament Master certification (4)

Tang Jinhua pulled Li Xue'er over and whispered, "Xue'er, I will now introduce you the two Presidents so you must perform well!"

Li Xue'er perked herself up as she nodded, "Yes! Master please rest assured!"

Although Tang Jinhua was just a fourth tier Armament Master, but he was just barely forty years old and among Armament Masters, he was one of the younger ones and had many chances to advance further in future. He was considered as one of the outstanding younger generation so in the Armament Guild, his status was not low at all.

After the two Presidents had met with Jiang Tuxin, they turned their gazes towards Tang Jinhua.

"Jinhua, I heard that you had improved tremendously these days. Not only have you started to refine fifth tier Profound Armaments, furthermore... you also nurtured an outstanding disciple! I think the most highly of you among the younger generations, you have a bright future ahead!"

Tang Jinhua hurriedly smiled, "President Hu, President Gong, thank you for your praises! It's all thanks to Celestial Light Academy and Armament Guild's help that I have today's achievements."

President Hu smiled, "It's not easy these days to see someone so talented to be so modest and prudent! I really didn't think wrongly of you! This young lady beside you is...."

The two Presidents looked towards Li Xue'er and she immediately puffed out her chest as she raised her head to reveal a smile.

Tang Jinhua introduced, "This is Li Xue'er, the female disciple who I had mentioned the other time! Today she will also be taking part in the Armament Master certification assessment!"

"Oh? I heard she's only eighteen?"

Before Tang Jinhua had opened his mouth, Li Xue'er already started to speak out, "President Hu, I will be turning eighteen at the end of this year!"

"Then how much confidence do you have to pass today's assessment?"

"This...." Li Xue'er's smile was gentle and elegant but her tone was filled with self-confidence, "The first tier Profound Armament percentage of success that I'm currently refining is now ninety percent and above! I think in this way, passing the first tier Armament Master certification shouldn't be a problem at all!"

The two Presidents revealed a shocked and joyous expression, "That's great! Jinhua, where did you managed to find this armament refining talent? She's not eighteen yet but already had a ninety percent certainty of refining first tier Profound Armament! Most experienced first tier Armament Masters only have a success rate of fifty to sixty percent! Miss Li's future endeavours is limitless!"

Li Xue'er hastily shook her hands, "I do not deserve your praise, you flatter me!"

Although she was saying this, but inside her heart she was overly complacent!

To be praised in such a way by Sky Cloud City's Armament Guild Presidents was such an honourable matter! Only an armament refining talent like her deserved such special treatment!

Li Xue'er was indeed way too glamorous. Seeing how she conversed with President Hu and President Gong, numerous spectators on the spectators seats shot jealous gazes towards her.

But no matter how envious they were, they had nothing to say.

An armament refining talent like Li Xue'er was indeed rarely seen and even though many of them were not convinced, they could do nothing about it!

After the two Presidents were escorted to their seats, President Jiang proceeded on the judging panels seat.

Li Xue'er bowed in respect as she stepped backwards, thinking of doing some preparations on the contestant's seats.

But at this time, another bustle came from the entrance of the Profound Weapon Chambers. Furthermore, it was even more lively than when the two presidents appeared!

President Hu asked curiously, "What's going on? President Jiang, who else have you invited to be on the judging panel? Don't tell me... it's those old monsters from Sky Emperor City?"

Jiang Tuxin went into a blank, "There's no one else. The judging panel whom I had invited have already arrived..."

He raised his head and looked towards the entrance when he suddenly opened his eyes wide, "Oh, it's actually him....."

Chapter 959: You're joking right? (1)

A tall figure appeared in front of the Profound Weapon Chambers.

That person was Li Moying!

He was dressed in a dark coloured robe with gold trimming on the side and his demeanour was cold but noble. His facial features were perfectly sculpted without any flaws at all.

His expression was chilly and as his lips curled upwards slightly, his gaze swept past the entire Profound Weapon Chambers and the expression became even colder.....

His little fox had not arrived yet..... so boring...

Jiang Tuxin didn't guessed what Li Moying was thinking about and upon seeing his unpleasant expression, he thought it was because of his thoughtlessness as he anxiously stood up.

"Principal Jiang, what's wrong with you?" President Hu saw his behaviour and became even more surprised as he questioned.

Jiang Tuxin didn't reply him, instead he took quick steps and appeared right before Li Moying. Ling Wenbin and Tang Jinhua also hurried over to welcome him.

“Young... Ugh, Mister Li, what brings you here today to the Profound Weapon Chambers? Are you here to see the certification assessment as well?”

Li Moying undeniably nodded.

Jiang Tuxin whined silently. He had never expected Young Sect Master to be interested in the Armament Masters' certification!

To ordinary people, watching the Armament Masters publicly refining weapons was rather refreshing but for a peerless talent with such status like Li Moying, he had met with even higher levelled Armament Masters. The performance by these Armament apprentices would probably not be of any interest to him so who would have expected him to take interest in this?

Just at this moment, Jiang Tuxin shifted his gaze and saw Li Xue'er who was just standing by the side with a shocked but delighted expression.

A thought flashed past his head as he thought he understood what happened.

Right, Li Xue'er who was taking part in the assessment this year was rumoured to be the Young Sect Master's biological sister! No wonder Young Sect Master had personally appeared to witness the certification assessment!

Although it was said that the siblings, Li Xue'er and Li Moying were not on good terms, but it was still a glorious matter to have a sister who was an Armament Master. Perhaps Young Sect Master had seen the outstanding armament refining talent in her and decided to forgive her for all the wrongdoings that she had done in the past! After all, they are truly siblings and this was not impossible.

Jiang Tuxin quickly said, “Mister Li, please follow me and take a seat here! The seat here has the best view!”

With him leading the way, he led Li Moying to the VIP seat on the tall stage and even requested him to take the main seat.

Li Moying saw the shocked expressions on the faces of the students below the stage and rejected Jiang Tuxin's kind offer.

“How can I take over Principal Jiang's seat? I'll just sit here.” Saying that he sat down on the seat next to Ling Wenbin's seat.

When Jiang Tuxin and Ling Wenbin saw that, they didn't dare to sit at all.

Sitting above the Young Sect Master, just thinking about it was already very offending...

But right after Li Moying's chilly gaze swept past them once, both of them sat down with fear and trepidation.

At this moment, it turned tumultuous on both the spectators and contestants seating area.

Even Jiang Tuxin had thought Li Moying was here because of Li Xue'er, what more about Li Xue'er herself as well as the other students.

“Senior Brother Li actually came! He actually came to see Li Xue’er take part in the competition! Isn’t their relationship on bad terms? Isn’t it said that Senior Brother Li especially hated Li Xue’er?”

“So what about that? Li Xue’er’s armament refining talent is there so even Senior Brother Li cannot ignore it! It looks like he’s here to initiate his goodwill, preparing to patch up their relationship!”

“Oh no! I’d thought that Senior Brother Li really hated Li Xue’er and even went to laugh at her! Will she exact revenge on me in the future?”

Chapter 960: You’re joking right? (2)

A smug smile hung on Li Xue’er’s face, showing just how happy she was!

Even Li Moying also came!

The humiliation which she suffered from Huang Yueli a few days ago had finally been swept clean!

On the VIP seating area, President Hu took a look at Li Moying’s icy cold face after trying to suppress his curiosity for quite some time, he secretly got closer to Jiang Tuxin and whispered, “Principal Jiang, why didn’t you introduce him to us? Just who is this young Mister? Why is it that even with your status, you still had to treat him with such respect?”

When Jiang Tuxin heard that, he turned to look at Li Moying anxiously, worried that he would be angry over their private discussion.

Li Moying however, only used his hand to support his chin as he glanced impatiently towards the direction of the main entrance.

Jiang Tuxin was then assured as he whispered back, “President Hu, this.... is Celestial Light Sect’s Young Sect Master Li Moying! I think you should have heard of him before right!”

“Eh!” President Hu cried out in alarm causing the surrounding few people to look towards them as he hurriedly covered his mouth.

He lowered his tone even more and asked unbelievably, “You’re saying..... this person is Young Sect Master Li himself??”

Jiang Tuxin nodded, “That’s right!”

President Hu asked flabbergasted, “Heavens, it’s really him! Li Moying is Sky Cloud City’s most famous genius! A lot of people are saying that Young Sect Master Li had the highest hope to surpass Mu Chengying and become the top exponent in Soaring Heavens Continent, I wonder if that’s true?”

Jiang Tuxin smiled, “I’d never expected President Hu to know so much about Celestial Light Sect! Young Sect Master’s innate talent and ability is without a doubt the best, but we don’t dare to say stuff like he will surpass Mu Chengying but among the younger generation of practitioners, he definitely is unsurpassed!”

“But why would he be here at Celestial Light Academy? Moreover, this is the Armament Master certification assessment and it’s merely a competition among Armament apprentices so what could possibly attract Young Sect Master Li’s interest?”

Jiang Tuxin lowered his voice, “Among the contenders today, Young Sect Master’s sister is here and you’ve already met her earlier.....”

President Hu wasn’t listening carefully because just looking at Li Moying already caused him to exclaim in admiration!

Li Moying’s name, among Sky Cloud City’s higher ups was a well-known existence!

When he was very young, he already stood out as conspicuously brilliant, sweeping all his peers aside and his cultivation clambered up steadily, exceeding everyone’s imagination! He was unbelievably strong!

Everyone knew that in just a few more years, Li Moying would definitely become one of the strongest top exponents in Soaring Heavens Continent.

So even President Hu, who was Sky Cloud City’s Armament Guild’s President, had utmost respect for Li Moying because there were just too many legends about him. Only those who had seen it with their own eyes understood what his kind of innate talent meant!

Furthermore, President Hu discovered from the first meeting today, Li Moying was not only younger than he had thought but his cultivation and imposing manner exceeded by several times his age!

At this moment, a phrase arose in President Hu’s mind – A fully justified reputation!

As though sensing President Hu’s sight, Li Moying turned his head slightly and nodded towards him, “President Hu, my little thing will be in your care in the future.”

“Oh? Yes, of course, of course!”

President Hu hurriedly nodded and at the same time he recalled what Jiang Tuxin said, he had met the Armament apprentice? Surely it cannot be Li Xue’er? Right, both their surnames are Li, so looks like he can’t be wrong!
