

## The Wife I Picked Up Is Too Chapter Chapter 1078

However, just as Liu Yan was in shock, Xie Jiuhan, who had just fed Feng Qing fruit candy, turned around. His dark eyes looked straight at Liu Yan in the rearview mirror. Although Xie Jiuhan did not say anything, Liu Yan could read a sentence in his eyes: "If you continue to look, I'll dig out your eyeballs!"

Liu Yan felt a chill run down his spine from that gaze. A thin layer of sweat instantly appeared on the tip of his nose. Even though he was sitting, his legs were trembling involuntarily. He hurriedly lowered his head and shifted his gaze to somewhere else. He did not dare to look at the rearview mirror again, not even for a moment. His brain was even telling him to forget the intimate scene between the bodyguard and Feng Qing as soon as possible. Otherwise, he might disappear from the face of the earth.

After entering a muddy dirt road, the taxi finally arrived at one of the largest mines under the Chenghai Aluminum Mine. Although it was called a mine, it was actually a huge mine mountain. The taxi had just arrived at the entrance of the factory when it was stopped by an old man who was guarding the entrance. The old man was wearing a hard hat and a security uniform. His yellow eyes examined them for a while before he said in a shriveled voice, "This is a mining area. Unauthorized people are not allowed to enter."

Seeing this scene, Liu Yan was about to communicate with the old man and ask him to make an exception when he heard Feng Qing's voice from behind. "Hello, old man. We're here to look for Manager Lin. We've already made an appointment in advance. I wonder if he's here yet?"

When the old man heard the words "Manager Lin", he immediately pointed to a steel structure that had a higher elevation in the factory. "Oh, so you're here to look for Manager Lin. He works there. You guys can go in."

Compared to the old man, Liu Yan looked at Feng Qing in surprise. “Qingqing, you actually contacted the people here in advance?”

Feng Qing smiled and nodded. “Of course. You have to do everything in advance. Otherwise, how can you achieve twice the results with half the effort?”

Looking at the smile on Feng Qing’s face, Liu Yan felt as if he had been bathed in a spring breeze. However, when he saw Xie Jiuhan, who was sitting beside her, he was swallowed by the coldness in his eyes. In the end, he could only hurriedly turn around amidst the coldness. Feng Qing’s bodyguard was too terrifying!

--

Feng Qing and the other two quickly found Manager Lin. Under Manager Lin’s lead, they entered the mine to take a look. Feng Qing held her phone and took photos of the scene in the mine. The photos she took were considered important materials for this investigation. She would even participate in the modification of the acquisition case. Under Manager Lin’s lead, another group of miners quickly surrounded them. They surrounded them like bodyguards and escorted Feng Qing and the other two into the mine.

Feng Qing estimated that the widest part of the mine was only a little more than two meters, and the deeper they went, the narrower it became. The group of people walked and stopped. Manager Lin introduced it to them as they walked. Soon, they arrived at a place about 25 meters underground. At this depth, even with the illumination of the mine lights, it still gave people the feeling that they were about to be swallowed by the surrounding darkness. If someone with claustrophobia was here, they would definitely feel suffocated. At this moment,

Liu Yan's face was getting paler, and even his lips were a little pale. He was already supporting himself with his will. If he wasn't afraid of embarrassing himself in front of Feng Qing, he would have fainted long ago. However, there was only one thought in his mind now, and that was to leave this place and return to the surface as soon as possible. If he continued to go deeper, he was afraid that he would suffocate on the spot.

Manager Lin stopped in front and pointed not far away. "That's the largest mining area of our aluminum mine."

After saying that, he only looked back at Feng Qing and the other two. Then, he led the way in front. Under his lead, everyone arrived at the lift in the mine. Looking at the lift that was slowly rising, Liu Yan's legs trembled. He thought that it was already very deep, 25 meters underground. He did not expect that they could still go down. Moreover, judging from the fact that the lift had been rising for a long time, it should be very deep below.

Thinking of this, Liu Yan's heart beat like a drum as he said, "Qingqing, why don't we stop here? It's too deep down here. There are huge safety hazards."

Unlike him, Feng Qing did not have claustrophobia. Moreover, with so many of them together, she could completely adapt to this place. Feng Qing only smiled at Liu Yan and did not say anything. Then, she followed Manager Lin into a lift in the middle.
