

The Wife I Picked Up Is Too Chapter Chapter 1083

The police washed Xie Jiuhan's wounds. These were all cut by Xie Jiuhan when he was moving the stones below with his bare hands. Because the mine lights below had all been extinguished, he could only rely on his hands to feel around in the darkness. It was impossible not to cause wounds.

Water mixed with blood dripped down, but Xie Jiuhan did not care at all. At this moment, his expression was terrifyingly gloomy. His eyes were filled with a thick violent aura. He had already washed his hands clean. He tore off the disguise mask on his face and revealed his stunning face. As his true appearance was revealed, the fierce and violent aura on his body became even more fearless.

The moment Xie Jiuhan's true appearance was exposed to everyone, Liu Yan, who was still roaring at him, was instantly petrified on the spot. His hysterical voice stopped abruptly, as if someone had suddenly cut off his vocal cords. Then, his eyes, which were looking at Xie Jiuhan, trembled violently like a 9.0-level earthquake.

Not only was the material of Xie Jiuhan's human skin mask very close to his skin, but it was also very breathable. It would not cause the mask to fall off because of sweat. His hair was already wet. The man panted and stood up from the ground. After he revealed his true appearance, his handsome face looked even more fierce and violent.

The police officers who had just washed his hands were so scared that they involuntarily took two steps back. These police officers were all disguised as secret guards. They had followed Xie Jiuhan for many years and had naturally seen Xie Jiuhan's anger and even more so the terrifying scene of this man killing people like flies. Although Xie Jiuhan did not say a word this time, this made them feel even more terrifying.

Liu Yan stood outside the cordon like a statue. His mouth was wide open, and his eyes were about to fall out of their sockets. He naturally recognized this man. How could Liu Yan not recognize him? This stunning face was as handsome as a work of art. He would never forget it after seeing it once. At this moment, Liu Yan felt like something was exploding in his head. All his consciousness and thoughts disappeared, and his mind was blank.

Xie Jiuhan's eyes exuded surging anger. He said in a hoarse voice, "Contact the traffic control department immediately and order them to investigate all the cars that left this mine."

A police officer said respectfully, "Understood, I'll contact him immediately."

Xie Jiuhan continued, "Also, check how far it is from here to the nearest dock."

When a local medical personnel heard this, he immediately replied, "Ninth Master, if I remember correctly, it's about 40 kilometers from here to the nearest Dongxing Pier."

Upon hearing this answer, Xie Jiuhan's expression seemed to have frozen into a layer of ice. After searching and searching below just now, he had come to a conclusion that Feng Qing should have been kidnapped. This so-called collapse accident should have been created by the person who kidnapped Feng Qing. Therefore, he had ordered the customs department to investigate those cars with all their might. Moreover, he knew that this place was at least a hundred kilometers away from Chenghai City's airport.

However, Chenghai City was surrounded by the sea on three sides and there were many ports. If Feng Qing had really been kidnapped, the person who kidnapped her would definitely bring her by water because that would be the fastest and most convenient way to leave Chenghai City.

At the thought of this, Xie Jiuhan ordered again, "Inform the dock and port to search all the ships, cruise ships, and so on, especially the ships and cruise ships that left the Chenghai Sea within an hour. I want to see an exact list in ten minutes."

Hearing this time limit, the secret guards complained in their hearts. They knew very well that it was impossible to complete in ten minutes. However, facing the furious Xie Jiuhan, no matter how difficult it was, they could only brace themselves and do it.

Suddenly, a bus drove towards the mine. The bus stopped outside the cordon. Then, the chairman, president, general manager, and other higher-ups of the Chenghai aluminum mine got out of the bus. Before they could figure out the situation, they were interrogated by Xie Jiuhan's subordinates one by one in the steel office room.

The interns who had gone to the Chenghai aluminum mine headquarters were brought here before they could get out of the car. The interns also got out of the car and saw hundreds of people guarding outside. The interns had never seen such a scene before. All of them had timid expressions and did not know what was going on.
