

The Wife I Picked Up Is Too Chapter Chapter 1084

The interns looked at each other. Just now, they were discussing how to bargain with the chairman of the Chenghai Aluminum Mine. In the end, just as they saw the building of the Chenghai Aluminum Mine's headquarters, they saw the chairman and the others get into the car and run here with them. This place was very far from Chenghai City. Because it was a mining area, the destruction of the surrounding environment was a little serious. Not only were the mountains bare, but everywhere they passed, there was dust everywhere.

A secret guard walked forward and reported to Xie Jiuhan, "Ninth Master, the chairman of the Chenghai Aluminum Mine and Young Madam's classmates have been brought over."

In Xie Jiuhan's opinion, it was definitely not a coincidence that Feng Qing had suddenly disappeared. It was very likely that someone from the inside had cooperated with the person who kidnapped Feng Qing and quietly kidnapped Feng Qing in front of him. Therefore, he had to find the person who had leaked Feng Qing's whereabouts.

Just now, Xie Jiuhan had been frantically searching for Feng Qing underground for a long time. He didn't even care that his hands were almost dyed red with blood. However, no matter how he searched everywhere, he couldn't find Feng Qing. He didn't even find Feng Qing's body. He had also shouted Feng Qing's name more than once, but the only answer he got was the sound of gravel falling.

Xie Jiuhan did not say anything as he listened to his subordinate's report. His subordinate was already very smart. Before he could give any instructions, he had already brought those people to interrogate them one by one. Xie Jiuhan turned around and looked at the dark mine. The cold wind kept blowing out of the mine entrance. It felt like a shark with its mouth wide open, wanting to swallow them all.

Xie Jiuhan's face was expressionless. It wasn't that he was insensitive, but he trusted Feng Qing's strength very much. After all, Feng Qing was personally taught by him. If they fought head-on, there were definitely no more than five people in this world who could beat Feng Qing. Moreover, Feng Qing had such magical medical skills and poison techniques. Even if someone really kidnapped her, that person definitely couldn't do anything to Feng Qing.

Compared to Feng Qing's kidnapping, what worried him the most was the PG18 poison contained in Feng Qing's body. He and Feng Qing were each other's antidote, and they had to relieve the poison in their bodies every 60 days. It had been 54 days since the last time the poison was relieved, which meant that he only had six days to find Feng Qing. Otherwise, once this time limit was exceeded, the poison in Feng Qing's body would start to act up. At that time, Feng Qing would be in danger outside.

At the thought of this, Xie Jiuhan retracted his gaze and turned to walk out of the venue. However, just as he reached the warning line, his phone in his pocket rang. He took out his phone and looked at it. He realized that it was Xing Yue who was calling him. However, he was in a very bad mood now and did not want to talk to anyone on the phone. But when he thought that Xing Yue was Feng Qing's brother after all and his future brother-in-law, he ultimately swiped the screen and picked up the call.

Just as the call connected, Xing Yue's cold voice sounded from the other end of the phone. "Jinlu just received news that Qingqing is doing research in the Chenghai aluminum mine today. Moreover, just 40 minutes ago, the mine closest to the city collapsed. So, where are you now?"

Xie Jiuhan also said coldly, "I'm at the entrance of the mine where the Chenghai aluminum mine collapsed."

Upon hearing this, Xing Yue's heart skipped a beat. Then, he hurriedly asked, "What about Qingqing? Is she alright? Jinlu and I have been calling her just now, but she hasn't picked up until now."

Xie Jiuhan said, "She's missing."

After a few seconds of silence, Xing Yue's roar sounded. "What? Xie, say that again!"

Xie Jiuhan gritted his teeth as he listened to Xing Yue's question. The scene of Feng Qing's elevator suddenly falling kept replaying in his mind. Every time it played, it was a blow to his heart. At that time, the matter had happened too urgently, so even he had not been able to regain his senses at the first moment. When he reacted, he subconsciously jumped into the stairwell. However, when he entered, he realized that it was simply so dark that he could not see anything. He wanted to take out his phone to illuminate the place, but before he could steady himself, the mine trembled violently. When the vibration stopped, he realized that all the paths had been blocked. Moreover, the original structure of the mine seemed to have been changed, causing him to be unable to find Feng Qing at all. If not for the fact that the oxygen below was almost exhausted and it was getting harder and harder to breathe, he would not have come up now.
