

The Wife I Picked Up Is Too Chapter Chapter 1128

In that old era, even in the relatively open Western society, it was unacceptable for the daughters of wealthy families to get pregnant out of wedlock. Moreover, after the daughter of the Chu Clan got pregnant, the young master of the wealthy family in Xia country was exposed by the major international media. Then, everyone knew that the man who made the eldest daughter of the Chu Clan get pregnant out of wedlock actually had a wife. Not only did that young master of the wealthy family have a wife as soon as he reached adulthood, but he also had three children under his knees. Moreover, he and his wife had always been the model of the entire wealthy family for many years. The couple respected each other and were deeply in love.

After knowing the truth of all this from the media, the eldest daughter of the Chu Clan suffered a devastating blow, so much so that the Chu Clan's inherited mental illness completely acted up. Later on, the eldest daughter of the Chu Clan disappeared after giving birth to the child. No one knew where she went. After that, the Netherworld Palace's Queen of Poison had completely disappeared. The bottle of resurrection medicine CS100 made by the Netherworld Palace was the representative work of the eldest daughter of the Chu Clan at her peak in the production of poison. However, as the Chu Clan's foundation in the Xia country completely disappeared, it was replaced by the Xie family.

It was said that the rebirth medicine developed by the Netherworld Queen, CS100, had the magical effect of reviving the dead. However, was it really so powerful? This was because no one had ever seen it with their own eyes, nor was there any video information to prove it. Therefore, it was still just a legend. It was just that they did not expect that the rebirth medicine, CS100, which was even priceless on the largest international black market, would actually appear on the Divine's Light. It was indeed enough to surprise everyone. However, one thing was certain. If this rebirth medicine, CS100, was revealed to the outside world, it would definitely cause a bloodbath in society. At that time, countless forces would fight for it.

The second prize, Ice Jade Bracelet chosen by Boxing King Potian, was the largest, purest, and most beautiful blue jade bracelet in the world. Legend had it that a meteorite from outer space fell into the shallow sea back then. Later on, when someone dug it out and removed its outer shell, they found that it was actually a huge blue jade. This was a big news that shocked the entire Western world at that time. The descent of the divine jade was seen as a good omen. In order to obtain this gift from the outer

world, the entire Western world fell into a chaotic war that lasted for ten years. The various royal families of the Western countries even made a big fuss and caused many bloody scenes. However, the funny thing was that no one obtained that large jade in the end. Instead, the Xia country far in the east obtained it. Later on, the capable craftsmen in Xia country took more than three years to carve that jade into a huge blue jade bracelet. After this jade bracelet was made, it was not worn by people, but worn on a Buddha statue. It was said that ever since that Buddha statue wore this jade bracelet, snow would fall around the Buddha statue for no reason. Someone tried to taste the snow, and had discovered that the ineradicable disease was cured. This had also cast a layer of mystery over the Ice Jade Bracelet. However, some unknown person stole the Ice Jade Bracelet together with the Buddha, and since then it was missing. Unexpectedly, it appeared on the Divine's Light.

The third item was the Ice Silkworm Golden Silk Dress of the Y Nation's royal family. It was actually a national treasure that had been passed down for hundreds of years. However, this country had already been extinct two hundred years ago. They didn't die from war and invasion, but from a very terrifying virus. At that time, it wasn't like now, when there were scientific research institutes that could develop the latest vaccine, so the virus spread very quickly. In less than half a year, there was no one in the entire Y Nation. The material to make this Ice Silkworm Golden Silk Dress was the silk of a special Cold Silkworm that was originally produced in Y Nation. Coupled with this silk and golden thread, it was made into very light and strong clothes. Moreover, there was another very magical characteristic of clothes made of this material, and that was that they would become transparent after encountering water. Legend had it that Y Nation was also a rich country in the West back then. At that time, the Y Nation's people were honored to be able to wear clothes made of this material. However, with the fall of Y Nation, the process of making this kind of clothes and the method to raise that special Cold Silkworm were also lost. There were only two Ice Silkworm Golden Silk Dresses that survived until now. One was in Country F's museum, and the other was here.
