Ji Yunchen shook his head. “Ninth Master, you’re mistaken. I mean, Young Madam’s condition is very similar to a fever caused by wound inflammation or some kind of inflammation in her body.”

Xie Jiuhan calmed down and thought about it. Who could poison Mr. Qingyi?

Ji Yunchen walked up to Feng Qing and said softly, “Little Qingqing, be honest. Do you have any wounds on your body? For example, lacerations or something.”

Without waiting for Feng Qing to speak, Xie Jiuhan’s expression darkened again. He asked coldly, “Are you injured again?” However, after asking, he shook his head. When he bathed Feng Qing last night, he didn’t find any wounds on the woman’s body, let alone any lacerations.

After taking the fever medicine, Feng Qing’s consciousness woke up a little. She pulled the blanket up to her neck. Although she was having a fever, she felt that her entire body was cold and trembling. She forced her mouth open and said in a weak voice, “Jiu Jiu, find me a gynecologist.”

Xie Jiuhan : “...”

Ji Yunchen : “...”

The next second, Ji Yunchen reacted and couldn't help but smile. He could only turn to the side and hold in his laughter. Xie Jiuhan glanced at him and gave him a warning look, meaning that if he smiled again, he would throw him out of the window.

...

Half an hour later, the most authoritative gynecologist in a hospital in the Capital came. After briefly understanding Feng Qing's condition, she chased Xie Jiuhan and Ji Yunchen out of the bedroom.

Ji Yunchen hugged his arms and said casually, "Ninth Master, it's not that I want to scold you, but I've already reminded you long ago that no matter how enjoyable the sex is, you have to control it. You're enjoying it, but Little Qingqing can't take it."

"If you don't speak, no one will think you're mute." Xie Jiuhan leaned on the boss chair, his face the same color as black coffee.

What kind of person was Ji Yunchen? He was definitely someone who would not speak unless he had something to say. He took a cigar from Xie Jiuhan's table and said as he cut it, "As a doctor, I have to solemnly warn you that although sex life is very intoxicating, you need to be disciplined and know how to take care of it. Every time, it shouldn't be too long. It can't be more than two times a week. It can't just be pleasurable for you, regardless of whether the other half lives or dies."

"If she's weak, I'll nourish her body. If I really can't do it, I'll let her eat ginseng every meal." Xie Jiuhan raised his head and said unreasonably.

"Cough, cough cough..." Ji Yunchen almost choked to death on his cigar. Why couldn't he explain it to this man?

After a while, the gynecologist walked out of the bedroom. This doctor's hairstyle was very retro. Her hair was black and white, and there were a lot of wrinkles at the corners of her eyes. She also

had a lot of wrinkles around her eyes and forehead. She looked to be at least in her fifties, but her eyes were very spirited. She walked like a tiger and was obviously a decisive person.

Tang Mingxia was the chief gynecologist of the Capital's Western Hospital. She was also the vice president and was proficient in the treatment methods of Chinese and Western gynecology. When she was young, she studied abroad and could treat many difficult gynecological illnesses. She was the most famous gynecologist in the Capital.

Su Yu had personally brought people to the hospital to pick her up just now. Along the way, twenty top-notch luxury cars drove the way, and there were also police cars behind with sirens protecting them. They had definitely given enough respect.

Tang Mingxia had been honest her entire life and had a bad temper. She was not afraid of any bigwigs. In her eyes, there were only patients. Everything else was not important. Many people gave her the title of 'medical idiot'.

Seeing Xie Jiuhuan, the most powerful man in the Capital, Tang Mingxia was not afraid. She said bluntly, "Ninth Master, I'll give you two words. Control yourself. I suggest that you don't have sex for half a month and let the wound in Young Madam's body heal."

After saying that, she paused for a moment and glared at Xie Jiuhuan again. She continued, "It's not because I'm older than you by a few years, but as a doctor, I have to say a few words to you. As a man, you have to know how to cherish and love the fairer sex. Your wife is yours, you have to know how to love her. Otherwise, she would have been too tiring to be with you. Fortunately, the problem this time wasn't serious. She just has to take medicine and recuperate for a while. If there were any repercussions and any difficult illnesses, you won't have a place to cry even if you regret it."

Watching Tang Mingxia 'teach' Xie Jiuhuan, Ji Yunchen almost laughed out loud.. This was the first time he had seen such a famous scene. This man, who was standing at the pinnacle of the Capital, had been scolded by a middle-aged woman?
