

The Wife I Picked Up Is Too Chapter Chapter 416

Chapter 416: Calling Hubby Again and Again

Di Hui Building, level 95.

Unlike before, the huge president's office was filled with people today. There were a total of 80 executives in suits and solemn expressions. Opposite them, Xie Jiuhan was sitting on the boss chair. His cold and noble aura made everyone breathless.

Suddenly, the phone on the table vibrated.

Xie Jiuhan's face was expressionless, but his eyes darted to the phone screen. Seeing that it was Feng Qing, the man picked up without hesitation.

"Hehe, Hubby ~" Just as the call connected, Feng Qing's sweet and greasy voice sounded. Xie Jiuhan stretched his neck and felt a numbing current throughout his body.

The man's lips curled up. This woman knew how to play. When she wanted nothing from him, she would call him Little Jiu Jiu. When she encountered trouble, she would call him Hubby at the last minute. However, Xie Jiuhan liked her like this.

With Feng Qing's 'hubby', the entire 95th floor was filled with spring flowers. Everyone could clearly feel that the cold aura on Xie Jiuhan's body had disappeared.

Xie Jiuhan loosened his collar and said with a smile, "My dear wife, what can I do for you?"

The 80 executives : "..."

“Oh my god! This is crazy. What did I just hear?”

“Quick, pinch me. Why do I feel like I’m in a dream? Our Ninth Master has actually changed?”

Why is the 95th floor always filled with the smell of spicy hot pot? Why can a phone call melt an iceberg that hasn’t changed for a thousand years?

Looking at Xie Jiuhan’s smile, the 80 executives discussed softly. Many of them had already started to worship the lady boss in their hearts. They wanted to know what kind of woman could make their Ninth Master human.

The executives who were standing closer to the front pricked up their ears, wanting to listen carefully to the beautiful woman’s voice on the boss’s phone. Unfortunately, Xie Jiuhan’s phone was specially made, and not a single sound could be heard.

After a few words, Xie Jiuhan nodded. “No problem, leave it to me!”

After hanging up the phone, the man raised his head to look at the executives. The smile on his lips gradually disappeared and quickly returned to his arrogant and cold appearance.

The executives lowered their heads one after another, not daring to look the man in the eye. They felt the temperature of the 95th floor drop to the freezing point again. Xie Jiuhan pocketed his phone and said in a deep voice, “Everyone go back and write a proposal to hand to the secretary. Meeting dismissed!”

The 80 executives : “...”

Everyone looked at each other. They couldn’t believe that the meeting was over today! Thank you, lady boss. It looked like they didn’t have to work overtime today!

Xie Jiuhan stood up. Su Yu hurriedly walked over. "Ninth Master, where are we going?"

The man said calmly, "Capital University."

Xie Jiuhan had hardly finished his sentence when he walked into the VIP elevator. Su Yu waved at the crowd and hurriedly followed the man into the elevator.

...

Capital University.

At the entrance of the music room, there was a crowd. Many students from the other faculties also rushed over to watch the fun. They all knew about the bet between Feng Qing and Shen Suying. Since no one scored full marks, Feng Qing would have to bow and apologize to Shen Suying in public. It was definitely a famous scene.

"If you don't want to die, get lost!" Xie Shihao scolded as he squeezed through the crowd.

The students wanted to dodge after seeing that this little tyrant was here. However, there were too many people who were here to watch the fun and they could not make way there for a while. Instead, Xie Shihao squeezed into the classroom and saw Shen Suying standing on the podium arrogantly.

"Haha, Student Feng Qing, should I congratulate you for scoring 95 points? Or should I feel sorry for you?" Shen Suying hugged her arms and had a mocking expression.

She would never believe that a piece of trash who scored zero for the college entrance examination would have such good grades in just half a semester. She could even score 95 points for the S-level paper and get full marks for all the other subjects.

“Although your overall results this time are the first in the entire cohort, I really want to know what kind of learning method you used to improve so quickly in a short time?” Shen Suying continued..
