Shen Suying's expression changed slightly, and her eyebrows knitted together. Although she did not understand why Xie Jiuhan would pay attention to the students' midterm examination results, she had no choice but to call Feng Qing out. "Student Feng Qing, the principal is looking for you."

Feng Qing heard Xie Jiuhan's heartbeat earlier on. She walked out of the classroom and looked into Xie Jiuhan's eyes. Her man was indeed efficient. He actually rushed over so quickly.

Seeing that Feng Qing was fine, Xie Jiuhan looked at Shen Suying and asked, "I've asked the three graders. Feng Qing's last big question was obviously the best solution. Why did they give her zero and five points? Those three graders told me that you asked them to give marks like this?"

Xie Jiuhan's voice was slightly angry, but Shen Suying did not seem to have heard it. She admitted generously, "That's right, I asked them."

"Why?" Xie Jiuhan asked again.

Seeing that Xie Jiuhan was very interested in this kind of thing, Shen Suying did not think much of it and explained, "The last big question of the S-level examination is usually an abstract defense question. For example, why one plus one equals two, or whether there is another integer between three and four. For such questions, everyone's opinion and answers are different. Therefore, when the teachers are grading, they also have their own standards. Some teachers think that Feng Qing answered well, so they give her full marks. Some teachers feel that it's not logical, so they naturally give her zero points. Besides, there's no optimal solution or standard answer for such questions. This time, her S-level

examination score is 95 points, and it's already the highest score in the last three years of Capital University."

Xie Jiuhan nodded and looked at Principal Di beside him. "According to the agreement we signed just now, the Xie Corporation will not give the highest scholarship unless you get full marks."

The smile on Di Zhizhong's face froze. As the saying goes, listen to the meaning behind the words. Everyone was smart, so he naturally understood what Xie Jiuhan meant. However, before he could speak, Shen Suying said, "Then I can only feel sorry for Student Feng Qing. Because she missed five points, she didn't get the highest scholarship for this midterm examination. However, her results in all her subjects are also the top in the school. According to the rules, she will get the school's A-level scholarship. Although it's not much money, as long as she's more diligent, it's enough for her to spend for the next half semester."

Hearing this, Xie Jiuhan raised his head. His wild and cold aura was suddenly released. A cold smile rose on his lips. His perfect face and noble aura instantly made many of the surrounding female students infatuated.

Shen Suying's eyes were shining with stars. Her heart, eyes, and mind were filled with this man. Xie Jiuhan was too handsome. His entire body exuded a seductive charm.

Compared to him, top celebrities, famous young hunks, and mature men were all worthless. Just that face that had been personally carved by God was enough to cause all the ladies of the wealthy families in the Capital to scream and go crazy.

Shen Suying stared at Xie Jiuhan as if she could never get enough of him. However, she felt regretful in her heart. She never expected that such an outstanding man would actually get married so early...

"Ninth Master, look..." Principal Di hesitated.

The corners of Xie Jiuhan's lips curled up, and his voice was ear-piercing. "Principal Di, when I came here, I called the Xia country's Ministry of Education, the head of the Higher Mathematics Team, and the two experts from the National Digital Science Research Institute. They are definitely authorities in terms of data. Let them reassess Feng Qing's examination paper."

When he said this, he did not even look at Shen Suying. He completely treated her as air and even deliberately distanced himself from her. The strong sense of alienation made Shen Suying feel very uncomfortable.

Shen Suying's eyebrows were almost twisted into fried dough. She did not understand why Xie Jiuhan was crazy. Why was he paying so much attention to Feng Qing, that wild girl? Not only did he want to re-assess her examination again, but he also specially found people from the Ministry of Education and the National Digital Science Research Institute. It was just an examination. Did it have to be so serious?

Principal Di nodded. "It's rare that the Ninth Master values education so much. It's really fortunate of Xia country and the education world.. Let's do as the Ninth Master says and let the experts read the papers and grade them again."
