

## The Wife I Picked Up Is Too Chapter Chapter 452

Chapter 452: Blood Venomous Bug

Translator: Henyee Translations Editor: Henyee Translations

After obtaining an affirmative answer, Madam Mingxue turned to look at Raymond. "Son, go out first."

"Mother, let me stay." Duke Raymond said with concern.

Madam Mingxue's expression turned cold, and she said in a heavy voice, "I asked you to go out. Don't you understand?"

Seeing her angry, Raymond had no choice but to do as she said. He did not dare to disobey his mother's words, but he was also afraid of making Madam Mingxue angry, not to mention that she was sick.

"Healer, then I'll trouble you. I'll be at the door. Find me if you have any needs." Duke Raymond looked at the Healer and said.

Seeing Raymond leave, Madam Mingxue sat up on the bed and said, "Give me the mirror and makeup remover over there."

Without needing Feng Qing's instructions, these miscellaneous goods were all taken by the Sword God. He walked to the dressing table and handed the things to Madam Mingxue. When she took the things, Madam Mingxue secretly observed the Sword God, but she quickly retracted her gaze.

"Madam, let me help you. You need more rest now," the Healer said.

Madam Mingxue thought for a moment and finally nodded. She handed the dressing cotton and mirror to the Healer and then lay back on the bed. She was indeed very weak now.

After familiarizing himself with the process, the Healer removed all the makeup on Madam Mingxue's face. The Sword God looked at Madam Mingxue, wanting to see how she looked after removing her makeup. In the end, he couldn't help but gasp.

"Hu..." The Sword God shifted his gaze away. He took a deep breath and forced himself to calm down.

Compared to him, the Healer did not react at all, as if he had known all along. He placed the remaining cotton and mirror aside and observed for a while before saying, "Madam Mingxue, take off the hair clip on your hair."

Just then, a smile appeared on Madam Ming Xue's face. She stared intently at Feng Qing and said, "The Healer has good eyesight. You actually saw through all my disguises at a glance. Could it be that as a miracle doctor, your vision has to be so good?"

The Healer did not say a word. He reached out and took off the hidden hair clip on Madam Mingxue's head. Then, Madam Mingxue's originally tight skin relaxed. A face that looked to be more than 60 years old appeared in front of the Healer and the Sword God.

'Madam Mingxue sat up again and leaned against the head of the bed. She said weakly, "One morning, when I woke up, I found a bunch of hair on the pillow. Moreover, none of it was white, so I knew that there was something wrong with my body."

'When she spoke up to this point, she took a deep breath and said as if she was extremely exhausted, "At first, this change was only reflected in my hair, but not long after, I found my skin

becoming more and more loose. All sorts of physical characteristics that only old people have appeared on me one by

one, but I didn't feel any pain or discomfort. You're the famous Healer. Please tell me, what exactly is this illness?"

After hearing Madam Mingxue describe her illness, the Healer took a deep breath, and his eyes flashed with a light that no one could understand. She didn't expect that the Blood Venom Beetle was so powerful that it could cause such a terrifying change in a person's appearance. It was really unbelievable that it could change from 30 to 40 years old to 60 to 70 years old.

"To be precise, you're not ill," the Healer said grimly.

Madam Mingxue was puzzled. "Not an illness? Then what is it?"

"Do you know about the Blood Venomous Bug?" The Healer replied.

Madam Mingxue hesitated. "Blood Venomous Bug..."

The Healer explained, "To put it simply, it's a strange worm that crawled into your head. It's because of this worm that you became like this. Madam Mingxue is knowledgeable and should have heard of it, right?"

After dozens of seconds, Madam Mingxue nodded. "Blood Venomous Bug, a terrifying insect. It's a kind of poisonous insect that was spread abroad from our Southern Border a few hundred years ago. The family who nurtured this poisonous insect is the number one financial magnate in the entire Western

world, the Tang family. A few hundred years ago, it was the Tang family who brought the Blood Venomous Bug to the West. They used this kind of insect to poison their opponents and then achieved their goal of controlling them. Then, they quickly developed and grew in the West.."
