

The Wife I Picked Up Is Too Chapter Chapter 577

Chapter 577 Punishment at the Table

Another bodyguard said, "That's right. Why don't you think about what kind of person our Ninth Master is? Other than giving birth, is there anything in the world that he doesn't know? Moreover, Ninth Master's culinary skills seem to be very good. I heard that even his knife skills in cooking are incomparable to ordinary people."

It was still the bodyguard from before who said, "You're talking nonsense. It's not like you haven't seen the Ninth Master fight and kill people. He can kill an entire company with a knife. That knife is fast, accurate, and ruthless. So it's easy for him to chop melons and vegetables, and it's even easier for him to cook."

At this point, the bodyguards looked at each other and revealed expressions that they wanted to laugh but didn't dare to. At this moment, they had a common scene in their minds. Xie Jiuhan was wearing an apron and cooking in the kitchen. That scene was too beautiful, and the bodyguards didn't dare to think about it.

The bodyguard who was questioned by Xie Jiuhan sighed softly and said with a look of yearning, "When I've saved enough money, I'll also go and have a passionate relationship."

Upon hearing this, the other bodyguards did not criticize him anymore because he had said what everyone was thinking. Bodyguards' job span was short. At a certain age, their bodies would not be able to keep up, so they would naturally be eliminated. At that time, they could switch careers.

The bodyguards looked at each other and returned to their posts with their own thoughts. Their boss and lady boss were eating. What they could do was to be on

guard.

In the kitchen, Feng Qing followed suit. As Xie Jiuhan's the chief chef, she was his assistant and took the initiative to wash the vegetables and prepare the vegetables.

Feng Qing was happily deveining the big prawns, washing them and putting them on the plate. Xie Jiuhan looked at her, turned around and left the room. However, he quickly walked back with a leather band. He came behind Feng Qing and tied her hair up with a leather band.

Xie Jiuhan couldn't help but reveal a gentle and affectionate gaze after looking at her fluffy long hair that had instantly turned into a bun. This woman was like a picture book, every page was a new picture.

Xie Jiuhan praised, "Lass, you're so virtuous."

Feng Qing smiled sweetly. "My husband is also the backbone."

From processing the seafood to serving it to the dining table, it took a total of 40 minutes. Their stomachs rumbled as they looked at the table filled with all kinds of seafood and various cooking seafood dishes, so the two of them immediately started eating.

Xie Jiuhan looked at Feng Qing, who was sitting opposite him. Her face seemed to have become smaller when compared to the king crab. However, the faint blush on her face was similar to the steamed crab shell.

"Ha..." Feng Qing exhaled. Her pink tongue spat out. She had just taken a bite of the fried squid that Xie Jiuhan had made. It was spicy for her because she had put too much chili in it. However, she liked the feeling of sweating after eating food that is so spicy.

Her eyes darted around as she saw that the man was eating elegantly. She picked up a piece of fried squid and brought it to the man's mouth. "Little Jiu Jiu, open your mouth. Be good~" The man was cracking a lobster's pincer and subconsciously opened his mouth. He did not care what Feng Qing fed

him and started chewing loudly. In the end, an indescribable spiciness rushed to his brain after chewing a few times. Xie Jiuhan felt his tongue instantly lose feeling, and his mouth was red and hot.

The man's expression changed drastically and couldn't help but stick out his tongue. Feng Qing immediately raised her head and laughed loudly. She said with a smile, "This is your punishment. In the future, you can only buy one box of those naughty things at a time, do you hear me?"

Xie Jiuhan endured the feeling of extreme spiciness and swallowed the piece of fried squid. He felt that it was funny that the woman had deliberately punished him because of this.

Feng Qing was stunned when she saw that he had really eaten it. "Ah? You really ate it? Why didn't you spit out the chili?"

Just now, in order to prank the man, she specially picked up two extra pieces of chili when she picked up the squid. This kind of chili contained very high levels of capsaicin. Ordinary people really couldn't eat it. She didn't expect the man to actually swallow it all in one bite.

Xie Jiuhan took a sip of his soda and said, "I have to eat everything my wife feeds me."

In his heart, as long as Feng Qing fed him something, he would swallow it without hesitation even if he knew it was poison. Moreover, it was just a mouthful of spicy chili.
