

## The Wife I Picked Up Is Too Chapter Chapter 654

### Chapter 654: A Rare Genius

After pondering for a moment, Feng Qing replied, "This fighter jet is the latest technology and is very important to the Xia Academy of Sciences. Therefore, Blue Stocks Capital and the Xie Corporation work together to transport the fighter jet back to the country. This support mission is very important. Before the mission is completed, we can't attack the Mechanical God. Send someone to monitor him. We'll attack immediately when he returns to Xia country."

The Strongest Assistant In The Universe said worriedly, "The Mechanical God was also ordered by the Xia Academy of Sciences to carry out the mission this time. His character code name this time is Huge Whale. He's a talent that the Xia Academy of Sciences values very much. The Xia Academy of Sciences even praised him as the most powerful person in a hundred years. He's already as precious as a giant panda. If we touch him, will we..."

Feng Qing said hatefully, "Who cares about the Mechanical God? He caused us so much trouble last time. We must take revenge."

Feng Qing puffed up her cheeks. Her snow-white and soft face was like a glutinous rice ball that made people want to pinch it hard. she was furious as she thought of what happened last time.

The Strongest Assistant In The Universe replied, "Are you sure you want to do this?"

Feng Qing puffed up her cheeks and said, "It's already very low-key to say that a high IQ genius like the Mechanical God is a rare genius in a hundred years, but he's been praised too highly, so he's

supercilious and arrogant. It's also because of this that he treated us like that when we invited him to help us last time."

Feng Qing pressed the enter key and thought for a while before typing another line. "This fellow wasn't that easy to find. I finally found an opportunity this time. I want him to experience what I experienced before. This will also dampen his spirit. Only then can he recognize himself and contribute better to the country."

After a while, The Strongest Assistant In The Universe sent another message. "Master Yin, did you mention taking the 'Financial Theory' class last time? What's going on? If you really want to learn, you can buy a few books to read. Why do you have to study?"

Feng Qing typed on the keyboard and replied, "Because I'm about to become an intern at the Xie Corporation's financial center, I need to study the basics of finance to avoid being seen as a layman."

After a while, The Strongest Assistant In The Universe asked, "Master Yin, you're amazing. You know that you have to infiltrate the enemy's ranks so that you can know yourself and your enemy well. Are you planning to officially declare war on the Xie Corporation after your internship? Let me guess, are you planning to rely on your own abilities to advance in the Xie Corporation and finally become Ninth Master's trusted aide? Then, you'll find a chance to kick the Ninth Master down from the position of the Xie Corporation's president?"

All these years, Blue Stocks Capital had been hiding its strength and biding its time. When it encountered the Xie Corporation, it took the initiative to retreat and never competed with the Xie Corporation. The entire Blue Stocks Capital was holding back their anger and were all waiting for the day they would fight the Xie Corporation in the business world.

Feng Qing almost laughed out loud as she looked at the other party's touching imagination. "The Xie Corporation is huge and has a deep foundation. It has a lot of connections. Moreover, the entire corporation treats the Ninth Master as their idol. Your guess is not reliable."

The Strongest Assistant In The Universe suggested, "Then there's only one method left!"

Feng Qing was curious. "What method?"

The Strongest Assistant In The Universe replied, "Think of a way to become Ninth Master's woman and give birth to a fat son for him. Then, poison the Ninth Master when he trusts you the most. That way, your child can rightfully inherit the huge family business of the Xie Corporation, and Master Yin will be the biggest winner."

Feng Qing : "..."

She really wanted to send her assistant to the Film Academy to study how to be a screenwriter. It would be a pity not to be a screenwriter with such a strong imagination. Had she fabricated a real-life Black Widow for her?

Feng Qing typed on the keyboard as she typed speechlessly. "Jinlu, you should know very well that I created the Blue Stocks Capital by chance. The scale of the Blue Stocks Capital is already the limit of

what I can do, so I want to enter the Xie Corporation to learn more professional knowledge. We have to develop and grow and surpass the Xie Corporation. We don't have to be enemies with it. Why can't we cooperate and win?"

After a while, The Strongest Assistant In The Universe replied, "Master Yin, I can only say that you're too naive. Just because we don't have any hostility towards the Xie Corporation doesn't mean that the Xie Corporation doesn't have any hostility towards us. Have you thought about it? Ever since Ninth Master took control of the Xie Corporation, has he ever let the other party gain any advantage when he works with others? It's already good enough that those who work with the Xie Corporation don't lose money, let alone win."
