

## The Wife I Picked Up Is Too Chapter Chapter 681

Chapter 681: Born to Be Mortal Enemies

Feng Qing asked curiously when she saw that the two brothers were so hostile when they met, "Shouldn't biological brothers be like brothers? I feel that the two of you are just short of stabbing each other."

Han Jintian leaned back in his chair and crossed his legs. "You're talking about other people's twins. We're different from others. We already had a grudge when we were still fertilized eggs."

Feng Qing : "..."

However, it made sense when she thought about it. After all, two fertilized eggs were in the same mother's body at the same time. The competition for nutrients between them had already begun, and this kind of competition would naturally affect the present. It was considered a hostile emotion imprinted in their bones.

Han Jinlu said in a calm voice, "Don't listen to his nonsense. We don't like each other because we've been adopted by different Han family members since we were young. The Han family members who adopted us are mortal enemies, so the two of us are naturally affected by them and hate each other."

Feng Qing came to a realization. After all this, this was the fundamental reason why they, the biological brothers, had turned against each other. They were also famous families in the Capital. Feng Qing had also heard a little about the situation in the Han family. It was said that the Han family's First Master Han and Second Master Han had always been enemies. Although their surnames were both Han, they were half-brothers from different mothers. They naturally wanted to be the head of the Han family with

the support of their mothers. For this reason, First Master Han and Second Master Han had been fighting openly and secretly for many years.

It was only when they all had descendants that First Master Han and Second Master Han turned their attention to nurturing the next generation. Since their generation could not compete, they would let the next generation continue to fight. Whoever's child was better would have their child take the position of the Han family's head.

Han Jintian had grown up by First Master Han's side since he was young. He had to do everything according to First Master Han's request. Moreover, Han Jintian had also inherited First Master Han's domineering methods. He had been a typical devilish child since he was young. There was nothing in the world that he didn't dare to do. No one could control Han Jintian after he became an adult. First Master Han forbade him from stepping into the entertainment industry, but he insisted on entering the entertainment industry. Not only did he rely on his own strength to enter the Directing Department, but he also became the youngest director with a box office of ten billion in Xia country. The higher his achievements in the entertainment industry, the more tense his relationship with First Master Han became.

Feng Qing had already known Han Jinlu when she was still blind. Although she couldn't see Han Jinlu's appearance, she felt that this man was very steady and sophisticated. Moreover, he was very smart. He often had the same opinions and thoughts as her in terms of operating the company. The two of them cooperated very happily. The only pity was that three years ago, Han Jinlu was set up by others, which caused his legs to be seriously injured. Feng Qing had tried a lot of methods to treat his legs but to no avail. Therefore, Han Jinlu could only sit on a wheelchair for the rest of his life.

Han Jintian swept his cold eyes across Feng Qing and Han Jinlu and raised his eyebrows. "You're friends with such a person?"

Feng Qing nodded. "Yes."

Han Jintian asked again, "How long have you known each other?"

Feng Qing replied, "Three years at most."

Han Jintian curled his lips. "Yo, you've known each other for so long. If I remember correctly, Blue Stocks Capital is the biggest threat to the Xie Corporation at the moment. And you, the madam of the Xie family, actually know the president of Blue Stocks Capital. Does your Xie Jiuhan know?"

When she heard the words 'Xie Corporation', Feng Qing wanted to pounce on Han Jintian and cover his mouth. Unfortunately, she was still a step too late. Han Jintian still said the rest of his words, but Han Jintian was dumbfounded by her actions. He didn't know why Feng Qing wanted to cover his mouth. Did he say something wrong?

However, hearing his words, Han Jinlu, who was sitting opposite him, raised her eyebrows. "The madam of the Xie family?"

Feng Qing : "..."

She felt that it was a mistake to bring Han Jintian over for dinner today, or perhaps it was a mistake to eat with Han Jintian. She had known Han Jinlu for three years, but she had never told Han Jinlu her true identity. She didn't expect that Han Jintian would expose her today.

Feng Qing sighed and blinked her large eyes at Han Jinlu. "Actually, I didn't mean to hide it from you. I've been quite busy, so I didn't tell you. Last year, I married Xie Jiuhan on my eighteenth birthday."

Han Jinlu: "???"

Ever since he was pushed to the position of the president of Blue Stocks Capital by Feng Qing, he had always treated the Xie Corporation as his biggest competitor. Every day, he would fantasize about starting a war with the Xie Corporation. He wanted to defeat Xie Jiuhan, the legend in the business world. But before he could start a war with the Xie Corporation, the boss of their Blue Stocks Capital actually turned the tables on him?
