

## The Wife I Picked Up Is Too Chapter Chapter 697

Chapter 697: Bran Is Scared

“Not good, Mayor Bran. An unknown force has broken into the mansion. Countless of our people are dead or injured. It looks like they’re here for you,” a loyal subordinate said anxiously.

Mayor Bran frowned. He was naturally not in a good mood after being interrupted. “Who are they? How dare they attack this place? I want to kill them all!”

He was still immersed in the virgin’s beautiful body just now, and now, his consciousness had yet to completely come back to his body. He only thought that some overconfident person was causing trouble, so he did not know how serious the situation outside was. After all, he had the management rights of the entire city and the best submarines and warships in the vicinity, so he had never thought that anyone could threaten his life and property.

The loyal subordinate said anxiously, “Mayor Bran, the situation is urgent now. You should escape through the secret passageway in the mansion first. It’ll be too late if you don’t leave now.”

Bang! Before Mayor Bran could ask anything else, he saw his loyal subordinate’s head explode in front of his eyes. White brain matter mixed with dark red blood splashed everywhere. Two eyeballs even hit his face, and the sticky matter sprayed all over his body.

Mayor Bran was stunned. He watched in disbelief as the headless corpse fell. Although he had killed many people, this was the first time he had seen such a bloody scene. The woman on the bed let out a piercing scream, even sharper than the one she had shouted when Mayor Bran raped her.

Mayor Bran came back to his senses and pulled open the bedside table to take out the gun inside. At this moment, seven to eight people rushed into the room and several red dots aimed at him.

When he saw the person in the lead, Bran said with a fierce expression, "So it's you? You broke our rules here. I haven't settled the score with you yet, but you actually dare to bring people to attack my mansion. Don't think that I'm afraid of you. No matter what you do, as long as I die, you and your people won't be able to escape this sea area. Even if I die, I'll drag you down with me!"

Bran flipped his wrist and pulled out a red dagger from under the pillow. Before he could hurt anyone, a bullet shattered Bran's hand. Blood dyed Bran's hand red. The intense pain almost made him faint. The beautiful girl on the bed even fainted.

"Kid, how dare you hurt me? Do you want to die?" Mayor Bran threatened with his eyes wide open.

Xie Jiuhan raised his gun and pressed the cold muzzle against Bran's forehead. He looked at him disdainfully and said, "Have you heard of Lord Phoenix?"

Mayor Bran was stunned. "You, you're the Lord Phoenix?"

Xie Jiuhan curled his lips. "Of course!"

“Do you still think I don’t dare to kill you now? Or do you think your family can stop me with your little strength?” Xie Jiuhan continued after seeing that Bran had heard of his name.

The next second, Bran’s legs went weak and he knelt on the ground. It wasn’t that he wanted to kneel, but his legs were trembling all over. He couldn’t exert any strength at all. He finally realized the seriousness of the problem as he looked at Xie Jiuhan’s black gun muzzle. He had clearly looked like he wasn’t afraid of anyone and wanted to eat someone just now, but now, he was like a puppy begging for mercy.

At the critical moment, Bran no longer cared about his reputation. He knelt down and moved towards Xie Jiuhan. “Is it too late for me to call you Daddy now?”

Bang! Another gunshot rang out. Xie Jiuhan pulled the trigger. He did not blow up Bran’s head, but he shattered the tiles in front of him. However, the loud gunshot still hurt Bran’s ears. He did not want Bran to get close to him. He was afraid that he would be disgusted by Bran’s dirty hands.

A few minutes later, Xie Jiuhan was sitting on pure white polar bear fur. One hand was supporting his chin, and one leg was crossed on the other. His face was expressionless, but he gave off the impression that he was looking down on the common people. The room was filled with fully armed mercenaries, all of them exuding a murderous aura.

Bran was only wearing a pair of triangular pants because he was enjoying the young body of a virgin. Under Xie Jiuhan’s gaze, he obediently opened the secret door and personally moved the items inside to

the front of Xie Jiuhan. These were all the rare treasures he had collected for many years. Now, they could be exchanged for his life.

Bran knelt in front of Xie Jiuhan with a round purple diamond the size of a pigeon egg in his hands. He lowered his head and said, "Lord Phoenix, this is a natural purple diamond, and it's also the biggest I've ever seen. I can give it to you as a gift now that you're here. Also, those diamonds, gold, pearls, and so on are given to you as travel expenses."
