

## The Wife I Picked Up Is Too Chapter Chapter 713

Chapter 713: Master Yin's Invitation

On the freighter, Xie Jiuhan walked to the deck. He looked at the many armed guards standing on the dock. One of the guard leaders bowed and said, "May I ask who is Huge Whale?"

The Sword God stood beside Xie Jiuhan. His old face was serious, and his eyebrows were knitted together. For some reason, he felt that something was wrong when he looked at the fully armed guard in front of him.

Just as he was about to say something, Xie Jiuhan said, "I'm Huge Whale."

The guard leader looked at Xie Jiuhan and said, "Master Yin invites you."

Hearing the words 'Master Yin', Xie Jiuhan raised his eyebrows. A cold glint flashed across his black eyes. "Master Yin? The boss of Blue Stocks Capital?"

The guard leader replied, "That's right."

The corners of Xie Jiuhan's mouth curled up. He was quite interested in the boss of Blue Stocks Capital. In the past, he had only heard that he was called Master Yin. He didn't expect that he would take the initiative to invite him today.

The Sword God said, "I'll accompany you."

He could feel the killing intent and blood smell from the other party's guard. That was an aura that only those who had really killed on the battlefield would have. Now, the other party wanted to see Xie Jiuhan the moment he came up. He would not believe that there was no trap.

Xie Jiuhan snorted coldly. "Stay here and give me the Zhenpin Tianxiang. I'll personally meet Master Yin."

The Sword God did not dare to say anything else when he saw that his attitude was so firm. He could only follow his instructions and hand the fragrance to Xie Jiuhan. Then, Xie Jiuhan got off the ship without looking back.

...

At warehouse number three on the dock.

Just as Xie Jiuhan walked into the warehouse, the door was closed from the outside. Instantly, his vision darkened. However, Xie Jiuhan quickly adapted. Xie Jiuhan felt that the guards beside him were filled with killing intent. He turned around and saw that the guards who had brought him in were all attacking him. The corners of Xie Jiuhan's mouth curled up slightly. It looked like this Master Yin was quite vengeful.

At the same time, in warehouse number two, Han Jinlu was sitting in a wheelchair and looking at a laptop placed in front of him. In the blink of an eye, more than ten signals on the screen disappeared.

“This...” Han Jinlu looked at the screen in disbelief. He even suspected that apart from the surveillance system’s malfunction, more than ten people had been wiped out in less than a minute?

Han Jinlu turned to look at Feng Qing behind her and said, “Master Yin, our people...”

Feng Qing reached out and stroked her mustache. She said with interest, “It looks like Huge Whale’s skills are extraordinary!”

After thinking for a while, Han Jinlu pressed a button on his laptop. Then, there was a vibration on the ground. Han Jinlu said coldly, “This is the only way!”

In warehouse number three.

Xie Jiuhan was in the darkness. It was too easy for him to deal with a few guards. He originally planned to walk into the warehouse, but after a tremor, a black mecha rushed out of the darkness. The warehouse was dark, and Xie Jiuhan could only vaguely see the outline of the mecha. However, just from the sound, he could guess what it was.

The so-called fighter armor was actually a mechanical combat suit for a person. It was a little like the combat robots controlled by humans in sci-fi movies. The fighter armor was the latest research invention of the Xia Academy of Science. Be it attack or mobility, it was very terrifying. At present, apart from not being able to fly, there was nothing it couldn't do.

Xie Jiuhan kicked the ground with his legs when he heard the mecha that was about to reach him. Before the mecha's attack could arrive, he jumped onto the head of the mecha. Then, he moved something on the mecha and the entire mecha instantly stopped. The person sitting inside the mecha was shocked to discover that no matter how he controlled the mecha, there was no reaction.

Xie Jiuhan jumped down from the mecha and pressed something again. The mecha started to fall off piece by piece. Then, the combatant's true appearance was revealed. Xie Jiuhan did not stand on ceremony and sent the mecha operator to collect the lunch box with a punch.

In warehouse number two.

"Hiss..." Han Jinlu gasped. He couldn't imagine what had happened in warehouse number three. Who was ambushing whom? Not only had Huge Whale easily destroyed an entire combat team, but it had also destroyed the latest killing machine, the fighter armor. This strength was too terrifying.

Han Jinlu looked at Feng Qing and said, "Is this still a f\*cking human?"

Feng Qing was still stroking her mustache, as if she was not surprised. After thinking for a while, she instructed, "Since hard doesn't work, let's use soft methods and give him some medicine."

Han Jinlu nodded. "Understood."
