

## The Wife I Picked Up Is Too Chapter Chapter 718

### Chapter 718: Why Are You Excited?

“Yin, f\*ck you! If you still want a complete corpse after death, take your dirty hands away immediately! You’re definitely the first person who dares to touch me casually, but you’ll also be the last. I can guarantee it.” Xie Jiuhan cursed as he struggled.

However, after struggling for a while, Xie Jiuhan was completely dumbfounded. He realized that he could no longer control his body. It felt as if his brain had completely lost contact with his body. Moreover, although his eyes were open, his vision was blurry. He could originally see the outline of the Blue Stocks’ boss’s body, but now, he couldn’t even see his outline clearly.

At the same time, Feng Qing finally grabbed the thing in Xie Jiuhan’s pocket. However, to Feng Qing’s surprise, she realized that the thing in her hand was not the Zhenpin Tianxiang, but...

She wanted to let go, but she thought that Xie Jiuhan should be the one feeling uncomfortable now. After all, she had grabbed his vital parts. Hence, Feng Qing clenched her fists tightly. She would take this opportunity today to teach this man a lesson.

Feng Qing said in an extremely wretched man’s voice, “Aiyo, Ninth Master, not bad. Are you in a good state? You look like you’re in high spirits. However, I’ve just started. Why are you so excited?”

Xie Jiuhan : “...”

The man's eyes were like that of a wild beast as he stared at the blurry black shadow in front of him. He was so angry that he could barely see clearly. The man's throat moved and he let out a low growl like a cat. "Let go! Let go!"

The corners of Feng Qing's mouth curled up. "It's impossible to let go. It's rare that I met the Ninth Master today, so I must have a good taste of the Capital's overlord. Don't worry, I'll be very wild later and help you push open another door to a blissful life. I'll definitely let you have an aftertaste."

These words brought a huge impact and shock to Xie Jiuhan, and it also caused the anger in his heart to reach its peak. He, Xie Jiuhan, had never been so humiliated in his life. The violent genes in his bones that had been dead for a long time had been completely awakened. The blood in his body was flowing faster, and the temperature of his blood was also rising rapidly. Feng Qing did not notice the change in the man at all. She leaned towards him again.

"Ninth Master, you should still remember, right? That year, it was because I believed you that I personally brought a batch of goods to look for you. However, when I arrived there, I knew that I had been cheated.

"At that time, the Blue Stocks Capital had just been established not long ago. Moreover, it had just suffered a huge loss and fell into your trap. My subordinates couldn't take it and were beaten until they lost their helmets and armor. I ordered them to retreat. I personally stayed behind to be the bait.

"However, you confiscated my batch of goods and the remaining forces under Old Master Xie's subordinates also took advantage of the situation. All of you retreated, but I was captured by Old Master Xie and placed in an iron cage by them.

“Do you know what I experienced? The whip was dipped in chili water and they used it to whip me, and they even injected me with medicine to increase the pain. At first, I thought that you didn’t know about this. I was naive to think that the person who set me up was the Mechanical God of the Xia Academy of Science!” Feng Qing tortured Xie Jiuhan as she recounted what had happened three years ago. In the end, her voice trembled.

Feng Qing took a deep breath and calmed down before continuing, “The Mechanical God of the Xia Academy of Science, the genius in the eyes of those old fellows, the original motivation for Xia country’s technological development, but the Mechanical God is arrogant and looks down on all living beings. He looks down on us businessmen who have fallen into the eyes of money!”

Hearing these words, Xie Jiuhan snorted coldly. At that time, it was also the most critical moment of his internal strife with Old Master Xie. Old Master Xie had heard a fake piece of information from somewhere and thought that the thing he had been looking for had fallen into the hands of the boss of the Blue Stocks Capital.

After the Blue Stocks Capital became famous in the business world, Xie Jiuhan discovered something. Every time he made a decision about the Xie Corporation, the Blue Stocks Capital would immediately respond. Therefore, he guessed that someone beside him had leaked the secret.

However, he asked Xie Qi to investigate and did not find any problems. Coincidentally, the boss of Blue Stocks Capital had said that he needed the Zhenpin Tianxiang. Therefore, he set a trap for the other party as the Mechanical God of the Xia Academy of Science. He wanted to remind the boss of the Blue Stocks Capital, but he did not expect Old Master Xie to interfere halfway and cause trouble.

Old Master Xie's men had stolen a batch of goods brought by the boss of the Blue Stocks Capital. It was naturally a good thing for Xie Jiuhan. Firstly, he could give the boss of the Blue Stocks Capital a warning. Secondly, he could find out what the boss of the Blue Stocks Capital had said through the spy planted beside Old Master Xie.
