

## The Wife I Picked Up Is Too Chapter Chapter 742

### Chapter 742: Unable to Crack

Feng Qing placed her phone in front of Xu Mingqian. "I just had a phone call with God Slayer. Hack into my phone and help me track his location. Last time, I heard from Qianxue that he came back from the Seven Stars Continent and seemed to have come straight to the Capital."

Upon hearing the words Seven Stars Continent, Xu Mingqian's eyes trembled. Not everyone could go to that place. It was a place that stood at the top of the world. It was really amazing that he could come back alive from there.

Since Feng Qing had a request, Xu Mingqian was naturally willing to help. He took out a connection cable from his bag and connected her phone to his laptop. Then, his hands flew across the keyboard. To him, tracking the IP address of his phone was too simple, so simple that it was indescribable. However, after operating for a while, Xu Mingqian was stunned because he realized that there was actually a very strong defense system in Feng Qing's phone system. His hacking methods were actually useless.

Xu Mingqian was instantly attracted. He focused his attention and started to crack Feng Qing's phone. His hands danced in the air with afterimages, and the keyboard creaked from his typing. His highly serious and focused appearance seemed to have completely entered a selfless state.

After a while, Xu Mingqian's hands stopped moving. He turned to look at Feng Qing, his eyes filled with shock. "Your phone has been touched, and it's using the Tian Sha's Shield defense system."

Feng Qing nodded. "That's right. Little Jiu Jiu gave me the phone. When I was still blind, in order to make it convenient for me to use, he helped me modify the phone. Perhaps he was the one who placed the Tian Sha's Shield you mentioned."

Upon hearing this, Xu Mingqian was dumbfounded. He didn't expect that Xie Jiuhan was the one who tampered with the phone. What did she mean by perhaps he was the one who placed it in? The source code of the Tian Sha's Shield could only be installed by the King of Hackers, Tian Sha. Other than Tian Sha, no one else could do it.

Xu Mingqian said, "The Ninth Master should have hired someone to modify your phone. Moreover, the person he invited is very likely the King of Hackers, Tian Sha. He's definitely an expert."

With this in mind, he was enlightened. There were many talents under the Xie Corporation, especially in the Xie Corporation's information security center. There were many famous hacker experts. Even if those people couldn't do it, Xie Jiuhan could still spend a high price to hire Tian Sha. After all, the King of Hackers had to eat.

However, Feng Qing said, "According to what I know, Little Jiu Jiu didn't invite anyone else. He should have changed it himself. Isn't my husband very powerful? In my eyes, he's an omnipotent god!"

Xu Mingqian : "..."

Seeing that Xu Mingqian was stunned, Feng Qing not only called out softly, "Brother Mingqian, Brother Mingqian?"

Xu Mingqian came back to his senses and suddenly turned to look at Feng Qing. Feng Qing asked, "Brother Mingqian, are you alright?"

Taking a deep breath, Xu Mingqian placed the phone back on Feng Qing's table. "I can't crack the Tian Sha's Shield. Moreover, the Ninth Master personally modified it for you. It's best that I don't touch it. I'm sorry."

Hearing that he couldn't crack it, Feng Qing was instantly shocked. "No way, aren't you the Night God? Shouldn't this be your forte?"

Xu Mingqian said, "Since this phone was personally modified by Ninth Master, I believe it will be easy for Ninth Master. So go home and let the Ninth Master help you track it."

At the mention of Xie Jiuhan, Feng Qing instantly shut her mouth. She had specially come to look for Xu Mingqian to avoid Xie Jiuhan. If the man found out about the God Slayer, the entire Capital would probably be in a mess. She felt that it was better to forget it after she thought about it.

Hearing the professor talk about music theory, Feng Qing asked, "Brother Mingqian, why did you join the organization?"

Ever since she found out that the Night God was Xu Mingqian, Feng Qing felt a little closer to him when she spoke to him. Actually, she was also very surprised. She didn't expect that Xu Mingqian was the current number one in the hacker alliance, and his position was very similar to hers, the number one on the assassin rankings.

Xu Mingqian replied, "If I say that I just want to become stronger to protect the people I want to protect, will you believe me?"

Feng Qing nodded. "I believe you."

After the class ended, Feng Qing packed her things and went straight to the Finance Department of the business school. Because the two colleges were a little far apart, when she arrived, she was two minutes late.

Feng Qing looked at the classroom door and said apologetically, "I'm sorry, I'm late."

Professor Sun Bun stood in front of the podium and turned to look at Feng Qing. The students in the classroom all looked at her, but their eyes were filled with a strange look.
