

The Wife I Picked Up Is Too Chapter Chapter 756

Chapter 756: An Unusual Smell

Actually, Liu Yan agreed with Lu Yingying's opinion in his heart. For interns like them, the most important thing was not to do field research, but to operate those theories they learned in real life. However, Feng Qing was the team leader after all. Now that no one agreed with her suggestion, he, as a senior, had the responsibility to stand up.

Feng Qing turned to look at Professor Sun Bin and said, "During the weekend, Senior Liu Yan and I will go to Chenghai for a field trip."

Sun Bin nodded and said, "Alright, but this is the first project you've taken on. You have to learn more, watch more, and ask more questions. Even though you guys are interns, it's also an important job. I hope you won't be careless."

A few minutes later, Feng Qing organized a short group meeting with everyone. Then, they sat at their desks and got busy. Feng Qing continued to flip through the information in her hand. At the same time, the phone on the table vibrated.

She pressed her Bluetooth earpiece to answer the call. Then, Han Jinlu's voice sounded. "Congratulations to Master Yin for successfully entering the Xie Corporation's financial center for an internship!"

Feng Qing smiled and said, "Thank you. Our team accepted a five-billion-dollar acquisition project after I was promoted to the head of the intern team."

Han Jinlu : "..."

Hearing the other party's silence, Feng Qing instantly guessed the other party's thoughts. Hence, she smiled and said, "Don't think that five billion is very inconspicuous. That's only for us. For those ordinary university students who haven't graduated, a five billion project is already a super big project for them. Most importantly, one can see the whole picture with a glance. It can be seen how deep the foundation of the Xie Corporation is. They can casually hand over a five billion project to an intern to do."

Han Jinlu's voice sounded. "Master Yin has entered the Xie Corporation's financial center. Don't fall for Xie Jiuhan's beauty. Ever since I found out that you're Madam Xie, I've already formulated a few plans to annex the Xie Corporation."

Han Jinlu wanted her to be the Empress Dowager of the Xie Corporation, the kind that can govern the company from behind the scenes. Feng Qing looked at the information in her hand and listened to Han Jinlu's various plans. Even as Madam Xie, the matter of him being played by Xie Jiuhan back then had really happened.

For some reason, ever since he found out that Xie Jiuhan had tricked Feng Qing, Han Jinlu felt a breath stuck in his chest. He had to make Xie Jiuhan bleed. Otherwise, he wouldn't even enjoy his coffee.

“It’s reliable news that the shares of the various subsidiaries of the Xie Corporation are continuing to rise. Seventy percent of the subsidiaries have already been listed, but most of them are making large movements abroad. They are keeping it low-key in the country. I think there must be something hidden behind the Xie Corporation’s actions,” Han Jinlu said.

“Oh? The Xie Corporation’s share price is high. What are those companies doing outside?” Feng Qing raised her eyebrows.

“Those companies are naturally buying the Xie Corporation’s shares. Moreover, many of our strategic partners in Blue Stocks Capital hope that we can buy a few shares of the Xie Corporation,” Han Jinlu replied.

“Jinlu, let me reiterate. As long as I’m still the chairman of the Blue Stocks Capital, the Blue Stocks Capital is not allowed to attack the Xie Corporation. Not only can it not snatch business from the Xie Corporation, but it can’t earn money from them either. Tell those people that the Blue Stocks Capital is not interested in the Xie Corporation,” Feng Qing replied firmly.

With that, she did not wait for Han Jinlu to speak and ordered, “Also, send someone to check the capital situation in Country E and Country G and see if the forces there are also buying a lot of the Xie Corporation’s shares.”

After hearing Han Jinlu’s report, Feng Qing also smelled an unusual smell. With her sharp sense of the world’s finance, she could feel that something big was about to happen.

Just as Feng Qing and Han Jinlu hung up the phone, her computer screen suddenly turned black. Some of the information that she was checking had also disappeared. Not only her, but the entire 38th floor was the same. Many people who were using computers exclaimed.

“What’s going on? Did someone knock off my power?”

“D*mn! No way, I haven’t saved the powerpoint I worked so hard for the entire day!”

“What’s going on? Is there a blackout?”

Feng Qing stood up from her desk and looked around the room. She realized that every computer screen was black, as if it had been switched off. She raised her eyebrows and took out her phone to ask Xu Mingqian what was going on.

“Oh my god! It’s a hacker. A hacker is attacking our Xie Corporation’s network!” Suddenly, an employee who looked like he knew some computer technology shouted.
