

The Wife I Picked Up Is Too Chapter Chapter 758

Chapter 758: Internet Battle

Xie Jiuhan did not even turn his head as he said, "Connect to the 6G network and follow behind me to launch a full-scale counterattack on the other party. Don't let go of anything. Capture all these stinky rats hiding in the dirty corner. I've written a program for the counter-attack virus at the last minute. Get two people to put a shell on me and release the counter-attack virus in three minutes."

Upon hearing the man's orders, the hackers in the Xie Corporation's Internet security center started operating. Everyone had a serious expression on their faces. The situation was critical now, and they were not allowed to be distracted. Otherwise, forget about the other party counterattacking, they would probably not be able to keep up with Xie Jiuhan's speed. The surrounding Xie Corporation employees all looked on curiously. They were all in the finance industry and did not understand computer programming at all. They only knew that it looked very similar.

A few minutes later, Xie Jiuhan left the computer and started operating another empty computer. Just like that, he finished operating the computers one by one. After walking around for a long time, he returned to the computer he had first used. Everyone saw that when Xie Jiuhan used his fingers to type the enter key on the keyboard, all the computers on the 38th floor that he had operated just now instantly returned to normal.

Seeing this scene, the entire 38th floor was instantly filled with enthusiastic calls, followed by thunderous applause. Everyone was celebrating, and the computers on the entire 38th floor finally returned to normal.

However, Xie Jiuhan had no time to care about the cheers of the crowd. Instead, he brought a group of people from the Xie Corporation's Internet security center to deal with the computers on the 37th, 36th, and so on floors.

At the same time, on the other side of the world, the Troublemaker Hacker Army also realized that something was wrong, so they started to operate in a panic.

“What’s going on? The other party actually cracked our attack?”

“Not only did they crack our invasion, but they also successfully tracked our location. They’ve already discovered us.”

“D*mn! What’s going on? The other party actually infected us with a new computer virus. What kind of virus is this? Why haven’t I seen it before?”

The members of the Troublemaker Hacker Army shouted one after another. Many people were infected by the virus, causing the entire computer system to be on the verge of collapse. Then, the computer screens started to turn red one after another. In the middle of the screen, a string of dazzling special effects words slowly appeared. “You’re not enough to be hackers!”

The Troublemaker Hacker Army: “!!!”

Before they could react, Xie Jiuhan’s low voice sounded in everyone’s earpiece. “If you don’t want to die, don’t touch the Xie Corporation again. Otherwise, the consequences will be very serious.”

The members of the Troublemaker Hacker Army were all foreigners and couldn't understand the man's words at all. However, this didn't stop them from knowing who the man was because two large words appeared on the computer screen: "Tian Sha."

The King of Hackers, Tian Sha, was a legendary figure in the hacker world. In front of Tian Sha, they could only be considered as his grandchildren. Tian Sha was also an existence that they could only look up to.

Xie Jiuhuan's voice sounded again. This time, he was speaking in the language of the Seven Stars Continent. "Speak. Who instructed you to hack into the Xie Corporation's network?"

As the distance was too far, there was some instability in the signal transmission, causing a sizzling sound of electricity to come from Xie Jiuhuan's earpiece. "God Slayer!"

God Slayer was one of the members of A Dark Organization and the founder of A Dark Organization. This person was very mysterious. No one knew much about him. They only knew that the God Slayer had a complicated relationship with certain forces in the Seven Stars Continent.

Seeing that the system was being eaten away bit by bit and would completely fall into paralysis soon, the Troublemaker Hacker Army begged for mercy.

“Tian Sha, the great King of Hackers, please forgive us.”

“Tian Sha, if we knew that you were related to the Xie family, we would never have invaded the Xie family.”

“Tian Sha, I’m very happy to meet you. You’re my lifelong idol. We’re not your match. Please stop.”

Unfortunately, no matter how they begged for mercy or apologized, Xie Jiuhan acted as if he didn’t hear them. He didn’t say another word.

...

At this moment, in a corner of the Capital, a man filled with explosive muscles came ashore from the pool. The man was tall, and his muscles were well-defined. His entire body was dripping with water, and his body was covered in complicated wounds of various sizes.
