

The Wife I Picked Up Is Too Chapter Chapter 761

Chapter 761: Xie Jiuhan Is Tian Sha?

Being pressed firmly onto the desk by the man, Feng Qing felt something poking her butt. Hence, she reached down and found a thick stack of documents.

“Hubby... Oh... I sat on the document...” Feng Qing said.

However, the man seemed to not have heard anything. The contract worth tens of billions on the table was only a few pieces of waste paper. The man’s large hand kept rubbing against the woman.

“Remember, when your hubby kisses you in the future, you have to be focused,” Xie Jiuhan said domineeringly.

Feng Qing rested her head on the man’s chest and panted softly. On the highest floor of the Capital, the man wrapped in a suit and leather shoes was strong and capable. He leaned down and enveloped the petite woman in his aura...

Outside the president’s office, a secretary from the secretariat was about to look for Xie Jiuhan to sign a stack of documents. Su Yu, who had just raised his chair for half an hour, hurriedly stopped the secretary from knocking. “If you don’t want to be fired, it’s best not to disturb the Ninth Master now.”

The female secretary froze and turned to look at Su Yu. “But this document is very urgent...”

Su Yu shook his head. "Even if there's an earthquake soon, it won't be as important as what he's doing now."

The female secretary was stunned and looked at the president's office in confusion. She knew that Su Yan never joked with them. Although she wanted to know what the Ninth Master was doing inside, she swallowed her words after thinking about it.

On the 38th floor.

Although Xie Jiuhan had already left with everyone, the entire floor was still excited. The hacker battle that Xie Jiuhan had led the employees of the Xie Corporation's Internet security to carry out just now had made them discuss it happily. They were no longer in the mood to continue working.

As the battle ended, the popularity of the news that the Xie Corporation's network had been hacked by hackers started to fade. In its place was the news that the president of the Xie Corporation had led his employees to turn the tables.

At the same time, the Troublemaker Hacker Army far away in Seven Stars Continent released an apology letter on the World Hacker Forum. They apologized for attacking the Xie Corporation's network and apologized to the president of the Xie Corporation, Xie Jiuhan, and begged the King of Hackers, Tian Sha, to forgive them.

Seeing this apology announcement, the entire hacker world was shocked. Everyone knew one thing. It turned out that the King of Hackers, Tian Sha, had a deep relationship with the Xie Corporation. Those with big imaginations had even guessed that Xie Jiuhan was Tian Sha!

As soon as this idea came out, many people believed it. Hence, an intense discussion about Xie Jiuhan being Tian Sha erupted on the Internet. Countless users and huge amounts of information even caused the entire Internet to be on the verge of paralysis.

“How heaven-defying! The president of a super financial group is actually the King of Hackers.”

“That’s Tian Sha! No one in the hacker world can beat him.”

“No wonder ever since Xie Jiuhan became the president of the Xie Corporation, the network security of the entire Xie Corporation has never had any problems. So that’s what happened.”

“Tian Sha will always be Tian Sha. That strongest man who wandered the Internet had once defended the network security of the entire Xia country alone.”

“It’s been so many years, but God Tian Sha is still awesome. I thought he had retired from the hacker world, but I didn’t expect that he would still be so powerful. Those people should be glad that they have such good luck to be able to fight Tian Sha.”

Word spread like wildfire. There were many rumors that made it seem to be true. The news that Xie Jiuhan, the president of the Xie Corporation, was the King of Hackers, Tian Sha, was believed by everyone as if their guesses had become reality.

Of course, there were also people who raised doubts on the Internet. "Xie Jiuhan, the president of the Xie Corporation, can't be Tian Sha because he's only 25 years old this year."

As soon as this post was released, it was as if someone had thrown a brick into the lake. Instantly, the entire Internet exploded. The netizens who were still excited about it just now were all petrified in front of their computers. In the next few minutes, tens of millions of comments erupted on the website.

"When Tian Sha was in the hacker world, it seemed to have been ten years ago. At that time, Xie Jiuhan was only fifteen years old."

"A 15-year-old child can defend the security of the entire Xia country's network by himself?"

"It's terrifying to think about it! A 15-year-old child is actually the King of Hackers, Tian Sha. He made all the hackers in the world kneel at such a young age. Now that he's only 25 years old, won't he continue to lead the entire hacker world for decades?"
