

## The Wife I Picked Up Is Too Chapter Chapter 814

Chapter 814: Are You Planning to Be A Freeloader?

After the two of them cuddled for a while, Feng Qing said with a red face, "Aren't you worried at all that the Xie Corporation's shares have fallen so much?"

Xie Jiuhan smiled. "Why? If I go bankrupt, you won't support me?"

The corners of Feng Qing's mouth curled up. "Is Little Jiu Jiu planning to be a freeloader? Su Yu already said just now that you have a bad temper and a bad personality. You won't be able to last long with just your beauty. Besides, your skills in certain aspects aren't too good, so it's probably not easy for you to freeload."

Xie Jiuhan: "!!!"

Hearing Feng Qing's words, the man was shocked. Even when he heard that the Xie Corporation's shares had collapsed, he was not as shocked as he was now. He even revealed a hint of doubt on his face.

Xie Jiuhan: "My skills aren't good...?"

Feng Qing raised her head. She was telling this man silently that the marks on her body were the most advantageous evidence of his poor skills. Xie Jiuhan's aura weakened. He mumbled with confusion in his voice, "I won't give up on you even if you become a little fool. But in turn, if I go bankrupt, you won't be willing to support me?"

Feng Qing turned her face to the side and suppressed her smile. She could hear confusion and grievance in this man's words. Xie Jiuhan approached her and rubbed his thin side profile against her soft face. He looked especially like March when he was trying to please her. He couldn't let Feng Qing doubt her husband's skills.

Feng Qing could only say with a red face, "My husband is talented. As long as he studies more and improves in the future, his skills in certain aspects will definitely be great, so you don't have to worry about yourself at all. By the way, you don't have to worry about me. I'm already fine. The Xie Corporation's shares have fallen drastically. There should be a lot of things waiting for you over there, right?"

The shares under the Xie Corporation had all collapsed. Xie Jiuhan had probably lost billions during the time he was intimate with her. Every time the stock market moved, he would lose hundreds of millions.

However, after hearing her words, not only did Xie Jiuhan not leave, but he also took off his shoes and socks and laid by her bed. "I won't go to the corporation for the next few days."

Feng Qing looked at the man in confusion. She saw Xie Jiuhan leaning against the bed and taking off his shirt again. Then, he revealed his firm muscles and perfect outline. He lifted a corner of the blanket and placed Feng Qing down. He laid beside Feng Qing and wrapped his arms around her abdomen.

Xie Jiuhan's voice that landed in her ear had a hint of deep tenderness. "This is the first time in history that such a thing has happened since the establishment of the Xie Corporation. Moreover, according to my judgment, this should only be the beginning. The market value of the shares is falling drastically. I reckon there will be a larger drop later."

Feng Qing asked curiously, "So your goal is?"

Xie Jiuhan smiled and said, "I want to see who's behind all of this and who wants to arm wrestle with the Xie Corporation."

At the end of his speech, the man's aura surged. He couldn't help but smile ostentatiously, and his eyes were filled with fighting spirit. All these years, the Xie Corporation had rarely met an opponent, and no one dared to make an enemy of the Xie Corporation. Now that an opponent had appeared, as the president, he naturally had to play with the other party.

Feng Qing laid in the man's arms and blinked her clear eyes. She finally understood what Xie Jiuhan meant. It turned out that her man was planning to catch a big fish. What did the Xie Corporation not lack the most? Without a doubt, it was money. Even if he lost so much money that he was in debt, he could still earn the money back. Otherwise, how could he live up to the title of 'Walking Banknote Factory' given to him by the business world?

To Xie Jiuhan, the current situation was that the enemy was in the dark and their Xie Corporation was in the open. If he were to hurriedly invest new funds in the stock market and try to raise the price, he would fall into the trap set by the enemy. Therefore, the best choice now was to stay

put and pretend that nothing had happened. That way, the enemy hiding in the dark would be anxious. Therefore, there would be a second and third time. In the end, there would always be a time when the other party was exposed. This was the result Xie Jiuhan wanted.

Feng Qing turned to look at the man and smiled. "President Xie, aren't you afraid when you leak such an important plan of the Xie Corporation to the chairman of Blue Stocks Capital?"

Feng Qing could guarantee that if Han Jinlu heard these words just now, he would definitely persuade her to make a move. Although she and Xie Jiuhan were family, Han Jinlu had never treated Xie Jiuhan as one of his own, much less treat the Xie Corporation as his own force.
